

Chapter 136: My Genes Evolve Infinitely

AIR FLIGHT, AIRCRAFT ESCORT

When Lu Yuan was excited, Amy turned her head to look at Lu Yuan, with a hint of doubt in her eyes.

She is different from Lin Xixi.

Lin Xixi and the others are only Tier 1 and their strength is not strong enough.

has brought her to the second level. More importantly, the genes she burned are biased towards the direction of spiritual perception, so she has a strong perception ability.

She felt that when the aircraft left before, Lu Yuan seemed to have special spiritual power fluctuations.

This made Amy somewhat doubt whether the previous aircraft movement had something to do with Lu Yuan.

The sky elevator quickly landed on the roof of a kilometer-high building.

Lu Yuan and others walked out of the sky elevator.

Lu Yuan turned his head to look at Amy, and said:

‘Amy, come here, I have something to tell you.’

Hearing what Lu Yuan said, Amy and Lin Xixi all looked over.

Lin Xixi looked at Lu Yuan with some caution:

‘Mr. Lei, is there anything you can’t talk about here? Why do you want to find a lady alone?’

Last time, the young lady also said that Mr. Lei had done something ignorant to her, which made Lin Xixi a little wary.

Although Mr. Lei looks like a good person, the lady is as cute as an angel after all. Even a good person can't get rid of her charm, right?

I will guard Miss 's morals!

Never let Mr. Lei bully Miss!

Lu Yuan was watched by Lin Xixi's small eyes, and a black line appeared on his forehead.

I'm afraid this guy is thinking about something messy again.

He twitched the corner of his mouth:

'I have a business deal with Amy, are you thinking about something messy?'

Lin Xixi was a little embarrassed by Lu Yuan, but she still kept watching Lu Yuan:

'What did Mr. Lei say? I didn't think of any strange things!'

Lu Yuan: '.....'

At this time, Amy said: 'Xixi, don't think too much. Lei Feng, what are you going to tell me? Let's go down and talk.'

Lu Yuan nodded, and the two of them left the rooftop and walked towards the bottom.

Lin Xixi who stayed in the same place watched their bodies disappear behind the door, and they all started chattering.

Zhu Yu looked at the door with gossip flames flashing in his eyes, and said with some curiosity:

'You said, what does Mr. Lei want to talk to Miss?'

'Confession?'

'Have a monkey with Miss?'

'Important? Please support? After all, the young lady is the heir of the Algabe family, the top rich woman!'

‘In other words, Mr. Lei looks so handsome, strong, and has a good temper. If you really confess, who can stand it? It’s me, I definitely can’t stand it.’

‘Our young lady is better than Mr. Lei! But Mr. Lei should be a good match with our young lady.’

‘.....’

Everyone’s eyes flashed with excitement, and it can be imagined that their minds have begun to fill up scenes of love and hatred.

I wish Yu some eagerness to try:

‘Why don’t we go and listen in secret?’

Hearing Zhu Yu’s words, many people’s eyes lit up and they all showed emotions.

‘This...isn’t it great?’

Alice in a white robe said it was not good, but her eyes flashed with excitement, she almost said to hurry up.

Lin Xixi saw the appearance of her teammates, full of black lines.

What’s the situation with your teammates?

Have you been thinking about the story of Mr. Lei and Miss? !

Can’t she save her snacks?

Is she the only one who cares about my lady’s morals? !

She put her arms around her chest, and said coldly: ‘Your strength will definitely be discovered when you get close to the past. You can go and try it! If you are discovered by the young lady, it depends on how you end up.’

Hearing Lin Xixi’s words, all the girls who were originally excited also calmed down.

There was a look of regret in everyone’s eyes.

‘I can’t even listen to what kind of love words Mr. Lei and Miss Lei said, what is the meaning of life? Tired, destroy it.’

I wish Yu a sigh.

Lin Xixi’s head was covered with black lines, and she held Zhu Yu’s head and pulled her face hard:

‘I wish Yu! Can you be more serious?! What love words?!’

‘It hurts... I was wrong, I was wrong! I’m sorry!!’

.....

Lu Yuan and Amy had already arrived in the room downstairs when the girls were fighting.

Amy’s purple Katzlan looked at Lu Yuan with big eyes, full of curiosity:

‘Lei Feng, what can you tell me?’

Lu Yuan smiled and said: ‘That’s it. I have a way to prevent the aerial vehicle from attacking us. In addition, we now have the Black Bear One, so we can go directly to other floating cities from the air, so that the speed is faster and you can also get it. More resources. What do you think?’

Hearing what Lu Yuan said, Amy’s eyes widened, a little surprised:

‘It was you who let those flying machines leave just now?’

Lu Yuan raised his eyebrows, a little surprised: ‘You found it? As expected, it is Amy, who has a very strong perception ability.’

‘Is this mechanical interference? Did you burn that gene?’

Amy remembered that extraordinary gene before.

Although they have obtained several boss-level transcendent genes, the most impressive thing is undoubtedly mechanical interference with that transcendent gene.

Lu Yuan smiled: 'It's not mechanical interference. Mechanical interference can't do that.'

...How can mechanical control be said to be mechanical interference?

Amy was a little surprised and curious: 'Not mechanical interference?! How did you do it?'

Lu Yuan smiled and said:

'Didn't I say it before? I'm so talented.'

Amy suddenly remembered that Lu Yuan was looking for the core fragment of El.

She looked at Lu Yuan curiously, knowing that Lu Yuan might have her own secret.

After all, there are too many heritage treasures in the entire Origin Land.

No one knows what good things will be discovered.

Amy pouted her lips:

'Just forget it.'

She didn't ask much about Lu Yuan's secrets.

Then, thinking of Lu Yuan's proposal, she spoke with excitement:

'If you can really prevent all aircraft from attacking us, then we can really approach the floating city directly from the air, and the efficiency can be much faster than the ground attacking the square. Then we can definitely get a lot of gains.'

'right?'

Lu Yuan also smiled.

He opened his mouth and said: 'I was thinking, just let us go, after all, our two cultivation bases are already second-tier, and the strength is strong enough. Xixi and the others are still first-tier, if they are allowed to follow, it may be inconvenient. As for Xixi and the others, let them return to the floating city. Although we have cleaned

up the core area before, but the periphery is very large, they can continue to explore the outer area.'

Hearing what Lu Yuan said, Amy lowered her head and thought about it, then nodded:

'Well! This young lady thinks it's okay, it just happens that Xixi hasn't had time to break through after obtaining the core fragment of El. It's better to let her go back and break through.'

'No problem. Then let's talk to them now?'

Lu Yuan looked at Amy.

Amy nodded, a little impatiently saying:

'Go, this lady will go talk to them.'

The two returned to the rooftop, Lin Xixi and Zhu Yu were playing and chatting.

Seeing Lu Yuan and Amy come back, they quickly stood up.

'Miss, Mr. Lei.'

Amy nodded and said directly:

'Xixi, I have discussed with Lei Feng, we have something to do later, you first go back to the floating city to stay and move freely.'

Hearing Amy's words, Lin Xixi and the others were all taken aback, somewhat unexpected.

Then Lin Xixi hurriedly said:

'Miss, don't we need to follow you?'

'Yes, miss, let's go back to Floating City, what about you?'

Amy smiled and said:

'This is a secret, but we are going to do something big!'

Hearing Amy's words, Lin Xixi looked at each other.

But seeing Amy's face firm, they nodded helplessly.

Lin Xixi said:

'The lady, be careful. Be careful.'

She turned her head to look at Lu Yuan:

'Mr. Lei, please take care of Miss.'

'Don't worry Xixi, I am here.'

Lu Yuan smiled.

The group got on the air elevator again and returned to the floating city.

Along the way, Lin Xixi and others were a little silent.

After all, they are Amy's subordinates, but now they can't help Amy, which makes them a little guilty.

Lu Yuan glanced at Lin Xixi who were a little self-blaming, and it was not that they couldn't understand their feelings.

But compared to the second-tier Lu Yuan and Amy, the first-tier Lin Xixi is too weak.

Some battles will not only not help, but will become a drag.

returned to the square, everyone got off the elevator in the sky.

Looking at Lu Yuan and Amy who were also getting off the elevator, Lin Xixi was a little confused.

'Miss, Mr. Lei, won't you go back?'

Lu Yuan smiled, the black light flashed, and the Black Bear One combat shuttle appeared in the air.

Lu Yuan and Amy boarded the shuttle.

Then under Lin Xixi's horrified eyes, the shuttle rose into the sky and flew towards the outside of the floating city.

Looking at the densely packed locust-like flying vehicles approaching quickly, Lin Xixi and the others turned pale suddenly.

'Miss!'

'It's over...'

'How dare Mr. Lei?!'

There are so many aircrafts, among them there is even a boss-level or even a boss-level mechanical life.

Tens of thousands!

With so many aircraft attacking together, even Tier 3 generals will be bombarded into scum.

Lin Xixi and the others did not expect that Lu Yuan would rush directly over with the shuttle.

Just when they were cold in their hearts, the aircraft that suddenly approached the shuttle suddenly stopped at a distance of about 100 meters from the aircraft.

After that, hundreds of aircraft gathered in a line, like a guard, surrounded the shuttle.

The other aircraft left directly, as if they hadn't seen the Black Bear One at all.

The Black Bear No. 1 shuttle flew away in the ocean of the aircraft.

On the square of the Floating City, watching Black Bear One fly away, Lin Xixi and the others opened their eyes wide, their eyes filled with surprise.

The atmosphere fell into dead silence, and the air fell silent.

After a while, Zhu Yu said in a low voice:

'...He, they flew away? Just flew away?!'

Everyone came back to their senses, their faces were shocked and excited.

‘Yes! How could they fly away surrounded by so many aircraft?!’

‘Those flying machines! Have you seen it? They surround the shuttle, like a guard!’

‘Yes, yes! Other aircraft completely ignored the shuttle!’

‘How did Miss and Mr. Lei do it?’

During the heated discussion, Alice suddenly brightened her eyes and thought of something:

‘I suddenly understood what Miss and Mr. Lei wanted to do.’

Everyone was taken aback when they heard Alice’s words, and then many people widened their eyes, with a flash of astonishment in their eyes.

‘...I, I seem to understand.’

‘Hi...Miss, what they did is really a big deal! This is too big!’

‘They must want to fly directly to other floating cities with a shuttle, and then rush in and take away the treasures before those floating cities have not been attacked!’

‘If it is a normal situation, it will definitely not be possible to do this. After all, the air is full of aircraft, and I am afraid that few people can fly at this stage. But now...Miss and Mr. Lei can really do it.’

‘It has only been five and a half days since the opening of the El Mechanical Ruins, and it hasn’t even reached the sixth day. There must be many floating cities that have not been attacked. This is the goal of Miss and Mr. Lei!’

‘This time, Miss and Mr. Lei will surely shock everyone!’

‘.....’

Lin Xixi and others understood Lu Yuan and Amy’s thoughts, and their faces suddenly became excited.

.....

In the cockpit of Black Bear One.

Lu Yuan and Amy sat in their seats, looking at the outside scene through the virtual image generated in the front.

Around them, there are hundreds of flying vehicles guarding the Black Bear One.

All of these aircraft are at the boss level, and there are even five boss levels at the top.

With Lu Yuan's current mental power, this is the limit that Lu Yuan can control now.

In addition, he also scored part of his mental power to interfere with the aircraft that wanted to approach and attack them along the way, so that their path was unimpeded.

Lu Yuan increased the flying speed of the Black Bear One to three times the speed of sound.

This is also the fastest speed the aircraft can achieve.

In the high-speed flight, the whistling sound of piercing the air resounded through the steel city.

.....

Somewhere in the steel city, on a square with a 500-meter-high building.

Yang Ping, Lin Wei, Min'er and several other teenagers sat on the damaged mechanical guard to rest.

Their faces are a bit pale, but their eyes are excited.

'The three perfect boss-level mechanical guards did not expect us to actually kill them! This is a 500-meter-high building, and there must be a lot of resources in it!'

Yang Ping had a look of excitement in his eyes.

A handsome blond boy looked at Min'er who was recovering without saying a word, with a trace of admiration in his eyes:

'Thanks to Min'er this time, otherwise, we might not be able to break this guy's crystal shield.'

Min'er didn't speak, but just nodded gently.

Lin Wei beside smiled and said:

'Chabo, Min'er is all the guy Lu Yuan in his heart now, you have nothing to play with.'

Min'er frowned slightly and looked at Lin Wei: 'Weiwei, what are you talking about? I just want to surpass him.'

'Yes, yes~ I understand, I understand.'

Lin Wei smiled and said.

Then she turned her head to look at Yang Ping: 'Hey, Yang Ping, Lu Yuan doesn't team up with us, who is he with?'

Yang Ping smiled bitterly and said: 'I don't know this. He didn't say who he was with, but he just said that he knew a friend in the place of origin.'

Lin Wei curled her lips: 'If that guy is there, it would be much easier for us to attack such a five-hundred-meter-high building.'

'Yes.'

Yang Ping sighed.

Just then, there was a harsh whistling sound from the sky.

Everyone's complexion changed.

Many raised their heads and looked in the direction of the sound.

When they saw a large wave of aircraft flying quickly around a diamond-shaped aircraft in the sky, everyone stood up, their eyes widened, and they were shocked.
