

# Chapter 124: My Genes Evolve Infinitely

## 2 MONSTERS

Facing the dense energy bombs, Lu Yuan turned his body into an afterimage, evading to his side.

Even so, there are too many energy bombs, and he can't avoid all the energy bombs, and some of them still fall on him.

However, with his defense, as long as it is not attacked by too many energy bombs at once, it can still be easily blocked.

Boom boom boom boom!!!

The energy bombs that fell on Lu Yuan or on the ground exploded, making a deafening roar.

The aftermath turned into a wave of air, turned into a violent wind, and spread in all directions.

On the street, Amy, Lin Xixi and others were blown by the strong wind, with their long hair flying.

Seeing all the mechanical guards being attracted by Lu Yuan, a ray of light flashed in Amy's big purple eyes.

Her whole body was surging with spiritual power, and there were rows of Tianluo wisteria spreading out on the ground, spreading towards the square.

And Lin Xixi and others are pretty serious, Lin Xixi, as the deputy captain, said:

'Everyone, get ready! Don't go in for melee combat, guard by the side of distant combat, elemental elements, and archers are attacking from a distance!'

As he said, Lin Xixi took out the longbow, and the white light arrows on the bowstrings condensed. When the blue energy light gradually dissipated, an arrow shot out, directly blasting on a sharp mechanical body.

Boom!!

The head of the mechanical elite exploded, and the body fell to the ground.

Other girls also launched attacks.

In the square, Lu Yuan's body turned into a streamer. Everywhere he passed, all the elite mechanical guards were knocked out by Lu Yuan.

The mechanical guard that was hit and flew landed on the ground, and his body was flashing with electric current, and it was directly destroyed.

Lu Yuan rushed in front of a mechanical leader.

This mechanical boss is holding a black psionic cannon in his hand, and each psionic cannon is powerful enough to severely injure the first-tier high-ranking boss, and blast towards Lu Yuan.

As Lu Yuan approached, the psionic cannon fired just one shot and hit Lu Yuan's chest heavily, exploding a cloud of white light.

Boom!!

Lu Yuan rushed out of white light, Hei Gangjin burst out with all his strength, and slashed horizontally, directly slashing the psionic cannon out of cracks. The mechanical leader flew out, with irregular distortions on his arms, and there were electric sparks on his arms. Flashing on both arms.

The mechanical leader struggled to get up, Lu Yuan had already come to him, stepped on his right foot, and stepped on the mechanical leader's head.

Boom!!

His head was in close contact with the ground, and a shallow pit was smashed, cracks appeared on his head, and electric sparks flashed.

The movements of the mechanical boss suddenly slowed down.

Lu Yuan was expressionless, and stepped on it again.

Boom!!!

The head of the mechanical boss shattered, and there was no more movement.

The next moment, Lu Yuan disappeared in place.

Thousands of energy bombs that came along with the land edge drowned the dead mechanical boss.

.....

is on the top of the tall buildings around the square.

Four cat warriors appeared.

They were attracted by the fluctuation of battle.

After seeing the dense energy bombs in the square, the pupils of the four cat warriors all shrank sharply, and a flash of horror flashed in their eyes.

A cat-man warrior in leather armor who looked thin and thin, took a breath:

‘Hi...meow, so many energy bombs, what a big scene!’

A tall cat-man warrior wearing armor and looking at Lu Yuan, who was unscathed by energy bombs in the square, scratched his head, with a look of admiration in his eyes: ‘If it were me, one second Zhong was blasted into scum. That human being is so strong.’

A cat girl watched Lu Yuan hit the elite mechanical guards who were in the way, her pupils contracted, and she exclaimed:

‘That human is a monster?! Look at the elite mechanical guards he hit, all of which are directly scrapped! The steel body of the elite mechanical guards can be compared with guardian fighters of the same level. It can even block a single blow. Can’t you?!’

‘What hit? The humans didn’t attack at all, he just smashed the elite mechanical guards to death with his body.’

The thin cat can’t help but complain.

‘Wait...Look at the ground over there...’

At this moment, the four cat-man warriors opened their eyes wide, looking at the ground square where the psionic energy wave dissipated, and a somewhat tattered mechanical boss that had been bombarded was lying on the ground.

They glanced at each other, looking at each other, their eyes full of shock:

‘How long has it been fighting?! We were so close, and it took less than a minute to come over, so the mechanical boss has already died?!’

‘Who did it? How did it do it?!’

Soon, they got the answer.

Lu Yuan appeared in front of a mechanical leader holding a battle axe after hitting the elite guards one by one.

The mechanical boss faced Lu Yuan, and thunder appeared all over his body. On the battle axe, the thunder condensed and slashed towards Lu Yuan.

Lu Yuan’s expression was indifferent, Hei Gangjin burst out with all his strength, slashing towards the battle axe.

Boom! !

Under the roar of , the mechanical leader flew out directly, his battle axe flew out, his arms twisted, a series of electric sparks appeared, and his huge body fell heavily on the ground.

‘How can it be?!’

The four cat people on the tall building opened their eyes wide and exclaimed.

‘It was just a blow that defeated the head of the mechanical leader Thunder Zhan head-on, not to mention, and also shook the arms of the mechanical leader?!’

‘Is this human a leader-level warrior?!’

‘What a scary guy...’

When the four cat warriors were shocked, Lu Yuan had already caught up with the severely wounded mechanical leader. With a wave of the heavy sword, he cut off his head.

‘the second.’

Lu Yuan whispered to himself.

His body disappeared in place, behind Lu Yuan, the number of energy bombs gradually became thinner.

After all, when Lu Yuan was dealing with the mechanical boss, Amy and the others were not idle.

Lu Yuan looked around and saw that there were more than two hundred mechanical elites lying on the ground at this moment. Most of the mechanical elites had their bodies twisted, as if they had been strangled.

These are all the credit of Amy, and some of them were killed by Lin Xixi and others.

At this moment, there are still nearly a hundred mechanical elites covered with Tianluo Wisteria. Although the jade sickle on Tianluo Wisteria cannot act on the mechanical body, the powerful force that comes with it shrinks and continues to strangle the mechanical elite. Can easily kill these mechanical elites.

Even Amy trapped a mechanical leader and kept shrinking Tianluo Wisteria.

However, the body of the mechanical leader is much stronger than that of the mechanical elite. Although Tianluo Wisteria keeps shrinking, it only makes his body squeak. I am afraid it will take a while to complete the strangulation.

Amy’s performance was naturally seen by the four cats.

They stared eyes wide and their faces were full of horror.

‘Hey hey hey... that human girl, have you seen it?! Isn’t this too fake?! She controlled hundreds of mechanical elites alone, but also \*\* a mechanical boss?!’

‘This meow is outrageous! It feels better than that human teenager!’

‘There are these two monsters, I think that mechanical leader is so bad.’

The thin cat’s words aroused the approval of the other three cats.

Time passed, and the number of mechanical guards decreased.

On the top of tall buildings, there are more and more genetic warriors appearing.

Everyone noticed the fluctuations in the battle and rushed over.

A group of genetic warriors watched the battle on the square, all with horrified faces.

Especially the performance of Lu Yuan and Amy shocked them.

With this strength, any one of them can hit all of them, right?

Even other human girls are very strong. There are three boss-level fighters alone, and the others are also elite peak-level combat power.

This power is terrifying.

Boom! !

As the last mechanical leader was beheaded by Lu Yuan with a sword, the entire square was covered with broken bodies of mechanical guards.

There were electric sparks flashing on each of the mechanical parts, and the scene was broken.

Lu Yuan sighed slightly and looked in the direction of the door.

At the gate, the mechanical leader and four mechanical dogs remained motionless after all the mechanical guards on patrol died.

These five mechanical guards were obviously born to guard the gate.

Amy and Lin Xixi also walked in at this moment.

Amy sweated a little on her forehead, but Lin Xixi's faces became a little pale, and the fluctuations in spiritual energy weakened a lot.

There are nearly a thousand mechanical guards, even if one kills only one, it takes a lot of effort.

The use of combat skills requires spiritual power. If you use more, natural spiritual power will be insufficient.

Amy is okay, but Lin Xixi and the others are very tired.

And Lu Yuan, he secretly absorbed two spirit crystals during the previous battle, and now his spiritual power is still full.

‘So tired, how come there are so many mechanical guards.’

Amy complained a little dissatisfied.

Lu Yuan smiled: ‘If you are tired, take a rest. Anyway, the mechanical guard who guards the door will definitely not come out.’

Lin Xixi glanced at the surrounding tall buildings. There were several genetic warriors standing and whispering on each tall building, watching them at the moment.

Her eyebrows frowned slightly, a little worried: ‘Mr. Lei, what about these people?’

Lu Yuan raised his head and glanced over the genetic warriors on the tall buildings.

Every genetic warrior met Lu Yuan's gaze and moved away, none of them dared to look at Lu Yuan.

Lu Yuan smiled slightly and said, ‘If they want to see it, let them see it. You should recover first, and I will watch it.’

When the four cats from the first team came over, Lu Yuan had already noticed it.

The reason why he absorbed the spiritual crystals and kept his spiritual power full was also for this reason.

It's just these people, as long as he has enough spiritual power, it won't be a threat.

‘Since you said that, Mr. Lei, let's recover.’

Lin Xixi nodded, and more than a dozen girls sat down and began to absorb the spirit crystals.

Amy also sat down on the ground, grinning and said, ‘I also rest.’

Lu Yuan glanced at Amy, this guy has a lot of spiritual power, and now I am afraid that half of it has not been used up.

This guy is lazy and doesn't want to pick up fallen things.

But since Amy wants to recover, Lu Yuan will naturally not object.

After all, it is the mechanical leader who is waiting to deal with it. There is nothing wrong with being stable.

Of course, there are seven melee girls who have been guarding the others, and the consumption is actually not large.

There is no need to recover at this moment.

Lu Yuan glanced at the seven girls, smiled and said:

‘Go pick up the fallen things.’

‘Good Mr. Lei.’

A beautiful girl responded.

A few people went together to pick up the treasures dropped by the mechanical guards on the floor.

There are nearly a thousand mechanical guards dropping things, and just picking up these things will take a long time.

When Amy was resting, the genetic warriors on the roof naturally saw this scene.

They looked at the light \* **floating in the air, especially the green and cyan light** \* on the corpses of the four mechanical leaders, and their eyes flashed with greed.

A kobold warrior's eyes flashed, with a hint of movement on his face:

‘The monster woman is recovering spiritual power, and more than half of the people are recovering spiritual power. Now is a good opportunity. How about we go down and grab some treasures?’

Beside him, an elven man appeared unexpectedly on his face, but he glanced at Lu Yuan who had found the corpse of a mechanical guard as a bench, and hesitated:

‘That human boy hasn't taken a rest yet. Surely we are not his opponent when we go down?’

‘Huh! Are you stupid? Before this human teenager blocked the attack for so long, I don't believe that he doesn't need spiritual power to maintain his combat skills! He looks nothing on the surface, he must have consumed a lot of spiritual power. Now, so many of us robbed separately, how many can he hold back?’

There is a gleam of wisdom in the kobold's eyes, and his face is full of sneers.

Hearing this, the eyes of some genetic warriors nearby flickered, and the color of movement became more obvious.

Several genetic warriors frequently looked at the green light group and cyan light group among them.

That's all good stuff!

There are also some genetic warriors with disdainful expressions on their faces, looking at some genetic warriors who are moved, a little contemptuous.

Fairy boy Beman's handsome face is full of disdain:

‘A bunch of trash can only do some sneaky activities.’

A beautiful elven girl next to glanced at Lu Yuan below, hesitated, and said:

‘Behman, do we want to stop them?’

There was a smirk on the face of a young elf next to :

‘No, isn’t it, Meili?! You won’t be attracted to that human, will you?!’

Mei Li pretty blushed and glared at the young elf:

‘Kayman! You say it again?!’

Other elves and young girls also have weird faces.

A elven girl covered her mouth with a smirk:

‘I can understand Meili~[www.mtlnovel.com](http://www.mtlnovel.com)~ that human boy is handsomer than many elves, and he is so strong! I’m all a little moved.’

‘Hey hey hey...you say this, I can’t pretend to hear it! We are all elves anyway, don’t you like alien humans?! Too much!’

‘That’s right, the fertile water does not flow to outsiders’ fields! I don’t agree with this marriage!’

‘I don’t agree! Although this human teenager is indeed handsome and strong, I just don’t agree!’

Hearing the arguing words of several companions, Beman was full of black lines.

He gave a dry cough:

‘You guys! Be careful! So many people are watching!’

Several elves returned to look around and found that many people were looking at them with weird faces.

Meili and another elf girl blushed, covering their faces, and the other elf boys also looked embarrassed.

Beman clutched his head, feeling a terrible headache.

This is so embarrassing to be thrown home.

At this time, a burly human man on the side grinned:

‘Friends of the elves, what you said is reasonable, those dog things will only do some sneaky activities, wait for me and my friends to block them with you!’

Beside this human man, there were several other humans and several Kamans and Barrows nodded and agreed.

‘Yes! We don’t want to be with these wastes.’
