

Chapter 185: My Genes Evolve Infinitely

RETURN, INCREDIBLE CREDITS

Hot recommendation:

Leaving the courtyard, Li Qinghe looked at Lu Yuan and said with a smile:

‘Brother fate, sister should be going back soon, are you going back with your sister?’

Lu Yuan was taken aback, then smiled and shook his head:

‘Forget it, I came here on the mission of the genius camp. Although the beast tide is over now, the genius camp should come to pick us up soon. Then I will go with the others.’

Li Qinghe nodded slightly when he heard the words:

‘Alright. Then I’ll take you back.’

Lu Yuan nodded.

Afterwards, Li Qinghe sent Lu Yuan back to Camp 257, explaining that after Lu Yuan returned to the imperial capital, he must come back early on the rest day and returned to the fortress.

Before Lu Yuan returned to his dormitory, the guards came to him and paid him a military salute:

‘The commander of the army! The commander of the army wants you to go over.’

Lu Yuan was taken aback and nodded: ‘I see.’

He came to the legion commander’s office and found that it was not just him, but also the talented students including McGonagall, Zhu Zhengyang and Yan Jing.

Luo Xiu, Jiang Ming and Tracy are also there.

Seeing Lu Yuan coming in, everyone looked over.

‘Leader, what do you want me to do?’

Luo Xiu nodded and smiled:

‘The genius camp has already notified that the beast tide is over, and it will take you back soon.’

Hearing this, everyone was taken aback.

McGonagall’s eyes widened:

‘Are we going back?’

Everyone was a little surprised, it was faster than they thought.

They thought they needed to stay here for a few more days.

Luo Xiu nodded: ‘Well, I should pick you up soon.’

Jiang Ming on the side grinned: ‘We will see you off later.’

Tracy looked at Lu Yuan, her eyes a little complicated, and then smiled:

‘Lu Yuan, remember to come back to play if you have time.’

Lu Yuan nodded earnestly: ‘Well, I will.’

At this moment, Luo Xiu had a sudden pause, took out the communicator, and took a look.

He smiled and said:

‘They notified. They will be here in about ten minutes. Let’s go to the airport.’

Luo Xiu stood up and walked out with Jiang Ming and Tracy with Lu Yuan and his party.

When he arrived at the airport, Lu Yuan found that there were many guards here, among them there were 22 teams of Grote and his party, and McGonagall also saw their friends.

Several people walked towards the position of teammates.

Grote watched Lu Yuan come over, opened his arms and hugged Lu Yuan, patted Lu Yuan's back hard, and said with a smile:

'Last night I heard someone say that you lived somewhere else with a few big beauties? We also wanted to hold a celebration party for you, but you didn't come back. Be lonely.'

Lu Yuan smiled apologetically:

'Sorry, Captain, something happened yesterday. Next time I have time to come to the Imperial Capital, I will invite you to dinner.'

Yang Qiu on the side grinned and patted Lu Yuan on the shoulder:

'Is this what you said? We will be discharged by then, and come to the imperial capital to look for you, so don't let your debts go wrong!'

'of course not!'

Several people said goodbye with a smile. Soon, a black fighter arrived at the airport and stopped.

This was the Xiaolong fighter plane that Lu Yuan had taken when they came from the genius camp.

The faces of Grote were complicated, and they patted Lu Yuan on the shoulder:

'Lu Yuan, you should go now.'

Lu Yuan nodded: 'See you next time.'

Lu Yuan smiled, turned and walked towards the Xiaolong fighter. The McGonagall people beside him also bid farewell to their teammates and walked towards the Xiaolong fighter.

Before he got on the fighter plane, Lu Yuan heard Luo Xiu's voice: '257 Legion! Salute!'

Several people in Lu Yuan were shocked. They turned around and saw that everyone was looking solemn and they saluted the team.

Lu Yuan was a little bit sour in his heart, and McGonagall also had serious faces and saluted the 257th Army.

Subsequently, several people turned to Xiaolong fighter.

In Xiaolong fighter plane, in addition to Lu Yuan, there are some other talented students.

They were all second-tier and third-tier genetic warriors, and they came from the same transport ship that was on board with Lu Yuan at the time.

Some people are still a little pale now, probably because they suffered serious injuries during the beast tide, and they haven't fully recovered yet.

After seeing Lu Yuan, everyone's eyes lit up and smiled excitedly.

'Fuck! It's Lu Yuan's younger brother!'

'Student Lu Yuan, our camp has been discussing your affairs these days! Your mechanical lord is too strong? One person helped six defensive camps to block the beast tide!'

'Yes, this time I think all the students in our genius camp, even the seniors, may not have as many credits as you.'

Lu Yuan smiled embarrassedly at several people.

At this moment, Si Tingfeng behind the seat raised his hand and smiled at Lu Yuan and McGonagall:

'Ayuan, McGonagall, here!'

The two people's eyes lit up and they walked over.

Lu Yuan walked through the aisle and saw Si Tingxue. She was sitting quietly near the window. Seeing Lu Yuan coming, she nodded slightly to Lu Yuan.

Next to Si Tingxue is a beautiful girl with a rare short orange hair.

She saw Si Tingxue nod to Lu Yuan, widened her eyes, looked at Lu Yuan with a strange expression, and then at Si Tingxue.

After Lu Yuan walked over, she approached Si Tingxue and said with a shocked expression:

‘Xiaoxue! You nodded to Lu Yuan just now?! This is the first time you say hello to a boy?! But Lu Yuan is really handsome! And he is so awesome! He actually helped us guard 306 camp for so long before. I wanted to make friends with him before, but unfortunately he only saw you, Xiaoxue...’

Si Tingxue’s cold face froze, stared at the orange-haired girl, and said coldly:

‘you shut up!’

The orange-haired girl shook slightly like a frightened little beast. She gave a grievance and dared not speak.

Si Tingxue silently looked away, looked out the window, her ears were slightly ruddy.

Lu Yuan and McGonagall came to Si Tingfeng’s row.

There were two places left by Si Tingfeng, and he smiled and said:

‘Specially reserved for you, sit down.’

The two sat down and Si Tingfeng looked at Lu Yuan with a weird look in his eyes.

Lu Yuan was numb by Si Tingfeng’s scalp, the corners of his mouth twitched, and he shrank silently, with his hands folded in front of him:

‘Senior Si Tingfeng! I solemnly declare that I like girls! So I’m sorry, you are a good person!’

Si Tingfeng’s face became stiff, he rolled his eyes, and then smiled somewhat freely:

‘A Yuan, I have to admit that I am a bit jealous of you. This time you are in the limelight. Based on your military merits, you should be the student with the most military merits in our entire genius camp. Guess the admission is short. One month. It’s really...’

He shook his head and gave a thumbs up to the landing edge.

McGonagall on the side looked at Lu Yuan with a grimace:

‘Listen to Feng-senior, don’t say anything, I’m going to cry. When I was in the Beast Tide, I was a logistics soldier, so I could only watch A Yuan and the machine lord slay indiscriminately. My credits this time are over.’

McGonagall sighed.

When Si Tingfeng and Lu Yuan heard this, they both looked at McGonagall with some sympathy.

Lu Yuan gave a dry cough:

‘Ah, senior, it’s not a crime of war. You can’t be blamed for this.’

After all, who knows that the assassination system will do the logistics during the beast tide?

If it is another camp, the fierce beast rushes into the city, and the assassination system is still useful.

But their camp didn’t even have a beast that rushed to the city, let alone a beast that rushed into the city.

McGonagall naturally has no way to get more credits.

McGonagall sighed deeply and sighed with uncomfortable expression. He leaned back in his chair and indicated that he did not want to speak.

While several people were chatting, the Xiaolong fighter took off and continued to pick up people from other defensive camps.

Soon after taking everyone back, the Xiaolong fighter took off, crossed the sky, and flew towards the imperial capital.

.....

Imperial capital, genius camp.

Five Xiaolong fighters landed on the square, and students and teachers walked out of it one by one.

Some talked and laughed, others looked gloomy, and some even cried slightly with red eyes.

Lu Yuan learned from the fighter plane that in this beast tide, several genius students had died.

A lot of other talented students were seriously injured, but with the effect of the healing potion and the ability of the healing gene warrior, even if the hands or feet were dropped, they could be picked up. This was nothing.

But the students who died really couldn't come back.

Not only the students, but even the teachers died.

Unlike students, all teachers are at the forefront to resist the tide of beasts, facing the king-level fierce beasts and the royal-level fierce beasts, which is even more dangerous.

After the crowd gathered, a gray-haired principal rose into the air, floating in mid-air.

His face was also a little pale, and his aura was much weaker than when he assembled and set off last time.

McGonagall exclaimed in a low voice: 'It seems that the old principal is injured? He should have been the Emperor of War Consummation, right? Even he was injured.'

Si Tingfeng glanced at McGonagall and said:

'I heard that the old principal killed four beast kings on the front line.'

‘Hi...so strong?! You deserve to be the old principal.’

McGonagall’s pupils shrank, and his heart was full of shock.

Lu Yuan also glanced at the gray-haired principal in surprise.

The Emperor of War, for Lu Yuan now, is still a bit far away.

He is still waiting to break through to Tier 3 now.

At this moment, the old principal’s somewhat majestic voice sounded:

‘This mission is over. Among the beasts, except for a few people, you have performed well. This is very good. It does not shame the reputation of our genius camp! Presumably after this beasts, you have also seen the beasts. Cruel, the forbidden zone is dangerous. You are the genius of the empire, and the border defense of the future empire needs your support. I don’t know, do you have confidence?’

Everyone gave a glance, and after being tempered by the beast tide, the eyes of most people were a little more sharp.

The crowd roared: ‘Yes!!’

The gray-haired old man nodded comfortably.

Then he opened his mouth and said: ‘As for this military merit award, the genius camp has already completed statistics. Regarding the credit awards, they will be distributed in a unified manner. Now I want to focus on praising a student.’

Hearing this, almost everyone looked at Lu Yuan. Everyone’s eyes were very complicated, with envy, shock, respect, and jealousy. Whispers kept ringing.

Seeing everyone’s movements, the gray-haired old man smiled slightly and looked at Lu Yuan, a smile on his majestic face:

‘It seems that you all know it too. That’s right, this time I want to praise the freshman Lu Yuan.’

‘As for the students of Lu Yuan, you should all know. After all, they entered the 25th place in the first month of enrollment. Of course, what I want to say today is to praise

the students of Lu Yuan for their performance in the animal tide. He not only helped 257 Camp No. blocked the beast tide and prevented the beast tide from stepping into the defensive camp. The casualty rate of the entire No. 257 regiment fell below 3%. After the end of the beast tide in Camp 257, it helped six defensive camps to resist the beasts. Chao, indirectly saved the lives of a large number of guards and soldiers.’

Although many students who know some things but are not very familiar with the specific news heard this, their eyes widened and their faces were shocked.

How terrible the animal tide is, they have all personally experienced it.

It was too ridiculous to be able to keep the tide of beasts out of the city walls and reduce the casualty rate to below 3%.

That’s not a big deal, there is still room to help the six defensive camps? !

Is that human being?

‘As the principal of the genius camp, I think such behavior should be praised! Therefore, for this mission, Lu Yuan students will be rewarded with 1.5 million credits.’

Upon hearing this, the atmosphere suddenly stagnated.

In the entire square, the atmosphere was silent. Everyone’s eyes widened, looking at Lu Yuan with a look of horror.

This is a huge amount of credits worth 1.5 million!

Even many Wang-level teachers may not have received so many credits.

And Lu Yuan was only a first-year student, and he actually rewarded so many.

After silence, an uproar sounded.

‘Fuck! 1.5 million credits!?! How many good things can you buy?!’

‘Is this a bit too much? No matter how great Lu Yuan’s contribution is, he shouldn’t be rewarded so many credits, right?’

‘What do you know? That’s a whole seven defensive camps! It’s equivalent to saving tens of thousands of guards. And if these beasts enter the interior, you don’t know how much the loss will be.’

‘I remember when Lu Yuan’s younger brother sold all kinds of treasures, he also seemed to get a lot of credits, right?’

‘Hi...That said, I’m afraid that the credits of Lu Yuan’s younger brother are not more than two million?’

Everyone was shocked, and green light flashed in Lu Yuan’s eyes.

This student who has been enrolled for a month may be the most local student in the entire genius camp.

Lu Yuan was also very surprised.

I didn’t expect to have so many credits.

He had already had 892,500 credits before, plus the current 1.5 million, and his credits exceeded 2 million, and he could already buy the Space Department Extraordinary Gene Flash.

As long as the scintillation gene was burned, Lu Yuan was not considered a weakness in terms of speed, and could even be said to be a strength.

Then he just needs to wait quietly for the credits to arrive.

Si Tingfeng and McGonagall both look enviously at Lu Yuan~www.mtlnovel.com~ Especially McGonagall, he can imagine that his credits may not be much, and now with Lu Yuan as a comparison, he tears It’s almost coming out.

‘Okay! After experiencing the tide of beasts, you must be very tired, so take a good rest today. Disband.’

Everyone was walking towards the dormitory area in twos and threes.

Everyone who passes by Lu Yuan will look at Lu Yuan from time to time.

Some people have a good relationship with Lu Yuan, and even smiled and said a few words to Lu Yuan.

‘Lu Yuan brother! Great!’

‘Student Lu Yuan, so many credits, you have to treat!’

‘Senior brother Lu Yuan, is the senior sister beautiful? Is it okay to be your girlfriend?’

‘...’

Lu Yuan expressed helplessness, he was still too good.

At this moment, Yang Ping ran over:

‘Brother Yuan! Senior Tingfeng! Senior McGonagall!’

‘Huh? Xiaopingzi? Where did you go just now?’

Yang Ping looked speechless:

‘We are not coming back from the same fighter plane as you? There are so many people on the square, and you can’t be found.’

Then he looked at Lu Yuan, his eyes gleaming.

Lu Yuan’s face went dark when he saw Yang Ping’s eyes.

‘If you dare to hold my thigh here, labor and capital will kill you today!’

Lu Yuan had a deep understanding of Yang Ping’s shamelessness.

Yang Pingyuan’s eager movements froze, and smiled embarrassingly:

‘Brother Yuan is really true, how could I do this kind of thing under the public? But you are too fierce! I can hear your rumors even at the end of the defense! You don’t know, there are a lot of medicines behind. Ms. Shi is your fan too! Oh, yes, I am also your fan!’

In Yang Ping’s endless words, Lu Yuan and several people returned to the dormitory.
