

# Chapter 135: My Genes Evolve Infinitely

## FIGHTING SHUTTLE, BOLD IDEAS

In the room, there was an aircraft floating unexpectedly.

The aircraft is about twenty-five meters long and fifteen meters wide. The whole body is black with a diamond shape.

It looked a little better than the night fighter plane that Lu Yuan had taken from Xili City to the Imperial Capital before.

What surprised Lu Yuan and Amy the most is that this is the place of origin.

If it is a pure technological creation, it cannot enter the land of origin.

In other words, this aircraft is also a psionic item and requires the use of psychic power.

In the entire floating city, this is probably the most precious thing.

No wonder it can be placed in the highest room in the core area.

Lu Yuan and Amy walked into the room.

Amy looked at this aircraft, a little surprised:

‘What a beautiful aircraft!’

Lu Yuan reached out and put his hand on the outer shell of the aircraft. Suddenly, a piece of information came into Lu Yuan’s mind.

Hei Ling Type 1 Combat Shuttle: Tier 2 Flying Spirit

The fastest speed of the Black Ling 1 combat shuttle can reach 10 times the speed of sound, which has already surpassed the speed expert.

As for the defensive ability, it can withstand a blow from a Tier 2 senior lord.

is also attached with a psychic cannon, the power is equivalent to a blow of the second-order senior lord.

Looking at this message, Lu Yuan's eyes widened.

Amy also put her hand on the Black Ling 1 combat shuttle, her eyes widened slightly, and she exclaimed:

'So strong!'

'Yes, very strong.'

Lu Yuan nodded, he was a little tangled.

To be honest, according to the principle of half-and-half, this Black Ling 1 combat shuttle is half of Amy's.

He is very short of spirit crystals now, and he can completely give up the Black Ling 1 combat shuttle to Amy, and let Amy compensate him for spirit crystals.

Judging from the information and appearance of this Black Diamond 1 combat shuttle, the value will certainly not be low.

In any case, the speed reached or even surpassed the battle-sovereign level.

plus the low threshold that can be controlled by the second-order, the strong can buy it for the younger generation to use, it is proper.

If it were to be auctioned off, wouldn't it give a million-dollar Tier 4 spirit crystal?

If you take half, five hundred thousand fourth-order spirit crystals should be fine, right?

This is at least enough for him to refine a lord-level transcendent gene to completion. If he is lucky, he might be able to refine two.

It is a pity that he is a little bit reluctant to be so good-looking Black Ling 1 combat shuttle.

But if he compensates Amy, he can't take out so many spirit crystals to compensate Amy.

A batch of Lu Yuan's heart is bitter.

I'm so poor, Gan!

Just when Lu Yuan's face was tangled, Amy took a peek at Lu Yuan.

Her purple eyes flashed, then she patted Lu Yuan on the shoulder with a smile, and said:

'Lei Feng, this battle Shuttle Miss Ben will give it to you'

Lu Yuan recovered from the entanglement.

He was stunned and looked at Amy:

'Amy, what did you say?'

Amy's eyes widened: 'This lady said, this battle shuttle will be given to you. You don't need to give me a crystal or something. This lady does not lack this crystal.'

Lu Yuan: '???'

He stared at Amy with wide eyes, a little afraid to say: 'Amy, are you the legendary angel?!'

This is a flying speed faster than that of the warlord, it can resist the attack of the second-order senior lord, and can play a blow of the second-order senior lord, and the battle shuttle with such a high value!

Although he has half of his ownership, he also has half of hers. Didn't expect Amy to give it to him like this?!

Amy's pretty face suddenly turned red when she heard Lu Yuan's words.

'Don't think that I will be happy if you praise me like that! After this young lady's second-order, my grandfather will give me a very strong mount.'

Although Amy said so, Lu Yuan was still very moved.

After all, so many spirit crystals are not a small sum.

‘Thank you Amy!’

Lu Yuan looked at Amy with a smile.

Amy snorted, glanced at Lu Yuan sideways, and said with contempt:

‘You laugh so disgustingly.’

Lu Yuan smiled stiffly and touched his face.

Did I laugh disgustingly ?

He rubbed his cheeks and coughed dryly:

‘Ah... I’ll give this shuttle to the master first.’

Amy nodded: ‘Yeah.’

Lu Yuan put his hand on the metal shell of the combat shuttle, and his mind moved.

His genetic war pattern appeared, flashing with streamers.

The streamer on the genetic war pattern slowly melted into the combat shuttle.

Not long after, a mechanical sound rang from the combat shuttle.

‘Dip, the Black Ling No. 1 battle shuttle has completed the recognition of the master, please name the master.’

Lu Yuan thought for a while. He originally planned to name it Heiling directly, but he thought that the Heiling No. 1 combat shuttle was given to him by Amy. How about letting Amy name it ?

Lu Yuan turned his head and looked at Amy: ‘Amy, what do you think is better?’

Amy thought about it, her eyes lit up: ‘Little Rabbit Number One?’

Lu Yuan: ‘?’

He looked at the dark and smooth Heiling No. 1 combat shuttle.

‘What does this thing have to do with rabbits?’

Amy took it for granted: ‘Because the little rabbit is cute!’

Lu Yuan fell into deep thought, staring at Amy.

Amy was a little embarrassed by Lu Yuan’s gaze, a little embarrassed and said, ‘Why look at this lady like this?’

Lu Yuan smiled and said, ‘I was thinking, Amy, you must be cuter than the little rabbit, why not just call Amy Little Angel?’

Amy stiffened, and then her pretty face became flushed.

She widened her eyes, looked at Lu Yuan with shame and anger, and stretched out her hand to slap Lu Yuan’s back bang.

It’s a pity that for Lu Yuan, who is now extremely defensive, it’s a bit like a tickle.

‘You are not allowed to call this name! Absolutely not! Only this lady can be called Amy!’

‘But Amy, you are cuter than a rabbit.’

‘Forehead…….’

Amy was taken aback, tilted her head and thought for a while, then she nodded seriously with a serious face: ‘Although this lady is indeed more cute, she just can’t be called by this name! Otherwise I won’t give it to you!’

Lu Yuan looked helpless: ‘Then change it again.’

Amy thought for a while: ‘Black Bear One?’

Lu Yuan: ‘?’

‘What does this have to do with the black bear?’

‘It’s all black.’

Lu Yuan: ‘.....’

He twitched suddenly, wanting to refute.

But when he thought that he had promised Amy to name it before, he looked at Amy helplessly:

‘Are you sure it is called Black Bear One?’

Amy thought for a while, nodded seriously: ‘OK!’

‘okay then.’

So, Lu Yuan named the Heiling No. 1 combat shuttle as Hei Xiong No. 1.

‘Shall we go up and see?’

Lu Yuan said after he finished naming it.

Amy nodded, also a little curious about what it looked like.

After acknowledging the Lord, Lu Yuan could already control Black Bear One.

With a movement of his mind, Black Bear One landed and opened a door on the side in front of the diamond.

After entering the door, Lu Yuan found that the color inside was different from the outside. The outside was black and the inside was silver-white.

The combat shuttle has a cockpit, but the Black Bear One itself is an intelligent combat shuttle with the ability to autopilot and attack automatically.

What’s more, Lu Yuan itself also has mechanical control combat skills, and can drive without a cockpit.

In addition to the cockpit, there is also a cabin. The cabin is about fifty square meters in size and has 20 seats. It still looks quite empty.

There is also a living bedroom and a bathroom.

In total, this combat shuttle is almost 100 square meters.

After all, the overall size of the combat shuttle is only this large, and the internal space is actually about this number.

Generally speaking, Lu Yuan still likes it very much.

Especially Lu Yuan didn't expect to have a bedroom. This was a surprise.

Think about it, Lu Yuan originally used to set up tents in the wild, so he can sleep in the spacecraft in the future.

The quality of life has been greatly improved.

congratulations.

After watching the combat shuttle, Amy and Lu Yuan came out of the shuttle.

After , Lu Yuan put his hand on the metal shell of the shuttle.

This huge battle shuttle turned into a stream of light and merged into Lu Yuan's body.

In the end, the phantom of this fighting shuttle revolved on the edge of the gene chain of Luyuan.

As a flying creature, this Black Diamond 1 combat shuttle can be directly integrated with genetic weapons.

is just different from genetic weapons, it cannot bring any blessing effect to Lu Yuan.

It doesn't really matter. For Lu Yuan, blessing is not important. What's important is that he will no longer need to run on two legs when he goes out.

That would be exhausting to run, alright.

'Okay, let's go down.'

The last room of the three-kilometer-high building has also been explored, and it is time to leave.

Lu Yuan and Amy left the room and went downstairs.

In the lobby, Lin Xixi and a few people were waiting. When they came down, they were all greeted.

‘Miss, Mr. Lei. Have you finished exploring?’

Lin Xixi asked.

Amy nodded: ‘Well, it’s over. We can leave this floating city and go to another floating city.’

Lu Yuan smiled and said, ‘Go to the Sky Elevator Plaza first, and then go back to the city.’

A group of people walked out of a three-kilometer-high building and came to the square.

Lu Yuan smiled and said, ‘We will take the Black Bear One, and the speed will be faster.’

Lin Xixi was taken aback when he heard Lu Yuan’s words.

‘Black Bear One? What is that?’

Zhu Yu asked curiously.

Lu Yuan smiled, a black stream flashed, and Black Bear One floated in the air.

Seeing this fighting shuttle, Lin Xixi’s eyes widened and all of them looked surprised.

‘This is?’

‘What a beautiful fighter!’

‘This is what Mr. Lei took out of his body? A fighter that can be used in Origin?’

Lin Xixi looked at Lu Yuan:

‘Mr. Lei, this is?’

Lu Yuan smiled and said: ‘One of the harvests this time is the Heiling 1 combat shuttle.’

Zhu Yu asked with some doubts: 'But why is it called Black Bear One?'

Other people are also confused.

The corner of Lu Yuan's mouth twitched, and he glanced at Amy: 'The name of your lady.'

Amy is a little proud: 'Isn't it pretty?'

Everyone: '...'

Everyone fell silent, Lin Xixi twitched at the corner of her mouth, and smiled:

'As expected, Miss, the name is so cute.'

'That must be!'

'Okay, let's get on the shuttle.'

Lu Yuan was already unable to complain about Amy, who had no compelling points in his heart.

The group of people got on the shuttle, Lu Yuan thought, and the shuttle instantly turned into a streamer and disappeared in place.

The use of the combat shuttle requires spiritual power.

The source of spiritual power is naturally the spiritual crystal.

Fortunately, because it just got it, the spiritual power reserve on the Black Bear One is still full, and the full value is the total spiritual power of 100 fourth-order spiritual crystals.

From the information transmitted by the Black Bear One, when the limit speed is maintained, that is, 10 times the speed of sound, the consumption of spiritual power is the greatest.

It needs to consume 1 fourth-order spiritual crystal every minute, that is, 100 second-order spiritual crystals.

Calculated with full energy, you can fly for 100 minutes, which is more than an hour.

But if it is flying normally and the speed is 3 times to 5 times the speed of sound, a fourth-order spirit crystal can be used for 1 hour.

Of course, this is just flight consumption.

If the crystal shield needs to be turned on during the period, if an attack is needed, then the spiritual attack is nothing else.

Black Bear 1 took off and maintained a regular speed of about three times the speed of sound. It flew for about one kilometer in one second. From the core area to the edge of the sky elevator plaza, it was close to fifty kilometers, and it took less than one minute to arrive.

Everyone got off the Black Bear One, and Lu Yuan put away the Black Bear One.

Everyone is still a little dazed.

‘It’s really fast, I’ll be in the square in less than a minute.’

Zhu Yu couldn’t help but sigh when he saw the black elevator in the sky.

The others also nodded.

‘Okay, let’s go down.’

Lu Yuan smiled.

Everyone entered the elevator in the sky.

also brought a group of people when he came, and now they are the only ones who are less than twenty people when they go back, and it seems to be very empty inside.

Luyuan used the controller, and the aerial elevator, under the traction of the floating city, began to leave the square and descend towards the kilometer- high building below.

In the air, densely packed flying machines flew like fish, and hundreds of flying machines circled the elevator in the sky.

There are also mechanical warriors with psionic cannons on the aircraft patrolling the surroundings, taking a look at the elevator in the sky from time to time.

Because I encountered it once when I came up, Lu Yuan and others are calm now.

just quietly watched these flying vehicles pass by.

At this moment, Lu Yuan's inspiration suddenly flashed, and he had a bold idea~www.mtlnovel.com~In other words, he had burned the mechanical control gene now.

Then can he control these aircraft and mechanical guards?

Lu Yuan's heartbeat accelerated slightly, and his mental power spread out as soon as his mind moved, and the spiritual power in his body began to drain.

The machine controls the operation of combat skills.

Suddenly, all the aircraft that originally circled the aerial elevator had a meal. Then they lined up neatly, circled the aerial elevator twice, and then flew towards the distance.

Around the entire aerial elevator, all the aircraft that had been surrounding it dissipated, and it seemed that even the sky was much clearer.

'Huh? What's the matter? Why is the nearby aircraft missing?'

Amy and others naturally discovered this scene.

Amy said with some doubts.

Others also looked through the window with a puzzled look and looked into the distance.

The aircraft seemed to be blocked by an invisible barrier a hundred meters away, and no longer approached.

At this moment, the barrier seemed to have suddenly disappeared, and a group of aircraft once again became space, flying around the elevator in the sky.

Inside the air elevator, Lu Yuan raised his mouth, his eyes were full of ecstasy.

can really be!

With the spiritual strength of these mechanical lives, as long as they are within 100 meters, Lu Yuan can control it!

Lu Yuan looked up at the floating city in the sky, and suddenly had a bold idea.
