

# Chapter 182: My Genes Evolve Infinitely

## EVOLUTIONARY CUBE TRANSFORMATION

Hot recommendation:

With the addition of the mechanical lord, the southern city wall was stabilized.

And Tracy in the city is killing the fierce beast, I believe it will not take long to kill the fierce beast in the city.

So far, the camp defense has barely stabilized.

At this moment, there was a terrifying roar in the sky, and then another wailing sound.

Everyone's complexion changed, and they looked up into the air.

A huge lizard fell from the sky and landed heavily on the hillside outside the southern city wall, smashing a deep hole in the hillside.

Lu Yuan and Si Tingxue both watched the direction of the pit vigilantly. After confirming that they could not sense the breath, the two were relieved.

At this moment, Lu Yuan's face changed, he felt a powerful unknown aura melt into his body, his body was refreshed, and it seemed that every cell of his body was jumping for joy.

The Evolution Cube was shining with a blue light.

There was a breath of unknownness.

Lu Yuan was amazed.

The unknown aura contained in the king-level fierce beast is much more than that of the previous fierce beasts.

Lu Yuan felt that he was only one step away from the evolution of the Evolution Cube.

Si Tingxue frowned when she saw Lu Yuan's expression a little strange:

'What's wrong?'

Lu Yuan came back to his senses, smiled and shook his head:

‘fine.’

Si Tingxue nodded and looked up at the sky, her eyes flashing in her icy blue eyes.

Lu Yuan also looked into the air.

At this moment, Ye Zhenghao and the Frost Giant were besieging the remaining Blue Mouse King. Although this Blue Mouse King was not weak in strength and had strange black tentacles all over his body, it still steadily retreated in the face of Ye Zhenghao and the Frost Giant.

The blood continued to spill from the air.

It roared and exploded spiritual power, and its tentacles kept shooting out strange black and green rays, but it was useless.

Before long, Ye Zhenghao slashed the blue mouse’s neck with one stroke, almost cutting off its entire head.

The terrifying spiritual power exploded, erasing the vitality of the blue rat.

Its corpse fell from the air and landed not far from the monster lizard, also smashing into a deep pit.

After its corpse, a weird scream sounded, and the next moment, the pitch-black tentacles turned into black mist and dissipated.

Not far away, Lu Yuan felt a strong breath of unknown blending into his body.

boom! !

In Lu Yuan’s mind, a roar sounded like stars burst.

The white mist was constantly surging, and the evolution cube surrounding the gene chain selection stopped at this moment, exuding an extremely dazzling blue light.

This light enveloped the entire gene chain area, and even the white mist was penetrated

Lu Yuan felt an extremely refreshing sensation, and all positions of his body were rapidly strengthening.

Even the gene chain seems to have changed.

This change is somewhat similar to breaking the genetic lock, but it goes deeper than breaking the genetic lock.

Lu Yuan didn't know what the change was for a while, but he felt the improvement of his own strength, he also knew that this was a good thing.

The faint blue light flickered for a few seconds, and finally slowly converged and disappeared.

And the Evolution Cube appeared from the faint blue light.

Looking at Evolution Cube, Lu Yuan was shocked.

Because the Evolution Cube is actually a lap bigger than before, a bit like it's grown up.

What shocked Lu Yuan most was the information from the Evolution Cube.

After the evolution of the Evolution Cube, in addition to the evolution of extraordinary genes, the genetic weapons and spiritual things that are blessed on the genetic chain of the land can also evolve in the entire gene space.

What is this concept?

Originally, Luyuan's genetic armament was a second-tier consummate lord-level armament.

But if it evolves, it becomes a second-order complete king-level weapon.

Tier 2 King Class!

Generally, the king-level beast will drop after being armed with a king-level gene.

But among the second-order fierce beasts, basically the highest level is only the lord level, and the king level is simply unrealistic.

The genetic armament of the second-order king class is naturally unrealistic.

If Lu Yuan had evolved a second-tier king-level genetic weapon, it would be equivalent to creating a genetic weapon that didn't exist before.

Lu Yuan is not very clear about how much the King-level Gene Armaments will increase the Gene Warriors, but it is definitely much stronger than the Lord-level!

If all the genetic weapons he blessed were king-level, with his current strength, he should be able to fight a second-tier king, right?

Moreover, what the Evolution Cube can evolve is not only genetic weapons, but also spiritual things.

It's like Black Bear One.

If the Black Bear One is evolved, no matter its speed, defensive ability, or offensive ability, it must be greatly improved.

The only regret is that this kind of evolution only has an effect on the things that are blessed on the genetic chain of the land margin.

If you leave Lu Yuan's gene chain, then this thing will lose its effect.

If it is a genetic weapon after evolution, it will eventually degenerate to its original state if it breaks away from the genetic chain of the land margin.

Luyuan guessed, perhaps because the Evolution Cube itself is closely connected with Luyuan.

Even so, it was extremely useful to Lu Yuan himself, and it still had a lot of improvement effect on him.

It's a pity that he can't make money by evolving genetic weapons.

If he can really evolve the second-tier boss-level genes to the second-tier lord-level in batches, how much more money will he make?

He estimated that he didn't need to worry about Lingjing anymore.

However, Lu Yuan still had some expectations in his heart.

If you continue to absorb this unknown aura, will the Evolution Cube transform again?

Maybe it's not something that is blessed on the genetic chain of the land, but it can also evolve?

Maybe even Evolution Cube can evolve everything? Supernatural materials, genetic medicines, charms, etc., maybe all evolve?

If this is the case, then Lu Yuan can imagine how many spirit crystals he has.

As long as you evolve more precious treasures and take them to auction, you are afraid that you will not have to earn a lot of spiritual crystals!

Just think about it and feel good.

We must continue to absorb this unknown aura and let the Evolution Cube transform again.

Lu Yuan set a goal for himself.

The previous information is the changes brought about by the evolution of the Evolution Cube itself. In addition, after the evolution of the Evolution Cube, it has also had a certain impact on the continental margin.

He has nearly doubled in all aspects.

This has more than doubled his combat power?

This is only a visible improvement, the evolution of the invisible life essence, Lu Yuan can also feel that his life essence at this moment seems to be sublimated again.

In general, the evolution of this evolutionary cube has been too rewarding for Lu Yuan.

Si Tingxue at the side seemed to feel something. She glanced at Lu Yuan with some doubts, and when she found nothing, she withdrew her gaze.

After killing the two king-level fierce beasts, Ye Zhenghao landed and began to destroy the fierce beasts in the city.

And the Frost Giant returned to Si Tingxue:

‘My master, do you have any more orders?’

Si Tingxue glanced at the Frost Giant. About five minutes before the Frost Giant dissipated, she thought about it and said:

‘Slay the fierce beasts outside with all your strength.’

‘Yes, my master.’

The frost giant roared, turned into a ball of light, and rushed into the group of fierce beasts.

Where the Frost Giant passed, all the beasts turned into ice sculptures, and then they broke apart.

As a king-level genetic warrior, his strength is naturally extremely powerful.

If they have unlimited spiritual power, a king-level fighter can kill all beasts below the king-level by himself.

It's a pity that the endless and endless beasts, even the king-level beasts, will be exhausted of their spiritual power.

In addition, there may also be king-level fierce beasts in the beast tide. If you encounter a king-level fierce beast when your spiritual power is exhausted, it will be finished.

Therefore, warlords like Ye Zhenghao and Luo Xiu generally maintained their spiritual power, waiting for the king-level fierce beasts in the damp to take action.

But the Frost Giant has no such scruples, and there are five minutes to dissipate, and he can vent his remaining spiritual power without reservation.

Large swaths of beasts were killed, and a vacuum area 100 meters wide appeared in the depths of the entire southern city wall.

After five minutes passed, the frost giant turned into ice mist and dissipated, leaving only a place of crushed ice.

These are all original fierce beasts, after being frozen, they were smashed into pieces.

Lu Yuan looked a little envious.

In this short period of five minutes, the Frost Giant killed almost a few thousand fierce beasts.

This efficiency is much higher than that of Lu Yuan's mechanical lord.

However, the number of mechanical lords is too large to add up, and the mechanical lords are more durable.

Men, of course, the longer the better.

Lu Yuan didn't envy him when he thought about it.

After the two king-level fierce beasts were killed and Ye Zhenghao was liberated, he went to kill the Tier 4 fierce beasts and liberated the two deputy army commanders.

After that, coupled with a large number of mechanical lords of Lu Yuan, more and more fierce beasts were killed.

After fighting for another hour, the wave of beasts that Lu Yuan had encountered before was completely wiped out.

After all the fierce beasts died, the entire camp fell into a dead silence, which was completely different from the cheers of the 257 camp to eliminate the tide of beasts.

Because too many people died.

After Lu Yuan came in, he looked around, and there were dead bodies everywhere in the camp.

The fierce beast rushed into the defensive camp and the battle was too fierce. I am afraid that thousands of guards died in the entire camp.

In such a situation, even if the animal tide is over, no one can cheer.

Lu Yuan's gaze swept away, and he felt very uncomfortable when he saw the guards silently collecting the bodies of their dead comrades.

Even the joy brought by the evolution of the previous Evolution Cube is loose.

Si Tingxue at the side silently looked at the guards who collected the corpses for his comrades, closed his eyes, and then turned to look outside the city wall. Although her face was expressionless, her clenched fist showed that she was not emotional. Quite calm.

Lu Yuan glanced at Si Tingxue, a hint of surprise flashed in his eyes.

Unexpectedly, this ice cube is actually quite human.

Lu Yuan thought for a while and comforted:

‘You have done your best.’

At this moment, Si Tingxue's face was pale, and his breath was weak. It was obviously a manifestation of excessive spiritual energy consumption, and I am afraid that the spirit is also very tired.

This is probably a long battle.

Si Tingxue shook her head slightly, looked at the endless mountains in the distance, and said lightly:

‘Just doing your best can't save these people. If you didn't support them, more people would die.’

She fell silent and said: ‘I am too weak.’

Lu Yuan opened his mouth, and then said:

‘Then try to become stronger. When I reach the level of the Emperor, I plan to level this endless mountain range. I can take you one at that time.’

Si Tingxue turned her head and glanced at Lu Yuan, and said faintly:

‘It’s almost the same when I take you.’

Lu Yuan: ‘...’

This ice cube has a strong desire to win.

He smiled helplessly: ‘Then who will arrive at the Emperor Zhan first when you see.’

Si Tingxue: ‘It must be me first.’

Lu Yuan: ‘...Well, then please take me with you!’

Si Tingxue nodded in satisfaction: ‘Well, I will.’

Lu Yuan looked helpless.

At this moment, a red light flashed, and Tracy, Ye Zhenghao and the two deputy commanders appeared beside Lu Yuan and Si Tingxue.

‘Lu Yuan, it’s over.’

Tracy glanced at Si Tingxue, a trace of sorrow flashed in her eyes.

‘Who is this?’

Lu Yuan introduced: ‘Si Tingxue is also a student of the genius camp, my classmate.’

‘Si Tingxue...’ Tracy was taken aback, then hurriedly bowed in a noble salute:

‘His Royal Highness the Nine Princesses.’

Si Tingxue nodded: ‘Yeah.’

Ye Zhenghao on the side nodded to Lu Yuan and said in gratitude:

‘Army commander, Deputy Commander Tracy has explained to me, thank you for coming to support. If it were not for you, this time our 306 camp will lose even more.’

Lu Yuan shook his head: ‘This is what I should do.’

He glanced at the black body bags around him, a trace of regret flashed in his eyes:

‘Unfortunately, no more people were saved.’

Ye Zhenghao and the two deputy commanders also fell silent.

Then Ye Zhenghao smiled bitterly:

‘As the guards, it is our glory to die on the battlefield. The tide of beasts is destroyed, and the rear of the empire is preserved. The spirit of the brothers in the sky will be relieved.’

Lu Yuan nodded silently.

Tracy opened the mouth and said: ‘Lu Yuan, the beast tide here has been calmed down, we should go back.’

Lu Yuan thought for a while, and said: ‘Deputy Commander Tracy, I don’t want to go back now.’

‘what?’

Tracy was taken aback, looking at Lu Yuan with some doubts.

Lu Yuan explained earnestly: ‘In addition to camp 306~www.mtnovel.com~ there should be other camps that need support. My mechanical lord will not be tired, I can go and support them.’

Upon hearing this, Tracy, Ye Zhenghao and others stared with wide-eyed eyes and were a little surprised.

Ye Zhenghao and the two deputy commanders looked at each other and saluted Lu Yuan:

‘Commander of the army, please accept our respect! Your behavior is an example to the guards.’

Lu Yuan was stunned.

He just feels that since he has spare energy now, why not save more people?

What’s more, it is good for him to calm down the tide of beasts. Whether it is military exploits or the unknown breath left by the death of alienated beasts, it is very useful to him.

It’s just that he didn’t expect Ye Zhenghao’s reaction to be so big, even Si Tingxue was stunned to see Lu Yuan.

Lu Yuan was a little embarrassed, he said:

‘Leader Ye Jun, this is what I should do. I hope you can tell me the nearby defensive camp for help.’

At this moment, Si Tingxue said:

‘I am coming too.’

Lu Yuan was taken aback and was about to refuse, after all, Si Tingxue was already very tired.

But when he turned his head to see Si Tingxue's firm eyes, she could not say her rejection.

He looked at Si Tingxue earnestly: 'Your spiritual power is almost exhausted, right? You have been exhausted after fighting for so long? Are you sure you can stand it?'

Si Tingxue silently took out a bottle of super-grade spiritual power potion and drank it, and the spiritual power quickly recovered.

She looked directly at Lu Yuan: 'I can stand it.'

Lu Yuan: '...'

Good guy, what kind of spiritual potion is this?

The recovery speed is so fast? ?

Too rich.

He saw Si Tingxue's firm look, and there was no reason to refuse:

'If you want to go, then go.'
