

Chapter 178: My Genes Evolve Infinitely

WITH THE WORLD PEOPLE

Hot recommendation:

The powerful psionic cannon of the mechanical lord shocked the gale eagles and fire eagles.

They screamed angrily and blasted their attacks to the mechanical lord.

There are thousands of gale carvings and fire eagles in the sky, and the wind blades and fireballs are united together, and the power is naturally extraordinary.

But seeing this scene, all the guards also launched an attack, attacking the joint attack by the fierce birds.

Plus the psionic cannon of the mechanical lord.

Under the final collision of combat skills, the guards actually became stronger.

Psionic cannons continued to explode on the gale carvings and fire eagles in the sky, and corpses and blood continued to fall from the air.

At this moment, inside the military area, a family of dark fighters rose into the air and attacked the dark clouds.

There are hundreds of them.

These are the second-tier shadow fighters of the 257th Legion.

Regardless of whether it is defense or shield, the power is all at the level of the second-order consummation leader.

It is the anti-air unit of the Legion.

Although the number is a little bit small, this is also impossible.

After all, the cost of a ghost fighter needs about 200,000 second-order spirit crystals.

One hundred is 20 million second-order spirit crystals.

Just in the middle of the southern defense line, there are tens of thousands of defensive camps.

Every camp needs to be equipped with ghost fighters, so how many spirit crystals do you have?

What's more, the entire Red Maple Empire is not just a military district on the southern line of defense, the eastern line of defense, and even the space fissure base requires a lot of fighters.

The cost is too high.

Moreover, this is not just a matter of cost, but the various materials needed to build fighters are massive.

Even if the Red Maple Empire finds mineral veins in the land of origin, it has a lot of metal materials, which is not enough.

Because of this, almost all races will compete for the resource points found in the rift in space.

Everyone wants to have more resources, whether civilian or military, they need resources.

As the shadow fighters joined the battlefield, coupled with the joint siege of the mechanical lords and the guards, the number of Gale Eagles and Fire Eagles was rapidly declining.

Before long, only a few gale eagles and fire eagles remained alive in the group of fierce beasts that originally looked like dark clouds.

Most of the strengths of these Gale Carvings and Fire Eagles are Tier 3 bosses or bosses, and they have survived under such terrifying firepower.

Even so, these gale eagles and fire eagles still had the intention to retreat, and they fluttered their wings and began to retreat.

However, these Gale Eagles and Fire Eagles could not be resisted under the joint encirclement and suppression of the Mechanical Lord and the Shadow Fighter, and they were killed one after another.

The wave of flying fierce beasts is being wiped out, and even a few people are injured, and there is no death toll.

Even the Shadow Fighter that went into the battle was unscathed.

After all, the firepower of the Mechanical Lord is too fierce.

Everyone's eyes widened in disbelief.

Then cheers sounded, almost resounding across the sky.

All the guards who knew that the machine lord came from Lu Yuan looked at Lu Yuan with gratitude.

Grote grabbed Lu Yuan's shoulders and shouted:

'Brother, you are too fierce!!'

If you don't shout a little bit, you can't hear it at all, the cheers are too loud.

Luo Xiu beside him couldn't help but squinted his eyes and smiled.

He walked to Lu Yuan's side, and Grote quickly let go of Lu Yuan with a serious face.

Luo Xiu didn't look at Grote, patted Lu Yuan's shoulder lightly, and smiled:

'Good job. In the past beast tide, flying beasts pose the greatest threat to us. After all, it has the advantage of the sky. It is not easy for our long-range fighters to kill flying beasts. The pressure is all in the shadow combat technique team. Over there, almost every time a large number of ghost fighters are destroyed. Unexpectedly, this time not even one ghost fighter was destroyed, and even no one died. This is all your credit.'

Lu Yuan's eyes lit up and smiled:

'The commander of the corps has to record my military merits. Then I will go to the genius camp to exchange credits.'

Luo Xiu: ‘...‘

Tracy: ‘...‘

Jiang Ming: ‘...‘

Luo Xiu smiled: ‘Don’t worry, I can’t forget you.’

The flying beast tide had just flown from the south, and after being intercepted by the southern city wall, it did not go to the other city wall direction, which was also considered a reduction in losses.

After everyone cheered for a while, they were stopped by the warlords in their respective regions.

‘Although the first battle was very smooth! But this is just the beginning! Attention everyone! Stay vigilant! Ranged fighters regain their spiritual power! We have to fight a protracted battle!!‘

The roar sounded everywhere.

The guards immediately regained their vigilance, and the soldiers who had spent a lot of time in the previous battle had already started to recover their spiritual potions.

These spiritual potions are all supplies for the defensive camp, and they will be sent up to the city wall by logistics personnel each time.

All the soldiers spent a while to recover their spiritual power and stood up again.

Before long, there was a roar in the distance, and the ground began to vibrate slightly.

Everyone’s pupils shrank, their eyes widened, and they looked towards the southern region.

In the forest defense line, giant trees were shaking violently, and some giant trees were even knocked to the ground by their feet.

‘Attention! The beast tide is approaching! The beast tide is approaching!! Ready to resist the beast tide!!‘

Roars sounded everywhere, and the long-range fighters clenched their longbows, wands, and psionic guns.

Everyone took a deep breath and stared at the front, the sway of the trees kept approaching.

Before long, there was a huge black pig more than seven meters high at the foot of the defensive camp.

The black pig has a single silver horn on his forehead, his eyes are blood red, and there are two strange black tentacles on both sides of his body.

The black pig raised his head, saw the defensive camp, roared, his body turned into a black streamer, stepped on the rocks, and rushed towards the defensive camp.

Behind it, countless powerful fierce beasts roared out of the forest and rushed towards the defensive camp.

The continuous fierce beasts are densely packed and endless.

The mountains seemed to be covered by fierce beasts.

‘attack!!’

The warlord roared and gave orders.

Seeing some of these fierce beasts with weird tentacles, all the guards shrank their pupils and their scalp numb.

The tentacles also had eyes and mouths, which looked too weird.

However, their hands were still very stable, and they attacked the fierce beasts below.

There are attacks from guards, attacks from psionic cannons, attacks from shadow fighters, and attacks from mechanical lords.

The roar continued to sound, and the whole mountain seemed to be trembling.

The fierce beasts flew flesh and blood under various attacks.

Of course, there were also fierce beasts roaring to counterattack, and various elemental combat abilities shot from the fierce beast group.

However, around the long-range fighters there are warriors of the Guardian System and the Assault System.

These fighters can block attacks for the long-range fighters, allowing the long-range fighters to vent their spiritual power unscrupulously, and all kinds of combat skills erupt.

The corpse of the fierce beast rolled all the way from the hillside to the bottom of the mountain, and was trampled on by the fierce beast behind, almost turning into blood foam.

A group of fierce beasts stepped on the bodies of their companions, followed by one after another, with red eyes, and rushed towards the defensive camp.

This time, it wasn't just a beast attacking the southern wall.

Fierce beasts attacked even in other directions, but compared to the southern city wall, the number was slightly less.

In the eastern city wall area.

There are flames circulating in Zhu Zhengyang's body, a sword of flame shoots out, and each sword of flame will kill a fierce beast.

Even so, a group of fierce beasts still feared death, and their scarlet eyes were cold.

For a moment, his heart felt a little cold, and his mood fluctuated slightly.

His gaze swept around, and all the guards had their eyes cold, staring at the fierce beast, and their attacks continued to fall on the beast.

He bit his lip, a puff of blood appeared, and he let out a low growl:

'Gantt! The fierce beast of the dog day!'

So his spiritual power surged, and the flame sword shot more diligently.

At this moment, a guard on the side glanced at him and reminded lightly:

‘Xiao Zhu, slow down. If this goes on, the spiritual energy consumption will be a little bit unable to keep up, and then you will collapse here.’

Hearing this, Zhu Zhengyang moved stiffly and nodded: ‘Yes, Captain!’

The guard nodded: ‘Well, come on.’

‘Yes!’

Not only Zhu Zhengyang, but among the ten young girls who came from the genius camp, as well as Yan Jing and other four are long-range warriors. At this moment, their eyes are much sharper than before, and their attacks are directed at the beasts, harvesting the beasts. life.

Of course, there is also bad luck.

Because McGonagall was an assassination system, he couldn’t attack from a long distance, nor did he resist an attack. He just ran fast, so he was assigned to the logistics department.

His Battle.net space was filled with a large amount of genetic medicine and other substances. When he left the warehouse, he saw the fighting in various places, the roar constantly sounded, and the corners of his mouth twitched.

Especially when he saw the ten-meter-high mechanical lords standing on the southern defense line, his tears almost stayed.

‘Fuck... the labor and management also want to kill the beast! What is the future of this logistics department? The military merits are too little.’

Looking at himself, and then at Lu Yuan, he has the desire to die.

At this moment, Yu Wa, an assassination warrior from the genius camp, patted him on the shoulder, with a fateful expression of helplessness:

‘I regret now that I chose the assassination gene.’

The two of them looked at each other, and they were both Tianya degenerate, and tears were about to come out in their eyes.

At this moment, a roar sounded:

‘You two! What are you doing there?! Hurry up and deliver the goods!’

Two people are excited:

‘Yes!’

They quickly turned into afterimages and ran in the direction of the city wall.

.....

Time passed, and the attack of the beast continued from day to night.

The remote fighters in charge of the attack were divided into two groups, one group rested to regain spiritual power, and the other group continued to attack.

Many people have done their spiritual power several times.

Let alone the amount of materials consumed.

Outside the defensive camp, the beasts under the mountain piled up into a mountain, almost filling the forest, and the pile was more than ten meters high.

The fierce beasts in the rear continued to emerge, stepping on the corpse of their companions, and continued to rush towards the defensive camp, tirelessly.

Of course, there is also the mechanical lord who is also tireless.

For the mechanical lords, they have powerful psychic power to drive the core, as long as they are not overloaded, they can continue to fight for a long time without worrying about consumption.

And this is obviously a great thing.

At least the strength of the rest of the other guards can be withstood by the mechanical lord.

With the passage of time, pressure has appeared in various wall areas.

As the head of the mechanical corps who defended against loopholes, although Lu Yuan had only one person, he had more than two hundred mechanical lord brothers, and he had to take them to other city walls to resist the beasts and supplement the defense shortcomings.

For Lu Yuan, although a little tired, his eyes were very excited and excited.

This is not just because of this beast tide, he is probably able to obtain a lot of military merits. The most central reason is that there are a lot of beasts coming to attack the defensive camp, and some of them are alienated beasts.

After the death of these alienated fierce beasts, the unknown aura was continuously absorbed by the Evolution Cube.

Lu Yuan's body has been feeling the refreshing breath.

In his body, the Evolution Cube kept trembling, and it was probably inhaled.

The most central thing is that Lu Yuan feels that if it is absorbed in this way, the Evolution Cube may usher in a transformation.

Lu Yuan didn't know what it would transform into, but he could clearly feel that Evolution Cube seemed to have accumulated a lot of unknown aura compared to before, and was waiting for an opportunity to transform.

Lu Yuan could feel that after the transformation, the Evolution Cube should become stronger.

Although Lu Yuan still didn't know what the ** was this unknown aura, but the alienated fierce beast must be the better.

He wanted to know what would become if the Evolution Cube evolved.

Time continues to pass.

The night gradually passed, and the sky ushered in a new day of sun.

At this time, the people who had been attacking the fierce beasts constantly, and even a little numb, suddenly discovered that the number of fierce beasts had decreased.

Everyone was shocked and looked down the mountain, where the corpses of the fierce beasts piled up almost twenty to thirty meters high.

The blood of the fierce beast stained the ground and the mountain peaks red, and the air was filled with a strong smell of blood, which was disgusting.

But the fierce beasts that continued to emerge from the forest were a lot less than before.

Everyone's eyes widened and their spirits were shocked.

In the southern city wall, Luo Xiu, Tracy and Jiang Ming are three
~www.mtlnovel.com~ Luo Xiu is the king of war, and Tracy and Jiang Ming are both war masters.

Their opponents are naturally the king fierce beasts and the fourth-order warlord fierce beasts that may appear in the fierce beasts.

On this day and night, three king-level fierce beasts appeared, and more than ten Tier 4 war-sovereign-level fierce beasts appeared.

However, they were all killed by Luo Xiu, Tracy and Jiang Ming.

Even so, they feel a little tired.

After all, they have to rush into the tide of beasts when they kill the powerful king-level beasts and war-lord beasts, and they have to face opponents of the same level, and they have to face besieged beasts. The pressure is naturally enormous.

Now, seeing the tide of fierce beasts has become sparse, all three of them are shocked.

They looked at each other, and there was a look of consternation and disbelief in their eyes.

Luo Xiu muttered to himself: '...This time the beast wave, the beast did not even rush up to the wall?!'

The other two were also a little dazed.

You know, they haven't encountered animal tide before.

Every time the beast tide came to the back, as the guards had insufficient spiritual power and difficulty in supplying them, fierce beasts would eventually rush up the city wall and even rush into the defensive camp.

It can be said that the battle will become very tragic.

But now ?

This can be said to be the most powerful beast wave recently, and it didn't even rush up the city wall ? !

Looking around, although the guards were exhausted, there were not many injuries and even fewer deaths.

The three of them shook, and then looked at the ten-meter-high mechanical lord beside them, their eyes in a trance.

Luo Xiu sighed slightly with a smile:

'Isn't Army Commander Lu Yuan wanting military merit? The military merit he has made this time is too great.'

Both Tracy and Jiang Ming nodded involuntarily, still with a trace of blankness in their eyes.

This beast wave was much easier than imagined, and it didn't make people feel like a beast wave anymore.
