

Chapter 143: My Genes Evolve Infinitely

YOU ARE AMAZING, COLLISION

Under everyone's attention, Ye Ye jumped on the door opened by Black Bear One.

The hatch of Black Bear One closed, turned into a streamer, broke through the sound barrier, and disappeared in place.

Everyone looked at the direction in which Black Bear One disappeared, and couldn't return to their senses for a long time.

After a while, everyone looked at each other, and there was still a look of horror in their eyes.

'It seems that something big will happen soon.'

.....

Enter Black Bear One.

Lu Yuan looked at Ye Ye and smiled:

'Master Ye Ye, I haven't seen you in a few days.'

Ye Yeye nodded, looked at Lu Yuan, and said:

'Just call me every night.'

Lu Yuan was taken aback, then nodded: 'Yeye.'

Yeye turned his head and looked at Amy on the side.

Lu Yuan introduced:

'This is Amy, my friend. Amy, this is Ye Ye.'

Amy was staring wide-eyed at the moment, secretly looking at Ye Ye, her eyes collided with Ye Ye and she quickly moved away, looking like a vigilant little rabbit.

She nodded: 'Hello, this is Amy.'

Ye Ye nodded: 'Ye Ye.'

Lu Yuan understood that Ye Ye speaks less.

He smiled and said, 'Go to the advanced passenger compartment. We flew all the way to the central floating city and destroyed the lord's aircraft when we encountered it.'

Ye Ye and Amy had no objection, and nodded.

Entering the passenger compartment, Lu Yuan found a place to sit down, sitting on the edge of Lu Yuan every night, and Amy sat on the other side from Lu Yuan.

The corners of Lu Yuan's mouth twitched, a little helpless.

Amy is still a little afraid of Ye Ye.

However, it should be fine to wait for the two to get acquainted with each other after a while.

After sitting down, Ye Ye looked at Lu Yuan: 'Can you go to the central floating city?'

Lu Yuan was stunned and said:

'It hasn't been long since we first came to the core area, and we haven't visited the Central Floating City. We are not sure yet.'

Ye Ye nodded slightly, and then said after a pause:

'In six hours, the central tower will be opened. If we can get in from the air ahead of time, it will be very beneficial to us.'

Lu Yuan also brightened his eyes and nodded:

'We are heading towards the floating city right now, and then we will know if we can go in.'

'Um.'

‘Di! Di! Found a high-energy target, the target’s psionic level is a second- order senior lord.’

Lu Yuan’s eyes lit up: ‘A lord has appeared. Black Bear One, go up and attack.’

In the virtual image, Black Bear One turns into a streamer and flies in one direction.

Soon, there was a triangular aircraft in that direction gathering intense psychic brilliance.

At this moment, there was a flow of spiritual power in Lu Yuan’s eyes, and the strange spiritual power fluctuated.

The next moment, the psionic cannon that was condensing suddenly fluctuated and collapsed.

At the same time, the Black Bear One fired a pitch-black psionic cannon, blasting on the psychic shield of the triangular aircraft.

boom!!!

The roar sounded, and the shield shook. It was not broken, but it was also thinner.

As a second-tier senior lord, the defensive shield is not weak, and the power of the psychic cannon of the Black Bear No. 1 is only the second-tier senior lord.

It takes a certain amount of time to break the shield.

Therefore, every time the aircraft lord wanted to attack or evade, Lu Yuan would interrupt him at the right time.

At other times, Luyuan was interfering with surrounding aircraft to prevent other aircraft from attacking the Black Bear One.

The battle lasted for more than ten minutes. In the end, the second-order high-ranking lord was blasted out of several holes under the psionic cannon of the Black Bear No. 1, and finally flashed a ball of electric sparks and fell towards the ground.

Lu Yuan sighed slightly. With such a high-intensity mechanical control output for more than ten minutes, even Lu Yuan’s current spiritual power would be a little tired.

Of course, the more tiring is the spirit.

After all, mechanical control requires mental power.

Even so, Lu Yuan could cooperate with the Black Bear One to defeat the Tier 2 Advanced Lord Aircraft with the combat power of three lord genes that had not yet been fully tempered. This record was also quite outstanding.

Just when Lu Yuansong was happy, he felt the line of sight from the side.

Lu Yuan was taken aback for a moment, then turned his head and looked at him with some doubts.

He saw Ye Ye looking at him quietly at this moment, and his dark eyes looked like a deep black lake.

Lu Yuan was a little embarrassed when he was watched by Ye Ye's black eyes.

He smiled:

'Yeye, why are you looking at me like this?'

Ye Ye shook her head, with a hint of surprise in her voice: 'You are amazing.'

Lu Yuan: ' ?'

His head is full of black lines, and it feels like something is wrong with him.

Always think every night is in Versailles ?

Are you a king-level boss, saying that I am a lord-level little rookie ?

'Yeye, aren't you better ? You already have a king-level gene. I'm not as good as you.'

Ye Ye shook his head, looked at Lu Yuan, and said seriously:

'We are different. When we met for the first time, you were apprentice. The breath was elite level. When you met for the second time, you reached the first level and the breath was already at the leader level. Now you are at the second level and you are already at the lord level. Breath...you have achieved the present level by working hard step by

step. And I have only inherited the glory and gifts of my ancestors. In the future, you will surely become very strong.’

Lu Yuan was stunned by Ye Ye’s words.

He found that Ye Ye once again set the record for the longest sentence.

Ye Ye has been hiding a little bit by the side, and the somewhat embarrassed Amy nodded in agreement when he heard Ye Ye’s words:

‘Although this big liar is a little ignorant, he is very powerful.’

Lu Yuan’s face went dark.

I wonder if this hasn’t passed yet?

However, he was stunned by what the two said.

I turned out to be so good?

I have no idea!

He smiled and said:

‘This should be the reward of my hard work.’

Although he is an extraordinary gene of evolution, isn’t the spirit crystal he used for evolution also obtained by his efforts?

Say this is the result of your own hard work. Isn’t it okay?

YeYe nodded in agreement: ‘Yeah.’

Lu Yuan smiled: ‘Let’s go down and pick up the things dropped by the aircraft lord.’

Lu Yuan controlled the Black Bear One and flew towards the ground.

.....

Dozens of minutes ago.

Barton, one of the three kings, jumped between the tall buildings, very fast.

At this moment, he suddenly stopped and took out the communication crystal.

Inside the crystal, Colby's phantom appeared.

He spoke eagerly:

'Boss! Something is wrong, the aircraft suddenly changed its direction and flew to the southeast.'

'Um?'

Patton narrowed his eyes slightly, and a look of doubt appeared in his tyrannical eyes.

'Sudden change of direction? Do you know the reason?'

'I don't know, without warning, the spies we had been staring at them before saw them change direction.'

Barton grinned: 'If you change the direction, change the direction. I'll just go to find them.'

'But... but the boss, the southeast direction is the territory of the Night King. If we just go to her territory like this, will it...'

Barton heard the words, and the body that had originally planned to move had a meal.

His face changed slightly.

Patton also knew something about the Night King. All the enemies who had seen her shot were dead, and it was said to be very strong.

This made Patton also very jealous.

but.....

Button gave a smirk, and a cold and tyrannical look appeared in his eyes:

'What about the Night King? I just went to deal with the two humans. If the Night King dared to stop me, I would even kill her!'

With that said, he directly changed his direction and leaped towards the southeast.

.....

When Black Bear One was about to get close to the ground, he glanced in two directions every night, and said faintly:

‘They are here.’

Lu Yuan was taken aback for a moment, then his face became cold slightly.

‘Yeye, you mean those two king-level geniuses?’

Yeye nodded: ‘Well, your previous battle took more than ten minutes. It’s not far from the tower. They still have time to come.’

Lu Yuan narrowed his eyes and smiled:

‘It’s really like a wolf seeing its prey.’

A look of worry appeared in Amy’s eyes next to him.

‘No problem, right? The other party is two second-order kings, we only have one here.’

Lu Yuan looked at Yeye.

Every night he opened his mouth and said:

‘It’s good for Black Bear One to stop in the air. I’ll go down and take things by myself. It’s very simple.’

Lu Yuan smiled:

‘Since Yeye said so, do as you say.’

As a result, the Black Bear One stopped in the air nearly a hundred meters from the ground, and stopped going down.

In the street below Black Bear One, there is the remains of the Mechanical Lord. Above the remains, there is a purple light group, six blue light groups and more than a dozen cyan light groups.

In a remote alley in the street, Patton frowned slightly when he saw the Black Bear One stop in the air, and a look of doubt appeared in his eyes.

Why don't you come down?

At this moment, an afterimage flashed past, even with Patton's strength, he could barely see clearly.

The afterimage fell to the ground and turned into Ye Ye's figure. She quickly picked up the light ball on the ground.

Seeing this, Barton saw blood red flames appearing all over his body, and blood flashed in his eyes.

He showed a hideous look.

'Sure enough... The Night King is also on the aircraft!'

Before coming, he had received news from his subordinates that someone had seen the Night King board the aircraft.

Because they weren't seen by their spies, Patton was still skeptical.

But now after seeing Ye Ye, he completely believed it.

'Damn night king!'

There was a strong blood flow in his body, and the next moment, his short legs kicked the ground.

boom!!!

The roar sounded, a shallow pit appeared on the ground, and a cobweb-like crack spread.

But Patton's body instantly spanned hundreds of meters and came to the wreckage of the aircraft.

Holding a ** battle axe in his hand that was bigger than others, his face was grim, and he slammed down the head of Ye Ye who was facing the light group with his back.

Lu Yuan and Amy on Black Bear One frowned slightly when they saw this scene.

At this moment, they suddenly felt a chill emerge.

The next moment, a white mist on the ground not far away rushed towards them, and the terrifying chill made Lu Yuan couldn't help feeling biting pain.

At this moment, the shield of Black Bear One emerged, blocking the white mist.

Click...

The white mist condensed on the shield, and the shield seemed to be frozen, and then a series of subtle cracks appeared.

Lu Yuan's pupils shrank.

Amy on the side exclaimed:

'It's so powerful! It almost made the shield unbearable in one blow?!'

This is the shield of the second-order senior lord!

Lu Yuan looked in the direction where the white mist appeared.

On the far side of the street, a handsome and indifferent young man in a white robe and white hair was looking up at them.

Just staring at him, Lu Yuan felt the chills all over his body stand up.

Lu Yuan narrowed his eyes slightly.

He understood that this white-haired boy was probably the King of White Frost.

Is this a king-level genius?

Sure enough.

And on the wreckage of the aircraft, when the Scarlet Tomahawk was about to approach Ye Ye, a stern smile appeared on Patton's face.

At this moment, Ye Ye's body suddenly turned into a black mist.

And the scarlet battle axe flashing with horrible spiritual power fluctuations cut through the black fog, and finally landed heavily on the wreckage of the aircraft.

The terrifying scarlet spiritual power erupted, and the entire wreckage of the aircraft was chopped in half by the battle axe.

boom!!

The terrifying roar sounded, and the aftermath raged.

The black mist dissipated, and Patton found that all the light ** had been picked up, his eyes widened, his eyes full of disbelief.

'This guy's combat skills...how is it possible?'

On the Black Bear One.

Lu Yuan and Amy also heard the roar ~www.mtlnovel.com~ Their hearts jumped and they were about to look down.

A dark shadow that had been by the two of them since just now fluctuated, and Ye Ye's figure emerged.

Her pretty face was plain, and she said softly:

'Let's go.'

Lu Yuan and Amy stared at Yeye.

Amy was a little shocked: 'This combat skill is so strong!'

Lu Yuan was slightly better than Amy. He ordered Black Bear One to close the cabin door and take off at the same time.

Then he looked at Ye Ye with a look of shock in his eyes.

Before Yeye had jumped down, there was a black shadow left in place, and Lu Yuan thought it was something.

Unexpectedly, she could emerge from the shadows that remained in place?

This combat skill is a bit strong.

The life-saving ability is first-rate, a bit like the extraordinary gene of the space system that Lu Yuan's heart is thinking, shining.

Ye Ye didn't fluctuate towards Amy and Lu Yuan's shocked faces.

She looked down.

'They are going to attack.'

Lu Yuan also turned his head and looked down.

Hei Xiong No. 1 embodies the projected reality. Button soars into the sky with a grim expression. The battle axe in his hand is slashed toward Hei Xiong No. 1, and a ** shadow of axe rushes toward Hei Xiong No. 1.

In the distance, there was a huge spiral ice gun spinning and shooting towards Black Bear One.

Feeling the power of that horror, Lu Yuan's scalp was a little numb.

What a powerful force!

Black Bear One accelerated with all its strength, broke through the sonic boom, and instantly disappeared in place.

The Scarlet Axe and the Spiral Ice Gun shot into the air, flying to the distance and slowly dissipating.

On the ground, Bai Lin's face was cold, watching Black Bear One disappear, then turned his head and glanced at Barton, then turned his head to leave.

Patton also noticed that Bai Lin had left, a cold murderous intent appeared on his face, he gave a grinning grin, and then he turned and left.
