

Merchant 931

### **Chapter 931: The Delicate Barren River Orchid Bud**

Lin Yuan did not know whether to say everything was falling into its place or that it was a coincidence.

Endless Summer's Barren River Orchid Bud and Morbius' Klein Hub had appeared at the same time, and he had chosen to connect Klein Hub to the marsh world.

According to the information on True Data, the Barren River Orchid Bud would drain nutrients from the soil that it was planted in. This would kill all the feys that depended on the soil for survival.

If Endless Summer planted the Barren River Orchid Bud in the Endless Forest, the Barren River Orchid Bud would be able to grow well.

But as the Barren River Orchid Bud continued to absorb the nutrients in the soil and grew more branches, the entire Endless Summer would eventually be reduced to a barren wasteland.

This would result in the death of all the feys that lived in the Endless Forest.

The avian-type feys that could move independently might be able to migrate before all the nutrients were extracted from the soil, but the plant-type feys could only sit tight until they died.

There was no way that the Spirit Guards would ignore such a calamitous problem.

From a certain angle, the Barren River Orchid Bud's growth process was similar to that of the Sea Burial Lotus Flower.

The difference lay in that the Sea Burial Lotus Flower absorbed the spirit qi in the sea bed while the Barren River Orchid Bud absorbed the nutrient from the soil.

Hence, the damage caused to the environment by growing the Barren River Orchid Bud in the main world was too severe.

This had to be the main reason for Endless Summer's low spirits.

Endless Summer had slowly grown step by step from a normal hydrangea to what it was today. Hence, it was well aware of how difficult it was to be a low-grade plant-type fey.

It would never kill other weak plant-type feys for the sake of nurturing its sacred source lifeform.

But now that they had access to the marsh world, there would be no issue with finding a place to grow the Barren River Orchid Bud.

"I have a place for you to grow the Barren River Orchid Bud. It can grow out branches quickly there. Besides nutritious soil, is there anything else that the Barren River Orchid Bud needs to be nurtured?"

Endless Summer lit up with happiness. It did not expect the dilemma that had been bothering it would be so easily solved by Lin Yuan.

Although Endless Summer did not know where Lin Yuan was referring to, it knew that he would never say anything without confidence.

“When the Barren River Orchid Bud is absorbing nutrients from the soil, it’ll also absorb all the water in the soil and cause it to crack. Hence, it needs to be watered as soon as possible. The Barren River Orchid Bud is also very delicate. If the roots are dug out from the ground or its leaves and stem are bent, it will start to wither rapidly. Thus, it needs to be nurtured with the utmost care.” Endless Summer spoke with an awkward expression.

It could be said that the Barren River Orchid Bud was destined to lead a privileged life that required constant care.

Once the Barren River Orchid Bud grew to a certain extent, it would require an unimaginable amount of water.

Although Endless Summer was a Creation Breed fey, if the Barren River Orchid Bud was not properly cared for and it was dug up even by a Normal fey, the Barren River Orchid Bud would be seriously affected.

The Barren River Orchid Bud also contained a large amount of vitality that was attractive to all lifeforms, and they would be tempted to take a bite out of it.

Lin Yuan was happy instead of being knocked down by Endless Summer’s words. He did not expect the Barren River Orchid Bud to require a large amount of water during its growth.

He had noticed that the land in the marsh dimensional rift was not as firm as the land in the main world.

The land in the marsh world was comprised of a large amount of mud and packed together over time.

Thus, any step on it, even by someone like Lin Yuan, who was only about 65 kilograms, would result in him sinking to his calves.

Lin Yuan had been trying to come up with a way to make the ground in the marsh world dryer so it would be easier to explore.

It did not need to be as dry as the ground in the main world, just dry enough so that one would not sink with every step.

It seemed that planting the Barren River Orchid Bud in the marsh world would save a lot of trouble for Lin Yuan.

Although the Barren River Orchid Bud would not have many roots at the start and would not be able to make any considerable impact on the soil in the marsh world, its effects would become apparent once it grew its branches.

The Barren River Orchid Bud would need a constant supply of water, and the other areas in the marsh world with a surplus of water would eventually even out the water content in the soil while providing the Barren River Orchid Bud with all its water needs.

Despite looking like a small blade of grass now, it fully lived up to the 'barren' in its name.

The constant guarding that the Barren River Orchid Bud required was also no issue for Lin Yuan because the Kill Food Sky Butterfly could enter the marsh world anytime through Klein Hub.

Lin Yuan could leave the Kill Food Sky Butterfly in the marsh world to protect the Barren River Orchid Bud and help Lin Yuan create a space on which he could establish his base.

"Your two problems can be solved easily. I'll take you to a place tomorrow."

While Lin Yuan and Endless Summer were talking, the Mother of Bloodbath walked down the stairs.

Ever since it had returned to the mansion, the Mother of Bloodbath had constantly been training to increase its power.

When Lin Yuan saw the Mother of Bloodbath, he tossed the sacred source lifeform it had won from the Martial Arts Stage to it and said, "Mother of Bloodbath, this is my prize for winning the Martial Arts Stage. You can contract it once you evolve to Creation Breed.. Another batch of the Blood Brew Grapes has ripened, and many old vines have also fallen off."

### **Chapter 932: Twice a Year Visit to Pinru's Home**

Lin Yuan paused slightly before adding, "The rate at which the Blood Brew Grapevine produces Blood Brew Grapes should be able to meet your blood energy needs. I'll prepare the Law Crystals that you need soon for your evolution to Myth III."

The Mother of Bloodbath received the sacred source lifeform and flew through a hundred emotions in a moment. It still remembered Lin Yuan asking about sacred source lifeforms while they were on the way to Indigo Azure City.

Back then, the Mother of Bloodbath had sighed and said, "Even Creation Breed feys struggle to obtain sacred source lifeforms."

Creation Breed also had different ranks from I to VIII, and it depended on the number of Creation World Ley Lines in the law world.

The Mother of Bloodbath had never heard of a wild fey obtaining a sacred source lifeform before it reached Creation III.

Yet now, Lin Yuan was giving it a sacred source lifeform when it was only Myth II.

It was extremely aware of how precious sacred source lifeforms were and how much it wanted one.

Even though Lin Yuan had already contracted a sacred source lifeform, he would still be able to use the other sacred source lifeforms he had to gain a mountain of resources. Yet, Lin Yuan had given the embodiment of those resources to the Mother of Bloodbath to prepare for its future.

Lin Yuan was paving the way to Creation Breed for the Mother of Bloodbath.

At that moment, the Mother of Bloodbath felt that Lin Yuan not only could soothe it but also provide it with an incomparable sense of security.

This was the first time that the Mother of Bloodbath had experienced such feelings.

Just as the Mother of Bloodbath was about to say something to Lin Yuan, Hu Quan and Master Hong Shen led Zhang Xiaobai, Tan Ran, Lu Pinru, and Xin Ying in. They looked like a pair of older mine workers leading four younger mine workers.

When Hu Quan saw Lin Yuan, he hurriedly said, "Young Master, we accidentally found a spring when we were digging underground for the basement. At first, I thought that this would be a problem. However, I did not expect the spring to be connected to the Submerged Flood Dragon Lake.

"This means that the feys in the basement would not need to go to the Submerged Flood Dragon Lake to collect water. When we're not using the water from the spring, we can also use pipes to direct it to the Submerged Flood Dragon Lake and increase the water flow in the lake. This would be beneficial to the Angelfish of Bliss and Sunlight King Lotus living in the lake.

"The cleanliness of the water combined with the amazonite and larimar at the bottom of the lake will slough off the rainbow-colored fish coats of the Angelfish of Bliss. This will cover the surface of the Submerged Flood Lake with rainbow light."

Lin Yuan was delighted to hear this. He had not been paying much attention to the basement of late and had relied on Hu Quan and Master Hong Shen to lead the Spirit Craftsmen of the Heavenly Craft Pavilion to work tirelessly.

"Uncle Hu and Master Hong Shen, you've worked hard."

Master Hong Shen looked over at Hu Quan and felt that the latter was able to learn and apply his knowledge pragmatically.

When they had first discovered the spring, Hu Quan was afraid that the spring would affect the basement structure. Master Hong Shen had studied the rock from which the spring flowed out and discovered that the spring was connected to the Submerged Flood Dragon Lake. It was then that he came up with a solution.

Hu Quan sounded like he had been comforting himself when he was talking to Lin Yuan.

Nonetheless, Master Hong Shen's eyes had been opened about Hu Quan's Spirit Craftsman skills during the time they had been working together. It was undeniably strong!

Although the construction of the basement was currently limited to general digging of the area, the carvings that Hu Quan had made on the stone walls already made the basement seem like an opulent underground palace.

Zhang Xiaobai, Xin Ying, Tan Ran, and Lu Pinru had recently been bored out of their minds. Hence, they decorated the Dome Guild Club and went to help out Master Hong Shen and Hu Quan with the basement.

Tan Ran, who looked like a shotacon, had his eyes opened to a new world and became profoundly interested in Spirit Craftmanship.

Whenever he was free, he would approach some of the Class 3 Spirit Craftsmen to learn from them.

Lin Yuan felt that this was a good thing.

As long as a person was willing to learn, it was never too late to pick up a new skill.

Lin Yuan took out the Titan Giant Boas that he had obtained from Gao Feng and gave them to Zhang Xiaobai, Tan Ran, Xin Ying, and Lu Pinru.

“Here are the Titan Giant Boas that we talked about. Stop going to the basement for now and let Master Hong Shen nurture the Titan Giant Boas. The Willpower Runes you comprehended should be compatible with the Titan Giant Boa’s Normal abilities, and they can strengthen each other. During the next S Tournament in the match with the Savage Snake Guild Club, you can use them to demonstrate what true savage snakes look like.”

Zhang Xiaobai’s group’s eyes lit up, and they clenched their fists tightly.

One had to take revenge into their own hands in order for it to be cathartic. Otherwise, the humiliation suffered would forever fester as a grudge.

Lin Yuan said to Lu Pinru, “Lu Pinru, you’ve only been contracting the Glowing Silkworm Weavers with the same abilities and exclusive skills. Now that your spiritual power has transformed and become stronger, I’ll try to find more of the Glowing Silkworm Weavers for you to contract.”

The Glowing Silkworm Weavers had been Lu Pinru’s specialty, and she was the model of how feys should be used to mass-produce materials.

If Lu Pinru could use this method of contracting feys to grow, her talent would definitely lead her to become a powerful expert in the future like Shi Xu.

Thus, Lin Yuan felt that it was necessary to invest in Lu Pinru.

When Lin Yuan had not had any connections, he would need to continuously evolve the Glowing Silkworm Weavers himself for Lu Pinru because it was too difficult to buy Glowing Silkworm Weavers with the exact same abilities and exclusive skills as the ones that Lu Pinru had.

Even White Devil Lordess would only be able to find one when she combined her connections and luck.

But now, Lin Yuan would not need to put in any of his own effort to find the Glowing Silkworm Weavers for Lu Pinru.

The silver-haired old woman from Cage of Brahma Insects had his number.

### **Chapter 933: Lin Yuan, The Spirit Bodhi Fruit is So Bitter!**

As a thearch-class expert, the silver-haired old woman should hold considerable power in Cage of Brahma Insects.

Since she had begged for his contact details, she definitely intended on contacting him. When she did, he would be able to mention the Glowing Silkworm Weavers.

Cage of Brahma Insects supplied at least half of the insect-species feys in the Radiance Federation.

Lin Yuan would be able to find suitable Glowing Silkworm Weavers for Lu Pinru right from the source.

Lu Pinru nodded. If she was able to use her leftover spiritual energy to contract more Glowing Silkworm Weavers, she would be able to provide the team with more support and improve her performance at the S Tournament.

She felt that she would only be able to be of help to Lin Yuan when she became stronger and performed even better. This was the best way to repay Lin Yuan.

Suddenly, she thought of the plan that she had come up with Wen Yu and said, "Lin Yuan, on top of being a member of the Dome Guild Club's reserve team, I also want to establish my own fashion brand, Pinru's Home. I plan on exclusively making clothes for male spirit qi professionals."

At that moment, Wen Yu walked out of the kitchen holding a pot of coconut chicken soup. When she heard what Lu Pinru said, Wen Yu hurriedly placed the soup down on the table and said, "Lin Yuan, Pinu is a Class 3 Weaver just like me."

Lin Yuan looked at Lu Pinru in shock. There were much fewer Weavers than Spirit Craftsmen in the Radiance Federation. Making spirit qi clothes was one of the jobs of Weavers, and they earned much more than Class 3 Spirit Craftsmen.

The houses and carvings created by Spirit Craftsmen were not as appealing to spirit qi professionals as spirit qi clothes.

Lin Yuan had personally experienced the benefits of having a Class 3 Weaver by his side.

People like Wen Yu and Lu Pinru, who became Class 3 Weavers at such a young age, could be called the geniuses of the lifestyle-class spirit qi professional community.

However, Lin Yuan was curious why they decided only to produce male spirit qi professional clothes. There was a greater demand for female spirit qi professional clothes.

Lin Yuan only needed a few sets of spirit qi clothes.

Meanwhile, Endless Summer would practically clear out stores whenever it went to buy spirit qi clothes.

Lu Pinru pushed up her spectacles and said wisely, "When I carried my wardrobe out with me whenever I was training, I always felt that male spirit qi clothes were too plain and boring. I plan on creating bolder designs so that every male spirit qi professional would be able to visit Pinru's Home twice each year."

Lin Yuan was still confused when he heard Lu Pinru's plan and assured tone.

He was a man but never felt that his spirit qi clothes were dull.

Lin Yuan started to wonder how Wen Yu and Lu Pinru intended on creating bolder male spirit qi clothes.

Were they going to include skirts in their designs? Not even morons would be willing to put those on, much less Lin Yuan.

Although he did not know exactly what Wen Yu and Lu Pinru had in mind, it was a must for him to show his support.

“Listen has been doing well with his sales on Star Web. The items with jade-textured powder mixed in are always low in stock. You can go to Listen, and he’ll put your spirit qi clothes on sale. You can also employ some Weavers to make your designs a reality.”

While Lin Yuan was talking, Listen, Duan He, and Purple Demon walked in.

Duan He said to Lin Yuan, “Young Master, I heard that the Miao family caused trouble at the Guard Ye Banquet. I don’t think the Miao or the Zheng family will be coming after Sky City for some time.”

Duan He knew that someone of Lin Yuan’s status was sure to have attended the Guard Ye Banquet. Hence, he was curious to know what the Miao family had been up to at the Guard Ye Banquet to get both members kicked out.

Lin Yuan nodded before shaking his head.

The Miao family definitely would not have the time to target Sky City for some time. Both the incidents at the Guard Ye Banquet and the Golden Lotus Brocade Pearls that had been given to Coiling Dragon’s Valley were like heavy blows to the Miao family.

The two blows were enough to shake the Miao family to their core, and they were sure to rack their brains to find a solution. Eventually, they would see Lin Yuan as that solution.

But from the way that Zheng Kaiyuan daringly sat down on the seat meant for the representative of the Miao family, he must have a decently high opinion of himself now.

The higher the opinion he had of himself, the braver he would become and the more likely he was to strike back against his old foe Sky City.

Luckily, Lin Yuan had gained another secret weapon in the Kill Food Sky Butterfly that had evolved to Creation Breed.

The time was long past to remove the thorn that was the Zheng family.

This was also the first threat that Sky City, which had always been shrouded in mystery, would encounter.

Liu Jie set down the utensils on the table and said, “Time to eat. Please tell me what you think.”

At that moment, Liu Jie thought of Zong Ze, whose cooking skills had been praised by Gu Lang.

He had put all his culinary skills into this meal.

Lin Yuan would eat his cooking now and be able to compare it to Zong Ze’s cooking in the future.

Liu Jie scoffed and said, “I’ll never lose when it comes to cooking!”

Everyone seated around the dining table dug into the feast.

Lin Yuan had always felt that Liu Jie's food was exceptionally delicious. He did not know if it was due to his hunger, but he felt that this meal was even more delectable than usual.

He looked around at the people sitting at the table and counted them off, "One, two, three... 13."

Including him, there were 14 people.

He had become friends with Zhang Xiaobai's group long ago, and they had defied death together at Millstone Town. However, he had never lived with them.

Now that Zhang Xiaobai's group had joined his Return from Faraway Mansion family, their family seemed to have grown significantly.

His heart warmed as he gazed at his companions.

After dinner, they played cards, and the result was just as Lin Yuan expected.

In two hours, everyone else besides Wen Yu had paper strips on their faces.

The number of paper strips on one's face was evidence of their talent in strategy.

This was the first time that Zhang Xiaobai's group was playing cards with Lin Yuan.

Lin Yuan blinked in surprise at the two strips on Tan Ran's face because he did not expect her to have a strategic mind.

At that moment, Chimey's shy and stressed voice sounded out in Lin Yuan's mind, "Yuan, the Spirit Bodhi Fruit is so bitter! My tongue is almost numb!"

### **Chapter 934: Liu Jie's New Opportunity**

When Lin Yuan heard Chimey's voice, he slapped his head as he remembered Genius saying that Chimey was going to live-stream on Star Web that night.

Liu Jie's phone rang.

When he picked up, stern surprise came over him. He listened to the voice on the phone talk for a few more moments before saying, "Got it, Master! I'll go over now!"

After he hung up the call, Liu Jie stood up and said apologetically to the group, "Something came up that I need to attend to now. What do you want to eat tomorrow? I'll buy groceries on the way home."

Liu Jie calling the person on the other end of the call 'Master' slightly stunned most of the people present.

Besides Lin Yuan, the Mother of Bloodbath, Endless Summer, and Wen Yu, the rest had never heard Liu Jie mention his Master.

They could not help but be curious about Liu Jie's Master.

Liu Jie always asked the rest what they wanted to eat before he left the mansion so that he would be able to get the necessary ingredients on the way home.

The glutton Mother of Bloodbath immediately said, "Are you only coming back tomorrow?"

Liu Jie seemed to remember something dangerous as sternness was written all over his face. But a moment later, he plastered on a neutral expression and said after a moment of silence, "I don't think I'll be able to make it back by tomorrow morning. However, I'll do whatever it takes to rush back by the afternoon."

The Mother of Bloodbath stared at Liu Jie suspiciously for a second before saying, "How about we have grilled seafood for dinner tomorrow?"

It felt that Liu Jie seemed to be preoccupied with something or that he was at some sort of crossroads.

However, the Mother of Bloodbath knew about Liu Jie's identity and who his Master was. Since the matter concerned the Chief Guard, the Mother of Bloodbath did not pursue the matter past leaving a look of worry lingering on its face.

Liu Jie's expression had returned to normal. He smiled, nodded, and said, "Okay. It's not as cold anymore. I'll prepare the ingredients, and we can have grilled seafood tomorrow night."

Since Liu Jie was busy and it was late, the card match came to an end.

Lin Yuan followed Liu Jie to the door and asked, "Big Brother Liu, are you going to do something dangerous with your Master?"

Lin Yuan had noticed the solemn look cross Liu Jie's face.

Liu Jie was always a composed person, so the matter had to be serious for such a grim expression to surface on his face.

Liu Jie replied honestly, "Master traded for insect-species carcinoma feys from Rhine Guild Club on her way to inspect the Class 6 abyss dimensional rift. I'm going to order the Insect Queen to control the insect-species carcinoma fey tonight. This insect-species carcinoma fey can make any other insect-species carcinoma fey stronger and link itself to them. If the Insect Queen can control this insect-species carcinoma fey, my power will double."

Lin Yuan immediately realized how important this insect-species carcinoma fey was to Liu Jie.

"However, this insect-species carcinoma fey can do extreme damage to souls. When the Insect Queen is using psychotoxin to control the insect-species carcinoma fey, it will be affected by the insect-species carcinoma fey's damage. In order to prevent the Insect Queen's soul from being injured which will impact its control over the insect-species carcinoma fey, I need to let the insect-species carcinoma fey attack my soul," said Liu Jie.

Lin Yuan could not help but reply, "Matters regarding the soul are very important. No matter what grade the carcinoma fey is at, it'll definitely be able to do significant damage. If you can't handle it, just give up."

Liu Jie said with a bitter expression, "Rhine Clinic only has one of this insect-species carcinoma fey. It has never even been collected in the Spirit Guards' land. If the Insect Queen abruptly stops exerting its

control, the insect-species carcinoma fey will die, and I'll lose this rare opportunity. Hence, I'll really be put through the wringer tonight."

A thought seemed to strike Lin Yuan, and he took a small container and white porcelain bowl out of the amber-button-shaped Diamond fey storage box.

He opened the container and poured the sweet-smelling fluid into the bowl before saying to Liu Jie, "This is Silver Stamen Gold Luster Cassia nectar. It can cleanse the impurities in a soul as well as protect it. You'll definitely have a hard time, and it'll probably hurt more than the insect-species carcinoma fey's attack. However, it'll grant you twice the benefits."

Lin Yuan could not help but think back to his agony when he drank the Silver Stamen Gold Luster Cassia nectar.

He would never be willing to go through this anguish a second time.

But now, Liu Jie was going to bet his soul in order to achieve a transformation. At such a moment, the Silver Stamen Gold Luster Cassia nectar would be his best helper.

Liu Jie took the white porcelain bowl from Lin Yuan and nodded grimly before walking out of the Return from Faraway Mansion.

When Liu Jie had seen Lin Yuan fight during the Martial Arts Stage's Martial component, he was surprised by Lin Yuan's rapid improvement and how strong he was.

Liu Jie was happy for Lin Yuan, but it also made him squash his blooming self-satisfaction because he knew that he was still far from standing on equal ground as Lin Yuan.

But if he could successfully use the Insect Queen to control that insect-species carcinoma fey tonight, he was confident that he would be able to fight toe to toe with Zong Ze and his sacred source lifeform even without using his own sacred source lifeform.

After Liu Jie left, Lin Yuan walked back into the mansion.

He prepared to summon Chimey from the Spirit Lock spatial zone.

Since Chimey was going to change into human form to live stream, it could not sit on the Phoenix Perching Chinese Parasol Tree's branches because Lin Yuan did not want the Phoenix Perching Chinese Parasol Tree to be revealed on Star Web.

No matter what his status was or how powerful he became, Lin Yuan would never forget his principle of not flaunting his wealth.

### **Chapter 935: Chimey, You're So Pretty!**

Moreover, Lin Yuan had stolen the Phoenix Perching Chinese Parasol Tree from Tower Canon.

He summoned Chimey and Genius out of the Spirit Lock spatial zone with a wave of his hand, and a figure carrying a white cat charged toward him.

"Yuan, Chimey finally changed into human form! Do you think I'm pretty?"

Lin Yuan almost jumped out of his skin when he saw the girl and was about to push her away when he realized that it was actually Chimey.

Chimey was hugging him tightly, and he noticed that there were a few wisps of blue mixed in with Chimey's ebony hair.

Its hair reminded him of the evening sky with its streaks of blue and the stars that were already twinkling high above.

The hair was light, soft, and each strand was right in place.

Genius said with a strained voice, "Chimey, it's enough that you're holding me, but are you trying to squeeze me to death?"

Chimey realized that it had been holding Genius ever since it changed into human form, and Genius was now wedged between it and Lin Yuan.

Chimey quickly stuck its tongue out at Lin Yuan and stroked Genius as it said, "Holding you just feels too nice. It's so comfortable that it makes me forget that I'm even doing it. Don't worry, I won't do this next time."

Genius reminded Chimey in a child-like voice, "Chimey, it'll be a long time before you can hold me again. There was only one of the Spirit Bodhi Fruit."

It was only then that Lin Yuan got a good look at Chimey's features.

He froze for a moment and didn't even dare to blink.

Lin Yuan never considered himself someone who focused on appearances, but he could not pull his gaze away from Chimey.

This was not the first time that he saw a fey change into human form.

Every female fey in the Return from Faraway Mansion that had changed into human form had its own appeal. The Mother of Bloodbath's coldness, Endless Summer's elite charm, and Purple Demon's magnetism made them bona fide beauties.

But compared to Chimey, Lin Yuan felt that the other three were lacking something.

After Lin Yuan carefully scanned Chimey, he realized he felt that way because its features were just too exquisite.

A normal person would need about a hundred strokes for their face to be fully drawn, but Chimey would need several hundred.

Chimey's large eyes were full of life as though they were beautifully clear lakes, and its eyebrows were like tiny fans that added a layer of alluring mystery to Chimey's eyes.

Lin Yuan could imagine how beguiling Chimey's eyes would be when it was singing.

Chimey's feathers had turned into its light blue spirit qi clothes with clouds and sun patterns. There was also a faint golden sash around its waist which gave it an unspeakable air of mysticality.

The yellow that underlay the patterns were like the radiant flames of sunlight that Chimey used Radiant Body to absorb.

The word 'perfection' came to Lin Yuan's mind as he gazed at Chimey's features and figure.

Lin Yuan was already worried about Chimey's fans because he was afraid that they would come to only like Chimey for its looks.

Lin Yuan was not alone. The rest of the people in the mansion were also stunned by Chimey.

The bookworm Hu Quan could not help but exclaim, "Female lead! A true female lead!"

Chimey had revealed its identity while it was talking to Lin Yuan.

Besides Lin Yuan, Chu Ci was most familiar with Chimey. She carefully peered at Chimey before saying with amazement, "Chimey, you're so pretty!"

Chimey's large eyes curved, and it batted its eyes with joy. Its joy was infectious, and it seemed that its expression had the power to affect those around it.

Lin Yuan suddenly remembered. *As one of the most beautiful feys, Purple Afterglow has raised the bar of butterfly-species feys' bloodline. I can't imagine what it will look like when it changes into human form.*

Chu Ci asked Lin Yuan curiously, "Lin Yuan, how is Chimey able to change into human form? Has it evolved to Myth II?"

"Chimey ate the Spirit Bodhi Fruit, which allows feys to change into human form temporarily. Once the effects of the Spirit Bodhi Fruit wears off, Chimey will change back."

Lin Yuan turned to say to Chimey, who was basking in its beauty, "Chimey, choose somewhere in the mansion and log into Star Web. If you keep admiring yourself, the Spirit Bodhi Fruit's effects will soon wear off."

Chimey anxiously replied, "Yuan, let's do it in your room! I feel the most at ease there! But Yuan, do you think I need to change clothes?"

Endless Summer rushed up and said with bright eyes, "Chimey, let me style you! I'll be quick! You'll definitely be satisfied if you give me just 20 minutes."

Lin Yuan could not help but break out in cold sweat and piped in, "Chimey, you look great now."

He was afraid that Endless Summer would doll up Chimey outlandishly and dress it in a light yellow long skirt, broom-like hair, and exaggerated makeup.

If that happened, not even Chimey's outstanding looks would save its reputation from taking a dive on Star Web.

Chimey said, "Sister Summer, if Yuan thinks I look great now, I don't need to be styled.."

**Chapter 936: Black is the Target of Insults**

Endless Summer was slightly disappointed because it knew that Chimey could become even more beautiful. It felt that Chimey's exquisite features would look good even if it shaved its head.

Chimey carried Genius into Lin Yuan's bedroom and prepared to log into Star Web.

But right before it logged in, Chimey felt its heart racing at an unprecedented speed. It had always hidden behind a GIF, and this was the first time that it would be live streaming raw.

Moreover, it had changed into a human. There was no way that it would be precluded from nervousness.

Eventually, Chimey gathered its courage and logged in.

Lin Yuan did not follow Chimey into his room so as not to disturb it. Instead, he went to the guest room next door and logged into his own Star Web account.

...

In the Radiance Federation's Star Web building, a girl was slumped over a table with a cup in her hand. She was gripping her cup so tightly that the water sloshed around inside.

The girl had a look of mixed fury and anxiousness.

At that moment, a middle-aged woman with short hair walked over and said to the girl, "Ningning, the editor-in-chief wants to speak to you."

The middle-aged woman let out a heavy sigh when she saw Tian Ningning's expression.

"After all this time, haven't you managed to get in contact with Black?" said the middle-aged woman with a voice full of sympathy.

When the middle-aged woman had found out that Tian Ningning had become Black's exclusive reporter, she felt Tian Ningning was tripping herself up.

Before Tian Ningning had gone after Black, one of the Radiance Hundred Sequence had just switched out their exclusive reporter and specifically invited Tian Ningning to be their new exclusive reporter. However, Tian Ningning had turned them down.

The middle-aged woman could not understand the reasoning behind Tian Ningning's decisions.

But she never expected that Black who had saved Millstone Town would turn out to be a well of potential.

Ever since Tian Ningning became Black's exclusive reporter, everything linked to Black on Star Web caused a huge ruckus. This resulted in Tian Ningning slowly rising in fame amongst the Star Web reporters.

When the exclusive reporters of Long Tao, Fang Duoduo, Shi Xu, and Zhao Xiaochun attended a news conference, Tian Ningning had been boosted to the peak of popularity and was given equal authority as the exclusive reporters of the Radiance Hundred Sequence.

Given Black's performance at the Celestial Stairway, it was almost guaranteed that he would participate in the selection to become one of the Radiance Hundred Sequence.

But now, it seemed that being Black's exclusive reporter was not a bed of roses for Tian Ningning.

After becoming Black's exclusive reporter, she had never gotten an exclusive interview from him. This was already a constant source of annoyance for her, but now, he seemed to have done something to have incurred a wave of insults on Star Web from veteran and top factions that usually did not speak up.

Black had always been compared with Lin Yuan, who had stolen the show at the Allstar Match.

This was not a serious matter as there were even posts comparing normal crabs with Myth Breed Rain Rock Cherry Blossom Crab.

The comparison even led some to feel that normal crabs were more outstanding than they actually were.

There were all sorts of trolls on Star Web as there was freedom of speech there.

However, the debate between Lin Yuan and Black had suddenly taken a turn that morning.

At first, a few young direct descendants of veteran and top factions had announced that Black did not even have as much power as Lin Yuan had in half his finger.

This immediately drummed up a lot of activity on Star Web as the direct descendants of veteran and top factions were all backed by the glory and reputation of their families.

These disciples of veteran and top factions usually stuck to their small circles.

There were some more bad-tempered disciples of the veteran and top factions openly insulted others on Star Web, which provided great entertainment for those not involved regardless of whether the matter was eventually settled. Nonetheless, such incidents rarely occurred, and the last one had taken place five years ago.

During the heated debate, many people had conducted a detailed analysis of Black's performance on Star Web and Lin Yuan's fight against Meng Xu.

Although, no one expected this trending topic to become as prominent as it did to the point that tens of disciples of veteran and top factions started to insult Black in favor of Lin Yuan openly.

All those watching the debate unfold were utterly shocked as they did not know what had changed.

What had Black done to incur the wrath of so many elites?

Were these elites insulting Black because Lin Yuan was truly more powerful? Everyone was confused.

As Black's exclusive reporter, Tian Ningning had to immediately inform him of such occurrences to get his side of the story so as to find a way to solve the issue.

But after working hard for a day, Tian Ningning had come up empty and was still unable to contact Black.

It had been some time since she had been unable to contact Black.

She checked her previous correspondence with Black and saw that it had been half a month since they had last spoken.

At that time, Black had finished two fights on the Celestial Stairway, and she had sent him her report on his fights.

All Black had said in response was, "Thank you for your hard work."

Tian Ningning's heart had warmed when she saw his response.

Yet now, she could not contact the person she was responsible for in such a serious situation.

No matter how professional Tian Ningning was, she did not know what to do to assuage the situation. After all, she did not even know how this issue had arisen.

As anxious as she was about not being able to contact Lin Yuan, she was also irritated.

But she had already been Black's exclusive reporter for half a year and knew a fair amount about him.

### **Chapter 937: Black and Lin Yuan's One-VS-One Fight**

Tian Ningning was aware of his temperament and character.

Black had been lukewarm about his achievements, whether it was the disaster that struck Millstone Town or controlling the Class 3 abyss dimensional rift. He never stroked his own ego or allowed her to post articles in praise of him.

This showed how he was still the same person and was advancing with the same state of mind he always had.

In spite of his indifference, Tian Ningning could still see the same radiance that caught her eye and made her want to become his exclusive reporter in the first place.

In fact, the radiance had only burgeoned as he continued to grow.

Tian Ningning saw the middle-aged woman's frown of sympathy and said, "If Black found out about this matter, he'd contact me. Sister Wang, I'll go and see the editor-in-chief now."

Tian Ningning walked to the editor-in-chief's office and found her standing by the door.

Kong Qi caught sight of Tian Ningning and immediately said, "Tian Ningning, I've been waiting for you. Are you able to contact Black?"

Tian Ningning shook her head and replied, "I haven't been able to contact Black, but I plan on asking my connections why so many young disciples of veteran and top factions are targeting Black."

Kong Qi's expression hardened, and she said, "Since you're Black's exclusive reporter, not being able to contact him at such a time is considered a failure. It's no small matter that so many young disciples of veteran and top factions are going after Black on Star Web. Go now and immediately write a piece that

will quell the issue. That should place a lid on things for now. Then, make sure you thoroughly interview Black the moment you're able to contact him and get the full story on what is going on."

Kong Qi could not help but think.

*Lin Yuan was able to beat Meng Xu by barely lifting a finger. There has to be more than meets the eye to him than just raw power.*

Today's incident could be seen as either major or minor. From a minor perspective, it was just another debate on Star Web about two geniuses. But from a major perspective, it could be said that the young disciples of veteran and top factions were ganging up on Black.

Since they had chosen to make their stance public, these young disciples would never be willing to let the matter go unless a definitive conclusion was reached.

Moreover, Kong Qi realized that many young disciples of rising factions had also joined the smear campaign against Black as they wanted to use this method to curry favor with Lin Yuan. It was almost becoming a trend to bring Black down.

Kong Qi did not know what had happened between Lin Yuan and Black.

Tian Ningning immediately retorted, "It seems like the only way to quiet this matter down is for me to use Black's name to announce that Lin Yuan is better. Right?"

Kong Qi was about to reply when Tian Ningning quickly continued. "From the moment I made the deal with Black, I promised that I would never release an article under his name without his knowledge. Not to mention that doing so would also be disadvantageous for Black's image. You can't fix things by force.

"Moreover, I don't see how Black is any weaker than Lin Yuan. Lin Yuan is powerful but isn't Black just as impressive? He saved Millstone Town and handled the Class 3 abyss dimensional rift. How can I solve the situation by just penning down a few words?"

"Black has fought alongside Long Tao, Shi Xu, Fang Duoduo, Zhao Xiaochun, and the rest. Long Tao is from Coiling Dragon's Valley. I'll ask his exclusive reporter for details on the matter and see if he'll help me to contact Long Tao."

Kong Qi was bewildered by Tian Ningning's outrageous words because she knew Tian Ningning to be a gentle person.

As stubborn as Tian Ningning was, she had never raised her voice at Kong Qi or her colleagues.

Yet now, Tian Ningning was yelling at Kong Qi with bloodshot eyes.

Kong Qi could clearly see Tian Ningning's determination, and she knew that Tian Ningning would never write the article to placate the matter before she could get in contact with Black.

Luckily, Tian Ningning had also come up with a solution.

She was going to contact Long Tao's exclusive reporter to understand the issue and to contact Long Tao.

Kong Qi did not force Tian Ningning and just said, "My suggestion was also in Black's best interests. Once this matter blows up to a certain extent, not even a personal interview from Black will be able to fix everything. You have to be prepared."

Kong Qi had been able to become the editor-in-chief of Star Web because she was extremely capable and always kept her eye on the big picture.

If this matter could be settled from the moment it arose and was treated like just another piece of passing news, some people might think that Black was self-admitting that he was weaker than Lin Yuan but just did not like to be compared to Lin Yuan.

But once it grew out of a certain proportion and Black admitted that he was weaker than Lin Yuan, he would be branded as feeble.

At that point, this matter would forever follow Black.

No matter what heroic act he performed in the future, he would forever be thought of as feeble and less than Lin Yuan.

Kong Qi did not want to see this happen because she genuinely respected this young hero. Thus, she planned on helping Black and Tian Ningning to the best of her ability.

"If this matter can't be resolved, I'll try to see if Star Tower will be able to organize a one-vs-one fight between Black and Lin Yuan."

Tian Ningning's eyes lit up, and she said, "Thank you!"

Kong Qi rolled her eyes and replied, "Don't get ahead of yourself. Star Tower might not agree to my suggestion. Even if they do, Black or Lin Yuan might not accept.. But if the fight does happen, neither party will be affected too negatively even if they lose as long as they give it their all and put on a stunning performance."

### **Chapter 938: Time to Reel in the Net**

When Kong Qi saw Tian Ningning listening intently, she screamed, "Why are you just standing there instead of rushing off to contact Long Tao's Star Web reporter? Go now!"

Tian Ningning bowed deeply to Kong Qi before returning to her own office to contact Long Tao's exclusive reporter.

At present, Tian Ningning was not the only person in a sticky situation.

As the group admin of Black's fan club, Liu Lang was also in a deep dilemma. Lin Yuan had just saved him at Millstone Town, yet now people were attacking his idol, Black.

These attacks stemmed from Lin Yuan's supporters, and Liu Lang felt stuck between a rock and a hard place.

Although he was Ancestor Peace, he did not feel right biting the hand that had saved him.

But when he saw the posts rolling in, Liu Lang slapped his thigh decisively.

The sequence of events had to be considered. If Black had not saved him first, Lin Yuan would have had no one to save.

Liu Lang had also decided that Black was his faith, and belief had permeated all aspects of his life. It was a part of him now.

When he saw the torrent of people on Star Web insulting Black, Liu Lang could not hold himself back.

All the young disciples of veteran and top factions had included their names in their Star Web accounts.

However, Liu Lang could not care less.

Insulting Black was just simply a no-go!

*Since you dare to disparage Black, you can't blame me for unleashing my wrath.*

Liu Lang slowly typed out his post to the group, "The group's hunting team can go ahead and engage in free fire. Tonight, let's see whose group has better hunters."

The debate was still heating up on Star Web. However, Lin Yuan had no idea that this was happening. He was oblivious that the young disciples of veteran and top factions had started to attack Black on Star Web to gain favor with him.

Black was actually another identity of Lin Yuan's.

Now, it could be said that Lin Yuan was the embodiment of unluckiness.

There were two camps of people scolding and defending him at the same time. No matter which side won, Lin Yuan would still be equally praised and praised.

No one would believe such a ludicrous circumstance was taking place!

After Lin Yuan logged into Star Web, he went to the Purchase With No Loss store and checked on what he had gained from the blind trades.

He saw that the Flower Brocade Pearls, which used to be able to trade for about two tonnes of Aurora pollen, each were now only worth one tonne.

Even if numerous Flower Brocade Pearls entered the market at once, it would not result in market saturation. Hence, the reason behind the Flower Brocade Pearls exchanging for less Aurora pollen was not due to a drop in the Flower Brocade Pearls' value but because Aurora pollen was becoming more expensive.

Lin Yuan had already struck up a collaboration with Sun Ningxiang at the Guard Ye Banquet.

It was through this partnership that Lin Yuan found out that Condense Fairy Orchard had not only stopped supplying Aurora pollen to the market a month ago, but they had also started to buy up as much Aurora pollen as they could and selling it in limited supply to maintain the price of Aurora pollen.

In spite of their efforts, the price of Aurora pollen had continued to climb.

This meant that Condense Fairy Orchard's plan to maintain the price of Aurora pollen was about to fall through.

Sun Ningxiang's actions had quickened the laying of the trap that Lin Yuan was setting up for the Sea Bliss Clan.

Currently, it should be extremely difficult to buy large amounts of Aurora pollen from the market. Merchants were holding onto any available stock for future use.

However, chambers of commerce ran a large risk when they sold spiritual ingredients like Aurora pollen. Institutions like chambers of commerce that required a stable cash flow hated risk the most. Thus, the chambers of commerce had the foresight not to hoard large amounts of Aurora pollen.

Lin Yuan currently still had about 1,300 Flower Brocade Pearls, and he planned on trading them in sets of 20.

He intended on buying up all the Aurora pollen held by those chambers of commerce using this method.

The remaining Flower Brocade Pearls would allow the Purchase With No Loss store to gain at least 40 new group members.

The new group members would be very helpful in expanding the Purchase With No Loss store's network, and selling the Flower Brocade Pearls in sets of 20 would ensure the quality of the connections being made.

Next, Lin Yuan planned on logging out of Star Web to tell Sun Ningxiang to completely stop supplying Aurora pollen to the market and give up on maintaining its price.

Lin Yuan had been continuing to trade in Angelfish of Bliss with the Sea Bliss Clan.

As Lin Yuan continued to speed through the orders, there were already close to 500 Gold Angelfish of Bliss swimming in the Submerged Flood Dragon Lake.

He had also noticed that the Sea Bliss Clan was pushing their luck to no end.

In the beginning, they had only ruined the Angelfish of Bliss' reproductive organs. But in recent trades, they had sent Lin Yuan Angelfish of Bliss that had been nurtured to Platinum right after giving birth.

Creating progeny had and always would be the most laborious and dangerous aspect of life.

Those Angelfish of Bliss that had just given birth were still weak, yet they had been evolved to Platinum in such a state. This was a dangerous drain on the Angelfish of Bliss' vitality.

If Lin Yuan had not tailored the Submerged Flood Dragon Lake to build the health of the Angelfish of Bliss and used the Mountain River Eternal Life Carp to bless the mansion, these Angelfish of Bliss would have died in less than a day in Lin Yuan's care.

The Sea Bliss Clan was absolutely despicable. If Lin Yuan had not used True Data, he would never have known that this was happening.

Moreover, after the numerous trades with Lin Yuan, the Sea Bliss Clan had sufficient gestating Bronze/Epic Angelfish of Bliss.

### **Chapter 939: Waiting for the Prey to Rush to Their Death**

Hence, the Sea Bliss Clan was slowly losing their initial eagerness to collaborate.

When Wen Yu had been digging into the Sea Bliss Clan, she discovered that the Angelfish of Bliss in the fish farm they had opened on the remote island had already given birth.

The Sea Bliss Clan now needed Aurora pollen more badly than ever, making this the best time to bring the hammer down on them.

Lin Yuan felt that as long as the Sea Bliss Clan had any inkling of intelligence, they would have noticed the climbing prices of Aurora pollen.

If Lin Yuan did not strike now, the Sea Bliss Clan would soon start to buy up Aurora pollen as well.

Lin Yuan suddenly remembered that he had not announced trade messages in the Purchase With No Loss store for some time.

He had become acquainted with Zhou Luo and set up the white-clothed followers after he had sent out his last trade message.

Ever since Lin Yuan had found out that Genius had Creation Master abilities, he had been trying to evolve Genius' grade as quickly as possible.

Although he could not evolve Genius' quality anytime soon, he would evolve Genius until he reached his limit as a B-rank spirit qi professional, which was Diamond X.

This would allow Genius' Creation Master abilities to improve by leaps and bounds.

He also planned on buying some Hundred Questions Beasts so that Genius could teach them with the goal of nurturing them into Creation Masters.

Hence, it was necessary to evolve Genius' grade.

Although Morbius had reached Silver X/Fantasy I and the spirit qi crystals it produced were ten times more effective than before, the spirit qi crystals were still unable to meet Lin Yuan's needs.

The best way for Lin Yuan to evolve Genius' grade as soon as possible was to obtain a Myth Breed fey's World Grace.

However, searching for a wild Myth Breed fey that was going through the World Cleansing would be like looking for a needle in a haystack, and Lin Yuan did not have the time to search in such a tedious manner.

However, Lin Yuan could opt to sit and wait for his prey to rush to their death.

It was not easy for Myth Breed feys to undergo the World Cleansing.

When Jiao Hanzhong's feys would undergo the World Cleansing, he always needed the help of emperor-class experts like Duan He.

But not every expert with a fey that was undergoing the World Cleansing could find help.

It was especially difficult for experts with feys that were about to evolve from Suzerain/Fantasy V to Suzerain/Myth I as it was usually experts with Myth Breed feys that had access to other experts with Myth Breed feys.

Lin Yuan felt that he could help these experts' feys overcome the World Cleansing.

The Pure Land of Bliss would not take all of the World Grace.

When the Pure Land of Bliss had absorbed the Cold Snow Pine's World Grace, it had only absorbed 10% of the World Grace.

Those experts that were unsure of being able to help their fey overcome the World Cleansing would not turn their noses up at the small cost of 10% of the World Grace.

As such, Lin Yuan returned to the Purchase With No Loss store and sent the first trade message in a long time.

Purchase With No Loss store: "Take a walk, look around, and peer around your house. The store is announcing a special service. Anyone who does not have the confidence to help their feys overcome their World Cleansing can make a reservation with the store, and we'll help your fey to overcome the World Cleansing safely. We have a fey that needs to be nurtured as soon as possible. Thus, the cost will be 10% of the World Grace of every fey that we help overcome the World Cleansing, any Heaven and Earth fey, 30 source-type items, and a condition that could be fulfilled at any time of our choosing. This should not be an unreasonable price. Once the condition is fulfilled, the store will give you 5 heavenly-maiden-grade elemental pearls in return."

Lin Yuan nodded in satisfaction at the trade message, and he also felt that the cost he had stated was rather low.

To the experts and feys who did not have the power to overcome the World Cleansing, giving up 10% of the World Grace was still acceptable.

One Heaven and Earth fey and 30 source-type items were worth about 330,000,000 Radiance dollars.

It was not difficult for experts who had feys that were ready to experience the World Cleansing to obtain 30 source-type items as they only needed to search through Class 1 dimensional rifts 30 times or Class 2 dimensional rifts 15 times.

The dimensional rifts were reaching the end of their active period.

As long as the experts were hardworking enough, it should not be difficult for them to obtain 70 or 80 source-type items from this once-in-a-decade dimensional rift active period.

The part that Lin Yuan cared about the most was the condition that could be fulfilled at any time as it gave Lin Yuan a channel through which to contact these experts after he helped them.

He would be able to use his channel to get the help of these experts when the time came.

Although it was a one-time usage, it still gave Lin Yuan more emperor-class fighting power at his disposal.

Lin Yuan believed that emperor-class experts that had worked for him would never choose to break off their connection of their own accord because of the wealth of resources that he possessed.

Usually, king-class experts were already reluctant to promise their services to others.

Although the service would not result in them going against their principles, the powerful did not like to be tied down as stringent conditions could be accompanied by danger.

As such, Lin Yuan had come up with a good idea.

After stating his condition, the other party would receive 5 heavenly-maiden-grade elemental pearls in return.

Most emperor-class experts would not be opposed to such an exchange.

Lin Yuan had thought of both angles.

On the one hand, he wanted these experts and feys who owed him this condition to fulfill to wait impatiently for him to state his condition so that they would be able to obtain the heavenly-maiden-grade elemental pearls.

On the other hand, he was going to launch a major advertisement of the blind trades to remind them that the Purchase With No Loss store had heavenly-maiden-grade elemental pearls and that one heavenly-maiden-grade elemental pearl would be auctioned off every night.

#### **Chapter 940: Reaping the Benefits of the Prudent Heroes**

Lin Yuan had to support the entire Sky City, and he eventually planned on expanding into the marsh world and Startling Lines Continent.

Although both the marsh world and the Startling Lines Continent were troves from which Lin Yuan would obtain treasures, he needed to spend a significant sum before he could expand into those areas.

Thus, he had to earn as much as he could from the trades.

He immediately used the points he had accumulated to exchange for a one-time posting of his trade message on Star Web News.

The Purchase With No Loss store had always remained a Class 1 store, but after all this time of selling elite feys and conducting blind trades, it had accumulated 40,000 points. This was enough for the Purchase With No Loss store to promote to Class 4 and was just shy of being able to promote to Class 5.

It cost 10,000 points to post the trade message on Star Web News.

Even Class 5 stores were only willing to post messages on Star Web News when they were holding events.

Now that the Purchase With No Loss store's trade message was posted on Star Web News, anyone who went to read Star Web News would immediately see the message.

Lin Yuan read the trade message with satisfaction and decided to contact Sun Ningxiang next.

However, he had no idea that his trade message had immediately stirred up the entire Star Web. Countless people were staring in shock at the trade message.

This was the first time in Star Web history that a store posted a trade message saying that they would help Myth Breed feys overcome the World Cleansing.

Many users of Star Web had never even seen a Fantasy Breed fey before, much less Myth Breed feys.

The Purchase With No Loss store's trade message seemed intimidating to most users, and even the members of veteran and top factions felt that this Class 1 store's trade message seemed to carry the charisma of veteran and top factions.

Even veteran and top factions were unwilling to help feys overcome the World Cleansing unless they had something to gain from it or had personal reasons.

An emperor-class expert had a 70% chance of being able to help a strong fey overcome the World Cleansing.

Two emperor-class experts combined only had a 50% chance of helping a fey with strong abilities, but weak defensive skills overcome the World Cleansing.

Although an emperor-class expert would be able to sustain the first attack from the World Cleansing, to help a fey overcome the World Cleansing was not to defeat the World Cleansing but to sustain its attacks for some time.

The goal was to break down the World Cleansing's attack into many smaller attacks, which would give the evolving fey a chance to recover.

However, the attacks from World Cleansing eventually needed to hit the evolving fey.

Feys with weaker abilities would require more external help for this, and there was even a chance that the feys of the emperor-class expert who was helping it would get hurt.

If a Creation Breed helped the fey overcome the World Cleansing, there would be nothing to talk about because it would be able to protect the fey in a cage of law worlds.

By using the power of law worlds to defend against the World Cleansing, the evolving fey would be able to accept the World Grace while remaining unhurt.

However, not even top factions used the power of Creation Breed feys flippantly, much less used it to help other feys overcome the World Cleansing.

There were not many merits to helping other feys to overcome the World Cleansing.

The members of veteran and top factions who were aware of the Purchase With No Loss store started to blow an internal raspberry.

*The Purchase With No Loss store is overflowing with wealth. Just what kind of martial force are they hiding? But the store owner has to be some kind of stupid to put out a sure-loss deal like that, no matter how wealthy he is.*

Many feys stuck at Suzerain/Fantasy V and looking for experts to help them were delighted to see the trade message. This trade message was a glimmer of hope for them.

However, this was a serious matter. As famous as the Purchase With No Loss store had become on Star Web, not many experts were brave enough to gamble with their feys' lives and futures.

Although none of the experts moved, they started to look into the Purchase With No Loss store and found that the store was conducting blind trades. They could not help but buy some of the items through the blind trade.

After all, Flower Brocade Pearls were extremely popular amongst Creation Masters and never fell in value.

Through the blind trades, these experts joined the Purchase With No Loss store fan club. They thoroughly explored the ins and outs of the Purchase With No Loss store before deciding if they would respond to the trade message.

These experts suppressed their feys and prevented them from evolving to Myth Breed.

From a positive perspective, these experts could be called prudent heroes.

But from a negative perspective, they had become used to turning a blind eye.

Without a guarantee, it was difficult to convince those who had already become used to turning a blind eye to their situation to take risks.

However, Suzerain/Fantasy V feys were able to comprehend willpowers to a certain extent, and it was possible to suppress themselves from experiencing the World Cleansing. If they used spiritual ingredients that could relieve the pressure in their body, they would even be able to hold the World Cleansing off for seven or eight years without any issue.

Nonetheless, it would not become so easy once decades passed. Even if spiritual ingredients were used to relieve the pressure in their body, the feys' potential and roots would start to decay.

At that point, it would no longer be a matter of if they were brave enough to experience the World Cleansing but if they were even still viable to do so.

The Purchase With No Loss store's trade message on Star Web News was a door that these experts could open that would lead them to success.

Lin Yuan, who was about to leave Star Web, suddenly noticed that someone had already responded to the trade message and had started to message him privately.
