

Merchant 1591

Chapter 1591: Lin Yuan's Plan

By revealing this information, it meant that Yin Lin was siding with Lin Yuan.

Lin Yuan's eyes shone when he heard what Yin Lin said, and a plan appeared in his mind.

When you're just trying to make great content at

Everything had happened as per his expectations.

However, he had not expected there to be three potential Freedom Envoys amongst the Freedom Federation envoy group.

All of a sudden, he felt a wave of pressure.

The only two disciples of royalty at the Radiance Hundred Sequence selection would be Lin Yuan and Gao Feng.

Gao Feng was a support-type spirit qi professional.

Although Lin Yuan did not know how Gao Feng had trained under Cicada Song for the past few months, the strengths of support-type spirit qi professionals lay in when they performed in a team.

Lin Yuan and Gao Feng could not be counted as a team with just the two of them.

In a battle, Lin Yuan would even have to take care to protect Gao Feng.

Luckily, Gao Feng had also contracted a sacred source lifeform recently.

This way, he would be able to use it during the battle against the Freedom Federation envoy group.

Every sacred source lifeform represented an inimitable ability.

The three experts in the Freedom Federation envoy group who were favored by the Freedom Federation's members of royalty had the makings of Freedom Envoys despite being new members of the Freedom Hundred Sequence.

As such, they definitely contracted sacred source lifeforms.

Lin Yuan's side had two sacred source lifeforms, while the other side had three.

There was no doubt that they were at a disadvantage.

Lin Yuan was not afraid of taking on three enemies, but he needed to be extremely careful in such a battle that concerned the reputation and might of federations.

He could not afford to lose such a battle.

Gao Feng almost had no combat ability.

Although Genius and Chimey had finished their evolutions and the Sacred Sword Wielding Queen had gained many Sword Skills that were fully charged, Lin Yuan still could not say with confidence that he would be able to take on all three of them on his own.

Since the Freedom Federation was set on causing trouble, Lin Yuan saw no issue with causing an even larger issue and teaching them a good lesson that they would never forget.

Lin Yuan turned and told Yin Lin about his plan in a serious tone.

Yin Lin's eyes widened.

A moment later, she regained her senses and said, "Lin Yuan, are you sure you want to do that? It will put you at the top of the Freedom Federation's kill list."

Yin Lin was shocked by how courageous, wild, and decisive Lin Yuan was.

She could not believe he had made such a decision.

After Lin Yuan explained his plan, he said, "Since we're talking about mutual benefits, help me to pull the strings and give the Freedom Federation a little push during the friendly spar and give me another 12 young Elemental Shellfish. I will provide you 500 heavenly-maiden-grade elemental pearls with outer layers every month for the next two years. I cannot pick the outer layers of every elemental pearl, but there will be at least 60% of Over the Coral elemental pearls."

The purity of spirit qi in the Spirit Lock spatial zone allowed the Elemental Shellfish to produce elemental pearls at an even faster rate and their qualities to increase even further.

Lin Yuan had said this after careful consideration.

Only a few days had passed since the Spirit Lock spatial zone evolved.

But in just the past two days, there were already two earth-type Heavenly Maiden Sleet elemental pearls in the Spirit Lock spatial zone.

Out of the ten heavenly-maiden-grade elemental pearls produced, six of them were Over the Rail Coral.

It would be difficult for Lin Yuan not to obtain a heavenly-maiden-grade elemental pearl with outer layers.

Yin Lin was once again astonished when she heard what Lin Yuan said.

12 young Elemental Shellfish were not rare in a place like the Azure Federation that thrived off water.

Yin Lin had many young Elemental Shellfish inside her spatial skin.

However, the young Elemental Shellfish not only had to be guided to different types but also needed a large amount of Creation Master resources in order to produce elemental pearls.

It required the power of a Class 5 Creation Master to produce Over the Rail Coral elemental pearls.

In order to provide 500 heavenly-maiden-grade elemental pearls every month and for 300 of them to be Over the Rail Coral, even a Class 5 Creation Master would have to concoct pure spirit fluids endlessly for 15 days.

It could be said that Lin Yuan was essentially giving her half a Class 5 Creation Master.

She would obtain 10,000 heavenly-maiden-grade elemental pearls in two years.

Even if the outer layers did not reach the level of Over the Rail Coral, it was still a batch of resources that Yin Lin could not imagine obtaining on her own for the foreseeable future.

At first, Yin Lin did not want these resources.

But when she saw Lin Yuan's expression, she swallowed her rejection.

If she did not accept Lin Yuan's offer, she would not be going through with the collaboration with Lin Yuan.

However, Yin Lin also planned on using the resources on her private faction.

Eventually, the private faction would carry Sky City's name.

In a way, the resources were going to be returned to their source.

All the help that she would be giving Lin Yuan was to trigger the Freedom Federation envoy group to say that they wanted to battle to the death during the spar with the Radiance Hundred Sequence and to incite them to call the disciples of the members of royalty in.

Although doing this would help Lin Yuan, in the eyes of the Freedom Federation, she would undoubtedly be seen as helping them.

However, Yin Lin felt that this was too dangerous.

Although Lin Yuan had told Yin Lin about his plan, he did not reveal that he was Black.

The Freedom Federation only cared about their benefits.

When they found out who Gao Feng was and realized that there was only one disciple of a member of royalty present, they would undoubtedly try to drag in at least another disciple of royalty.

This meant that they would either pull in Zong Ze, Gu Lang, or An He.

Lin Yuan and Gao Feng could form a team.

This would not only enable Gao Feng to exhibit his skills but also enable the combat power to reach a balance.

Three disciples of royalty from the Radiance Federation against three favored experts from the Freedom Federation.

If the Freedom Federation was greedy and tried to pull in another two disciples of royalty, Lin Yuan did not mind a four versus three.

This would only make it easier to teach the Freedom Federation envoy group a good lesson.

After the battle, it would be exposed that Black and the Moon Empress' disciple were the same person.

From then on, Black would stop existing.

Chapter 1592: Lin Yuan Becomes Ugly

Yin Lin fell silent for a moment before she looked at Lin Yuan seriously and said, "Lin Yuan, as an Azure Envoy, I have no reason to turn down the collaboration you're proposing."

She paused for a moment, but her tone could not hide her worry as she said, "Leo, are you sure that nothing will happen as long as I do what you asked? If the Freedom Federation has the courage to send three of them, it means they're more powerful than the other young experts in the Freedom Federation. This battle will pull the strings of a much larger game. It will involve the Major Federation Meeting two years later. I hope you will seriously reconsider. Leo, I don't want you to fall into danger."

Lin Yuan knew that Yin Lin was worried for his safety.

The Freedom Federation had to be confident to send out these three young experts.

However, Lin Yuan had asked Yin Lin to cooperate with him because he wanted to increase the Radiance Federation's might.

Lin Yuan was not confident that he would be able to defeat the three young experts from the Freedom Federation while leading Gao Feng.

However, if another disciple of royalty could help, Lin Yuan's chances of victory would be pushed up.

Lin Yuan was confident in everything he did.

But when the matter concerned the entire Radiance Federation, he acted with only caution and even more caution.

He had also considered Yin Lin's concern, but the Freedom Federation had already cemented their scheme.

It had already been set up so that Black would participate in the Radiance Hundred Sequence selection.

Nonetheless, Lin Yuan still had another path that he could go down. He could pull out of the Radiance Hundred Sequence selection and take himself away from the danger.

However, the result of this would be that Gao Feng and others would become members of the Radiance Hundred Sequence and end up killed by the Freedom Federation envoy group during the friendly spar.

The last thing that Lin Yuan wanted was for this to happen.

From the moment that Lin Yuan understood what being a Radiance Envoy meant and decided to participate in the Radiance Hundred Sequence, he decided to put everything he had on the line to fight for the Radiance Federation.

"The Freedom Federation's plan was made long ago. Your actions will help me greatly. It will all depend on you at that moment. Yin Lin, I'm sure that if you encountered such a situation as an Azure Envoy, you'd also be willing to die for the Azure Federation."

Yin Lin gnashed her teeth and said, "Fine! Leo, I know what to do!"

Even at the end, Yin Lin could not convince Lin Yuan to just stay on the fence as the disciple of a member of royalty.

When Yin Lin agreed to help Lin Yuan, she decided that since the Freedom Federation wanted to push the Radiance Federation into a battle, she might as well drag the people from the Azure Federation in as well.

When she regained her sight, her soul changed.

The first sacred source lifeform she contracted was a functional one that could block information.

However, her second sacred source lifeform was completely different.

She felt that if she used her second sacred source lifeform, she would be able to reach number one amongst the current five Azure Envoys.

Yin Lin could not interfere with Lin Yuan if he wanted to put himself in danger for the sake of the Radiance Federation.

However, Yin Lin could use herself as Lin Yuan's insurance on the battlefield.

She stood up and said softly, "Leo, I initially planned on treating you to a meal. However, the Radiance Hundred Sequence selection is almost here, and I don't think you'll be in the mood to dine with me. Once matters have reached a stable point and before I leave the Radiance Federation, we can have that meal together.

"As of now, I don't have 12 young Elemental Shellfish. I will send someone tomorrow to deliver the Elemental Shellfish to the Listening Heron Chamber of Commerce. Let's meet again at the Radiance Hundred Sequence selection."

Yin Lin was about to leave the fey carriage when Lin Yuan said, "I am in the mood to have a meal. I have a friend who is great at cooking. Before you leave, I'll make sure you get to eat his dishes. I'll also introduce Libra to you. For now, let's go and eat at the Spirit Food Pavilion. The best food in the Royal Capital should be from the Spirit Food Pavilion."

Yin Lin's heavy mood immediately relaxed.

As she looked at Lin Yuan, she felt as though she wanted to remember him forever.

Yin Lin took out a conch shell and dug out a transparent gel from inside it.

She applied this gel on her face, and her features immediately turned plain.

Once she was done, she handed the conch shell to Lin Yuan and said, "Leo, this is the Mask Demon Snail from where I'm from. The gel made from its blood will be able to change one's appearance."

Yin Lin felt that as a disciple of royalty, it would not be convenient for him to go out in public to eat.

If Yin Lin ate in public in the Azure Federation, it would definitely cause a stir.

When you're just trying to make great content at

Lin Yuan also had his own way of changing his looks.

Lin Yuan still had many Faceless Papers produced by the Elemental Paper.

But since Yin Lin had handed the Mask Demon Snail to him, he accepted it and dug out a small amount of transparent gel.

Lin Yuan noticed that the gel was completely odorless.

Although it was a gel, it turned into water when it touched Lin Yuan's finger,

Lin Yuan applied the gel to his face, and it did not take long for his features to change.

Lin Yuan's looks now differed from when he applied the Faceless Paper.

When he used the Faceless Paper, his features became plainer.

However, the gel from the Mask Demon Snail turned him ugly.

When she saw his changed appearance. Yin Lin immediately thought about the effects of the Mask Demon Snail.

When used on females, it would lower their attractiveness. But when used on males, their attractiveness would be lowered or raised proportionately to how attractive they were to start with.

If a man started out ugly, the Mask Demon Snail would make him handsome. But if he started out handsome, the Mask Demon Snail would turn him hideous.

Yin Lin handed a handkerchief to Lin Yuan and said, "Leo, I forgot about the Mask Demon Snail's effects. You should wipe the gel off!"

Yin Lin was not despising Lin Yuan because he was ugly.

The feeling of affection and reliance that she felt toward him had nothing to do with his looks.

Moreover, she had not had her sight for long and had not formed a standard for beauty or ugliness.

Chapter 1593: Night Leaning Moon's Thanks!

Yin Lin asked Lin Yuan to remove the gel from his face because he was still the disciple of a member of royalty, and changing his appearance to this extent would not suit his image.

Lin Yuan saw how he looked from his reflection in the jade-textured wood opposite him.

He could not even find the strength to point out his current ugliness.

As he wiped the gel away, he realized that the gel only covered the exterior of his face, and wiping it away would immediately reveal his features.

Although it was effective at changing appearances, it was not sustainable and could not be compared to the Faceless Paper.

Once Lin Yuan wiped off the Mask Demon Snail's gel, he instructed Genius to use Tool Transformation and wore it on his face.

He said, "Let's go and eat."

Since Yin Lin had changed her appearance, she would not be recognized as being the one who had shared a meal with him when he revealed himself to be Black.

Yin Lin was stunned when she saw Lin Yuan put on the mask.

She finally knew why Lin Yuan had laid out such a plan and became more determined to lead the people from the Azure Federation to participate in the friendly spar.

If Black was actually Lin Yuan, Lin Yuan's plan would indeed be able to kill the three experts from the Freedom Federation if carried out well.

By putting on the mask in front of Yin Lin and proving that he was Black, it indicated that he trusted her.

This made Yin Lin smile.

Blood New Moon, who was still hiding in Lin Yuan's hair, was speechless.

He felt that Lin Yuan was too skilled at attracting girls.

At that moment, Lin Yuan suddenly reached out and grabbed Yin Lin.

A second later, Lin Yuan, Yin Lin, and Blood New Moon appeared at the entrance of the Spirit Food Pavilion.

This action immediately made Yin Lin aware that Lin Yuan had the power to teleport.

Lin Yuan was willing to show Yin Lin that he was Black because Yin Lin had already revealed many secrets to him and her membership in the Astronomical Parliament made her trustworthy.

Moreover, he did not want to reveal Faceless Paper because it would not only be a game-changer for Sky City but the entire Radiance Federation. It was a secret that had to be kept under wraps no matter what.

No matter how much he trusted Yin Lin, this was something he could never reveal to her.

The longer Blood New Moon observed Lin Yuan, the more he felt that Lin Yuan was unconsciously attracting girls.

Blood New Moon thought, *?The expert protecting Yin Lin from the shadows should still be waiting stupidly below the fey carriage!*

When you're just trying to make great content at

Lin Yuan appearing at the entrance of Spirit Food Pavilion wearing the mask kicked up a commotion.

However, it was not the type of commotion that drew a crowd to surround him but for a cacophony of discussions to break out.

"Look! There's a person wearing a silver mask and pretending to be Black! This is the seventh one I've seen today!"

“Seven is nothing! Didn’t you see the students of the Advanced Spirit Qi Academy? Almost all of them have a silver mask in hand.”

“My husband is a Class 3 Spirit Craftsman. Yesterday, my daughter came home and insisted that he make 100 silver masks. We thought she was going to sell them at school, but it turns out that she joined Black’s fan club and asked her father to make the masks for an event they were having!”

“Did you see the battle between Black and Lu Shuang on Star Web? Given Black’s power, there should be nothing standing in his way of becoming a Radiance Hundred Sequence selection!”

“Lu Shuang is a nobody! Black is god-class now. If not for the rule that new members of the Radiance Hundred Sequence can only reach ranks of between #90 and #100, I’m sure Black will be able to make it to the top ten!”

Yin Lin was astonished.

The person they were talking about was Black, and he was standing right in front of them. Yet, none of them were reacting to this.

Could it be that Lin Yuan was hiding his identity?

It did not take long for Yin Lin to get her answer from the crowd.

In order to properly welcome Yin Lin, Lin Yuan ordered a few special dishes.

After the meal, Lin Yuan used Node Teleportation to send Yin Lin back to the fey carriage.

Yin Lin smiled and waved at Lin Yuan before jumping out of the fey carriage.

At the same moment that Yin Lin landed on the ground, a blue cloud rose around her.

This cloud made it appear as though she was walking on air.

Yin Lin said to the elderly man guarding her, “Let’s go back. We already met the Radiance Federation’s royalty today. Before the Radiance Hundred Sequence selection, I want to lock myself away for a short period. I will have Teacher Lan Xun take part in the events in my stead. What do you think?”

The elderly man thought, *“Lady, are you asking for my opinion or giving me instructions? If it’s the latter, can you not use a questioning tone? It’s not like I have the right to give my opinion in front of you.”*

After meeting with Yin Lin, Lin Yuan returned to the Return from Faraway Mansion inside the fey carriage pulled by the 12 Emperor Armored Martial God Insects.

The first thing he did when he returned was to call Liu Jie.

Wen Yu and Lin Yuan did not tell Liu Jie about the Firefly Demon Fetus when they first found out because they had not seen it for themselves.

If they told him at such a time, it would only build up hope within him.

If an accident took place and they failed to obtain the Firefly Demon Fetuses, all of Liu Jie’s hopes would be dashed.

Thus, Lin Yuan and Wen Yu agreed that they would only tell Liu Jie once they obtained the Firefly Demon Fetuses.

Night Leaning Moon was the one who picked up the call and said, "Little Yuan, Little Jie is locked away trying to test the strength of a new carcinoma insect-species fey he contracted. He will probably be occupied for another two days."

She paused before saying with utmost sincerity, "Little Yuan, I want to thank you for giving me that fan. It fulfilled one of my longtime wishes."

Night Leaning Moon had only thanked three people in her life.

One of them was the Moon Empress, and even Night Leaning Moon had forgotten the total number of times that she had thanked the Moon Empress.

The second person was Iron Prison.

When Iron Prison said that he would use his fey with the Barren bloodline to give vitality to the Moon Empress, Night Leaning Moon had thanked him.

Chapter 1594: When Did White Phoenix Become So Agreeable?

The third would be Lin Yuan.

Night Leaning Moon never expected that she would one day thank a junior and that this junior would be the Moon Empress' disciple no less.

Lin Yuan replied with a smile, "Auntie Night, congrats on your breakthrough! If you still need more of the black feathers, let me know."

Night Leaning Moon was stunned.

She knew about the relationship between the Mother of Bloodbath and Lin Yuan, but she did not know that Lin Yuan could help to revive Jade Sundial.

Night Leaning Moon was confused.

When did White Phoenix become so agreeable? Didn't he love nothing more than he loved his feathers?

Night Leaning Moon was about to turn him down because she did not want Lin Yuan to owe Heavenly Family Cottage a favor because of her.

However, what Lin Yuan said next completely threw Night Leaning Moon off.

"Every time Uncle White Phoenix sees me, he gives me a bunch of feathers. If you don't need them, I'll just give them to Wen Yu so she can make them into a pillow!"

Recently, Blue Lotus, White Phoenix, and Blood New Moon had been staying at the Return from Faraway Mansion.

Lin Yuan slowly came to understand the three of them.

Although they were all Heavenly Family Feys and were top experts, Lin Yuan realized that their way of thinking was very innocent.

Blood New Moon was usually very gentle and reminded Lin Yuan of Gu Lang.

Blue Lotus was like a young maiden who lived to eat persimmons. She had a strong imagination and got along well with Wen Yu and Lu Pinru. She ended up discussing spirit qi clothes design with them.

White Phoenix was constantly looking at himself in the mirror and admired himself whenever he got the chance. He constantly begged Wen Yu and Lu Pinru to make him an outfit of fishnets that were sturdier.

It was easy for Wen Yu and Lu Pinru to make a set of spirit qi clothes.

Hence, White Phoenix received new spirit qi clothes almost every day.

Blood New Moon was the first one to find out that Lin Yuan could save Jade Sundial.

Eventually, Blue Lotus and White Phoenix found out too.

Since then, Blue Lotus would give Lin Yuan a persimmon every time she saw him.

At first, Lin Yuan thought that there was nothing special about the persimmons.

But when he held it in his hand and used True Data to check on it, he found out that they were produced by a sacred source lifeform and carried strong recovery effects.

Although they could not regrow limbs like the Jasmine Lily could, they could immediately heal the injuries of the person who ate them.

Besides Blue Lotus giving Lin Yuan persimmons, White Phoenix would yank out a few black feathers every time he saw Lin Yuan and give them to him.

The black feathers contained a large amount of pure night power.

Night power was different from pure dark-type power.

White Phoenix's feathers were useless to Lin Yuan.

Moreover, White Phoenix's hair had been visibly thinning.

Lin Yuan was afraid that White Phoenix would one day become bald because of him.

White Phoenix was very vain, and Lin Yuan could not imagine the pain that White Phoenix would feel if he looked into a mirror and saw himself bald.

Hence, Lin Yuan asked Night Leaning Moon if she wanted the black feathers.

Night Leaning Moon spat out a mouthful of saliva and started coughing violently when she heard what Lin Yuan said.

Lin Yuan was actually intending to turn something that she had been dreaming of obtaining for years into a pillow.

Night Leaning Moon had to admit that she felt rather bitter.

She realized that besides the first time she met Lin Yuan outside of Indigo Azure City when the evolving water world dimensional rift had heavily injured him, she felt that he never seemed like a young expert.

In their interactions after that, he had saved the lives of thousands of the Radiance Federation's Creation Masters and had taken down the evil Di Wanmi, enabling the Radiance Federation to gain a fourth Class 5 Creation Master.

Now, Lin Yuan was even able to obtain resources that other members of royalty could not.

Lin Yuan did not seem like a junior in any way.

Night Leaning Moon decided not to think about the favor she owed Lin Yuan.

She already owed him.

Now that he saved thousands of Creation Masters, the entire Radiance Federation owed him.

Night Leaning Moon pursed her lips and said, "Little Yuan, the black feathers are really useful to me. Thank you!"

Although Night Leaning Moon had accepted Lin Yuan's gift, she noted the favor in her heart.

She would have plenty of chances to repay him in the future.

At that moment, Night Leaning Moon suddenly remembered that Lin Yuan had called looking for Liu Jie and asked, "Little Yuan, why are you looking for Little Jie? I can go and fetch him if it's important."

Night Leaning Moon said this casually because no one knew yet what trick the Freedom Federation was planning on pulling.

When you're just trying to make great content at

Hence, everyone, including Liu Jie, Zong Ze, An He, Gao Feng, and Gu Lang were doing everything they could to increase their powers.

Night Leaning Moon knew that Lin Yuan was a person who was aware of limits.

At present, nothing was more important than increasing one's power.

Thus, Night Leaning Moon did not expect Lin Yuan would actually ask her to fetch Liu Jie.

At that moment, Lin Yuan said seriously, "Auntie Night, please call Liu Jie. Wen Yu and I found something that will help him greatly. It will change him and possibly help him create a remarkable road of his own. To save time, I'll head over to the Spirit Guards' land to give it to Liu Jie."

Night Leaning Moon was stunned and immediately started guessing what the change that Lin Yuan was referring to was.

Liu Jie was already going down a path that no one else had gone down before.

But if Lin Yuan had obtained a special carcinoma insect-species fey, it would only be able to increase Lin Yuan's power regardless of how powerful it was and not change him in any way.

Given Night Leaning Moon's experience, she still could not come up with anything. She was very curious to find out what Lin Yuan was talking about.

But she would find out everything once Lin Yuan arrived.

"Little Yuan, I'll go and meet you at the iron bridge. If you're not busy tonight, stay and have dinner at the Spirit Guards' land. There will be a two-day-long imperial meeting starting tomorrow. Five days later, I'll watch you perform during the Radiance Hundred Sequence selection."

There was one thing that Lin Yuan wanted to do with the Moon Empress.

When the Mother of Bloodbath unlocked its Heavenly Family Fey bloodline, the Crescent Moon Radiant Sunlight Tablet had cracked.

Lin Yuan realized that the Moon Empress controlled a moon from one of the dimensional worlds and made its power her own.

Chapter 1595: A Blueprint that Sends Chills Up Night Leaning Moon's Spine

There was a purple moon in the marsh world.

Lin Yuan decided to take the Moon Empress with him to the marsh world to harvest the purple moon and take control of it.

This would allow the Moon Empress to gain another moon, and her power should increase.

Blood New Moon, Blue Lotus, and White Phoenix had said that there were two of the Eight Pages of Tower Canon who would be coming to attend the Radiance Hundred Sequence selection and that three of them were going to kill these two Pages while they were in the Radiance Federation.

It would be a clash of top experts.

!!

Lin Yuan felt that it would benefit the entire situation if the Moon Empress increased her power.

Lin Yuan immediately turned Night Leaning Moon's offer down.

When you're just trying to make great content at

"Auntie Night, if there will be a two-day long imperial meeting starting tomorrow, I need to do something with Master tonight. Once I clinch a spot in the Radiance Hundred Sequence, I will go and have that meal with you."

Night Leaning Moon did not force Lin Yuan. She knew that he had to have something important to do if he was going to see the Moon Empress at this juncture.

However, Night Leaning Moon was still uncomfortable.

This Radiance Hundred Sequence selection would bring glory to whoever was chosen.

However, the glory was not without its risks.

Lin Yuan was not even 19 years old, yet he was already going to fight under the watchful gazes of thousands for the sake of the Radiance Federation's glory.

All of these young people had done everything they could to improve themselves.

Cicada Song had mentioned that Gao Feng had contracted an impressive sacred source lifeform.

Cicada Song was very pragmatic.

If he praised Gao Feng's sacred source lifeform, it meant that this sacred source lifeform had to be very powerful.

Night Leaning Moon took a deep breath and said, "Once the Radiance Hundred Sequence selection is over, I will prepare all the ingredients and ask You Zhe to prepare a feast for you and Little Jie."

Night Leaning Moon never excelled at cooking.

In order to cook porridge for the Moon Empress, Night Leaning Moon had sought Chef Supreme's tutelage.

In the end, she accidentally set Kitchen Fragrance Palace on fire.

This was the reason for the grudge between Chef Supreme and Night Leaning Moon and why he had not spoken a word to her in five years.

Night Leaning Moon was never going to learn how to cook.

However, You Zhe perfectly made up for this area where she was lacking.

Night Leaning Moon felt that You Zhe might not be as good as Liu Jie, but he did not lose out to Kitchen Fragrance Palace in any way.

After ending the call, Lin Yuan used Node Transportation and sent himself to the edge of the Spirit Guards' land.

The Ethereal Jellyfish had reached Diamond X/Legend.

Although it still showed no signs of comprehending a Willpower Rune, the Ethereal Jellyfish already had more than 1,000 tentacles.

When any tentacle was broken off, and an Item-Storing Walnut was used, the Ethereal Jellyfish would be able to grow another one out in two days.

This meant that Lin Yuan could have 2,000 tentacles every two days if he wanted.

With so many tentacles, Lin Yuan would not have to be so frugal with his usage of them.

It could be said that there was no place in the Royal Capital that Lin Yuan could not teleport to.

However, this was the first time that Lin Yuan had come to the Spirit Guards' land.

In order to express his respect, he was going to walk in.

There seemed to be no one guarding the Spirit Guards' land, but there were actually countless Guard Envoys hiding in the shadows to protect the Spirit Guards' land.

These Guard Envoys all recognized Lin Yuan.

If anyone else tried to walk into the Spirit Guards' land, they would immediately stop him and investigate him thoroughly,

Lin Yuan realized that there were almost no decorations within the Spirit Guards' land. Everything was designed very minimalistically and was permeated with the smell of metal and blood.

When he walked to the iron bridge, he saw that Night Leaning Moon was waiting for him at the center of the bridge.

The spring breeze was gentle, yet the bridge was swinging violently.

Nonetheless, this did not affect Lin Yuan.

Close Guard Sand appeared by his feet and helped him find balance in accordance with the swinging of the bridge.

Thus, no matter how the bridge swung, Lin Yuan continued to walk as though he was on flat ground.

But even without Close Guard Sand, Lin Yuan would not be afraid.

He had obtained combat skills and fighting strategies after he ate the Muscle Hyperthymesia Grass.

Even if the bridge started swinging ten times more violently, Lin Yuan could continue walking steadily on.

When Lin Yuan drew nearer to Night Leaning Moon, she acted as though she had just seen a junior she was very familiar with.

She gently patted Lin Yuan's shoulder and said, "I already informed Little Jie. However, the side effects of the insect species carcinoma feys left him completely drained of spiritual power. Hence, he couldn't come out and see you with me. But by the time you arrive in the Spirit Guards' land, he should have recovered."

Night Leaning Moon did not tell Liu Jie that Lin Yuan would be bringing him something transformative. All she said was that Lin Yuan was coming to see him.

Chapter 1596: No Tradition of Marriages of Convenience

Liu Jie was walking down this path because Night Leaning Moon had laid it out for him.

She had gotten the inspiration to turn Liu Jie into the ultimate weapon from Seventh Page War's Nightmare Squad.

Although insect-species carcinoma feys could cause disasters, they were also resources for war, and it would be difficult for regular people to control them.

The Insect Queen had mutated and could now contract insect-species carcinoma feys.

As the Insect Queen became stronger, Liu Jie was now able to use it to control insect-species carcinoma feys.

!!

However, Liu Jie had not been walking down this path for long before Night Leaning Moon found a loophole.

The Insect Queen's power could be increased alongside Liu Jie's spirit qi professional rank.

It could potentially breakthrough to Creation, Immortal, or even Eternal.

However, the most powerful insect-species carcinoma feys that the Insect Queen could only take control of were Diamond X/Legend because of their intelligence levels.

The insect-species carcinoma feys' muddled intelligence prevented them from comprehending Willpower Runes.

A few years ago, before the Spirit Guards fully banned carcinoma feys, a few factions would feed soul-strengthening spiritual ingredients to carcinoma feys.

This could enable the carcinoma feys to gain slight intelligence.

However, conventional methods could no longer control the slightly intelligent carcinoma feys.

The untamed carcinoma feys would undoubtedly start disasters.

This was the reason for the disaster that took place in the Radiance Federation and led to the banning of carcinoma feys.

Thus, Night Leaning Moon assumed that Liu Jie would only be able to contract Diamond X/Legend insect-species carcinoma feys.

She never expected that this limit could be exceeded.

If the Insect Queen contracted the Firefly Demon Fetuses, Liu Jie would be able to choose the strongest insect-species carcinoma fey that he contracted and combine it with the Firefly Demon Fetus.

This would turn the insect-species carcinoma fey into a source-type lifeform.

Just as Night Leaning Moon was about to burst with joy about this opportunity for Liu Jie, Lin Yuan went on to say, "Auntie Night, I have a total of 12 of the Firefly Demon Fetuses. It might be dangerous for the carcinoma insect-species feys to combine with the Firefly Demon Fetuses. You will need to watch over Liu Jie!"

At that moment, Lin Yuan took out the remaining Firefly Demon Fetuses and handed them to Night Leaning Moon.

Night Leaning Moon's eyes almost popped out of their sockets when she saw the 12 mustard-colored Firefly Demon Fetuses in his hand.

One of them was already enough for Liu Jie to transform.

With 12 Firefly Demon Fetuses, not even Night Leaning Moon would be able to estimate how far Liu Jie could go in the future.

Previously, the Firefly Demon Fetus would be Liu Jie's final weapon.

But with so many Firefly Demon Fetuses, Liu Jie would be able to become the master of disasters.

When you're just trying to make great content at

He would be able to create insect-species carcinoma fey disasters whenever he wanted to.

Ever since Night Leaning Moon accepted Liu Jie as her disciple, she saw him as her heir.

Night Leaning Moon was not adept at expressing himself.

However, she treated him just as well as how the Moon Empress treated Lin Yuan.

Lin Yuan not only gave her an opportunity to transform but was also giving a similar opportunity to her disciple now.

Night Leaning Moon reached out and accepted the Firefly Demon Fetuses.

She said with brimming sincerity, "Little Yuan, from now on, I will unconditionally support you in anything that you want to do as long as it doesn't hurt the Radiance Federation!"

Lin Yuan was stunned when he heard what Night Leaning Moon said, and he smiled brightly.

"Auntie Night, I am good friends with Liu Jie, and you're my senior. I can't accept such words from you! The world is so messy now that the stronger you are, the safer the Radiance Federation will be."

Night Leaning Moon could tell from Lin Yuan's words that he did not intend to go to her for help in the future.

This was exactly so.

The Moon Empress' power had increased, and her lifespan was restored. With her around, there was no need for Night Leaning Moon to help Lin Yuan.

But it was not a matter of whether or not Lin Yuan needed her help.

When she said those words, she decided that she would carry them through when the time was right.

As she held the 12 Firefly Demon Fetuses, she felt that her hand seemed rather heavy.

Once the Insect Queen contracted the Firefly Demon Fetus and changed into human form, Liu Jie would become the most powerful group combat expert in the Radiance Federation.

Even if a member of royalty tapped into a celestial phenomenon and decimated a piece of land, it might not be able to compare to the effects that Liu Jie could produce.

Liu Jie's faith lay in Lin Yuan.

Night Leaning Moon felt that if Liu Jie had to make a choice between Lin Yuan and the Radiance Federation, it was very likely that he would choose Lin Yuan.

This meant that if anything ever happened to Lin Yuan in the future, Liu Jie would definitely involve himself.

The Firefly Demon Fetuses were so important that Night Leaning Moon felt that she needed to discuss them at tomorrow's imperial meeting.

Night Leaning Moon was reminded of the Freedom Federation's Firefly Fantasy Earthworm.

The Firefly Fantasy Earthworm had just evolved to Myth Breed and was rumored to be a source-type lifeform that was native to the Freedom Federation.

Night Leaning Moon wondered if the Firefly Demon Fetus was of the same species as the source-type lifeform that had mutated the Firefly Fantasy Earthworm.

She felt that she needed to look into this.

"Little Yuan, where did you obtain the Firefly Demon Fetuses from?"

Lin Yuan fell silent for a moment before revealing everything Yin Lin had told him to Night Leaning Moon.

Night Leaning Moon's brows furrowed tightly.

The Radiance Federation's royalty already knew about what Lin Yuan had just told her.

However, this matter concerned the Radiance Federation's reputation.

If the Freedom Federation proposed a friendly battle, the Radiance Federation would have to accept.

Night Leaning Moon was also going to present the information that Lin Yuan shared at tomorrow's imperial meeting and discuss it with the other members of royalty.

However, she did not expect Lin Yuan to have a direct line of communication with Yin Lin.

If Yin Lin could reject working with the Freedom Federation and give something like the Firefly Demon Fetuses to Lin Yuan, it showed that they were on good terms.

Night Leaning Moon did not think about it in any other way.

After all, there was no tradition of marriages of convenience in the Radiance Federation.

Chapter 1597: The Moon Empress's Sacred Source Lifeform: Forage Moon

Lin Yuan followed Night Leaning Moon into the Spirit Guards' land and saw the pale and sweat-covered Liu Jie standing at the door.

Liu Jie's eyes lit up when he saw Lin Yuan, and he rushed up with a worried expression as he said, "Lin Yuan, the period after the Radiance Hundred Sequence selection will be very dangerous. As your retainer, I will fight by your side!"

Night Leaning Moon immediately snapped, "Nonsense!"

Creation Masters could call on their retainers to fight with them in a battle to the death.

However, the Freedom Federation envoy group would only be proposing a pretend friendly match.

In such a situation, Lin Yuan would not allow his retainer to participate even if he was a Creation Master.

Liu Jie was usually composed. But whenever the matter concerned Lin Yuan's safety, he immediately lost his head.

Night Leaning Moon said, "Little Yuan knows more than you do. Let me come up with a way for you to join the fight when the Freedom Federation suggests a friendly match."

When you're just trying to make great content at

At that moment, Night Leaning Moon handed the 12 Firefly Demon Fetuses to Liu Jie and said, "Lin Yuan is giving these to you for your transformation. Little Jie, I only have one request for you."

Night Leaning Moon's expression turned stern, and Liu Jie was stunned when he saw this.

He had never seen Night Leaning Moon talk to him with such a demeanor.

Liu Jie hurriedly said, "Master, please speak."

Night Leaning Moon looked deeply into Liu Jie's eyes and sighed before she said, "Little Jie, your current personality makes you unsuitable to be a Radiance Envoy. You are more suited to be Lin Yuan's Radiance Knight."

She paused before saying slowly and punctuating each word, "If ever such a day comes, I hope that you won't do anything that endangers the Radiance Federation."

Liu Jie's eyes widened, and he did not understand why his master was saying such a thing.

He had never thought about harming the Radiance Federation. Rather, he always wanted to protect it.

However, the first part of what Night Leaning Moon said made him let out a sigh of relief.

Ever since he became Lin Yuan's retainer, his thoughts were preoccupied with how he could best protect Lin Yuan.

He never wanted to become a Radiance Envoy. He would prefer to be one of Lin Yuan's two Radiance Knights.

Liu Jie knew that Night Leaning Moon had high hopes for him.

Thus, he never knew how to broach the subject with Night Leaning Moon.

But now that Night Leaning Moon had said it, he could set his mind at ease.

Liu Jie knelt on the ground solemnly, just like he did when he became her disciple, and said, "Teacher, I will never do anything in my life that puts the Radiance Federation at risk."

Night Leaning Moon helped Liu Jie up and said, "Little Jie, your change started with the Blade Queen Bee. I suggest that you combine the first Firefly Demon Fetus with the Blade Queen Bee! Once it transforms, its psychotoxins will be improved. Its psychotoxins are the roots of its mutation. The Insect Queen has always reacted to the Blade Queen Bee's psychotoxins. There's a possibility that after the Blade Queen Bee transforms, its venom will enable the Insect Queen's bloodline to mutate again. It might be able to gain its third pair of wings."

As Liu Jie's master, Night Leaning Moon already knew what the best choice would be for him.

Before she accepted a disciple, she did not care about anyone else in the Radiance Federation besides the Moon Empress.

But now, Night Leaning Moon felt that she had changed.

She did not know when it started, but Liu Jie became almost as important or just as important as the Moon Empress to her.

Night Leaning Moon could die for the Moon Empress, and she could also do the same for Liu Jie.

She formed an unbreakable bond with the Moon Empress when they were young.

This was the same for Lin Yuan and Liu Jie.

It was like a cycle.

Night Leaning Moon could no longer protect the Moon Empress.

After her breakthrough, the Moon Empress was now more powerful than Night Leaning Moon.

Night Leaning Moon could only hope that she could properly nurture Liu Jie so that he would not end up like her and become unable to protect the person he wanted to protect.

When Liu Jie heard Night Leaning Moon say that she would arrange for him to fight alongside Lin Yuan against the Freedom Federation envoy group, he was immediately put at ease.

No matter what happened on the battlefield, even if he failed to protect Lin Yuan, he could still use his body as a last ditch attempt to shield Lin Yuan like he had done in the evolving water world dimensional rift.

Lin Yuan did not stay long in the Spirit Guards' land.

Now, he had nothing left to do but wait for the Radiance Hundred Sequence selection, where he would clash with the Freedom Federation envoy group.

But it was currently a key time for Liu Jie to increase his power.

If time was managed well, Liu Jie would be able to increase his power using the Firefly Demon Fetus within two days.

While Liu Jie returned to seclusion, Lin Yuan returned to the Radiant Moon Palace and spotted the Moon Empress when he arrived.

She was hugging a little rabbit and sitting next to the lotus pool as she observed the Spirit-Siphon Goldfish swimming within.

When she sensed that Lin Yuan had returned, she stood up and said, "Cold Moon is going to bring Chu Ci back today. I haven't seen Chu Ci in many days, but I heard from Cold Moon that she has improved significantly. And now you're back too! Let's go up the mountain to pick some fruits. I miss Cold Moon's cooking!"

Cold Moon was one of the two Moon Envoys and usually stayed with the Moon Empress.

But ever since she accepted Chu Ci as her disciple and brought her out to train, she rarely had time to spend in the Radiant Moon Palace.

Lin Yuan called Chu Ci almost daily and knew that Chu Ci was returning today.

He missed her badly but had something even more important to do.

Lin Yuan said softly to the Moon Empress, "Master, is the red moon inside the Crescent Moon Radiant Sunlight Tablet you gave to the Mother of Bloodbath from the abyssal world?"

The Moon Empress replied honestly, "My sacred source lifeform is called Forage Moon. One of its abilities is that it can take control of moons."

The Moon Empress was usually a very private person. Not even Night Leaning Moon knew what the Moon Empress' sacred source lifeform's name was.

This was the first time the Moon Empress revealed the name of her sacred source lifeform.

Lin Yuan said with a smile, "Master, I think I should give you a light green moon."

Chapter 1598: I'll Take You There Now!

Light green moon?

Every dimensional world had its own moon, just like the abyssal world's red moon that had been consumed by Forage Moon and became its puppet.

Forage Moon did not consume all the energy of the moon but just made use of its body.

When you're just trying to make great content at

It could construct its own energy using the roots of the moon's body.

This was the only way Forage Moon could truly take control of the moon for the Moon Empress' usage.

Hence, although the Moon Empress had taken the red moon from the abyssal world, the power from the red moon still remained in the abyssal world.

Although the dimensional lifeforms from the abyssal world could no longer see the red moon in the sky and use it to keep track of time, the abyssal world was unaffected by the disappearance of the red moon.

The environment in the dimensional rift was a projection of the environment in the dimensional world.

The light green moon belonged to the marsh world, so the Moon Empress' expression froze.

The Class 6 dimensional rift that had opened in the Freedom Federation was the marsh dimensional rift.

If Lin Yuan said he would give her a light green moon, did that mean he had a way of entering the marsh world?

The most habitable dimensional world was the marsh world.

The Class 6 abyss dimensional rift was linked to the marsh world, and it was possible to build representative cities within.

However, they could not expand agriculturally in the abyssal world as only fire- and plant-type feys could survive there.

Nonetheless, the environment in the marsh world was invaluable to fire-type feys.

On the other hand, any plant-type fey could be planted in the marsh world.

Although fire-type plant-type feys would not receive a natural boost from the environment in the marsh world, the marsh soil from the marsh world could perfectly make up for this.

The Class 6 marsh dimensional rift in the Freedom Federation had opened two years earlier than the Class 6 abyss dimensional rift had opened up in the Radiance Federation.

In the past two years, the Freedom Federation had managed to make use of it to expand rapidly.

Although there had been two incidents similar to the Firefly Fantasy Earthworm's Premature Death.

Due to the contamination from the Firefly Fantasy Earthworm, nothing could be grown on the ground.

But the Freedom Federation could easily cross this hurdle by making use of the marsh world.

The Class 6 dimensional rift had been the Freedom Federation's biggest secret.

The Freedom Federation had not built mirror cities in the marsh world to boost their spirit qi professionals' activity space like the Radiance Federation was planning to do in the abyssal world.

The royalty from the Freedom Federation immediately took control and sealed up the Class 6 marsh dimensional rift.

They told their citizens to make a choice about whether they wanted to live in the marsh world or the main world.

Once they decided to live in the marsh world, they would not be able to change their decision and would have to stay there for the rest of their lives.

This gave the spirit qi professionals from the Freedom Federation who had been seriously negatively affected a way out, and the royalty from the Freedom Federation used this method to move 1/3 of the Freedom Federation's population to the marsh world, where they could continue developing.

This way, no one would be able to sneak past the Freedom Federation's royalty and enter the marsh world.

All the shrine attendants who processed resource trading at the border of the Class 6 marsh dimensional rift were from the Freedom Federation's royalty's personal team.

Hence, the Freedom Federation had even invited almost 100 Class 5 Spirit Craftsmen to build large spatial equipment using Myth Breed spiritual ingredients.

Every time resources were traded between the Freedom Federation and marsh world, only three of this spatial equipment were needed.

Thus, the Moon Empress never dared to set her sights on the marsh world's moon.

Frankly, she had not targeted any other dimensional moon.

The only way to enter dimensional worlds was through Class 6 dimensional rifts.

If a Class 6 dimensional rift opened and was not fortified with high-grade spatial spiritual ingredients within a year, it would start to slowly disappear.

The main world had federations that were able to take control of Class 6 dimensional rifts.

These federations all had Class 5 Creation Masters, and they would never allow the Moon Empress to enter the Class 5 dimensional rift that they had control of.

If the Moon Empress tried to force her way in and used Forage Moon to harvest the dimensional world's moon, a war would undoubtedly break out.

As the Radiance Federation's Moon Empress, she could not drag the entire Radiance Federation into a war because of her selfish demands.

Thus, despite Forage Moon's harvesting of moons being able to greatly increase her power, the Moon Empress did not insist on going down this path.

At that moment, Lin Yuan went on to say, "Master, I have a way to enter the marsh world. The method is very simple. I'll take you there now!"

Lin Yuan did not intend on using the Jeweled Cave Golden Toad with the Moon Empress.

But if he allowed her to enter the Spirit Lock spatial zone, Morbius would be exposed.

Morbius was extremely important.

Moreover, Lin Yuan realized that it was definitely linked to a big secret in the dimensional world.

Keeping it a secret would be advantageous but also disadvantageous because it came with risks.

After some contemplation about the Moon Empress' treatment of him, Lin Yuan decided that he would allow her to enter the Spirit Lock spatial zone.

At that moment, the Moon Empress said, "Little Yuan, you either need your sacred source lifeform's ability or a secret weapon that you've never revealed before to enter the marsh world. Regardless, you

know which is the safest way for yourself. You have the ability to revive Jade Sundial's soul. If you tell me this secret and I end up killed, an enemy might be able to learn your secret through my soul."

The Moon Empress handed Lin Yuan two silver and gold bells and said, "Chef Supreme gave you the precious instrument made from the Jeweled Cave Golden Toad's stomach. When the Jeweled Cave Golden Toad died, Chef Supreme obtained its skin and stomach, while the Bamboo Monarch obtained its eyes. Its eyes also have storage abilities and are able to store much more than its stomach. I asked for the eyes and made them into a precious instrument for you."

Chapter 1599: Insurance!

"You can store the balls over the brocade pouch. Both of them came from the same source and could be used at the same time. Little Yuan, I will enter the bells and wait for you to take me to the marsh world!"

When Lin Yuan heard the Moon Empress mention her death, his eyes welled up with tears.

"Master, you have an endless lifespan now that you contracted the Lifespan Mouse. How will you die?"

When the Moon Empress saw Lin Yuan's state, she gently tousled his hair and realized that he had grown taller again.

When Lin Yuan asked about the red moon, she also hesitated because her secret weapons were her biggest secrets that she only utilized at the right times in order to fix crises.

A decade ago, the Moon Empress had been a member of royalty for less than 20 years.

Yet, she had been able to take down a previous member of royalty from the Freedom Federation who had been a member of royalty for more than two centuries.

Despite being seriously injured, she managed to live and used her remaining 13 to 14 years of life to find an heir.

This was the reason why she never told anyone about her secret weapons.

However, she hesitated when Lin Yuan asked her and decided to tell him eventually because she trusted him and understood what it meant to pass down a legacy.

A legacy needed to be nurtured.

When she had been locked away, and the incident happened at Whale Ocean Commerce, Lin Yuan proved that he had become a pillar of the Radiance Federation and was able to pull off something that not even the royalty could do.

However, the Moon Empress could trust Lin Yuan implicitly yet did not want to find out what his secret weapons were.

While nurturing him, she decided to do only what was best for him.

This was in spite of how curious she was about the method he used to enter the marsh world.

“Silly child, I was just explaining a principle to you. I have never taught you a more sincere lesson since I accepted you as my disciple.”

Lin Yuan took a deep breath.

When you're just trying to make great content at

He was already fully satisfied with his current power.

But the Moon Empress' words made him abruptly aware that he could not set his sights on only the younger generation.

His true enemies were not the people who were in his generation but the Freedom Federation's Freedom Envoys and royalty, the First Emperor Shark Clan, and Tower Canon.

Hence, Lin Yuan was far from being sufficiently powerful.

The Moon Empress placed Zixi on the ground and said, “Zixi, go and pick some fruits while you're waiting for Little Yuan and me to return.”

Zixi scratched its ears and knew that the Moon Empress was not taking it along because it could not control its curiosity.

At that moment, Zixi was rather jealous of Lin Yuan.

She was treating him so well that she was practically spoiling him.

Luckily, Lin Yuan had not become warped by her spoiling him.

Rather, he became almost all-powerful in spite of the Moon Empress spoiling him.

Lin Yuan tied the bells the Moon Empress gave him around the Jeweled Cave Golden Toad and pulled the Moon Empress in.

Lin Yuan also checked on the space in the bells and saw that each had a space of 50 square meters within.

This meant that each of them was five square meters larger than the Jeweled Cave Golden Toad's stomach.

At that moment, Lin Yuan could freely manipulate the space and increase it by four times.

This was a similar amount of space that the Spirit Lock spatial zone originally had.

Lin Yuan would not have to be afraid of inconveniencing anyone he took with him between the marsh world and Divine Wood Federation anymore.

Moreover, the two bells were very advantageous to him because they were separate spaces.

As such, the Moon Empress would not have to share the same space as the smelly turtle.

The Moon Empress had just taught Lin Yuan how to remain austere, and he would not dare to take the lesson lightly.

Lin Yuan first went to his breeding room and closed the door before he entered the Spatial Lock spatial zone.

He entered the marsh world through Klein Hub and released the Moon Empress.

Lin Yuan's territory in the marsh world was completely covered by a thick carpet formed by the Marsh Ground Sphagna.

As such, it was no longer muddy and dirty like it used to be.

The Medusa Snake Demons naturally liked plants, so Lin Yuan brought many types of flowers to the marsh world.

The Marsh Ground Sphagna had carefully planted the flowers and was happy to supply them with energy.

Klein Hub was surrounded by pavilions built by the Spirit Craftsmen.

The area looked like a classic garden with all the blooming flowers.

The space in the marsh world was enormous, and Lin Yuan could use it as he pleased.

Thus, every building here was spaced far apart in case any had to be expanded.

Currently, a few Medusa Snake Demons were fortifying the pavilions with jade-textured wood shelves.

There were climbing Jadeite Grapes planted on the shelves.

The Jadeite Grapes were the favorite of the Hundred Questions Beasts and could nourish their spiritual energy.

Lin Yuan had specially selected a few Bronze/Legend Jadeite Grapes and nurtured them to Diamond grade.

It was very extravagant to evolve fruits to such an extent.

A few lifeforms with human bodies and crocodile heads were holding buckets of water next to the Medusa Snake Demons.

The Medusa Snake Demons were scooping out water and watering the Jadeite Grapes.

All of these lifeforms with human bodies and crocodile heads were the Marsh Crocodiles that White Pavilion had transformed using its natural skill. They had all been working hard on the territory but had not felt a shred of exhaustion.

The Moon Empress sniffed the humid air brimming with the fragrance of flowers.

When she looked up and saw the light green moon in the sky, she was finally certain that she had entered the marsh world.

The environment was already set up so beautifully that it proved that Lin Yuan had already been expanding in the marsh world for some time.

Lin Yuan said softly, "Master, you should absorb the light green moon!"

The Moon Empress nodded and said, "I will only need two hours to absorb the light green moon. However, the people from the Freedom Federation are also bathing under the light of the light green moon. If I absorb it, they will definitely sense it. However, I have a good idea. It will be an insurance that I leave in the marsh world for you."

The Moon Empress paused before she gave out an instruction, "Sacred Tears, after I absorb the light green moon, you shall condense its power and put up an imitation version in the marsh world's sky."

Chapter 1600: Auntie Sacred Tears, it Will be Up to You!

The Moon Empress did not make this decision just because she was afraid that something out of the ordinary would take place in the Freedom Federation.

She had not used Forage Moon's ability in a long time. Or rather, no one who saw her use it had lived to tell the tale.

Hence, even if the Freedom Federation truly realized that the moon in the marsh world had disappeared, they would not link the incident to the Moon Empress.

As the Radiance Federation explored the Class 6 abyss dimensional rift, the Moon Empress discovered that there were also clear ranks in the dimensional world.

However, these ranks were special and dependent on worship.

Apostles were above dimensional lifeforms, and Dictators were above Apostles.

This distinct ranking made everything that took place in the dimensional worlds seem organized.

Apostles and Dictators were no different in terms of power from Eternal feys.

Moreover, the Moon Empress believed that there had to be an even more powerful rank than Dictator in the dimensional worlds.

Thus, it would be possible for these powerful lifeforms to trigger the power of celestial phenomena.

The Moon Empress had said what she said and decided to leave the Sacred Cry Moon Beast in the marsh world because she wanted to give Lin Yuan a safety net.

There were many experts in the dimensional worlds, and she had to look out for her disciple.

With the Sacred Cry Moon Beast around, it would be able to protect Lin Yuan even from lifeforms that were more powerful than it.

The world was currently in the midst of messy change. It was very likely that members of Tower Canon would appear at the Radiance Hundred Sequence selection.

In the past, the Moon Empress would not have left such a powerful combat power like the Sacred Cry Moon Beast in the dimensional world because she had to look out for the Radiance Federation.

But now, she and Zixi had taken that step.

The Sacred Cry Moon Beast used to be extremely useful to her, but it was no longer as necessary.

While the Moon Empress was talking, a large white wolf appeared next to her.

The giant wolf recalled its aura and was less than three meters long.

From every angle, it had a sacred and majestic aura about it.

There was a long tearstain below its eye that extended to the corner of its mouth.

The tearstain shimmered blue.

Lin Yuan knew that this white wolf had to be the Sacred Cry Moon Beast that had chosen to follow his master.

Lin Yuan instinctively used True Data to check on it and realized that everything was question marks besides its name.

Morbius' voice appeared in Lin Yuan's head, "Partner, this Heavenly Family Fey only just broke through to Eternal. It's still unable to condense its birth horoscope. If you want to check its data, I can use some of the energy of my roots to exceed grades."

Lin Yuan hurriedly said to Morbius, "You don't have to use the energy in your roots."

Morbius would go to sleep if it used too much energy from its roots.

It had already used some of the energy of its roots when it helped Genius to evolve its bloodline.

Unless the situation absolutely called for it, Lin Yuan did not want Morbius to use any more of the energy in its roots.

Although Lin Yuan had a very curious nature, he would not sacrifice his friend to satisfy his curiosity.

The Sacred Cry Moon Beast turned and changed into a tall young girl wearing a white fur cloak.

The fur on the cloak was as thick and voluminous as that of a wolf's hide. This made the Sacred Cry Moon Beast's face appear even smaller.

It bowed to the Moon Empress and said, "I shall do as you say!"

Sacred Cry looked at Lin Yuan and smiled gratefully.

It saw Lin Yuan as its savior.

Sacred Cry's increase in power was completely owed to the pure spirit qi that Lin Yuan gave the Moon Empress. If not for the pure spirit qi, Sacred Cry would not have been able to make it this far. It could be said that its transformation was thanks to both Lin Yuan and the Moon Empress.

Additionally, Lin Yuan had saved the Mother of Bloodbath and helped it to unlock its Heavenly Family Fey bloodline.

When the Moon Empress saved the Mother of Bloodbath, she had not accepted Lin Yuan as her disciple, nor had she even had the idea of accepting a disciple yet.

Hence, she would not have thought about paving the way for her disciple.

Sacred Cry had been the one who begged the Moon Empress to save the Mother of Bloodbath.

Although Sacred Cry had left the Heavenly Fey Cottage because of its talent and how it wanted to seek out more opportunities for itself by following the Moon Empress, the Heavenly Family Cottage was still very important to it.

It did not have a softer spot for anyone than Jade Sundial, who had carried it back to the Heavenly Family Cottage and brought it up.

These few days, Blood New Moon, Blue Lotus, and White Phoenix had been meeting with Sacred Cry every day.

Sacred Cry found out from Blue Lotus that Lin Yuan had the ability to revive Jade Sundial's soul.

When Sacred Cry learned about this, it became so excited that it asked White Phoenix to gather up a jug of tears.

When you're just trying to make great content at

Once Sacred Cry could no longer shed any more tears, White Phoenix told Sacred Cry about how there was a possibility that Lin Yuan would be able to bring Jade Sundial's body back to life as well.

However, White Phoenix ended up collecting another two jugs of tears.

When Sacred Cry saw White Phoenix's wry smile, it grabbed his clothes made out of fishnets in annoyance and poured its tears out of the three jugs and into White Phoenix's mouth.

It was very aware that its tears contained light-type energy and vitality.

White Phoenix's body contained night power and was incompatible with Sacred Cry's energy.

The vitality in its tears would be significantly beneficial to White Phoenix, but the light-type energy would give him stomach discomfort.

By pouring the three jugs of tears down White Phoenix's throat, White Phoenix ended up spending the next few days in the Return from Faraway Mansion's bathroom. His digestive system was taking so much out of him that it left him as pale as a ghost.

Jade Sundial's death had caused the cold and aloof Sacred Cry to lose the only pillar of support in its life.

It had been in the pits of despair then.

Now, it was infinitely grateful to Lin Yuan.

Sacred Cry said to Lin Yuan, "I will stay in the marsh world and become a temporary light green moon. If you need me, you can look to the moon and summon me."

Lin Yuan nodded and replied, "Auntie Sacred Cry, it will be up to you!"
