

# Chapter 205: My Genes Evolve Infinitely

## KOBOLD'S CHANGE OF MIND, AIMED AT LU YUAN

Hot recommendation:

After a series of screenings, Lu Yuan finally chose a ring.

Silver Ring of Glow (Tier 3 100%): King-class weapons

This ring does not possess special tactical skills like Lu Yuan's other genetic weapons.

It completely improves the strength, agility, physical and mental attributes.

After evolving this ring to the emperor level, the improvement has become very powerful.

Just blessing this ring, Lu Yuan's basic attributes have increased by as much as one-third of his current level.

In the martial arts training hall, Lu Yuan finished his genetic armament evolution, clenched his fists, and slightly raised the corners of his mouth.

With such a powerful basic attribute, coupled with a king-level genetic weapon, Lu Yuan's current basic attribute is no longer comparable to that of ordinary warriors.

Even if a warlord had burned all the extraordinary genes of the emperor's level and refined to the consummation level, Lu Yuan felt that his attributes might not be as good as his current attributes.

The only difference may be that the power of the royal-level combat skills is stronger than that of the king-level.

I just don't know, who is stronger now than the kobold war-sage-class powerhouse?

In terms of basic attributes, Lu Yuan thought he might not be inferior to him, right?

After all, even though he was a warlord and possessed five extraordinary genes, his tempering degree was only high-level after all, and he had not yet reached perfection.

Compared with Lu Yuan, his only advantage might be one more combat skill?

Of course, that genius at the Battle Sovereign level may have also practiced physical skills and spiritual skills.

It should be said that it is very likely that they have cultivated.

But Lu Yuan's genetic armament is of the emperor rank, and the special combat skills attached to it are extraordinary. In general, perhaps compared to the kobold warlord genius, it should be about the same?

However, Lu Yuan has a king-level space system combat skill, which is his great advantage.

Now, even if Lu Yuan faced this kobold war veteran, he still had a lot of confidence to fight.

Lu Yuan took a deep breath and continued to practice.

There are still ten days before he leaves the place of origin. Since the Ice Vein Star's test has not yet started, it is better not to waste time.

At this moment, Lu Yuan paused and took out the communication crystal.

White light flashes on the communication crystal.

Lu Yuan connected, it was Si Tingxue.

Lu Yuan asked with some doubts:

'Listening to Xue, what's the matter?'

Si Tingxue froze and said:

'...Don't call it that close!'

'Oh, I know Tingxue, so what's the matter?'

Si Tingxue's cold little face was a little helpless.

She opened the mouth and said:

'It's time to go out. The test has been set. Tomorrow, we are going to Bingmai Star.'

Hearing this, Lu Yuan was taken aback: 'So fast?'

Si Tingxue looked at Lu Yuan lightly, and said:

'It's about you.'

'And me?'

Lu Yuan was a little surprised.

'Well, it's mainly because that Fibba died. In fact, the kobolds have been urging to hurry up and try. After all, Fibba is the most powerful genius of Tier 3 on their side. After death, the training time becomes shorter, which is very detrimental to them. We have been pressing and procrastinating for time. For us, the longer the time, the better. But the kobold has lost his patience and can no longer continue to procrastinate, so we will start the competition tomorrow.'

Lu Yuan couldn't help but smiled, 'So that's it. Then let's go out.'

If you want to break away from the place of origin, in addition to breaking away from the crystal, there are special escape houses in the large cities that come with the place of origin, such as Baiyun City.

You can also go out from the room.

However, the use of the escape room also requires spirit crystals. A Tier 3 warlord needs one hundred thousand Tier 3 spirit crystals to escape from the land of origin.

For the average genetic warrior, it was a lot of money, but for Lu Yuan, it was a drop in the bucket.

Lu Yuan left the martial arts training hall and found that Si Tingxue and Rebecca were already waiting.

The three of them got on the Black Bear One, went to the teleportation hall, and teleported to Baiyun City.

Then came directly to the escape room.

The breakaway room in Baiyun City is said to be a room, but it actually covers an area of about 500 meters, which is extremely huge.

Inside, it was divided into rooms, and after each room entered, they could leave after paying the spirit crystals.

Lu Yuan entered the room, and then used the origin bank card to pay the spirit crystal into the instrument inside. With a flash of white light, Lu Yuan left the place of origin.

.....

On the square of the genius camp.

Lu Yuan came to the square to gather.

In the square, Si Tingxue and Rebecca have arrived. In addition to the two of them, there are three teenagers and one girl.

These four people, Lu Yuan, knew all of them, all of them were senior elder sisters in the third and fourth grades, all ranked in the top 20, geniuses who had recorded the king's genes.

However, all the geniuses here are warriors, not even a warlord.

Lu Yuan looked a little big.

Lu Yuan has seen the hunting list of the opposing kobold, and there are three war-sage ranks.

The strongest blood mad tooth, but Zhan Zun high-level, the remaining two are low Zhan Zun.

This has been crushed in high-end combat power.

Lu Yuan can also understand this. After all, the blood-boned kobolds have only one tribe on a planet, and there are several empires of Daqixing. The Red Maple Empire is only a part of Daqixing, and the talent reserve is only a part of Daqixing. Different.

In this regard, Lu Yuan can only express helplessness.

Lu Yuan walked over, and all of them looked at Lu Yuan.

For Lu Yuan, these senior elder sisters naturally also knew each other, and they all smiled at Lu Yuan and nodded.

A teenager with short dark red hair gave Lu Yuan a thumbs up:

‘School brother Lu Yuan, when you killed the red-haired dog with a single sword, I was there, I can only say it is awesome! I feel that if you go up alone, you can kill all the opposite Tier 3 generals. .’

Lu Yuan smiled:

‘Senior Willie, you are too exaggerated. You still have to work hard together.’

Rebecca smiled and said:

‘A Yuan is the best! And so humble!’

A beautiful girl with long cyan hair on the side opened the mouth and said:

‘We are in the fight against the opponent’s warlord, what about the opponent’s warlord? They seem to have three warlords.’

Upon hearing this, the atmosphere fell silent.

Even Si Tingxue frowned.

At this moment, someone came over, and Lu Yuan took a look and found that it was Yu Lao with a kind face.

Behind the old man, he followed the three genius camp teachers, Lu Yuan glanced over and found that all these teachers were the Emperor of War.

In addition to them, there is also Si Tingyu.

At this moment, almost everyone had a serious look on their faces.

Yu Lao glanced over a few people, and said:

‘It’s all here, then let’s go to gather outside the space rift.’

With a wave of his hand, a huge warplane emerged.

Lu Yuan glanced at it. It was the last time he went to the endless mountain range.

After a few people boarded the plane, the fighter plane rose into the air, turned into a streamer, and disappeared in place.

The space rift of Ice Vein Star was not in the imperial capital, but in the north, the fighter jets quickly flew out of the imperial capital and flew towards the northern region.

On the fighter plane, Lu Yuan and Yu were seated in the cabin.

Yu Lao glanced over the agitated people, with a gentle smile on his face:

‘While there is still some time, you can ask if you have any questions.’

The Qingfa-senpai who had spoken earlier said with some worry:

‘Lao Yu, are we just a few of us participating in this competition? The number is too small, right? And we are all Tier 3 generals here, and we don’t even have Tier 4 warlords. How can we fight the kobold warlords?’

Old Yu smiled and explained: ‘Of course you are not the only ones. In addition to the genius camp, the various military districts of the Red Maple Empire and the hidden geniuses of some big families will also participate in the competition. In addition, we have also invited geniuses from other empires as foreign aid. Honorable kobolds, you don’t need to worry, what you have to do is don’t lose when facing the kobold fighters. As students of the Red Maple Genius Camp, don’t discredit us.’”

Hearing this, everyone was relieved.

Willie grinned and said with a smile: ‘I thought we were going to deal with Zhan Zun, it scared me to death.’

A Zhanhuang teacher who had dark red short hair and looked a little like Willie gave Willie a cold look:

‘That’s what you can do? Facing the warlord, you don’t even have the courage to fight?’

Willie’s face became stiff, and he lowered his head somewhat pleasingly, and stopped speaking.

‘Huh! Go back and clean up you! Show me this time! Or I will break your leg!’

Teacher Zhanhuang was not satisfied yet, and said a few more words, which made Willie’s face feel bitter.

Lu Yuan glanced at him sympathetically.

Isn’t this the father of Chief Wisdom?

It’s strange to have a father as a teacher.

Lu Yuan had never experienced it, but looking at the scene, he was a little grateful that he didn’t have to experience it.

But when he thought that his predecessor parents had passed away, he suddenly felt unlucky.

Si Tingxue faintly said:

‘How are we going to compete?’

Hearing this, Yu Lao was taken aback, frowned slightly, glanced at Lu Yuan, his expression a little serious.

Lu Yuan was looking at them with this look, and he felt a little uncomfortable.

Yu Lao slowly said:

‘In the beginning, the way we discussed the competition with the Kobolds was a ring battle. Everyone can only go to the stage once, and they can fight continuously. If there is someone standing on the ring in the end, the ice vein star belongs to whoever. But

then the dog heads. People suddenly changed their minds, and they had to add another group battle after the ring battle, and the fighting area was still in the small world. The kobolds changed their minds when Lu Yuan killed the kobold named Phoeba. They should be I noticed the threat from Classmate Lu Yuan, and wanted to take advantage of the group battle to eliminate your threat in the cradle in advance.'

Secretary Ting Yu said coldly:

'They have a good idea. In the ring battle, there are strong men on both sides watching. As long as they are vigilant enough, no lives will be lost. But in the small world group battles and we are not allowed in, they are obviously rushing to A Yuan's life. To go.'

Hearing this, Si Tingxue's face became much colder, and Rebecca's face changed drastically, frowned, and said with dissatisfaction:

'Then how can you agree to this kind of competition?! The big deal is to start a war with them! It's too much, it's changed!'

The expressions of Willie and the others also changed, and they looked at Lu Yuan with some concern.

However, when they heard Rebecca's words, they still looked weird and looked at Rebecca a little weirdly.

Yu Lao and several war emperors also twitched their mouths, and glanced at Rebecca a little weirdly.

Then they looked at Lu Yuan, whose expression had not changed.

Good guy, this kid deserves to be called the soft rice king in the circle.

**The \* sister is the eldest lady of the Li family, and the mentor is the royal princess. I heard that she was recognized by the queen of the jade elf tribe, the \* brother, and fought side by side with the ninth royal princess, and she had no relationship with the eldest lady of the Algabe family. Uncertainly, some people even heard that this kid has something to do with the night princess of the Tianming Empire.**

They don't know how this kid did it.

Did this guy grow up from snack soft rice ? !

They knew the identity of Rebecca.

Because she tried to change her mind, this woman was thinking of just fighting for it ?

Another soft meal ?

Also, is this a woman ?

There is no reason at all.

The real war will affect the whole body, so I don't know how much the loss will be.

Si Ting Yu faintly said:

‘In fact, there is no problem. Originally, we planned to use the ring battle to determine the winner and determine the ownership of the ice vein star. Now it has become two matches. Even if we lose one, we have half of the ownership. We will admit defeat in the team battle. That is, as long as you win the ring battle. It's okay to have half of their Ice Vein Stars.’

‘Tutor, don't give up. I'm going to the team battle.’

Lu Yuan smiled and said.

Hearing what Lu Yuan said, everyone was taken aback, and looked at Lu Yuan with a little astonishment.

Si Tingxue frowned and said coldly:

‘Lu Yuan, do you know what you're talking about ? I'm afraid that all those kobold geniuses who fight in groups are rushing to kill you.’

Perhaps because of anger, her voice was a little higher.

Rebecca also nodded: ‘A Yuan, even I heard Sister Yu said that you don't need to go, then don't go.’

Yu Lao looked at each other and looked at Si Tingyu.

After all, Si Tingyu was Lu Yuan's mentor, and they were a little bit confused about Lu Yuan's ideas, so they planned to let Si Tingyu do it.

Si Tingyu looked at Lu Yuan in silence, and slowly said:

'A Yuan, why do you want to go to the team battle, give me a reason.'

Lu Yuan smiled: 'I am very strong now, even if all those kobold geniuses are targeted, they should not be able to kill me.'

Si Tingyu frowned slightly: 'It's just that it should not work. Your talent is very strong. You will definitely become a strong one in the future. There is no need to fight for victory or defeat here. Even if there is a slight accident, I won't let you go.'

Although Si Tingyu's tone was tough, Lu Yuan could also hear Si Tingyu's concern.

He thought for a while, and then he said: 'Can they use the things in the war pattern space? What if they bring in something strange, wouldn't it be unfair?'

The dark red-haired war emperor said:

'This is definitely not. After all, it is related to the lives of our geniuses. No one will risk this kind of thing. Before entering the small world, the war pattern space will be temporarily sealed by special means. Not only that, but also carefully checked. Each fighter in the competition cannot carry other items, not even genetic medicine.'

Lu Yuan raised his eyebrows and said with a serious look: 'Then I want to try. If the opponent doesn't use any fancy cards, I won't be in danger.'

Since the other party wanted to kill him, Lu Yuan didn't have a particularly good temper, so he smiled and passed away.

He just wanted to try to see how strong he is now.

Even if he wasn't the opponent of Blood Mad Fang, Lu Yuan didn't think he was in any danger.

Seeing Lu Yuan's serious look, Si Tingyu frowned slightly and looked directly at Lu Yuan.

Lu Yuan and Si Tingyu looked at each other calmly.

After a while, Si Tingyu looked away silently.

She faintly said: 'If this is the case, then you go, I told Qinghe, you won't go, then you will go back and explain by yourself.'

Lu Yuan: '???'

Damn it?!

He felt a little numb when he thought of Li Qinghe's angry look.

This is a bit scary.

However, I just want to go.

Lu Yuan bit his scalp and nodded: 'I see.'

Seeing that Lu Yuan was not even afraid of Li Qinghe, Si Tingyu sighed helplessly:

'Okay, but if you are in danger, we will admit defeat as soon as possible, and then save you. There will be five people on both sides of the team battle, and there will be three geniuses of war-sage class with you at that time, and we will find another... ...'

Before Si Tingyu finished speaking, Si Tingxue's voice sounded:

'I also need to go.'

The atmosphere fell silent again.

Yu Lao and the three war emperors were a little confused at the moment.

This is different from their original idea, right?!

They all planned to abandon the group battle, but even if the kid Lu Yuan wanted to go, why did even the nine princesses want to go?!

This is so outrageous!

The nine princesses are imperial princesses. What kind of trouble is this going to participate in this dangerous team battle? !

Si Tingyu looked at Si Tingxue and frowned slightly: 'What are you going to do?'

'Yeah, what are you going to do? Go and play, yell!'

Lu Yuan waved at Si Tingxue like a puppy.

Si Tingxue shyly stared at Lu Yuan, 'Lu Yuan! I cut your hand!'

Lu Yuan froze and couldn't move his hands.

Si Tingxue snorted, looked directly at Si Tingyu, and said lightly: 'I am stronger than a few seniors, why can't I go? Since it is a five-person team battle, there is still one missing, of course I choose the best. Strong!'

Willie and the others were a little embarrassed.

Si Tingyu was also shocked and frowned, not knowing how to refute her.

Lu Yuan glanced at Si Tingxue, but also a little speechless.

After all, Lu Yuan had traded her a king-level staff before, and after absorbing the Heavenly Spirit Pill, her cultivation speed accelerated, and now her strength improved rapidly.

The ranking on the battle power list seems to have risen to fourth place.

It is estimated that he will surpass Shi Xiu and reach third place.

After all, Shi Xiu was in the sixth grade, and he could no longer participate in this competition. To say that among the contestants, except for Lu Yuan, the level of generals was the strongest, Si Tingxue really had no problem at all.

With a slight smile on his face, Lao Yu said:

'Student Si Tingxue, after all, you are the nine princesses of the empire. It is a bit dangerous for you to participate in a team battle.'

Si Tingxue raised her neck and looked at Lu Yuan:

‘Since the targeted Lu Yuan can participate, why can’t I?’

‘this.....’

Old Yu was silent.

All of them looked at Lu Yuan with a grimace.

If Lu Yuan had directly said that he would not participate before, how could there be so many things.

Now they are not only worried about Lu Yuan’s safety, but the princess Si Tingxue will also participate.

Old Yu felt that his heart couldn’t bear the pressure.

Si Tingyu looked at Si Tingxue, and Si Tingxue looked back not to be outdone.

The atmosphere was a little silent, Rebecca secretly pulled Las Tingxue’s clothes:

‘Xiaoxue...’

‘Don’t talk!’

Si Tingxue said coldly.

Rebecca shrank her neck and looked at Lu Yuan with a cry for help.

Lu Yuan twitched the corner of his mouth, a little helpless.

Si Tingxue, the ice cube decided by himself, Lu Yuan couldn’t bring it back.

This person is stubborn.

Si Tingyu spoke earnestly with a face:

‘You are right. Although you are a princess, you are also a genetic warrior after all. Since Ayuan can participate, and your strength meets the requirements, you can indeed participate. If that is the case, then I agree. However, at a young age In the world, life and death are up to you, are you sure?’

Si Tingxue faintly said:

‘Isn’t it life and death in the upper layers of Origin Land?’

Si Tingyu was taken aback, then smiled: ‘You are right.’

At this time, Lu Yuan heard Si Tingyu’s transmission:

‘A Yuan... take care of my sister.’

Lu Yuan was taken aback, glanced at Si Tingyu with a serious face, and transmitted the sound back:

‘Don’t worry, mentor, I’m here.’

‘Um.’

.....

After a few hours, they came to a wilderness area.

I saw a huge steel barracks in the wilderness.

In the square in the center of the barracks, there was a strange crack that was hundreds of meters wide and hundreds of meters high, with a dark inside.

Lu Yuan looked at this strange fissure with curiosity.

The land edge with space gene has the most basic perception of space.

He can clearly feel that the space in that area is chaotic.

Pieces of space lines are intertwined, finally connecting the space they are in with another space where the coordinates are unknown.

From now on, this connection is fairly close.

However, Lu Yuan felt that if a strong man with powerful spatial control ability made the move, the spatial rift could be smoothed out.

Just straighten out the chaotic space lines.

Of course, with Lu Yuan's current spatial capabilities, this would definitely not be possible.

Lu Yuan felt that it might be possible to burn the spatial genes of the Emperor-level or even the Saint-level.

However, at that point, the space genes contained must be extremely terrifying.

The afterimage of the will that possesses Emperor-level space combat skills or even holy-level space combat skills is not something that genetic warriors of the same level can deal with.

You know, when Lu Yuan recorded Space Genes at all times, that afterimage was just a boss-level flashing combat skill, which made Lu Yuan feel a little bit tricky.

Space genes of the same level, unless they have space combat skills or other particularly powerful genes, whoever burns them will find death.

At the very least, Lu Yuan felt that whether it was Daqixing or Bloodbone Star, there shouldn't be any powerhouse of this level.

Otherwise, just close the opponent's space rift, and try to play with you?

When Luyuan was thinking about it, the fighter plane had already landed at the airport.

Several people from Lu Yuan followed Yu Lao and others out of the fighter plane. Outside the airport, soldiers in military uniforms were already waiting for them.

The head was a man with a slightly thin figure.

He stepped forward with a smile on his face:

'Lao Yu, the commander is already waiting for you at the headquarters over there.'

Yu Lao smiled and nodded: 'Time is running out, then take us there.'

'Okay, please, some of you here.'

Lu Yuan followed the thin man through the steel barracks.

Lu Yuan looked around, and there were quite a few genetic warriors in this barracks, all of them were military personnel.

Moreover, the strength is not weak, most of them are second-tier, and some are third-tier.

The barracks are all made of alloy and look extremely hard, enclosing the entire space crevices.

After all, inside this space fissure is the ice vein star, which contains a large number of ice vein crystal ore. Sending so many soldiers, obviously attaches great importance to that ice vein crystal ore.

What's more, if this space rift is left alone, it would be too dangerous for the kobolds to enter the Red Maple Empire through the Ice Vein Star.

Even if there are no resources, many genetic warriors will be sent to guard here.

Soon, the group of them came to the square in the fissure of space.

Approaching the rift in space, Lu Yuan felt the chaos of this space line more and more.

In his eyes, the edges of the entire space gap were covered with twisted space lines. Unfortunately, he couldn't interfere. The space power in this area was too strong.

They stepped into the gap in the dark space. Lu Yuan felt his body cool and turned around. The next moment, he walked out of a square.

As soon as he walked out, Lu Yuan felt extremely cold, and his body couldn't help but shudder.

The Willie and others on the side shivered even more, but Si Tingxue's complexion was even more ruddy.

Lu Yuan gave her a weird look. After all, what this guy had burned was the genes of ice elements. Under such an environment, I'm afraid it's like a fish in the water?

Is it possible that the bonus to her combat power is not small?

Si Tingxue also noticed Lu Yuan's gaze, and when she glanced at him, Ying Hong's mouth was raised with pride.

Look at this ice cube.

The corner of Lu Yuan's mouth twitched.

Give her a hand, this guy is not his opponent, what's so good about?

Lu Yuan was slanderous in his heart, but he didn't say anything.

His gaze swept around and found that this was also a steel barracks, but the area was larger than that of Daqixing.

Outside the barracks is an area of ice and snow.

'Please here, it's a bit cold here, please bear with me.'

The thin man smiled.

Old Yu shook his head gently with a look on his face: 'It's okay, it's okay. After all, we are here for the resources of the empire. This little thing has no effect on us.'

In fact, Si Tingyu and several war emperors didn't even look at them.

At the level of the King of War, you can barely survive in a vacuum.

It's just a little bit cold, what effect can it have?

In fact, every time the gene lock is broken, genes are constantly being optimized. They are already different from ordinary humans. The air of this ice star is obviously different from that of Daqixing, and the gravity is higher.

But for Lu Yuan, although they are a bit uncomfortable, the impact is not great, and they can still move normally.

This is also because Lu Yuan and several people are already at the rank of generals, their own genes have been optimized three times, and extraordinary genes have been burned, and their lives have been sublimated.

A normal person may have died suddenly the first time they come over.

They crossed the square and came to a tall building in the central area of the barracks.

In a meeting room in a tall building, the thin man stopped.

‘Lao Yu, Commander, they are all inside.’

With that said, he opened the door, and Lu Yuan saw that inside was a large conference hall with a lot of people sitting in it, including young people and the elderly.

Lu Yuan couldn’t help but stunned when he saw an old man with gray hair and wrinkles in a black robe.

The shadow war emperor, Li Xinghai, the ancestor of the Li family, are also the ancestors of Sister Qinghe.

Didn’t expect that he is here ?

Lu Yuan was a little surprised.

Li Xinghai also saw Lu Yuan and smiled at Lu Yuan, the wrinkles on his face deepened a bit.

Not only Li Xinghai, Lu Yuan also saw two other acquaintances.

One is a handsome middle-aged man with purple hair, Adams Algaby, that is, Amy’s grandfather, Tian Luo Zhandi.

He is sitting next to Li Xinghai, in the uppermost seat of the conference room.

Adams obviously saw Lu Yuan and smiled gently at Lu Yuan.

The handsome face doesn’t have any charm when smiling.

Lu Yuan also smiled back.

And the other one turned out to be Wang Lingling with a gentle smile on his face. Wang Lingling sat with the young man.

Lu Yuan didn't expect this dark-hearted woman to be here, but why isn't Amy here?

Father Adams is the warlord of the Lion Empire. Now that he is here, he should be the foreign aid that Yu Lao said before?

He glanced at Wang Lingling a little weirdly, isn't this woman a foreign aid?

Lu Yuan realized that he had never seen Wang Lingling in a fight. Lu Yuan didn't know how strong she was.

However, Lu Yuan thought for a while, Wang Lingling was so young, yet his status in Algabe's family was not low at all.

Although it was stated that she was Amy's maid, when he was in Tianluo Mansion, Lu Yuan saw her helping Amy's mother, Aunt Gwen, with her affairs.

This status is considered very high.

Thinking about it this way, this black-hearted woman could really be a genius?

Seeing Lu Yuan leading her, Wang Lingling narrowed his eyes, revealing his trademark gentle smile, Lu Yuan twitched the corner of his mouth and looked away.

Lu Yuan thought about the problem, and followed Mr. Yu into the meeting room.

Lu Yuan immediately felt the warmth of the air.

The heating is turned on here, which is really enjoyable.

Lu Yuan sighed comfortably~[www.mtlnovel.com](http://www.mtlnovel.com)~ In the meeting room, after Lu Yuan came in, everyone was looking at them.

Some young people's gazes were intertwined, Lu Yuan's gaze swept over, and he could guess that these guys are probably discussing them in Transsion.

Especially Lu Yuan felt that many people really looked at Lu Yuan, with curiosity in their eyes.

Lu Yuan's strength is not only rumored in the Red Maple Empire.

Among these people are the military's genius fighters and the lion empire's Tianjiao. Obviously, they have also heard of Lu Yuan's deeds.

At this moment, the first black-haired man in the conference room stood up and walked to the old man, with a smile on his majestic face:

'Lao Yu, you are here.'

Yu Lao smiled kindly:

'We're a bit late, so we didn't waste time, did we?'

Commander Meng Jiang shook his head and said with a smile: 'We have just arrived in the meeting room, and we are here at the right time.'

Old Yu nodded, and then sat in front of the meeting room with some War Emperor-level instructors and Si Tingyu, while several young people Lu Yuan glanced at each other, walked to the back, and sat down where those young people were. .

Wang Lingling sat in front of Lu Yuan. As soon as Lu Yuan sat down, Wang Lingling turned his head, smiled at Lu Yuan, and whispered:

'A Yuan, what a coincidence.'

Suddenly, whether it was the genius camp students who came with them or some other geniuses, they all looked over and looked at Lu Yuan.

Lu Yuan even felt a cold gaze.

Lu Yuan was taken aback, followed his gaze with some doubts, and found that it was Si Tingxue.

This ice cube has such a big increase in strength on this planet?

Do you even have a chill in your eyes?

Lu Yuan didn't expect it.

He smiled at Wang Lingling: 'Lingling, you won't be the foreign aid this time? Amy didn't come?'
