

# Chapter 101: My Genes Evolve Infinitely

## AMAZING TALENT, DECISIVE

Slum area, Blackwood Street, Leah Community.

Even in the slum area, this community is also a representative of the mess.

There are three teachers in the tenants, and everyone has them.

Li Qinghe came to this community under the leadership of Flamming.

She glanced at the piles of garbage piled up on the street in the community, and couldn't help but frown slightly.

Soon, they came to a room.

In the room, Lin Hong and two night watchmen stood by the window.

The curtains were closed, and a black instrument was placed on the side, aimed at the opposite side. A night watchman looked at the instrument and was observing something.

Seeing Li Qinghe coming in, Lin Hong and the two night watchmen quickly got up.

'My lord! You are here!'

Li Qinghe nodded.

She looked at the opposite side through the drawn curtain, as if she could see the opposite side clearly.

'Xue Ren is opposite?'

‘Yes, according to the information we have, he hasn’t been out in the past few days. But it is not ruled out that he has special genetic warfare skills and can leave without others knowing.’

Lin Hong said.

The corners of Li Qinghe’s mouth raised up, showing a slight smile:

‘Although I am not sure if it is this person, let me ask myself.’

She took a step forward and disappeared in place.

Opposite the residential building, outside Xue Ren’s room, Li Qinghe’s body emerged.

She glanced around, a icy color flashed in her eyes, staring at the room:

‘Can you block my instantaneous step? I really caught it.’

The dark long sword in her hand emerged and slashed at the door of the room.

laugh!!

The door was shattered, and the room was as dark as a magic cave.

One after another weird shadows rushed out, and rushed towards Li Qinghe with a sharp roar.

‘A lot stronger than before.’

Li Qinghe sneered, her whole body flashed with sword light, and the power of darkness surged, killing all the shadows almost instantly.

Then Li Qinghe rushed into the room directly.

In the room, Xue Ren sat cross-legged on the bed, with wisps of evil black mist surging all over his body, beside him, there were two wide-open eyes with horrified corpses in them.

It was Framing's other two suspects, Lucius and Ellis.

Xue Ren looked at Li Qinghe with a hideous face and a strange double echo in his voice:

'Damn, I knew I couldn't go on like this! It's still exposed!'

Li Qinghe narrowed his eyes and looked at Xue Ren indifferently:

'Since it's been discovered, then take it to death.'

'Don't think about it! Kill you, I can leave!'

Xue Ren roared, the terrifying black mist churned, and the air wave surged. The whole room shook. Cobweb-like cracks spread on the wall, and the windows were directly shattered.

That powerful aura, far from being the Tier 2 battle division level mentioned in the intelligence, but reaching the Tier 4 warlord level.

However, even so, Li Qinghe's face remained calm.

She stepped out, and the terrifying dark power above the long sword surged, slashed out with a single sword, and the deep dark sword aura slashed towards Xue Ren.

The terrifying sword aura with an irresistible sword force made Xue Ren widen his eyes, his eyes full of horror.

'what!!'

He roared, and his body suddenly turned into black mist and burst open.

As his body exploded, strange black shadows appeared from the place where he exploded.

The whole room was filled in an instant, and Li Qinghe was also enveloped.

The screams pierced the ears, enough to drive ordinary people into madness.

boom!!

Sword Qi unrivaledly tore apart a group of black shadows, Li Qinghe's body rushed out of the room, floating in the air.

Countless black shadows in the room also rushed out.

Thousands of black shadows weighed on Li Qinghe's head like dark clouds.

In the opposite room, Flamming and Lin Hong saw the black shadow outside the window, their eyes widened and their faces were horrified.

Flamming's voice trembled:

'There are so many shadows?!'

'Xue Renguo is really the host of the alien material?! It's crazy! Are all these people who died in his hands? In just a few years, he has swallowed so many souls. If he is swallowed infinitely, who is there? Can he be stopped?!'

It's not just them.

The movement of the shadows was so loud that almost everyone in the entire community was awakened.

Everyone walked to the window and saw the weird dark clouds outside the window, all showing horror.

'Gosh, what is that?!'

'Is that a ghost? A lot of ghosts are floating in the sky!'

'And that person floating in the air is a genetic warrior? How strong is that to fly in the sky?'

“

Li Qinghe raised his head and looked at the black shadow, with fierce murderous intent flashing in his eyes.

‘Are these all people who died in your hands? It seems that your alienation level is not low.’

The black shadows did not answer, they quickly gathered together to form a huge black shadow more than ten meters high.

The black shadow was full of black air, floating in the air.

The power he showed was even stronger than before.

Even compared to Li Qinghe, it was not much worse.

The huge black shadow opened his mouth and uttered a bitter and strange growl at Li Qinghe.

The air wave moved Li Qinghe’s black hair, she silently took out a cigarette, lit it in her mouth, and showed a smile.

‘interesting.’

The next moment, her body instantly disappeared in place, appearing behind the black figure.

When she appeared behind the black shadow, the black shadow’s roar suddenly stopped.

Hundreds of pieces were separated from its body in an instant, and then bursts of pitch black sword light burst out.

Flaming below saw this scene, they all looked at Li Qinghe with admiration.

‘It’s the shadow of your lord!’

‘Burning the Emperor’s genes in the body of the King of War, your lord is too powerful!’

‘That’s not it, are you kidding? Don’t talk about Daqixing, even in the entire human alliance, adults are one of the most amazing and brilliant geniuses!’

‘It seems to be over.’

When a few people were talking, the separated hundreds of black shadows gathered again and turned into a whole again.

A huge black shadow slammed a punch at Li Qinghe, and his fist rushed towards Li Qinghe with terrifying power.

The powerful air wave formed a storm, the garbage in the community was flying, and the windows broke one by one.

Li Qinghe’s body disappeared in place, and his fist fell on the street of the community.

boom! !

The roar sounded, and a pit with a radius of more than ten meters appeared on the street.

The whole community was shaken.

Flemings stood up straight and looked at the huge pit, their pupils shrank, revealing a look of horror.

‘This shadow is not dead like this?’

‘It’s a foreign object, it’s really weird.’

‘What a powerful power! This strength is already at the level of the King of War, right?’

‘I hope the adults can kill this thing quickly. If this guy is allowed to destroy it, this community simply can’t stand the toss.’

Li Qinghe glanced at the deep hole on the ground and narrowed his eyes.

Her body disappeared in place again.

The shadow froze again.

The next moment, his body was divided into smaller pieces than before.

Countless black sword lights erupted, almost engulfing it.

Li Qinghe's body emerged not far away, looking at the fragments indifferently.

After a while, the fragments squirmed and slowly condensed again.

Li Qinghe raised his eyebrows, and said faintly:

'I don't believe you can recover indefinitely.'

The pitch black sword light broke out again, and the black shadow that had just begun to condense was once again torn apart.

Not far from the community, Xue Ren's body emerged.

At this moment, his body has become a little dry, the hair that was originally black and white has become completely pale at this moment, and his face is extremely pale.

The strength that had already reached the fourth-order war-sage level was severely slumped at this moment, and the aura was extremely weak.

He glanced at the black shadow that was constantly being twisted into pieces in the distance, and coughed up a mouthful of blood:

'Damn! Damn! King of War! That guy is King of War! Why is there such a strong in the ghetto?! All the hard work of the past ten years has been lost! No way, it can't be stopped for long. That's a monster! Even if all the souls are poured out, she can't stop her. Evacuate first, and go to the wilderness area first!'

He clutched his chest and ran away cautiously.

Just after he ran a certain distance, he suddenly saw two figures not far away.

After seeing Xue Wang's familiar face, Xue Ren's eyes flashed black and a smirk appeared.

‘At least I can recover a little bit.’

He turned into an afterimage and rushed towards the two of them.

Lu Yuan and Xue Wang heard the roar and looked in the direction of the roar.

When they saw the black mist surging in the distance, both of them stared.

‘what is that?!’

Xue Wang looked shocked: ‘Gene warrior?! How can there be such a strong gene warrior in the slum area?’

Lu Yuan felt the breath in the distance, his face was full of consternation.

I don’t know if it is an illusion.

Of those two fighting auras, one of them seemed very similar to the one he felt at home before? !

How could he be a genetic warrior of this level? ?

Why would a genetic warrior of this level target Sister Qinghe?

Lu Yuan’s mind was full of question marks.

Just when the two were shocked, a black shadow suddenly flashed and leaped towards Lu Yuan.

The powerful breath caused Lu Yuan’s hair to explode and his body was cold.

His pupils shrank violently, and the fatal threat made him sober.

A crimson light flashed all over his body, the red copper light was running at full force, and the black steel energy was running along with it.

Under the deadly threat, Lu Yuan squeezed the power of his whole body, and the profound meaning of Hei Gangjin and his previous experience in the gravity room flashed crazily in his mind.

All the power in his body was mobilized for the first time, the muscles and internal organs vibrated at a peculiar frequency, and the power exploded.

Hei Gangjin's fourth weight was used by Lu Yuan under such a deadly threat.

The battle armor appeared on Lu Yuan's body, and the heavy sword appeared in Lu Yuan's hands.

Lu Yuan raised his sword across the gear.

Xue Ren's fist fell on the heavy sword.

boom!!

The violent power gushed from Xue Ren's fist and fell on the heavy sword.

The heavy sword hit Lu Yuan's chest heavily, venting his strength.

Lu Yuan's body flew out backwards.

Khakaka

There was a sound of broken bones.

Lu Yuan's body slammed into one of the high walls, and a big hole was smashed into the high wall.

Then his body fell to the ground.

Lu Yuan spewed out a big mouthful of blood, his brain was a little blank for a moment, and then he was overwhelmed with pain.

He could feel his sternum and ribs fractured, his arms numb, and internal organs with varying degrees of severe pain.

With just one punch, Lu Yuan was directly injured seriously.

He didn't have time to think about it, fully used his spiritual power, stimulated the rejuvenation combat skills, and the vitality bloomed in his body.

His body began to recover.

Lu Yuan took out another bottle of powerful healing potion and poured it with difficulty.

Powerful healing potions and rejuvenation combat skills work together.

A warm feeling emerged from Lu Yuan, and his injury recovered extremely quickly.

Only then did Lu Yuan raise his head to look at the figure in the distance, and seeing the somewhat familiar and unfamiliar face, Lu Yuan's pupils shrank slightly.

Is this the boss of that wild dog gang?

Xue Ren's hair turned pale and looked much older, and Lu Yuan almost didn't recognize it for a while.

But why did this \*\* attack me suddenly?!

The killing intent in Lu Yuan's heart boiled, and he felt a little frightened.

Almost, if his strength is weaker, he may die directly.

Xue Ren fisted and flew to Lu Yuan, and when he saw that Lu Yuan was not dead, a flash of shock flashed in his eyes.

Although his strength was greatly reduced and his vitality was severely injured, the strong among the Tier 2 battle divisions should be dying to receive a punch from him.

A mere first-order fighter, even alive after receiving a punch?

Why?

He took steps to kill Lu Yuan.

At this moment, Xue Wang stood in front of Xue Ren.

When Xue Ren saw Xue Wang, his face was cold, and he stopped.

The two stood opposite each other, and the atmosphere was a little silent.

But only for a moment of silence, Xue Ren knew how long the dark shadow could not stop Li Qinghe, he didn't have much time, and his whole body was surging.

Seeing this, Xue Wang showed an inexplicable look on his face, and the corners of his mouth pressed slightly:

‘Sure enough, do you want to do it to me?’

Xue Ren said coldly:

‘You are my son, and everything you have is for you, including life. I just take back what belongs to me.’

‘Ah’

Xue Wang laughed.

He took off his sunglasses silently, and his strange green eyes burned in the dim air.

‘After my mother died, I knew that there would be such a day. Let's close it.’

A thick black mist appeared in Xue Ren's eyes, and he spoke faintly:

‘You were made by me. Do you think you will be my opponent?’

On Xue Wang's body, crimson leather armor emerged, and he showed a bright smile:

‘Who knows? Ooo!!’

Xue Wang roared, the faint green light flashing in his eyes~[www.mtlnovel.com](http://www.mtlnovel.com)~ his aura skyrocketed.

Lines of silvery-white hair grew on his skin, which looked like a monster.

Fighting skills silver wolf berserk.

A dignified look appeared on Xue Ren's face, and he spoke lightly:

'The genes are not fully integrated, and you forcefully stimulate combat skills with all your strength, are you not afraid of mutations?'

Xue Wang's face full of silver hair now showed a sorrowful smile, and his eyes flashed with the meaning of death:

'It doesn't matter, my purpose of burning the Silver Wolf gene is not just for the present?'

'Oh, let's start then.'

A light red blood light appeared on Xue Ren's body, and there was a hint of black mist in the blood light.

Although Xue Ren's breath looked very weak at this moment, the pressure still made Xue Wang's face serious.

'I don't know what you have done, it seems to have become stronger. But I don't think it would be a good thing, right?'

Xue Ren did not speak, stepped on his body and rushed towards Xue Wang.

With a thick blood glow attached to his fist with a spiked glove, he blasted towards Xue Wang's head.

Combat Skill Fist

Xue Wang looked cold and greeted Xue Ren with the same punch.

boom!!!

The two fists collided, making a roar.

Xue Wang snorted and took a few steps back.

Xue Ren only took a half step back.

He looked at Xue Wang and said lightly: 'It seems that you are not my opponent yet.'

Xue Wang smiled coldly, stepped on the ground, and a cobweb-like crack appeared on the ground, and his body rushed up again like a silver light.

The two crossed fists and feet, staggered, and from time to time they fell on the wall with one fist and one foot, punching large holes in the wall.

boom! !

It was another collision. Xue Wang flew out and hit the wall hard, with a trace of blood spilling from the corner of his mouth.
