

## Merchant 1501

### Chapter 1501: Cracked Sky Falcon Sparrow

There were also many other chaotic noises accompanying the angry shriek.

The voice was so loud that every person should have heard it in the tunnel.

However, the group soon realized that the first half of the tunnel had been soundproofed with metal-type spiritual ingredients.

Since there were no soundproofing metal-type spiritual ingredients in this tunnel section, it indicated that the people from Whale Ocean Commerce no longer cared whether these people knew about the truth.

Lin Yuan found the shrill voice to be rather familiar.

The chilling cry and other angry noises of chaos caused the group of Creation Masters to go into hysterics.

At that moment, a wave of air kicked up behind the group and pushed the group out of the tunnel.

The group was pushed out into a flat open space.

The many lanterns with strange flames that lit the area made the space seem macabre.

There were currently many Creation Masters in this space, and a young man was kneeling nearby. He was clutching three corpses, and his eyes were filled with rage and despair.

A man and a figure wrapped in a black robe were seated on two stone thrones.

The man had an excited look of longing on his face as though something he had been looking forward to was finally happening.

The figure wrapped in a black robe resembled a monster of darkness that was utterly empty of life.

At this moment, He Ji's face turned grim, and she yelled, "Di Wantian, what are you doing!?"

He Ji had already recognized the man seated on the stone throne.

Di Wantian pretended that he had not heard what He Ji said. He turned his piercing gaze to the crowd and asked Di Wancheng, "Second Brother, did anyone escape?"

Di Wancheng leaped up and landed on the stone throne on the left of Di Wantian and said, "Big Brother, everything went well."

Di Wancheng glanced at the thousands of Creation Masters behind him before saying to the figure in black in a heavy tone, "Third Sister, if you only need half of these Creation Masters to become a Class 5 Creation Master, why don't you spare the other half of this group of Creation Masters?"

Di Wancheng did not bother to lie or hide in such a situation.

There were pinnacle Class 4 Creation Masters like He Ji in the group. However, these pinnacle Class 4 Creation Masters did not have powerful combat abilities like the Moon Empress, Chef Supreme, and Bamboo Monarch did.

He Ji was an S-rank spirit qi professional, but even when her three feys were at full power, she was only a pinnacle thearch-class expert.

Di Wancheng and Di Wantian had gained Immortal power. They had hidden their abilities all this time to keep the spotlight off Whale Ocean Commerce.

Thus, the people present were all underestimating Di Wancheng.

In order to build this basement, Whale Ocean Commerce had even used Sovereign Spatial Break Purple Gold.

The walls would even be able to block the energy fluctuations from the full-powered attacks of new Immortal experts.

The basement wrapped in the Spatial Break Purple Gold was like a caged world.

Only experts who had reached pinnacle Immortal would be able to break out of the cage.

But how were they supposed to find a pinnacle Immortal expert here?

If there was a pinnacle Immortal expert here, Whale Ocean Commerce would be done for, and Di Wancheng and Di Wantian would not be able to use the lives of these Creation Masters to turn their sister into a Class 5 Creation Master.

Di Wancheng had not bothered to cover up the truth, so all of the Creation Masters turned to look at him and the figure wrapped in black in shock.

Although Di Wancheng had not said it explicitly, the Creation Masters had managed to guess what was happening.

Was Whale Ocean Commerce trying to take the lives of every Creation Master here to produce a Class 5 Creation Master? How dare they!?! This was no different from cutting the Radiance Federation's roots!

More than half of these Creation Masters were less than 40 years old and possessed great potential.

These thousands of Creation Masters could help at least 80,000 spirit qi professionals obtain feys as well as evolve 100,000 feys after working for ten years.

Creation Master resources were the equivalent of the Radiance Federation's power.

Before Di Wantian and the black-robed figure could reply to Di Wancheng, He Ji summoned all of her feys.

Three figures wrapped in smoke appeared around her in a triangle formation.

The three figures released unmistakable Creation Breed auras, and three different world powers permeated the basement.

However, the world power could not break through the walls at all.

He Ji's chest tightened when she noticed this.

Whale Ocean Commerce was indeed well prepared.

He Ji had wanted to strike first and escape this basement, but it seemed that this plan was not viable.

He Ji shouted at the three people seated on the stone thrones, "What is Whale Ocean Commerce trying to do? You should think before you act! How can you do something so blasphemous as to kill thousands of Creation Masters just to turn one person into a Class 5 Creation Master? When you became a Class 1 Creation Master, didn't the teacher who administered the test tell you that the most important thing about being a Creation Master is the legacy?"

Di Wantian was clearly annoyed when he heard what He Ji said.

After He Ji's question, Di Wantian flipped over his hand with a stony expression. A small silver bird appeared in his hand.

At the same moment that the small silver bird appeared, there were three flashes, and three small holes appeared in the abdomens of the smoke-covered young girls around He Ji.

Lin Yuan could see the spirit qi clothes worn by the spirit qi professionals behind them through the holes.

Not a single drop of blood flowed out, but the three feys in human form withered and collapsed to the ground. They did not even have the energy to climb back up to their feet.

Lin Yuan used True Data on the small silver bird in Di Wantian's hand and saw that it was called the Cracked Sky Falcon Sparrow.

Its abilities and exclusive skills were all question marks, which meant that the Cracked Sky Falcon Sparrow had gained Immortal power.

### **Chapter 1502: Sudden Change of Events! Di Wantian and Di Wancheng Are Dead!**

But through the method of contact, there was no question that the Cracked Sky Falcon Sparrow was a spatial-type fey.

The Cracked Sky Falcon Sparrow's piercing attack against He Ji's three feys and injection of spatial power into their organs was extremely cruel.

He Ji looked at Di Wantian with pure malice when she saw her feys' severe injuries. However, there was nothing she could do about it.

She could not cross the gap to reach Immortal power. It was not because she could not concoct spirit fluids to transform feys to Immortal or that she had no access to Immortal experts to help her main feys overcome their Trials of World Creation. The reason was that her talent was limited, and she was intrinsically unable to break through to become an S+ rank spirit qi professional.

As a result, even though she could roll grades, she could not contract Immortal Breed feys.

When one was teetering over the cliff between life and death, true power was the only thing that mattered.

Di Wantian's power was like a dagger that was currently being held against He Ji's throat. He could plunge it through her skin and take her life at any time.

At that moment, He Ji's mind was preoccupied with more thoughts than her own death. She was also worried that these Creation Masters would be killed by Whale Ocean Commerce and result in one of the Radiance Federation's greatest massacres.

Di Wantian grinned evilly at He Ji and said, "How is it blasphemous? Spirit qi professionals can kill to obtain spoils, and it is considered following the law of the jungle. We are doing the same by using a different method to help Third Sister become a Class 5 Creation Master. You are contributing by giving up your life to witness the birth of a Class 5 Creation Master. Your death will be the moment of your greatest glory."

Di Wantian's words were so shameless that they left He Ji shaking with anger.

Even the ever stubborn He Ji suddenly felt as though her age was catching up to her.

Now that she knew what Ten Thousand Flags Trading was planning, she knew that the members of Sea Sky Nurture had not been laying low all these years but had already been killed.

She was so panic-stricken that she decided to take a dangerous route.

She considered burning up the Creation Breed feys that had been with her for more than two centuries and sacrificing her life to take down the black-robed figure.

Once the black-robed figure was killed, Ten Thousand Flags Trading would have to give up their hopes of gaining a Class 5 Creation Master.

Although He Ji dared not guarantee that Di Wancheng and Di Wantian would not attack these Creation Masters out of anger, at least there was also the possibility that they would release the Creation Masters.

Just as He Ji was about to circulate her spiritual power, she felt a pair of hands grab hold of her trembling body.

He Ji turned and saw that the person holding her was the person she thought was a mole for Whale Ocean Commerce.

She was about to push this young man with plain looks and overwhelming charisma aside when Lin Yuan said, "Senior, leave it to me—"

Before he could finish speaking, the situation changed.

Two cries of pain were released in the direction of the thrones.

A small black insect had pierced Di Wantian, Di Wancheng, and the Cracked Sky Falcon Sparrow.

Di Wantian, Di Wancheng, and the Cracked Sky Falcon Sparrow were immediately paralyzed.

Di Wantian and Di Wancheng's bodies were lifted by vines that pierced their bodies.

Not even the Cracked Sky Falcon Sparrow could help Di Wancheng escape his fate. Although all of its feathers were stronger than Sovereign spiritual ingredients, it was still unable to cut through the brown vines.

However, Lin Yuan felt that the vines were more like roots.

Di Wancheng and Di Wantian turned their heads in agony toward the black-robed figure and asked in disbelief, "Third Sister, what are you doing!?"

The black-robed figure rose to her feet, and the black robe fell to the ground to reveal a beautiful girl with purple hair and red eyes.

She had an elegant yet feeble aura. It was as though a gust of wind would be able to knock her over.

They were clearly at the precipice of a brutal massacre, yet the girl looked no different from when she was frolicking through a garden in the afternoon.

She looked up at Di Wancheng and Di Wantian before saying in a weak voice, "Big Brother and Second Brother, don't you want me to become a Class 5 Creation Master? In fact, I became a Class 5 Creation Master long ago but didn't tell you."

Di Wancheng and Di Wantian seemed to forget the torturous pain of being pierced by the vines.

They were about to ask but were so shocked that they had been rendered speechless.

The girl flicked her apricot-colored skirt when she saw her brothers' looks of incredulity and drawled, "I didn't want to kill you two. I left the Radiance Federation and sought out Second Page Revival after becoming a Class 5 Creation Master.

"Second Page Revival promised to hire me as one of Tower Canon's Creation Masters. I will be subbed in when Eighth Page is injured. However, I didn't expect the Decay Body Flesh Ginseng to gain a new ability when it evolved to 7 Stars.

"Its roots can now act as blood vessels and link me to the roots of the other lifeforms. The other lifeforms will turn into a spare set of spiritual power, vitality, and lifespan for me. Without your spiritual power, how will I be able to absorb these thousands of Creation Masters?"

"If I don't absorb these Creation Masters, my road as a Class 5 Creation Master won't be smooth. Those who aren't Class 5 Creation Masters will never understand that becoming a Class 5 Creation Master is just crossing the threshold. You will only truly be able to evolve lifeforms once you become a Class 5 Creation Master.

"Both of you want nothing more than for Whale Ocean Commerce to be prosperous. Now, you will become my batteries. Shouldn't you be happy that my lifespan has multiplied? As long as I'm alive, Whale Ocean Commerce will be able to bask in glory. Both of you can die in peace."

Di Wantian and Di Wancheng were shocked and utterly disappointed by what Di Wanmi said. They could not understand why the sister they had doted on would say and do such things.

Di Wancheng had always been reluctant to prey on Creation Masters.

Di Wantian was willing to attack Creation Masters but had never thought about betraying the Radiance Federation because he saw himself as a citizen.

However, Di Wantian placed the benefits of their family on a pedestal that nothing would be able to replace. He was willing to damage the Radiance Federation for the sake of his family's prosperity.

But now, his sister wanted to leave the Radiance Federation to become one of Tower Canon's recruited Creation Masters.

### **Chapter 1503: Arrival of the Night Empress!**

Di Wantian was well aware of the kind of faction Tower Canon and person that Second Page Revival was.

After a few interactions, Di Wantian and Di Wancheng realized that something was wrong with the Eight Pages of Tower Canon. However, they could not put their finger on what was wrong.

Moreover, was it really that easy to replace the Eight Pages of Tower Canon?

At that point, the Decay Body Flesh Ginseng's roots had already pierced Di Wantian and Di Wancheng's hearts so they could transform into blood vessels that would drain Di Wancheng and Di Wantian's blood. This would turn them into two living batteries.

Di Wantian fixed his angry eyes on Di Wanmi before uttering his last words, "Third Sister, give up being a Creation Master! If you join Tower Canon for the sake of becoming a Class 5 Creation Master, they will take charge of your life."

At that moment, realization had dawned on Di Wantian.

Now that his family was broken, and there were no benefits in store, Di Wantian only hoped that he would be able to protect this family that he had hurt.

There was no denying that he was now a criminal in the eyes of the Radiance Federation. He would have to carry the brand of a sinner for eternity.

However, Di Wantian hoped that he would be able to atone for his transgressions against the Radiance Federation before his death. He also wanted to extend a final arm of salvation out to his blood kin so that she would be able to stop her descent into the darkness of evil.

Di Wanmi's lips curled into a smile of derision that made her look like a porcelain doll.

"The Creation Masters' bodies are just sources of power that I can use to increase my power. What is the difference between them and spirit qi? All I want is to increase my power. I'm joining Tower Canon because Second Page Revival promised me they will provide me with all the Creation Masters in the

world to enable me to constantly improve myself. I will be able to see the beautiful world that lies beyond Class 5 Creation Master.”

Before Di Wanmi could finish speaking, Di Wantian lost consciousness just like Di Wancheng had and became Di Wanmi’s battery.

When Di Wanmi attacked her brothers, Lin Yuan secretly used True Data to check on the Decay Body Flesh Ginseng’s roots.

[Sacred Source Name]: Decay Body Flesh Ginseng

[Sacred Source Species]: Source genus/Sacred Source species

[Sacred Source Star Grade]: 7 Stars

[Sacred Source Type]: Wood

Abilities:

[Ginseng Roots Accepts Intelligence]: The extended ginseng roots will enter a target’s body. After the target’s spirit and soul have been destroyed, the Decay Body Flesh Ginseng will be able to drain and absorb the target’s knowledge and experience through its spirit and soul.

[Withered Ginseng Continuous Rain]: When the Decay Body’s life force is about to end, it can absorb the life force of other life forms to nourish itself. A surplus of vitality can recover the spirit and soul.

[Blood Flesh Battery]: When the ginseng roots combine with the blood vessels of a target that has the same source of energy as it, it can control the target’s body and use it as a backup store of energy, lifespan, and vitality. The transformed targets can defend against lethal attacks.

After checking, Lin Yuan now understood the Decay Body Flesh Ginseng’s secret and how Di Wanmi was able to use Creation Master bodies to create a path to become a Class 5 Creation Master.

Ginseng Roots Accepts Intelligence enabled Di Wanmi to gain knowledge and experience from the spirits and souls of Creation Masters. This gave Di Wanmi the confidence to become a Class 5 Creation Master.

A large road could split into countless side roads. If one attempted all the side roads, one would be able to create another large road.

As for Withered Ginseng Continuous Rain, Di Wanmi would essentially be immortal as long as she had a life form near her that she could drain of vitality to recover herself.

Withered Ginseng Continuous Rain would enable Di Wanmi to fight for eternity without the worry of being overly drained.

Now that she had Di Wantian and Di Wancheng as her batteries, she was essentially three bodies combined into one, and her energy, lifespan, and vitality were all multiplied.

The Decay Body Flesh Ginseng was too powerful!

Although its battle prowess was lacking, it could create a new way for its contractor to become a Creation Master without its contractor having to worry about being held back by their lifespan.

The Decay Body Flesh Ginseng could not cause severe damage, but Lin Yuan had never seen a sacred source lifeform that benefited its contractor to such a great extent.

Di Wanmi had taken control of Di Wancheng and Di Wantian and used power that was beyond Di Wantian's means by summoning the Decay Body Flesh Ginseng, which had clearly reached pinnacle Immortal.

Luckily, Di Wanmi had not obtained sufficient resources so that she could continue deceiving her brothers because a Class 5 Creation Master could evolve their feys to Eternal.

Di Wanmi looked at the Creation Masters below her and said, "Now, all of you will become my sustenance! Remember that this is the most glorious moment of your life because you are about to become part of a Class 6 Creation Master."

The group went into a frenzy when they heard what Di Wanmi said.

At this moment, a clear voice said, "I always saw you as one of the Radiance Federation's sinners. But it looks like you are much more than that. You are a blight to humanity itself."

The young man's voice quelled all the commotion.

All the Creation Masters present turned their gazes from Di Wanmi to the direction of where the voice came from.

He Ji stared in shock at the young man next to her as she wondered how someone could be so strong mentally that he was able to say such things at such a time.

Di Wanmi cast her red eyes onto Lin Yuan and coughed before she said, "Since you have so much to say, you shall be the first to go."

Just as Di Wanmi was about to strike, Lin Yuan decided against summoning White Speak. Instead, he used Faith Application to provide White Speak with faith power to strengthen it. This was because Lin Yuan would not be able to handle this situation on his own.

In such a small space, a clash between two Immortal experts would kill any person who had not reached the arch-class.

Lin Yuan squeezed the Night Jade until it shattered.

At that moment, darkness enveloped the basement that had been brightly lit by strange flames. It was as though night had suddenly descended. There was also a chill intertwined with the darkness.

The night was like a strong shield that blocked Lin Yuan, who was standing at the front of the group of Creation Masters.

A woman wearing a black skirt and dressed in a black veil appeared.

She looked like the goddess of the night as she walked through the night until she was standing right in front of the group.

## Chapter 1504: What Gives You the Right to Shoulder It?

The Night Empress released a thicker wave of darkness that transformed into a crystal wall that fortified the space behind her.

She pointed up toward the sky, and a dot of night power flowed out from her fingernail and devoured the entire space. With one point of her finger, the entire space started to tremble.

A hole was broken in the wall that was reinforced with Spatial Grade Purple Gold.

The afternoon light was warm and pierced into the basement that was 800 meters underground.

All the Creation Masters, including He Ji, had been certain that they were going to become Di Wanmi's sustenance.

None of them expected this young man to summon the Night Empress, who was one of the members of royalty in the Radiance Federation.

A look of excited relief appeared on the faces of all the Creation Masters.

This especially applied to He Ji. She was of advanced age, but when she saw the screen that the Night Empress put up, she felt a different emotion bubbling within her.

The Radiance Federation's seemingly inevitable death had now been avoided.

He Ji turned to glance at Lin Yuan.

At that moment, she finally understood why he had led the pack and encouraged them to give up their phones on the Floating Light Wings Crane's back.

This was because he had not wanted a fight to break out over the phones and result in unnecessary deaths.

He Ji also understood why Lin Yuan had been in such a rush to herd them into the basement. This was because he could only summon the Night Empress after he found out the truth and understood the situation.

Although the Night Empress was the one who was saving them, He Ji knew that all the credit actually went to this young man.

Not everyone had the courage to endanger themselves in the prime of their life just to investigate a situation.

This young man had a radiant gleam in his eyes.

The members of royalty were the pillars of support of the Radiant Federation. The Moon Empress' presence put everyone at ease.

Even Di Wanmi, who had been poised to strike Lin Yuan, hesitated.

Di Wanmi was a careful person. This was displayed by how she had even hidden the fact that she had become a Class 5 Creation Master from her brothers.

She had predicted countless possibilities but never expected that she would one day come face to face with the Night Empress.

It went without saying that she would not be able to defeat the Night Empress. Recently, the Night Empress had used the power of her 10 Stars sacred source lifeform to manipulate celestial phenomena, and this was something that Di Wanmi would not be able to compete with.

After becoming a Class 5 Creation Master, she proceeded slowly step by step.

If she had a few more decades before this encounter, there was still no guarantee that she would be able to defeat the Night Empress, but she would stand more of a chance than she did now.

Now that the Night Empress was here, Di Wanmi could not muster the courage to attack.

However, Di Wanmi also had another card to play, which was that she was now a Class 5 Creation Master.

Di Wanmi believed that the Night Empress would hold back from killing her if she revealed that she was a Class 5 Creation Master.

Lin Yuan walked over to Night Leaning Moon and explained everything that had transpired in the basement.

The longer the Night Empress listened, the darker her expression became.

Eventually, the Night Empress' usually-emotionless face suddenly turned malevolent.

She could not estimate the damage that the Radiance Federation would have suffered if Lin Yuan had not discovered Whale Ocean Commerce's nefarious plot.

Whale Ocean Commerce was chopping away at the Radiance Federation's roots!

The livid Night Leaning Moon raised her hand, and concentrated night power flowed out of her and formed a large hand.

Without giving Di Wanmi any time to speak, the hand mercilessly slapped Di Wanmi across her face and crushed the Decay Body Flesh Ginseng.

Di Wancheng and Di Wantian were also crushed under the palm.

Luckily for Di Wanmi, she used Blood Flesh Battery to turn her brothers into scapegoats. Otherwise, the hand would have obliterated Di Wanmi, who had only just reached pinnacle Immortal.

After the Decay Body Flesh Ginseng was injured, it would absorb vitality from its surroundings automatically.

However, the Night Empress' night power had placed a lock on Di Wanmi's surroundings. The Decay Body Flesh Ginseng's roots were completely unable to pierce the wall of night power or drain the vitality of other lifeforms to recover itself.

Di Wanmi raised her head as she struggled to her feet and blood spewed out of her mouth.

Previously, she had scorned everything and was overflowing with ambition. Now, she looked at the Night Empress with fright and said, "I am a Class 5 Creation Master! I'm now a Class 5 Creation Master! I can use my sacred source lifeform's body to create instruments and produce World Crystals. The Radiance Federation will have four Class 5 Creation Masters with me. We will have more Class 5 Creation Masters than the Freedom Federation!"

The Night Empress' one attack had caused Di Wanmi to feel the fingers of Death's grip hovering over her neck.

Di Wanmi was confused. The young man had clearly told the Night Empress that she had become a Class 5 Creation Master. Did the Night Empress miss that? If she had heard it, why did she still attack Di Wanmi?

The Night Empress looked at Di Wanmi as though she was looking at a bug and snarled, "The Radiance Federation's Class 5 Creation Masters consists of the Moon Empress, Bamboo Monarch, and Chef Supreme!

"They are respected by all not because they are Class 5 Creation Masters but because they use their Class 5 Creation Master abilities to contribute to the Radiance Federation. They both protect and improve the entire Radiance Federation. Although they can't help every spirit qi professional in the Radiance Federation, they bring peace to the Radiance Federation.

"What are you? Even if you truly become a Class 6 Creation Master, you don't deserve to be mentioned in the same conversation as them. I only regret not discovering Whale Ocean Commerce's scheme sooner. By now, the Radiance Federation has already lost countless Creation Masters. You killed all those Creation Masters for your selfish reasons. What gives you the right to shoulder their lives?"

Di Wanmi was stupefied by what the Night Empress said. She was utterly befuddled.

*I'm a Class 5 Creation Master! Doesn't this explain everything? Those Creation Masters are all dead. What worth do they have now? Can it be that the Radiance Federation would rather abandon me, a Class 5 Creation Master!?*

Di Wanmi never anticipated this possibility.

But even if the Night Empress did not kill her, the other members of royalty might.

Di Wanmi picked up the destroyed Decay Body Flesh Ginseng from the ground and said to Night Leaning Moon, "I want to enter the Sin Cleansing Pool! The 13 members of royalty can decide my fate together!"

### **Chapter 1505: I Can't Afford to Gamble!**

The hand formed by the Night Empress slapped the other side of Di Wanmi's face.

This time, she did not have backup batteries to take the blow for her, and she was thrown into the wall.

She coughed but was unable to climb back to her feet.

Night Leaning Moon looked at Di Wanmi and sneered. "You hate others, but sure treat yourself well. In order to defend my attack, you even used the pinnacle Immortal Dark Lightning Pierce Shield as a shield. You know about the effort that one has to put in in order to survive.

"Didn't the Creation Masters you absorbed want to live too? You plan on joining Tower Canon and becoming a substitute for the Eight Pages. How dare you still call yourself a member of the Radiance Federation? The Sin Cleansing Pool is for the Radiance Federation's criminals. What right do you have to enter it?"

The Night Empress' killing intent was more evident with every word she spoke.

Di Wanmi finally managed to climb to her feet after a hard struggle.

Although she still had feys that she could summon, she no longer had the courage to summon them after the Night Empress' two slaps.

She decided to make a final attempt.

"As long as the Radiance Federation continues to supply me with Creation Master resources, I will eventually be able to reach 6 Stars. I'm willing to become the Radiance Federation's puppet and work for the Radiance Federation for the remainder of my life. The Radiance Federation is so powerful that it should not be difficult for it to steal the Creation Masters from the other federations. I can swear on this promise."

The Night Empress lifted her hand and pointed at the thousands of Creation Masters behind her before she asked Di Wanmi in a demanding tone, "Aren't the Creation Masters from other federations also lives in their own right?"

"Creation Masters make up the culture of spirit qi professions. They are the foundation of the era of spiritual power. In a fight between federations, we never attack the other party's Creation Masters unless it is a matter of life and death.

"Will the Creation Masters standing behind me approve of me letting you live? You have to compensate for the lives of all the Creation Masters of Sea Sky Nurture, Four Beasts Territory, and those who did not belong to any faction at all. Hence, you have to die, and you deserve to die."

Night Leaning Moon gave Di Wanmi a final ultimatum. The words Night Leaning Moon said showed what it really meant to be a member of the Radiance Federation's royalty.

Night Leaning Moon could have agreed to Di Wanmi's request and forced her to swear on her promise. This would allow her to gain a Class 5 Creation Master as a servant.

However, Night Leaning Moon's actions were not only based on gains and losses but also on her duty as a member of the Radiance Federation's royalty.

She felt this responsibility weighing on her from the day she became a Radiance Envoy.

The Night Empress was in no rush to punish Di Wanmi. Instead, she turned to Lin Yuan and asked, "Little Yuan, how do you think Di Wanmi should be punished?"

Night Leaning Moon was not trying to test Lin Yuan.

Since the Moon Empress was locked away to train, Lin Yuan represented her in this situation.

He was the first to discover this plot, and Night Leaning Moon had promised Mystic Moon she would cooperate with Lin Yuan. Hence, Lin Yuan could take the lead in this circumstance.

Lin Yuan was silent for a moment before he said, "I noticed that something was off about Whale Ocean Commerce because I met the Young Leader of Sea Sky Nurture Ji Feng by chance when I released a trade message on Star Web. I found out about the dark underbelly of Whale Ocean Commerce from Ji Feng.

"Whale Ocean Commerce did not report this to the Hidden Moon Palace, which gave me an even worse feeling about them. I came to investigate because Whale Ocean Commerce was trying to recruit way too many Creation Masters.

"I couldn't afford this gamble! Even if there was only 1% of chance that my guess could be right, I had to come and take a look. The first victims of Ten Thousand Flags Trading's scheme are Sea Sky Nurture. I propose calling Ji Feng over so he can end all of this."

Night Leaning Moon nodded and replied, "Little Yuan, since you have a plan, go ahead and carry it out."

Night Leaning Moon did not immediately send the thousands of Creation Masters away.

Di Wanmi's death would be compensation to them.

It did not take long for Ji Feng to arrive at Whale Ocean Commerce's residence after receiving Lin Yuan's notice.

Ever since he joined Lin Yuan, his thoughts had consisted of how he could repay Lin Yuan and get revenge for his family.

At first, Ji Feng wanted to stay by Lin Yuan's side for three years to repay him before he left to get his revenge on Whale Ocean Commerce.

But Lin Yuan went on to help him time and time again, and Ji Feng felt that he would never be able to repay Lin Yuan no matter how long he stayed or how hard he worked.

Ji Feng eventually gave up on his idea of leaving in three years to take revenge on Ten Thousand Flags Trading.

Yet, Lin Yuan had fixed everything for Ji Feng without him needing to say anything.

Moreover, Lin Yuan even allowed Ji Feng to land the final killing blow.

This was enough for Ji Feng to feel blessed that he had joined Lin Yuan. Lin Yuan was a person who was worth Ji Feng following him forever.

Ji Feng walked over to Di Wanmi, who was trapped by night power, and summoned the Karma Sword Lily.

He used the Karma Sword Lily that had been nurtured by his father and stabbed Di Wanmi, killing her.

Now that the matter was settled, the Night Empress waved her hand and used night power to move the Creation Masters to the entrance of Whale Ocean Commerce's residence before they even had the chance to thank her.

As she stared at Whale Ocean Commerce's impressive residence, He Ji felt as though the past hour had been a dream.

She had clearly been in a life-and-death situation and witnessed the charisma of a member of royalty and the bravery of a young man.

Night Leaning Moon glanced at Ji Feng and nodded at Lin Yuan.

Lin Yuan knew that Night Leaning Moon needed to speak to him, so he said to Ji Feng, "Ji Feng, return to the mansion before me! Ten Thousand Flags Trading might not be as close with Ten Thousand Source Hall, but they have never laid a hand on them. Ten Thousand Source Hall definitely has Creation Masters of their own.

"Chief Guard Ye will investigate all of this, so we only need to wait for her news. Once Ten Thousand Source Hall has been investigated, you should return to take over your rightful place as the Young Leader of Sea Sky Nurture."

Ji Feng hurriedly said, "Young Master, I'm fine with staying by your side. I—"

Before Lin Yuan could speak, Night Leaning Moon turned her eyes onto Ji Feng and looked as though she was looking at a silly man and said, "If there is something wrong with Ten Thousand Source Hall, they will meet the same end as Ten Thousand Flags Trading. If you really want to help your Young Master in the future, you should take over Whale Ocean Commerce and pick up the pieces."

#### **Chapter 1506: The First Class 5 Creation Master Under Lin Yuan**

Ji Feng was stunned and looked embarrassed.

A moment later, he said to Lin Yuan with determination, "Young Master, even if everything is fine with Ten Thousand Source Halls, I will take control of all of Whale Ocean Commerce's Island Whales."

After Ji Feng left, Night Leaning Moon sighed and said to Lin Yuan, "Every member of royalty, including the Moon Empress, hopes that there will be another Class 5 Creation Master in the Radiance Federation because it will bring up the Radiance Federation's overall power by at least 10%.

"However, Ten Thousand Flags Trading's selfishness caused them to kill all of Sea Sky Nurture's Creation Masters. Otherwise, it was very likely that one of Sea Sky Nurture's Creation Masters could have become a Class 5 Creation Master.

“All these years, we assumed that Sea Sky Nurture’s Creation Masters were just keeping a very low profile while they were training. No one suspected that all of this was part of Whale Ocean Commerce’s scheme. Little Yuan, you deserve all the credit for this.”

As Lin Yuan silently listened to Night Leaning Moon, he knew that she was sighing in grief.

Night Leaning Moon must have mustered great strength to decide to kill Di Wanmi, another Class 5 Creation Master.

It was clear that Night Leaning Moon saw him as a junior and not an outsider. This was shown by how she had spoken to Ji Feng so selfishly as a member of royalty.

After a moment of silence, Lin Yuan said seriously to Night Leaning Moon, “Actually, I have a way for the Radiance Federation to gain another Class 5 Creation Master.”

Night Leaning Moon was currently feeling sorrowful over the deaths of all the Creation Masters who had died prematurely because of Whale Ocean Commerce’s selfishness.

But when she heard what Lin Yuan said, she froze and fixed her eyes on Lin Yuan before saying seriously, “Little Yuan, you can’t say such things casually.”

The matter of Class 5 Creation Masters was extremely important as it involved the future of a federation.

The federations with Class 5 Creation Masters had much more overall power than those that did not.

A Class 5 Creation Master could bring forth changes that were unthinkable by normal people.

As the Moon Empress’ disciple, Lin Yuan was going to walk the path of becoming a Radiance Envoy. Thus, everything he said was important and serious. He could not allow one careless word out of his mouth.

As much talent as he had, Night Leaning Moon did not believe that Lin Yuan would be able to produce another Class 5 Creation Master for the Radiance Federation.

If it were so easy to obtain Class 5 Creation Masters, Whale Ocean Commerce would not have gone to such lengths.

Lin Yuan felt it was natural that Night Leaning Moon did not believe him.

He also knew that his claim was unbelievable. Moreover, he did not know how he could explain the situation to her.

Hence, Lin Yuan waved his hand, summoned Red Thorn, and instructed it to show its true body.

The Gold X/Fantasy V Red Thorn’s true body had grown three times its previous size.

The menacing Mouth of Relinquish had a spiked Tongue of Relinquish sticking out of it, while the blinking Eye of Relinquish shone with a strange glow.

The Mouth of Relinquish was like a furnace that roared as it digested a large amount of metal-type spiritual ingredients. This resulted in a thin metal sheen appearing over the surface of the Mouth of Relinquish.

After all the metal-type spiritual ingredients that Red Thorn consumed, it was now strong enough to easily sustain an attack from a Fantasy Breed fey of the same grade.

Red Thorn flipped its hair that was comprised of green vines and perched on Lin Yuan's shoulder. It smiled and pressed its face to Lin Yuan's chin.

Night Leaning Moon, who had garnered an impressive repertoire of experience, was shocked twice.

The Gold/Fantasy six-winged fairy's bloodline had reached pinnacle six-wings. Night Leaning Moon had never seen this.

The Spirit Guards oversaw all the feys in the world. Even a Class 5 Creation Master would not dare to claim that they had more experience than her.

Night Leaning Moon serenely observed Red Thorn for a while before she fixed her eyes on the long and slender dark purple Tongue of Relinquish.

Red Thorn had used two of the three Tongues of Relinquish to control Liu Yanshan and Han Tianhe.

Presently, Red Thorn had evolved to Gold X/Fantasy V. It could use the last Tongue of Relinquish to control the dead Di Wanmi.

The Tongue of Relinquish would be able to awaken Di Wanmi's spirit and soul while still retaining the memories she had when she was alive.

Even under Red Thorn's control, Di Wanmi would be able to do the work of a Class 5 Creation Master. However, she would not be able to advance any further but remain as a Class 5 Creation Master forever.

Nonetheless, a Class 5 Creation Master was a Creation Master!

Night Leaning Moon was a pinnacle Class 4 Creation Master and could easily see through the Tongue of Relinquish's ability. Thus, a look of delight appeared on Night Leaning Moon's face.

She did not expect Lin Yuan to be able to use his own ability to enable the Radiance Federation to gain a fourth Class 4 Creation Master.

This was a huge matter.

Di Wanmi's crimes were unforgivable. If Lin Yuan could use her to help the Radiance Federation in this way, her karma would be balanced.

"Little Yuan, use your six-winged fairy to take control of Di Wanmi. This way, she will become part of your power. However, don't let your Creation Master power waste away just because you have a Class 5 Creation Master as a tool."

Lin Yuan's eyebrow twitched.

It went without saying that he would not let his own abilities go to waste. He needed to rely on his natural gifts to evolve his spirit qi professional rank.

Additionally, Lin Yuan could tell from Night Leaning Moon's wanted him to take control of Di Wanmi.

He was not opposed to this.

Firstly, by using one of Red Thorn's Tongues of Relinquish to take control of Di Wanmi, she would be no different from a puppet whose entire essence was controlled by Red Thorn. She would essentially become a part of Lin Yuan's combat system.

Moreover, Sky City also needed a Class 5 Creation Master to guard them from the shadows.

This way, all the bodies of sacred source lifeform that he collected could be turned into precious instruments.

Di Wanmi had been unable to even beat one of Night Leaning Moon's attacks, but she had still reached pinnacle Immortal.

By taking control of Di Wanmi, Lin Yuan would gain a Class 5 Creation Master and a pinnacle Immortal expert.

Lin Yuan said to Red Thorn right in front of Night Leaning Moon, "Red Thorn, use the Tongue of Relinquish to take control of Di Wanmi's body."

Red Thorn reached out a hand and pointed at Di Wanmi.

Its spores fell to the ground, and a small lane formed from brutal vine ramets linked Di Wanmi and the Mouth of Relinquish.

### **Chapter 1507: Dimensional Lifeform Gardener Konjac**

The brutal vine ramets dragged Di Wanmi's body over to the Mouth of Relinquish.

The tip of the Tongue of Relinquish pierced Di Wanmi's body, and numerous scars immediately appeared all over her body.

Soon, the dead Di Wanmi opened her eyes and stood respectfully behind Lin Yuan.

Night Leaning Moon could not help but lament how quickly this generation was growing.

She had no idea how the Moon Empress nurtured Lin Yuan. He was so outstanding that he was already fully capable of becoming a Radiance Envoy.

The Moon Empress was still locked away, so Night Leaning Moon was going to discuss today's events with Mystic Moon.

They would tell the Moon Empress about the matter after she was done training so she could decide whether or not to reveal the fact that Lin Yuan had saved hundreds of thousands of Creation Masters.

They would definitely release the news, but the Moon Empress had to decide what would be the best time to do so.

Lin Yuan returned to Night Leaning Moon's side, and she gently placed her hand on his shoulder as she said, "Lin Yuan, you did well."

Lin Yuan smiled brightly and replied, "Auntie Night, once you're done investigating Whale Ocean Commerce, I would like to see if they have something that I badly need."

He did not tell Night Leaning Moon what he wanted to find nor why he needed it.

Although there were some things that Lin Yuan could tell Night Leaning Moon, there were some things that would be better if he kept to himself.

It was likely that the strange seed came from Tower Canon.

Night Leaning Moon was aware that Tower Canon and Whale Ocean Commerce were colluding.

He did not need to think about how the Radiance Federation was going to treat Tower Canon.

...

It did not take long for the Spirit Guards to gather all of Whale Ocean Commerce's resources.

Lin Yuan looked at the resources and used all his strength to activate True Data to check on them.

Soon, he discovered a small and strange seed as well as a half-grown plant that had been nurtured from the strange seed.

The flower bud nestled in the middle of the leaves stunk of decay. Apparently, it was a type of konjac.

Through True Data, Lin Yuan could tell that it was not a plant-type fey at all but a dimensional lifeform known as the Gardener Konjac.

Moreover, the half-grown plant was a ramet propagated from that dimensional lifeform. As long as the dimensional lifeform did not awaken this half-grown plant, it would continue slumbering peacefully.

Lin Yuan asked Red Thorn, "Red Thorn, are you able to consume the Gardner Konjac ramet like you did the seed?"

Even before Lin Yuan asked, Red Thorn was dying of impatience.

Red Thorn was starving for the Gardener Konjac ramet and wanted nothing more than to swallow it immediately.

Lin Yuan ordered Red Thorn to consume the Gardener Konjac's ramet and seed.

Red Thorn digested the Gardener Konjac's ramet and seed almost immediately.

This time, Red Thorn's grade did not evolve explosively. It remained at Gold X.

However, this did not mean that the energy in the Gardener Konjac's ramet and seed had disappeared.

There was three times the amount of energy in the Gardener Konjac's ramet than there was in the seed.

Red Thorn had essentially consumed four times the amount of energy it had previously absorbed.

Its grade had not increased because the energy was locked within Red Thorn. It would only take effect when it reached a certain level.

This meant that Red Thorn needed to consume more Gardener Konjac seeds or ramets.

Although Red Thorn's grade had not increased, the Tongue of Relinquish had still changed significantly.

Through communicating with Red Thorn, Lin Yuan knew it would take three days instead of a month for the Tongue of Relinquish's tip to regenerate. It had shortened ten times.

Moreover, the tongue's tip had also split and resembled a snake's tongue. It almost looked like two tongues.

Lin Yuan remembered that Whale Ocean Commerce had given a seed to Connected Beast Park when they established a collaboration. Miao Zhenshan had told him that.

The success of Red Thorn's Tongue of Relinquish's mutation rested on the seed from Connected Beast Park.

Lin Yuan returned Red Thorn to the Spirit Lock spatial zone and bid Night Leaning Moon goodbye.

He had reached his goal of coming to Whale Ocean Commerce.

As long as he retrieved the seed from Connected Beast Park, he would be able to continuously release the trade message on Star Web to help the emperor-class experts who needed their feys to undergo their World Cleansings, thereby taking their World Graces.

This would enable Lin Yuan to evolve his feys to Diamond X before the Radiance Hundred Sequence selection.

This was the only way that Lin Yuan would be able to ensure he could defend against whatever plot the Freedom Federation was trying to cook up.

Lin Yuan first returned to the mansion so Wen Yu could remove Faceless Paper.

Next, he summoned Blackie and rode it to Connected Beast Park's residence.

When he arrived, he went straight to the point and told Miao Zhenshan about the reason for his visit.

Miao Zhenshan was still unaware of what had happened to Whale Ocean Commerce.

But since Miao Zhenshan had already decided to anchor the Miao family to Lin Yuan, he handed over the seed given by Whale Ocean Commerce to Lin Yuan.

Connected Beast Park had been thinking about returning to its former glory, and they could only achieve this by rebuilding their reputation and gathering resources.

Connected Beast Park had been on a slippery slope because of the blood pact ultimate fight.

Miao Zhenshan decided to use the blood pact ultimate fight to rebuild the Miao family.

Recently, all the veteran factions to which Connected Beast Park had sent blood pact ultimate fight challenges had accepted them.

Naturally, Miao Zhenshan found this extremely strange.

How did they find the courage to accept?

It was said that prey bit back when backed into a corner. This was exactly what the veteran factions were doing.

Although Lin Yuan had stressed to Miao Zhenshan not to wave around his identity as the Moon Empress' disciple, he had still benefited from Lin Yuan's status as the Moon Empress' disciple.

Due to their link to the Moon Empress' disciple, any faction that Connected Beast Park dealt with recently made an effort to keep up friendly relations with them.

### **Chapter 1508: Red Thorn's Next Grade Advancement**

Miao Zhenshan dared to start such trouble because he was secretly planning to take advantage of Lin Yuan's identity as the Moon Empress' disciple.

Hence, he walked on eggshells around Lin Yuan.

Naturally, Wen Yu had told Lin Yuan everything about Miao Zhenshan's actions.

Now that Lin Yuan had settled Whale Ocean Commerce, Connected Beast Park was useless to him.

Since Connected Beast Park was taking so many risks by attacking six veteran factions simultaneously in an attempt to build themselves up, Lin Yuan felt that they were no different from Whale Ocean Commerce.

The only difference to speak of was that Whale Ocean Commerce had been taking Creation Master lives while Connected Beast Park took the lives of spirit qi professionals from veteran factions. Both factions were acting like vermins.

Since Connected Beast Park was continuously crossing the line without any signs of showing regret, Lin Yuan decided to end Connected Beast Park once and for all during this blood pact ultimate fight.

Lin Yuan looked at Miao Zhenshan and asked, "How many pinnacle emperor-class experts does Connected Beast Park have left?"

A look of surprise appeared on Miao Zhenshan's face, and he reported all of the Miao family's remaining pinnacle emperor-class experts to Lin Yuan.

When he reported all of the pinnacle emperor-class experts to Lin Yuan, a selfish notion appeared in Miao Zhenshan's head.

Although some of the emperor-class experts had only just reached pinnacle and were not stable, Miao Zhenshan still gave their names to Lin Yuan.

If they were lucky, the Miao family would be able to earn a windfall by evolving these emperor-class experts to thearch-class using the Law Crystals from Lin Yuan.

Besides the eight thearch-class experts that Connected Beast Park currently had, Miao Zhenshan also mentioned another ten pinnacle emperor-class experts.

After evolving Connected Beast Park's pinnacle emperor-class experts to thearch-class and taking the Creation World Ley Lines from the feys he had helped evolve from Myth Breed to Creation Breed, Lin Yuan left the Miao family.

Connected Beast Park's scheming was so ferocious that they provided Lin Yuan with 18 World Crystals.

Once the blood pact ultimate fight was over, the Sacred Sword Wielding Queen would be able to focus on digesting the World Crystals for some time while providing Lin Yuan with a new Sword Skill every week as well as strengthening his resistance to various elements.

After he returned to the Return from Faraway Mansion, Lin Yuan returned to his room to evolve Red Thorn using the Gardener Konjac seed he had obtained from the Miao family.

He hoped that Red Thorn could activate the energy it had absorbed from the Gardener Konjac ramet and seed.

After feasting on the large whale fall, Red Thorn's grade had only reached Gold X.

Lin Yuan did not know what the best way to evolve Red Thorn was.

He had always prepared the best fertilizer for Red Thorn.

Currently, Red Thorn's diet consisted of the flesh of Platinum dimensional lifeforms and Silver metal-type spiritual ingredients.

Nonetheless, Red Thorn's grade had not improved significantly, and this was a source of headache for Lin Yuan.

If Red Thorn could activate the energy in the Gardener Konjac's seed and ramet this time, it would definitely be able to evolve into a Platinum/Fantasy fairy.

Lin Yuan's goal for Red Thorn was for it to break through the limit of six wings when it evolved to Myth Breed and become the first eight-winged fairy in history.

Even if Red Thorn could not evolve significantly from consuming the flesh of Class 4 and 5 dimensional lifeforms and metal-type spiritual ingredients, they could enrich the Mouth of Relinquish's digestive juices with many properties, such as decay, burning, and acidity,

After consuming a large amount of water world dimensional lifeforms, Red Thorn gained the ability to breathe underwater, and its secretions paralyzed targets.

All of these increased Red Thorn's powers.

Absorbing ferromanganese and annealed copper toughened the brutal vine ramets while increasing their flexibility.

Currently, Red Thorn only needed ten brutal vine ramets to trap feys of the same grade.

Red Thorn was able to achieve this because Lin Yuan was willing to invest heavily in it and because Red Thorn was pinnacle six-wings.

Just as Lin Yuan was about to return to his room, he met Liu Jie, who was walking down the stairs.

Liu Jie had just finished talking to Night Leaning Moon on the phone, and she had told him about Lin Yuan's incredibly noble act.

Liu Jie did not blame Lin Yuan for keeping this from him. Rather, he blamed himself for being too weak to help Lin Yuan.

Ever since the Insect Queen mutated and started controlling insect-species carcinoma feys, Liu Jie realized that his combat system was about to embark on a strange path.

However, the Insect Queen had a special stipulation that resulted in Liu Jie only being able to contract it and no other fey.

All the insect-species carcinoma feys were contracted by the Insect Queen. Hence, Liu Jie could use the Insect Queen to control the insect-species carcinoma feys.

Due to the bloodline restrictions of insect-species carcinoma feys, they could not evolve to Fantasy Breed. As such, Diamond X/Legend was the limit of what insect-species carcinoma feys could reach.

Liu Jie could use the Diamond X/Legend insect-species carcinoma feys to start disasters and destroy continents. It would be more than easy for him to do so.

However, he could not rely on them to perform his duty as a retainer.

The insect-species carcinoma feys' skills lay in causing damage and not defense.

Hence, Liu Jie found it difficult to stand in front of Lin Yuan to act as his shield.

Nonetheless, Liu Jie had no choice but to continue down this path.

There were a few insect-species carcinoma feys that Liu Jie had intended on contracting after the Radiance Hundred Sequence selection.

However, this event triggered Liu Jie, and he decided to contract the three insect-species carcinoma feys before the Radiance Hundred Sequence selection.

Although there were risks, his sacred source lifeform's abilities would allow him to carry these risks.

After bidding goodbye to Lin Yuan, Liu Jie was determined.

Even if he could not act as Lin Yuan's shield or sword, he would become Lin Yuan's most powerful tool by producing the greatest amount of damage.

At that moment, Liu Jie could not imagine that this choice of his would be written into the history books of the entire main world.

...

Lin Yuan returned to his room and entered the Spirit Lock spatial zone.

As he looked at Red Thorn flying around him, he took out the Gardener Konjac's seed and tossed it to Red Thorn as he said, "Red Thorn, your breakthrough will depend on you."

Red Thorn received the Gardener Konjac and threw it into the Mouth of Relinquish.

### **Chapter 1509: New Skill: Demon Spirit Curse Kill**

When the Gardener Konjac's seed entered the Mouth of Relinquish, a loud roaring was released from the three furnace-like Mouths of Relinquish.

A solid stream of energy flowed out of the Mouth of Relinquish and caused it to expand continuously.

The three Mouths of Relinquish expanded until they were almost ten meters in height and width.

At that moment, Red Thorn's voice appeared in Lin Yuan's spirit, begging him to choose a direction to evolve in.

Lin Yuan knew that Red Thorn was about to evolve.

This time, Lin Yuan did not hesitate to choose to improve Red Thorn's digestive ability.

Up until that moment, Red Thorn had been benefiting from its digestive ability.

When it was digesting, Red Thorn could use a portion of the energy from whatever it was digesting to strengthen itself,

Thus, improving Red Thorn's digestive ability would be the equivalent of improving its overall quality.

After Lin Yuan made his choice, the three Mouths of Relinquish continued to expand.

Lin Yuan hurriedly summoned Red Thorn out of the Spirit Lock spatial zone and into his room.

Next, Lin Yuan summoned the Ethereal Jellyfish and used Node Teleportation to send himself and Red Thorn to the remote area he had marked out previously.

The Spirit Lock spatial zone was only so large, and he had filled it with various feys.

If the Mouths of Relinquish continued to expand, it would affect the safety of the other feys in the Spirit Lock spatial zone.

But here in the open space, Red Thorn could expand as much as it pleased.

Eventually, the three Mouths of Relinquish expanded until it was around 15 meters in size.

As the Mouths of Relinquish grew larger, their digestive abilities also improved.

They now had a small intestine and large intestine each.

When both intestines were digesting at the same rate, the large intestine would be able to digest more than the small intestine.

The evolving Red Thorn produced several ramets on the ground nearby.

The ramets took root in the ground and absorbed the nutrients from the ground. This resulted in the ground turning to sand, and the three Mouths of Relinquish slowly sunk under the ground.

Lin Yuan was stunned when he saw this, but he soon realized that this was a habit that Red Thorn picked up when it was at the bottom of the ocean.

Lin Yuan had noticed that Red Thorn liked to burrow under the sand at the bottom of the sea.

Now that Red Thorn was evolving, this was an instinctive action.

Lin Yuan could only wait until Red Thorn was done evolving before it tunneled out of the ground.

Half an hour later, Lin Yuan saw a 10-meter wide flower bud pushing out of the ground.

Soon, the flower bud bloomed and turned into a large red flower that was almost 50-meters-wide.

The flower bud was as thin as gossamer and danced in the wind. It resembled a wild flame.

The ground moved, and three Mouths of Relinquish emerged from the ground.

It turned out that a flower stem grew out of the center of the Mouths of Relinquish, and that was what the large red flower was balanced on.

The flower petals slowly unfurled.

At that moment, Red Thorn appeared at the center of the flower and sat down as though it was a queen surveying her kingdom while on her throne.

Red Thorn did not tell the Acid Corrosion Queen Bee about its evolution again.

As a result, the Acid Corrosion Queen Bee almost lost its life while it was in the Mouth of Relinquish.

However, the Acid Corrosion Queen Bee did not care about this.

It was just an obedient puppy, after all. What right did it have to be bothered?

The house had expanded by several times, and the amount of acid had also increased.

Lin Yuan realized that the Tongues of Relinquish had fully split, and the dark purple tongue tips had regrown.

At that moment, Red Thorn leaped into Lin Yuan's arms, and he asked it, "Red Thorn, it looks like your Tongue of Relinquish has split. Can it control three targets now?"

Red Thorn nodded and replied, "Yuan, I can control three bad guys now."

Red Thorn saw Han Tianhe, Liu Yanshan, and Di Wanmi as enemies. Hence, they were 'bad guys' in its eyes.

Lin Yuan nodded and used True Data to check on the evolved Red Thorn.

[Fey Name]: Red Thorn (Six-Winged Fairy) (Thousand Eyes Relinquish)

[Fey Species]: Rafflesia genus/fairy species

[Fey Grade]: Platinum (3/10)

[Fey Type]: Source/Wood

[Fey Quality]: Fantasy V

Abilities:

[Mouth of Relinquish]: Secretes vigorous digestive fluids with powerful corrosive properties, allowing a faster speed to absorb the energy in the food. The Tongue of Relinquish inside the mouth is able to increase the digestion speed by several times. It can also secrete a special corrosive fluid from the flesh and blood that it consumed. When the Tongues of Relinquish pierce a target, the tip of the tongue can be cut off and left in the target's body. While the target remains alive, the tip of the tongue will control the target's spirit and soul. After the target dies, the tip of the tongue can control and manipulate the target to make it appear as though it was still alive.

[Brutal Carnivore Vine]: The vines contained digestive fluids that grew in midair, and the sharp teeth on the inner side of the vine could grind off and collect flesh and blood energy.

[Eye of Relinquish]: Eyes formed by using blood and flesh energy. Each eye contains a huge amount of blood and flesh energy. When the number of Eyes of Relinquish on every Mouth of Relinquish is maintained below 60, they are merely able to store energy. When the number of Eyes of Relinquish is above 60, those Eyes of Relinquish that are above 60 can be turned into an energy ray at any time.

[Sea of Flowers State Transition]: By quickly using up the stored energy, the sea of flowers' child ramets' attacking power and mobility can be improved by several times. The child ramets' weapons will also morph in a way that increases their functionality.

[Demon Spirit Curse Kill]: Whenever any of the ortet's ramets touches an enemy target and breaks through a target's defense, the target will be cursed. Every curse carries a negative effect that will be stacked with every additional attack.

Exclusive Skill:

[Spore Growth]: Spits a huge amount of spores, which can absorb the energy or flesh energy supplied by Red Thorn, out of its spore cavity to quickly grow ramets and child ramets that are controlled by the ortet.

[Wither Glory]: Red Thorn can rapidly absorb the energy from the soil and pour the energy into the sea of flowers. As long as the soil has the roots of the child ramets and ramets, the withered sea of flowers will reach its prime state.

Lin Yuan saw that Red Thorn had evolved from Gold X to Platinum III.

**Chapter 1510: The Imperial Court's Motive, Lin Yuan**

Since Red Thorn had already completely transformed previously, its grade and exclusive skills did not change significantly this time.

However, the Platinum Red Thorn had gained another ability, Demon Spirit Curse Kill.

This ability was very different from Red Thorn's other abilities because they were extensions of its body, whereas Demon Spirit Curse Kill was a result of its bloodline.

Demon Spirit Curse Kill enabled Red Thorn's ortet's ramets to curse a target that it had come into contact with negative effects. These effects could also be stacked.

More importantly, the physical and elemental effects all turned into curse abilities.

Although some powerful lifeforms had powerful resistances, curses were not only directed at physical bodies but also involved the mind, spirit, and soul. It was extremely difficult to remove them.

At the same time, curses could also be turned into bad luck if they were accumulated over time.

Zong Ze's bad luck was a result of an accumulation and worsening of curses.

Demon Spirit Curse Kill enabled Red Thorn's sea of flowers to become a cursed sea of flowers. Any target entering the sea of flowers would be enveloped in curses and eventually entangled in bad luck.

Lin Yuan thought, *Now, Red Thorn can defend against a pinnacle Class 3 alien insect dimensional rift on its own.*

Lin Yuan suddenly felt that it would be best for him to stop buying the flesh of dimensional lifeforms to evolve Red Thorn. Instead, he would wait for Liu Jie to return so the Dimensional Light Moth could open a dimensional rift.

Then Red Thorn could just be released into the dimensional rift so it could start feasting.

But soon, Lin Yuan became troubled.

After Whale Ocean Commerce was destroyed, he no longer had a path to obtain more of the Gardener Konjac seeds and ramets.

When he remembered that the Gardener Konjac was a dimensional lifeform, a lightbulb lit up in his head.

He took Red Thorn back to the mansion and returned it to the spiritual spatial zone.

Red Thorn was too large for the Spirit Lock spatial zone now.

Lin Yuan entered the marsh world through Klein Hub and called over White Speak to ask it about the Gardener Konjac.

The Gardener Konjac was affiliated with water, so not many of them were grown in dimensional rifts.

The temperature in the abyssal world was very high, and any plant-type fey that was not fire-type would quickly dry out until they died.

There was no light in the subterranean world and the few plants that grew there were able to produce light. They relied on their self-produced light and the light from their companions to survive.

All the plants from the water world could not be out of the water. Once they were removed from the water, they would immediately rot and start to stink.

Hence, the only places suitable for the Gardener Konjac to grow were marsh and alien insect dimensional rifts.

However, the plants in alien insect dimensional rifts were mostly fungi that fed off of insects. These fungi could turn the insects into cordyceps.

The cordyceps was a specialty of the alien insect dimensional rifts and was full of medicinal properties.

Lin Yuan felt that the Gardener Konjac was not suited to living in the alien insect world. Thus, the only possible place left was the marsh world.

White Speak should have come across the Gardener Konjac as a local from the marsh world.

Yet, White Speak said with certainty that it had never heard of the Gardener Konjac.

Lin Yuan found this to be strange. Could there be a sixth type of dimensional rift that humans had not discovered yet?

Since White Speak was not aware of the Gardener Konjac and Genius' knowledge bank did not include information on it either, Lin Yuan left the matter alone.

There was always a chance that he would be able to encounter the Gardener Konjac again in the future.

Now that Whale Ocean Commerce's matter had been completely settled, Lin Yuan could go ahead to increase his power.

In the real world, there were many spirit qi professionals who could not guarantee that they would be able to help their Myth Breed feys overcome their World Cleansings. As such, they were all prospective trading partners for Lin Yuan.

Lin Yuan could help their Myth Breed feys evolve their qualities, but he would also take away their World Graces.

While Lin Yuan was about to contact these people to come to the Royal Capital, Night Leaning Moon had her head lowered as she scribbled ferociously with golden sap as ink. She had just sent Liu Jie off to contract insect-species carcinoma feys.

She understood why he was so anxious to increase his power at this juncture.

Currently, Liu Jie was very similar to the old her.

Night Leaning Moon had already told Mystic Moon about the situation regarding Whale Ocean Commerce.

Mystic Moon was currently upgrading Star Web with two other members of royalty, and the Moon Empress was locked away training.

Since Night Leaning Moon had participated in the matter personally, she wrote a detailed report about what had happened.

While she was writing the report, she went through careful consideration.

Eventually, she still decided to leave out how Lin Yuan's six-winged fairy had turned Di Wanmi into a puppet.

A Class 5 Creation Master that could be controlled was much more appealing than a living one.

The Radiance Federation and Freedom Federation had signed a two-year deal. Although they had not announced it publicly, the two federations had entered emergency battle-preparedness mode.

Moreover, Tower Canon had infiltrated the Radiance Federation and was only discovered to have been colluding with Whale Ocean Commerce after so many years.

Hence, some things should be better kept under wraps.

The Moon Empress, Chef Supreme, and Bamboo Monarch were all Class 5 Creation Masters, and no one could control them.

However, a puppet Class 5 Creation Master would fall under the control of whoever could gain control of Lin Yuan.

It was likely that another imperial meeting would take place once they received the report and learned about Whale Ocean Commerce's plot.

Recently, the imperial meetings had taken place rather frequently.

Night Leaning Moon suddenly realized that all the imperial meetings that had taken place over the last six months had been largely related to Lin Yuan.

What kind of disciple had the Moon Empress accepted?

...

Lin Yuan had agreed to meet the emperor-class experts in the Royal Capital. This was so he could evolve feys while harvesting the Intelligent Ganoderma Sinensis from the Spirit Lock spatial zone and give them to Genius.

Lin Yuan realized that Genius' spiritual energy would increase greatly after it consumed the Intelligent Ganoderma Sinensis.

It would evolve from Fantasy I to Fantasy II in less than two days.

Since Lin Yuan had used the Intelligent Ganoderma Sinensis spores to nurture the Intelligent Ganoderma Sinensis, he gained a large amount of Intelligent Ganoderma Sinensis at once.
