Chapter 971: Lord Lin Yuan has a Bad Temper

Both of them had watched Zheng Kaiyuan grow up and knew that he was truly exceptionally talented at Creation Master skills. That was why Miao Qi had accepted him as her disciple.

Nonetheless, he did not have the authority to stand amidst the disciples of the members of royalty.

The Zheng family was not eligible to attend the Guard Ye Banquet, and Zheng Kaiyuan had only been able to go because of Miao Qi.

He had no prior connections with the disciples of the members of royalty.

Thus, there were no obvious areas of doubt to point at now that he had joined that group.

However, Miao Zhenshen was helpless and at a complete loss. He asked Zheng Kaiyuan, "Kaiyuan, what do you have in mind?"

Zheng Kaiyuan took a step forward and puffed out his chest as he said, "You have to attack the problem at its root. The matter stems from the Moon Empress' disciple because he's the one Miao Zhuo offended. Thus, as long as Miao Zhuo can gain Lord Lin Yuan's forgiveness, the Moon Empress will probably let the matter go as well.

"Lord Lin Yuan wore a Moonbeam Coronation Costume similar to that of the Moon Empress' at the Guard Ye Banquet. It's obvious how important he is to her. He also produced the Golden Lotus Brocade Pearls at the Royal Capital's Fey Observer Association. If we can form a good relationship with him, it should be easy for us to obtain the Golden Lotus Brocade Pearls as well."

Miao Zhenshen and Miao Qi looked deep in thought, and it seemed that they found Zheng Kaiyuan's plan to be feasible.

Meanwhile, the bloodied and blue Miao Zhuo was glaring daggers at Zheng Kaiyuan.

As one of the young direct descendants of Connected Beast Park, Miao Zhuo was adept at the art of speech.

Zheng Kaiyuan had summarized the entire situation at the beginning of his speech. Yet, he still felt compelled to mention that Miao Zhuo had been the one to insult Lin Yuan.

It was an unnecessary addition, and it was clear that Zheng Kaiyuan had only included it to beat Miao Zhuo further down.

Miao Zhuo had always felt that he took good care of Zheng Kaiyuan. Yet now, why was Zheng Kaiyuan trying to beat him down even further when he was already at the point of no return?

Zheng Kaiyuan's scathing comments caused Miao Zhuo's heart to plunge, and he almost guffawed bitterly.

After all, his surname was Miao, while Zheng Kaiyuan's surname was Zheng. Even if there was no hope for him left, he was still a direct descendent of the Miao family. He could make Zheng Kaiyuan disappear without a trace if he wanted to.

Zheng Kaiyuan took two steps toward Miao Zhuo until both of them were inches away.

Miao Zhuo noticed Zheng Kaiyuan roll his eyes at him and felt like Zheng Kaiyuan was looking at him as though he was a servant.

"Grandfather, Master, Mother told me to form as many connections as possible at the Guard Ye Banquet. I'm very good at making friends. I even managed to get Lord Lin Yuan's contact number."

Miao Zhenshen and Miao Qi looked both shocked and surprised. They were now looking at Zheng Kaiyuan in a completely new light.

Miao Zhenshen walked over and placed his hand on Zheng Kaiyuan's shoulder as he said, "Grandson, don't go back to Indigo Azure City for now. I'll also ask someone to bring Miao Zhi here. Give me the number of the Moon Empress' disciple, and the Elders will discuss how to contact him. If you're free in the next two days, go and spend time with the Moon Empress' disciple. Take anything you need from Connected Beast Park's treasure trove."

Miao Zhuo could not believe that Zheng Kaiyuan had the phone number of a disciple of royalty. Now, he really could not strike back against Zheng Kaiyuan and would likely have to start keeping his head down around Zheng Kaiyuan.

Miao Zhuo could not figure out what Zheng Kaiyuan could have done to obtain Lin Yuan's number after Miao Zhuo was chased out of the Midnight Palace.

Meanwhile, Zheng Kaiyuan was incredibly excited.

The most intimate way that his grandfather had ever addressed was to call him 'Kaiyuan'. He had never been addressed as 'grandson'.

His grandfather had been upset ever since Zheng Kaiyuan's mother married into the Zheng family. It had also been years since Miao Zhenshan allowed Miao Zhi to return to the Miao family residence.

Even during New Year's, when his mother called to send greetings, his grandfather always refused to pick up.

Yet now, his grandfather was allowing his mother to return home.

His mother's longtime dream was finally coming true.

Not only had his grandfather's attitude changed toward Zheng Kaiyuan, but he had also allowed Zheng Kaiyuan to take anything from Connected Beast Park's treasure trove.

Only priceless treasures were stored in Connected Beast Park's treasure trove.

Usually, he would never have the chance to come close to such treasures.

Since he had the authority to take anything he wanted from Connected Beast Park's treasure trove, he could find any excuse to retrieve what he wanted even if he did not approach Lin Yuan.

The physical benefits were much more important to Zheng Kaiyuan than Miao Zhenshen's approval.

Zheng Kaiyuan's ambition had bloomed at the Guard Ye Banquet.

At that moment, Zheng Kaiyuan suddenly realized that he had the entire Miao family under his thumb.

Now, Zheng Kaiyuan could not care less about Miao Zhuo or even his Master Miao Qi.

Nevertheless, Zheng Kaiyuan would never have the courage to take the initiative to hang out with Lin Yuan because they had never contacted each other before.

But since Lin Yuan himself had left the contact number, it had to be real.

Zheng Kaiyuan's mind immediately flew to Lin Yuan, and a scheme started to form in his head.

"Grandfather, I'll do anything you say! If you need my help in any way, just let me know. However, I observed that Lord Lin Yuan has a bad temper. Hence, you have to prepare a sincere present for him."

Zheng Kaiyuan knew that he was being treated so well now because he had Lin Yuan's phone number.

Chapter 972: The Almost Dead Rising Lizard, Wendy, and Scale Concubine

Zheng Kaiyuan knew how to carry himself.

His grandfather assumed that he was very close to Lin Yuan. It seemed that the closer Zheng Kaiyuan was to Lin Yuan, the more benefits Zheng Kaiyuan would receive.

He had to say that Lin Yuan had a bad temper so that his grandfather would choose even more precious items from the treasure trove to give as gifts.

Zheng Kaiyuan might even be able to slip something out from the huge pile of gifts.

In the next hour, Zheng Kaiyuan felt as though he had reached the peak of his life as he continuously received a stream of compliments from Miao Zhenshan and Miao Qi.

He finally felt like he was the true Eldest Young Master of the Miao family, while Miao Zhuo was just a pathetic and helpless dog.

An hour later, Zheng Kaiyuan left Miao Zhenshen's study room with his head held high.

Miao Zhuo held his injuries that had been inflicted by the vase and limped out behind Zheng Kaiyuan, a shell of his former self.

He took a few quick yet hesitant steps and said to Zheng Kaiyuan, "Cousin, why not—"

Before Miao Zhuo could finish speaking, Zheng Kaiyuan took a huge step forward and bumped into Miao Zhuo's injured shoulder as he drawled, "Don't call me 'cousin'. Just call me by my name. Miao Zhuo, after you were chased out of the Midnight Palace for insulting Lord Lin Yuan, he told me that he wanted

to get his revenge on you. He only let the matter rest after I spoke up for you. Don't you think that you should repay me?"

Miao Zhuo's eyes darkened.

He remembered how sweet and obedient Zheng Kaiyuan had been the first time he came to learn from Miao Qi. He also remembered how brightly Zheng Kaiyuan had smiled when Miao Zhuo responded to him.

But now, it seemed as though he had committed a grievous sin by calling out to Zheng Kaiyuan.

Miao Zhuo was not stupid, and he could tell from his brief interaction with Lin Yuan at the Guard Ye Banquet that Lin Yuan was a well-mannered person.

Otherwise, Lin Yuan would have been the one to attack him instead of Chief Guard Ye's disciple.

Lin Yuan had not openly attacked Miao Zhuo as the Moon Empress' disciple. Hence, there was no way that he would want to do so after the incident.

Thus, Zheng Kaiyuan was lying through his teeth when he said that Lin Yuan had a bad temper.

But currently, Miao Zhuo did not have the ability or authority to reveal Zheng Kaiyuan's lies.

Miao Zhuo inhaled deeply and said, "How do you suggest I repay you?"

Zheng Kaiyuan scoffed and replied, "Miao Zhuo, I heard that your guard has reached pinnacle emperor-class and has two feys that reached pinnacle Myth III. Can you lend your guard to me?"

Miao Zhuo's expression hardened, and he glared at Zheng Kaiyuan while replying in a gentle tone, "Why do you need Elder Liu? He has been out of the field for a year. He's currently gathering resources to enable one of his feys to undergo the Trial of World Creation to evolve to Creation Breed."

It was clear that Miao Zhuo was rejecting the offer. However, Zheng Kaiyuan seemed to not have heard the rejection as he said, "Since Elder Liu is unavailable, can you lend me your other four emperor-class experts? That way, Elder Liu won't have to do anything and can just supervise. I also remember that you seem to have a bone to pick with Sky City. I want to borrow Elder Liu from you so that I can destroy Sky City by targeting the Listening Heron Chamber of Commerce. I don't think you'll have any objections to me taking on Sky City! If you insist on rejecting me, I'll have no choice but to go to Grandfather for help. Will you reject him too?"

Miao Zhuo did not expect Zheng Kaiyuan to have him checkmated in one speech. There was no way that Miao Zhuo could say no now.

Miao Zhuo's features tightened as he replied, "Kaiyuan, you can do as you see fit. Everyone in the Miao family knows about my situation, and I'm too embarrassed to order around those emperor-class experts. You can tell Grandfather about this plan, and he might be able to supply you with more manpower. If he agrees, you'll still be able to order around my subordinates."

Miao Zhuo turned and limped away, his figure a sorry sight.

Zheng Kaiyuan mumbled with disdain, "Ignorant."

Zheng Kaiyuan turned and walked back into the study room. He planned on using the next few days to destroy the entire Sky City with the power of the Miao family.

Otherwise, Nightmare VI's death would always hang over Zheng Kaiyuan's head, and he would always feel like someone was watching him.

...

In the master bedroom of the Return from Faraway Mansion, Lin Yuan noticed that it was already 8:00 a.m.

Chimey and Genius had tunneled into his pajamas sometime during the night.

Lin Yuan did not know what to do.

In order to not wake either of them up, he gently took off his clothes on the bed and changed into a set of waterproof spirit qi clothes and shoes.

After he walked out of the room, he saw Lu Pinru and Wen Yu flipping through papers while seated at a table.

The papers were full of various fashion designs.

Lin Yuan noticed that their designs were very similar as both were minimalistic.

"We need to start producing these spirit qi clothes. We can buy several clothes factories and assign Class 2 Weavers to each station to ensure quality. But to establish our brand's reputation, we can't just rely on these spirit qi clothes. Thus, I think we should offer high-quality custom clothes. I would like to hire a Class 5 Weaver who specializes in custom-making clothes and another Class 5 Weaver who specializes in design to handle the high-quality custom-making clothes service," said Wen Yu.

Lu Pinru looked impressed by Wen Yu. Lu Pinru was very skilled at designing and making spirit qi clothes, but she felt that she was leagues away from Wen Yu when it came to building a business.

Although Wen Yu was good at managing resources, she was not actually very creative when it came to building a business.

All her ideas came from watching Lin Yuan manage his private territory.

Lin Yuan did not disturb Wen Yu and Lu Pinru. Instead, he walked downstairs and sat down next to Endless Summer.

Endless Summer said expectantly, "Lin Yuan, when are you taking me to that place you mentioned?"

Lin Yuan took out his phone and replied, "I told Listen to bring something over. We'll leave once it's here."

He called Listen.

After some contemplation, he decided to ask Listen to prepare the essence blood of some scavenger feys.

Since scavenger feys could consume decaying flesh, their blood was extremely resistant to bacteria.

Lin Yuan would be able to attract more Marsh Crocodiles using the scavenger feys' essence blood.

After receiving the ten barrels of essence blood from Listen, Lin Yuan instructed Endless Summer to enter the Jewelled Cave Golden Toad, and he went into the Spirit Lock spatial zone.

He entered the marsh world using Klein Hub and realized that something had changed.

Lin Yuan's anger surged when he saw Rising Lizard with its four injured heads and the almost dead Scale Concubine and Wendy.

He sensed intense energy fluctuations above him and looked up to see the Kill Food Sky Butterfly battling an extremely strange-looking dimensional lifeform.

Chapter 973: Hidden Power

The strange-looking dimensional lifeform had a human-sized head.

However, its ferocity matched that of the Kill Food Sky Butterfly.

The Kill Food Sky Butterfly had reached Suzerain X/Creation I. Although it had not reached Suzerain X/Sovereign I, it had one of the three most elite bloodlines of the butterfly-species feys and had the power of law worlds.

The Kill Food Sky Butterfly could even take on a Sovereign I/Creation I fey with the law world's pure combat power.

The aura radiating from the marsh dimensional lifeform could rival that of the Kill Food Sky Butterfly. This meant that the marsh dimensional lifeform had to have a similar, or maybe even greater amount of power than the Kill Food Sky Butterfly.

Otherwise, there was no way that the Medusa Snake Demon and Wendy would end up in such a state under the protection of the Kill Food Sky Butterfly.

Lin Yuan did not know about the Medusa Snake Demon and Rising Lizard's exact state, but he could tell from Wendy's spiritual power that it was still alive.

This was nothing short of a miracle.

If Wendy was dead, Lin Yuan's spiritual energy would be damaged and leave him writhing in agony. His other feys would also be affected.

Moreover, the damaged spiritual energy due to the death of a fey could not be recovered, and Lin Yuan would be left in a terrible state.

The Kill Food Sky Butterfly was now Suzerain X/Creation I and had the power of a Class 10 dimensional lifeform.

Since the dimensional lifeform could pressure the Kill Food Sky Butterfly, this meant that it had to be about Class 11.

Sarcomas covered in thin scales and feathers grew all over the dimensional lifeform's head.

Lin Yuan used True Data to check on the strange bird.

[Alien Beast Name]: Drugged Snake Eagle

[Lifeform State]: Dimensional lifeform (Favored Believer)

[Alien Beast Class]: Class 11

[Totem Faith]: Destroyed Body Exquisite Totem

Natural Skill:

[Poison Concentration]: By consuming poison to increase its power, the poison is concentrated in its heart. The heart's four ventricles will produce four different kinds of poisonous blood. When the Medusa Snake Demon is consumed, the protein in the Snake Change Medusa's hair will increase the capacity of the ventricles and combine it with the petrification ability of the Medusa Snake Demon's hair.

Lin Yuan's face turned grim when he saw the Drugged Snake Eagle's attributes.

He could not believe that he was right in guessing that the Drugged Snake Eagle was a Class 11 dimensional lifeform.

A Class 11 dimensional lifeform had a similar power level to a Sovereign I/Creation I fey.

It was far more powerful than the limit of the Class 5 dimensional rift as the strongest fey that should appear in a Class 5 dimensional rift was Class 10.

Moreover, the Drugged Snake Eagle was not an ordinary dimensional lifeform but a Favored Believer and had the Destroyed Body Exquisite Totem on it.

The Drugged Snake Eagle's Poison Concentration indicated that it used poison as its main method of attack.

This was the most troublesome type of dimensional lifeform.

As long as a drop of poison entered a body, it would result in serious consequences and a plunge in fighting power.

The Kill Food Sky Butterfly's blue wings looked darker, and Lin Yuan knew that it had used a large portion of scale powder to defend against the Drugged Snake Eagle's poison.

Scale powder was extremely important to butterfly-species feys as it allowed them to control and attack targets and increased their flying speed.

The Kill Food Sky Butterfly was a fey known for swift flying.

Once it lost its scale powder, it would slow down and become an easier target for the Drugged Snake Eagle.

Just as Lin Yuan was about to take out the Jewelled Cave Golden Toad to release Endless Summer, the Drugged Snake Eagle said in its ear-splitting voice, "I wanted to eat that Snake Change Medusa that's been attracting the Marsh Crocodiles, but I can't believe that a larger bounty landed in my lap.

"Little butterfly, you can't beat me. Don't be naive in thinking that you're protecting those two Apostles. I'm just showing them mercy for now. I would have already reduced them to a pile of bones if I wanted to. They will definitely be mine. I have to give them to Lord Exquisite."

The Drugged Snake Eagle flapped its wings and released four different colored poisonous vapors.

The poisonous vapors turned into four large snakes that sailed toward the Kill Food Sky Butterfly.

The Kill Food Sky Butterfly hurriedly turned into blue butterfly silhouettes, and the four large snakes turned into tens of thousands of small snakes that charged at the butterfly silhouettes.

The tens of thousands of small snakes disappeared amongst the waves of scale powder.

At that moment, the Kill Food Sky Butterfly's wings dimmed.

However, the Kill Food Sky Butterfly had already noticed Lin Yuan's arrival, and it let out a heave of relief.

The Kill Food Sky Butterfly had yet to use its law world power to defend itself or attack the Drugged Snake Eagle.

Although dimensional lifeforms and feys had similar levels of powers, their abilities were completely different.

The Kill Food Sky Butterfly was already slightly weaker than the Drugged Snake Eagle.

Thus, the Kill Food Sky Butterfly was not confident that it would be able to defeat or prevent the Drugged Snake Eagle from escaping after it used the power of law worlds.

Once the Drugged Snake Eagle escaped, it could bring its Apostle with it next time.

This meant that the territory that Lin Yuan had started to establish in the marsh world would be destroyed.

The Kill Food Sky Butterfly flew over to Lin Yuan in a flash and said to him, "Lin Yuan, what do we do now? Even if I use my law world power, it'll only be able to keep the Drugged Snake Eagle at bay temporarily or inflict minor damage.. Actually, I think it still has something up its sleeve because I can sense an incredible force hidden underground."

Chapter 974: Marsh Ground Sphagna

Lin Yuan inhaled sharply and immediately looked down.

At that moment, the Drugged Snake Eagle ordered, "Marsh Ground Sphagna, force the butterfly up to the sky! I will inform Lord Exquisite of your contributions! No matter how pathetic you are, Lord

Exquisite will definitely accept you as a believer once you offer up these two Apostles. There's even a chance of you becoming a Favored Believer!"

Lin Yuan saw a thick layer of moss materialize over the ground.

However, this carpet emanated a power that the Kill Food Sky Butterfly could not match up to.

Lin Yuan opened the Jewelled Cave Golden Toad, and Endless Summer appeared next to him.

After Endless Summer assessed the situation, it immediately released its Sovereign I/Creation I aura and directed it toward the growing Marsh Ground Sphagna.

It also launched itself at the overjoyed Drugged Snake Eagle in the sky.

The Kill Food Sky Butterfly immediately recognized Endless Summer and felt slightly awkward as its intrusion had almost caused Endless Summer to fail the Trial of World Creation.

Nonetheless, the Kill Food Sky Butterfly let out a heave of relief after seeing Endless Summer.

The Kill Food Sky Butterfly released its law world power, and a look of surprise came over the Drugged Snake Eagle.

"That power is not of this world. You're intruders from another world!"

Lin Yuan realized that the Drugged Snake Eagle had to have heard of or experienced this power before.

This meant that it was likely that the Drugged Snake Eagle had once experienced people from other continents that entered the marsh world through a Class 6 dimensional rift.

It was either that or the marsh world had gained an understanding of the main world like how the main world knew about the marsh world.

Lin Yuan noticed that the Drugged Snake Eagle did not increase its hostility toward the Kill Food Sky Butterfly after saying that it came from another world.

This meant that the Drugged Snake Eagle was not xenophobic toward those that came from the main world.

Regardless, Lin Yuan was going to attack the Drugged Snake Eagle because he was sure that Wendy would be able to absorb the poison in the Drugged Snake Eagle's heart.

Both Wendy and the Drugged Snake Eagle could absorb poison to increase their class.

Just as Lin Yuan was about to instruct Endless Summer and the Kill Food Sky Butterfly to attack together, Wendy suddenly started to move. Wendy turned into its Medusa form and climbed up Lin Yuan.

Lin Yuan hurriedly picked up Wendy and murmured, "Don't cry, Wendy. I'll avenge you right now."

Wendy started to wail even harder now.

The moment Wendy woke up, the Marsh Ground Sphagna immediately became friendly toward it.

Pink flowers started to bloom on the marsh, and brownish yellow fruits shot up into the sky.

The brownish-yellow fruits were very tough, and they battered the Drugged Snake Eagle, cracking its scales.

The Drugged Snake Eagle was significantly injured from the attack and was slightly dazed.

A moment later, it bellowed furiously, "You dirty thing! Are you crazy? How dare you attack me!?"

The Drugged Snake Eagle was not the only one that was stunned. Endless Summer and the Kill Food Sky Butterfly were also bewildered as they did not understand why the Drugged Snake Eagle's comrade had turned its back on it.

Lin Yuan's face spread into a smile.

He remembered Wendy's Wild Plant Affection that could attract carnivorous plants and cause them to become affectionate toward Wendy.

However, Lin Yuan felt that this was not the main reason for the Marsh Ground Sphagna's betrayal.

The Marsh Ground Sphagna was the lowest-ranked and most common carnivorous plant that existed in the marsh world.

It was not picky and could even grow by eating mud. If it was lucky, it would be able to include small insects in its diet.

Usually, the Marsh Ground Sphagna was extremely weak. Even if it hunted for insects, the insects were likely to escape or fight back against the Marsh Ground Sphagna.

The Marsh Ground Sphagna was the equivalent of the Usnea in the main world.

Lin Yuan could not figure out how the Marsh Ground Sphagna had grown to Class 10.

The Marsh Ground Sphagna's attack had even managed to injure the Class 11 Drugged Snake Eagle. Naturally, there was also the Drugged Snake Eagle's lack of vigilance to consider.

Although the Marsh Ground Sphagna was ordinary, it would become intelligent once it evolved to Class 10.

The Marsh Ground Sphagna was also waterproof because it was a dimensional lifeform, not the believer of an Apostle.

From what the Drugged Snake Eagle had said, the Marsh Ground Sphagna was not well-liked by the Drugged Snake Eagle's Apostle. This should be why the Marsh Ground Sphagna suddenly decided to betray the Apostle.

The Marsh Ground Sphagna probably gauged Endless Summer and Kill Food Sky Butterfly's combined fighting power before deciding to help Wendy. It could even be hoping to become Wendy's believer.

Taking advantage of the Drugged Snake Eagle's stunned state, Endless Summer exclaimed, "Mind Halt! Shooting Spears of Summer! Three Thousand Shooting Spears!"

Thousands of spinning pink-purple hydrangea flowers appeared in the sky.

Every flower came with a rain of flowers that turned into a spear.

The spears shot toward the Drugged Snake Eagle, which had its mind halted.

Although it looked as though Endless Summer had used Mind Halt casually, it had also used its Enlightenment Law.

Chapter 975: The Totem Imprint that Lit Up on the Destroyed Body

Endless Summer injected all the power of the Enlightenment Law World into Mind Halt.

When the Kill Food Sky Butterfly saw Endless Summer launch its attack, it swiftly followed.

The Kill Food Sky Butterfly cried out, "Power of World. Kill Sky Butterfly Wings!"

It flapped its wings and released a swarm of blue butterfly silhouettes that covered the sky.

Each blue butterfly silhouette seemed to carry a thousand tonnes of power, and they formed a ring around the Drugged Snake Eagle.

The ring of blue butterfly silhouettes closed in on the Drugged Snake Eagle as three thousand purple spears soared toward it.

Endless Summer was adept at support and did not have strong fighting powers. Thus, not every spear managed to pierce the Drugged Snake Eagle.

However, the Drugged Snake Eagle was under Endless Summer's control, and there were too many spears that continuously struck the Drugged Snake Eagle.

Soon, the Shooting Spears of Summer produced almost 30 holes in the Drugged Snake Eagle's body.

The Kill Food Sky Butterfly's wings turned into blue flames.

Just as the blue flames were about to make contact with the Drugged Snake Eagle, the Drugged Snake Eagle abruptly broke out of Endless Summer's Mind Halt.

Before the Drugged Snake Eagle even had time to experience the pain fully it was in or activate its Destroyed Body Exquisite Totem, it was preoccupied with defending against the Kill Food Sky Butterfly's Kill Sky Butterfly Wings.

Kill Sky Butterfly Wings could only be used after storing a certain amount of power.

Thus, Kill Sky Butterfly Wings was much stronger than usual damage inflicted by the Suzerain X/Myth I Kill Food Sky Butterfly.

The blue butterfly wings ripped the Drugged Snake Eagle into quarters.

However, the Drugged Snake Eagle was still very much alive, proof of the power and ferocity of a Class 11 dimensional lifeform.

At that moment, Endless Summer yelled, "Midsummer Cage!"

Four petal-shaped walls enveloped the Drugged Snake Eagle, and pink-purple vines grew out of the interior of the cage.

The vines pierced the Drugged Snake Eagle's destroyed body until no more vitality could be sensed coming from the Drugged Snake Eagle.

The Drugged Snake Eagle collapsed onto the Marsh Ground Sphagna.

The Marsh Ground Sphagna bloomed pink flowers again that searched the Drugged Snake Eagle's body and dug out its slightly damaged heart.

The pink flowers dragged the heart over until it was ten meters away from Wendy as though it was offering the Drugged Snake Eagle's heart up.

Lin Yuan carried Wendy over.

The Drugged Snake Eagle was a Class 11 dimensional lifeform. As such, it would take Wendy some time to absorb all the poison in the Drugged Snake Eagle's heart.

Lin Yuan said to Wendy, "Wendy, this heart is a treasure that'll help you evolve. You have to keep it carefully!"

Wendy nodded.

However, it still looked slightly afraid of the Marsh Ground Sphagna.

It was too scared to use its hand to touch the Marsh Ground Sphagna's pink flower. Instead, it extended one of its green strands of hair to receive the Drugged Snake Eagle's heart.

It used its hair to absorb the poison in the Drugged Snake Eagle's heart.

Lin Yuan found the marsh dimensional lifeforms rather interesting.

The Drugged Snake Eagle consumed the Medusa's hair to strengthen its heart while the Medusa Snake Demon absorbed the poison in the Drugged Snake Eagle's heart to increase its class, forming a perfect cycle.

Lin Yuan was not idle while Wendy absorbed the Drugged Snake Eagle's heart. He summoned the Jasmine Lily and used vitality to heal Rising Lizard and Scale Concubine.

Both Rising Lizard and Scale Concubine were still alive, and they quickly regained their health.

Jasmine Lily also used Severed Limbs Growth to enable Rising Lizard to regrow its heads.

However, Rising Lizard still needed to consume a large amount of food to replenish its energy.

After Rising Lizard and Scale Concubine were healed, Lin Yuan used True Data on the Marsh Ground Sphagna.

[Alien Beast Name]: Marsh Ground Sphagna

[Lifeform State]: Dimensional lifeform

[Alien Beast Class]: Class 10

Natural Skill:

[Moss Coat Green Territory]: Quickly form small and soft patches of moss that can leech vitality and nutrients from any other moss. The small patches of moss can also sacrifice themselves to provide other lifeforms with nutrients.

Lin Yuan immediately liked the Marsh Ground Sphagna.

Moss Coat Green Territory could cover the entire territory within the three mountains in moss.

The moss could grow by using water as sustenance, and Lin Yuan would be able to adjust the water content of the ground as he pleased.

Moreover, the moss would also be able to consume all unnoticeable insects in the ground.

The Marsh Ground Sphagna would be able to eternally prevent all lifeforms from bothering the Barren River Orchid Bud.

It could also sacrifice itself to provide other lifeforms with nutrients. Hence, any lifeform that existed on the Marsh Ground Sphagna could even continue living without eating.

A large sacrifice of moss could even result in the slow evolution of power.

This power would not have an obvious effect on Rising Lizard, Wendy, and Scale Concubine, but it would definitely be able to aid the Barren River Orchid Bud in the long run.

This would increase the rate of the Barren River Orchid Bud's growth and Endless Summer's power.

The Marsh Ground Sphagna would be able to lay out a suitable environment for Lin Yuan's territory in the marsh world.

At that moment, a part of the Drugged Snake Eagle's body started to glow with grayish-black light.

Scale Concubine immediately looked delighted.

Chapter 976: Self-Referral Without Holding Back

Scale Concubine turned to look at Rising Lizard before looking back at Lin Yuan.

It seemed to be in a dilemma over who to report to first.

Normally, Scale Concubine would report to Rising Lizard without hesitation as a believer's Apostle was everything to them.

However, Scale Concubine knew that Rising Lizard was always trying to win Lin Yuan's favor, and Lin Yuan had the power to transform dimensional lifeforms into Apostles.

Hence, Scale Concubine might rouse Lin Yuan's ire if it reported to Rising Lizard first.

While Scale Concubine was in conflict with itself, Wendy noticed the change in Scale Concubine's expression and asked timidly, "Mommy, are you sad? I can sing a song for you!"

Wendy snuggled into Lin Yuan's arms.

Wendy could not figure out why its mother, which had sheltered it all its life, was suddenly acting so respectful of it.

This respect caused a chasm to appear between Wendy and Scale Concubine.

Lin Yuan asked Scale Concubine, "What's wrong? Are you uncomfortable after I healed you, or do you have some hidden injury?"

The Drugged Snake Eagle had noticed Scale Concubine first and had attacked with the intention of consuming it.

Thus, half of Scale Concubine's hair had been eaten by the Drugged Snake Eagle.

The snake-hair was extremely important to the Medusa Snake Demon as it was linked to its brain. Any injury to the snake-hair could result in permanent brain damage.

But since the Jasmine Lily had used Severed Limbs Growth, all of Scale Concubine's snake-hair should have been regrown, and it should not have any more injuries.

Scale Concubine glanced at Rising Lizard, and Lin Yuan immediately understood the reason behind its look of hesitation.

Rising Lizard stretched out its neck and roared before saying, "If something happens and you don't let me know immediately, make sure you tell my master."

Scale Concubine thought, *Did this young man make Lord Rising Lizard into an Apostle?*

"L... Lord, I saw the Drugged Snake Eagle's Destroyed Body Exquisite Totem light up with grayish-black light. This means that it contains a fair amount of faith power.

"Now that the Drugged Snake Eagle is dead, it can't activate the Destroyed Body Exquisite Totem to protect the faith power. The energy in the Destroyed Body Exquisite Totem will slowly vanish, and the faith power will seep out. It'll be a waste if the faith power dissipates.

"May I suggest that Lord Rising Lizard absorbs the faith power? It might be able to replenish the faith power it spent making me its believer and allow it to accept another believer."

An ethereal elderly voice sounded out from beside Lin Yuan's ear, "The faith power in the Destroyed Body Exquisite Totem comes from a group of Medusa Snake Demons under the Drugged Snake Eagle's control.

"The Medusa Snake Demons have to do the Drugged Snake Eagle's bidding daily and pray to it. If any of them is unable to provide the Drugged Snake Eagle with faith power, the Drugged Snake Eagle will start eating the Medusa Snake Demon's snake-hair.

“Currently, there are about 30 Medusa Snake Demons under the Drugged Snake Eagle’s control. After three months, a significant amount of faith power has been stored in the Destroyed Body Exquisite Totem.”

As close as the ethereal elderly voice was, it sounded hollow, as though it was coming from the surroundings.

Almost immediately, Lin Yuan knew that the voice came from the Class 10 Marsh Ground Sphagna.

Shock came over Lin Yuan.

The Drugged Snake Eagle was not an Apostle and could not accept believers. Hence, it was very difficult for it to collect faith power.

Lin Yuan remembered Scale Concubine mentioning that it could control 1,000 Marsh Crocodiles and that they would be able to provide Scale Concubine with five sets of faith power each day. Moreover, the effects were only so obvious because Scale Concubine’s natural skill was the Marsh Crocodile’s Song that could gain the Marsh Crocodile’s affection.

However, the Medusa Snake Demon was much more intelligent than the Marsh Crocodile.

It was difficult for intelligent lifeforms to have faith.

Additionally, the Drugged Snake Eagle was the Medusa Snake Demon’s kryptonite.

Lin Yuan could not imagine how many Medusa Snake Demons the Drugged Snake Eagle had killed to select these 30 that could supply it with faith power. He believed that it had to be at least 8,000 Medusa Snake Demons.

Scale Concubine started to tremble as though it was fearful and distraught for the deaths of the Medusa Snake Demons.

“I think that the faith power in the Destroyed Body Exquisite Totem is more suitable for Lord Wendy. After Lord Wendy absorbs the faith power, it’ll be able to contact the 30 Medusa Snake Demons and domesticate them. Lord Wendy will even be able to make me into its believer with all that faith power. I can even be promoted to Favored Believer if Lord Wendy is fine with it. Then, I’ll be able to stay by Lord Wendy’s side to protect it forever.”

Lin Yuan did not expect the Class 10 Marsh Ground Sphagna to promote itself in such a manner in the hopes of becoming Wendy’s believer.

The Marsh Ground Sphagna wanted to help Wendy obtain the faith power in the Destroyed Body Exquisite Totem.

Lin Yuan was also agreeable to the idea of allowing Wendy to absorb the faith power.

Chapter 977: Lin Yuan’s Poverty-Bringing Daughter

Lin Yuan had formed a contract with Wendy, and it was a part of his power.

If the Marsh Ground Sphagna became Wendy's believer, Lin Yuan would be able to add a Class 10 dimensional lifeform to his power.

A Class 10 dimensional lifeform had about the same power as a Suzerain X/Creation I fey.

Lin Yuan carried Wendy and stepped on the Marsh Ground Sphagna toward the dead Drugged Snake Eagle.

He asked the Marsh Ground Sphagna, "If I use the faith power in the Destroyed Body Exquisite Totem, will its Apostle be alerted?"

"Lord Destroyed Body Exquisite. Tch! That disgusting scorpion should have sensed that its Favored Believer is dead. But its nest is very far from here. It would take the Drugged Snake Eagle two weeks of flying to reach the nest. At such a great distance apart, not even Apostles are able to sense their totem.

"Lord Wendy can activate its totem to drain the faith power from the Destroyed Body Exquisite Totem. Apostles usually start fighting to the death from the moment they encounter each other. I can't believe Master Wendy is on such good terms with another Apostle."

Lin Yuan could clearly sense a tone of suspicion from the Marsh Ground Sphagna's words.

Since the Marsh Ground Sphagna had said that it was fine, Lin Yuan said, "Wendy, activate your Three Flower Snake-Eyes Totem and extract the faith power."

Wendy nodded obediently, and a blue totem in the shape of an eye appeared on its forehead. The three flower-shaped pupils in the eye started to spin and joined together. The totem glowed amber, and the light landed on the Drugged Snake Eagle's Destroyed Body Exquisite Totem.

The amber totem was clearly of a higher level than the grayish-black totem.

The Three Flower Snake-Eyes Totem's light broke through the Destroyed Body Exquisite Totem's grayish-black light, and the amount of faith power in Wendy started to climb.

Even after draining all the faith power from the Destroyed Body Exquisite Totem. Wendy's faith power remained in the extremely weak state.

A thought seemed to strike Lin Yuan, and he asked Wendy, "Wendy, do you have any requirements for the quality of snakes that will become your snake-hair?"

Wendy asked curiously, "Quality? What's that? All I know is that the more poisonous they are, the stronger I'll become!"

Lin Yuan nodded.

Apparently, Wendy was trying to make him go broke with its high expectations of quality for its snake-type feys.

The higher the quality of snake-type feys, the stronger the poison. He would have to evolve the snake-type feys to Bronze/Legend before giving them to Wendy.

Although the Medusa Snake Demon did not have as much hair as humans, some strong ones did have over 1,000 snakes on their heads.

Lin Yuan felt that Wendy was like a daughter who splurged her father's money.

Luckily, it was much easier for Lin Yuan to nurture Bronze/Legend feys now as one spirit qi crystal would allow him to produce five Bronze/Legend feys. As such, he could afford Wendy's expenses.

Lin Yuan said to the over-excited Marsh Ground Sphagna, "Since you want Wendy to take you as a believer, you should convince it yourself."

He placed Wendy into the arms of the Kill Food Sky Butterfly that had changed into human form before saying to Endless Summer, "Let's go. I'll take you to the place where you can plant the Barren River Orchid Bud."

From the moment Endless Summer was released from the Jeweled Cave Golden Toad, it knew where it was.

It could not believe that Lin Yuan had the power to go in and out of the dimensional world as he pleased.

There was truly no better place to grow the Barren River Orchid Bud, but Endless Summer had never dared to dream of being able to plant it here.

After they arrived at the area marked by the Ethereal Jellyfish's tentacle, Lin Yuan said, "This place has a good moisture content, and you'll sink to your ankles in the mud. There's an endless marsh just ahead, so the Barren River Orchid Bud can take as much water as it needs.

"If the Barren River Orchid Bud grows well here and needs more water, I'll ask some Spirit Craftsmen to construct a moat to provide it with a constant supply of water. The marsh world is full of marsh soil, which will help the Barren River Orchid Soil increase its Stars. I've already collected a fair amount of marsh soil, and I'll bury the suitable ones in the place you decide to plant the Barren River Orchid Bud."

Lin Yuan's words touched Endless Summer.

He always considered every angle in consideration of his friends.

Endless Summer reached out its hand, and a small orchid bud appeared in its palm.

It carefully inserted the orchid bud in the soil.

Soon, Lin Yuan could feel the small orchid bud furiously sucking out all the water from the ground.

Lin Yuan used True Data to check on the Barren River Orchid Bud and saw that its roots were growing rapidly. In half a minute, the roots had already spread out to a radius of 100 meters, and it was still not done.

The roots extended 400 meters underground as they enthusiastically drew out the nutrients in the ground.

The Barren River Orchid Bud slowly grew, and the fragrance of orchids perfumed the air.

Lin Yuan started to sort through the marsh soil.

Chapter 978: World Source Crystal

He picked out 25 suitable mid-grade balls of marsh soil and buried them around the Barren River Orchid Bud.

Under the nourishment of the marsh soil, a flower stalk grew out of the Barren River Orchid Bud. It looked as though a flower bud was about to sprout.

Once the flower buds sprouted, Endless Summer would gain healing abilities.

“I’ll keep the Kill Food Sky Butterfly here to guard the area. As long as no Class 11 dimensional lifeforms appear, the Marsh Ground Sphagna will be able to maintain their safety as well.

“After a few days, a team of Spirit Craftsmen will come into the marsh world, and I’ll ask them to build a greenhouse to protect the Barren River Orchid Bud.

The Marsh Ground Sphagna’s natural skill is very beneficial to the Barren River Orchid Bud. I’ll instruct Wendy to order the Marsh Ground Sphagna to aid the Barren River Orchid Bud’s growth.

“You don’t have to worry about matters in the marsh world. For now, you should go and help the Listening Heron Chamber of Commerce. Now that the Guard Ye Banquet is over, those people won’t be able to hold on.”

Endless Summer nodded and replied, “Lin Yuan, why don’t you send me out of the marsh world now? I’ll head to the Listening Heron Chamber of Commerce now. You can send Duan He over as well. He wants to leave for a while to train and increase Purple Demon’s power. This is a great chance.”

Lin Yuan nodded.

Liu Jie had been actively gathering white-clothed followers. With the addition of Zhou Luo, Sky City now had 14 white-clothed followers.

It was a good time for Duan He to lead the white-clothed followers out to train and increase their power.

Lin Yuan sent Endless Summer back to the main world in the Jeweled Cave Golden Toad before he returned to the marsh world.

For whatever reason, the Marsh Ground Sphagna had managed to convince Wendy to accept it as a Favored Believer and had changed significantly.

[Alien Beast Name]: Marsh Ground Sphagna

[Lifeform State]: Dimensional lifeform (Favored Believer)

[Alien Beast Class]: Class 10

[Totem Faith]: Three Flower Snake-Eyes Totem

Natural Skill:

[Moss Coat Green Territory]: Quickly form small and soft patches of moss that can leech vitality and nutrients from any other moss. The small patches of moss can also sacrifice themselves to provide other lifeforms with nutrients. It can also separate itself and float around a body of liquid to survey the surroundings.

After the Marsh Ground Sphagna became a Favored Believer, Moss Coat Green Territory's range of abilities increased.

With the addition of the surveying ability, Lin Yuan would be able to use the Marsh Ground Sphagna to investigate the entirety of the marsh and slowly map out the marsh world.

After the Marsh Ground Sphagna became Wendy's Favored Believer, the ground was covered in a thick coat of green moss.

The moss was so soft that Lin Yuan felt as though he was walking on a wool carpet.

Even without Lin Yuan's instruction, the Marsh Ground Sphagna had already started to sacrifice some of its nutrients to transfer it to the Barren River Orchid Bud.

The Marsh Ground Sphagna would surround Wendy with hundreds of small pink flowers no matter where Wendy walked.

Lin Yuan felt satisfied as he gazed around at the surroundings.

Wendy had completely drained all the faith power from the Destroyed Body Exquisite Totem.

However, as a Class 11 dimensional lifeform, the Drugged Snake Eagle's body was hiding an item that Lin Yuan had never encountered before.

After a Creation Breed fey was killed, a World Crystal could be found inside its body.

On the other hand, the source-type crystals in a Class 11 dimensional lifeform's body would transform into World Source Crystals.

Lin Yuan was momentarily stumped as he gazed at the Drugged Snake Eagle's body.

Even after its death, the Drugged Snake Eagle's body remained tough and sturdy.

Lin Yuan could order the Sacred Source Wielding Queen's Sacred Sword Form to use the law power to dig out the World Source Crystal.

However, this would be too much of a waste.

Just as Lin Yuan was about to order the Kill Food Sky Butterfly to cut up the Drugged Snake Eagle's body, the Sacred Sword Wielding Queen's elated voice sounded out in his head. "Wow! Master! When did you find something so tasty? I want to eat it! I want to eat it!"

All the stray hair on the Sacred Sword Wielding Queen's head stood up.

It looked as though the Sacred Sword Wielding Queen was about to start drooling at any time.

Lin Yuan assumed that the Sacred Sword Wielding Queen was referring to the World Source Crystal in the Drugged Snake Eagle's body. But what the Sacred Sword Wielding Queen said next surprised Lin Yuan.

"Every inch of the Class 11 dimensional lifeform has traces of source-type power. As long as a dimensional lifeform evolves past Class 10, I'll be able to absorb it. Moreover, this Class 11 dimensional lifeform is a Favored Believer and has much more source-type power in its flesh. Although the source-type power is muddled, I'll definitely be able to eat all of it."

Lin Yuan immediately summoned the Sacred Sword Wielding Queen and said, "Then start feasting on the Drugged Snake Eagle's body. But leave the World Source Crystal aside. Let me study it before I give it to you."

The Sacred Sword Wielding Queen agreed happily before it jumped into the air and started to sway its skirt.

Threads extended from the skirt and wrapped around the Drugged Snake Eagle's body.

Lin Yuan noticed that the Sacred Sword Wielding Queen managed to absorb 550 sets of source-type power from the Drugged Snake Eagle.

This essentially replenished all the source-type power that Lin Yuan had spent enabling Wendy and Rising Lizard to experience the complete Source-Type Cleansing, with 50 sets of source-type power to spare.

Lin Yuan felt that he would eventually be able to gain more bodies of Class 11 dimensional lifeform as the other major factions from the main world came to explore the marsh world.

He would then be able to trade for those bodies rather than Law Source Crystals.

After the tens of thousands of threads pulled apart, a blinding crystal appeared in Lin Yuan's line of sight.

Chapter 979: Taking Advantage of the Opportunity

Lin Yuan saw a faint gold light within the crystal.

The golden light seemed familiar to Lin Yuan.

Besides the faint golden light, there were also streams of white energy swimming about in the crystal, and they looked like sunbeams that collided with streaks of the Milky Way.

The Sacred Sword Wielding Queen continuously chanted its yearning to eat in Lin Yuan's mind, and he could tell that it had let go of its inhibitions.

This indicated how valuable the World Source Crystal in the Drugged Snake Eagle's body was.

However, Lin Yuan was still unclear on the World Source Crystal's uses, and he needed to check with the Sacred Sword Wielding Queen.

Although Genius had all the knowledge of a Class 4 Scholar, Fey Observer, and Spiritual Ingredient Analyst, it was completely clueless when it came to the marsh world because such information was not available on Star Web.

Lin Yuan pressed down all of the Sacred Sword Wielding Queen's stray strands of hair and said, "Since you want to eat the World Source Crystal so badly, can you tell me what you'll gain after eating it?"

All of the Sacred Sword Wielding Queen's stray strands of hair stuck up again as it replied, "Master, once I eat the World Source Crystal, I'll be able to produce World Crystals. But I don't know what to do with the World Crystals."

Lin Yuan's eyebrows twitched.

He had expected this ability since World Source Crystals were similar to Law Source Crystals in this regard.

However, Law Source Crystals were used on Myth Breed feys, while World Source Crystals were used on Creation Breed feys.

Endless Summer was Creation I, and Lin Yuan had learned from his conversation with Endless Summer that Creation Breed feys would reach a threshold once they evolved to Creation V.

Before a Creation Breed fey reached Creation V, they would need to absorb law power to complete the law world.

However, once a Creation Breed fey reached pinnacle Creation IV, the law power in the world would reach its peak and be unable to take in any more.

At this time, the fey could only temper the world power to continue to increase its power.

This meant that once a fey reached Creation V, the law power in the law world would change to world power.

From what he learned from Endless Summer, Lin Yuan knew that only feys that had reached Creation V and above would be able to use the World Crystals that the Sacred Sword Wielding Queen produced.

It was the same reason why only feys above pinnacle Myth II were able to use Law Crystals.

The World Crystals were definitely beneficial.

However, Lin Yuan currently did not have any need for such things.

Nonetheless, he was thrilled to know that he could obtain the World Source Crystals.

The Class 6 abyss dimensional rift had opened in the Radiance Federation, and the major factions had just started to venture in.

Previously, the highest class of dimensional rift that had opened in the Radiance Federation was Class 5.

The most powerful dimensional lifeform that could be found in the dimensional rift was Class 9.

Although he was not sure about the members of royalty, Lin Yuan was sure that the major factions did not have any World Source Crystals.

The major factions could not even use Law Source Crystals and would probably just hold on to anything they found in the abyssal world without actually using them.

The more resources the major factions gained from the abyssal world, the more resources Lin Yuan would be able to exchange for using precious items.

As such, Lin Yuan would be able to gain supplies from the abyssal world. This feeling pleased Lin Yuan.

Lin Yuan knew that the Class 6 abyss dimensional rift that opened in the main world was an opportunity, an opportunity that he planned on taking advantage of.

However, he had already ventured into the marsh world.

Should he still expend labor and resources to venture into the abyssal world?

He needed to contemplate this issue carefully.

Although it was easier to venture into the marsh world, there were places in the abyssal world that did not exist in the marsh world.

After the Class 6 abyss dimensional rift opened, the prices of fire-type spiritual ingredients in the Radiance Federation would be slashed, and the factions that managed spiritual ingredients would be affected by this deflation.

Lin Yuan had specifically checked the price of strange flames when he was trading for them using Flower Brocade Pearls.

He discovered that some factions had the specific role of buying and selling strange flames.

No matter how strong these factions were, they would undoubtedly be affected by the fall in price.

At that time, even the flesh of demons, which was the most expensive of all dimensional lifeform flesh, would also suffer a drop in price.

This meant that the price of dimensional lifeform flesh from the subterranean world and marsh world would increase.

As such, many chambers of commerce would intentionally inflate the price of subterranean world and marsh world dimensional lifeform flesh.

Lin Yuan was not worried about this. As long as he followed market trends, he would be able to gain benefits through the resources from the marsh world continuously.

At that moment, the Sacred Sword Wielding Queen said, "Master, do you remember the two golden pearls that you obtained from Endless Summer and the Kill Food Sky Butterfly's Creation World Ley Lines?"

Lin Yuan suddenly realized why the golden glow in the World Source Crystal was so familiar.

It was because it was the exact same color as the golden pearls that came from the Creation World Ley Line.

Lin Yuan had not had the time to ask the Sacred Sword Wielding Queen about the uses of the two golden pearls.

But since the Sacred Sword Wielding Queen had brought it up, Lin Yuan would make sure that he got all the details.

He took out the two golden pearls and said, "Sacred Sword Wielding Queen, since you mentioned the golden pearls..."

Chapter 980: The Best Kind of Love

"You should know how to use them."

The Sacred Sword Wielding Queen hurriedly replied, "Master, did you realize that after I use source-type power to evolve laws to law worlds, there aren't any Creation World Ley Lines in the law worlds?"

Lin Yuan nodded.

In normal circumstances, laws existed in living Myth Breed feys.

If the Myth Breed fey wanted to obtain the Creation World Ley Line, it would have to experience the Trial of World Creation.

The Sacred Sword Wielding Queen could peacefully evolve the laws using source-type power.

When Lin Yuan had used the Dark Death World, he realized that the Night Crow Wither Attack could not inflict as much damage as a Creation Breed fey. It had the power of a pinnacle Myth II fey at the very most.

"Can the two golden pearls be combined with the Dark Death World? They came from Creation World Ley Lines and should have the same effects."

The Sacred Sword Wielding Queen nodded before shaking its head. "They come from different Creation Breed feys. Hence, each golden pearl is vastly different from the other. The Dark Death World can only embed one golden pearl in it.

"The World Source Crystals can not only produce World Crystals but also absorb pure source power. The pure law power can evolve the small golden pearl embedded in the law world and turn it into a complete Creation World Ley Line.

"At that point, the law world will be evolved into something even more spectacular. However, after you evolve the law world once, you'll need new complete Creation World Ley Lines to evolve it again."

Lin Yuan now had a detailed understanding of the golden pearls and World Source Crystals.

The golden pearl from Endless Summer's Creation World Ley Line was larger than the golden pearl from the Kill Food Sky Butterfly's Creation World Ley Line.

Lin Yuan handed the golden pearl from Endless Summer's Trial of World Creation to the Sacred Sword Wielding Queen and said, "Sacred Sword Wielding Queen, combine this golden pearl with the Dark Death World. Next, absorb this World Source Crystal to evolve the golden pearl."

"Master, it'll take a week to combine this golden pearl with the Dark Death World. But after a week, the Dark Death World will become much more powerful. The next time you use Night Crow Wither Attack, you'll see that it can do much more damage than before too. But can I eat the World Source Crystal first? I haven't tasted it before!"

Lin Yuan could not help but smile.

It was not a difficult request. He was definitely going to shower affection on his sacred source lifeform!

The Sacred Sword Wielding Queen giggled and started to spin.

It was only after his conversation with the Sacred Sword Wielding Queen that Lin Yuan realized how much more he had to work on.

It would not be difficult for him to use the Sacred Sword Wielding Queen's skirt to absorb laws, but it would definitely be a struggle to evolve those laws.

It would not be easy to grab Creation World Ley Lines from Creation Breed feys that were experiencing the Trial of World Creation. Lin Yuan would have to find a way to solve this problem.

But Lin Yuan still had the Mother of Bloodbath, Endless Summer, and the Kill Food Sky Butterfly.

Lin Yuan would be able to evolve three different law worlds at least with the three of them and their Creation World Ley Lines.

This was a silver lining.

After he returned the Sacred Sword Wielding Queen to the depths of his soul, Lin Yuan turned to say to the Kill Food Sky Butterfly, "Kill Food Sky Butterfly, you have to stay in the marsh world for now to protect the territory. It won't be easy. I'll send Purple Afterglow here often to accompany you."

The Kill Food Sky Butterfly smiled warmly and replied, "With Purple Afterglow around, anywhere is fine. Lord, I don't care that it won't be easy. All I'm doing is trying to play my part in building my home."

Lin Yuan was stunned by the Kill Food Sky Butterfly's words, and he felt that the Kill Food Sky Butterfly and Purple Afterglow were already acting like a married couple.

It had even said that the marsh world was its home. But it seemed to be really true.

Purple Afterglow did not let any of the warmth that the Kill Food Sky Butterfly contributed go to waste.

To have one's affections returned was probably the best kind of love!

However, Lin Yuan had always been a lone wolf.

Yet, his contracted feys had started to pair off.

Hence, Lin Yuan would have to be prepared for public displays of affection to be a common sight.

Nonetheless, it was amazing that Purple Afterglow would be able to find a Creation Breed fey to be its wife while it was still Bronze grade.

Purple Afterglow was the model butterfly-species fey!

“Kill Food Sky Butterfly, try to communicate with the Marsh Ground Sphagna as much as possible. Tell it to expand the range of its green carpet to survey the surroundings. This way, you’ll be able to sense the first hint of any danger.

“If something like what happened today happens again, you can tell Purple Afterglow to come back to the Spirit Lock spatial zone to alert me. I’ll try my best to send help as soon as possible.”

The Kill Food Sky Butterfly nodded and replied, “Okay! I’ll try my best to use all the earth-type heavenly-maiden-grade elemental pearls you gave me to recover my bloodline and break through to Sovereign as soon as possible. This way, I’ll be able to handle the situation even if another Class 11 Favored Believer comes again. Wendy and Rising Lizard won’t have to be injured anymore.”

The Marsh Ground Sphagna hurriedly piped in, “Lord, I will protect Lord Wendy even if it costs me my life. Can you leave a space for me to map out the surroundings in moss? However, the water doesn’t flow well in the marshes. Thus, it’ll take a long time for the moss to float around to the surroundings.”

Lin Yuan spoke to Rising Lizard and Scale Concubine.
