

Chapter 116: My Genes Evolve Infinitely

DON'T BULLY MY LADY

‘El Mechanical Ruins? What is that?’

Lu Yuan asked curiously.

Amy looked surprised: ‘You don’t even know the Ayre Machinery Ruins? It is a super-large ruin world. Inside is a lost world of mechanical civilization. There are many treasures, like those high-tech civilization inheritance crystals. There are also a variety of genetic medicines, even psionic weapons, mechanical warriors and the like. They are activated only once in 50 years of origin, and each activation lasts for twelve days of origin. Only Tier 1 genetic warriors can enter each time. Everyone gets a lot of resources from it.’

Lu Yuan’s eyes lit up when he heard the word resource.

‘Can you really get a lot of resources?’

He is too short of resources!

‘Of course it is true, can this lady lie to you?’

Seeing Lu Yuan suspected her, Amy pursed her mouth in dissatisfaction.

‘Ah, am I not surprised? Do you want me to go with you?’

Amy nodded:

‘Well, because only Tier 1 fighters can enter the El Mechanical Relics, this young lady of course finds a stronger teammate. Lei Feng, even if your strength is weaker than Miss Ben in the Tier 1 fighters, you will not be weaker. , If we are together, gods will definitely block and kill gods, and Buddhas will block and kill Buddhas!’

Seeing Amy’s confident look, Lu Yuan was full of black lines.

He wants to say that he is stronger now.

Anyhow, it has evolved a leader-level gene, can it still be weak?

But Amy's strength, Lu Yuan still has some understanding.

During this period, Lu Yuan occasionally chatted with Amy and exchanged feelings when she was free. She had already burned the second transcendent gene, and her strength skyrocketed.

Even now, Lu Yuan may not be able to beat Amy.

After thinking about it, Lu Yuan nodded: 'Okay, we will go together then.'

If he joins forces with Amy, it should be a very strong combination in Ayr Mechanical Ruins.

Seeing Lu Yuan's agreement, Amy smiled: 'That's it. You can keep up this time and continue to improve!'

Lu Yuan nodded and smiled: 'You can rest assured.'

Turning off the communication crystal, Lu Yuan continued to practice.

The origin time is half a year. If you work harder, you should be able to refine the 'Seeds of Nature' gene to more than 70%, and then his strength can be greatly improved.

Because of the resources involved, Lu Yuan had to go all out.

can't go wrong at all.

.....

real world.

Dormitory No. 112.

Lu Yuan, Si Tingfeng, McGonagall and Yang Ping are eating dinner.

Yang Ping suddenly thought of something, and said:

‘By the way, Brother Yuan, the El mechanical relic will be opened soon. How about we team up together? Min’er and Lin Wei contacted me at noon. The three of us plan to team up together. Let me ask you. Views.’

Lu Yuan was taken aback, and then he said:

‘I just promised a friend to go to the ruins with her.’

Yang Ping was taken aback, somewhat disappointed:

‘Ah? Who is your friend? Is it our genius camp?’

Lu Yuan shook his head: ‘No, I met a friend in the place of origin.’

Yang Ping has some regrets: ‘I still think that the four of us will be together at that time. With the strength of the four of us, there will be no small gains in the ruins.’

‘Younger brother Yang Ping, don’t think of the El Mechanical Ruins too simple. It will be easy to suffer.’

Si Tingfeng’s handsome face was smiling, and there was a hint of memory on his face: “Counting the time, it seems that it’s indeed time for the Ayre Machinery Relic to open. Unknowingly, almost five years have passed.”

The actual time is one month, which is almost equivalent to one year of the origin.

The Ayer Machinery Relics are opened once in fifty years, which is naturally equivalent to almost five years in real time.

‘El Mechanical Ruins are the most concerned Tier 1 ruins world in Baiyunzhou. Not only humans will enter, but elves, kobolds, kamans, cats and all Tier 1 warriors of Baiyunzhou races will enter. Yes, there are too many geniuses. The competition will be fierce.’

Yang Ping's expression changed when he heard Si Tingfeng's words, thinking about it as if it really was.

With a hint of bitterness, he said: 'I am not considered the top genius in the Red Maple Empire. Isn't that dangerous then?'

McGonagall rolled his eyes: 'Look at you, there are many worse than you, what are you afraid of?'

He showed a trace of regret:

'It's a pity that when I was Tier 1, the El Mechanical Ruins hadn't opened yet, and it was impossible for me to suppress my cultivation base without breaking through. I never went in. It's a pity.'

'During this period of time, some first-tier students in our genius camp should start teaming up in the student post bar, right?' Si Tingfeng laughed, 'I don't know who can get the most out of it?'

McGonagall thought for a while, and laughed: 'Among the first-tier fighters, besides Lu Yuan's younger brother, Barris from the Crazy Dragon family and Lu Wei from the Lu family are the stronger ones, right? They are better than Lu Yuan's younger brother. Nearly half a year after entering school early, I should have gained a certain degree in physical skills. I remember last month's battle list, both of them seem to have almost entered the top 100, right?'

Si Tingfeng smiled and said, 'Barris ranks 104th and Lu Wei also has 156. For the newcomers in the first year, it is already very good.'

'Tingfeng seniors, with their strength, should they be able to make a lot of gains?'

McGonagall looked at Si Tingfeng and asked curiously.

Si Tingfeng smiled and shook his head: 'Not necessarily, it depends on their luck.'

'Luck?'

McGonagall, Lu Yuan and Yang Ping all looked at Si Tingfeng with some curiosity.

Among them, only Si Tingfeng has entered the ruins.

A complex color flashed in Si Tingfeng's eyes: "Too many races have entered the El Mechanical Ruins, and it is inevitable that there will be some monsters. Those people are not measurable by common sense. I encountered one in the Ruins last time. Tier can kill the kobold of the second-tier peak fierce beast leader. As long as he appears, everyone else has to retreat."

"The fierce beast leader of the second-tier peak can be killed at the first level?! What kind of monster is that?"

Yang Ping was full of question marks.

McGonagall was also a little shocked.

Si listened to the wind and smiled: "At that time, there were two other monsters like this. I don't know if there will be any this time."

Yang Ping: "....."

The meat on his chopsticks fell onto the plate, making him a little confused.

McGonagall on the side of smiled a little gloatingly.

Lu Yuan is also under pressure.

He thought of Ye Ye and Amy.

That should also be a monster that inherited the genes of an ancestor.

During this time, I have to continue to practice hard.

Si heard that Yang Ping and Lu Yuan looked solemn, smiled and comforted:

"Don't worry too much. The world of El Mechanical Ruins is very big. As long as you pay attention, you will generally not encounter that kind of monsters."

Those kinds of monsters basically go to the core area of the ruins, as long as you don't go too far. Greed, to covet resources that you can't control. Then with your strength, you can still get a lot of gains.'

Yang Ping's eyes lit up when he heard Si Tingfeng's words, and he suddenly felt that he was doing it again.

'Senior is right! I, Yang Ping, is also a genius of the Red Maple Empire anyway. Among the first-order fighters, even if I am not the top group, I am considered an upper-level powerhouse? By then, it will be a little more trivial!'

McGonagall smirked and looked at Yang Ping and said:

'Maybe you are out of luck, and you will run into a monster head-on?'

Yang Ping: '???'

He was full of black lines, watching McGonagall dissatisfied:

'Senior McGonagall, how can you curse the younger brother so much?'

'Hahahaha, am I afraid that you are floating? You see how calm Lu Yuan is.'

Lu Yuan: '???'

He was just thinking about taking advantage of this time to practice more and improve his strength.

He is also a man with dreams, since he is going to the ruins, he must go to the core area to see.

After a meal, several people returned to their rooms to rest.

Lu Yuan went to the school post through Guangnao.

As Si Tingfeng said, there are several posts in the post bar for team formation.

are all first-order fighters who have just entered school.

is not just a school post. Lu Yuan went to look at Battle.net again and found that this was also being discussed in Battle.net.

Obviously, this El mechanical relic is more precious than Lu Yuan thought.

At night, Lu Yuan once again entered the land of origin and continued to practice.

.....

The real world, September 28.

At night, Lu Yuan took a deep breath, his face was condensed, and he entered the land of origin.

The place where he appeared was outside the martial arts hall.

As soon as appeared, Lu Yuan took out the communication crystal and contacted Amy.

The white light in the crystal flickered a few times, and the image of Amy appeared.

‘Hey! Lei Feng! Where are you now?’

‘I’m outside the martial arts gym.’

‘You wait, we will pick you up now!’

‘good.’

Lu Yuan nodded, ending the communication.

He was standing outside the martial arts hall, watching the genetic warriors coming and going.

On the way, several genetic warriors were chatting.

‘Have you heard? El Mechanical Ruins are about to open.’

‘...How long ago was this? You just heard about it now? Did you just get online?’

‘Unknowingly, five years have passed, but unfortunately I am already a war master now, otherwise I will definitely visit the ruins.’

‘You can get it. Last time you went in and died within a few hours.’

‘Ah, it was bad luck last time and I ran into a very strong alien. Generally I think that as long as you are careful, you won’t die so quickly.’

‘We are out of play anyway. Don’t think about it.’

‘.....’

A few genetic warriors usually chatted, and they walked by Lu Yuan.

Lu Yuan discovered that the topic of El Mechanical Ruins was indeed very popular during this period.

Whether it is in the genius camp or in the land of origin, basically everyone can talk a few words.

Even when Lu Yuan went to Si Tingyu to practice, Si Tingyu mentioned a few words to Lu Yuan.

It’s not just Si Tingyu, but Li Qinghe is the same, even in the future God of War group.

Although several old classmates of Lu Yuan, now only Wang Xiangxiang has just broken through to the first level, and has also been admitted to the Imperial Gene Warrior Academy.

Several others, Cao Yan was admitted to the top 20 genetic warrior academies, and the academies of the others were pretty average.

When Lu Yuan dropped out of school, Wang Xiangxiang received news from several people, like Lu Yuan asked about the situation.

When they heard that Lu Yuan had actually entered the real genius gathering place of the Red Maple Empire, all of them were very envious and kept shouting and hugging their thighs.

Lu Yuan's thoughts fluttered, thinking that there were none. Soon, a gorgeous carriage stopped at the gate of the martial arts training hall, which caused a lot of attention.

The carriage window door opened, and Amy's delicate and pretty face appeared, and she shouted to Lu Yuan:

'Lei Feng, get in the car! We have to go there quickly!'

Lu Yuan was called back to God by Amy, and found that the pedestrians on the side of the road were looking at him curiously.

He got into the carriage against everyone's gaze.

Inside the carriage, besides Amy, there is also Wang Lingling.

Wang Lingling smiled at Lu Yuan: 'Mr. Lei, it's been a long time.'

Lu Yuan also responded with a kind smile: 'Long time no see.'

Greetings from beautiful women, Lu Yuan still feels very happy.

Amy sat next to Wang Lingling, staring at the cute Kazilan's eyes, and looking at Lu Yuan: 'Lei Feng! Have you worked hard during this period? How is my strength? I am almost at the top of the first tier now! Zhan! Compared to when I was in the foggy forest, I can say that it has improved a lot!'

said, she smiled triumphantly: 'Now my strength can definitely defeat you easily.'

Lu Yuan was a little surprised.

I didn't expect that Amy's training speed was so fast, she was already approaching the first-order peak.

You know, his absorption speed of spiritual power must be faster than Amy.

But Lu Yuan thought, Amy is a member of the Great Family after all, and the training resources he possesses are definitely not comparable to Lu Yuan.

She must have a better heaven and earth treasure than Lingjing.

Lu Yuan was relieved when he thought about it this way.

He looked at Amy and smiled: 'As expected, it is Amy, that's too good, and I will rely more on you in the ruins by then.'

'Huh! After all, it's this lady, there is no way, you can just follow me then!'

Amy, hands on hips, was too proud.

Wang Lingling beside looked at Amy proudly and rubbed his forehead, smiling a little helplessly.

My lady is really so foolish...

was dizzy when he was casually coaxed by this boy.

She should pay more attention, lest the young lady is deceived by this boy.

While she thought, she said with spiritual power:

'Mr. Lei, don't bully my lady like that, my lady is very simple.'

Lu Yuan looked innocent:

'Girl Lingling, I'm wronged! I'm obviously complimenting Amy.'

Wang Lingling looked at Lu Yuan with a grimace.

She still doesn't know what this boy thinks?

Because she usually fools her own lady like this!

No one can understand this better than her.

Lu Yuan was embarrassed by Wang Lingling's resentful eyes, coughed dryly, and silently looked away.

He changed the subject:

'By the way~www.mtlnovel.com~Amy, will we go this time?'

'Of course not! The elites of this young lady's adventure group are already waiting at the teleportation formation, and you are the only one left. I am not bringing Lingling to pick you up.'

Lu Yuan suddenly, he glanced at Wang Lingling next to him:

'Does Lingling also follow along?'

Wang Lingling smiled slightly: 'My cultivation base has exceeded the first level, but I can't get in.'

Lu Yuan nodded, his face staring blankly.

Wang Lingling looked at Lu Yuan and said:

'At that time, I will trouble Mr. Lei to take care of Miss.'

Lu Yuan nodded: 'Don't worry, I will take care of Amy.'

'What is it?! This lady does not need to take care of you! I take care of Lei Feng almost!'

Amy quit after hearing this.

Wang Lingling nodded seriously with a serious face:

'Miss, although you are powerful, as a leader, you can't do everything yourself. You have to be the first to take the lead? Mr. Lei's talent and strength can be your proud deputy.'

Hearing this, Amy thought and nodded: 'Lingling, you have a point.'

Lu Yuan: ‘.....’

He gave Wang Lingling a weird look.

Good fellow, you are more skilled than me!

Wang Lingling noticed Lu Yuan’s eyes and smiled softly at Lu Yuan.
