

Merchant 811

Chapter 811: Sky Fragrance Beauty Butterfly

Since the Moon Empress was willing to talk about this incident, it meant that she had made her peace with it.

Lin Yuan listened to the Moon Empress with wide eyes.

It had been increasingly difficult to evolve his Sacred Sword Wielding Queen from 1 Star to 2 Stars. He had used so many Law Source Crystals that it almost seemed to be for naught.

Although he did not know how the Moving Source Water increased its stars, it had to be difficult given that it was a sacred source lifeform.

The Sacred Sword Wielding Queen sensed special water-element energy in the 12 balls of water. Hence, the Moving Source Water should be a kind of water-element-type sacred source lifeform.

However, Lin Yuan was dumbfounded.

Didn't Master say she was giving me a fey carriage? Why is she giving me these 12 balls of water?

True Data still could not check these 12 balls of water because it stated that they were water residue instead of living feys.

Suddenly, Lin Yuan sensed the Moon Empress' aura shift, and she tossed 12 blue crystals into the 12 balls of water.

When the Moon Empress saw the way that Lin Yuan was looking at the 12 balls of water, she said gently, "You've already formed a contract with a sacred source lifeform. These feys nurtured from the residue of a sacred source lifeform will require you and your sacred source lifeform to form a contract through your soul together. These 12 balls of water will be useful to you no matter how you choose to nurture them in the future."

Lin Yuan's heart was still racing from when he used True Data to check on the 12 balls of water.

The 12 balls of water had limitless potential and could be nurtured in almost countless directions.

When they were nurtured, they could be supreme weapons or incredible shields.

He also thought that they could be nurtured with strategic intentions.

As he looked into the Moon Empress' eyes, Lin Yuan stored the 12 balls of water back into the Diamond fey storage box and wore the fey storage box as a ring around his finger.

Mystic Moon caught the Moon Empress shooting a look at him, and he hastily coughed and said, "Moon Empress, these feys might not be suitable for pulling a fey carriage. Why don't you prepare some that are more suitable for Young Lord?"

The Moon Empress quickly handed Lin Yuan another Platinum fey storage box and shot an appreciative look at Mystic Moon.

“My disciple, you don’t have to worry about the Moving Source Water. You can take your time to nurture them. But Mystic Moon is right in that these feys are not suitable for pulling a fey carriage. Take a look inside this Platinum fey storage box and see if the feys inside are better for pulling your fey carriage.”

Thanks to the Moon Empress’ expression, Lin Yuan immediately knew that she was trying to come up with a way to give him something.

Lin Yuan did not even try to reject her and immediately received the Platinum fey storage box this time.

He had been staunchly against receiving anything from the Moon Empress and insistent on forging his own path instead of relying on her not because he felt that he could not take anything from her.

It was almost a done deal that Endless Summer and the Mother of Bloodbath would be able to evolve to Creation Breed, and he had proved himself for the first time by giving the Moon Empress the Golden Lotus Brocade Pearl.

Now that he had laid out his own path for himself, he would no longer reject anything from the Moon Empress because he believed that he would one day be able to help the Moon Empress like she was helping him.

When she saw that Lin Yuan was not returning something to her like he used to do, the Moon Empress’ cold expression, due to returning feelings from the incident she had just recounted, immediately softened.

Lin Yuan looked inside the Platinum fey storage box and saw 12 Platinum V/Fantasy V Sky Fragrance Beauty Butterflies inside.

Lin Yuan instantly wondered if using butterflies to pull a carriage would attract too much attention.

Still, Lin Yuan immediately brushed off his concern. The Sky Fragrance Beauty Butterflies would only be about as large as a palm even when they reached Diamond X/Fantasy V and would not be able to pull a fey carriage.

However, the Sky Fragrance Beauty Butterflies were undeniably valuable.

Lin Yuan would never have been able to nurture the Sky Fragrance Beauty Butterfly on his own.

As a soul-type fey, the Sky Fragrance Beauty Butterfly needed to absorb a large amount of soul-type spiritual ingredients when it was still a caterpillar in order to strengthen the Sky Fragrance Beauty Butterfly’s soul.

After it absorbed a large amount of soul-type spiritual ingredients and became a cocoon, the cocoon needed to grow in an environment with concentrated spirit qi.

Lin Yuan would be able to fulfill the second requirement and would even be able to do it better, but he was helpless against the first requirement.

The only soul-type spiritual ingredient that Lin Yuan had was the roasted Cold Snow Pine resin.

He had a fair amount of the Cold Snow Pine resin, but it was not enough to feed the Sky Fragrance Beauty Butterfly's caterpillar for three days.

It was clear how much soul-type spiritual ingredients the Moon Empress had used to nurture the 12 Sky Fragrance Beauty Butterflies.

Even a small amount of a soul-type spiritual ingredient was priceless.

The Sky Fragrance Beauty Butterfly was the second most beautiful butterfly-species fey, the first being the Blue Light Goddess Butterfly.

Both the Sky Fragrance Beauty Butterfly and Blue Light Goddess Butterfly were not adept at attacking.

However, the Sky Fragrance Beauty Butterfly was extremely skilled at releasing cherry blossom petal-shaped scales to cover and block information from being transferred in a certain area.

It was also different from the Blue Light Goddess Butterfly that solely relied on its looks. Since the Sky Fragrance Beauty Butterfly was a soul-type fey, it had the innate ability to trap souls.

The Sky Fragrance Beauty Butterfly could trap the souls of feys that were weaker than its own. The stronger the fey's soul, the shorter time that the Sky Fragrance Beauty Butterfly would be able to trap it.

While trapping the soul, the Sky Fragrance Beauty Butterfly could manipulate the fey's body as it pleased.

After a fey had its soul trapped by the Sky Fragrance Beauty Butterfly once, the fey's soul would become very resistant to the Sky Fragrance Beauty Butterfly's soul trapping. Hence, it was difficult for the Sky Fragrance Beauty Butterfly to control the same fey twice.

However, the special quality of the Sky Fragrance Beauty Butterfly's soul trapping was that it could trap insect-species feys with weaker souls forever.

The insect-species feys' whose souls had been permanently trapped by the Sky Fragrance Beauty Butterfly were like men that a beautiful woman hypnotized as they were equally willing to sacrifice everything they had for the Sky Fragrance Beauty Butterfly.

As the Sky Fragrance Beauty Butterfly's soul became stronger, it would have better options and could order the insects whose souls it had trapped to kill themselves to remove their souls from entrapment.

This would free up the Sky Fragrance Beauty Butterfly to control another target.

With this thought, Lin Yuan came to a decision.

Chapter 812: Emperor Armored Martial God Insect

The Diamond X/Fantasy V Sky Fragrance Beauty Butterfly's forceful entrapment of insect-species feys would even be effective on Suzerain/Myth I insect-species feys.

Insect-species lifeforms included more than just insect-species feys as they also included alien insects.

Many high-grade alien insects had imposing appearances, but their souls were weaker than insect-species feys of the same level.

It was as easy for the Diamond X/Fantasy V Sky Fragrance Beauty Butterfly to control a Suzerain/Myth I fey as it was to control a Class 7 alien insect.

It would even be as easy for the Sky Fragrance Beauty Butterfly to control a Suzerain/Myth II fey as it was to control a Class 8 alien insect.

Lin Yuan badly wanted the Class 8 alien insect Emperor Armored Martial God Insect.

The Emperor Armored Martial God Insect highly resembled a transformer that was wearing an insect's armor and would change its form into different weapons when it was fighting.

The Emperor Armored Martial God Insect could rely on its sharp and strong armor to overcome most Myth II feys that had comprehended laws.

Normally, alien insects had lower combat power than other dimensional lifeforms, but the Emperor Armored Martial God Insect was different. It could use its armor and overwhelming strength to fight against the Scythe Bone Horned Demon, one of the Class 8 Devious Devils.

It might even win against the Scythe Bone Horned Demon if it attacked first.

It was just like the Heart-Penetrating Ironline's position amongst the alien insects of the same grade.

If the 12 Sky Fragrance Beauty Butterflies could be used to control 12 Emperor Armored Martial God Insects and the carriage of the fey carriage was decorated in a clean and sharp metal style, the combination would be extremely dazzling.

Unfortunately, as dazzling as it would look, it would be difficult for Lin Yuan to obtain the Emperor Armored Martial God Insects as they only appeared in Class 4 and above alien insect dimensional rifts.

Although insects usually lived in colonies, the Emperor Armored Martial God Insect was a lone wolf through and through.

It spent its life killing and fighting.

Even if a large number of Class 8 alien insects poured out with the insect tide that emerged from a dimensional rift, there might not be the Emperor Armored Martial God Insect amongst them.

After all, other Class 8 alien insects could pour out of Class 4 alien insect dimensional rifts other than the Emperor Armored Martial God Insect.

When one was in need of nothing, such things often fell into their laps.

But when one went out of their way to search for something specific, it was always nowhere to be found.

Even if Lin Yuan managed to control a Class 4 alien insect dimensional rift and stood watch over the dimensional hub to wait for the waves of insects that poured out, he might not catch a glimpse of the Emperor Armored Martial God Insect even if he waited for months.

Moreover, Lin Yuan's current power was not strong enough to explore a Class 4 alien insect dimensional rift.

Although the Sky Fragrance Beauty Butterfly was a Diamond X/Fantasy V fey, its strength lay in trapping the souls of other feys.

The inside of an alien insect dimensional rift would be a playground for the Sky Fragrance Beauty Butterflies as they could all control the soul of a strong alien insect.

If they did not want to control a single insect-species lifeform, they could easily use their souls to control an entire insect tide.

However, the Sky Fragrance Beauty Butterfly would only be able to change targets once the fey it was currently trapping died.

If something went wrong with the Sky Fragrance Beauty Butterfly's trapping of an alien insect or it encountered a stronger alien insect and did not have the time to kill the alien insect it was currently trapping, the weak and valuable Sky Fragrance Beauty Butterfly could die in the Class 4 dimensional rift.

Naturally, Lin Yuan did not want this to happen.

Suddenly, a lightbulb appeared above Lin Yuan's head.

He thought back to when Long Tu had mentioned that the Long family controlled several Class 4 dimensional rifts and had collected a mountain of Law Source Crystals while they were nurturing dragon-species feys in the Class 4 dimensional rifts.

Different Law Source Crystals appeared in different high-grade dimensional lifeforms.

High-grade alien insects that had similar power to Myth Breed feys created Law Source Crystals that had the unique aura of alien insects and could be separated easily.

A third of the over 10,000 Law Source Crystals that Long Tao had brought him came from alien insects.

This meant that there were many alien insects in the Class 4 dimensional rifts that the Long family controlled.

The Long family did not have much use for high-grade alien insects other than nurturing dragon-species feys. As such, there was no reason for the Long family to reject him if he asked to trade for living Emperor Armored Martial God Insects.

Lin Yuan felt that it was highly likely that his idea of riding on a fey carriage pulled by 12 Emperor Armored Martial God Insects would come to fruition.

Lin Yuan wanted the Emperor Armored Martial God Insect so badly because he had seen a field guide on the wall of Lan Qin's fey observation room.

The picture on the wall depicted the Emperor Armored Martial God Insect with its armor moving backward and forming three complicated armor sets on its back.

The three armor sets were in the process of opening and looked like three sets of wings.

The Emperor Armored Martial God Insect looked like an undefeated six-winged angel of carnage.

The Emperor Armored Martial God Insect's combat power was enough to protect the fey carriage and increase its safety.

After all, the best defense was the immediate destruction of enemies.

Lin Yuan raised his head to smile at the Moon Empress, revealing a row of pearly teeth. "Master, I really like the Sky Fragrance Beauty Butterflies."

The Moon Empress' mood improved greatly when she heard what Lin Yuan said, and she felt the joy of a Master being able to look after her disciple.

After the Moon Empress and Lin Yuan talked for a while more, she left with Mystic Moon and Cold Moon and entered the Moonbeam Treasure Pagoda that was being pulled by the white and light green giant snakes.

As Lin Yuan watched the Freezing Moon Pagoda Carriage disappear in the distance, he turned to head toward the Hidden Moon Pavilion so that he could record all the combat skills and fighting strategies from the 72nd to the 87th floor.

The combat skills and fighting strategies recorded in the Hidden Moon Pavilion could not be compared to the public ones that were available on Star Web.

All the combat skills and fighting strategies recorded in the Hidden Moon Pavilion had been passed down from before the era of the Spirit Qi Awakening.

When the Spirit Qi Awakening had come, many of the combat skills and fighting strategies were lost to time.

There was no other place in the world besides the Hidden Moon Pavilion that had collected such a comprehensive set of combat skills and fighting strategies.

Lin Yuan went to the 72nd floor of the Hidden Moon Pavilion without encountering any issues and summoned Genius.

Chapter 813: Order of Radiant Light

Lin Yuan said, "Genius, we should try our best to record all 15 floors worth of combat skills and fighting strategies by the end of today."

Genius looked at the hundreds of shelves stacked full of ancient tomes and meowed as it said, "I can memorize things quickly, but I can't read these books as quickly."

Genius felt that his little paws would not be able to flip through 20 books in one day, much less hundreds.

Lin Yuan massaged Genius' head and took a Star Web Card out of a box on one of the shelves.

Although all the information in the Hidden Moon Pavilion was presented in books, a backup set had also been stored on Star Web.

Genius' eyes lit up when it saw the Star Web Card and said in a child-like voice, "Even if there are ten times more mines of information on Star Web, I would only need half an hour to memorize and organize all of it."

Lin Yuan and Genius started taking out all the Star Web Cards on the shelves.

Genius logged onto Star Web and rapidly memorized all the combat skills and fighting strategies in the books.

After Genius memorized all 15 floors worth of information, Lin Yuan used the Muscle Hyperthymesia Grass again. Every muscle in Lin Yuan's body went into a hyper-memory state to memorize all the combat skills and fighting strategies that had been recorded in the 15 floors worth of books with Genius' Connected Tails.

Lin Yuan recovered from the hyper-memory state and clenched his fist half an hour later.

Lin Yuan activated Blackie's Spirit Essence Explosion, and a ball of blustering spirit qi appeared on top of Lin Yuan's fist.

He realized that after learning all the complicated combat skills and fighting strategies, the muscles in his body had such fine control that it was almost magical.

This allowed Lin Yuan's control of Spirit Essence Explosion to increase even further.

The muscles and spirit qi in the body supported each other.

Lin Yuan had finally perfectly combined the power of Spirit Essence Explosion with his own, and this would allow him to use Spirit Essence Explosion freely during battle to produce the greatest explosive damage.

Lin Yuan's trump card for victory at the Guard Ye Banquet's Martial Arts Stage would be this.

When Lin Yuan was about to return to the mansion, Liu Jie, who had been staying at the Spirit Guards' land, opened his eyes.

The first thing that Liu Jie saw was Night Leaning Moon, who had been standing guard over him. Liu Jie hurriedly said, "Master, my Insect Queen has finished consuming the seven insect-species carcinoma feys and used its genes to recreate them. I can now control the seven insect-species carcinoma feys as I please."

Liu Jie could not help but sigh in amazement. He had really been granted a huge blessing after crossing an insurmountable obstacle.

The Insect Queen that Lin Yuan had saved had mutated in an advantageous direction after absorbing the Blade Queen Bee's spiritual poison. It had actually gained all of the Blade Queen Bee's abilities and could control the Blade Worms.

However, the Blade Worms that the Insect Queen controlled were different from those that the Blade Queen Bee had controlled.

'Blade Worm' was just a blanket term. The Insect Queen could control any insect-species carcinoma fey with this spiritual poison, even the Blade Queen Bee.

A carcinoma fey like the Blade Queen Bee would be described as a disastrous entity on any battleground, and the Insect Queen had gained control of eight types of such disastrous entities.

Night Leaning Moon nodded. The shawl hid her face, but it was apparent from her gaze that she was in awe of Liu Jie's growth.

"The plan that I mentioned to you can finally be carried out. This Insect Queen has created seven insect-species carcinoma feys, and including the Blade Queen Bee, you now have eight insect-species carcinoma feys under your control.

"However, this is just a start. Over millennia, especially during the Spirit Qi Thinning period, the Spirit Guards had collected over 1,000 types of insect-species carcinoma feys.

"When your Insect Queen gains more spiritual power, I'll pick some insect-species carcinoma feys for you. From now on, you can use the Insect Queen to control more insect-species carcinoma feys and use each of them as a unique weapon. Your Insect Queen will become an arsenal that stores these weapons. But you should only use your sacred source lifeform as your weapon of last resort."

Liu Jie smiled and nodded as he replied, "Don't worry, Master. I will do my best during the Guard Ye Banquet's Martial Stage."

"I wasn't the one who wanted to hold the Arts Stage, Martial Stage, and Martial Arts Stage. Those old fellows are the ones who want to see what the younger generation of the top factions is capable of. The prize for the Arts Stage is an Island Whale that's about to hatch," said Night Leaning Moon.

When he heard what the prize for the Arts Stage was, Liu Jie's heart skipped a beat because he never expected an Island Whale that was about to hatch to be the prize.

Even a strategic-class like the Island Whale would be paraded around in public, and it was clear how stiff the competition for the Arts Stage was.

As the parallel to the Arts Stage, the Martial Stage's prize was not any less impressive.

Liu Jie did not have to guess what the prize for the Martial Arts Stage, which was even more prestigious than the Arts Stage and Martial Stage, was as Night Leaning Moon continued. "The prize for the Martial Stage is the chance to create a custom-made weapon. The sacred source lifeform that will be used to make the weapon will be at least 4 Stars but not more than 6 Stars and will be sponsored by the Bamboo Monarch. As for the Martial Arts Stage's prize, it will be a sacred source lifeform and the Order of Radiant Light."

Liu Jie inhaled sharply, and he could not help but exclaim, "The Order of Radiant Light!?"

The prizes for the Martial Stage and Arts Stage had already astonished Liu Jie, but it was nothing compared to how he felt about the Order of Radiant Light.

Chapter 814: My Disciple is Luckier Than Me

Liu Jie felt that the Order of Radiant Light was even more valuable than a sacred source lifeform. This was not because it could increase a person's power like a sacred source lifeform could.

The Order of Radiant Light was an order made from metal spiritual ingredients and did not have any uses on its own.

However, it had exceptional symbolism because it was linked to Radiance Envoys.

Radiance Envoys were not only chosen from the Radiance Hundred Sequence but also people who held the Order of Radiant Light.

From the five members of the previous generation, the people from the next generation who had the Order of Radiant Light were given the right to apply to be a Radiance Envoy.

The Order of Radiant Light came from the imperial court, and every generation of Radiance Envoys would have ten Orders of Radiant Light that were to be given out to them.

9 out of the 10 Order of Radiant Lights had been given out to the current generation of potential Radiance Envoys within the last five years.

The Order of Radiant Light that was going to be given out to the champion of the Guard Ye Banquet's Martial Arts Stage would be the tenth and last one.

This meant that the champion of the Martial Arts Stage had the chance to become a Radiance Envoy.

There was more than one advantage to obtaining an Order of Radiant Light. Even if the person who had an Order of Radiant Light did not end up becoming a Radiance Envoy, they would be able to join an exclusive ten-member group that would protect the five Radiance Envoys known as the Radiance Riders Team.

When Liu Jie had found out that there would be a Martial Arts Stage at the Guard Ye Banquet, he had instinctively thought of Lin Yuan.

Among all the people that Liu Jie knew, Lin Yuan was the most impressive Creation Master and combat-class spirit qi professional.

However, he also felt that the Guard Ye Banquet was being held too early.

If the Guard Ye Banquet was held one year later, both the Order of Radiant Light and sacred source lifeform would be all but Lin Yuan's.

This year, Lin Yuan had already decided to try out for the Radiance Hundred Sequence. Given Lin Yuan's power, it would be easy for him to be accepted as a member of the Radiance Hundred Sequence.

Before the Radiance Envoy selection, the top ten Sequences of the Radiance Hundred Sequence would have the chance to become Radiance Envoys.

At that point, none of the Radiance Hundred Sequences would be hiding their power, and they would definitely engage in a ferocious battle with each other.

This would cause the Sequence to be thrown into chaos.

Previous Radiance Envoy selections had had a point-accumulation examination style, and the top five applicants with the highest points would become Radiance Envoys.

If the Order of Radiant Light was not used and one became eligible for the Radiance Envoy selection by being one of the top ten Sequences of the Radiance Hundred Sequence, the Order of Radiant Light would be equivalent to 100 points at the start of the Radiance Envoy selection. This would give all who had the Order of Radiant Light a leg up.

It would be too much of a waste if Lin Yuan missed this opportunity.

Since Liu Jie no longer needed Night Leaning Moon to watch over him, she prepared to leave the Spirit Guards' land to head toward Midnight Palace.

Given that Night Leaning Moon was the organizer of the Guard Ye Banquet, she was already late.

Although there were still a few days before the Guard Ye Banquet, today was the day to discuss and make preparations.

By now, even Chef Supreme, who was always last to arrive, should have already reached Midnight Palace.

Just as Night Leaning Moon was turning to leave, Liu Jie called out to stop her.

She turned back to Liu Jie, who said, "Master, I want to wear the Spirit Guards' standard mask during the Guard Ye Banquet."

A look of shock crossed Night Leaning Moon's face.

The Guard Ye Banquet was supposed to be for Liu Jie to declare his identity and let everyone know whose disciple he was.

Thus, if he wore a mask at such an event, half the meaning of holding the Guard Ye Banquet would be gone.

Nonetheless, Night Leaning Moon could tell that Liu Jie was not asking a question or making a request.

The moment Liu Jie let the first words pass his lips, he became determined.

Night Leaning Moon asked Liu Jie in confusion, "Why?"

The Spirit Guards' standard mask was a special mask that the Spirit Guards wore during missions to prevent enemies from getting a good look at their appearance.

It covered almost every inch of skin on the face.

The inner side of the Spirit Guards' standard mask also had the skin of the Sound Shark that could alter voices.

If Liu Jie wore the Spirit Guards' standard mask, even those who were extremely familiar with his voice would not be able to tell that it was him.

Hence, Night Leaning Moon was extremely curious about Liu Jie's reason for wanting to do so.

Liu Jie gently placed his hand on the Class 2 Creation Master crest on his chest.

When she saw this action, Night Leaning Moon immediately understood what Liu Jie was thinking.

"Master, I'm Lin Yuan's retainer knight, and he will be participating in the Guard Ye Banquet. I don't want to attract more attention than him before he reveals his identity."

Liu Jie's words were simple, but they gave Night Leaning Moon a feeling like she had just traveled through time.

The Moon Empress and I were just like this. All I wanted was to quietly stand behind her and protect her. But she didn't choose me. She chose Mystic Moon. My disciple is luckier than me.

Night Leaning Moon sighed and said simply, "Okay."

She turned, walked out of the door, and disappeared like a mass of eternal night into the blazing afternoon light.

...

When Lin Yuan returned to the mansion, there was nothing he had to attend to.

There was no news from Condense Fairy Orchard or the Sea Bliss Clan.

Although they still had a trade agreement, not even Sun Ningxiang was contacting Lin Yuan as often as before.

Since Condense Fairy Orchard was a top faction, they would have to be in attendance at the Guard Ye Banquet.

There were only three main members left in the Sun family. Given that Sun Ningxiang needed the Bronze/Legend Muscle Growth Camellia, her grandmother's injuries would definitely prevent her from traveling to the Royal Capital to attend the Guard Ye Banquet.

Sun Ningxiang's brother was still young and oblivious.

Thus, Sun Ningxiang should be attending the Guard Ye Banquet on her own.

Since wolves were currently circling Condense Fairy Orchard, she would certainly have a hard time at the Guard Ye Banquet.

Lin Yuan had a business deal that he wanted to propose to Sun Ningxiang at the Guard Ye Banquet as the disciple of the Moon Empress.

Chapter 815: Two Bloodlines and The Queen's Evolution

Lin Yuan had yet to contact the Long family to ask about the Emperor Armored Martial God Insects.

He had not even properly studied the Sky Fragrance Beauty Butterflies and 12 balls of water that came from the dead Moving Source Water.

Lin Yuan decided to push these matters until after the Guard Ye Banquet.

But the Astronomical Parliament's weekly parliamentary meeting still took place.

Lin Yuan and Wen Yu could be more relaxed about this parliamentary meeting.

The seven-day interval between the parliamentary meetings was very short and a person like Yin Lin with her impressive background might have many things to do in a week.

But to Bei Xu, a week would just fly by. He might not even be able to completely acclimatize to the Sharp Shadow Bat within a week.

In this parliamentary meeting, Lin Yuan and Wen Yu would not be talking as much as before. Instead, they would be listening to Yin Lin and Bei Xu talk about the joys of their new lives and the things they had experienced in the past week.

Before Yin Lin and Bei Xu formed contracts with the north-south constellation seats, they were not considered members of the Astronomical Parliament.

Hence, as the contractor of the Leo throne, Lin Yuan could check their willpowers.

But they were now members of the Astronomical Parliament because they had formed contracts with the Andromeda and Perseus north-south constellation seats.

As a sign of respect, Lin Yuan could no longer check on their willpowers.

It gave Lin Yuan and Wen Yu great joy to listen to what had transpired in Yin Lin and Bei Xu's lives in the past week.

Yin Lin's experiences over the last week had been like a dream and she was like a princess in a fairy tale that had just woken up from a curse.

She had become her most radiant self the moment she woke up and started her life as a real princess.

Yin Lin also told Lin Yuan about how she had awakened the beast patterns.

She was sure that her awakening of the Spirit White Lion and Azure Cloud Leopard beast patterns had something to do with Lin Yuan.

Although she did not know what Lin Yuan had done to give her sight, she knew that this strength could help her to awaken the dormant beast patterns inside her.

Lin Yuan was extremely shocked by Yin Lin's description of the beast patterns and he did not expect Yin Lin to have two kinds of fey bloodlines in her.

When feys reached Myth II, they could change into human form and start families with human spirit qi professionals.

Since their offspring could awaken beast patterns, Yin Lin's ancestors had to be Creation Breed feys.

However, fey bloodlines were always dominating and the bloodline of different feys countered each other.

It was just like how Chimey's original bloodline had definitely viciously fought against the luan-species bloodline when Chimey evolved.

Thus, it was rare for a situation like Yin Lin's where two beast patterns emerged to occur.

The awakening of two different beast patterns meant that two different Creation Breed feys' bloodlines had been unlocked.

Although spirit qi professionals had weak bodies that could not sustain the power of both beast patterns in their bodies, they would be able to apply the beast patterns onto their contracted feys that were the same species of the beast patterns' bloodlines and improve the feys' growth.

Yin Lin had opened her eyes and her talent at the same time and her road would be extremely smooth from now on.

As the system, Lin Yuan had found a prime main character. He would no longer need to be worried much about Yin Lin from now on.

But for Bei Xu, the more Lin Yuan listened to his experiences the more he felt that something was wrong.

Finally, Lin Yuan knew where the problem lay.

Bei Xu carried the Diamond fey storage box and two bottles of spirit fluid all the time in the perilous subterranean world but he did not use any of the items.

This action was so silly that it was a little cute.

However, Lin Yuan could not explain such simple common knowledge to Bei Xu with words.

This common knowledge was picked up naturally and slowly in life. If Lin Yuan tried to explain it to Bei Xu, it would be like he was teaching a baby.

There were many things that had to be explained from the beginning.

If Bei Xu was given an explanation based on one item, he might be even more confused.

Even if he tried to teach Bei Xu, Wen Yu's half an hour limit that she was able to sustain the Astronomical Parliament for would not even be close to enough. It was likely that it would take Bei Xu six months to pick up all the general knowledge.

Left without any choice, Lin Yuan could only use a few laws to bring over some books with basic knowledge fey grades and qualities, Willpower Runes, Diamond fey storage boxes and their uses, the relationship between spirit qi professionals, feys, and Creation Masters.

It took a fair amount of laws for Lin Yuan to transfer over these books.

It was really true that the most valuable thing in the world was knowledge.

Nonetheless, Lin Yuan felt that it was necessary to provide Bei Xu with this knowledge.

A person who wanted to fight to be at the top was not afraid of hardship but of being oblivious.

Lin Yuan wanted to remove Bei Xu's wall of obliviousness by enabling him to understand this basic knowledge.

A few more days passed in the blink of an eye and the Guard Ye Banquet was upon them.

The Sacred Sword Wielding Queen had tried its best to absorb all the energy in the law source crystals and generated a pile of law crystals.

The number of law crystals produced filled up a sack and Lin Yuan sent them all to Endless Summer so it could evolve to pinnacle Myth III.

But even after evolving to pinnacle Myth III and absorbing a large number of law crystals with pure law power, Endless Summer still had not evolved to Creation Breed.

The pit that separated Myth III and Creation Breed feys had trapped countless feys and it was extremely difficult to overcome.

Lin Yuan had already provided Endless Summer with more law crystals than he had originally expected.

But since he had such a large amount of law source crystals that could support Endless Summer's use of them, all Lin Yuan had to do was continuously provide Endless Summer with law crystals to help it cross the pit.

Besides providing pure law crystals, the Sacred Sword Wielding Queen's skirt had accumulated so many laws that the world it depicted was almost real.

Lin Yuan breathed in deeply and thought to himself.

Endless Summer hasn't evolved to Creation Breed before the Guard Ye Banquet as per my expectation. I wonder if the Dark Death Law on the Sacred Sword Wielding Queen's skirt will be able to successfully transform to Dark Death World before the Guard Ye Banquet?

Lin Yuan ordered the Sacred Sword Wielding Queen, "Queen, inject all the law source energy that you absorbed into the Myth III Dark Death Law."

Chapter 816: Laws Into Worlds

When Lin Yuan issued the order to the Sacred Sword Wielding Queen, his face was full of austerity rather than confidence.

As Endless Summer used up more and more Law Crystals, it told Lin Yuan that although it had already anticipated an extremely high obstacle to cross in the evolution from Myth Breed to Creation Breed, it had still underestimated the difficulty.

Although it had not been long since Endless Summer had evolved to Myth III, its foundation was much weaker than veteran Myth III feys.

However, Endless Summer's double cores allowed it to make up for its deficiency.

Given its talent, Endless Summer only had to keep accumulating resources, and it would eventually have enough to overcome the Trial of World Creation and evolve into Creation Breed.

The talented Endless Summer had already used up close to 3,000 of Lin Yuan's Law Crystals over the last few days, and more than 4,000 if the previous Law Crystals were also included.

Even with the sea of Law Crystals being invested in it, Endless Summer still did not show any sign of a breakthrough to Creation Breed.

Using Endless Summer's example as a base, it would take much longer than Lin Yuan anticipated for the Dark Death Law on the Sacred Sword Wielding Queen's skirt to transform into the Dark Death World.

This thought caused Lin Yuan's mood to plunge.

The Arts Stage, Martial Stage, and Martial Arts Stage at the Guard Ye Banquet only allowed one person to participate in one event.

Without Dark Death World, even if Lin Yuan had surpassed martial arts experts using the Muscle Hyperthymia Grass and could produce the same amount of damage as a Diamond X/Fantasy V fey using Spirit Essence Explosion, he could not confidently say that he would be able to emerge victorious at the Martial Arts Stage.

If the Dark Death Law did not transform into the Dark Death World before the Guard Ye Banquet, Lin Yuan decided he would give up on the Martial Arts Stage and set his sights on the Arts Stage instead.

However, Lin Yuan would still have to take a gamble if he wanted to win the Arts Stage.

If the Arts Stage coincidentally involved the evolution of fey grades, Lin Yuan would be helpless.

Although the Guard Ye Banquet's Arts Stage would definitely provide an undisturbed environment for the Creation Masters to concoct spirit fluids, Creation Masters could also use their feys as support while they were concocting the spirit fluids.

This meant that Lin Yuan could still bring along Genius.

Even though Genius could use its spiritual power to concoct Grade 3 spirit fluids, it still had not mastered how to use its soul to concoct Grade 4 spirit fluids.

The younger generation in the Radiance Federation had to be people who were below 30 years old. This meant that all the Creation Masters from top factions who were below 30 years old could participate in the Arts Stage.

It might be difficult to become a Class 4 Creation Master before 30, but it was possible to become a pinnacle Class 3 Creation Master.

Long Tao was only 26 years old, but he was already a Class 3 Creation Master.

Given his talent, it was almost guaranteed that he would become a pinnacle Class 3 Creation Master before he was 30 years old.

The younger generation of Creation Masters from other top factions was definitely not more talented than Long Tao, but they could be equally talented.

In this battle of the great, Genius' ability as a Class 3 Creation Master was far from being impressive.

Moreover, both Bamboo Monarch and Chef Supreme had disciples who were within the age group and had higher power than Long Tao.

Lin Yuan felt the pressure on his shoulders grow heavier.

The Sacred Sword Wielding Queen had stopped absorbing the Law Source Crystals ever since it received Lin Yuan's order.

As it sensed the power from over 4,000 Law Source Crystals that it had absorbed, the Sacred Sword Wielding Queen felt eagerness rise up within it.

The main way for the Sacred Sword Wielding Queen to increase its Stars was to absorb the law power inside Law Source Crystals and use the source-type power inside to strengthen the laws on its skirt.

The Sacred Source Wielding Queen had absorbed so much source power, but Lin Yuan had told it not to use any of it, meaning that its Stars had yet to increase.

It would take a large amount of source-type power to evolve the Dark Death Law.

This would also increase the Sacred Sword Wielding Queen's power and Stars.

The source-type power from the Sacred Source Wielding Queen's skirt had spread throughout its entire body and caused its pale skin to glow.

The highest area of the world depicted on the skirt was made out of the Dark Death Law and Dead Dream Law.

These two different dark-type laws formed the cloudy dark sky that was full of withered death and perplexity on the Sacred Sword Wielding Queen's skirt.

At this moment, the Night Calamity Crow formed from the Dark Death Law in the vivid world on the Sacred Sword Wielding Queen's skirt was tangled up with the source-type power.

The source-type power continuously poured into the Night Calamity Crow's body and caused the aura in its body to expand.

This caused a change in the status between the Dream-Eating Bat and Night Calamity Crow.

Instead of both competing on equal ground, the Night Calamity Crow was hunting while the Dream-Eating Bat was running.

As the Night Calamity Crow continued to grow stronger with the increasing amount of source-type power in its body, the Dream-Eating Bat that was formed from the Dead Dream Law dared not fight back even as it was attacked.

The Dream-Eating Bat had no choice but to fly down toward the sea.

Time passed, and the Sacred Sword Wielding Queen continued to use the source-type power it had accumulated.

With every passing minute, the power from about 50 source-type crystals was used and injected into the Night Calamity Crow that had been formed from the Dark Death Law.

An hour passed and the source-type power from over 3,000 Law Source Crystals resulted in the Night Calamity Crow's aura rising to its peak.

The Night Calamity Crow was like a strong balloon, and the source-type power was the air. This balloon could no longer take any more air.

Lin Yuan knew that he just needed to inject more source-type power into the Night Calamity Crow to enable it to cross over that seemingly insurmountable obstacle.

Once it crossed the obstacle, the Night Calamity Crow would become the Dark Death World.

After he sensed the Dark Death Law's situation, Lin Yuan ordered the Sacred Sword Wielding Queen, "Inject the source-type power from 500 Law Source Crystals into the Dark Death Law."

The Sacred Sword Wielding Queen hesitated before saying, "Master, I think the Dark Death Law has already reached its limit. I think the source-type power from another few hundred Law Source Crystals won't cause the Dark Death Law to change into Dark Death World."

Lin Yuan said firmly in a low voice, "Just use the source-type power from 500 Law Source Crystals."

Chapter 817: Dark Domination and the Power to Wither

Lin Yuan paused for a moment before saying, "Actually, just go ahead and use the source-type power from 700 Law Source Crystals."

He could not help but think of his conversation with Endless Summer.

According to Endless Summer, laws did not need to absorb more power to transform into worlds.

Endless Summer needed a large number of Law Crystals not because it needed to strengthen its Enlightenment Law but because it needed the pure law power to act as an energy source for the Enlightenment Law so that it could tear away from its mold to open the door to Creation Breed.

Since it needed a breakthrough, the more power it had, the higher chance of success it would have.

Lin Yuan equated this to flushing a toilet.

If a toilet was clogged, not even pouring in hundreds of cups of water individually would help to unclog it.

But if 500 cups' worth of water were poured in together, the high volume of fast-flowing water would likely be able to unclog the toilet.

After the Sacred Sword Wielding Queen received Lin Yuan's orders and understood his intention, it stopped hesitating and combined the source-type power from 700 Law Source Crystals to inject it into the Night Calamity Crow that was formed from the Dark Death Law.

The influx of such a large amount of source-type power caused the Night Calamity Crow's body to expand.

When the Night Calamity Crow's body expanded to its limit, it exploded into pieces that flew out in every direction.

Dark shadows appeared where the pieces landed and formed endless darkness.

The darkness stacked together and formed a dark world full of murder.

This world spread out like ink in water, and it seemed to be consuming every inch of the Sacred Sword Wielding Queen's skirt.

The Sacred Sword Wielding Queen closed its eyes and started to sway its skirt.

The other laws and willpowers in the Sacred Sword Wielding Queen's skirt lunged toward the Dark Death World but seemed to be missing a layer of metaverse that prevented the Dark Death World from expanding.

Rather, this made it easier for the Dark Death World to absorb them.

Just as the Dark Death World was about to refine these laws and willpowers, the Sacred Sword Wielding Queen removed its crown and tossed it into the world in the skirt.

An enormous crown that took up almost the entire sky in the world in the skirt appeared.

The crown spun around and radiated with limitless power that pulled the Dark Death World into the foreground.

As the crown absorbed the newly transformed Dark Death World, it became a large and pure black gem that embedded itself in one of the notches on the crown.

The black gem was so pure that it was transparent, and one look would be enough to see the swirling world full of death that was inside.

A small black crow appeared at the center of the Dark Death World and flapped around like it was the heart of the Dark Death World.

When Lin Yuan saw this, he knew that the Myth III Dark Death Law had successfully transformed into the Dark Death World.

The price had been the source-type power from 3,700 Law Source Crystals.

The Sacred Source Wielding Queen's Stars had also increased from 1 Star to 2 Stars after the Dark Death Law evolved to Dark Death World.

Lin Yuan was delighted yet slightly crestfallen by the Sacred Sword Wielding Queen's evolution to 2 Stars.

He had been keeping track of the Law Source Crystals, and Law Crystal fragments that the Sacred Sword Wielding Queen had absorbed.

Although the Sacred Sword Wielding Queen had only taken one month to increase its Stars, it had used up almost 500 grams of Law Crystal fragments and 5,000 Law Source Crystals.

Luckily, Lin Yuan had Brocade Zither to continuously produce Golden Lotus Brocade Pearls.

Otherwise, Lin Yuan's feys that produced heavenly-maiden-grade elemental pearls would have to work to the bone to produce enough elemental pearls for the Sacred Source Wielding Queen to increase its Stars.

Lin Yuan had been full of confidence that his 16,000 Law Source Crystals would be enough to sustain the Sacred Sword Wielding Queen for some time and enable it to evolve to 4 Stars and gain a second ability.

However, he was only left with about 10,000 Law Source Crystals. It would be difficult for the Sacred Source Wielding Queen to evolve to 3 Stars using only these.

But at least the Dark Death Law had evolved to the Dark Death World and met one of Lin Yuan's expectations.

The Sacred Sword Wielding Queen was holding up its crown and peering closely at the black gem.

It looked a lot like Endless Summer when it had just bought new accessories.

Lin Yuan stared at the Sacred Sword Wielding Queen who still showed no sign of placing the crown back on its head after ten minutes.

He could not help but let out a sigh.

Lin Yuan did not know how other sacred source lifeforms were nurtured, but the process of using so many Law Source Crystals and Law Crystal fragments to evolve the Sacred Sword Wielding Queen felt like an expensive dress-up game to him.

He did not interrupt the Sacred Sword Wielding Queen's admiration of the Dark Death World. Instead, he sensed the Dark Death World through his soul.

Joy and excitement broke out on Lin Yuan's face.

From the power of the Dark Death Law, Lin Yuan knew why it was difficult for Myth Breed feys to evolve to Creation Breed feys and why Creation Breed feys were so much stronger than Myth Breed feys.

It was because Creation Breeds attained the ability of worlds that could not be compared to the power of laws.

Lin Yuan tested the power of the Dark Death World, and a terrifyingly intimidating power rose from his body.

It was like the domination of a dark world.

He had noticed that the laws on the Sacred Sword Wielding Queen's skirt could not produce the special strengths in the feys like how Endless Summer's Enlightenment Law could enlighten a plant every five years.

The Mother of Bloodbath's Blood Law could extract essence blood from other feys without the help of Creation Masters.

These were all special abilities of laws.

Now, the Dark Death World had also given Lin Yuan a new ability, the ability to wither.

Chapter 818: Sword Skill: Night Crow Wither Attack

The power to wither was aimed at plant-type feys.

When the dark death power was applied onto plant-type feys, it would cause the plant-type fey to rapidly wither and wilt.

The ability to wither that came from the Dark Death World was not very important to Lin Yuan, but it was still better to have it than to not have it.

Lin Yuan sensed the Dark Death World and noticed that the Sacred Sword Wielding Queen's Sacred Sword Form could use the Dark Death World to attack like it did with other laws.

There was also an additional line that was something of an ability that appeared under the Sacred Sword Wielding Queen's Sacred Sword Form.

This 'ability' was formed from the Dark Death World.

Sword Form (Dark Death World): Night Crow Wither Attack: Inject all the power from the Dark Death World into the sacred sword. The sacred sword's blade will change into 28 Night Crows with dark death power. The contractor can attack with the sacred sword 28 times. If the attacks are launched consecutively, every attack will have an additional withering effect. Every 14 layers of withering effects will be released toward the target, and the 56 withering effects from the 28 consecutive attacks will cause the target to truly start withering.

When he saw the new information about Dark Crow Wither Attack, Lin Yuan asked the Sacred Sword Wielding Queen, "What does the new Sword Form that appeared under the Sacred Sword Form mean?"

"Master, every time I gain a new world now, a new Sword Form will appear under the Sacred Sword Form. They are different from the attacks that come from law power. Although they are utilized in the same manner, the Sword Forms that represent the world power need to be recharged with world power each time they are used.

“However, the Sword Form can trigger the effects of the world power and will be much stronger than if the world power itself was used. Unfortunately, the Sword Form is very challenging. Very strong combat skills and fighting strategies are required to use the Sword Form,” replied the Sacred Sword Wielding Queen.

Lin Yuan looked eager and excited after hearing what the Sacred Sword Wielding Queen said.

When it came to combat skills and fighting strategies, Lin Yuan knew that there were always more talented people out there, but he highly doubted that any of them could beat him.

If even he could not use the Sword Form consecutively, it would be unlikely that anyone else would be able to.

The Sacred Sword Wielding Queen’s Sword Form might as well have been made for him specifically.

Lin Yuan asked the Sacred Sword Wielding Queen, “After each use of the Dark Crow Wither Attack, how long does it take for the Dark Death World’s energy to be replenished?”

The Sacred Sword Wielding Queen twiddled its fingers before saying, “If you don’t replenish the source-type power with Law Source Crystals, it’ll take a month for the Dark Death World’s energy to be replenished naturally. If Law Source Crystals are used, it’ll take four weeks to be replenished.”

Lin Yuan’s expression seemed to be asking, “Are you kidding me?”.

What was the difference between four weeks and a month?

Four weeks added up to 28 days, while a month was 30 days.

The use of source-type power only shortened the time by two days and seemed insignificant amongst the 30 days.

Nonetheless, Lin Yuan asked the Sacred Sword Wielding Queen, “How much source-type power is needed?”

A pained expression came over the Sacred Sword Wielding Queen as it said, “Master, the two-day difference requires the source-type power from 600 Law Source Crystals.”

Lin Yuan immediately decided that he would never use source-type power to replenish the Dark Death World’s energy.

He did have any other complete laws that could evolve into worlds.

With so many extra laws, Lin Yuan might as well nurture more law worlds to increase the number of Sword Forms. With more Sword Forms, the time for replenishment for each Sword Form would be shortened in a way.

Since the Sword Form had such a long interval between each use, the enthusiastic Lin Yuan decided not to test out the Dark Crow Wither Attack once and to use it only when necessary.

Through the information on True Data, Lin Yuan noticed that the Sacred Sword Wielding Queen’s sacred source type did not mention dark-type/mixed-type.

[Sacred Source Name]: Sacred Sword Wielding Queen

[Sacred Source Species]: Source genus/Sacred Source species

[Sacred Source Star Grade]: 2 Stars

[Sacred Source Type]: Dark (Main)/Mixed

Abilities:

[Queen Form]:

1. Queen's Skirt Hem: Able to absorb the Willpower Runes from the bodies of dead feys or source-type items. The Willpower Runes or Law Runes from Myth Breed feys' Law Crystals will be carved on the queen's skirt. The Law Crystals which have their laws absorbed will become Law Crystals that possess pure law power.

[Sacred Sword Form]:

1. Blade of Sacred Sword: When the spirit qi in the body is depleted, the blade will pierce the skirt hem to unleash all the laws and willpower stored within.

Sword Form (Dark Death World): Night Crow Wither Attack: Inject all the power from the Dark Death World into the sacred sword. The sacred sword's blade will change into 28 Night Crows with dark death power. The contractor can attack with the sacred sword 28 times. If the attacks are launched consecutively, every attack will have an additional withering effect. Every 14 layers of withering effects will be released towards the target, and the 56 withering effects from the 28 consecutive attacks will cause the target to truly start withering.

The change in the data only appeared after the Dark Death Law evolved to Dark Death World.

The law world type determined the Sacred Sword Wielding Queen's sacred source type. Since mixed-type was mentioned, it meant that the more sacred source types could appear as the Sacred Sword Wielding Queen acquired more law worlds.

It could also mean that other types could replace dark-type.

Lin Yuan checked the time and realized that it was already 6:00 a.m.

There were only 12 hours to go before Lin Yuan and Liu Jie were supposed to go to the Guard Ye Banquet.

Lin Yuan did not plan on being idle during the 12 hours. He planned on using the time to improve himself.

He first told the Sacred Sword Wielding Queen to absorb the Myth III Vicious Poison Law Crystal.

Since the Dark Death Law had transformed into the Dark Death World and was embedded as a gem on the Sacred Sword Wielding Queen's skirt, the Night Calamity Crow had disappeared from the world in the skirt.

Chapter 819: Two Brocade Boxes and Early Before the Guard Ye Banquet

Now, the Dream-Eating Bat made from the Dead Dream Law would be at the top of the pecking order.

Unfortunately, an enormous python covered in verdant green scales appeared in the sky before the Dream-Eating Bat could enjoy being at the top.

This enormous python with green scales was the Aquamarine Scales Sky-Swallowing Python from which the Vicious Poison Law Crystal had come.

As the Sacred Sword Wielding Queen absorbed the Vicious Poison Law, the Aquamarine Scales Sky-Swallowing Python's body started to become more solid.

Once the Sacred Sword Wielding Queen finished absorbing the Vicious Poison Law, the Aquamarine Scales Sky-Swallowing Python let out a roar before charging toward the flying Dream-Eating Bat.

It clashed with the Dream-Eating Bat a few times, but since the Dream-Eating Bat and Aquamarine Scales Sky-Swallowing Python were both about Myth III, they could not gain the upper hand against each other.

The fight did not seem to be coming to an end, so the Aquamarine Scales Sky-Swallowing Python flew to the ground to rule over the land and sea while the Dream-Eating Bat ruled over the sky.

This caused the feys on land and sea made from willpowers and laws to tremble in fear,

Lin Yuan was extremely curious about what changes would take place to the Sacred Sword Wielding Queen once it finished absorbing the Vicious Poison Law.

Anytime that a law in the Sacred Sword Wielding Queen's skirt had dominating power, the world in the skirt would undergo tremendous changes.

After the Sacred Sword Wielding Queen absorbed the Vicious Poison Law, Lin Yuan's resistance against poison was raised significantly.

With the Myth III Vicious Poison Law applied on Lin Yuan's body, he could drink the venom of a Normal/Platinum poison-type fey, and his body would not be damaged in any way.

However, he might not be as safe if it was the venom of a Platinum/Fantasy poison-type fey. After all, some of the venom of Platinum/Fantasy poison-type feys contained spiritual poison or soul poison.

The Vicious Poison Law would not be able to protect Lin Yuan from spiritual poison or soul poison.

Still, the resistance to poison that the Vicious Poison Law provided Lin Yuan would allow him to not have to be so cautious when he fought against high-grade poison-type feys.

Even if an attack landed on him, Lin Yuan's life would not be in any immediate danger.

Lin Yuan ordered the Sacred Sword Wielding Queen to inject the rest of the source-type energy in its body into the Cold Flames Law, which could provide Lin Yuan with resistance against both fire and ice.

Although the Cold Flames Law was of lower quality than the other two complete laws, it took precedence over the Dead Dream Law and Vicious Poison Law.

There was still about 800 Law Source Crystals' worth of source-type energy left in the Sacred Source Wielding Queen's skirt after the Dark Death Law evolved to the Dark Death World.

It was much easier to evolve a law than it was to transform it into a world.

Only about 400 Law Source Crystals were required to evolve the Myth II Cold Flames Law to Myth III.

The Sacred Source Wielding Queen injected source-type energy into the Cold Flames Law and quickly evolved it to Myth III.

The remaining source-type energy enabled the Cold Flames Law to evolve to pinnacle Myth III.

While the Cold Flames Law was evolving, the Cold Snow Pine in the Sacred Sword Wielding Queen's skirt started to grow rapidly.

The flourishing pine branches extended outward like the spine of a dragon and quickly grew to take up a third of the Dream-Eating Bat's territory.

The Cold Flames' aura spread throughout the world on the skirt like a song of fire and ice and deterred even the Aquamarine Scales Sky-Swallowing Python that was about to rest on the branches of the Cold Snow Pine.

The world in the skirt changed from equal jurisdiction between the Dream-Eating Bat and Aquamarine Scales Sky-Swallowing Python to three combating forces between the Dream-Eating Bat, Aquamarine Scales Sky-Swallowing Python, and Cold Snow Pine.

The feys formed from the shattered laws and willpowers joined the three camps and immediately breathed more life into the world in the skirt.

Lin Yuan was about to test his resistance to fire and ice by asking Chu Ci to use the Burning Sunflower to burn him. Thus, he checked the time and realized that 12 hours had passed unknowingly. There were only 12 minutes left till he and Liu Jie were supposed to head off.

He hurriedly left the Spirit Lock spatial zone and changed into elegant but not overly attention-grabbing blue and white spirit qi clothes before leaving his room.

Lin Yuan walked downstairs and saw Wen Yu, the Mother of Bloodbath, and Chu Ci sitting on the water rhinoceros leather sofa.

There were two brocade boxes on the table in front of the water rhinoceros leather sofa.

One of the boxes was moon-colored with apricot patterns and moon images, while the other was ink-colored with the patterns of hundreds of ferocious beasts.

The beasts seemed to be lurking in the darkness and were ready to pounce at any moment.

Lin Yuan was confused when he did not see Liu Jie downstairs. He was already late by only coming downstairs 12 minutes in advance,

Could the always-punctual Liu Jie have forgotten the time?

Liu Jie was going to be the main character in the Guard Ye Banquet.

While Lin Yuan was thinking, he heard the faint sound of the door closing and soon saw Liu Jie appear on the stairs behind him.

When Liu Jie saw Lin Yuan, he scratched the back of his head awkwardly and said, "I was testing the Insect Queen's new combat style in the training room. I had only intended on training for a while, but the time got away from me, and I ended up being late."

Lin Yuan realized that he and Liu Jie had encountered the same situation.

Although the time was tight, they could still make it to Midnight Palace if they rushed.

Wen Yu saw Lin Yuan and Liu Jie come down together and hastily said, "Young Master, Big Brother Liu, Master and the Spirit Guards' left- and right-hand men sent over two sets of clothes. They said that the Moon Empress and Chief Guard Ye had sent them over specially so that the both of you can put them on before the Guard Ye Banquet started."

Wen Yu placed the moon-colored brocade box into Lin Yuan's hands and the ink-colored brocade box into Liu Jie's hands.

Chu Ci bounded up to them with curiosity and asked, "Lin Yuan, Big Brother Liu, what kind of clothes are in the boxes?"

Chapter 820: Hehe, Angry

When Lin Yuan heard the way Chu Ci called Liu Jie, he could not help but think, *She calls Liu Jie Big Brother Liu but calls her actual brother by his given name.*

However, he was already used to this. After so many years together, Lin Yuan and Chu Ci had already found the most comfortable way to interact with each other.

Lin Yuan and Liu Jie opened their brocade boxes and were almost blinded by the shining clothes inside.

Using True Data, Lin Yuan found out that more than 900 types of spiritual materials were on the clothes inside the box.

The Return from Faraway Mansion's Submerged Flood Dragon Lake, basement, and main building were all decorated opulently. But even if the entire Return from Faraway Mansion was sold, it would not even be worth one of the sleeves of the clothes inside the box.

The Mother of Bloodbath peered inside the boxes and exclaimed, "The Moonbeam Coronation and Night Clear Water Coronation Costume. Shouldn't the Moon Empress and Chief Guard Ye be the ones to wear the Moonbeam Coronation Costume and Night Clear Water during an event like the Guard Ye Banquet?"

The Mother of Bloodbath had always known that Lin Yuan was the Moon Empress's disciple, but it was only when the Spirit Guards' right- and left-hand men arrived that the Mother of Bloodbath realized that Liu Jie was the Spirit Guard Chief's disciple.

While the Mother of Bloodbath was surprised about Liu Jie's new identity, it always felt that both Liu Jie and Lin Yuan kept an extremely low profile.

The Mother of Bloodbath carefully studied the clothes that it had identified as the Moonbeam Coronation Costume and Night Clear Water Coronation Costume. A moment later, it became certain that its identification had been wrong.

They were just clothes made specifically for Lin Yuan and Liu Jie that were made out of the same materials as the Moonbeam Coronation Costume and Night Clear Water Coronation Costume.

These two sets of clothes did not have the patterns that signified the authority of the Moon Empress and Chief Guard Ye.

Other than this, the clothes were identical to the Moonbeam Coronation Costume and Night Clear Water Costume. It was no wonder that the Mother of Bloodbath had initially identified them to be so.

Even Wen Yu, who used to be a spirit attendant in the Radiant Moon Palace, wrongly assumed Lin Yuan's brocade box clothes to be the Moonbeam Coronation Costume.

When they heard what the Mother of Bloodbath said, Lin Yuan and Liu Jie looked at each other.

The clothes in the brocade box were so decked out and intricate that it would not be convenient to wear them to compete in the stages.

Luckily, the Guard Ye Banquet only took place after the Arts Stage, Martial Stage, and Martial Arts Stage.

He could change into the clothes that his Master had sent him after the competition was over.

Lin Yuan and Liu Jie stored the clothes away in Diamond brocade boxes and bade farewell to Wen Yu, Chu Ci, and the Mother of Bloodbath before they left the Return from Faraway Mansion and headed to the Midnight Palace.

Lin Yuan was going to declare his identity at the Guard Ye Banquet, but he was in no rush to add on the title of the Moon Empress' disciple.

The Guard Ye Banquet would be Lin Yuan's chance to interact with the younger generation of top factions. Even the Zheng family and Miao family, who were his enemies, would be in attendance.

There was no chance of him showing mercy as he crushed his enemies.

...

Beautiful paintings hung on the walls in a lovely house, the gems embedded in precious weapons placed around the house sparkled, and the bamboo garden outside jutted elegantly from the ground.

Inside Langya Pavilion, a woman's head was lowered as she touched a stem of purple bamboo.

With her gaze lowered, her rose-like face had a guilty expression, and it was clear that the Defined Life earring that hung from her ear had lost its brilliance.

At that moment, the sound of footsteps could be heard outside her door.

When the woman turned to look toward the door, she saw a short-haired middle-aged woman with a face that said she had experienced her fair share of life walk in and say, "Master, from my investigation, I discovered that the pinnacle Class 4 Creation Master from Connected Beast Park who will be attending the Guard Ye Banquet is Miao Qi."

The woman with the guilty expression frowned, and a predatory aura rose from her body.

"There are so many members of Connected Beast Park's older generation that can participate in the Guard Ye Banquet. Yet, they choose Miao Qi out of all of them. They're clearly targeting me!"

The short-haired middle-aged woman lowered her head, her eyelid twitching, as she thought, *I knew uttering Miao Qi's name would spell trouble. Master gets angry every time she hears Miao Qi's name. But it's no wonder she reacts like that. Lord Bamboo Monarch adored Master for so long, and she rejected him every time because she thought that her life was cursed.*

Miao Qi took advantage of the situation to put on a nice act in front of Lord Bamboo Monarch while publicly provoking Master. She even said that Master and Lord Bamboo Monarch could never end up together. This caused Master to forget her place and agree to be together with Bamboo Monarch, which led to him being wrapped up in bad luck.

Master is still troubled over this, but Miao Qi chose such a time to appear at the Guard Ye Banquet. Miao Qi is a pinnacle Class 4 Creation Master. Could she be planning to do something at the Guard Ye Banquet? If so, Master might end up doing something in retaliation.

While the short-haired middle-aged woman was deep in thought, Wang Fuxiang said, "Ah Jing, go and pick a few nice clothes out of those that the Bamboo Monarch gave me. You'll be taking my place, representing Langya Pavilion at the meeting."

Ah Jing lifted her head and asked Wang Fuxiang in surprise, "Master, don't tell me you're going to—"

Wang Fuxiang gnashed her teeth and hissed before Ah Jing could finish speaking. "I didn't want to make a spectacle at the Guard Ye Banquet because there are already enough rumors flying around me. But since Miao Qi wants to humiliate me at the Guard Ye Banquet publicly, she has crossed the line. Hehe, since she's bent on humiliating me, I'll launch an attack that they will need two generations to fend off."

Ah Jing was about to urge Wang Fuxiang to calm down, but she remembered that Wang Fuxiang could never calm down about such matters.

"Master, Lord Bamboo Monarch said that he likes your purple clothes best. I will bring over the purple clothes that were a gift from Lord Bamboo Monarch," said Ah Jing hurriedly.

Ah Jing hurried off to retrieve the purple clothes that were a gift from the Bamboo Monarch out of Wang Fuxiang's almost 1,000 sets of clothes.

Luckily, her Master only had close to 1,000 sets of clothes.

If there were any more, Ah Jing probably would not be able to find the purple clothes before the Guard Ye Banquet started.

At the same time, Ah Jing felt bad for Wang Fuxiang.

Her Master was a romantic but fate had cursed her to only be able to experience facades of love.

If not for Lord Bamboo Monarch's strong powers and that he was a Class 5 Creation Master that could concoct spirit fluids to counter the bad luck, Wang Fuxiang could have killed him with one kiss.
