

Chapter 13: My Genes Evolve Infinitely

ELITE AND FIERCE BEASTS, GOOD FORTUNE AND MISFORTUNE DEPEND ON EACH OTHER

Until the greystone beetle swarm and the two kobolds disappeared from the sight of the four creatures, they looked at each other, still a little blank in their eyes.

‘...what’s the situation with them?’

‘I heard that Human Race said before that he has his own companion, is it the two kobolds?’

‘It’s rare for Humans to be companions with kobolds.’

‘Isn’t there a kobold in our team? Is there something rare.’

Elf boss disagrees.

Kobold Ahuang and the human man looked at each other and grinned.

‘Looking at them, could it be that the human race accidentally provoke the Insect Nest, and the two kobolds are now helping to kill the graystone beetles?’

‘We kobolds are affectionate and righteous!’

Ahuang’s face was moved.

‘Just like us!’

The tall and thin elf also nodded.

‘Okay, let’s not disturb them, let’s change directions.’

The elf boss waved his hand and led the way to another passage.

.....

Time passed. After more than an hour, the violent running made the two kobolds breathless.

They glanced at the front, the number of graystone beetles has increased.

has reached more than thirty, the mighty is very exaggerated.

After all, there will always be other graystone beetles on the road. Lu Yuan has no chance to kill them. Naturally, they can only avoid them. Those graystone beetles are all integrated into the large army.

The genetic warriors who met along the way, saw so many graystone beetles, they retreated one by one.

Everyone looked at Lu Yuan with a group of graystone beetles, as if they saw a ghost.

is very ridiculous, are you so afraid of death? !

The two kobolds now look at the graystone beetle group and feel that their scalp is tingling.

If this is surrounded, there must be no more scum left, right?

Their gaze crossed the graystone beetle swarm and looked towards the front land edge.

Lu Yuan's speed remained unabated, and he couldn't even see his exhaustion.

This made the eyes of the two kobolds shocked and confused.

The brown kobold was so tired that his tongue was sticking out.

He breathed and said:

'Big brother, what's the matter with that human race?! His speed is obviously not as fast as ours, why is his endurance so durable?!'

The gray-haired kobold frowned and his face was gloomy. Looking at Lu Yuan's back, his eyes also had an expression of disbelief.

'This shouldn't be... how could this be? Our spiritual energy is almost consumed. According to the logic, he should be more tired than us! Why is he nothing?'

Grey-haired kobold's dog's head was about to break, and I didn't figure out what went wrong.

'Brother, what shall we do next? We don't have much spiritual power in our body. If this continues, if we run into an opponent, we will be in danger.'

Gray-haired kobold naturally understands this truth.

He looked at Lu Yuan's back, his eyes flashed, and after a long silence, he gritted his teeth and said:

'It's good luck for this human race! I won't chase him anymore. Heh...So many graystone beetles follow him, I don't believe he can survive! By then, there will be no more scum left!'

'Big brother is right! I also think he will definitely not survive! Even if he is cheaper.'

'Stop it.'

The two kobolds stopped and watched Lu Yuan leave with a group of graystone beetles.

They didn't leave from another direction until Lu Yuan disappeared with the greystone beetle swarm.

Lu Yuan would turn his head from time to time to look at the situation behind him.

After he turned his head again and didn't see the two kobolds, he was taken aback, and then he was overjoyed:

‘The two dogs finally gave up?! What a special, how can they hold on for so long?!’

Lu Yuan was a bit speechless, the two kobolds chased him for more than an hour!

about an hour!

Do you know how I got here for over an hour? !

He almost ran across a small area of Grey Stone Forest, and he encountered a lot of genetic warriors.

He didn’t understand, what made the two kobolds insist on so much?

Fortunately, before Lu Yuan, just in case, he deliberately left a spiritual crystal, plus the spiritual crystal he had just obtained when he met the two kobolds before. He had two spiritual crystals in his hand.

By absorbing the spiritual energy of the spirit crystals to nourish his body, he can maintain his physical strength and keep running.

That’s it, he has already started using the second spirit crystal.

After using this spirit crystal, he really didn’t withdraw it.

Fortunately, the two kobolds finally gave up.

but...

Lu Yuan turned his head and looked at the dense group of graystone beetles behind him, his mouth twitched suddenly.

This Nima...he didn’t expect to gather so many graystone beetles before!

Aren’t you tired, brothers? !

I am not a stone, so go eat the stone!

Fortunately, Luyuan's speed is still slightly faster than that of the Greystone Beetle.

After all, they blocked the two kobolds before. In order not to make any changes, Lu Yuan could save his energy and could run a little slower.

Now as long as he runs with all his strength, give him some time, he can easily get rid of these graystone beetles.

Lu Yuan began to accelerate.

gradually pulled away the greystone beetle group behind him.

Although the graystone beetle appears from time to time in front of it.

But the speed of Luyuan didn't slow down much, and the newly appeared graystone beetle was gradually thrown away.

Ten minutes later, there was no movement behind Lu Yuan.

He turned his head and looked behind him, no graystone beetle came after him.

Lu Yuan sighed, leaned against the stone wall, sat down slowly, breathing continuously.

The spiritual power of the two spirit crystals was consumed by him. Now his body is still very tired. Under such intense heat, his body seems to be wet with sweat.

Lu Yuan took out the bottled water, took a few big mouthfuls, sighed contentedly, and poured water from head to toe again.

Then he took out two more energy bars and ate two more. Feeling the warmth of his body, Lu Yuan couldn't help but smile.

It feels so good to be alive.

After taking a rest, Lu Yuan stood up and began to observe his surroundings.

There are four huge stone pillars at his location, which separates four passages. In the center is a small square with a radius of about 100 meters.

The surrounding environment is very quiet and there is no fighting sound.

ran at full speed a while ago, and he didn't know which direction he was going in.

No matter where you go, survival is the most important thing.

Then I can continue hunting with peace of mind.

Lu Yuan chose a passage at random and walked in.

Not long after, Lu Yuan ran into a single graystone beetle.

He rushed up, quickly killed it, and collected the gray stone armor and spirit crystals.

Lu Yuan absorbed the spirit crystal, and his physical strength began to recover quickly.

Lu Yuan continued along the road. After walking a certain distance, he suddenly stopped and stared at the front.

is a dead end in front of him.

A hundred meters away is a dead end, but in the end area, there are two graystone beetles eating the rock.

The appearance of these two greystone beetles is completely different from the ones that Luyuan encountered before.

They are about one meter high, UU reading www.uukanshu.com's gray stone armor had a black pattern on the back.

Black-grained greystone beetle.

Lu Yuan suddenly reacted.

This is the strong one among the graystone beetles, an elite level beast!

Different from ordinary fierce beasts, elite fierce beasts of the same race are several times stronger than ordinary fierce beasts! Not only that, but also possesses special combat skills and is extremely powerful.

Even if the graystone beetle is the weakest kind of beast, their elite beast, the black-patterned graystone beetle, is also very powerful.

There are two of them here.

This is not the reason for Lu Yuan's shock.

What really shocked Lu Yuan was that behind the black-patterned graystone beetle, there was a wooden box quietly placed.

The box was almost half a meter high and looked unremarkable, but it made Lu Yuan's heart speed up.

The treasure chest in the place of origin contains various treasures!

Precious extraordinary genes, genetic weapons, powerful special potions, and even precious knowledge, etc., can all be obtained from treasure chests.

For any genetic warrior, encountering a treasure chest is a lucky event.

This represents a huge gain!

Benefits and misfortunes depend on each other. Lu Yuan didn't expect that he would be chased and killed for hundreds of streets, and he would still encounter a treasure chest by accident? !

This luck, should it be me?

The question now is...what about these two black graystone beetles?

Lu Yuan looked at the two large graystone beetles, feeling a little big.

Two ordinary level graystone beetles, he wants to kill it is a bit difficult, not to mention the elite level of black graystone beetle.

A single one can hang him up and beat him.

Two together, it's a mixed doubles hanging up.
