

Merchant 1561

Chapter 1561: Uncle Blood, Stay Calm!

At that moment, a look of nostalgia appeared on Blood New Moon's face. He was silent for a moment before saying, "My heavenly family blessing is different from Jade Sundial's. However, this change enabled my heavenly family blessing to become even more ferocious.

"When the Red Water Blood Snakes are covered with the robe of sunset light, they will possess Immortal power of burning. However, they will have to absorb energy from the sun to recharge after each time that it's used.

"Daughter, within a decade, you won't have to be afraid of any lifeform below Immortal anymore. I will find a way to raise you to Immortal within ten years."

A parent's love was boundless.

Although this was the first day that Blood New Moon had reunited with the Mother of Bloodbath, he was already starting to pave its future.

No parent in the world would have an easy time.

No other fey would dare to say the same thing to their offspring that Blood New Moon did.

Moreover, very few feys could help their children evolve to such a large extent.

To fulfill the promise that Blood New Moon just made to the Mother of Bloodbath, he would need to work hard for the next ten years.

Perhaps this was Blood New Moon's way of expressing his unique brand of fatherly love.

The Mother of Bloodbath's eyes welled up with tears, and it said softly, "Dad, follow me. You don't need to tire yourself out. All you need to do is stay by my side from now on."

The most urgent thing in the Mother of Bloodbath's mind was to increase its power so that it could live up to its duty of being Lin Yuan's Path Protector instead of continuing to be protected by him.

But now that the Mother of Bloodbath had received Blood New Moon's heavenly family blessing and could take on Immortal experts, it would quickly be able to fulfill its role of being Lin Yuan's Path Protector.

Moreover, White Speak had already reached pinnacle Immortal.

Although the heavenly family blessing had strengthened the Mother of Bloodbath's power, it still could not compete with White Speak.

Hence, the Mother of Bloodbath had to face reality.

The Mother of Bloodbath had watched how Lin Yuan had grown step by step in the past year.

Even if it could truly reach Immortal in ten years, it would be unimaginable what level Lin Yuan would have reached in that same time.

Thus, rather than let its father exhaust himself for its sake, it would be better for him to protect Lin Yuan in the shadows using his Eternal power.

This way, it would always be able to see Blood New Moon.

When Blood New Moon heard what the Mother of Bloodbath said, he smiled kindly.

Although he did not say anything, he had already decided what he was going to do.

However, his idea was about to be changed by Lin Yuan.

He followed the Red Water Blood Snakes to the center of the lava zone and immediately spotted the spider-leg-shaped precious stone.

No one present had seen Jade Sundial's original body for themselves. However, Blood New Moon had not only seen it but also touched it.

Hence, one look was enough for Blood New Moon to be certain that it was Jade Sundial's leg.

However, Blood New Moon also knew that this precious rock had not actually been formed from Jade Sundial's leg but was probably a portion of her soul that had changed the rock alongside the nourishment of the fire elements.

What Lin Yuan meant by collecting souls was probably to collect the vestiges of Jade Sundial's soul from the precious rock.

This vestige of soul seemed like a wisp of lost hope to Blood New Moon. Even if it was collected, it would be able to bring about revival.

Still, this wisp of lost hope was enough for Blood New Moon to embrace it as his greatest treasure for the rest of his life.

At that moment, Lin Yuan said, "Uncle Blood, this precious rock is harder than Blood Love, and I expected. You need to break it in order for me to collect the soul inside it."

Blood New Moon used his Immortal power to sense that there was another lifeform next to Lin Yuan.

This lifeform was continuously searching for souls.

This discovery astonished Blood New Moon.

Blood New Moon was able to discover this lifeform because it was constantly activating its soul. Otherwise, the lifeform would be utterly undetectable to Blood New Moon.

When Lin Yuan saw the expression on Blood New Moon's face, Lin Yuan knew that he did not have to fuse with Dark Blue to enable Blood New Moon to see the Remembrance Soul Whale.

The Remembrance Soul Whale was so important that it had become an important secret weapon to Lin Yuan.

There were so many feys present that Lin Yuan could not expose the Remembrance Soul Whale.

However, Lin Yuan did not mind explaining to Blood New Moon, “Uncle Blood, it might not have much combat ability, but it can use spiritual ingredients with soul power in them to nourish dead souls and complete them. However, the soul needs a sufficient amount of the soul to unlock the memories from when it was still alive.”

Blood New Moon was stunned again.

He immediately charged at Lin Yuan with delight and screamed, “Will Jade Sundial’s memories be unlocked if enough of her soul is gathered? Is it true? Is it really true?”

Lin Yuan could not help but roll his eyes.

The Mother of Bloodbath had already told Blood New Moon over the phone that there was a chance that Jade Sundial could be revived. Blood New Moon had clearly heard the information!

How could Jade Sundial be revived if her soul wasn’t collected and her memories from when she was alive weren’t unlocked?

Uncle Blood, you’re already so grown and experienced. Can you remain calm?

Nonetheless, Lin Yuan could also understand Blood New Moon’s feelings.

If his parents could be revived now, he would be just as excited as Blood New Moon was.

Unfortunately, Lin Yuan and Chu Ci were not so blessed.

When Blood New Moon heard the shocking piece of information, he needed a guarantee from Lin Yuan.

“Exactly. However, the precious rock must contain enough of her soul. Otherwise, Auntie Jade Sundial will have partial amnesia when she is revived. The lost memories will be the less important ones. She will never forget you, Blood Love, or the other members of the Heavenly Family Cottage.”

Blood New Moon bowed to Lin Yuan and said, “I have no idea how I can thank you. From now on, I won’t hesitate to do anything you want, even if it might lead to my death.”

The souls of Myth Breed feys could already solidify into bodies. As such, the Eternal Jade Sundial could also do so.

However, Jade Sundial needed her memories for her soul to solidify.

Even if she did not have a body, the three of them could be a complete family living happily together.

This was something that Blood New Moon had never dared to dream of in the past.

In the past, Blood New Moon would never have been able to bring himself to break the precious stone that contained a part of Jade Sundial’s soul.

But now, Blood New Moon walked up and reached out his hand to smash the precious rock.

Blood New Moon had smashed the precious rock into very fine pieces.

He was afraid Lin Yuan's fey would be unable to collect all of Jade Sundial's soul power from the precious stone.

Blood New Moon remembered that Jade Sundial's biggest wish had been to see their daughter, even once.

The Remembrance Soul Whale could use the fluctuations from its brain to check on a soul that it had locked on.

Soon, the Remembrance Soul Whale started to use Soul Knot to accumulate the Sky Sundial Jade Spider's soul.

But while it was searching, Lin Yuan furrowed his brow.

Chapter 1562 Blood New Moon's Rollercoaster of Emotions

Although the Remembrance Soul Whale could find the Sky Sundial Jade Spider's soul every time it searched, the parts of the soul that it found were too weak.

Eventually, a large number of soul fragments gathered together but not even the Sky Sundial Jade Spider's shape could be formed.

By now, Blood New Moon had smashed more than half of the precious rock.

Given this speed, Lin Yuan felt that the Remembrance Soul Whale would not be able to use Burning Soul New Life to complete Jade Sundial's soul even when the entire precious stone was smashed.

It seemed unlikely that Jade Sundial's soul would be able to retain many of her memories. She might even forget Blood New Moon and the Mother of Bloodbath.

The Mother of Bloodbath and Blood New Moon had been looking forward to Jade Sundial's revival to be reunited with their wife and mother. Both of them were looking forward to their family being complete again.

This reality might be too cruel, but Lin Yuan still felt that it was necessary to tell Blood New Moon and the Mother of Bloodbath because there was no way to keep a fire under wraps with paper.

From the moment Lin Yuan frowned, Blood New Moon and the Mother of Bloodbath became nervous and assumed that something was wrong.

However, neither of them dared to question him for fear that they would disturb him from wielding the Remembrance Soul Whale to search for souls.

At this moment, Lin Yuan said, "Uncle Blood, Mother of Bloodbath, I have something to tell you. You should prepare yourselves. There is too little of Auntie Jade Sundial's soul in the precious rock. There is so little that it won't even be able to form her figure. Even if I complete her soul, she might not remember you."

The Mother of Bloodbath's face fell, but this did not happen to Blood New Moon.

Blood New Moon had never held hope that Jade Sundial would be able to be revived because he never thought that Lin Yuan would have a way to complete Jade Sundial's soul.

Many things in the Heavenly Family Cottage were stained with Jade Sundial's aura. Purple Love's handkerchief was an example of this.

Purple Love had visited the lava zone after Jade Sundial died and gathered as much of Jade Sundial's soul as possible into the handkerchief that Jade Sundial usually used.

There had to be a significant amount of Jade Sundial's soul in the handkerchief.

Purple Love just needed to bring the handkerchief over, and Lin Yuan's fey could absorb the soul within it.

Lin Yuan let out a breath of relief when Blood New Moon told him about the situation.

The Mother of Bloodbath's expression also brightened.

The Mother of Bloodbath turned and said to the feys beside it, "Head into the lava zone's inner sanctum. Tell them about the situation if someone tries to enter the center of the lava zone. Don't get in an altercation with the Bronze Furnace Guards."

When the feys heard what the Mother of Bloodbath said, they immediately cleared out of the center of the lava zone.

After the feys left, the Mother of Bloodbath summoned the Ten Thousand Medicine Hot Spring.

A hot spring shrouded in mist appeared next to the Mother of Bloodbath's feet.

The wall of the hot spring could be seen faintly through the mist. There were already hundreds of plants growing on the wall.

It was clear that the Mother of Bloodbath had not slackened in giving plants to the Ten Thousand Medicine Hot Spring to absorb.

The Mother of Bloodbath said softly to Blood New Moon, "Dad, this is the sacred source lifeform that Lin Yuan found for me. He won it after becoming the champion of the Martial Arts Stage."

Blood New Moon froze and thought, *?Is Little Love trying to tell me about how great Lin Yuan is and announcing her relationship with him?*

The moment this thought popped into his head, Blood New Moon broke out in a sweat.

He hoped that this would never happen because he would not be able to handle it.

If the Mother of Bloodbath had grown up by Blood New Moon's side, the latter would have immediately warned the b*stard that dared to take his daughter away that he would give him hell if he tried to bully Little Love.

However, Lin Yuan was their family's savior.

Blood New Moon would not be able to bring himself to threaten Lin Yuan.

But truthfully, Lin Yuan treated Little Love well. He even gave his prize to Little Love.

While Blood New Moon was panicking, the Mother of Bloodbath went on to say, "Dad, my sacred source lifeform is called the Ten Thousand Medicine Hot Spring. It is utterly incompatible with my combat style. I was depressed when I first got it."

Blood New Moon became even more doubtful when he heard what the Mother of Bloodbath said.

Sacred source lifeform lifeforms could not be uncontracted.

Does Little Love want me to comfort her?

Just as Blood New Moon was about to comfort the Mother of Bloodbath, the latter said, "Dad, this sacred source lifeform turned out to be the best sacred source lifeform that I have ever seen.

"It has already absorbed hundreds of medicinal plant-type feys. I am becoming more and more certain that it will be able to reconstruct bodies. Once Lin Yuan completes Mom's soul, he can help me to find a part of Mom's body, and I will be able to use it to reconstruct her body to completion."

The Mother of Bloodbath was not lying to comfort Blood New Moon.

This notion used to be nothing more than an idea.

When the Ten Thousand Medicine Hot Spring absorbed the first plant, the Blood Spotted Peach Blossom, the Mother of Bloodbath had not seen any obvious changes in the Ten Thousand Medicine Hot Spring.

Thus, it had not put much stock in Lin Yuan's idea.

However, as the quantity changed, so did the quality.

The Mother of Bloodbath could clearly sense the Ten Thousand Medicine Hot Spring's healing abilities had risen as it absorbed an increasing number of medicinal properties.

Although the Mother of Bloodbath had no way of regrowing a body using the genetic model, the Jasmine Lily could.

With the Jasmine Lily's cooperation, the Ten Thousand Medicine Hot Spring would not need to harness such an ability.

When Blood New Moon heard what the Mother of Bloodbath said, he was so excited that he did not know what to do.

He felt that he had never been so overwhelmed with emotions besides the day that Jade Sundial died.

If what his daughter said was true, Jade Sundial would not only be able to continue living through her soul but also regain her body.

Blood New Moon was both happy and shocked.

If the Ten Thousand Medicine Hot Spring was used in conjunction with Lin Yuan's invisible fey, they would be able to revive the dead!

Blood New Moon suddenly felt a chill shoot up his spine.

This ability went against the law of nature.

If it was discovered, the Mother of Bloodbath and Lin Yuan would be in danger no matter where they went.

Chapter 1563: As If I'll Stop!

Luckily, the Mother of Bloodbath had sent that group of feys away. Otherwise, if the Mother of Bloodbath summoned the Ten Thousand Medicine Hot Spring in front of them, Blood New Moon might have killed them to protect his daughter and Lin Yuan's safety.

Just as Blood New Moon was about to issue a warning to Lin Yuan and the Mother of Bloodbath, he noticed that Lin Yuan had entered a state of comprehension.

At that moment, a Willpower Rune related to the soul formed in Lin Yuan's brain.

The soul power in this Willpower Rune separated and reformed in a continuous cycle. It was similar to how the Remembrance Soul Whale was searching and solidifying souls.

Lin Yuan had comprehended this Willpower Rune that was related to the construction of souls when he sensed that the Remembrance Soul Whale was solidifying Jade Sundial's soul.

It was extremely suitable for the Remembrance Soul Whale.

Lin Yuan opened his eyes and smiled.

He did not expect to receive this surprising benefit when he was helping the Mother of Bloodbath to revive its mother.

Once the Remembrance Soul Whale evolved to Fantasy Breed, Lin Yuan would be able to evolve it to Diamond X.

At that point, the Remembrance Soul Whale would be able to solidify souls at a faster rate. It would be able to complete Jade Sundial's soul quicker.

Additionally, the Remembrance Soul Whale's evolution would allow Morbius to break through past Silver X and reach Gold grade.

When Lin Yuan Spirit Locked another fey, Morbius might be able to wake up.

Lin Yuan had been looking forward to this day for a very long time.

At that moment, the Bronze Furnace Guards arrived at the inner sanctum of the lava zone.

All of the fire-elemental energy in the lava zone had been drained. This change in the environment would seriously affect Bronze Furnace City commercially.

Bronze Furnace City used to rely on the forests around it to develop its fruit and flower sectors.

When the lava zone was formed, Bronze Furnace City had no choice but to redo its entire commercial structure.

But just as they were starting to gain some traction, the environment changed again.

If this change could not be overturned, their prosperity would plummet again.

All of their commercial structures would have to be redone.

But how could it be easy to redo a commercial structure that had taken so long to develop?

The Guard Captain of Bronze Furnace City had also personally come to investigate the situation.

The more he investigated, the more shocked he became.

This was because he realized that the lava zone was completely devoid of fire-elemental energy.

What the hell? God, are you trying to torture Bronze Furnace City to death?

The longer he was there, the angrier he became. When he entered the inner sanctum, he found a group of feys there.

They were blocking the path to prevent him from entering the center of the lava zone.

The Bronze Azure Guard Captain immediately exploded with anger and bellowed, "Are you the cause of the lava zone losing all of its fire-elemental energy? If that's the case, return all of the fire-elemental energy now!"

The Bronze Azure Guard Captain became even angrier.

All of the major cities were gearing up to enter the abyssal world and build mirror cities there.

Due to the previous change in environment, Bronze Furnace City had only just managed to recover. This was just in time for them to build a mirror city in the abyssal world.

As such, Bronze Furnace City was slightly panicked.

Recently, two veteran factions had wanted to move out of Bronze Furnace City. They eventually stayed after much coaxing from the Bronze Furnace Guard Captain, Xu Kuan.

But now that the environment around Bronze Furnace City had changed again, all of the businesses in Bronze Furnace City that surrounded fire-elemental energy would be doomed for failure.

Bronze Furnace City was ranked second from the bottom amongst the 32 major cities in the Radiance Federation.

Damn! Bronze Furnace City will probably come last in this year's ranking! How embarrassing!

They had formed contracts with the high-grade feys from the lava zone that protected their spirit qi professionals when they were training in the lava zone.

As thanks, the center of the lava zone was sectioned out and given to these feys to stay.

Although foreign feys commonly attacked the native feys from Bronze Furnace City, the feys that had formed contracts with Bronze Furnace City had all performed well.

As such, Xu Kuan forced himself to swallow his anger.

Otherwise, he would have attacked.

The feys that the Mother of Bloodbath sent to guard the inner sanctum of the lava zone remembered the Mother of Bloodbath's instruction not to clash against the Bronze Furnace Guard Captain.

The middle-aged woman walked up and said, "We won't let you in no matter what you say. We won't lay a hand on you if you don't barge in. If you need to talk, we can do so once our master arrives."

Xu Kuan was shocked when he heard this.

When did these feys from the center of the lava zone gain a master? They are clearly supposed to be here to guard the center of the lava zone. The change to the lava zone is definitely linked to their master.

Xu Kuan was the Bronze Furnace Guard Captain. He could not sit back and watch as Bronze Furnace City's economy collapsed as a result of the change in environment.

This would plunge the lives of countless citizens in Bronze Furnace City into despair.

Xu Kuan shot a look at the Bronze Furnace Guards behind him, and they immediately turned and rushed off in the direction of Bronze Furnace City.

These people were not returning to Bronze Furnace City but going to find a bunker where they would call the branch of Spirit Guards in Bronze Furnace City and ask them to send reinforcements.

Normally, Xu Kuan would be able to handle these feys that were Myth III at best on his own.

However, he could not let his guard down until he met their master.

After sending a group off to bring help, Xu Kuan waved his hand, and two feys in human form appeared next to him.

They were both holding weapons, and it was clear that they had reached at least Myth III.

The feys behind the middle-aged woman were surprised when Xu Kuan summoned his feys.

They were about to retaliate when a young man said from behind them, "Stop!"

Xu Kuan was feeling very frantic.

When he heard someone shout at him to stop, he yelled, "As if I'll stop! Who do you think you are? What makes you think that you can tell me what to do?"

When the last word fell from Xu Kuan's lips, a small item flew at him.

Xu Kuan reached out and grabbed it. He saw that it was a small Class 2 Creation Master crest.

Xu Kuan felt suspicious when he saw the Creation Master crest.

You might be a Class 2 Creation Master, but that doesn't give you the right to order me to stop!

However, his jaw fell open when he saw the moon totem on the Class 2 Creation Master crest.

Chapter 1564: The Miserable Bronze Furnace City

As the Guard Captain of one of the Radiance Federation's major cities and a Class 3 Creation Master, Xu Kuan was more aware than the Guard Captains of other cities who were not Creation Masters what the totem on that Creation Master crest meant.

Any Class 4 Creation Master who accepted a disciple could engrave their totem on their disciple's crest.

However, in the entire Radiance Federation, only that member of royalty had a totem related to the moon.

Oh my God! Did I just speak to the disciple of that member of royalty? I spoke so impolitely in a fit of anger.

Xu Kuan retracted his neck.

Nonetheless, as the Guard Captain of Bronze Furnace City, Xu Kuan needed to check on the center of the lava zone for the sake of Bronze Furnace City's economic and commercial prosperity.

If he encountered the Moon Empress' disciple, he would do his best to communicate his circumstance to the Moon Empress' disciple.

Crying children were eventually fed.

If the loss of the fire-elemental energy from the lava zone could not be recovered, it was likely linked to the Moon Empress' disciple.

If so, the Moon Empress' disciple would have to help Bronze Furnace City in some way!

Bronze Furnace City's finances were tight.

As the city that was ranked second from last in the Radiance Federation, it was extremely difficult for them to build a mirror city in the abyssal world.

Although the Class 6 abyss dimensional rift had only been open for a few days, big cities like Ascending Dragon City, Raging Waves City, Cloud Lake City, and Indigo Azure City had already claimed their territories in the abyssal world.

They had already started gathering materials from the abyssal world to build their cities.

Bronze Furnace City could also claim its own territory. Unfortunately, Bronze Furnace City was so poor that they still lacked ingredients.

Building materials were considered financial resources.

But no matter how poor Bronze Furnace City was, they could produce the resources if they tightened their belts.

However, even if they could produce the building materials, the Bronze Furnace Guards would need some time to clear out the abyss demons.

The most expensive thing in this world was Creation Master resources.

Bronze Furnace City was so poor that it did not receive much of a Creation Master resource investment.

Xu Kuan was the Bronze Furnace Guard Captain but had spent last night concocting spirit fluids with his Class 3 Creation Master abilities to help his subordinates increase their power.

If Bronze Furnace City crumbled again, only someone as powerful as the Moon Empress' disciple would be able to save them.

At that moment, Xu Kuan saw three figures walking toward him.

Two of them were a man and a girl with red hair. It was clear that they were feys in human form.

Beside them was a young man dressed in black that looked to be only around 17 years old. But there was no question that he was the Moon Empress' disciple.

The Mother of Bloodbath and Blood New Moon's arrival caused all the feys to fall silent.

The middle-aged woman walked over to the Mother of Bloodbath and said sadly, "These spirit qi professionals are unreasonable. They are insisting on barging in. When I refused them, they readied themselves to attack!"

The Mother of Bloodbath did not respond. Instead, it turned its gaze to Lin Yuan.

At that moment, Xu Kuan walked over and held up the Class 2 Creation Master crest with a moon totem on it with both hands.

He bowed and returned the crest to Lin Yuan as he said, "Lord, I am the Bronze Furnace Guard Captain, Xu Kuan. You rushed over from the center of the lava zone, and I would like to ask you if the change to the center of the lava zone has caused all the fire-elemental energy to disappear?"

Lin Yuan frowned slightly. He had a general idea of why Xu Kuan was so concerned about the fire-elemental energy disappearing from the lava zone.

Lin Yuan came from Redbud City and was well aware of the financial impact that could come from a change in the environment.

It rained year-round in Redbud City.

The plant-type feys that were nurtured in the breeding bases had a huge demand for water.

However, there was one year when it rained much less in Redbud City.

As such, many of the plant-type feys bore poor harvests, and their prices had inflated.

The time that Lin Yuan first started managing the spirit lifeform store coincided with the time of the inflation of prices of plant-type feys. Unfortunately, he had very shallow savings at that time.

It had caused great struggles for Lin Yuan and Chu Ci.

After understanding Xu Kuan's troubles, Lin Yuan replied honestly, "All the fire-elemental energy in the lava zone has been drained and will never be recovered."

Xu Kuan's face instantly fell.

Due to the formation of the lava zone, Bronze Furnace City had had a difficult time adjusting its business structures.

Now that the lava zone was gone, it would once again be extremely challenging for Bronze Furnace City to adapt.

Numerous people in the Bronze Furnace City were going to lose their livelihoods.

If this matter was reported, Cicada Song would definitely send resources.

Xu Kuan and the City Lord could set aside their pride to do this. However, the aid would not be able to erase the regular people and spirit qi professionals' disappointment of losing their source of income.

Xu Kuan could estimate that it would be difficult for Bronze Furnace City to overcome this trial within the next century.

In order to fulfill the requirements of establishing themselves in Bronze Furnace City, they had to invest all of their finances into building the mirror city in the abyssal world and ensuring the citizens' survival in the city.

They had no money left over to invest in Creation Master resources.

As a result, Bronze Furnace City's development would only deteriorate.

The more he thought about it, the sadder he became, and tears welled up in his eyes.

For the sake of Bronze Furnace City's future, Xu Kuan planned on having a good talk with the Moon Empress' disciple.

If the Moon Empress' disciple refused to take part in this matter and just left, Xu Kuan would find it hard to acknowledge him as a disciple of a member of royalty even if he ended up as a leader in the Radiance Federation.

But before Xu Kuan could speak, the young man said, "The changes to the lava zone are a result of my friend absorbing the fire-elemental energy. I know that this will seriously affect Bronze Furnace City, and I am prepared to do something to help Bronze Furnace City. As the Bronze Furnace Guard Captain, you should know what resource Bronze Furnace City needs the most!"

Lin Yuan's words caused Xu Kuan to stare at him for some time.

For this young man to say such a thing, it showed that he was very responsible.

But despite the fact that this young man was the Moon Empress' disciple, Xu Kuan did not believe that he would be able to provide enough resources to cover Bronze Furnace City's losses.

Chapter 1565: Young Man's Responsibility

Xu Kuan told Lin Yuan honestly about his troubles, "When forests flanked Bronze Furnace City, we had an abundance of metal resources. Although we were not one of the top cities in the Radiance Federation, we were still considered average.

"But ever since the lava zone was formed, it became hard to harvest the metal resources, and the forests were burned into ash. After that, Bronze Furnace City took a long time to alter our commercial businesses. Things only started looking up two years ago when we started making use of fire-type spiritual ingredients and nurturing fire-type feys.

"Your friend is a fey, so there's nothing surprising about it needing fire-type resources. However, now that all the fire-elemental energy in the lava zone has been drained, millions of people from Bronze Furnace City will be affected.

"Like every other city, Bronze Furnace City lacks Creation Master resources. Not even 1,000 high-quality Bronze feys will be able to make up for the losses that Bronze Furnace City will suffer due to the loss of the lava zone."

Xu Kuan could not calculate the total damage that the loss of the lava zone would cause Bronze Furnace City. He had only cited 1,000 high-quality Bronze feys off the top of his head.

Other cities would seek out Creation Masters annually to ask for Bronze/Epic feys that they would give to their guards as prizes and increase their power.

However, Bronze Furnace City had so little savings that it would even be difficult for them to obtain a Bronze/Flawless fey, much less a Bronze/Epic one.

It was a huge cost to them even to gain 300 Bronze/Flawless feys per year.

Since the opening of the abyssal world, the cost of fire-type spiritual ingredients had plummeted. This had seriously affected Bronze Furnace City.

It was evident that the factions in Bronze Furnace City were showing signs of wanting to leave.

Thus, 1,000 high-quality Bronze feys were considered an unimaginable sum of resources to Xu Kuan.

At that moment, the young man opposite him said apologetically, "1,000 Bronze/Epic feys is no problem. Do you have any specific requests with regard to them?"

Xu Kuan was stunned speechless.

He had been so used to struggling in poverty that he did not dare to believe what he had just heard Lin Yuan say.

Previously, Blood New Moon and the Mother of Bloodbath had been rather standoffish toward Xu Kuan.

Jade Sundial had left the fire-elemental energy in the lava zone. They were only taking back what was rightfully theirs.

Bronze Furnace City made use of the lava zone to thrive. This meant that they had accepted aid from Jade Sundial.

However, they did not expect Jade Sundial's body to influence Bronze Furnace City greatly.

It seemed that they were the ones who owed Bronze Furnace City.

At that moment, Xu Kuan regained his senses.

He looked at Lin Yuan excitedly and said, "Young Lord, are you speaking the truth?"

Lin Yuan nodded.

"I remember that Bronze Furnace City's standard fey is the Bronze Shield Crocodile Turtle. You can section out the 1,000 Bronze/Epic feys, and I will provide you with resources according to your requests. The citizens are the ones who will be most badly affected by the change in the lava zone's environment. 1,000 Bronze/Epic feys won't be able to solve the problem at its root.

"Why don't we do this? In the beginning, I will help introduce Bronze Furnace City to factions that can facilitate an improvement in your economy. Then, I will also provide you with 300 Bronze/Epic feys annually until your financial situation recovers.

"Now that Bronze Furnace City has returned to its original state, you can start harvesting the metal resources again. I can promise you that no new faction will be allowed to take up part of your mining resources.

"No matter how good or bad the quality of the mined goods is, I will take them and turn them into funds for Bronze Furnace City. Once the commercialization adjustment begins, there will probably be many people who need help.

"I will make Bronze Furnace City the next location for the Warm Sun Fund. Please help collate all the people and factions in Bronze Furnace City who will lose their livelihoods due to the environmental change. Ask them if they would prefer to be compensated in Creation Master resources or Radiance dollars."

When Xu Kuan heard Lin Yuan's decisive tone, he was momentarily speechless.

Now, he started looking at Lin Yuan in a different light. His gaze was full of respect.

He wondered how much determination and responsibility the young man was shouldering for him to be willing to give out so many resources to fill the gap that had been left by an event that could have been blamed as a natural disaster.

With the input of so many resources, Bronze Furnace City would not only be saved from suffering any losses, but it would even benefit from this calamity.

Lin Yuan was going to compensate the people and factions who were going to lose their livelihoods due to the change in environment.

This meant that he would be single-handedly taking on the responsibility for this entire matter.

The longer Xu Kuan looked at Lin Yuan, the more respect he felt.

Xu Kuan did not reject Lin Yuan's offer of compensation because he could not afford to.

At the same time, Xu Kuan did not want to take advantage of Lin Yuan's resources.

"Young Lord, if you invest so many resources, Bronze Furnace City won't suffer any losses. You don't need to provide Bronze Furnace City with 300 Bronze/Epic feys annually. If you don't mind, I hope that you will be willing to trade Bronze/Epic feys with Bronze Furnace City from now on," said Xu Kuan.

Lin Yuan glanced at the excited and hopeful faces of the Bronze Furnace Guards behind Xu Kuan and said, "Of course! Bronze Furnace City is next to the lava zone. Abyss dimensional rifts probably open often here. If I'm not wrong, Bronze Furnace City should have collected a significant number of Law Source Crystals. From now on, I will trade a Bronze/Epic fey for every 5 Law Source Crystals."

When Xu Kuan heard what Lin Yuan said, he asked while trembling, "Is this real? If so, we are able to provide you with 50,000 Law Source Crystals now in exchange for 8000 Bronze/Epic feys!"

If this declaration had come from anyone else, Xu Kuan would not believe it. It was just impossible for there to be such a good deal.

However, it was the Moon Empress' disciple who said this, so it had to be believable.

With great determination, Xu Kuan offered up all of Bronze Furnace City's Law Source Crystals.

If they could truly trade for 8,000 Bronze/Epic feys, the Bronze Furnace Guards would be able to double in quantity.

Chapter 1566: Lin Yuan's Promise

The enhancement of the entire Bronze Furnace Guards would increase Bronze Furnace City's combat power.

Xu Kuan was confident that this trajectory would allow Bronze Furnace City to rebuild and raise itself until it reached the middle of the ranking of all the cities in the Radiance Federation once again. Then, they would reclaim their past glory!

Lin Yuan shook his head when he heard what Xu Kuan said.

Xu Kuan's heart instantly sank, and he thought, *?I'm too greedy! Young Lord's offer of trading five Law Source Crystals for one Bronze/Epic fey might just be a special deal or compensation that he's giving Bronze Furnace City.*

8,000 Bronze/Epic feys was a sum that even 100 Class 4 Creation Masters would struggle to come up with.

Just as Xu Kuan was feeling regretful over his greed, Lin Yuan said, "If Bronze Furnace City can provide 50,000 Law Source Crystals, you should gain 10,000 Bronze/Epic feys as per the deal. However, this transaction will take very long to complete.

“If Bronze Furnace City decides to go through with this transaction, I can provide you with 500 Bronze/Epic feys monthly. The entire transaction will take 20 months to complete. However, I have to obtain all the 50,000 Law Source Crystals upfront.”

Xu Kuan was over the moon when he heard what Lin Yuan said. He did not expect his greedy request not only to be accepted but also for Lin Yuan to persist with the original conditions of the trade.

He was going to provide Bronze Furnace City with 500 Bronze/Epic feys every month. This was such a large investment of Creation Master resources that it perfectly met the Bronze Furnace Guards’ needs.

Xu Kuan had risen from despair to joy in such a short span of time that he was momentarily speechless.

After a moment, he thanked Lin Yuan and said, “Young Lord, give me an hour, and I will deliver all the 50,000 Law Source Crystals.”

Lin Yuan’s eyes lit up.

When he traded with the Raging Waves Guard and Indigo Azure Guard, he had used his identity as the City Lord of Sky City.

Under those circumstances, the Raging Waves Guard Captain and Indigo Azure Guard Captain would never dare to pay upfront, regardless of how much they trusted him.

Now that Lin Yuan was trading with Xu Kuan as the Moon Empress’ disciple, he was able to make such a request and not cause Xu Kuan to worry.

Now, Lin Yuan just needed to wait for Genius and Chimey to evolve into Fantasy V and for their bloodlines to transform before the Radiance Hundred Sequence selection.

Hence, he could use this time to prepare some of the Bronze/Epic feys that he was going to trade with Bronze Furnace City.

“Okay, thank you for the hard work. As for Bronze Furnace City’s stock of resources, I will be able to produce them within three days of you handing me the list.”

By trading with Bronze Furnace City, Lin Yuan had exposed his capabilities.

He would never have agreed to do so in the past.

But now, he had an amazing shield in the form of Di Wanmi.

Now that he had a Class 5 Creation Master, it would not be surprising for him to produce any amount of Creation Master resources regardless of how much.

Lin Yuan had personally witnessed the Moon Empress concoct 100 bottles of spirit fluids within four hours.

She had fed them to 100 of the same Bronze feys.

Amongst the 100 Bronze feys, 23 had reached Flawless, 75 had reached Epic, and two had reached Legend.

The rate at which the Moon Empress could evolve feys was one of the best in the world.

If Lin Yuan did not make use of spirit qi crystals, she would be slightly faster than him.

Once the Remembrance Soul Whale comprehended the Willpower Rune and Morbius awoke, Lin Yuan would be able to evolve Bronze feys even faster than the Moon Empress.

Di Wanmi had only just become a Class 5 Creation Master, and it would be impossible for her abilities to match that of the Moon Empress.

But as a tool, it would not be shocking for her to produce hundreds or maybe thousands of Bronze/Epic feys.

However, there was no way that Lin Yuan would use the Class 5 Creation Master that he had finally managed to obtain to evolve fey qualities.

Lin Yuan was fully able to do this on his own.

Lin Yuan set Di Wanmi's goal as creating precious instruments and evolving the Item-Storing Walnuts into Diamond for the army of Hundred Questions Beasts.

This was an ability that Lin Yuan lacked the most now.

Now that Red Thorn used the Tongue of Relinquish to control Di Wanmi, he was no longer lacking in any way with regard to his Creation Master ability.

Once he obtained the 50,000 Law Source Crystals from Xu Kuan, the sun had begun to set.

Lin Yuan prepared to rush to the Radiant Moon Palace to have dinner with the Moon Empress.

What happened to the lava zone would affect the citizens of the entire Radiance Federation.

Lin Yuan was ready to tell all of this to the Moon Empress.

While Lin Yuan was rushing to the Radiant Moon Palace, Xu Kuan had arrived at his office and started writing a report on the change in the lava zone.

The change in the lava zone was supposed to be a bad thing. But with Lin Yuan stepping in, the disaster had turned into a blessing.

The lava zone could now be used to nurture plant-type feys and mine for metal.

Lin Yuan's promise was a safe harbor for Xu Kuan.

From now on, Xu Kuan would be able to bring up Lin Yuan if any faction came to Bronze Furnace City and tried to take partial ownership of the mines in exchange for an investment.

Xu Kuan would not have to feel bad about causing Bronze Furnace City to lose capital because he rejected the top factions' requests.

Additionally, Lin Yuan had promised that he would introduce Bronze Furnace City to top factions that could help develop their economy.

This was the most appealing part to Xu Kuan.

However, he had no clue which factions Lin Yuan would introduce to Bronze Furnace City.

The change in the lava zone would have to be reported to Cicada Song. As such, Xu Kuan honestly detailed the entire experience in the report.

Although this was the first time that he had met the Moon Empress' disciple, Xu Kuan already felt that Lin Yuan was worthy of becoming a Radiance Envoy.

If such a responsible young man became a Radiance Envoy, it would be a blessing for the entire Radiance Federation.

On the journey back, Blood New Moon said apologetically, "Lin Yuan, I caused you trouble. I will return to Heavenly Family Cottage to collect a batch of resources to compensate for the losses caused by the lava zone."

Chapter 1567: The Moon Empress' Dominance

Blood New Moon had become Lin Yuan's Protector.

As a member of Heavenly Family Cottage, it was inappropriate for him to address Lin Yuan as 'Lord'.

However, Blood New Moon could act like a senior in front of Lin Yuan because he owed Lin Yuan a favor.

Eventually, Blood New Moon could only speak with Lin Yuan separately from the Mother of Bloodbath.

However, Lin Yuan saw Blood New Moon as his senior, and he said, "Uncle Blood, I have fully compensated for Bronze Furnace City's losses. I will move the Listening Heron Chamber of Commerce's main branch to Bronze Furnace City. You don't have to increase the compensation. If you try to give me the resources, I will also turn them down."

Blood New Moon was stunned by what Lin Yuan said. This made him aware of how wonderful this young man was.

This was unsurprising as Lin Yuan even managed to gain the Mother of Bloodbath's affection.

Lin Yuan's decision to move the Listening Heron Chamber of Commerce from the Royal Capital to Bronze Furnace City was not impulsive.

Although the Royal Capital was where the people with the most purchasing power in the Radiance Federation lived, the Listening Heron Chamber of Commerce needed to expand into the major cities in order to gain more territory in the abyssal world.

Bronze Furnace City had a million things to do, and they would definitely welcome the Listening Heron Chamber of Commerce.

The Listening Heron Chamber of Commerce was completely different from the small chamber of commerce they started out as.

Ever since the Listening Heron Chamber of Commerce announced that they had thearch-class experts, they became even more reputable than veteran factions and were close to becoming a top faction.

The Listening Heron Chamber of Commerce would definitely appear on next year's ranking of top factions.

They were capable of helping Bronze Furnace City's businesses and citizens progress.

Once the Listening Heron Chamber of Commerce took root in Bronze Furnace City, they would also be able to become the city's pillar of support like the Gao family was for Wind Mist City.

The Mother of Bloodbath's family had brought two disasters upon Bronze Furnace City, and this was Lin Yuan's way of compensating Bronze Furnace City on the Mother of Bloodbath's behalf.

This compensation would also be a win-win situation for Lin Yuan.

The Mother of Bloodbath and Blood New Moon sent Lin Yuan to the base of Leaning Moon Mountain before they left to meet up with Blue Lotus and White Phoenix.

Tonight, the Mother of Bloodbath and Blood New Moon were going to do nothing besides having a good talk.

The Radiant Moon Palace was like Lin Yuan's home. Thus, he transported himself directly into the inner palace using the Ethereal Jellyfish's Node Teleportation.

At that moment, Lin Yuan spotted the Moon Empress peeling lotuses.

There were a few lotus flowers bobbing along in the lotus pool. Clearly, they had been cut down.

The lotus flowers in the Radiant Moon Palace's lotus pool had gained intelligence.

Lin Yuan felt that these lotus flowers probably hated him because they died every time he visited.

When the Moon Empress caught sight of Lin Yuan, she set down the lotus flower and said proudly, "Little Yuan, the two victories that you pulled off during the time that I was locked away training should be written in the Radiance Federation's history books. I might be a Class 5 Creation Master, but I'm still less important to the Radiance Federation than thousands of low-class Creation Masters."

The Moon Empress walked over to Lin Yuan and adjusted his collar before going on to say, "Little Yuan, I'm awake now. From now on, you can do whatever you want. I will be able to handle everything, no matter how big."

Lin Yuan was shocked when he heard what the Moon Empress said.

He always knew that the Moon Empress was arrogant. However, she was not conceited. She could only have said such a thing if she was fully confident.

Lin Yuan said with a smile, "Master, congratulations on your breakthrough!"

At that moment, Mystic Moon walked in, leading spirit attendants who laid out dishes on the table.

"Young Lord, the Moon Empress' seclusion not only led to her breakthrough," said Mystic Moon.

Mystic Moon always wanted to tell Lin Yuan about the Moon Empress' lifespan.

The Lifespan Mouse had enabled the Moon Empress to escape her doom. Thus, he could now tell Lin Yuan about it without worrying about the Moon Empress.

But eventually, Mystic Moon still did not tell Lin Yuan about it because he knew that the Moon Empress would be furious.

Moreover, Lin Yuan did not need Mystic Moon's encouragement.

The team from the Freedom Federation was sure to cause trouble during this Radiance Hundred Sequence selection.

If they truly went forward with the friendly spar against the Freedom Federation, Lin Yuan would have to be the one to take them on as the Radiance Hundred Sequence's representative.

This battle against the Freedom Federation, which had been long in preparation, was enough to motivate Lin Yuan.

The Moon Empress scooped out a bowl of dessert for Lin Yuan and said, "Little Yuan, chaos is about to break out. According to the information I received, the First Emperor Shark Clan has formed a partnership with the Freedom Federation.

"The Radiance Federation is destined to battle against the Freedom Federation in the next Major Federation Meeting. Hence, the First Emperor Shark Clan has to become extinct during the meeting to discuss the agreement between the Radiance Federation and the Eight Clans of Sea Emperors."

Although the Moon Empress had spoken with a smile, she had a deadly gleam in her eyes.

The Moon Empress had been completely ignorant of the outside world when she was in seclusion. All of her thoughts and energy went toward using her birth horoscope to combat the heavens.

She found out from Mystic Moon that Lin Yuan had almost been killed by a member of the First Emperor Shark Clan on Raging Waves City's island.

From that moment, the Moon Empress decided that she was going to unleash carnage on the First Emperor Shark Clan.

Soon, the Eight Clans of Sea Emperors would become the Seven Clans of Sea Emperors.

This was because the Moon Empress was afraid and needed to make a statement.

Lin Yuan was her disciple, and no one would be allowed to lay a hand on his head without bringing forth their swift deaths. If a faction tried to attack him, they would be wiped out.

The Moon Empress had completely returned to who she used to be ten years ago.

Her eyes had a biting cold glint, but she still had a soft spot for Lin Yuan.

Lin Yuan did not expect the Moon Empress to say to him what would usually only be revealed during an imperial meeting.

He felt a sense of urgency when he heard what the Moon Empress said.

If the world was truly going to be plunged into a war, Sky City still lacked strength! The Floating Island Whale still had not taken to the sky!

After dinner, Lin Yuan stayed overnight at his building in the Radiant Moon Palace.

When he opened his eyes the next morning, he received good news from Chimey.

“Yuan, I just need to absorb a little strange flame energy, and I’ll be able to evolve to Fantasy V”

Lin Yuan had intended on evolving the Remembrance Soul Whale to Fantasy Breed and Morbius’ grade today.

He had not expected Chimey to give him such a big surprise.

Genius could have evolved to Fantasy V long ago, but it had put it off to wait for Chimey.

Chapter 1568: Plan to Unify the Startling Lines Continent

When Lin Yuan returned to the Return from Faraway Mansion, he planned to enter the Spirit Lock spatial zone to evolve Genius and Chimey to Fantasy V.

Lin Yuan let out Genius and Chimey from the Spirit Lock spatial zone.

Although both of them were currently Diamond X/Fantasy IV, they still snuggled in Lin Yuan’s arms and perched on his ear like how they used to.

However, this was also because they had not increased in size after increasing their power.

Chimey chirped at Lin Yuan, “Yuan, will I be able to change into human form and hold concerts when I transform into Fantasy V?”

Chimey stayed in the Phoenix Perching Chinese Parasol Tree all day not because it wanted to increase its power but to live stream and raise funds for the Warm Sun Fund.

However, Genius’ knowledge bank was now the equivalent of a pinnacle Class 4 Creation Master.

“Chimey, you will only be able to change into human form and hold concerts when you transform to Myth Breed and reach Myth II.”

Genius and Chimey evolved their powers at breakneck speed.

Lin Yuan lamented that he was falling behind as their contractor.

He was still only a B-rank spirit qi professional.

Chimey would only be able to evolve to Myth Breed when he raised his spirit qi professional rank to A-rank.

Luckily, Morbius was going to evolve to Gold grade soon.

At that point, Lin Yuan would be able to increase his spirit qi professional rank and ability to evolve feys at a faster rate.

Lin Yuan was already very surprised about the strength of Genius and Chimey's bloodlines. He could not predict how far they would go if their bloodlines evolved again.

Chimey used to have the opportunity to awaken the luan-phoenix-species bloodline. However, Chimey consumed the luan-phoenix-species bloodline using its original bloodline.

It continued to advance along the road of Sound-type.

It would not be accurate to say that Genius was fully evolving in the direction of spiritual energy. It was more like the general of the intelligent-cat-species.

The Hundred Questions Beasts were a group that could replace Creation Masters.

Lin Yuan hoped that when Genius' bloodline broke through, it would be able to take another step ahead on the path of being a Creation Master.

If Genius could reach the Class 5 Creation Master level, Lin Yuan would have two Class 5 Creation Masters as his subordinates.

Lin Yuan changed clothes, walked out of his building, and headed to the inner palace to have breakfast with the Moon Empress.

When he arrived at the inner palace, Lin Yuan noticed that the Moon Empress had put on the Moonbeam Coronation Costume.

The Moon Empress smiled at Lin Yuan and said, "Little Yuan, I need to attend an imperial meeting soon, so I need to leave early."

While the Moon Empress was speaking, she scooped out a bowl of soup bamboo and shark marrow soup for Lin Yuan.

The bowl of soup overflowed with water-elemental energy and blood energy.

This aura reminded Lin Yuan of Shawn Awn's aura.

Lin Yuan thought, *Can it be that the shark marrow in this soup came from the First Emperor Shark Clan?*

Lin Yuan could sense that the Moon Empress had a lethal rage against the First Emperor Shark Clan.

Before the Moon Empress left, Lin Yuan felt that he needed to give her a proper recount of everything that had happened recently.

Yesterday, the Moon Empress said that the structure of the entire main world was about to change.

Lin Yuan planned to tell the Moon Empress what he had gained from the Astronomical Parliament.

Although he had never mentioned the Astronomical Parliament to the Moon Empress, Mystic Moon was Wen Yu's master, so there was no way he did not know about the Astronomical Parliament.

Mystic Moon had told the Moon Empress about the Astronomical Parliament.

Although she felt that the Astronomical Parliament was special, she did not think that it would be useful.

The Moon Empress felt that the people that were called to the Astronomical Parliament would all come from horrible situations.

It would not only be difficult to help them, but it would also be hard for them to change their lives even after receiving help.

Unless all of them were from the same continent and could gather together, it would be impossible to make a significant impact when they were separated by continents, no matter how powerful one was.

But now that the Moon Empress was hearing about the Astronomical Parliament from Lin Yuan, she was floored.

“Master, there are currently two federation envoys amongst the members of the Astronomical Parliament. One of them is Su Yiren from the Seven States of Darkness, while the other is Yin Lin from the Azure Federation. The other two also have the potential to become federation envoys, albeit there’s no guarantee.”

The latter two people that Lin Yuan mentioned were Ta Lei and Bu Po.

The Moon Empress fell silent for a moment after Lin Yuan was done speaking.

She and Mystic Moon were curious about how Lin Yuan managed to use the Astronomical Parliament, which had greater strategic than practical impacts.

He managed to accept two federation envoys as members of the Astronomical Parliament.

Su Yiren represented the hope of the entire Dark Continent.

Lin Yuan could legitimately set his eyes on the Dark Continent with her around.

The Azure Federation and Radiance Federation were part of the three great federations.

Yin Lin was a genius of the younger generation who had awoken two beast patterns.

There was a rumor that Yin Lin had suddenly regained her sight and awoken her beast patterns.

Could Lin Yuan have been the cause of these events?

Apparently, Yin Lin had volunteered for the trip to the Radiance Federation. It was likely that she was hoping to meet with Lin Yuan.

The Moon Empress and Mystic Moon shared a look.

Both of them thought that they knew Lin Yuan well, but his power had already progressed far past their eye line.

Night Leaning Moon had been forced to kill Di Wanmi because she needed to give the Creation Masters, who Whale Ocean Commerce had murdered, an explanation.

She had no use for Di Wanmi’s corpse, but Lin Yuan used his own technique to revive Di Wanmi and even made her into his servant while enabling her to retain her Class 5 Creation Master powers.

The Moon Empress had not expected any of this.

Previously, no matter what Lin Yuan did, the Moon Empress felt that she would always be his shield.

Moreover, the Moon Empress also wanted to see how far her disciple could go.

When she was Lin Yuan's age, she was far from his current level.

Additionally, the truly terrifying aspect about Lin Yuan was not that he possessed such power at his young age but that he had accomplished all of this within a year, given that he started from zero.

He possessed astonishing talent!

Lin Yuan went on to say, "Master, I plan on unifying the Startling Lines Continent."

Chapter 1569 Remembrance Soul Whale, Evolve!

Mystic Moon almost spat out the soup in his mouth when he heard what Lin Yuan said.

However, given that he had Di Wanmi, it would not be impossible for him to unify the Startling Lines Continent.

The Moon Empress was silent for a moment before she replied, "There's a stipulation at the Major Federation Meeting that no officials from one federation can leach into another federation. All the federations agreed to this stipulation. Hence, you will only be able to rely on yourself with regards to this matter about the Startling Lines Continent."

When Mystic Moon heard what the Moon Empress said, he felt that she was trying to discreetly warn him. Yet, there was also a hint of her saying that the Startling Lines Continent rightfully belonged to her disciple.

The Moon Empress was proud yet disappointed.

She clearly had not taught him much, but he managed to grow so much and become so outstanding. This filled the Moon Empress with pride.

The Moon Empress felt more pride over Lin Yuan than happiness over her breakthrough.

Eventually, the Moon Empress said softly, "Little Yuan, look at you. I suddenly feel my age catching up with me. This world belongs to the younger generation now."

Lin Yuan shook his head and replied, "Master, you aren't old! With the Lifespan Mouse, you'll be able to live forever. You'll always be young."

The Moon Empress could not help but reach out her hand and gently touch Lin Yuan's face with a smile stretching across hers.

It was almost time, and the Moon Empress started to make her way to the imperial court to attend the imperial meeting.

Before she left, her expression turned stern, and she said, "Little Yuan, if anyone from the Freedom Federation tries to lay a hand on someone from the Radiance Federation during this Radiance Hundred Sequence selection, you can end them during the spar, regardless of who they are."

Lin Yuan nodded and replied seriously, "Master, I will."

Mystic Moon was stunned with fright when he heard what the Moon Empress said to Lin Yuan.

However, this Moon Empress was the one he was more familiar with. She had returned to who she used to be a decade ago.

After breakfast, Lin Yuan left Leaning Moon Mountain and returned to the Return from Faraway Mansion.

When he walked into the residence, he saw Blood New Moon, Blue Lotus, and White Phoenix seated on the water rhinoceros leather sofa.

Wen Yu was serving them Three Treasures Tea.

When Lin Yuan walked in, Blood New Moon hurriedly stood up and said, "Young Lord, these two friends of mine would like to stay here for a few days and protect your safety during the Radiance Hundred Sequence selection."

Blood New Moon had no idea what the right way to address Lin Yuan was. He eventually settled on 'Young Lord'.

Lin Yuan anxiously replied, "Uncle Blood, you're Blood Love's father and my senior. You can call me Little Yuan! There are many empty rooms in the main residence. Feel free to make yourself comfortable."

White Phoenix and Blue Lotus excitedly made their way over to Lin Yuan.

Although they had received definitive answers from Blood New Moon and the Mother of Bloodbath last night, they still could not help but say, "Little Savior, is it true that Sister Jade Sundial can be revived?"

When Lin Yuan nodded, White Phoenix and Blue Lotus started laughing excitedly.

Blue Lotus was so lost in her emotions that she squeezed too hard and caused the persimmon in her hand to burst, spraying the juices everywhere.

It looked very comical.

However, Lin Yuan knew that Heavenly Family Feys were all emotional.

It was likely that the Heavenly Family Cottage was just as warm of a place as the Radiance Federation.

Blue Lotus and White Phoenix could not help but slap their foreheads as they watched the cackling Blood New Moon.

They completely forgot how they had been worse wrecks than Blue Lotus and had cried enough to fill a large bottle when they found out that Jade Sundial could be revived.

Blood New Moon said, "Little Yuan, I already notified the head of the Heavenly Fey Cottage, Purple Love. She will send over a handkerchief that Jade Sundial used to keep with her at all times. Sister Purple Love had used soul-gathering methods to gather all the souls of dead lifeforms from the lava zone. I hope that your fey will be able to find Jade Sundial's soul from the handkerchief."

Lin Yuan nodded and replied, "That will be easy. My fey will be able to evolve very soon and become more powerful. It will be able to sort through the souls, no matter how many there are."

Blood New Moon thought about how Purple Love had howled for an hour straight when he called to tell her the news last night.

Eventually, she said she would immediately bring Jade Sundial's handkerchief to the Radiance Federation.

Now that Blood New Moon had found his daughter and his wife was about to be revived, his life was full of hope. He no longer needed to live solely for revenge like he used to.

However, his hatred for Tower Canon had not decreased in the slightest.

Once Purple Love arrived, two members of Tower Canon were going to come to the end of their lives in the Radiance Federation.

Wen Yu led Blood New Moon, White Phoenix, and Blue Lotus to their rooms.

Lin Yuan returned to his room and entered the Spirit Lock spatial zone to increase his power one last time before the Radiance Hundred Sequence selection.

After spotting Genius and Chimey, Lin Yuan pondered for a moment before deciding to evolve the Remembrance Soul Whale to Fantasy Breed before evolving its grade.

Finally, he would evolve Morbius to Gold grade.

Although Morbius was still sleeping, the Spirit Lock spatial zone would become stronger when Morbius evolved to Gold grade.

If the Spirit Lock spatial zone became larger and the spirit qi within it became even more concentrated, Chimey and Genius would have a less dangerous time during their bloodline transformations.

An increase in the concentration of spirit qi would be of help in many accidental situations.

Thus, Lin Yuan summoned the Remembrance Soul Whale and the Willpower Rune that was linked to the soul.

He said softly to the Remembrance Soul Whale, "Remembrance Soul Whale, you are a fey from a legend. Not even the legend mentions a Remembrance Soul Whale that had comprehended a Willpower Rune. Once you fuse with the Willpower Rune, you will be rewriting the legend. Go ahead and welcome this Willpower Rune to evolve to Fantasy Breed."

The Remembrance Soul Whale let out a cry and charged at the Willpower Rune.

Soon, the Remembrance Soul Whale's body started to ripple like water.

Soul power gathered at the Remembrance Soul Whale's horns, and Lin Yuan could see that the horn was starting to transform drastically.

Chapter 1570: Soul Remember Gift!

Previously, the Remembrance Soul Whale's horn had been smooth with faint patterns.

But now, although the Remembrance Soul Whale had not grown any larger, its horn had visibly become thicker, and the patterns now protruded out.

The thread-like patterns became runes that were imbued with soul power.

The runes clashed against each other on the Remembrance Soul Whale's horn, and the soul power started to stick together.

Once the Remembrance Soul Whale's horn was done changing, and Lin Yuan thought that it was done transforming into a Bronze/Fantasy fey, the Remembrance Soul Whale's body started to change again.

Other people could not see the Remembrance Soul Whale, but Lin Yuan could clearly see the state it was in.

The Remembrance Soul Whale resembled a translucent white whale that had a horn.

But now, soul markings were slowly forming on its skin.

When Lin Yuan took a closer look at the soul marking, he saw that most of the souls were the ones that the Remembrance Soul Whale had collected from the lava zone.

Besides Jade Sundial's soul, the Remembrance Soul Whale absorbed all the other souls.

Now that the images of the dead feys' souls were carved on the Remembrance Soul Whale's skin, they lightened with every breath that the Remembrance Soul Whale took.

This meant that the Remembrance Soul Whale had fully absorbed the soul power.

The soul markings that were very clear came from the soul of the feys that the Remembrance Soul Whale had absorbed from the center of the lava zone.

Given the Remembrance Soul Whale's current power, it would take rather long for it to completely absorb all these souls.

But Lin Yuan was about to use the spirit qi crystals to evolve the Remembrance Soul Whale's grade.

At that point, the Remembrance Soul Whale would be able to absorb soul power at a much faster rate.

Soul Knot and Burning Soul New Life were not strong enough to produce such markings on the Remembrance Soul Whale's skin.

It was likely that the changes to the Remembrance Soul Whale's skin were linked to it evolving to Fantasy Breed and gaining a new exclusive skill.

At this moment, Lin Yuan realized that the complete souls on the Remembrance Soul Whale's skin were compressed into imprints on its tail as it started to shrink.

As the Remembrance Soul Whale evolved to Fantasy Breed, it started to shrink from its original three-meter size to around one meter.

Even when its horn was accounted for, it was still less than two meters.

After evolving, the Remembrance Soul Whale flew around Lin Yuan.

The Remembrance Soul Whale was still a lifeform that had been born from a whale soul.

It gained very high intelligence, although it had only just evolved to Fantasy Breed.

The Remembrance Soul Whale communicated to Lin Yuan, "Master, can you hear my voice? I can use the voices in the memories of the souls that I absorbed to communicate with you. You should be able to understand me."

Lin Yuan could not help but be amazed as he acknowledged that Soul-type was the most secretive type.

After absorbing the souls of the dead, the Remembrance Soul Whale now possessed a similar ability to Genius.

But after communicating with it, Lin Yuan realized that the Remembrance Soul Whale's brain was not as expansive as Genius'.

Genius could store a large amount of knowledge, but the Remembrance Soul Whale could not.

When the Remembrance Soul Whale chose to look at the memories of a specific soul, it would forget the memories of the previous soul it accessed.

Nonetheless, Lin Yuan felt that the Remembrance Soul Whale's ability was very powerful.

The Remembrance Soul Whale could be considered an expert in criminal investigation. It could speak to the dead by looking through their souls.

The Remembrance Soul Whale had named itself 'Rememberling', and Lin Yuan felt that the name suited it.

"Rememberling, how much of Jade Sundial's soul is missing before it becomes sufficient to awaken her past memories?"

Rememberling opened its mouth, and the phantom image of a spider emerged from it.

The phantom image was static and did not move at all.

Rememberling pierced the phantom image of the spider with its horn.

After sensing for a while, Rememberling said, "Master, in order for the spider phantom image to regain its past memories, at least another nine fragments of its soul are needed. Even if its memories can be regained, it will only be able to regain the most important memories from its past life. To recover every memory, I need to absorb at least another 40 fragments of its soul."

Lin Yuan nodded.

He already told his caveat to the Mother of Bloodbath and Blood New Moon.

Lin Yuan did not have any other solution if this one failed.

They could only hope that the handkerchief from the leader of the Heavenly Family Cottage would contain a significant amount of Jade Sundial's soul.

The more Lin Yuan looked at Rememberling's shining body, the more curious he became about its new exclusive skill.

Lin Yuan immediately used True Data to check on the Fantasy Remembrance Soul Whale.

He saw that the new exclusive skill was called Soul Remember Gift.

[Soul Remember Gift]: By combining with the collected dead souls, the dead souls will eventually become soul imprints once they are completely absorbed. When the soul imprint is applied on a lifeform of the same species, the lifeform's comprehension ability will be raised, and they will be able to comprehend willpowers and laws more easily.

Lin Yuan was momentarily speechless when he saw this exclusive skill.

Oh my God! Soul Remember Gift can be used to help feys comprehend exclusive skills.

There were many feys in the world.

It was challenging for a fey to comprehend an exclusive skill on their own.

The Acid Corrosion Queen Bee had yet to comprehend a Willpower Rune.

If he killed a Fantasy Breed or Myth Breed bee-species fey and Rememberling absorbed its soul, the fey's soul would be left intact.

Next, Rememberling would condense the soul imprint in its tail and apply it on the Acid Corrosion Queen Bee.

This would increase the Acid Corrosion Queen Bee's chances of comprehending a Willpower Rune.

He could even use different feys to lead the direction of the Willpower Runes that a fey comprehended when they evolved to Fantasy Breed.

This power was too strong!

It could be said that Rememberling had turned the entire main world's understanding of a concept on its head, just like Genius had.

Besides some treasures that could facilitate comprehension, nothing else would be able to help feys comprehend Willpower Runes.
