

Chapter 204: My Genes Evolve Infinitely

BRILLIANT LIGHT, LI QINGHE'S SURPRISE

Hot recommendation:

After a few kobolds left, the genetic warriors who had been watching under the ring also left one after another.

Lu Yuan, Si Tingxue and Rebecca followed Si Chengxinhe into the city and came to the Red Maple Mansion.

Si Tingxue told Si Chengxin about the ambush when he went to assassinate Zhou Er before, and both Si Chengxin and Du Shen couldn't help frowning.

'It seems that the kobold's thoughts are the same as ours, and I hope that while the competition has not started, our geniuses will have less time to practice in the land of origin.'

They all spoke lightly.

Si Chengxin said:

'Unexpected thing. As long as the previous generation does not end, everyone will be better than one. The geniuses of our Red Maple Empire will not lose to their kobolds.'

There is no rebuttal, and it can be regarded as acquiescence.

For them, the battle for Ice Vein Stars has actually begun now.

It's just that it's still a competition in the land of origin.

Si Chengxin looked at Lu Yuan and grinned:

'As for you, A Yuan, you can't go out next.'

Lu Yuan was taken aback: 'Why?'

They all smiled and explained: ‘With the strength you showed, those puppies will definitely take you as a thorn in the eye. As long as you go out, they will definitely ask a killer to assassinate you. As long as you die in the land of origin, that’s right. Your cultivation will have a greater impact. When the time comes, it will naturally be a good thing for them.’

Hearing this, Lu Yuan frowned slightly: ‘Will you ask a killer to assassinate me?’

‘Hmm...I think those kobolds may ask the geniuses on the Tianjiao list to deal with you. Although the geniuses on the Tianjiao list are required to act, the price is a bit high, but as long as you die, the price is still worth it.’

Lu Yuan’s eyes flashed, and he nodded slightly: ‘I understand.’

Although he now has space to teleport, he can escape even if it is dangerous.

But the genius on the Tianjiao list may not have the spatial ability.

In case of encountering a Tianjiao with spatial ability, he is really not easy to handle.

The total rankings of Tianjiao are all warlords. With the talent and strength of those Tianjiao, I am afraid that they can fight the warlord.

Lu Yuan felt that it was better not to take risks.

However, when he talked about the Tianjiao list, Lu Yuan thought of the benefits on the list.

Apart from other things, the first place in the overall list, in the city of origin such as Baiyun City, you can spend 80% of all consumption, the gravity room of the martial arts hall can be used for free, and the auction house does not charge intermediary fees for auction items.

This privilege is already very strong.

Before Lu Yuan auctioned things, more than 170 million Tier 5 spirit crystals were auctioned off, and the intermediary fee alone collected him close to 20 million Tier 5 spirit crystals.

That is nearly 20 million fifth-order spirit crystals!

This is already a lot of wealth, and many weaker warlords may not have so much wealth.

He still has a lot of good things in the AI Machinery Ruins. If they were to be auctioned off, it should be no problem to auction up to more than one billion Tier 5 spirit crystals.

In this case, he will have to pay more than 100 million Tier 5 Spirit Crystals if he pays the intermediary fee.

Who can stand this?

If he is on the list of Tianjiao, he doesn't need to pay this intermediary fee.

Lu Yuan thought for a while, and when his strength became stronger, he could consider rushing to the rankings after breaking through to Zhan Zun.

It's best to get to the top of the overall list.

When he takes the privileges, he can save a lot of money by going to auction the treasures.

As for now, he can't go out hunting kobold geniuses to get credits, then he can only practice hard.

At the very least, killing a Phiba, plus those kobold geniuses before, got eight or nine hundred thousand credits, which is not bad.

For Lu Yuan, despite this requirement, for Si Tingxue and Rebecca, Si Chengxin and Du Shen did not let them stay in the city.

After all, with their strength, although they are not weak, they will not be specially targeted, so that the kobold will spend a high price to ask the Tianjiao on the Tianjiao list to assassinate.

Even so, neither Si Tingxue nor Rebecca had any plans to go out.

Because this time they just absorbed the Heavenly Spirit Pill, and they have gained a lot.

If they died this time, the spirit pill would be gone that day, and the loss was too great for them to afford to lose.

The two of them, like Lu Yuan, planned to stay in the city to practice with peace of mind.

Later, Si Chengxin invited Lu Yuan to join his Red Maple Guard after graduation.

This time, not only him, but Du Shen also threw an olive branch to Lu Yuan.

Dushen is a senior of the border guards in the Forbidden Area of the Ice and Fire Rift Valley. He wants Lu Yuan to join the border guards.

The two almost fought, and Lu Yuan expressed embarrassment.

In the end, he still rejected all the reasons that he was only in the first grade.

After that, Lu Yuan, Si Tingxue and Rebecca left the Red Maple Mansion and went to practice in the martial arts hall.

.....

Gravity room.

Lu Yuan was a little surprised to find that he thought that after using the Heavenly Spirit Pill, he hadn't changed much.

Now he realizes that there are still a lot of changes.

At the very least, Lu Yuan's original rate of absorbing spirit crystals was three hundred and fifth order spirit crystals in one hour, but now, it has reached 400 in one hour.

This has increased the speed by a third, which is pretty good.

In the long run, his time to temper a king's gene may be faster than the real world for ten days and a half.

It took more than a day to hunt Zhou Er and come back to fight a ring.

Lu Yuan still has forty-six days to practice.

In these forty-six days, Lu Yuan absorbed 220,000 fifth-order spirit crystals, but the tempering degree of the space teleportation only reached 14%.

According to this consumption, if you want to refine the space transmission to perfection, I am afraid that it will need to consume more than two million to three million fifth-order spirit crystals.

But after all, it was the extraordinary gene of the Space Department. Lu Yuan had been psychologically prepared before, but he didn't feel surprised.

After leaving the place of origin, Lu Yuan, Si Tingxue and Rebecca went to the mission building to hand in the mission.

Of course it is the task of killing the kobold genius.

Fibba was killed by Luyuan alone, and 700,000 credits returned to Luyuan.

The other three kobold geniuses have a total of 300,000 credits, basically Lu Yuan contributed, and Lu Yuan took 150,000, while Si Tingxue and Rebecca also took 150,000 credits for looking for information. .

Lu Yuan earned a total of 850,000 credits.

Coupled with the credits he earned from selling various treasures before, there are already 3.36 million.

With so many credits, Lu Yuan could buy other extraordinary genes.

After hearing about Lu Yuan's credits, even Si Tingxue looked surprised. Seeing Lu Yuan's eyes were full of envy.

Saying goodbye to the two, Lu Yuan returned to the dormitory.

He intends to think carefully about what other extraordinary genes he will buy.

After all, there are only one or two stocks of precious extraordinary genes in the school.

If you don't buy it quickly, there may be someone else who needs it, and it will be bought at that time, and it will be too late to regret it.

Lu Yuan's current extraordinary genes, one is the white jade spirit body, the booster type of guardian gene, which mainly enhances the defense ability.

One is the light of life, the healing gene, which can improve healing.

One is mechanical control, which should be regarded as the control gene of the spirit system, which has no effect on ordinary life, but for mechanical life, it is equivalent to a miracle.

Finally, there is a space teleportation, which is the extraordinary gene of the space system, whether it is fighting or rushing, this gene is very useful.

Before the king-level, Lu Yuan may not have any clear understanding, but after these extraordinary genes evolved to the king-level, the knowledge in the gene inheritance showed a different path.

The white jade spirit body had not yet been upgraded to the king level, and Lu Yuan didn't know what path this gene represented now.

But the light of life represents nature and the realm of life.

Mechanical control represents the field of mechanical technology, and the soul may be involved in the future.

Space teleportation represents the realm of space.

As long as they continue to evolve in the future, there will be more and more inheritance obtained from genes, and the ability in this field will become stronger and stronger.

Lu Yuan was a little curious about how strong it would be if he burned to the *** level**, **and if it surpassed the * level**, it would be even stronger.

Lu Yuan felt that the genes that he wanted to burn next were genes that were different from those in these fields, so as not to repeat them.

Of course, you must also ensure that you are comprehensive in all aspects of your ability, so that there will be no obvious shortcomings.

Lu Yuan's current speed, defense, and strength are actually quite not weak.

In terms of combat, he also needs a single explosive combat technique, as well as a group attack combat technique.

Lu Yuan already had the Fury of Wind and Thunder with his single explosive combat skills.

This combat skill is quite good, and it is still a king, Lu Yuan plans to burn it next.

As for the mass attack tactics, Lu Yuan still has no clear goal.

With this, Lu Yuan's combat power has almost taken shape, and there are no obvious shortcomings.

If you really want to talk about shortcomings, Lu Yuan felt that he might still need a combat skill to defend the soul.

Lest some old coins like to target the soul.

In addition, Lu Yuan felt that he needed a control system combat skill, whether it was to control the opponent or weaken the opponent, it was good.

You also need to leave a blank gene chain for the time system combat skills.

The effect of time-based combat skills is even stronger than that of space-based combat skills. If it evolves to the limit, there may be hope for Luyuan in the future to swim for a long time.

In addition, Lu Yuan felt that he could burn a full-blown combat maneuver, and when he encountered a strong opponent, he could save his life at the critical moment, or even make a comeback.

Thinking of this, Lu Yuan opened the school's website, planning to see what meets his requirements.

The top one is still the Bafang mirror.

This extraordinary gene can condense eight peculiar mirrors that surround you and your opponent at all times. As a person operating this combat technique, he can enter the world in the mirror and teleport in different mirrors. All attacks of the user will be copied by other mirrors.

That is equivalent to eight times the attack, eight times the happiness.

It can be said that this is a very powerful and extraordinary gene.

But this extraordinary gene requires 10 million credits.

Lu Yuan couldn't afford it.

And although this extraordinary gene is powerful, the power involved is still the spatial type.

Although Lu Yuan was very interested in this extraordinary gene, he already had an extraordinary gene of the space system.

Here's one more, a bit repetitive.

Lu Yuan felt that if he evolves the space teleportation to a god-level strength in the future, he may not be able to use the power of the space he controls to develop such a combat technique himself.

After all, there were only ten blank gene chains, and Lu Yuan wanted to choose some other types of combat skills.

The second transcendent gene, Shun Kong Step, is a gene somewhat similar to Space Teleport. It is also a Space System, and Lu Yuan doesn't need it either. Of course, he can't afford it either.

Lu Yuan selected the following conditions and set the price of the extraordinary gene he wanted to buy within 3.3 million.

Soon a batch of extraordinary genes emerged.

Combat Skills: Brilliant Light.

Combat Skill: Breath of Frost.

Combat Skill: Ice Flame Vortex.

Combat Skill: Thunder Sky Wrath.

...

Lu Yuan glanced over and found that there were many genes suitable for him.

The most expensive gene is Brilliant Light, a rare light element combat technique.

This combat skill can purify the negative curse effect, and at the same time, it can greatly enhance all aspects of its basic strength after using it.

Worth three million credits.

The Breath of Frost is also quite powerful. As an ice elemental combat technique, it can continuously release ice mist...Huh?

How did Lu Yuan feel that this combat technique was so familiar?

This seems to be Si Tingxue's combat skills?

Lu Yuan's face was a bit weird.

I have to say that the effect of this combat technique is quite good.

The ice flame vortex after that was a powerful group attack combat technique.

Ice flame is a special kind of flame, with the coldness of frost and the burning effect of flame, which is very peculiar.

Using this combat technique, a vortex of ice flames can be condensed. Enemies located in the vortex will be pulled by the vortex.

And Thunder Skywrath is also a powerful group attack combat technique.

However, this combat skill is not considered.

After all, the power of thunder, he already has the fury of wind and thunder.

Lu Yuan fixed his gaze on the first three.

He doesn't have light attributes, ice attributes, and fire attributes.

The effects of these three combat skills were not bad for Lu Yuan.

Brilliant light can purify one's own negative effects, and can also improve all aspects of basic attributes of one's own.

Lu Yuan's current basic attributes are already very powerful, and as he continues to evolve his extraordinary genes, his basic attributes will only become stronger and stronger. This combat skill in his hands is more powerful than ordinary genetic warriors. The inside is stronger.

Purifying negative effects is also a pretty good ability. After all, some insidious genetic warriors use various curses and the like, which makes you annoying. With this combat skill, these problems can be solved.

Moreover, it is still a rare light attribute.

Breath of Frost... Lu Yuan was very curious about what expression Si Tingxue would have if he saw Lu Yuan using the same combat skills as hers.

The control effect of this combat technique, Lu Yuan used to watch Si Tingxue in the ring before, was quite good, and he was also a bit greedy.

The third combat technique, Ice Flame Vortex, has the powerful group attack ability that Lu Yuan needs, as well as certain control capabilities. It also has the dual elements of ice and fire like Wind and Thunder Fury. Lu Yuan also thinks it is quite good. .

To be honest, Lu Yuan was quite satisfied with these three extraordinary genes.

But he thought about it, and finally chose Brilliant Light.

After all, the ability to purify negative effects is indeed quite good, and the ability to improve basic attributes is too high in Lu Yuan's hands.

Lu Yuan thinks that he might encounter other extraordinary genes in the future, but there is only one inventory of this one. If you don't buy it now, you may not have a chance in the future.

After spending three million credits, Lu Yuan finally bought the Brilliant Light Extraordinary Gene.

This extraordinary gene is king-level, and Lu Yuan feels that it is not a loss to buy it.

After 3 million credits were consumed, Lu Yuan's credits changed back to 360,000 again.

Lu Yuan had to sigh, spending credits like running water.

The express delivery in the school is as fast as ever.

It didn't take long for this extraordinary gene to be delivered to Lu Yuan.

After Lu Yuan collected his things, he began daily practice, going to Si Tingyu during the day to practice the steel body.

Go back to the dormitory at night.

Sometimes I have dinner in the dormitory, and sometimes I have a meal at Si Tingyu.

The fact that Lu Yuan killed the kobold Pibba in seconds was spread out by the onlookers of good deeds, and it has now been fermented in the school.

Si Tingfeng, McGonagall and Yang Ping all asked Lu Yuan if it was true, and lamented that Lu Yuan's strength had improved too quickly.

According to McGonagall's words, at the speed of Lu Yuan, when he graduated, he was afraid that he would become the emperor of war?

When he said this, McGonagall's eyes were very resentful.

After all, it's pretty good for them to break through to Zhan Zun after graduation.

As a result, Lu Yuan's performance was simply outrageous.

They are all in the same dormitory. You are so good that it is difficult for us to handle it.

Even Si Tingfeng had a weird face, saying that Si Chengxin had specifically sought him out and asked him to do ideological work for Lu Yuan.

When Lu Yuan heard this, his face was dark, Si Chengxin has not given up to fool him into the Red Maple guard.

It's ridiculous.

.....

Not only them, Li Qinghe also called.

‘Hey, brother Yuan, I heard that you cut off that kobold warlord’s strongest genius, Feiba, with a single sword?’

Li Qinghe’s voice was as lazy as ever, but Lu Yuan was still surprised when he heard it.

Lu Yuan lay on the bed, smiled and said:

‘Yes, that guy looks a bit arrogant, I really can’t bear it. Cut him off, he shouldn’t be able to return to the place of origin in a short time, right?’

Li Qinghe smiled and said:

‘A Tier 3 fighter, at his level of perfect tempering, if he dies, he wants to enter the land of origin again, it will take at least two months. He probably hates you to death.’

When Lu Yuan heard this, he couldn’t help but smile:

‘That’s good.’

Two months of real time can be practiced for two hundred and seventy eight days in the place of origin. It can be said that Fibba has suffered a blood loss.

Of course, he earned it. After all, Fibba provided him with 700,000 credits and 1 million Tier 5 spirit crystals.

Li Qinghe’s voice added a touch of coldness, and he said:

‘Those kobolds dare to stand outside our Red Maple City. They die in vain. You did a good job. Sister, I am very happy. Do you want any benefits?’

Speaking of the back, Li Qinghe’s voice was fascinated, and Lu Yuan’s heartbeat accelerated.

He coughed and said:

‘Ah...Is this not so good?’

Li Qinghe's lazy voice sounded:

'Brother Yuan seems to really want benefits? Okay, now dare to make terms with sister?'

Lu Yuan froze, and suddenly felt bad.

I was given a routine by this woman again.

When was the benefit she said was honored?

Lu Yuan was serious and was about to save his face. At this moment, Li Qinghe made a slight voice:

'Look at the chat message.'

Lu Yuan was taken aback, then opened the chat message, and Li Qinghe sent a photo.

Lu Yuan glanced, his eyes widened.

Cough, long straight legs, and black silk.

Um.....

Lu Yuan said, is there any more? !

I want more! !

'This picture, if you dare to show it to others, sister, I will kill you.'

Li Qinghe sounded with a smile, but his tone was cold.

Lu Yuan was serious, and said with a face:

'How is it possible?! This must only be appreciated by myself! No one else wants to see it!'

Li Qinghe seemed a little shy and didn't want to talk more about this topic, he said:

'By the way, brother destiny, you also know that sister, I am the honorary elder of the night watchman, and the matter of you killing that kobold genius in seconds has caused

a lot of trouble. I am afraid that many big figures in the organization invite you to go to them after graduation, right? ‘

Lu Yuan was taken aback, thinking of Si Chengxin and Du Shen, not only Lu Yuan, but also Grote’s news.

Grot directly said that Carol, the commander of the Guardian of the Endless Mountains, asked him to contact Lu Yuan, hoping that he could go to the Guardian of the Endless Mountains after graduation.

However, Lu Yuan did not directly agree.

After all, he is only first grade now.

He is obviously still a child.

How can these people bear it?

‘Yes, Sister Qinghe, there are indeed a few people who want me to join their department.’

Li Qinghe said in distress:

‘I was also urged by the president of our night watchman to let me contact you. I hope you will join the night watchman in the future. If you can reach the battle king level when you graduate, our president said that you will also be an honorary elder.’

When Lu Yuan heard this, his face was a little weird. He didn’t expect that even Sister Qinghe would be urged to pull people.

But Lu Yuan could understand, after all, she was also a member of the night watch.

When Lu Yuan heard the news of the night watchman, he thought of Evolution Cube.

Evolution Cube wants to metamorphose, and needs alienation or the unknown aura of alienated beasts. If he waits for his graduation to work, joining Night Watch may really be the best choice.

After all, the night watchman is the most exposed to alienation events, and can quickly transform the evolutionary cube at that time.

Lu Yuan asked curiously:

‘Sister Qinghe, do you have a lot of alienation phenomena that the night watchmen come into contact with?’

Li Qinghe opened the mouth and said:

‘Of course, the entire Red Maple Empire has frequent alienation events. Every large city has a night watchman branch. In addition to managing the alienation of the imperial capital, the headquarters has to support the branch at any time. The night watchman at the headquarters is usually very busy. Your friend named Xue Wang is now following Fleming, almost all her feet are off the ground. My sister is an honorary elder, so she can be lazy, hehehe~~’

Speaking of this, Li Qinghe was a little complacent.

She opened the mouth and said: ‘With your talent, it should be no problem to break through to the King of War before graduation. By then, becoming an honorary elder will not only be free, but also get a salary. Isn’t that great?’

Lu Yuan was full of black lines, like Li Qinghe, if he had been in Lu Yuan’s previous life, he would have been a leader with first-class fishing skills.

He coughed dryly and said:

‘Well...When I have time, I will go to the night watchman to take a look and deal with the alienation incident, do you think it’s okay?’

‘Huh? Brother Yuan intends to join the night watchman? This gives my sister face? I am so touched by my sister! How can I reward you if I want my sister?’

Lu Yuan wanted to say that I would like to show me a few more black silk photos, no...white silk is fine, neither is right...everything, anyway, as long as it looks good.

But he thought about it, and felt that he was obviously a serious person, not an LSP, and shouldn’t have said such things, he opened his mouth and said:

‘Since it’s Sister Qinghe’s invitation, I have to give it a try, and I’m really interested in alienation.’

Li Qinghe was silent about Lu Yuan's past, and then smiled:

'Since Brother Yuan is interested, then sister will accompany you to study it together.'

'Well, thank Sister Qinghe.'

'Will you be so polite with me?'

'Ah... also, then I'm welcome, do you have any black silk photos?'

In the end, Lu Yuan couldn't grasp his desire and asked.

Li Qinghe was obviously silent, and then a cold voice sounded:

'Get out! When you come back, sister, I will beat you to death!'

Then Lu Yuan was hung up.

Lu Yuan was still thinking of Li Qinghe's last words in his mind, cold sweat came out on his forehead.

He was thinking that he had to find an excuse to not go back in a short time.

But Lu Yuan thought of another question.

I also took a Heavenly Spirit Pill. If you don't go back, it won't work. You have to send the Heavenly Spirit Pill to Sister Qinghe.

However, for the sake of the Heavenly Spirit Pill, Sister Qinghe shouldn't beat him up, right?

.....

In Bailiu District, Li Qinghe was lying on the bed with a mobile phone in his hand, his pretty face was a little reddish, with a hint of anger.

'Asshole brother, dare to molest my sister now?! I used to be my sister to molest him! Asshole!'

She was angry and couldn't help laughing.

She lay on the bed and thought for a while, then got up and went to the cloakroom, took out the clothes that she hadn't worn through the net purchase with Daqianyu, humming a little adjustment, and put it on.

.....

On the second day, Lu Yuan wanted to go to Si Tingyu to practice, but was told that Si Tingyu was absorbing the Heavenly Spirit Pill and had no time.

Lu Yuan thought for a while, and planned to go back by the way and give the Tian Ling Pill to Li Qinghe.

So Lu Yuan left the genius camp, took out the Black Bear One, and returned to Bailiu District.

After returning home, Li Qinghe didn't expect Lu Yuan to come back suddenly, panicked, and then she stared at Lu Yuan fiercely and sneered:

'Brother Yuan, seems to be ready to be beaten?'

Lu Yuan trembled in his heart and quickly laughed:

'Sister Qinghe, I have a surprise for you.'

Li Qinghe was a little puzzled: 'What surprise?'

Lu Yuan took out the Heavenly Spirit Pill and handed it to Li Qinghe.

Li Qinghe can naturally feel the rich spiritual power blooming from the Heavenly Spirit Pill.

She glanced at Lu Yuan in a bit of astonishment, and then took over the Heavenly Spirit Pill.

After receiving the Tian Ling Pill's message, Li Qinghe was taken aback and looked at Lu Yuan in shock.

'This day, the spirit pill can actually improve talent?'

Lu Yuan smiled and nodded: 'Sister Qinghe, is this a surprise?'

Li Qinghe smiled and nodded, then asked: 'What about you? Have you used it?'

'It's used, I got one more for you.'

Lu Yuan told him about the hunt for Zhou Er with Rebecca and Si Tingxue.

Li Qinghe nodded: 'It turns out that it is.'

'So Sister Qinghe, please use it. This will also be good for you in the future.'

Li Qinghe looked at Lu Yuan, then smiled and squeezed Lu Yuan's cheek:

'I'm very satisfied with this surprise sister, so I won't beat you up. You are staying at home now, don't rush back to school, wait for my sister to have a surprise for you too.'

Lu Yuan was a little confused, but he nodded and agreed.

Li Qinghe went to absorb the Heavenly Spirit Pill.

Naturally, Lu Yuan stayed at home.

The next day, strong spiritual power fluctuations spread from Li Qinghe's room. Lu Yuan opened his eyes and glanced at Li Qinghe's room.

Obviously, she had completely absorbed the Heavenly Spirit Pill.

Lu Yuan smiled and walked out of the room.

Subsequently, Li Qinghe also walked out.

When Lu Yuan saw Li Qinghe, he smiled and asked:

'Sister Qinghe, how do you feel?'

Li Qinghe was a little excited: 'Very good! After absorbing the Heavenly Spirit Pill, I feel that it won't take too long before I can hit the realm of the Emperor of War.'

Lu Yuan's eyes lit up, and he was also happy for Li Qinghe:

'Then congratulations to Sister Qinghe.'

Li Qinghe raised his eyebrows, watching Lu Yuan smirk and said:

‘You wait outside the door, my sister will prepare a surprise for you.’

Lu Yuan looked at Li Qinghe back to the room with some doubts.

Not long after, Li Qinghe opened the door of the room, stretched out a snow- white arm, and beckoned to Lu Yuan, with a hint of imperceptible tension in his voice:

‘Brother Yuan, come in.’

Lu Yuan walked in with some curiosity.

Then he saw Li Qinghe wearing a ** black dress with suspenders and black silk wrapped around his long legs.

Lu Yuan: ‘ ????’

Um ?

Um ? ?

Lu Yuan wondered if he had come to heaven.

How else could you have such a beautiful dream ?

Li Qinghe, who has always had a lazy smile, now looks a little embarrassed.

However, she quickly recovered, showing a smirk at Lu Yuan, and by the way, she held her slender waist in a ** pose, and blinked provocatively at Lu Yuan.

‘How is it ? Does it look good ? This is what my sister bought when I was shopping online with Da Xiuyu, but I haven’t worn it yet. Brother Yuan is the first to see it.’

Lu Yuan: ‘...Sister Qinghe, can I sit down on the bed?’

Li Qinghe was taken aback, and then seemed to understand something. He glanced under Lu Yuan a little strangely, and the corners of his mouth twitched slightly.

She looked at Lu Yuan with a smirk in her eyes:

‘Huh? If you want to sit down, just sit down.’

Lu Yuan: ‘...’

The whole person is not good.

If it is not defeated, I will let you know what cruelty is now!

Lu Yuan only dared to beep in his heart, and then sat down by the bed happily.

Li Qinghe smiled and said: ‘The benefits are over~ Sister, I want to change it back!’

Then Li Qinghe ran back to the cloakroom. After closing the door, she leaned against the door, her pretty face turning red visible to the naked eye.

She patted her chest slightly and exhaled, with a shy look in her eyes.

She felt her heart beating a little too fast, as if.

After calming down his heartbeat, Li Qinghe’s face recovered and changed back to his original clothes.

She glanced at the little black dress and black silk, she was silent, and then carefully put it away.

Lu Yuan had no idea that Li Qinghe would give him such a surprise.

He expressed his satisfaction.

It’s just that the time is a bit too short.

Of course, if it takes a long time, he feels that his sanity may not be overcome.

At that time, he really couldn’t control himself, he felt that he might be beaten to death by Sister Qinghe.

Suddenly he felt that a shorter length seemed good.

Um?

and many more.....

What the ** is Daoyuyu ?

After Lu Yuan calmed down a little, he suddenly thought of what Li Qinghe had said before, and his face became a little weird.

Um.....

If this is a nickname, it fits the characteristics of a mentor.

Lu Yuan didn't dare to think too much, and sealed this nickname.

Avoid being silenced in time.

Li Qinghe drove Lu Yuan out after leaving the bathroom ~www.mtlnovel.com~.

Lu Yuan noticed that Li Qinghe's eyes were a little weird, and he was embarrassed. Li Qinghe was also the King of War anyhow, and he must have discovered some unspeakable secret.

He drove off quickly.

After returning to school, Lu Yuan started a normal life again.

I go to Si Tingyu's house to practice steel body every day.

Since Li Qinghe heard Si Tingyu's nickname in his mouth, Lu Yuan felt that Si Tingyu had become unable to look directly at him.

It was terrifying.

Si Tingyu hadn't noticed Lu Yuan's daily life, and still beat Lu Yuan to death when he was practicing.

Lu Yuan's progress is quite fast.

Now the increase of the steel body has been increased to nearly three times the defense, which is painful and happy.

In the place of origin, because there was no way to hunt down kobold geniuses, Lu Yuan practiced with peace of mind.

However, Lu Yuan had heard that the battle between the Kobold genius and the Red Maple Empire genius has become more intense recently.

Both sides have geniuses dead and cannot enter the land of origin.

Lu Yuan knew that Li Qingmei, ranked No. 4, and Zhang Shi, No. 7 on the genius camp's combat power list, were all counter-killed when hunting kobold geniuses.

More people died in the lower ranks.

Of course, the kobolds are not having a good time, many people died in the confrontation.

Although it was just the competition before the Ice Vein Star competition, both sides had suffered a lot of losses.

time flies.

One and a half months later.

Lu Yuan entered the place of origin six times, absorbed 1.3 million fifth-order spiritual crystals, and refined the spatial transmission gene to 70% refinement.

The basic attributes of the space teleportation blessings were originally the highest. After the tempering degree was increased, the basic attributes of Lu Yuan were once again greatly improved.

Lu Yuan discovered that he could burn another King Gene Armament.
