

Chapter 206: My Genes Evolve Infinitely

THE START OF THE MATCH, THE HIDDEN HOLE CARDS

Hot recommendation:

‘Yes, I am a foreign aid.’ After a pause, Wang Lingling smiled and said: ‘This place is too dangerous for the young lady, so I won’t let her come.’

‘I see.’

Lu Yuan was a little surprised, and then looked at Wang Lingling curiously: ‘What state are you in?’

Wang Lingling blinked, with a gentle smile on his face: ‘Guess?’

‘Zhan Zun?’

‘You guessed it, it’s A Yuan.’

Wang Lingling smiled and said.

Lu Yuan looked at Wang Lingling in surprise, but he really guessed it.

‘I didn’t expect Lingling to be so strong.’

‘Compared with you, Ayuan, I’m still a little bit worse.’

Wang Lingling smiled modestly, then she turned to look at Si Tingxue and Rebecca beside her, with a gentle smile on her face:

‘Long time no see, Your Royal Highness the Ninth Princess, Miss Rebecca.’

Si Tingxue nodded coldly, ‘Yes.’

Rebecca said cheerfully:

‘I didn’t expect Lingling to be so strong, so powerful.’

The last time Wang Lingling met with Rebecca and Si Tingxue, it was still at the harvest day dinner. With Rebecca’s familiar character, she and Wang Lingling were able to chat.

Lu Yuan suddenly thought that at that time, Amy said that Gwen came to the Red Maple Empire to talk about things. Could it be that he was talking about foreign aid?

When Lu Yuan thought about it, it was really possible.

After all, there was already an intention to compete at that time, and the number of geniuses in the Red Maple Empire was insufficient, and it was normal to cooperate with others.

While they were whispering, Lu Yuan looked at other people.

Some people have seen Lu Yuan at the Harvest Day dinner before, and some have not.

Inside, there are the strong men of the Red Maple Empire military, the hidden talents of the big family, and the foreign aid of the Lion Empire.

A handsome young man with dark gray hair nodded to Lu Yuan, with a hint of curiosity and war in his eyes:

‘My name is Stevenson, and I heard that you are very strong. When you break through to the battle, let’s discuss it? Don’t worry, it’s in the martial arts field in the place of origin. We don’t hurt our peace.’

Lu Yuan was taken aback, then smiled and said, ‘If you want to learn from each other then I would be willing to accompany you.’

Lu Yuan was afraid that after this competition, this guy would not have the mind to learn from each other.

But since this person just wanted to learn from each other, Lu Yuan would also like to make a friend if he didn’t have any bad intentions.

Multiple friends and multiple paths, being able to cultivate to Zhan Zun at this age is a genius in itself.

Next to Stevenson, there was a blond man with a cold expression. He glanced at Lu Yuan and snorted without saying hello.

Lu Yuan had seen this guy at the Harvest Day dinner before. At that time, the guy’s eyes seemed a little unfriendly to him.

Lu Yuan didn’t greet him either.

When Lu Yuan was chatting with several people, Yu Lao in front of the meeting room told Meng Jiang about Lu Yuan and Si Tingxue’s going to participate in the team battle.

Hearing what Yu Lao said, Meng Jiang, Li Xinghai, Adams and others were all stunned, and looked at Lu Yuan's direction with a little astonishment.

Meng Jiang frowned slightly and said:

'Lao Yu, are you sure? If Lu Yuan ends, I am afraid it will be very dangerous. The kobolds will probably target Lu Yuan.'

Originally, he had planned to let other people participate in team battles. If he could win, he would win.

Li Xinghai frowned:

'Aren't this kid Lu Yuan messing around?'

Adams also frowned slightly, glanced at Lu Yuan, and then smiled:

'Since A Yuan is so confident, maybe he really hopes to win?'

Old Yu smiled bitterly: 'Lu Yuan is very firm in saying that he wants to go, and can't even persuade him to listen to Yu.'

Everyone looked at each other, Mengjiang's eyes flashed, and then slowly said:

'Except for the three warlords on our side, Lu Yuan must be the strongest. Since he wants to go, then we have no reason to stop it.'

Si Tingyu said with a serious face:

'They are also genetic warriors. Since they have chosen to compete, we can't stop them.'

Li Xinghai frowned, snorted coldly, and said nothing.

Adams smiled and said: 'If there is an accident, the team battle can surrender in time. With Ayuan's agility, it should be fine for a while.'

'In that case, let Lu Yuan and His Royal Highness the Ninth Princess join the battle.'

Meng Jiang smiled, then he increased his voice, and his voice spread throughout the conference room:

'Everyone, be quiet. Now that everyone is here, I will talk about the general situation of this competition. The competition will be held in an ice valley in the center of our human and kobold

barracks. Each of the two sides has 20 talents to participate in the battle. , Maybe some of you don't know each other, let me introduce it to you.'

With that said, he introduced:

'Wang Lingling, from the Algabe family, is a high-ranking warrior.'

'Stevenson, from the Eastern Guards, Junior Sovereign.'

'Bakura, from the Dean family, junior warlord.'

'Si Tingxue, from the genius camp, the warlord is complete.'

'...'

Mengjiang introduced all the twenty geniuses. Among them, there are seven in the genius camp, three reinforcements from the lion empire, one is Wang Lingling, senior warlord, and two are the pinnacles of warlords, the geniuses who have recorded the king's genes. , The others are from various guards and big families of the Red Maple Empire.

Everyone is a warlord-level or higher cultivation base, and they have at least burned the lord-level transcendent genes, and they are all first-class geniuses outside.

After the introduction, Meng Jiang continued to speak:

'This competition is divided into ring battles and team battles. Ring battles are wheel battles. Anyone who stands at the end will even win. As for team battles, there will be five people on each side. Our human candidates will be Wang Lingling and Stevenson. Bakula, Lu Yuan and Si Tingxue.'

Hearing this, Wang Lingling turned his head in surprise and looked at Lu Yuan, smiling:

'A Yuan, I heard that the kobolds prepared this team battle for you? Are you going to throw yourself into the net?'

The others also looked at Lu Yuan in surprise.

Regarding team battles, they have heard more or less and know the inside story.

Just like this, they were a little surprised when they heard that Lu Yuan was going to participate.

Lu Yuan smiled and said, 'Lingling, your strength is so strong, you will rely on you to protect me then.'

When everyone heard this, their faces looked strangely at Lu Yuan.

Good guy, so rightly seeking protection ?

So what are you doing in this group battle ?

Bakula frowned, glanced at Lu Yuan coldly, and said uncomfortably, ‘The guy who only eats soft rice!’

Wang Lingling looked at Lu Yuan with a smile, and said with a smile:

‘Since you have said so, Ayuan, then I will protect you when the time comes.’

Bakura: ‘...’

His face went dark all of a sudden.

Meng Jiang didn’t care about the surprise below, and continued to speak:

‘Next, I will introduce the geniuses of the Kobolds. The strongest of them is the Blood Mad Fang, a warrior of the assault system...’

In the next period of time, Meng Jiang introduced general information about the genius of the Kobold to Lu Yuan and others, including the known combat skills, strength, and possible effects of genetic weapons.

Of course, this can’t be all the complete information, but at least it can have a certain understanding of the opponent.

Then Meng Jiang said some notes about the competition.

After that, Meng Jiang let everyone leave and rest.

Lu Yuan and other geniuses were concentrated in the guest rooms, each of whom had a simple small room with his own bathroom.

After Lu Yuan returned to the room, he lay on the bed to rest, waiting for the start of tomorrow’s competition.

.....

Early the next morning, everyone assembled, then boarded the fighter plane together, left the defensive camp, and flew towards the place of the competition.

The defensive camp has a defensive shield to block the wind and snow. Although it is a bit cold, the environment is not too bad.

After leaving the defensive camp, the harsh environment of Ice Vein star was completely presented to Lu Yuan and the others.

During the flight of the fighter plane, from time to time, you can encounter terrifying snowstorms, as well as some peculiar cold currents, hail and other environments.

However, their fighter planes are obviously very strong, and they can still fly smoothly in a strong snowstorm, and they can't feel the slightest vibration in the cabin.

Soon, the fighter plane fell in an ice valley.

The ice valley is huge, about four to five hundred meters wide, and the environment is fairly good, except for the strong cold wind.

When Lu Yuan got off the plane, they immediately saw a group of kobolds standing not far away.

The leader was a strong kobold wearing a scarlet armor. Behind him, there were a few powerful kobold powerhouses and a group of young kobold geniuses.

Lu Yuan glanced over the Kobold Genius, and soon saw a few acquaintances.

There are red-haired kobold Phoeba, Hei Ming wearing a black cloak, and Zhou Er who was killed by Lu Yuan and other kobolds.

When Lu Yuan saw them, they naturally saw Lu Yuan.

The enemy was extremely jealous when they met.

Fieba's eyes were full of hideous killing intent, staring at Lu Yuan.

Before Lu Yuan killed Fieba and wasted so much training time, Fieba's killing intent could hardly be concealed.

After Zhou Er and other kobolds saw Lu Yuan, their pupils contracted slightly, and there was still a trace of palpitations in their eyes.

The terrifying power that Lu Yuan had shown before has not forgotten them until now, and it has almost become their nightmare. Zhou Er has often dreamed of Lu Yuan smiling at him recently, causing him to be constantly frightened awake.

Several people from Mengjiang led Lu Yuan and others to walk over.

The two sides stopped at a distance of tens of meters.

The headed kobold glanced over Lu Yuan and the others, with a sharp look in his eyes, making Lu Yuan seem to have the illusion of being cut by a knife.

He said coldly:

‘It’s pretty punctual, since it’s here, don’t waste time, let’s get started.’

Meng Jiang’s expression was also cold. During this period of time for the crystallization of ice, although there was no large-scale war between the two sides, there were no small conflicts at all.

If it were not for mutual restraint, they would have started fighting.

Even so, both sides carry hatred in their hearts.

‘Then start.’

A human war emperor waved his hand, a radius of hundreds of meters, a huge glacier like a mountain peak was torn from the side of the valley.

Rays of light flashed, and the glacier was cut into the shape of an arena. With a wave of the human war emperor, the glacier ring with a radius of several hundred meters landed in front of the humans and kobolds with a roar.

Afterwards, he casually moved, and there was a blue light flashing across the glacier arena, and the entire glacier arena seemed to glow with metallic luster.

This move surprised Lu Yuan.

This was the first time Lu Yuan met a war emperor-level powerhouse.

It can be said that turning the hand is for the cloud and covering the hand for the rain, possessing vast power.

Lu Yuan was a little looking forward to his strength after breaking through to the Battle Emperor level.

‘Huh! Ring fight, Zhou Er, you go.’

The headed kobold said coldly.

Zhou Erzheng looked at Lu Yuan with a little horror, and when he heard the Kobold’s words, his body stiffened, then gritted his teeth, his body turned into an afterimage, and appeared on the ring.

His gaze swept across the human genius. After seeing Lu Yuan, he quickly looked away and said coldly:

‘Human cubs, come up and die!’

‘Dog stuff, I’ll fight you!’

A slender, black-haired young man jumped into the ring with a cold killing intent in his eyes.

Meng Jiang said before that this black-haired boy was called Angus, a senior warlord, and he had burned the lord gene. Among the twenty geniuses, he was considered weak.

However, Zhou Er himself is not strong, and he is also the lord gene of burning.

Both sides tacitly did not let the strong play.

After all, it is a wheel fight, unable to recover spiritual power, and there is no rest time, even the strong will run out of spiritual power and face the possibility of defeat.

The battle began.

Zhou Er is a general of the assault system, and Angus is a general of the elemental system.

Like Si Tingxue, he is good at ice element.

Although Angus’s own strength is weak among the geniuses, the environment here is very friendly to him, and there is not a small increase in the ice element.

The fighting between the two began to spread.

In such an arena, both sides naturally aim to kill each other.

With a wave of Angus’s staff, a group of frost chains appeared on Zhou Er’s feet, restraining him, and then a dark ice arrow condensed with a cold face.

A series of black ice arrows shot at Zhou Er without mercy.

Zhou Er roared, horrible power surged, and red streamers circulated all over his body, shattering the chains of frost, and then constantly wielding a war knife, smashing the ice arrows, and approaching Angus.

Angus waved afterwards, and a cloud of ice mist spread along the cold current towards Zhou Er.

A touch of ice crystal appeared on Zhou Er’s body, his movements stiffened.

At this moment, a group of white light flashed outside his body, the white light formed a shield, the ice crystals melted, and his body instantly accelerated and rushed towards Angus.

Angus' pupils shrank and his toes were a little bit, ice guns emerged from the ring and pierced Zhou Er.

Zhou Er's pupils shrank and evaded in embarrassment, but he was still pierced through his thigh by an ice gun. Blood did not come out, and he was directly frozen by the ice gun.

Zhou Er, who had been pierced in his thigh, roared and smashed the ice spear to pieces. The ring in his hand flashed with blood, Angus's face turned pale, and his body shook.

Zhou Er suddenly exerted his force and rushed towards Angus.

After approaching Angus, Zhou Er slashed straight down, with a smirk.

'die!'

At this moment, a white light flashed in Zhou Er's eyes, and a terrifying spiritual power rushed out and hit Zhou Er's body.

Zhou Er was caught off guard and was blasted directly into the air. Angus had killing intent in his eyes, and a series of black ice arrows condensed and continued to shoot Zhou Er in the air.

Zhou Er reluctantly twisted his body, trying to avoid the attack, but was still shot by several black ice arrows, and his chest was penetrated.

At this moment, the scarlet armor kobold said coldly:

'In this case, we surrender.'

While speaking, he waved his hand, and a white mask appeared outside Zhou Er's body, and the remaining black ice arrows hit the mask and shattered directly.

Meng Jiang sneered when he heard the words.

'Concession, Broken Mountain.'

Duanshan's face was cold, and with a wave of his hand, Zhou Er, who was seriously injured, floated down from the ring and was taken for treatment. He opened his mouth and said:

'Yuehuang, you go.'

A stern murderous intent flashed in the eyes of a silver-haired kobold wearing black leather armor, and nodded.

His body instantly disappeared in place and appeared on the ring.

Seeing this kobold, Lu Yuan and the others were all taken aback.

Meng Jiang did not tell them about the information about this kobold.

Obviously the hole card hidden by the kobold.

This is understandable.

On Lu Yuan's side, there were also genetic warriors that the other party didn't know about, and those geniuses hidden by the big family, even few people in the Red Maple Empire knew about them.

Obviously there is the same situation on the kobold side.

Angus frowned, his face still a little pale, Zhou Er's attack that hurt his mental power just now caused him a big loss.

Looking at the kobold at this moment, there was a dignified look on his face.

He directly waved his staff, and a twisted ice crystal shield emerged around his body, spinning around him.

'Start.'

As soon as the words fell, Yuehuang disappeared in place, Angus' pupils shrank, his staff squatted, and dense ice spears pierced the ground around him.

At the same time, a silver afterimage passed through the ice gun without any damage, and appeared behind Angus.

'what!?'

Angus' pupils shrank, and ice mist spread towards the afterimage. At the same time, an inscription on his robe lit up, his speed skyrocketed and he retreated.

The silver afterimage was extremely fast, avoiding the ice fog, and chasing Angus.

Angus used the combat skills of genetic weapons to greatly increase his speed, but he was still slightly weaker than this kobold, and he was constantly approached.

An icy color appeared on Angus's face, waving his wand, while retreating and shooting a black ice arrow toward the afterimage.

However, kobolds are extremely flexible, and Black Frost Arrows did not have a good effect.

Lu Yuan and the others wrinkled their eyes.

Si Tingxue faintly said:

'This kobold has burned the gene of the king. This speed is not what a war general who can burn the gene of the lord can achieve. The difference in strength between the two is a bit big.'

Lu Yuan nodded: 'Yeah.'

Willie grinned: 'This brother only allowed this kobold to use two combat skills? He didn't even use his hole cards, and didn't know other combat skills.'

Lu Yuan smiled and said, 'Angus has eliminated one, not a loss.'

While they were talking, Angus was caught up, and the dark sword light struck towards Angus.

Qiang Qiang!

The ice shield shattered, and when the pitch-black sword light approached Angus, it suddenly seemed to dissipate as black mist.

Mengjiang opened the mouth and said:

'In this case, we surrender.'

Angus looked pale, glanced at Yue Huang a little ugly, then bowed his head and stepped down.

'Commander, I'm sorry, I...'

Angus is the representative genius of the Defence Military District of the Ice Vein Star. He didn't expect to lose just after winning one game.

'It's okay, you have performed very well.'

Meng Jiang patted Angus on the shoulder and comforted.

Then he glanced at Willie: 'Willie, you go.'

Willie was taken aback, nodded, his face serious: 'Okay!'

On one side, Willie's father, the Emperor of War with dark red short hair, spoke:

'Willie, don't lose to labor and capital!'

Willie's mouth twitched without answering.

Yuehuang's strength is not weak this time, and he feels a little unsure in his heart.

Willie is a guardian warrior, wearing a heavy armor, holding a huge shield and a long sword.

He looked at the cold silver-haired kobold opposite, his face solemn.

At the next moment, a crimson light flashed on his body.

'Come on! Asshole!'

He roared and slowly approached Yuehuang.

Willie didn't accelerate. He knew that as a Guardian warrior, he was completely inferior to the speed of this month, so he fought steadily and approached the month step by step.

A cold color appeared on Yue Huang's face, and his body instantly disappeared in place, attacking Willy.

His body appeared behind Willie, and the dagger pierced Willie's neck.

But Willie seemed to be an unknown prophet, reflexively raising his shield and blocking his short sword.

Ding!

A crisp voice sounded, and a hit was missed, Yue Huang's body disappeared in place, and once again attacked Willy from one side.

Might still waved the huge shield to block the attack.

In the arena, Yue Huang turned into a silver storm, surrounding Willie constantly attacking, and Willie can become a genius, it is not unreasonable, he will carry out the defense very thoroughly, not moving like a mountain, no matter what Yue Huang is from. The angle attack was blocked by him one by one, and the shield technique was first-rate.

The ding of the dagger stabbing on the great shield kept ringing, like a sweet music.

The two attacked and defended, the cards were frequently played, and time passed.

In such a fierce battle, only more than ten minutes, their spiritual power and physical strength have consumed more than half.

Yuehuang's speed slowed down, and Willie was also pale and panting. There were wounds on his body, but they were all minor injuries.

Ding!

Another attack was prevented, and Yue Huang's eyes flashed a hideous look, and a ray of blood appeared.

The next moment, there was blood burning on his body, his speed increased again, and he appeared behind Willy.

Willie felt Yue Huang's attack coming from behind, but it was too expensive and could not turn around to defend at the first time.

His face condensed, and he barely avoided the dagger that Yuehuang stabbed at the back of his neck, leaving a deep blood mark on his neck.

With blood gushing, Willie roared, and the giant shield slapped towards Yuehuang with a white light.

boom! !

The giant shield slapped on Yue Huang's body, there was a clicking sound from Yue Huang's body, and he was shot directly out of the ring and fell heavily to the ground.

And Willie's neck was full of blood.

Seeing this scene, Willie's father's face changed, and he went directly onto the stage with a nervous expression, bringing Willie down.

A healing war emperor who had been waiting on the side gave Willie the first treatment and healed the wound on his neck.

Willie's complexion returned to ruddy, and he couldn't help but breathe out:

'I thought I was going to die.'

Seeing Willy recover, the dark red and short-haired war emperor secretly breathed a sigh of relief, then his face became cold and punched him in the forehead: 'Fool! You learned all the Ken's shield technique from dogs. There are several opportunities to fight back, but you were wasted in vain, so you can practice more after you go back!'

Willie covered his forehead in pain, and when he heard his father's words, the expression on his face stiffened and his face was crying.

Lu Yuan on the side mourned Willie's silence.

That's horrible.

The competition is still going on. Kobolds and human geniuses are in the ring. Although both sides can't wait to kill each other directly, after all, there are powerhouses at the emperor level. It's just a battle between warriors and children. Fighting makes no difference, you can easily stop it.

Although someone was seriously injured, no one died.

Lu Yuan and the others had already guessed this kind of thing before, but there was no surprise.

Generally speaking, the strength of the kobolds is stronger than that of the humans.

On the one hand, it was selected from the geniuses on a whole planet, and on the other was the geniuses selected from the two empires, and one of them was obviously not going all out.

This gap is still there.

When there are five people left on the human side, there are ten people left on the kobold side.

The remaining humans are Wang Lingling, Stevenson, Bakula, Lu Yuan and Si Tingxue.

Lu Yuan glanced at the ten people on the opposite side.

Hmm... He mostly uses hair to tell who is who the other person is. After all, Lu Yuan is really indistinguishable from his looks, and they look the same.

He can recognize a red-haired man named Feiba, a black-haired man named Hei Ming, a black-and-white man named Pope, a blood-red man with blood mad teeth, and a white man with a low-level dog head from Zhan Zun. The man named Wenlin, and the blue-and-white hair was another low-level kobold from Zhan Zun, named Shuiji.

For the remaining four, Lu Yuan recalled the photos on the previous hunting list, and found that only one matched the kobold who was the pinnacle of the general, named Stone, and the other three did not know him.

His memory is now very strong, and he can remember all the details in the photos. After comparing them one by one, Lu Yuan came to this conclusion.

These three should also be hidden geniuses of kobolds.

Regarding this, Lu Yuan glanced at the three of them, and left an eye on them.

Obviously, not only Lu Yuan, but Meng Jiang and others also glanced at the three kobolds.

On the ring, a roar sounded.

Flames bloomed on the frost ring, and a human genius with a slightly charred body was blasted down.

On the ring, a kobold with brown hair kept panting, and his spiritual power was extremely weak.

This kobold is an elemental kobold who uses fire combat skills. Although it is a bit of a disadvantage to use fire combat skills in such an environment, his strength is still not weak.

Just like Rebecca, although she was also using fire fighting skills, she was also a natural leader. She had an advantage in combat skills, and she still defeated a kobold before she ran out of spiritual power and lost.

Looking at the human genius being treated, Meng Jiang frowned slightly, but there was no change in his face, and the others were also calm.

Although the number of them was twice as small as the opposite kobold, they knew Lu Yuan's strength. As long as it was a general-level kobold, they didn't think that Lu Yuan would lose.

A few are no problem.

What's more, Si Tingxue was also a natural lord, and she was extremely powerful, not to mention that this environment was beneficial to her herself.

Si Tingxue glanced at Meng Jiang, and Meng Jiang nodded: 'His Royal Highness Nine Princesses, I will trouble you next.'

Si Tingxue nodded, touched the ground, and jumped onto the ring.

The panting kobold fire element warlord glanced at Si Tingxue and smirked.

He was about to speak when Bingling appeared in front of Si Tingxue one after another.

Shoo!

The dense ice mass turned into an afterimage, and with a terrifying chill, it shot at the kobold warrior.

The power of horror made the kobold warlord's face changed drastically.

Before he had time to defend, Bingling had already arrived in front of him.

Opposite, several kobold war emperors and war emperors frowned slightly.

Bing Ling stopped in the air, slowly dissipating.

The headed Kobold Duanshan took a deep look at Si Tingxue, and said lightly:

‘We admit defeat.’

The kobold warlord glanced at Si Tingxue coldly: ‘If it weren’t for my consumption too much, and the environment here is not suitable for me, I wouldn’t necessarily lose.’

He jumped off the ring.

Duanshan faintly said: ‘Pop, you go up.’

Pope entered the ring again.

Seeing Pope, Lu Yuan looked a little strange.

The guy was abused by Si Tingxue last time, but he didn’t expect to meet Si Tingxue again this time.

Pope’s face is also extremely cold, a bit ugly.

Last time he said harsh words, and wanted to make Si Tingxue look good, but he didn’t expect it to be in such an environment. Seeing Si Tingxue with a cold face, Pope’s face became gloomy.

He changed his goal to consume Si Tingxue’s spiritual power as much as possible.

He had fought with Si Tingxue last time and knew that the difference between the two was not big, and that he could still do it by consuming spiritual energy.

Thinking of this, Pope roared: ‘Human! Let’s fight again this time.’

Above his double swords, there was a strong wind condensing again.

Si Tingxue looked at Pope coldly, and the ice ridges condensed, and shot towards Pope~www.mtlnovel.com~ Pope snorted coldly, and the gust of wind surged towards the ice ridges.

Chi Chi Chi Chi! !

The violent wind blows large areas of ice, but there is still a small part of the ice that was passed through the violent wind and shot towards Pope. The most terrible thing is that the blown ice spreads around with a strong chill.

‘what?!’

Pope exclaimed.

In the last battle, it was obviously not like this, right? !

In such a short period of time, how could this human being make such a big progress? !

He couldn’t believe it.

Pope kept evading the ice passing through the strong wind, feeling a little embarrassed.

However, the surrounding cold was getting bigger and bigger, and in a short time, Pope felt the biting cold.

Si Tingxue’s strength was much stronger than when he fought last time.

After all, with the addition of a king-level staff, coupled with the use of the Heavenly Spirit Pill, her strength is growing rapidly.

In a short period of time, Pope was driven out by waves of ice, and it was also difficult to do so after delaying time.

His body became stiff, the wind above the double swords subsided, and ice crystals condensed on his body.

The next wave of ice stopped in the air before falling on Pope.

Duanshan coldly opened his mouth and said:

‘We admit defeat.’

‘Xiaoxue is really good.’

Rebecca’s arm in Lu Yuan kept shaking, a little excited.

There is still blood on her body. During the previous battle, she also suffered serious injuries, but now she has been healed.

Si Tingxue looked at the kobold below, and said lightly:

‘Next.’

Several kobolds glanced at each other, revealing a touch of coldness.

Hei Ming disappeared in place and appeared on the ring:

‘What? Do you think you are very strong if you beat a mere pop?’
