

Chapter 147: My Genes Evolve Infinitely

INHERITING CRYSTALS, GREAT GAINS

The three of Lu Yuan went up more than a thousand meters up the stairs and came to the door of the first room.

Amy used Tianluo Wisteria to form a cane to protect Luyuan inside. Luyuan walked over and opened the door of the room.

As soon as he opened the door of the room, a dazzling purple light came into Lu Yuan's eyes.

Lu Yuan's eyes widened slightly, a little shocked.

The room is only white square meters, but there are six purple light clusters in the center.

'What's inside?'

Amy was short and was blocked by Lu Yuan, but she couldn't see what's inside.

She couldn't help but asked curiously.

Even though Ye Ye was a lot taller than Amy, she couldn't see what was inside, and she was a little curious.

Lu Yuan smiled excitedly:

'All lord-level items! I'll go in and have a look.'

Lu Yuan walked in, and Amy and Ye Ye finally saw what was inside.

After seeing the six purple light clusters inside, they all opened their eyes slightly and followed in.

Lu Yuan picked up the purple light ball on the ground and checked it.

Soon, he showed a hint of surprise.

‘These are all genetic weapons with the second-order perfect tempering degree. They are all weapons, and there is an epee!’

These six genetic weapons are epee, staff, long sword, dagger, long bow and battle axe.

Amy picked up the staff light ball and smiled openly:

‘With this light group, there is no need to change weapons in a short time.’

Ye Ye also silently picked up the light ball of the long sword.

Lu Yuan also held the light group with the epee in his hand. S8 Type Killer Epee Tier 2 100%: Lord-level genetic weapons.

He smiled: ‘The remaining three light groups, let’s take one each.’

Yeye and Amy nodded.

Each took one, and Lu Yuan got a longbow.

Lu Yuan put away the two light groups.

Now he has blessed the three lord gene weapons, and if he wants to change his epee before, he has to wait for his cultivation base to improve a bit, so that he can bear it.

Taking Lu Yuan’s genetic liquid for strengthening spiritual power now, it won’t take long.

The first room had a lot of gains, and the three of Lu Yuan ran towards the second room again.

Soon, they came to the second room.

Open the door of the room, there is also something in the second room.

In the center of the hundred-square-meter room, there is a black cube quietly placed.

The cube is only the size of a fist, and there are faint blue lines on it that flicker from time to time.

Lu Yuan couldn't see what it was, so he walked into the room, planning to pick it up and take a look.

After Lu Yuan walked in, Amy and Yeye also walked in.

Amy looked at the cube curiously:

'what is this?'

Lu Yuan had picked up the cube at this moment.

Pieces of information appeared in Lu Yuan's mind.

Second-order mechanical jammer: After use, it can form a jamming stand with a radius of ten kilometers, and no one in the stand can use the escape crystal.

'Um?'

Seeing this thing, Lu Yuan was taken aback, his eyes widened slightly.

Seeing Lu Yuan's surprised look, asked every night:

'Lu Yuan, what is it?'

Lu Yuan handed the things to Ye Ye: 'Let's take a look.'

Amy puffed up a small mouth on one side:

'I also want to see.'

Ye Ye took the cube, and obviously received the message, her eyes widened, and a hint of surprise flashed in her eyes.

'This thing...'

Amy was a little crazy.

The other two people watched it, but she didn't.

'what exactly is it?'

Yeye handed the cube to Amy.

Amy took it happily.

Then she widened her eyes: 'This thing...so interesting!'

Her eyes flashed, and she smiled and said, 'I suddenly thought of a bold idea.'

Lu Yuan glanced at Amy, and Ye Ye beside him also said:

'We should think the same. Lu Yuan, what about you?'

Lu Yuan nodded and said with a smile: 'Amy said that I killed those two guys before. I still think it's a bit unrealistic. Now it seems that it's really possible.'

Ye Ye's eyes flickered, and streamers flickered in her dark eyes:

'We need to have the strength to kill them first.'

Lu Yuan's expression was condensed, and he nodded.

'Let's put this mechanical jammer away first, and then go and look at other rooms.'

Lu Yuan took the mechanical jammer in Amy's hand and put it away.

Afterwards, they climbed up for a thousand meters and came to the third room.

Opening the door of the room, the densely packed spiritual power gene liquid piled up into a hill, making Lu Yuan's eyes widened, with surprises flashing in his eyes.

'A lot of spiritual power gene fluid!'

This is what he wants!

Lu Yuan walked in, and Amy and Yeye also walked into the room.

After seeing this enhanced spiritual power gene fluid, the expressions of Amy and Yeye were very calm.

After all, the two were born in a big family, so there will be no shortage of resources for cultivation, but the treasures that are suitable for them to use.

They obviously couldn't understand Lu Yuan's lack of training resources.

Seeing Lu Yuan's excitement, Amy said with a grin:

'Lu Yuan, you obviously have so much gene fluid, why are you still greedy for money?'

Lu Yuan rolled his eyes, how could this guy know how much he lacked these?

The three of them counted the genetic liquid for strengthening spiritual power, and to Lu Yuan's surprise, there were a total of 50,000 bottles.

An expression of excitement flashed in his eyes.

Fifty thousand bottles of Tier 2 Spirit Strength Gene Liquid, which is equivalent to a full 500 million Tier 2 Spirit Crystals!

This was much more than the sum of all the gains Lu Yuan had obtained in a floating city before.

Is this a 10,000-meter tall building?

This resource is too rich, right?

Lu Yuan was shocked.

Seeing Lu Yuan's excitement, Ye Ye tilted his head:

'You are very short of training resources?'

Lu Yuan nodded: 'A little bit.'

Every night thought for a while: 'I'll take ten thousand is enough.'

Amy also smiled and said, 'If that's the case, then I can also take ten thousand.'

Lu Yuan was taken aback, every night he took 10,000, Amy took 10,000, and the remaining 30,000?

Damn it? !

Thirty thousand bottles of enhanced spiritual power gene liquid ? !

Lu Yuan's eyes widened, and he couldn't help but look at the two with a little dry tongue:

'You... this is equivalent to a lot of spirit crystals! Don't you get more?'

Ye Ye shook his head: 'I have no shortage of training resources. If it weren't for you, I wouldn't be able to enter the Central Floating City now.'

Amy patted Lu Yuan on the shoulder: 'It's really impossible, or you can join us in Tianluo City, I told Grandpa Grandpa, with your talent, you will definitely not be short of resources, and everything will be prepared for you. good.'

Lu Yuan glanced at Amy, then smiled:

'Then do you join your adventure team and be your subordinate?'

Amy's eyes widened and she was shocked: 'How did you guess my thoughts? I still want to call you Xiaoyuanzi in the future.'

The corners of Lu Yuan's mouth twitched, 'No!'

'cut'

Amy curled her lips.

Since Ye Ye and Amy said so, Lu Yuan would naturally not refuse.

He alone took 30,000 second-order enhanced spiritual power gene liquid.

Lu Yuan found that the resources of this 10,000-meter-high building were extremely abundant, and the room seemed to have never encountered vacant rooms or traps.

Isn't the room available here?

Soon, they left the third room and came to the fourth room.

After opening the room, Lu Yuan looked at the empty room and the smile on his face froze.

Well, he thinks too much.

When they encountered an empty room, the three of Lu Yuan could only continue to climb up, and soon came to the fifth room.

In the fifth room, Lu Yuan found a transparent crystal floating in the air.

Lu Yuan raised his eyebrows and looked at Crystal with some doubts.

He walked over and picked up the crystal.

The information came into Lu Yuan's mind.

Inheritance Crystal: I-type hacked gold battery.

Introduction: Contains the technical principles involved in building the I-type hacking gold battery.

Lu Yuan's eyes widened slightly, a little surprised.

It turned out to be an inheritance crystal? !

I haven't heard of the hacking gold battery, but the technological items in this El mechanical ruins are much higher than the civilization on Daqixing. This hacking gold battery should be extraordinary, right?

Yeye and Amy walked in.

Seeing Lu Yuan stunned in place, Amy asked with some doubts:

'What's wrong? What did you find?'

When Lu Yuan came back to his senses, he handed the inheritance crystal to Amy:

'Look at it.'

Amy took the Inheritance Crystal, and then, her eyes widened, and a look of surprise appeared in her eyes.

'Inheritance Crystal?!'

A gleam of light flashed through Yeye's dark eyes, and she looked at the inheritance crystal.

As an imperial princess, she is naturally interested in things like the civilization inheritance crystal that can improve the level of civilization.

'let me see.'

A tangled color appeared on Amy's little face.

After all, she is also the little princess of Tianluo City, and she also understands the importance of this inheritance crystal. She kind of wants to take it by herself, and then she will use other resources to compensate Lu Yuan.

Lu Yuan had no power of his own and could use other things to compensate, but Ye Ye was obviously different.

As an empire's princess, Amy didn't think that every night would lack anything else.

But thinking that Ye Ye was their companion after all, she still reluctantly handed the Inheritance Crystal to Ye Ye.

After Ye Ye received the news, her dark eyes shrank slightly.

Her gaze swept across Lu Yuan and Amy: 'Let me give this inheritance crystal, and I can compensate you for resources.'

Ye Ye curled his lips: 'Then you let me, and I can also compensate you for the resources.'

Every night calmly looked at Amy, Amy also stared back with wide-eyed eyes.

Lu Yuan's mouth twitched as he saw the two vying for each other.

Good guy, is it true that it is a crystal of civilization inheritance?

This directly caused the two of them to fight?

Fortunately, he doesn't have his own power or anything.

Otherwise it would be too much trouble.

Anyway, persuade it first.

He coughed and said:

‘You two calm down, we can discuss it carefully.’

Hearing what Lu Yuan said, Amy and Yeye both turned to look at Lu Yuan.

Amy opened the mouth and said:

‘Lu Yuan! You said, is this inheritance crystal given to me or to her?’

Ye Ye didn’t speak, but the meaning in his eyes was obviously the same as Amy.

Lu Yuan: ‘???’

He was full of question marks and his face was speechless:

‘This heritage crystal is useless to me, why ask me?’

Ye Ye faintly said: ‘There is a share of you in it, and you are qualified to decide whom to give it to.’

Amy nodded: ‘The three of us have a share. I definitely want to give it to myself, and Ye Ye must want to give it to herself. Now you vote! Who do you want to give it to?’

Lu Yuan: ‘...’

Being stared at by the two, Lu Yuan’s forehead was sweating.

He thought for a while, and felt that it was not right for him to say letting it to anyone.

He smiled bitterly and said, ‘There are more than one 10,000-meter high-rise building here. Maybe there are other inheritance crystals. If there are other ones, how about the two of you? There is no need to fight. In addition, It seems that the knowledge in the Inheritance Crystal cannot be recorded and passed on to others, right? Can you choose to cooperate?’

Hearing what Lu Yuan said, the two of them were taken aback, and then looked at each other.

After being silent, Yeye handed the crystal to Lu Yuan:

‘Lu Yuan, you keep it, and after you go out, you will give it to me and Amy.’

Amy also nodded.

Lu Yuan took the Inheritance Crystal: ‘Okay, then.’

Putting away the inheritance crystal, the three of them continued to go upstairs.

In the sixth room, five purple light clusters float.

The three of Lu Yuan walked in and checked.

Found that it was all spells.

Savage Power Charm Tier 2: Lord-level Charm, after use, it can greatly increase strength and agility.

The specific improvement effect depends on your own strength, but as a lord-level charm, it is certainly not bad.

The seventh room is another empty room.

In the eighth room, as soon as the three of Lu Yuan arrived at the door of the room, the Evolution Cube in Lu Yuan’s body began to vibrate. U U Reading www.uukanshu.com

Lu Yuan’s eyes flashed.

Inside is the core fragment of AI?

Lu Yuan was a little surprised.

Originally, he thought that only the floating city outside would have EI core fragments. Didn’t he expect that there would also be in the central area?

Lu Yuan opened the door, and in the central area of the room, as expected, a total of twenty gray-white fragments were quietly placed.

After seeing this fragment, both Amy and Ye Ye showed a disappointed look.

‘What’s the matter with the core fragments of AI? It’s all in the central floating city, is there any such thing?’

Amy’s eyes widened, a little dumbfounded.

This is equivalent to the resources of a room are gone.

Even Ye Ye couldn’t help but nod his head straight.

Lu Yuan smiled and said, ‘No one wants it anyway, it’s mine.’

Lu Yuan picked up all the core fragments of EI.

Amy was no stranger to this, glanced at Lu Yuan every night, and didn’t say much.

Afterwards, the three continued to go upstairs.

And Lu Yuan also absorbed the five core fragments of EI by the way.

Twenty pieces of AI core fragments entered the evolutionary cube of the land edge.

There was a sudden roar in Lu Yuan’s mind.

Lu Yuan was in a daze and saw an invisible thread, one end of which was connected to him.

The other end is connected like one of the directions, sinking into the void.

Lu Yuan looked at the direction in which the invisible silk thread sank into the void, his eyes were a little stunned.

What is this?

Soon, the invisible thread dissipated, or Lu Yuan could not perceive it.

Although he was puzzled, he could only give up.

The three of them continued upstairs and soon reached the highest floor, the ninth room.

Opening the door of the room, Lu Yuan was stunned when he saw what was inside, a flash of surprise flashed in his eyes.
