

Chapter 191: My Genes Evolve Infinitely

BROTHER LU YUAN, YOU DESERVE TO BE

Hot recommendation:

Came to the lobby of the virtual building, the same as last time, on the last day of October, it was crowded with people.

Many students practice until there is no way to make progress, until the last day to test.

Seeing the four of Lu Yuan coming over, many students greeted Lu Yuan enthusiastically.

After killing the natural king in the pit of El Mechanical Relics, and then rushing to the 25th place in the battle list in the first test, and finally having an outstanding performance in the endless mountain defense line, Lu Yuan is now famous throughout the genius camp. Very high, it can be said that all teachers and students, no one does not know him.

The four of Lu Yuan found a place to sit down, and at this moment, two young girls walked in.

One has blue hair, a cold complexion, and a slender figure, but his chest is about the same level as Amy, maybe a little bit bigger, it's Si Tingxue.

The other is a strange short orange hair with a cheerful smile on his face. His height is slightly shorter than that of Si Tingxue, but his body is very hot, and his chest is almost ready for the boss to listen to the rain.

At this moment, the girl with short orange hair hugged Si Tingxue's arm and was chatting.

Si Tingxue listened silently, nodding from time to time and responding.

The two girls looked beautiful, especially Si Tingxue. As soon as they came in, a large number of students sneaked over.

Lu Yuan naturally saw the two of them.

When he saw the orange short-haired girl, Lu Yuan was stunned. Si Tingxue knew that this short-haired girl, he seemed to have seen this short-haired ** a fighter plane returning from the defense line before?

It seems to be sitting next to Si Tingxue?

Lu Yuan had always thought that Si Tingxue couldn't make friends with ice cubes like Si Tingxue, but she didn't expect that she would still have friends.

Lu Yuan was a little surprised.

Yang Ping, McGonagall and Si Tingfeng also saw them.

Si Tingfeng glanced at Lu Yuan, saw that Lu Yuan was watching Si Tingxue, smiled slightly, and took Lu Yuan's shoulders:

'How does my Nine Sister look like? Isn't it all over the country? I heard that you were fighting side by side with my Nine Sister when you were in the beast tide? How is it? Is your heart moved?'

Lu Yuan was a little embarrassed when he heard this.

Although the ice cube is pretty, it's too cold and he is a little afraid of being frozen.

When Si Tingfeng asked such a direct question, Lu Yuan didn't know how to answer.

Yang Ping on the side opened his mouth and said:

'Brother Yuan is very suitable for His Royal Highness the Ninth Princess, hehehe~ Before then, Brother Yuan, you and the Ninth Princess will become married, please introduce Miss Rebecca for me?'

Lu Yuan was taken aback: 'Rebecca?'

He glanced at the orange-haired girl, she was called Rebecca?

Before Lu Yuan answered, McGonagall couldn't help rolling his eyes.

‘Xiaopingzi, don’t think about it, change yourself. Rebecca is also the heir of Rafael anyhow, how could she like you?’

Lu Yuan was taken aback, a little surprised and said:

‘Master Rafael? Is it the White Demon Emperor? This Rebecca turned out to be the son of the White Demon Emperor?’

The three of Si Tingfeng were taken aback, and looked at Lu Yuan with some doubts.

Si Tingfeng said:

‘A Yuan, don’t you know? Although Rebecca is not as famous as my nine sisters in the genius camp, but it is not much worse? NS.’

Lu Yuan shook his head: ‘I don’t know. I usually practice, and I have never paid attention to this issue.’

He recalled Raphael’s rough face and tall figure in his mind, and looked at Rebecca’s beautiful face, a little confused.

Doesn’t it look like the same gene?

Just as several people were talking, Rebecca saw Lu Yuan and her eyes lit up.

She patted Si Tingxue’s arm: ‘Xiaoxue, Xiaoxue! It’s Lu Yuan!’

Si Tingxue was taken aback, turned her head and looked in the direction indicated by Rebecca. After seeing Lu Yuan and Si Tingfeng together, her eyes flashed and she walked towards Lu Yuan.

The four of Lu Yuan had already paid attention to Si Tingxue and Rebecca, and when they saw them walking by, they naturally knew immediately.

Yang Ping and McGonagall quickly arranged their clothes, put on smiles on their faces, and faced them in their best condition.

Lu Yuan and Si Tingfeng looked at the two of them, and they were speechless.

After Si Tingxue and Rebecca walked over, Yang Ping quickly got up and smiled:

‘His Royal Highness the Nine Princesses, Miss Rebecca, I’m Yang Ping, a freshman in the first year. I think we met during class.’

Si Tingxue glanced at Yang Ping, nodded slightly, and turned to look at Lu Yuan.

But Rebecca waved to Yang Ping happily: ‘Hello, classmate Yang Ping.’

Yang Ping’s eyes lit up and he was about to talk, then he found Rebecca turned to look at Lu Yuan, blinked her left eye, and put ** together, making a strange gesture similar to saluting, and she talked to Lu Yuan. Smiled and greeted:

‘Hi, classmate Lu Yuan! What a coincidence!’

Lu Yuan was a little confused when he saw Rebecca’s strange greeting gesture. What kind of new way of greeting is this ?

But he smiled and nodded: ‘Hello, classmate Rebecca.’

Yang Ping on the side was messy in the wind.

McGonagall originally wanted to say hello, but when he saw Yang Ping’s appearance, he silently gave up his plan.

He glanced at Lu Yuan with a bitter expression on his face.

Sure enough, these people like to watch Lu Yuan!

Isn’t it just a little handsome, a little talented, and a little stronger? Have you done a few major things recently ?

As for ?

Obviously he is also very handsome, okay ?

Si Tingxue looked at Lu Yuan and said, ‘You are in the third rank, don’t know how many levels you can pass ? Do you want to try it?’

Lu Yuan was taken aback, and looked at Si Tingxue somewhat weirdly:

‘It’s been a long time since you were Tier 3 ? I just broke through to Tier 3. You want to compete with me ?’

Si Tingxue raised her snow-white neck slightly, and said proudly:

‘My age is two years younger than you.’

Lu Yuan looked helplessly at Si Tingxue, who was very keen to win, then looked at Si Tingfeng next to him, and motioned with his eyes to take care of his sister.

Si Tingfeng shrugged helplessly.

They are half brothers and sisters, but there is no relative of Si Tingyu and Si Tingxue.

Si Tingxue couldn’t control Si Tingxue’s behavior at all.

It can only mean that love is helpless.

Rebecca on the side saw this, her eyes gleaming, and her voice said with a cheerful atmosphere:

‘It seems very interesting, I stand Xiaoxue and win!’

Lu Yuan smiled and said:

‘It’s okay if you want to compare it, so let’s take a bet ? Otherwise it’s more boring ?’

Si Tingxue raised her eyebrows and looked at Lu Yuan:

‘I won, you do me a favor in the land of origin.’

Lu Yuan smiled and nodded: ‘No problem, suddenly I won... Then you will make it for dinner next time ? At least you have to make something delicious.’

When Lu Yuan went to Si Tingyu’s house to practice, Si Tingxue often went to eat dinner. Lu Yuan couldn’t think of any bets anyway, so she let her cook a meal.

Hearing what Lu Yuan said, whether it was Rebecca, Si Tingfeng Yang Ping, or even the other students watching here, their eyes widened, looking at Lu Yuan with a look of astonishment, and then at Si Tingxue. .

Si Tingxue's eyes flashed, then glared at Lu Yuan, then nodded: 'Okay!'

Seeing that Si Tingxue agreed, everyone around was in an uproar.

'Fuck?! His Royal Highness the Ninth Princess is going to cook dinner for Lu Yuan?'

'No, don't you understand what they mean? Next dinner! Next time! That means they often eat dinner at once?'

'Uuuuu...my Snow Princess, could it be that Lu Yuan's younger brother has been snatched away by this dog thief?'

'Gan!! It seems to give Lu Yuan's younger brother a beating.'

Some male students have green eyes. Even the students who respected Lu Yuan before can't wait to beat Lu Yuan.

After all, Si Tingxue is the nine princesses of the empire. She looks beautiful and has good talent. Listening to Lu Yuan, how good is the relationship between the two?

'Huh?? Who do you want to fight? Why did Lu Yuan's younger brother provoke you?'

'His Royal Highness the Ninth Princess is good, isn't Lu Yuan's younger brother bad?'

When the female students heard some of the male students, Liu's eyebrows were erected, and they stared at them.

Rebecca also shook Si Tingxue's body, a little shocked and said:

'Wow! Xiaoxue, do you really want to cook for Lu Yuan? Have you already established a relationship in private? Do you often meet in private?'

Rebecca seemed to think of something strange and blushed.

When Si Tingxue heard Rebecca's words, the expression on her face froze.

She glared at Rebecca and said coldly:

‘Rebecca! What are you talking about? Lu Yuan is a student of my sister. We have dinner at my sister’s house.’

Hearing this, everyone was stunned, and the whispers were also heard.

Rebecca nodded suddenly: ‘It turned out to be like this.’

Si Tingfeng, who was already a little dumbfounded, couldn’t help but breathe a sigh of relief:

‘Scare me.’

Lu Yuan’s face was also dark at the moment, and he had never expected these people to be so clever.

Why don’t you publish a book if you know how to make up for it?

After that, Si Tingxue and Rebecca sat down in a row in front of Lu Yuan.

Lu Yuan found that Si Tingxue was very silent, but Rebecca was quite outgoing and lively. She always said this to Si Tingxue, and Si Tingxue always responded helplessly.

It’s fun to be together.

Even Rebecca would turn her head to look at Lu Yuan from time to time, and she would have a few words with Lu Yuan.

What she talked about was not about cultivation, but about where the food is better and where the clothes are better.

Where to take pictures is more beautiful.

It’s kind of like a lively spot.

Lu Yuan could hear from her a lot of things about the imperial capital that he didn’t know before.

With Rebecca adjusting the atmosphere, time flies quickly.

Before long, it was Lu Yuan and his party’s turn to test.

Lu Yuan and Si Tingxue stood up. Si Tingxue glanced at Lu Yuan, the corners of her mouth were slightly raised, and she even smiled rarely, with a desire for victory and defeat in her eyes:

‘I will win.’

Lu Yuan was excited by Si Tingxue, raised his eyebrows, and said with a smile:

‘You are ready to cook.’

Si Tingxue glared at Lu Yuan and went upstairs angrily.

Rebecca at the side squinted her hands behind her back, followed by Lu Yuan, looked at Si Tingxue’s back, with a trace of pampering in her eyes, and said with a grin:

‘Xiaoxue has always been like a child, and he is very determined to win or lose. A Yuan, don’t be angry with her.’

In a short period of time, Rebecca advanced her previous name for Lu Yuan to A Yuan.

This speed can be said to be very fast.

Very self-familiar.

Lu Yuan smiled: ‘I’m not so stingy yet.’

Rebecca looked at Lu Yuan with a smile:

‘But I’m still on Xiaoxue’s side.’

With that, she made a face at Lu Yuan and ran up with Si Tingxue.

Si Tingfeng behind him silently patted Lu Yuan on the shoulder.

Lu Yuan looked at Si Tingfeng with some doubts:

‘Senior, what’s the matter?’

Si Tingfeng smiled and gave a thumbs up silently:

‘School brother Lu Yuan, you deserve to be.’

At the edge of Si Tingfeng, Yang Ping and McGonagall looked depressed, and their eyes looked at Lu Yuan with a look of resentment.

Lu Yuan: ‘???’

He was a little confused, what happened?

The four people also came to the virtual room, entered the virtual room, and started a simulated battle.

I have been here once, and Luyuan is naturally familiar with it.

Clicked on the combat power test module.

Soon, the simulation battle began.

The same test as before, starting from the elite level.

But this time Lu Yuan’s opponents had become Tier 3.

After all, Lu Yuan itself is a third-order.

For Lu Yuan, who has now burned the king-level gene, the previous battle was naturally a smashing battle.

Even if it was a Tier 3 lord, it had no effect on Lu Yuan.

Soon, Lu Yuan broke the forty level, killed the Lord-level kobold of the third-order perfection, and reached the forty-first level.

At the forty-one level, a kobold with white fur and a staff in hand appeared in front of Lu Yuan.

A strong breath surged, and a strand of ice spilled out of his body~www.mtlnovel.com~The third-order king, with a tempering degree of 10%.

Kobold elements are warriors.

Lu Yuan was holding a black battle armor and a black epee. Whether it was the battle armor or the epee, there was a ray of purple light flowing.

This is the king-level genetic weapon that Lu Yuan obtained from El's machinery ruins.

Thunder Fury Epee and Thunder Fury Heavy Armor.

All are king-level genetic weapons with 10% refinement.

With Lu Yuan's current temperament, he could only bless this level of genetic weapons.

However, these two genetic weapons have brought extremely powerful growth to Luyuan.

Lu Yuan's abilities in all aspects have been doubled by the increase in the two king-level genetic weapons.

One can imagine how strong this genetic weapon is.

After the kobold appeared, he showed a smirk: 'Human! Death!'

A cold killing intent appeared in his eyes, and then hundreds of ice thorns were densely packed in front of him. With a wave of his staff, he shot towards Lu Yuan.

Facing hundreds of ice thorns, Lu Yuan's face was expressionless, and his body suddenly disappeared in place.

Space transmission.

This is the first time Lu Yuan has used space teleportation combat skills in this simulated battle.

He appeared behind the white kobold in an instant, the white jade spirit body and the black steel surging vigorously, and the heavy sword struck the white kobold's neck with incomparable sharpness.

The smile on the white kobold's face didn't even disappear, and he froze.

There was even a dazed look in his eyes.

Obviously, he didn't expect that Lu Yuan would pass through dense ice thorns in this way and come behind him.

Generally speaking, the white kobold's cultivation was actually at the same level as him, but he was directly killed by Lu Yuan in the end.

It is enough to show that the space system's combat skills are powerful.
