

Chapter 108: My Genes Evolve Infinitely

LEVEL 1 TEMPERING DEGREE IS PERFECT

Hearing what Lu Yuan said, both Gwen and Wang Lingling were taken aback.

The two looked at Landing Yuan, a little surprised.

300,000 first-order spirit crystals are naturally nothing to the rich, but for the first-order fighters, it is undoubtedly an astronomical number.

Unexpectedly, Lu Yuan didn't even think about it, so he refused so simply and neatly.

Amy pulled Lu Yuan even more: 'What about 300,000 first-order spirit crystals! Are you stupid, why don't you?'

Lu Yuan was full of black lines and looked at Amy speechlessly.

I have never seen anyone who wants to send money out so much.

Gwen looked at Lu Yuan, and after being silent, he smiled:

'I think you should be about the same age as Amy, so how about I just call you Xiaofeng?'

Lu Yuan smiled and said, 'Of course.'

He was a little embarrassed.

I knew I hadn't fooled Amy before.

Good, everyone calls him Lei Feng. If he tells his real name, I wonder if Gwen would kill him?

Gwen didn't know what Lu Yuan thought, she smiled and said:

‘Xiaofeng, no matter what reason you saved Amy for, since you saved Amy, then we naturally have to repay. Otherwise, wouldn’t our Algabe family know the gratitude and not repay it? This spread, others What do you think of our family? Do you want me to be difficult?’

Lu Yuan: ‘…….’

He didn’t know how to answer.

Dare to feel that it is not good not to accept it?

The corners of his mouth twitched: ‘If that’s the case, then I’m not welcome.’

He reached out and took the bearer card.

Gwen smiled with satisfaction.

‘This is also right. Okay, I have other things to be busy, Lingling, you can walk around with Xiaofeng for me.’

Gwen stood up and left the drawing room.

After Gwen left, Wang Lingling looked at Lu Yuan and smiled and said:

‘Mr. Lei, why don’t I show you around?’

Lu Yuan thought about it, then smiled:

‘Don’t bother Miss Lingling. Now that I have arrived in Tianluo City and have obtained so many spirit crystals, I should go and practice well.’

Amy was planning to go shopping when she heard Lu Yuan’s words, her eyes widened:

‘Lei Feng, are you leaving now?’

‘Well, didn’t we add friends? You can contact me at any time.’

Lu Yuan smiled.

Wang Lingling heard the words and said:

‘Then I will take you out of the house. Do you want to go somewhere? I will send someone to take you there.’

Lu Yuan thought for a while:

‘Thank you for sending me to the martial arts gym.’

‘no problem.’

Wang Lingling brought Landing Yuan out of the house. At the door, the previous carriage was already waiting.

‘Amy, contact me if you have something.’

After saying goodbye to Amy and Wang Lingling, Lu Yuan got into the carriage.

The carriage door was closed, and the landing edge was taken away.

Amy sighed a little disappointed as he watched the carriage drifting away.

‘I still want Lei Feng to join my adventure team.’

Wang Lingling smiled and said:

‘Miss’s adventure team, I will prepare a candidate for you. Now you are running all the way, you should be tired too, why don’t I take you to rest first?’

Amy nodded.

After Wang Lingling left with Amy, he came to the study.

Gwen was working, and when Wang Lingling came in, he smiled and said:

‘Lei Feng is gone?’

Wang Lingling nodded: ‘Well, he said he is going to the martial arts gym.’

‘It’s no wonder that you are so hard working so hard.’

Gwen sighed and smiled:

‘Lingling, what do you think of Lei Feng?’

Wang Lingling thought for a while: ‘Is he a good person? Since he can make a move because a different race is besieging the same race, and he is still unwilling to be paid, he should have a bottom line in his heart, and his heart is not bad... Maybe a bit silly, isn’t it?’

Gwen nodded.

Wang Lingling thought of something, and said:

‘However, I think Lei Feng may not be his real name.’

Wang Lingling recalled the first time he met before, Lu Yuan’s reaction to this name, and talked to Gwen about his guess.

Gwen smiled and shook his head: ‘It doesn’t matter if his real name is. If he is really special, we will always know his real name in the future. Otherwise, it doesn’t matter if he doesn’t know his real name.’

Wang Lingling nodded: ‘Master Gwen is right.’

‘Okay, you can go with Amy. Now that you have come to Tianluo City, she should also grow up.’

Wang Lingling nodded and left the study.

.....

Not long after Luyuan got on the carriage, the carriage stopped.

The door opened, and the middle-aged coachman said:

‘Mr. Lei, the martial arts hall is here.’

Lu Yuan got out of the carriage, and when he saw the carriage, he stopped at the entrance of the martial arts hall.

Tianluo City's martial arts training hall is more majestic than Sand Rock City, and there are more people coming and going.

Gene warriors passing by will always look at Lu Yuan secretly.

Lu Yuan can also understand, after all, there is a pattern of Tianluo wisteria on the carriage, which is the symbol of Tianluo Mansion.

naturally attracts attention.

He turned his head to look at the coachman:

‘sorry to bother you.’

The coachman looked respectful:

‘This is what I should do. Then I will return to life first.’

After the coachman left, Lu Yuan also entered the martial arts training hall under the gaze of the genetic warriors.

After Lu Yuan entered the martial arts training hall, a group of genetic warriors began to discuss.

‘Who was that person just now? He came here in the carriage of Tianluo Mansion.’

‘Yes, people who can be this carriage are either rich or expensive. I am afraid they have a certain status in Tianluo Mansion? Why haven't you seen such a person before?’

‘Looking at his age, I am afraid he should not be too old. Maybe he has just entered Tianluo City. Maybe he is the heir of the Tianluo family?’

‘.....’

.....

The layout of Martial Arts Hall is similar to that of Shayan City.

But unlike Sand Rock City, there is no construct here.

As a city owned by individuals, the martial arts hall is home to excellent-looking genetic warriors.

‘Hello, what room do you want to open?’

Lu Yuan found the service staff by the stairs to the second floor.

‘I want to rent a gravity room.’

‘The primary gravity chamber has 80 first-order spiritual crystals in an hour, and the intermediate gravity chamber has 800 first-order spiritual crystals in one hour.’

Lu Yuan was taken aback: ‘What is the difference between the primary gravity chamber and the intermediate gravity chamber.’

The woman explained with a smile: ‘The gravity range of the primary gravity chamber is 1 to 100 times, and the gravity range of the intermediate gravity chamber is 1 to 1000 times.’

‘100 times?’

Lu Yuan was surprised, no wonder it was so expensive.

The gravity chamber of Sand Rock City is only 10 times the highest.

‘Open a primary gravity room for five hours.’

Lu Yuan handed over the bank card. He had already transferred the money from the bearer card to his own card.

‘Good sir.’

The woman operated for a while and quickly opened the gravity room.

Luyuan went upstairs and came to the gravity room, adding a little bit to 9 times the gravity before he felt the limit.

felt the familiar heaviness, he felt like going home.

Because he had to go through the foggy forest, he hadn't come to the gravity room for several months to practice.

Now I can finally practice again.

Moreover, he still has 300,000 first-order spirit crystals, which can be cultivated for a long time.

Lu Yuan sat down cross-legged, began to take out the spirit crystal, and absorbed it.

Five hours later, Lu Yuan left the gravity room, his face a little tired.

After five hours of high-load training, the absorption speed of the spirit crystal has been increased several times compared with before.

consumed more than a thousand first-order spirit crystals.

converted into a zero-order spirit crystal is more than ten thousand, it can be said that the consumption is huge.

Even if he had 300,000 ling crystals in his hand, I am afraid that he could only use the origin time for half a month.

This is just the beginning. As the tempering degree increases, his speed of absorbing spirit crystals gets faster and faster, and he may not be able to hold it for half a month.

Although it consumes a lot of money, Lu Yuan has no complaints.

If you want to increase the speed quickly, you have to spend more resources.

This is because Lu Yuan's spirit crystals are absorbed very fast. Others want to improve so fast, they can't do it if they want to consume so many spirit crystals.

Five days later, when Lu Yuan left the place of origin, he consumed 100,000 first-order spirit crystals, and his rejuvenation tempering degree had increased to just over 50%.

After spending a day in the real world, Lu Yuan once again returned to the place of origin.

Nine days after the origin of , Lu Yuan successfully tempered the rejuvenation gene chain to 100%.

even had 3000 first-order spirit crystals left in his hand.

Up to now, Lu Yuan's two gene chains have all been tempered to completion.

As Lu Yuan's tempering degree reached 100%, the second gene lock also appeared.

Perhaps it was because the two extraordinary genes before Lu Yuan had all evolved to the boss level.

This time the gene lock has eight black chains.

This means that Lu Yuan needs eight first-order rough stones to break the gene lock and open the third gene chain.

Lu Yuan feels his head is a bit big.

How long does it take to collect?

I can only look for it, where there is a Tier 1 fierce beast leader, even the leader of the fierce beast.

Only by hunting these fierce beasts can we gather the rough stones relatively quickly.

In addition, in addition to the rough stone needed to break through the gene lock, Luyuan also needs to charge the Evolution Cube, trying to evolve the rejuvenation gene.

The Red Copper Light cannot evolve for the time being. After all, he has used it, and even Sister Qinghe knows his combat skills. If it evolves, it will be very troublesome to be known when the combat skills change.

But he hasn't used the rejuvenation combat skills in front of outsiders, and evolution is still okay.

After evolves, the increase in body is not bad, and it can improve a lot of combat power.

This requires a lot of spirit crystals again.

After leaving the training hall, Lu Yuan planned to leave Tianluo City for the first time to hunt down the beasts and obtain spirit crystals.

As for the place to go, it is naturally a foggy forest.

The outermost area of the Misty Forest is all first-order fierce beasts.

A little bit inside, it is the second-order fierce beast.

At this moment, Lu Yuan's two bosses' genes have reached 100% temperament, and their strength is already very strong.

Even the fierce beast leader of the first-order peak, he has the confidence to easily kill.

even he has the confidence to leapfrog and kill the second-order fierce beast.

The outer circle of the misty forest is very suitable for the current land margin.

.....

Real time, half a month later.

In the morning, Lu Yuan's room door was knocked, and Li Qinghe's voice came from outside the door.

'Brother fate, have you got up!'

'I'm coming.'

Lu Yuan just finished washing, walked out of the bathroom and opened the door.

Li Qinghe wore a simple slim white t-shirt and a slender blue denim, showing off his hot body perfectly.

Lu Yuan glanced across her chest, and the waves were rough.

Li Qinghe narrowed his eyes and gave a smirk:

'Does it look good?'

Lu Yuan's face became stiff.

Fuck?

Can you find this too?

is unscientific!

He saw Li Qinghe smiling, he gave a dry cough and nodded seriously:

'nice!'

Li Qinghe smiled brightly, gritted his teeth and pinched Lu Yuan's face.

'Sorry, I was wrong.'

'Humph!'

Li Qinghe snorted and let go.

'Hurry up and have breakfast, ready to go. The test is at ten o'clock.'

Lu Yuan nodded.

Breakfast is made on the 1st, very hearty.

All kinds of buns, pastries and so on.

After breakfast, the two came to the garage.

A fiery red floating sports car parked in the garage.

Li Qinghe naturally has a car, but he came back from the airport before, so he was able to get a taxi.

In the past few days, as long as Lu Yuan was out of the place of origin, Li Qinghe always took him to go shopping, driving this car.

After getting in the car, Li Qinghe put on the sunglasses hanging on the car, grabbed a cigarette, and started the engine.

The fiery red sports car turned into a stream of light, rushed out of the garage, and flew up.

Lu Yuan quickly grabbed the handle and fastened his seat belt.

Li Qinghe glanced at Lu Yuan, breathed out smoke rings, and despised:

‘It’s been so many times, and I’m so afraid of death.’

The corners of Lu Yuan’s mouth twitched, and he glanced at the almost invisible scenery outside the window, a bit blinded.

At your speed, who is not afraid of death!

He twitched the corners of his mouth and smiled dryly:

‘Sister Qinghe, I will learn a car in a while, or should I drive it?’

‘No! I’ll drive it myself!’

Li Qinghe looked at Lu Yuan with a smile.

‘Ah...Will I take a taxi next time?’

‘Huh? What did you say?’

Li Qinghe narrowed his eyes and looked at Lu Yuan with a smile.

Lu Yuan: ‘...I said you drove quite steadily.’

‘This is pretty much the same.’

galloped all the way, and it didn’t take long to arrive at the inner ring of the imperial capital.

The inner ring is not a commercial area, there are few people, and the surrounding environment is quiet.

The floating car flew all the way, and finally stopped in front of a gate.

‘Here, get off.’

Li Qinghe opened the car door and walked down.

Lu Yuan also followed.

He looked at the front door.

The gate is tens of meters wide, and there are two huge statues of beasts on both sides.

On the left is a huge black tiger with a one-horned body, and on the right is a huge bear covered with a thick purple rind.

The breath of these two fierce beasts made Lu Yuan’s forehead cold sweat burst out~www.mtnovel.com~ Lu Yuan looked over, and the two fierce beasts looked up and roared as if they had come to life.

His face turned pale, and he felt his spirit had been shocked.

Li Qinghe glanced at Lu Yuan and patted him on the shoulder.

Lu Yuan came back to his senses, looking at the two statues of fierce beasts with some horror.

‘What’s the matter with this statue?’

Li Qinghe raised his mouth, with a smirk:

‘This is not a statue. Take a closer look.’

Lu Yuan was taken aback and looked at the two statues carefully.

Then he found that the details of the statue were too vivid, and the fur and the armor were delicate, just like a real beast.

Lu Yuan widened his eyes slightly, and guessed:

‘Is this a real beast?!’

The two fierce beasts were both dozens of meters high, and it was the first time that Lu Yuan saw such a huge beast.

Li Qinghe nodded:

‘Well, the one on the left is the Devil Tiger, and the one on the right is the Dragon Blood Savage Bear. These two fierce beasts are both great emperor-level fierce beasts. They were brought back after being killed by the Emperor of the Red Maple Empire. It’s here to suppress evil. The evil evil tiger was killed by my old man that day.’

Lu Yuan: ‘.....’

The corners of his mouth twitched, and his scalp felt numb.

Take the corpse of a big emperor-level beast to suppress evil? !

Should it be said that it is a genius camp?
