

Chapter 152: My Genes Evolve Infinitely

DAQI SHAKES, BAIYUNZHOU IS FAMOUS

Real world, Red Maple Empire Genius Camp, No. 112 dormitory building.

In Lu Yuan's room, a white light flashed, and Lu Yuan's body emerged.

As soon as Lu Yuan appeared, his eyes were in a daze, and then he looked around to confirm that he had returned to his dormitory.

Lu Yuan fell backward, lying on the bed, exhaling, his face full of fatigue.

Although there were only twelve days in the Ayre Machinery Ruins, the twelve days were spent fighting, and the spirit was tense, and he had not rested at all.

Even with Lu Yuan's current mental power, he would feel tired.

Now that I came back, I relaxed and felt a sense of exhaustion.

Lu Yuan went to take a shower, then lay on the bed, closed his eyes and went to sleep.

When Lu Yuan woke up, it was already the next day.

The rest of the night was good, and Lu Yuan felt full of energy.

He took out his mobile phone and found several missed calls.

There were Li Qinghe's, Xue Wang's, Wang Xiangxiang's, Zhuo Ming's, and even Lu Yuan didn't expect that there was Si Tingyu's.

There are also many unread messages in Guangxin, and Li Qinghe's first.

'Brother Yuan, did you come out of the place of origin?'

'Brother Yuan, is it going well? How is the harvest?'

'Brother fate?? I will be angry if I don't reply to my sister again?!'

'Lu Yuan! I'm coming to the genius camp to beat you up!'

‘Isn’t it asleep?! Give my sister a message when I get up!’

Lu Yuan: ‘...’

Looking at each message, he was full of black lines, as if he could see Li Qinghe’s a little angry expression.

He called back quickly.

The phone rang soon, and Li Qinghe’s somewhat lazy voice came from the other side:

‘Hey!’

Lu Yuan gave a dry cough and apologized: ‘Sister Qinghe, I slept yesterday. I haven’t had a good rest for twelve days in the Aier Machinery Ruins.’

He was still a little embarrassed. He was so tired last night that he never thought that Li Qinghe would worry about him, so he just fell asleep.

‘Brother Yuan?’

Li Qinghe seemed to be a little more sober, she snorted softly:

‘Sister knows you are sleeping!’

Afterwards, Li Qinghe turned around:

‘How is it? Is it going well at the El Mechanical Ruins? The resources in the ruins are quite rich in Baiyunzhou, especially in the first and second tiers. If the harvest is good, you don’t have to worry about the resources in the early stage. .’

Lu Yuan smiled: ‘The harvest is really good.’

Li Qinghe smiled and said: ‘Really good? Tell my sister, how much has been gained? With your strength, even if you can’t get to the Central Floating City, you should be able to beat a few hundred-meter-high buildings, right?’

The corner of Lu Yuan’s mouth twitched: ‘Sister Qinghe, you too underestimated me, right? I went to Central Floating City, and now my cultivation base is second-order.’

Li Qinghe was taken aback, his voice was a little surprised:

‘Already second-order? I remember that your cultivation hasn’t reached the first-order consummation before, right?’

Lu Yuan smiled: 'I have obtained a lot of genetic fluids for strengthening spiritual power.'

'Huh? You can even get the genetic liquid for strengthening spiritual power? It seems that the harvest is really good.'

Li Qinghe obviously also knows that strengthening the spiritual power gene liquid can speed up the improvement of one's cultivation base.

After all, the difficulty of absorption is too low.

Lu Yuan smiled and said, 'I have gained the most for the entire El Mechanical Relics, right?'

Even if it doesn't count the gains from continuing to enter the El Mechanical Ruins, just this time, his gains are considered the most.

After all, Amy and Yeye gave him a lot of resources, and every time they couldn't evenly allocate resources, unless they specifically needed them, they would also give Lu Yuan an extra.

Li Qinghe couldn't help laughing when he heard this, 'Huh? Brother Yuan, if you haven't seen you for a few days now, you will make your sister happy with the joke? Did you like your sister?'

Li Qinghe didn't take Lu Yuan's words seriously.

Although she knew that Lu Yuan was quite strong, he was considered a genius in the Red Maple Empire, and only good in Da Qi Xing as a whole.

And what is the remains of Ayre's machinery?

That was the entire Baiyun Continent. In the real world, it was the genius of dozens of races in the Baiyun Star Territory.

In Li Qinghe's view, Lu Yuan's talent should be considered upstream if he counts his cultivation talent, but it is definitely unrealistic to say that it is top-notch.

There are many genius monsters in the Baiyun Star Territory, and there are all born kings.

Harvest first, which is obviously a joke.

Seeing Li Qinghe didn't believe it, Lu Yuan rolled his eyes.

I just said that Sister Qinghe has gained the most, and I don't believe it. If I say that the entire Ayre machinery remains will be mine in the future, then Sister Qinghe is afraid that I am dreaming?

Sometimes no one believes the truth.

Lu Yuan said helplessly:

‘Sister Qinghe, my harvest this time is really the most.’

‘I don’t know if you are your sister? In Baiyunzhou, there are three natural kings who have entered the El Mechanical Ruins this time. Don’t tell me that even those three natural kings are not as good as you.’

Li Qinghe’s voice was smiling, obviously still not believing it.

Lu Yuan said solemnly: ‘Two of the kings were killed by me. They didn’t get anything at all. One of them was an ally with me, but my ally gave me a lot of things, and her gains were worse than mine. It’s a bit.’

As soon as Lu Yuan finished speaking, Li Qinghe on the opposite side was stunned.

Li Qinghe heard Lu Yuan’s serious voice, and she blinked her eyes, a little uncertain:

‘Brother fate...you say it again? Two natural kings were killed by you?! You won’t be crazy, will you?!’

Seeing that Li Qinghe still didn’t believe it, Lu Yuan said helplessly:

‘This time the incident should not be trivial. There should be news from Battle.net. If you don’t believe me, Sister Qinghe, you can go to Battle.net to check it out later. When I come back this weekend, I can show you this time. Harvest.’

Li Qinghe: ‘???’

Seeing Lu Yuan speaking so seriously, Li Qinghe’s eyes widened, a little dazed.

Is this cute brother of my own family telling the truth? !

Isn’t it? ?

Although Li Qinghe was very optimistic about Lu Yuan, he felt that Lu Yuan had a good talent and might even become a war emperor in the future, but this requires Lu Yuan to continue to work hard.

In terms of starting point, Lu Yuan’s starting point is very low. At least in the early stage, Lu Yuan should not be able to compete with the geniuses who have inherited the genes of their ancestors.

As a result, Lu Yuan told her that he killed two kings at the El Mechanical Ruins! ?

This made Li Qinghe think he was dreaming.

Li Qinghe fell silent, and his voice became serious:

‘What you said is true?!’

Lu Yuan nodded, ‘Of course it is true.’

Lu Yuan heard Li Qinghe’s breathing a little bit faster, and then she asked curiously:

‘how did you do it?’

Lu Yuan smiled and recounted what had happened before.

Of course, Lu Yuan didn’t say that he could evolve genes, and he also recognized the El Mechanical Relic as the owner.

Both of these are related to the Evolution Cube, which is the biggest secret of Luyuan.

Even if Lu Yuan knew that Li Qinghe was very good to him and cared about him, he would not speak out.

Regarding the Evolution Cube, he intends to keep it in his heart for a lifetime, unless he is completely invincible.

It doesn’t matter at that time.

Li Qinghe couldn’t help being stunned after hearing Lu Yuan’s account.

When he heard that Amy and Ye Ye were both his allies, Li Qinghe’s mouth curled slightly:

‘Brother fate is amazing? Even the heirs of the Tianluo war emperor and the princess of the Tianming Empire, the natural king, have allied with you. Isn’t it good enough?’

Lu Yuan was stunned as he listened. He was a little puzzled: ‘Sister Qinghe, why do you feel that your tone seems a little strange?’

Li Qinghe was taken aback for a moment, then shook his head: ‘No, am I not normal? I just think my fate brother is particularly good.’

Lu Yuan sounded like it was indeed normal. The corners of his mouth were raised, a little smug:

‘That is, don’t you see who I am?’

Li Qinghe laughed: 'If others know that you have killed two king-level geniuses, I am afraid they will be surprised. I am afraid that the whole Daqi will be shaken, and even in Baiyunzhou, you can hear a little of your name.'

Lu Yuan was taken aback:

'Should not? Such an exaggeration?'

Li Qinghe smiled: 'You don't understand, the Ayre Machinery Relic has always been a place where the new generation of geniuses clash. Although it can't be counted as all geniuses, it is also a bit gold. It can slay two king-level geniuses, which can be said to be amazing. Hehehe deserves to be my destined younger brother, but my sister never managed to slay two king-level princes back then.'

There was a trace of pride in Li Qinghe's laughter.

The corner of Lu Yuan's mouth twitched.

Is he going to be famous?

To be honest, he feels like it's no good to be famous.

It can't bring him any resources, but also makes him pay a lot of attention.

Lu Yuan shook his head slightly, no longer thinking about it.

Li Qinghe smiled and said:

'Since my fate brothers are so good, my elder sister has to work hard, I will also go to practice... By the way, you are famous, I am afraid someone will ask you to join their family or consortium at that time, if you want to join, Just join your sister's family. If you don't want to join, don't worry. Your sister will take care of it. Also, your treasure that controls mechanical life is of little use to the strong, but it is still attractive to the weak. Yes, it has miraculous effects whether it is against the machine race or some mechanical life monsters in the Origin. I am afraid that someone will look at you at that time. Sister, I will warn some of the strong ones. As for the weak ones, you should be able to send them by yourself.'

When Lu Yuan heard the words, he was moved.

Sister Qinghe is so kind to him, this thigh is really comfortable.

Lu Yuan recalled Li Qinghe's long and straight legs.

He coughed dryly, pressed his thoughts to the bottom of his heart, and nodded:

‘I see, thank Sister Qinghe.’

‘Well, sister, I’m going to practice!’

Li Qinghe hung up the call, and a beep came.

Lu Yuan couldn’t help but smile slightly.

At the back is the news from Si Tingyu. Unlike Li Qinghe, Li Qinghe is an information bombing. Si Tingyu only sent one sentence.

It was posted last night.

‘Is it going well at the Aier Mechanical Ruins?’

Lu Yuan smiled, and he could feel Si Tingyu’s concern. His mentor himself was a serious person, so it would be nice to have a word of concern.

He smiled and replied:

‘Thank you mentor for your concern. This time, the mechanical ruins in Aier went smoothly and the rewards were very rewarding.’

Si Tingyu didn’t reply, so he should be busy.

Lu Yuan didn’t wait, and then looked at other people’s news.

Wang Xiangxiang’s.

She asked Lu Yuan if he had gone to explore the Aier Machinery Ruins.

She said that after she went in and spent twelve days with her teammates from the same school, she finally came out alive and obtained more than one hundred bottles of spiritual power gene fluid.

The tone was full of excitement.

Lu Yuan was a little surprised.

You know, Wang Xiangxiang’s cultivation base is not high, he has just entered the first level, and he didn’t expect to be able to come out alive.

Lu Yuan could also understand her excitement, a bottle of spiritual power gene liquid could be equivalent to 100 first-order spiritual crystals.

This is equivalent to more than 10,000 first-order spirit crystals. Although it is nothing to Lu Yuan, it is a huge gain for Wang Xiangxiang.

No wonder she is so excited.

Lu Yuan returned the news and congratulated her.

As for Zhuo Ming and several people in the God of War group, they also asked Lu Yuan and Wang Xiangxiang how they had gained.

The other talents had just started school for a month, and had not broken through to the first level. Only Lu Yuan and Wang Xiangxiang could go to the Aier Machinery Relic.

It was a pity that Cao Yan almost broke through, but in the end he still didn't catch up, and was a little bit lost in the group, but Zhuo Ming still comforted him.

Lu Yuan chatted for a while in the group, and naturally talked about his own gains.

Of course, Lu Yuan only said that the harvest was not bad, but he did not say that he had the most harvest in the entire El Mechanical Ruins.

Otherwise, he estimated that none of these guys would believe it.

Even Sister Qinghe thought Lu Yuan was joking at first, let alone them?

After that, he bluffed with Xue Wang.

Xue Wang recently joined the night watchman, and his life is still very moist, the benefits are quite good, and the resources are abundant.

I completed a task of alienation processing this month. Because I am a newcomer, the task is very simple and easy to complete.

Then he had been chatting with Lu Yuan.

Because they are both in the imperial capital, I got together once last weekend.

Lu Yuan chatted for a while, and after returning a few of his friends, he put away his mobile phone.

After Lu Yuan washed, he went out.

The door of Yang Ping's room opposite was closed tightly, UU reading www.uukanshu.com Lu Yuan is also a little curious about how he gained this time.

Lu Yuan glanced at his room and went downstairs.

Downstairs, the smart butler Becky has already put breakfast on the table.

McGonagall is eating breakfast, but Si Tingfeng is not there.

When McGonagall saw Lu Yuan, his eyes lit up, with a stuffed bun in his mouth, and waved to Lu Yuan:

‘A Yuan, so early? You should be very tired just after coming out of Aier’s machinery ruins? Wouldn’t you sleep more?’

Lu Yuan smiled, ‘I’m almost sleeping.’

He walked over and sat down, took a meat bun and took a bite. The meat was fragrant and delicious.

McGonagall leaned over, with a glimmer of expectation in his eyes:

‘Ayuan, how is it? Is the harvest okay? Is there anything suitable for me to use for seniors? I will buy it with credits. But for the sake of our relationship, you have to give me a cheaper price.’

Lu Yuan was taken aback, his gains were simply too much.

If you really use credits to buy, you don’t know how many credits you can sell?

Under the circumstance of ensuring that one’s own cultivation resources will not be scarce, maybe one million credits can be sold?

In addition, I can continue to go to the El Mechanical Ruins in the future. In this case, the credits for flashing combat skills shouldn’t be long before you can get it, right?

When Lu Yuan thought of this, his heartbeat accelerated a little.

That’s the extraordinary gene of the space system!

If it is burned, his strength will be greatly improved!

He looked at McGonagall who was a little expectant and smiled:

‘Good harvest, I really have a lot of things that seniors can use here.’

McGonagall is now in the third academic year, and his cultivation level happens to be the pinnacle of the second-order combat division.

There are not too many precious treasures of Tier 2 in Lu Yuan.

He seemed to see a lot of credits beckoning to him.
