

Chapter 114: My Genes Evolve Infinitely

IMPERIAL PRINCE, SI TINGFENG

Lu Yuan's pupils shrank slightly.

Teleportation ability!

No wonder it takes so many credits.

It's too rascal to be able to move instantaneously during battle.

Is there a stronger body style than this?

Boss level.....

If he buys this extraordinary gene, he can burn it directly as long as he breaks through.

Although the shortcomings of flashing are quite obvious, one is that the distance is very short, and the other is that the spiritual power is not small, but he can continue to evolve, and maybe he can directly travel through space at that time, maybe from one planet to another planet?

It's a pity that he doesn't have so many credits...

3 million credits.

How can I do this?

Lu Yuan was full of black lines, and he was a little skeptical that Genius Camp had marked such a high price, just because he didn't want to sell the transcendent gene.

Lu Yuan had to look at other extraordinary genes again.

Instant Shadow Sword can move in the shadows and jump out of the shadows of others to attack.

is a leader-level combat technique that requires 800,000 credits.

Thousand Flower Phantom Art is a type of physical skill, which has the illusion effect to confuse the opponent.

Although the speed is very fast, its power is greatly reduced in the face of enemies who are immune to illusion spells.

This requires 600,000 credits.

rushing to thunder is also a speed type combat skill. The body turns into thunder, which can burst out at a very fast speed.

requires 500,000 credits.

Lu Yuan looked at his scalp numb, each of which cost hundreds of thousands of credits, which was too exaggerated.

Robbery can't get so many credits, right?

and many more.....

Lu Yuan's expression changed, and suddenly he thought of something...

Robbery?

gambling?

If Lu Yuan is gambling, maybe he really hopes to earn a few million credits?

But this has to be planned.

Lu Yuan felt that he might not be able to do this now, after all, his strength was too weak.

Isn't going to bet to give credits to people?

Oh, he only has 100 credits.

That's all right.

Lu Yuan closed the classification of extraordinary genes and didn't want to look at it anymore.

I don't have to look sad.

Then Lu Yuan thought that his cultivation base had reached the peak of Tier 1 now. Maybe there are rough stones or heaven, material and earth treasures that can help break the genetic lock for sale?

Lu Yuan had been hunting fierce beasts before, and only obtained two first-order rough stones.

is far away from the eight first-order rough stones needed to break through.

If you can buy first-order rough, it would be best.

Lu Yuan looked forward to the rough stone.

I didn't expect to be found by Lu Yuan.

Whether it is the first-order rough stone from a fighter breakthrough to a battle division, or a second-order rough stone from a battle division to a battle general, or even a third-order rough stone from a battle general to the battle master.

The price of a first-order rough stone is 500 credits.

is cheaper than he thought.

It's a pity that Lu Yuan couldn't afford it even if it was so cheap.

He only has 100 credits.

And he still needs six first-order rough stones.

adds up to 3000 credits.

Only the 4th to 10th places in the combat power rankings have 3000 credits.

It's hard enough to get six rough stones.

Lu Yuan was a little helpless.

He checked other items again.

He found that the value of 100 credits is almost equivalent to a first-tier boss weapon with relatively poor effect.

But Lu Yuan is not short of genetic weapons now, so he didn't buy it.

He intends to save the credits and buy the rough stone directly.

Lu Yuan was still checking the mall, the door of the room was knocked, and McGonagall's voice sounded:

'School Lu Yuan, come out soon, Senior Master Si Tingfeng is back. Come out, we will meet you and Junior Brother Yang Ping!'

'coming.'

Lu Yuan turned off Guangnao and opened the door.

When he opened the door, McGonagall had already knocked on Yang Ping's door opposite.

Soon, Yang Ping also walked out.

'Go down quickly. Tingfeng-senpai is already waiting for you below.'

McGonagall smiled.

The three people went downstairs and came to the restaurant.

At the dinner table, a handsome young man with black hair is placing tableware with Becky.

McGonagall smiled and said:

‘Listen to Feng-senpai, they are down.’

said, he turned his head to look at Lu Yuan and Yang Ping:

‘Let me introduce to you two, this is the senior of Si Tingfeng, he is the four princes of our empire, and he is also very talented in cultivation, and he is always in the top ten of the battle list.’

Lu Yuan and Yang Ping were both taken aback, their eyes widened in surprise.

Yang Ping was a little excited and said:

‘I was a little confused when I heard the surname of Si before, it turned out to be His Royal Highness the Four Princes.’

Lu Yuan heard this name, and suddenly thought of it as if he had seen similar names somewhere before, and he always felt a little familiar.

But he can’t remember it for a while.

At this time Si Tingfeng has already set the tableware with Becky, his handsome face is smiling, and it looks a little free and unrestrained:

‘Don’t call your Royal Highness the prince, everyone is a student of the genius camp, and the future will be the pillars of the empire. I am no different from you, just your senior. Just call me senior.’

‘Okay, Mr. Feng Feng. My name is Yang Ping.’

Yang Ping scratched his head a little embarrassedly, and smiled.

Lu Yuan also introduced herself with a smile:

‘Listen to the wind and learn well. My name is Lu Yuan.’

Si Tingfeng glanced at Lu Yuan and said with a smile:

‘School brother Lu Yuan, when I came back, I heard someone discussing you. I heard that you were only Tier 1, and you were able to fight the low-level bosses of Tier 2 during the test? It’s really amazing. I’m afraid it won’t take long. You are in the top 50 of the list.’

McGonagall listened to Si Tingfeng’s words and looked at Lu Yuan with a little surprise:

‘Lu Yuan schoolboy is so strong? Hasn’t he joined the genius camp before he has such a strong combat power? Isn’t he eligible for the top ten in the future?’

Lu Yuan smiled a little embarrassedly: ‘It’s just good luck.’

‘Strength cannot be explained by a word of luck. The so-called good luck is just the inevitable result of hard work.’

Si listened to the wind and said with a smile, then he said:

‘Stop talking about this, let’s eat first.’

Four people were seated, Si Tingfeng raised the glass full of beer and smiled:

‘Welcome two younger students to enroll and stay in dormitory 112. You can get along well. As your seniors, if you have any difficulties in the future, you can contact me.’

McGonagall also toasted and laughed:

‘Also, I’ve been in the genius camp for three years more than you. You can contact me if you have any questions.’

‘Thank you, Mr. Tingfeng and Mr. McGonagall.’

Four people clink glasses.

While eating, the four of them chatted.

Yang Ping was a little excited and said:

‘I looked at the school mall just now, there are so many good things, but unfortunately there are no credits to buy.’

He was a little depressed and poured a glass of beer.

McGonagall ate a piece of meat and said with a smile:

‘Credits, no matter which student is missing, I have been in school for three years, and I still lack credits, let alone me, even the top ten geniuses such as Tingfeng senior, and even school teachers. Missing credits.’

Si Tingfeng nodded and said:

‘Meg is right. The time for your enrollment is a bit unlucky. Today is September 3rd. It happens to be the beginning of the month. If you enroll at the end of last month, you can have a combat power test at the end of the month, and you can get a fight. Rewards for strong leaderboards.’

Hearing this, McGonagall echoed:

‘I heard that Senior Feng said that it was right. Especially for Lu Yuan’s younger brother, it is really a loss. Lu Yuan’s younger brother is already able to fight the second-tier bosses, and he must be firmly in the top 300 of the battle list. First name, that’s 500 credits. For Lu Yuan’s cultivation base, 500 credits can buy a lot of good things. Of course, Yang Ping’s junior does not matter. Anyway, after 500, it’s 10 credits. Are they all the same.’

Yang Ping: ‘???’

Don’t know what’s going on, he feels insulted.

I feel a little bit heartbroken.

Yang Ping looked at McGonagall a little bitterly, and poured another glass of beer.

The bitter wine enters my throat and my heart hurts.

Lu Yuan showed a trace of heartache when he heard McGonagall's words:
'Mag- senior McGonagall, what you said is a bit uncomfortable. I feel that I have lost a hundred million.'

'Hahahaha, if you really want to count it, even if you don't have one hundred million for 500 credits, it's not much difference.'

Si Tingfeng said with a smile: 'If your heart hurts, just have a drink, so you can feel better.'

Before Lu Yuan drank it, Yang Ping next to him drank a glass of wine. He was a little curious and asked:

'Listening to the wind senior, how can I get credits quickly?'

After paused, he spoke again:

'Except for the battle list.'

Yang Ping is still very self-aware, knowing his own strength.

Lu Yuan also looked at Si Tingfeng with some curiosity.

Si listened to the wind and thought about it, then said:

'In the early stage, doing tasks is one way. Doing some simple tasks can also earn some credits. In addition, you can also use some precious treasures to privately trade credits with other students. After you have a certain amount of credits, you can change some physical skills or even Spirit skills increase combat power, hit the combat power list, the combat power list is higher, you get more credits, and your strength improves faster. You can do higher-level tasks and go to the place of origin to get more precious treasures. Form a virtuous circle.'

Yang Ping nodded as he listened: 'Then I will go and see what tasks I have tomorrow!'

Lu Yuan asked curiously: 'Can credits be traded privately?'

McGonagall smiled and said: 'Of course, the school does not prohibit it, naturally you can trade. Even our student forum can also post trading posts, you can sell any good things you have. If your things are precious enough, even Teachers will buy them with credits.'

Si Tingfeng said: 'Meg is right: in addition to these, gambling is also a good way. Of course, for the two of you, the strength is not good.'

Lu Yuan nodded thoughtfully.

In his current situation, he still goes to the place of origin to obtain more resources, evolve genes, and improve his cultivation. If there is a treasure, he will trade it for credits.

Then use these credits to transform into combat power and hit the combat power list.

This road suits him best.

A sumptuous dinner lasted for a few hours. After the end, everyone went upstairs and returned to their rooms.

As for the handling of leftovers, Becky is there, so naturally there is no need for Lu Yuan to handle it by himself.

Because Lu Yuan came out of the place of origin this morning, he needs to wait until tomorrow if he wants to go in again.

At night, Lu Yuan lay on the bed to rest and turned on the phone.

Li Qinghe sent a message to Lu Yuan before.

'Brother fate, how is the accommodation? Are you still used to it?'

Lu Yuan smiled and replied:

'I'm still used to the fact that there is another prince of the empire in the same building as me, called Si Tingfeng. Just now he and another senior gave me a reception dinner with Yang Ping.'

Li Qinghe has not yet entered the land of origin, and quickly replied:

‘So you and Si Tingfeng are in the same dormitory?’

‘Sister Qinghe, do you know him?’

‘Well, after all, the Si family also has a war emperor, and our Li family is nominally a family of the Red Maple Empire. The relationship with the Si family is fairly close. Of course we know each other.’

Lu Yuan suddenly.

Think about it, the Li family, as a war emperor family, is extremely noble, and it is normal to know the royal family.

‘By the way, I have already contacted your tutor, and she should come to you tomorrow.’

Seeing Li Qinghe’s news, Lu Yuan was stunned:

‘She? Sister Qinghe, who are you talking about?’

‘Sister, my best friend, she happens to be a mentor in the genius camp, and she is also a guardian warrior. Sister, I will let her take care of you.’

Lu Yuan is full of question marks.

Sister Qinghe’s best friend?

‘Is it a girlfriend who has a room in your house?’

‘Yes, brother Yuan is quite smart? She is a big beauty. She has a lot of requirements for recruiting students. There are many students who want to join her, but now she has confiscated even one student. My sister has been working on it for a long time. Let her give you a chance, don’t lose your sister’s face.’

Lu Yuan looked at the news, a little surprised.

With Sister Qinghe's talent and strength, her girlfriends shouldn't be weak, right?

Lu Yuan was looking forward to it.

'Sister Qinghe, don't worry, I'm a genius.'

'Look at you proud, wait until you pass me. Little rookie.'

Li Qinghe hit Lu Yuan mercilessly.

After chatting with Li Qinghe for a while, Lu Yuan began to rest.

Early the next morning.

Lu Yuan was still cultivating, and he heard a little excited voice outside the door:

'School brother Lu Yuan! Senior brother Lu Yuan! Open the door, open the door, someone is looking for you!'

Lu Yuan opened his eyes, a little puzzled.

is the voice of McGonagall.

He went out and saw McGonagall's expression very excited. Behind McGonagall, Yang Ping was also there.

Seeing Lu Yuan open the door, McGonagall looked up at him with a very complicated expression.

'Fuck! Lu Yuan, you finally figured it out! Tell the senior, how did you do it?'

Lu Yuan: ' ?'

He looked at McGonagall with a puzzled look: 'How did you do it?'

McGonagall's eyes were red: 'Of course it is Teacher Si Tingyu! Teacher Si Tingyu came to us to find you~www.mtlnovel.com~ and said that he would

accept you as a student?! How did you do it? That's Teacher Si Tingyu! The dream lover of all the teachers and students in the Genius Camp!

Mr. Shi Ting Yu?

Lu Yuan was stunned, and then thought of what Sister Qinghe said yesterday.

Sister Qinghe said that the teacher she was looking for was this Si Tingyu?

and many more.....

Si Ting Yu, Si Ting Feng...

Lu Yuan's face is a bit weird.

Isn't this also royal?

Think about it carefully, as Li Qinghe's status, her best friend may really belong to the royal family.

Seeing Lu Yuan was a little stunned, McGonagall asked eagerly:

'School brother, Lu Yuan boy! How on earth did you do it? Could you ask Mr. Si Tingyu to accept another student?'

Behind McGonagall, Yang Ping looked at Lu Yuan expectantly, his eyes full of longing:

'Ah... Um, Brother Yuan, you see, brother, I don't have a mentor yet...'

Lu Yuan: '.....'

Looking at the appearance of the two, Lu Yuan was full of black lines.

Mom's mental retardation.

Yang Ping is a force attack system, McGonagall is an assassination system, and neither of them is a guardian system.

Do you still want to be a guardian fighter student?

Is this brain broken?
