

Chapter 160: My Genes Evolve Infinitely

YE MEI, LU YUAN'S NEEDS

'That's the Tianjiao list?'

Amy's eyes widened, Ka Zilan, looking at the list in the sky.

There was a look of expectation in her eyes:

'I will be on the list too!'

Wang Lingling smiled and encouraged: 'Miss will definitely be able to do it!'

'Of course! This lady is a genius!'

Amy is very proud.

Lu Yuan smiled and said, 'I contact Ye Ye to see where she is.'

'Oh.'

Lu Yuan took out the communication crystal and contacted Ye Ye.

Soon, Ye Ye's pretty face appeared on the communication crystal.

'Every night, we have arrived at Baiyunzhou.'

YeYe nodded: 'Well, I'm already here, in the midnight restaurant.'

Lu Yuan looked at Amy and Wang Lingling beside him, and Wang Lingling smiled slightly: 'I know where it is. It is a restaurant opened by Yemei, which is very famous throughout Baiyunzhou.'

Lu Yuan nodded and said with a smile: 'We'll come over right away.'

Unlike other private cities in Baiyunzhou, the city that comes with it as the place of origin can be picked up by a rental aircraft.

However, Luyuan itself has the Black Bear One, but it doesn't need a flying machine.

On the street, black light flashed, and Black Bear One appeared in the air at a height of three meters.

The genetic warriors coming and going around saw Black Bear One, and they turned their heads to look at Lu Yuan, with a hint of envy in their eyes.

This aircraft is very valuable at first glance, and being able to own such an aircraft is itself a symbol of status.

Wang Lingling looked at Black Bear One and said with a smile: 'This is the aircraft you were flying on when you were at the Aier Machinery Ruins?'

Amy smiled and nodded: 'Yes, Black Bear One has helped us a lot.'

Lu Yuan also nodded, 'Go up.'

The hatch opened, and the three-meter height made no difference to the three of Lu Yuan. They jumped into the Black Bear One, and the Black Bear One rose into the sky, following Wang Lingling's instructions, and flew in the direction of the Midnight Restaurant.

The entire Baiyun City has a radius of hundreds of kilometers, which is similar to other cities in the place of origin. It is divided into five areas: southeast, northwest and central.

The Midnight Restaurant is in the central area, where a lot of money is spent here, let alone buying a house here to open a restaurant, even if it is just renting, it will cost a lot of spirit crystals.

Being able to open a shop here is also a symbol of strength.

Soon, Black Bear One stopped in front of a small six-story building with a strange and mysterious style and a dark exterior wall.

The three of Lu Yuan jumped off the Black Bear One, and then Lu Yuan put the Black Bear One away.

At the door there are two very beautiful women wearing ** black uniforms with black stockings wrapped around their legs.

The two women look similar to humans, but they have pointed ears and a pair of goat horns on their heads, and their eyes and hair are dark red.

Night charm.

Seeing Lu Yuan and the three of them coming down, Ye Mei bends down slightly, their voices are as soft as a cat tickles:

‘Welcome three to come.’

Lu Yuan’s heart fluctuated slightly and couldn’t help but glance at the two of them.

During this period of time in the genius camp, Lu Yuan did not go to study.

Regarding the origin of Baiyunzhou, it is also a race of the real world Baiyun Star Territory, and the land margin is still generally known.

Ye Mei is very famous in the entire Baiyun Star Region. Even if Lu Yuan hadn’t seen the Night Mei before, he had heard of their names.

All Ye Meizu are women, and they all look beautiful. It is said that Ye Mei combines with foreign races to give birth to offspring. If all the descendants are born female, they will all be Ye Mei. If they are male, then they will be of the father’s race.

This is a very amazing race.

Moreover, the potential of this race is very high. Almost all Ye Mei can awaken to become genetic warriors, and the proportion of new generations who can inherit the genes of their ancestors is also extremely high.

The strength of the entire race is among the top in the Baiyun Star Territory.

In addition, because of their racial characteristics, they must be married to foreign races, and the network of interests is extremely wide, spreading across the entire Baiyun Star Territory.

It is even said that there is a net of their interests even in the area outside the Baiyun Star Territory.

It can be regarded as one of the most unprovoked races in the entire Baiyun Star Region.

Because of this, it is clear that this race is all beauties, but no other race dared to hit their attention.

Lu Yuan suddenly remembered that he had seen in the Tianjiao Ranking before that the second-ranked Zhan Venerable was Ye Mei.

Lu Yuan couldn't help but sigh, this kind of tribe is outrageous.

Seeing Lu Yuan looking at Ye Mei, his eyes flashed, and Amy on the side puffed up her small mouth with a bit of discomfort, and hit Lu Yuan's shoulder with a punch:

‘The eyeballs are about to fall! Great pervert!’

Lu Yuan returned to his senses and found that Wang Lingling had a smile on his face, and said:

‘Unexpectedly, Mr. Lu is also such a man.’

The two Ye Mei on the side had soft smiles on their faces, looking at Lu Yuan, their expressions were full of charm.

They don't know how many times they need to go through Lu Yuan's attention every day, and they have long been used to it.

When Lu Yuan heard Wang Lingling's words, his face went dark: ‘I'm thinking about things.’

Wang Lingling smiled and said:

‘Man, I understand.’

Amy snorted uncomfortably and looked away.

He felt that he was wronged by the thief, and he was really thinking about things!

He smiled dryly and said:

‘Let’s go in quickly.’

So he opened his mouth to a night charm waiter:

‘Let’s go to Box 602.’

Waiter Ye Mei was stunned when he heard this, and looked at the three of Lu Yuan in surprise.

The six are the most distinguished guests in the midnight restaurant. Didn’t expect them to go to the sixth floor?

The waiter’s expression became more respectful, and he said with a charming smile:

‘Please three follow me.’

The three followed the Yemei waiter into the midnight restaurant.

The light in the restaurant is a bit dim, with only a dark red crystal inlaid on the wall, emitting a dark red light.

For the genetic warrior, this light can naturally see the way.

The three followed the Yemei waiter upstairs, and soon reached the sixth floor, and stopped in front of a door.

‘Three, this is Box 602.’

The Yemei waiter knocked on the door, and a cat girl with white hair and white ears opened the door.

The girl glanced at Ye Mei, then looked at Lu Yuan and Amy behind Ye Mei. When she saw Wang Lingling with a smile on her face, a hint of doubt flashed in her eyes.

She smiled: ‘Master Lu Yuan, Miss Amy, please come in.’

‘Xiao Bai, you are here too.’

Lu Yuan greeted with a smile.

While at the El Mechanical Ruins, Yeye contacted Xiaobai, Lu Yuan and Amy were both nearby, and naturally recognized her.

The three of them entered the room, but Ye Mei gently closed the door of the room and left.

The lights in the room were brighter than outside, and I was already sitting on the window seat every night, quietly in a daze.

When the three of Lu Yuan came in, she turned her head and looked over.

Amy sat down opposite Ye Ye, staring at Ye Ye.

While Xiao Bai was sitting on the edge of Ye Ye, and Wang Lingling was sitting next to Amy.

Lu Yuan looked at both sides and sat in the center seat.

They were both sitting together, but Lu Yuan was sitting alone.

He felt a little empty.

At this moment, Ye Ye turned his head to look at Lu Yuan, and said softly:

‘Lu Yuan, take things out.’

Lu Yuan nodded and stroked his hand. Nine inheritance crystals appeared on the table.

Seeing these inheritance crystals, both Amy and Yeye blinked.

But Wang Lingling and Xiao Bai’s eyes flashed with shock.

Xiaobai was afraid to say: ‘So many inheritance crystals?! Are there so many inheritance crystals in the central floating city?’

Amy blinked: ‘It was so much.’

Lu Yuan smiled slightly, he knew that this was the effect he had absorbed too many core fragments of El, which could almost be regarded as the effect of the son of the world.

There should not have been so many inheritance crystals.

‘Let’s see for yourself.’

Lu Yuan smiled and said.

These inherited crystals are all mechanical technology, which is of no use to him.

Ye Ye and Amy looked at each other, they had already seen it.

Amy looked at Wang Lingling and said:

‘Lingling, take a look.’

Ye Ye looked at Xiao Bai: ‘Xiao Bai.’

‘Um.’

Wang Lingling and Xiao Bai looked at each other and picked up the inheritance crystals one by one and checked them.

After reading the inheritance crystals one by one, whether it was Wang Lingling or Xiao Bai, the expression on his face gradually became agitated.

Obviously, the technological knowledge in this inherited crystal is of great use to them.

Wang Lingling looked at Xiao Bai, with cold light flashing in his eyes, with a gentle smile on his face, and said softly:

‘Let’s come one by one.’

Xiao Bai also looked at Wang Lingling solemnly, and nodded:

‘good.’

Wang Lingling took out one of the inheritance crystals.

‘This Dawn-class anti-gravity generator inherits the crystal. Our Tianluo City is useful. Let us give it to Tianluo City. We can compensate you and ask you to mention it.’

Wang Lingling smiled and said.

Xiao Bai glanced at the Inheritance Crystal, his eyes flickered slightly, and smiled:

‘This generator can be given to Tianluo City, but the maximum power of this morning-level anti-gravity generator can support a floating city. The specific value, presumably Tianluo City should also be very clear. We don’t want much. All knowledge of the energy-gathering core of the imperial psionic cannon.’

Wang Lingling’s eyes narrowed: ‘Miss Xiaobai, your appetite is too big. This floating city is indeed good, but the core knowledge required by the imperial energy gathering core is far more precious than the floating city, not to mention this is only the core of it. One of the knowledge? This requirement is not equal. Instead, we can provide the design of the Tianluo fighter unique to Tianluo City. The Tianluo fighter is a Tier 4 fighter.’

‘Tier 4 fighter design drawing? Compared with this heritage crystal, the value is still lower, right?’

Xiaobai narrowed his eyes slightly and said with a smile: ‘I hope to add two more blue gold veins here.’

Wang Lingling smiled and said:

‘Your country’s Tier 4 fighter is a Nether fighter, right? Before coming, I deliberately learned that the manufacturing cost of the Nether fighter should be around 5000 Tier 4 spirit crystals. However, the combat power of our Tianluo fighter will not be weaker than the Nether fighter. The manufacturing cost is only 4,500 Tier 4 Spirit Crystals. Compared with Miss Xiaobai, you should understand the specific difference. It is better to ask the principal of your country if they are willing to exchange it.’

Hearing Wang Lingling’s words, Xiao Bai was taken aback for a moment, then looked at Wang Lingling deeply, and then smiled and said:

‘This transaction, I can still call the shots. Since the Tianluo fighters are cheap and powerful as Miss Wang said, then we are willing to trade.’

Wang Lingling smiled and put away the inheritance crystal: ‘Then make a deal.’

‘Next, Type I hacking gold battery...’

Lu Yuan looked at Wang Lingling, then at Xiaobai, listening to what they said, it was a little clouded.

He didn't understand anything like the manufacturing cost of Tier 4 fighters.

After all, these are all standard psychic weapons, which are used by weak genetic warriors or even ordinary people.

For his genetic warrior who strengthens himself, it is basically useless.

And this kind of transaction sounded so boring to him, a little sleepy.

Lu Yuan looked at Amy and Yeye nearby.

Amy puts her hands on her chin, closing her big eyes from time to time, looking drowsy.

Ye Ye had already looked at the scenery outside the window, looking in a daze.

The corners of Lu Yuan's mouth twitched, and he began to be in a daze.

.....

After a long time, Wang Lingling and Xiao Bai had allocated the nine inheritance crystals.

Both of them have satisfied smiles on their faces, obviously each has a reward.

And Amy has fallen asleep on the table, her pretty face is still lovely and moving.

Ye Ye is still looking out the window with one hand on her cheek.

Lu Yuan was thinking about the next plan.

Now that there is a genetic enhancement solution equivalent to nearly ten million fourth-order spirit crystals, for Lu Yuan, the spirit crystals should be enough for the time being.

After all, to refine a lord-level gene to perfection, it will consume only hundreds of thousands to millions of Tier 4 spirit crystals. He has refined all three lord-level genes to perfection, at most a few million Tier 4 spirits. crystal.

There are still millions of Tier 4 spirit crystals left, and Lu Yuan can even evolve these three genes to the king level.

By that time, Lu Yuan was already third-order.

In the case of Tier 3, Lu Yuan can continue to explore the El Mechanical Ruins and obtain Tier 3 training resources.

The entire El mechanical ruins are his alone, and Tier 3 resources must be enough for him to break through to Tier 4.

It can even evolve.

Of course, if it were to cultivate to Tier 5, Lu Yuan felt that it would not be enough to consume all the resources in the El Mechanical Ruins.

Tier 5 is still early, at least before Tier 4, Lu Yuan has no shortage of spirit crystals.

All he needs to do now is to cultivate well.

By the way, you will have to participate in special missions at that time, and the missions will be rewarded with credits.

Originally, Lu Yuan was a little worried about not having enough credits for first-tier and second-tier students. It may take a while for him to sell Lord-level Transcendent Genes to make up two million. Now it seems that if the task is done well, there may be hope.

After all, the credits for special missions are certainly not low, mainly based on combat achievements.

This requires Lu Yuan to accumulate military exploits.

If it goes well, maybe when he breaks through to Tier 3, he can already buy the flashing gene.

At that time, the third-order he would have the space gene directly, and that would be cool.

With flashing combat skills and infinite spiritual power, if Lu Yuan wanted to run, even Zhan Zun should not be able to catch up with him.

Lu Yuan was planning the next cultivation path, and he was a little expectant.

At this moment, Wang Lingling couldn't help smiling stiff when he saw Amy lying on the table sleeping.

She smiled and patted Amy on the shoulder, and said warmly:

‘Miss, it’s over.’

‘Yeah~’

Amy pouted and made a dazed protest. Ye Ye next to him came back to his senses and looked over.

Seeing Amy doing this, Wang Lingling patted Amy on the shoulder again:

‘Miss, we are leaving, so we will leave you here alone.’

Hearing this, Amy was so excited that she sat up quickly.

She rubbed her eyes dazedly: ‘Don’t leave me here alone!’

But soon, Amy recovered.

She looked around and saw that everyone was looking at her with weird faces. She blushed and coughed dryly:

‘I, I was thinking about a very serious issue just now!’

Lu Yuan asked, ‘What’s the problem?’

Amy froze for a moment~www.mtlnovel.com~ She opened her mouth, and then looked at Lu Yuan fiercely:

‘I’m thinking how to beat you up!’

Lu Yuan: ‘...’

He stopped talking.

At this moment, Wang Lingling smiled and said:

‘Miss, the transaction between you and Princess Ye Ye has been completed, now you have to compensate Mr. Lu.’

Amy came back to her senses, she looked at Lu Yuan:

‘Yeah, what do you want, big liar?’

Ye Ye also looked at Lu Yuan, with a hint of curiosity.

Lu Yuan thought for a while and smiled: ‘I want transcendent genes. Um, there are rare and special transcendent genes, which are similar to those of the space system and the time system.’

With the preciousness of the nine civilizations inheriting crystals, Lu Yuan’s share should be exchanged for precious transcendent genes.
