

Chapter 159: My Genes Evolve Infinitely

BAIYUN CITY, TIANJIAO LIST

Seeing the silence, the gray-haired old man's majestic face had a faint smile, and he said:

'I heard that in recent freshmen, there are good seedlings?'

Hearing this, the originally frozen atmosphere loosened, and the weight on everyone's faces dissipated a lot.

Yu Lao said with a smile:

'There are indeed a few good seedlings, such as Si Clan's Si Tingxue, who has awakened for half a year, the natural lord, has broken through to Tier 3 half a month ago, and his combat power is almost invincible among Tier 3 lords.'

'Oh? I broke through to Tier 3 in half a year, and it's terrifying to be born later. Is this Si Tingxue the younger sister of Tingyu?'

The gray-haired old man smiled and turned his head and looked to one side to sit with a serious face, listening to the rain with a serious look.

Si Ting Yu's golden red eyes flashed slightly and nodded: 'Yes, the principal, Ting Xue is the sister of a compatriot of mine.'

'No wonder.'

The gray-haired old man chuckled, 'With the gift of listening to the rain, I'm afraid your sister will not be too bad.'

Si Tingyu said seriously: 'Principal, I think my talent is average, and I can make up for my shortcomings through hard work.'

Gray-haired old man: '...'

Yu Lao: '...'

Everyone: '...'

Everyone looked at Si Tingyu with a serious face and almost vomited blood.

Do you have any misunderstandings about talent in general ?

The corner of Yu Lao's mouth twitched, then he coughed dryly and said:

'By the way, there is another little guy who is quite good. It was recommended by the girl from Qinghe, called Lu Yuan. Although she was born from a mediocre background, her talent was amazing. She only awakened in just three months and just broke through. At Tier 2, the lord gene has already been burned. This time the El mechanical ruins were opened, it was surprising that Lu Yuan, the child, killed the two natural kings, the Green Demon and the Baishuang.'

The gray-haired old man flashed his eyes and nodded with a smile:

'This Lu Yuan, I've heard that it is this little baby who made a lot of noise on the Battle.net today ? It's really good... It turned out to be recommended by Qinghe's little girl. Her vision is as vicious as ever.'

A middle-aged man with short red hair smiled and said:

'Lao Yu's news is a bit outdated. At noon, classmate Lu Yuan went to test his combat power. In the first test, he ranked 25th, which is really incredible.'

'what?'

Everyone was taken aback.

Those present were all high-level talents in the genius camp. Except for a few young people with unlimited potential, such as Si Tingyu, who were the King of War, all the others were powerhouses above the King of War.

Although they have some concerns about the battle list, they are not particularly concerned.

They only knew the result of Lu Yuan's first test.

For a while, everyone was a little surprised.

Only when Si Tingyu's eyes flashed, she had already paid attention to it before and naturally understood the news.

'Hmm...Is it ranked 25th in the first test ? This little guy is a bit interesting. Geniuses who are born to inherit genes may not be stronger than ordinary awakened geniuses. If this little guy can keep it, I am afraid that there will be a lot in the future. Achievement.'

The gray-haired old man smiled and sighed.

‘For such a good seedling, this mission may be a good whetstone. At that time, pay attention to them.’

Everyone looked at each other and nodded.

.....

In the middle of the night, Lu Yuan’s light gate was repaired, and he could enter the land of origin again.

A white light flashed, and Lu Yuan’s body appeared in front of a tall city wall.

Lu Yuan glanced at it and recognized that this was Red Maple City.

He is not surprised.

When exiting from the El Mechanical Ruins, it will randomly appear in the area around the place where it entered at that time.

Luyuan used to be the remains of El’s machinery that entered on the grassland not far from Red Maple City. Now it is normal to appear nearby.

Lu Yuan did not enter the city directly.

He closed his eyes and felt it seriously.

Soon, he found an invisible light in his consciousness.

The light is connected to the void, I don’t know where the end is.

Lu Yuan opened his eyes, a hint of surprise flashed in his eyes.

Sure enough, the El Mechanical Ruins had already been recognized as the master.

Relying on this invisible light, he can enter the El mechanical ruins at any time.

Lu Yuan sighed, calming down some excitement.

Afterwards, he took out the communication crystal and contacted Amy.

They have made an appointment to allocate the remaining treasures.

White light flashed, and Amy’s delicate and pretty face appeared in the communication crystal.

‘Big liar! Are you here? I’m in the Red Maple City Teleportation Hall now, where are you?’

Lu Yuan looked around, 'I'm under the city wall. Wait for me there, and I'll come over right away.'

'Oh, hurry up!'

Amy nodded.

After closing the communication crystal, Lu Yuan ran towards the city gate.

Soon, he paid the entrance fee, entered Red Maple City, and ran towards the teleportation hall.

At this moment, he heard a cold voice from not far away:

'Lu Yuan?'

Lu Yuan was taken aback, turned his head and looked over, then he saw Si Tingxue's iconic blue long hair and cold face.

Beside Si Tingxue, there were several teenagers and girls.

At this moment, they were also looking at Lu Yuan, with a look in their eyes.

This month, Lu Yuan contacted his tutor Si Tingyu's home to let him go. Basically, Si Tingxue would go to Si Tingyu's house every day.

The two of them see each other often, and even have a few meals together at Si Tingyu's house, which is considered a nodding acquaintance.

He walked over, smiled and said:

'Si Tingxue? I didn't expect you to be here.'

Si Tingxue nodded silently and looked at Lu Yuan: 'Well, you just came out of the ruins?'

'Yes, I plan to go to Baiyun City.'

Si Tingxue didn't ask Lu Yuan why he went to Baiyun City, but just said:

'I heard that you have done great things in the ruins, and you have achieved good results. Congratulations.'

'thanks.'

At this moment, a pretty girl with short black hair stared wide-eyed and looked at Lu Yuan with some curiosity:

‘It turns out that you are the student of Lu Yuan who killed the natural king? You are so amazing! Now even Baiyun City has people discussing you, maybe you will be able to enter the Baiyunzhou Tianjiao list.’

‘Baiyunzhou Tianjiao list?’

Lu Yuan was taken aback for a moment, but he had never heard of this.

‘Don’t you know? This list is ranked by Baiyunzhou Origin Land itself. The Tianjiao on the list uses various facilities in the city of Origin Land, and even auctions have discounts and privileges. The entire Tianjiao list only includes young Tianjiao below the Battle Master level, which is divided into a total list and a sub-list. In my opinion, Lu Yuan students are very hopeful to be on the division list of the battle division level in the future.’

The girl explained with a grin.

Lu Yuan was a little surprised: ‘There is such a good thing?’

Si Tingxue’s eyes flickered slightly, and she nodded gently:

‘There is indeed such a thing, but it is not easy to go to the Tianjiao list. It is only a battle division level. All the rankings above are Tianjiao who have burned the king’s genes.’

The corner of Lu Yuan’s mouth twitched.

It’s too difficult, just want him to be on the list?

Dreaming?

Even he didn’t have the confidence to fight the King-level when he burned the Lord-level genes.

Lu Yuan felt that those who were discussing could really value him.

However, Lu Yuan had some interest in the Tianjiao list.

On the list, no matter what the facility is, there are benefits and privileges, even he wants it a little bit.

If there is a discount in the gravity room, he can save a lot of spirit crystals.

If there were discounts during the auction, he would save even more spirit crystals.

After going to Baiyunzhou, let’s get a good understanding.

Then Lu Yuan thought of something and said:

‘By the way, the school has special tasks, do you know Si Tingxue?’

Si Tingxue nodded: ‘Well, someone notified us before. We will go out in two days.’

Lu Yuan nodded, then he smiled:

‘It’s fine if you know, then I’ll leave first.’

Si Tingxue nodded: ‘Yeah.’

Lu Yuan bid farewell and walked towards the teleportation hall.

Seeing Lu Yuan’s disappearing back, a handsome, black-haired teenager next to Si Tingxue blinked:

‘Si Tingxue, this kid is a student of your Red Maple Genius Camp? The lord level wants to be on the ranking of the arrogance of heaven, even if it is a sub-ranking, it is a bit taken for granted.’

The pretty girl with short black hair heard the words and glanced at the black-haired teenager:

‘How can I know if I haven’t tried it? What if it really does? Someone killed the natural king at the mechanical ruins of El. Can you do it for you?’

‘I.....’

The black-haired boy had a dark complexion, and he didn’t know how to refute it for a while.

He really can’t do it.

Si Tingxue did not quarrel, and said lightly:

‘Let’s go, time is running out.’

She walked to the door, and the other three quickly followed.

.....

Lu Yuan soon arrived at the teleportation hall, and he saw Amy at the VIP entrance.

Next to Amy is Wang Lingling with a gentle smile on his face.

Only Lu Yuan knew that this Wang Lingling had a bad heart and was always fooling Amy.

How can he be so honest?

Amy also showed up on the post about the pit killer, even because of her cute appearance, she received more attention than Lu Yuan.

After all, who doesn't like a cute and powerful cute girl?

In addition, Wang Lingling on the side is also beautiful.

The two stood at the door of the VIP passage, and the genetic warriors who came and went in the teleportation hall would look at them both intentionally or unintentionally.

Amy obviously saw Lu Yuan too, and she bounced and waved:

'Big liar! Here!'

Hearing Amy's voice, some genetic warriors also looked in Lu Yuan's direction.

After seeing Lu Yuan, many people's faces changed slightly, and they were whispering to their companions.

Obviously, they also recognized Lu Yuan.

Lu Yuan didn't care about other people's gaze, and walked over.

Wang Lingling smiled slightly:

'Mr. Lu, thank you for taking care of the young lady at Aier Machinery Ruins. Otherwise, with the strength of the young lady, there is no way to gain so much.'

When Amy heard this, she was immediately dissatisfied:

'What? Lingling! You underestimated me too! I'm also helpful! Don't believe you ask the big liar!'

Lu Yuan was immune to the term 'big liar'.

He smiled: 'Amy did help a lot.'

'You see!'

Amy smiled triumphantly.

Wang Lingling rubbed Amy's head with a smile: 'Miss is really amazing.'

Seeing this scene, Lu Yuan suddenly remembered his previous physiological knowledge about Amy.

He intends to find an opportunity to ask Wang Lingling, Amy's problem seems a bit serious?

At this moment, Lu Yuan heard Amy's voice transmission:

'By the way, big liar! Where was the information you said you wanted to show me last time?'

Lu Yuan was taken aback.

material? What information?

Then his eyes widened suddenly, thinking of the last time he promised Amy to show her information about having a baby.

I didn't expect this guy to remember?

The corner of Lu Yuan's mouth twitched, and the sound transmission said: 'Don't worry, I'll give it to you then.'

Amy looked at Lu Yuan suspiciously:

'Big liar, you won't forget?'

'How is it possible?! Is Lu Yuan such a person?! It's just that you have to wait for this thing to be given to you when there is no one.'

Lu Yuan is a serious way.

Amy glanced at Lu Yuan with some confusion, then nodded.

'Then I will trust you again, if you lie to me, I will be rude to you!'

'Absolutely not!'

Lu Yuan promised.

Well, I have to find a way to fool Amy over.

Seeing that the two of them had a strange expression, Wang Lingling at the side narrowed his eyes slightly, and a suspicious look appeared in his eyes.

She smiled:

‘Miss, don’t you have anything to go to Baiyunzhou?’

Amy came back to her senses: ‘Yeah, I still have to meet Ye Ye. Lingling, wait for you to help me negotiate!’

When Lu Yuan heard Amy’s words, he glanced at Wang Lingling suddenly.

No wonder Wang Lingling would follow, because it turned out to be here for negotiations.

But they didn’t say that they couldn’t lead people to negotiate, and Lu Yuan was not easy to say anything.

The three of them entered the teleportation hall, and the teleportation proceeded quickly. The next moment, the three of Lu Yuan came to Baiyun City.

The transmission hall of Baiyun City was much larger than that of Red Maple City.

I walked out of the teleportation room and walked through a long corridor before I came outside.

After leaving the teleportation hall, Lu Yuan looked at the surrounding scenery with a hint of surprise.

The entire Baiyunzhou is extremely huge, and when you look at it, it is full of densely packed tall buildings, many of which are thousands of meters high.

There are all kinds of genetic warriors passing by on the street and in the air, including humans, elves, cats, kobolds and so on.

Here are all the races of Baiyunzhou.

In the most central area of Baiyun City, there are five huge golden stone steles floating in the air.

When Lu Yuan looked at the stele, the stele seemed close to him.

Here are five lists.

They are Tianjiao Bang, Wang Zhe Bang, Huang Zhe Bang, Great Emperor Bang and Sheng Bang.

It is exactly the list that Si Tingxue said before.

The Tianjiao List is a list of the younger generation, and only ranks the strong below the Zhan Zun level.

Divided into the overall list and the sub-list.

The sub-list is divided into four levels: fighters, war divisions, generals and warlords ~
www.mtlnovel.com~ The total and sub-lists are all 100 people.

Lu Yuan looked at the overall ranking.

1. Yan Liang, Mo Yu, Zhan Zun.

2. Anastasia, Ye Mei, Zhan Zun.

3. Aimen, Kaman, Zhan Zun.

...

When Lu Yuan saw the first name on the list, he had a message in Lu Yuan's mind.

In the first place in the overall list, spending in cities of origin such as Baiyun City can get a 20% discount on all consumption. The gravity room and simulation room of the martial arts hall can be used for free, and the auction house does not charge intermediary fees for auction items.

Lu Yuan widened his eyes slightly when he felt the information.

Boy, is this list so good? !

I want to go too!
