

Chapter 207: My Genes Evolve Infinitely

FIBBA, AUTISTIC, FIGHTS AGAINST ZHAN ZUN

Hot recommendation:

Si Tingxue's expression remained cold when he heard Hei Ming's words.

A wisp of ice mist emerged from her body, and then it spread in all directions.

Seeing this scene, Hei Ming sneered:

'It's useless to me.'

With a wave of the staff in his hand, the shadow behind him was distorted, and a series of weird black clones came out.

One by one, the black avatars were holding long swords and rushed towards Si Tingxue.

The number of these black clones is extremely large, there are thirty or forty, densely packed, full of arenas.

Si Tingxue's face was cold, and ice ridges condensed all over her body, and the ice ridges shot at the dark avatars one by one.

Chi Chi Chi Chi!

Although the dark clone was constantly evading, but the speed of Bing Leng was too fast, it was continuously penetrated.

Although Bing Leng passed through the dark clone and didn't directly let the dark clone disappear, it caused a touch of ice crystals to appear on the dark clone.

As the dark avatar moved, more and more ice crystals, and finally turned into ice sculptures frozen in place.

Seeing this, Hei Ming frowned slightly, and then waved the staff again in his hand.

Behind Si Tingxue, a weird black shadow appeared, and the black shadow held a huge black sickle and cut it towards Si Tingxue's neck.

At this moment, an ice shield suddenly appeared behind Si Tingxue, just blocking the black sickle.

Cang!

There was a slight crack in the ice shield, but it completely blocked the sickle.

At the same time, the wisps of ice mist seemed to have consciousness, and pounced on the black figure holding the sickle, finally freezing the black figure.

An ice ridge suddenly appeared, passing through the frozen black shadow, smashing him to pieces.

After being crushed, the black shadow turned into wisps of black mist and disappeared.

At the same time, Si Tingxue's staff danced, and ice spears and ice ridges condensed at the same time. The ice spears were in front, surrounded by ice ridges, as if they had consciousness, and at the same time they surrounded the past towards Hei Ming.

Hei Ming looked at his pupils, and a dignified color appeared on his face.

His staff squatted on the ground, and a circle of darkness emerged under his feet. In the darkness, huge black arms protruded, and all the black arms surrounded Hei Ming.

Boom boom boom!

Bing Leng and the ice gun landed on the black arm, making a roar.

The cold air continued to evaporate, and crushed ice splashed everywhere.

When the ice spear and ice ridge dissipated, the defensive shield formed by the dark arm was frozen into hard ice.

At this moment, Si Tingxue's face suddenly turned pale, and a black air appeared on his forehead.

She felt a little weak in her body.

curse.

Si Tingxue frowned.

This is obviously a special curse ability that weakens people's spiritual power and spirit.

Click...

The black arm shattered, and Hei Ming appeared in Si Tingxue's field of vision again.

He let out a sigh of cold, his face a little pale.

The unceasing ice mist has spread to his side, and coupled with the cold air attached to the ice edge and ice spear before, he feels that his body has gradually become stiff at this moment.

This made Hei Ming feel a little dignified, this human being is very strong.

Even without Lu Yuan, she would still be a formidable opponent.

However, a sneer appeared on Hei Ming's face, and he spoke lightly:

'You have been cursed by my shadow, how much power do you have?'

Si Tingxue's face remained unchanged, and the staff in her hand suddenly burst into a dazzling icy blue light.

An illusory ice crystal crown appeared on Si Tingxue's head, a powerful aura spilled out, and strands of black mist were forced out of Si Tingxue's body.

Hei Ming's face changed, and a look of sorrow appeared on his face.

'Damn human! You are as ** as that Lu Yuan!'

He waved his staff again, and dark avatars were continuously made, and at the same time, under Si Tingxue's feet, a group of arms protruded and grabbed Si Tingxue's feet.

Si Tingxue strengthened his defenses, and at the same time, continuously shot out ice ridges and ice guns, and the ice mist continued to become dense.

On the arena, frost and darkness continued to explode, ice crystals and black mist spread out from time to time, and powerful forces continued to overflow on the arena.

The strength of the two is not much different, but gradually, as time goes by, Hei Ming's movements become stiff and his face becomes a little pale.

An icy color appeared on his face, and the next moment, a faint blue light flashed on his body, and under the faint blue light, strands of cold air were forced out of Hei Ming's body.

His body quickly returned to its original state.

Lu Yuan under the ring frowned slightly. He saw in his eyes that this should be the combat skill attached to Hei Ming's genetic weapon. I have to say that it is still very useful.

Even the cold air entering the body can be cleared.

However, Lu Yuan didn't have any worries, this was just delaying Hei Ming's defeat.

Because the ice mist on the arena is getting thicker and thicker, which means that the temperature inside is getting lower and lower, and the cold is pervasive, and he will be invaded by the cold faster than before.

Hei Ming obviously knew this too, he roared, and a cloud of black mist suddenly appeared on his body, his aura skyrocketing.

In the next moment, he condensed the dark clone faster, and the dark clone became stronger.

However, Hei Ming's struggle was obviously ineffective.

Under such a dense icy fog, these dark clones were frozen into ice by the icy fog just running a few steps, and then dissipated.

It didn't take long before Hei Ming was caught by the cold air again. This time, he had no means to relieve the cold air, and his body was gradually covered with ice crystals.

He watched an ice gun shoot, his eyes full of anger and unwillingness.

At this moment, the ice gun stopped in place, and a hurricane emerged, rolling up all the ice mist and blowing it into the air.

The ice gun also shattered.

With a wave of Broken Mountain's hand, Hei Ming floated down, and he waved his hand to get Hei Ming to heal.

All the strong kobolds frowned slightly, and looked deeply at the arena with cold expression on Si Tingxue.

The atmosphere fell silent, and Duanshan opened his mouth and said:

'I didn't expect your Red Maple Empire to have such a genius.'

He said coldly: 'We surrender this time, Stone, you go in.'

Stone is a kobold with unremarkable gray fur.

He was wearing gray leather armor, holding a long bow in his hand, and was tall and slender.

He nodded and entered the ring.

Si Tingxue sighed slightly, a icy color appeared on her face, and the ice crystal crown on top of her head was looming.

Stone glanced at Si Tingxue's ice crystal crown, and a smile appeared on his face:

'This should be the combat skill attached to your staff? It's powerful, but it's a pity that it will disappear soon.'

The combat skills attached to the gene armament are different from the combat skills of the extraordinary gene tapes burned in the body.

The combat skills attached to the extraordinary genes can be used continuously if they are not of a special type.

The combat skills attached to genetic weapons are generally time-limited.

Some powerful combat skills attached to genetic weapons can only be used once a day.

If you use too many times, the genetic weapons may be broken, which cannot be saved.

And Si Tingxue's current combat technique is obviously very strong, and it is impossible to use it continuously.

Si Tingxue's face was cold, did not speak, and waved his hand to condense the ice mist again.

At the same time, dense ice ridges emerged and shot towards Stone.

Stone sneered, his figure turned into an afterimage and disappeared in place, all the ice ridges shot into the void.

Unlike the elemental system, most of the warriors of the long-range attack system who use the bow have not weak speed and strength.

A group of dark green spiritual power surged around him, forming six arrows on the longbow.

He shoots an arrow.

Chi Chi Chi Chi!

The dark green arrow turned into an afterimage, constantly changing directions in the air, rushing towards Si Tingxue.

The arrow pierced through the ice mist, and finally landed on the ice shield.

As soon as it landed on the ice shield, the ice shield turned dark green, and then it shattered, and there was a sound of corrosion.

Si Tingxue frowned slightly.

Poison arrow.

A ray of red light flashed in the eyes of Stone in the distance, a ray of red light flashed on his body, his hands turned into shadows, and densely packed poisonous arrows shot out.

Si Tingxue frowned slightly, and a light flashed on the robe on her body. The next moment, her body turned into an afterimage and disappeared in place.

General genetic warriors of elemental systems will choose a genetic weapon that has the ability to accelerate or strengthen the defense.

Otherwise, at their speed, if someone gets close and there is no way to save their lives, then they can surrender.

Si Tingxue's figure flickered, and the spiritual power flowed throughout his body, and the ice mist was rapidly becoming dense.

Si Tingxue intends to drag it to the icy fog to cover the entire arena, and then she can use the interference to the enemy's perception to play with the opponent in the palm of her hand.

Stone obviously also saw Si Tingxue's thoughts.

But his idea is to make a quick fight.

Stone stepped on the ground, and the next moment, a ray of dark green light melted into the ice crystal ring.

Suddenly, a strand of vines pierced through the feet of Si Tingxue who was avoiding the attack.

The vine just tied one foot of Si Tingxue.

Si Tingxue's complexion changed for the first time.

She frowned and looked at the dense dark green arrow rain shot down like a storm, and a thick layer of ice shield was condensed in front of her. At the same time, ice ridges appeared all over Si Tingxue.

A faint blue light flashed in her eyes, and all the ice ridges quickly revolved around Si Tingxue.

A series of dark green poison arrows landed on the rotating ice ridge area, and they were scattered by the ice ridge. Only a few dark green poison arrows entered the ice ridge area and landed on the shield, corroding the ice crystal shield.

Seeing this scene, the humans and kobolds below were taken aback.

Duanshan frowned slightly, looked at Si Tingxue, and said coldly:

‘This little human boy has a lot of fighting wisdom, and her offensive combat skills can also allow her to use defensive combat skills. Moreover, her talent is not weak. When the team fights, there is a chance to get rid of her. ‘

The other kobolds nodded slightly.

On the human side, Meng Jiang looked at the battle on the ring with some surprise, and said:

‘His Royal Highness the nine princesses is ice and smart, and has been extremely skilled in the use of combat skills, and will surely be able to become a strong one in the future.‘

The others nodded in agreement.

A smile appeared on Si Tingyu’s serious face, happy for Si Tingxue.

Wang Lingling raised his eyebrows, looked at the alternative ice ridge shield condensed by Si Tingxue, and smiled:

‘Interesting idea.‘

Rebecca looked at the ring a little nervously. Because she was too nervous, she used a lot of strength to grasp Lu Yuan’s hands, she said:

‘Ayuan, is Xiaoxue okay?’

Lu Yuan looked at the ring and said:

‘It depends on the situation. If this continues, there is a high probability that the two will not be able to tell the victory or defeat in a short time. If the concentration of ice mist is higher, Tingxue has a high winning rate, but her spiritual energy consumption is not small, and she may not be able to last until that time. ‘

Hearing this, Rebecca’s eyes flashed with worry.

It was no different from what Lu Yuan said. Stone saw Si Tingxue blocked the attack. He used no knowing means again, and the poisonous arrow shot began to split into two. The arrow rain became denser, and he wanted to break Si Tingxue. Snow defense.

However, Si Tingxue was constantly replenishing the ice edge and shield, and the two sides froze for a while.

As time passed, Si Tingxue's Bing Ling replenishment speed couldn't keep up.

More and more poisonous arrows fell on the ice shield, and the number of ice shields gradually decreased.

At this moment, Stone suddenly felt a chill.

He was stunned and found that the concentration of the surrounding ice fog had reached an extremely high level.

'what happened?!'

Stone's face changed, and he couldn't believe it: 'There shouldn't be so much ice fog before!'

But Lu Yuan in the audience could clearly see that almost all the ice mist on the arena seemed to have consciousness, slowly condensing in the direction of Stone.

As a result, the concentration of ice mist around Stone has become denser.

Soon, Stone's perception ability was disturbed, and the vines under Si Tingxue's feet disappeared. After she avoided, she was not attacked again, and the position of Jian Yu deviated.

Moreover, the number of arrow rain is also declining.

Si Tingxue's face was pale, but her icy blue eyes were gleaming.

Spiritual power surged all over her body, making all her efforts to create ice mist, and the dense ice mist turned into a whirlpool, enclosing Stone.

Stone had realized that he was in the encircled circle of ice mist and wanted to escape the ice mist. However, his perception ability was disturbed. As soon as he emerged from the ice mist, he was forced back by dense ice ridges.

For a moment Stone was like a turtle in an urn.

Seeing this scene, Meng Jiang and others laughed.

Rebecca looked at Lu Yuan with joy:

‘Look, Xiaoxue won! You still said that it’s not necessarily! Humph!’

Lu Yuan was also a little surprised. He didn’t expect Si Tingxue to control the ice fog to such a degree.

Si Tingxue should not be able to do it before. It seems that she should be working hard recently.

Lu Yuan was naturally happy for Si Tingxue.

Compared with the joy on the human side, the atmosphere on the kobold side was gloomy.

Duanshan coldly watched as he struggled to escape in the icy mist, but Stone, who was forced back by Bing Leng time and time again, looked ugly.

‘waste!’

If Stone could find that the ice mist was gathering on his side for the first time before, and if it broke away at the first time, then he still has a lot of hope to win.

Unfortunately, he didn’t notice it for the first time. Instead, he gave Si Tingxue a chance to breathe. In the end, he was driven to a dead end.

Simply stupid!

Seeing Stone whose speed was getting slower and colder in his body, Duanshan took a deep breath and said coldly:

‘We admit defeat!’

After he waved, the ice mist was blown into the air.

In the ice fog, Stone was almost frozen into an ice sculpture.

A trace of coldness flashed in Duanshan’s eyes, and then Stone was handed over to the Kobold War Emperor who was in charge of the treatment.

At this moment, Si Tingxue’s face was pale, and after Stone was taken back by Broken Mountain, her body weakened and fell backward.

Just as Lu Yuan wanted to go up, a golden light flashed by, and Si Tingyu had appeared on the ring and hugged Si Tingxue.

‘elder sister?’

Si Tingxue's originally cherry-colored red lips became pale.

She almost squeezed all of her spiritual power.

A trace of distress flashed in Si Tingyu's eyes, smiled at Si Tingxue, and said gently:

'You did very well.'

She hugged Si Tingxue off the ring, and wisps of spiritual power entered her body.

Lu Yuan glanced at Si Tingxue, grinned, and gave Si Tingxue a thumbs up:

'Tingxue, it's not bad, it can actually wear four in one.'

Although Si Tingxue's face was pale and weak, she raised her chin slightly, a little proud when she heard Lu Yuan's words.

Lu Yuan realized that the ice block was really narcissistic, and he raised his tail when he praised it.

Si Tingyu looked at Lu Yuan:

'Next to you.'

Wang Lingling smiled and covered his mouth:

'Ayuan, come on and knock them all down, I don't have to go up.'

Stevenson grinned at Lu Yuan, with a hint of expectation in his eyes:

'I have always heard that you are strong, let me see how strong you are.'

Bakula put his arms around his chest, looked at Landing Yuan, but didn't speak.

Lu Yuan smiled, jumped slightly, and entered the ring.

He looked at the camp of the kobolds, and now they only had three unknown kobolds to hide their geniuses besides Fibba, Bloody Fang, Wenlin and Shuiji.

Lu Yuan glanced over, grinned at several kobolds, and looked at Feiba:

'who is the next?'

Seeing Lu Yuan looking at him, Feiba showed a sense of hostility in his heart, and his eyes were full of cold killing intent.

In order to avenge him, he specifically asked the Emperor Father to give him a very precious point of spiritual sacred fruit. After eating, his attributes have been greatly improved.

Although there is no time to practice in the Origin, he does not believe that he is not the opponent of this humanity this time.

Seeing Feiba's eyes full of killing intent and aura surging, Duanshan glanced at him and said lightly:

'Fiber, come on, don't embarrass the bloodbone tribe!'

Phoebe grinned, showing his hideous white teeth:

'Don't worry, I know.'

He jumped onto the ring and stood in front of Lu Yuan, his eyes full of killing intent, and wisps of flames appeared all over his body.

Lu Yuan glanced at Fibba and raised his eyebrows slightly.

He could feel that the little red hair's breath was much stronger than before.

However, there was no fluctuation in Lu Yuan's heart.

Broken Mountain faintly said:

'let's start.'

As soon as his words fell, Lu Yuan's face was cold, and his soles stepped on the ground. After so many battles, there were tiny cracks on the still smooth ice crystal arena, and air waves emerged from the surface of Lu Yuan's body, like Lu Yuan. Teleport generally appeared in front of Fibba.

His face was indifferent, and the heavy sword was chopped towards Fieba's neck.

Just as Lu Yuan was about to cut Feiba's neck, a cyan light shield suddenly appeared in front of Feiba, and the heavy sword slashed on the light shield. With a sound, Lu Yuan himself was shaken back.

At this time, a roar sounded, and Lu Yuan broke the sound barrier.

Lu Yuan sighed, and he was actually blocked. He was not surprised, he just gave it a try.

After all, he didn't even use the White Jade Spirit Body and Hei Gang Jin.

He has now tempered the space teleportation to 70%, and has blessed the silver ring of emperor grade, even without the white jade spirit body and the black steel strength, the combat power will be a little stronger than the previous battle.

On the other side, Fibba reacted, his eyes widened, with a hint of horror in his eyes, and his heart was full of fear.

He looked at Lu Yuan, who was expressionless not far away, and there was a sense of fear in his heart.

This made Fieba feel extremely humiliated.

As a member of the bloodbone royal family, he would be afraid? !

He wanted to suppress this fear, but found that his mind was filled with Lu Yuan's previously indifferent eyes and that heavy sword.

The atmosphere suddenly became a little silent.

Duanshan, another kobold war emperor and several kobold war emperors were all serious at the moment, staring at Lu Yuan.

Lu Yuan showed too much strength.

Far more powerful than they imagined.

If he is allowed to grow up, with such strength, I am afraid that in the future, the emperor will not be his end, and there is great hope for the war sage.

Perhaps, there is a glimmer of hope to pursue that illusory road to the God of War, that is a strong man who can use the rules of the universe!

There must be a reason for being called a god.

The murderous intent in Duanshan's eyes was boiling, and he wanted to do something, and he directly strangled this human in the cradle. However, he was locked by a few Qi machines at the moment, and he couldn't make a move at all.

Not only him, but several other people also had serious faces, but in fact they didn't do anything.

The human aspect.

The people in Mengjiang also had serious faces.

When Li Xinghai and Adams were fighting before, there were still expressions of disapproval on their faces, but at this moment they became serious, coldly looking at the two kobold war emperors in the distance to prevent the other party from suddenly making a move.

Li Xinghai looked at Lu Yuan, and there was a gleam in his eyes:

‘I didn’t feel much when I heard that this kid was doing well before. Now that I saw it with my own eyes, I was really a little frightened.’

Adams smiled slightly, and a dignified look appeared in his eyes: ‘Let this kid take action this time, and I am afraid the kobold will not let him go.’

Li Xinghai glanced at Lu Yuan and whispered:

‘This is not what happened afterwards... there will be team battles later.’

Adams’s face changed, and then the corners of his mouth twitched:

‘Could it be... really a kid who doesn’t make people worry.’

Li Xinghai grinned: ‘If this continues, I have to call someone over again, otherwise it’s a bit unstable...’

On the other side, Wang Lingling looked at Lu Yuan, with light flashing in his beautiful eyes, with a gentle smile on his face:

‘I haven’t seen it for a while, has A Yuan’s strength improved so much? It’s really amazing... If you let the young lady know, I’m afraid you will shut down.’

She seemed to think of some interesting idea, her mouth raised, and her smile became more gentle.

Stevenson and Bakura are staring at Landing Fate at the moment.

A touch of warfare appeared on Stevenson’s face, he grinned, and murmured a little excitedly:

‘I was thinking about waiting for this guy to break through to Zhan Zun before playing with him. Now it seems that he has to fight right away. When he breaks through Zhan Zun, then I just surrender.’

Bakula glanced at Stevenson, then at Lu Yuan, hummed softly, and murmured:

‘It does have some strength...’

Lu Yuan saw that the atmosphere was a little silent, his face was a little weird, and then he looked at Meng Jiang:

‘Commander, I should have won this, right?’

Everyone came back to their senses.

Duanshan took a deep look at Lu Yuan, and said coldly:

‘This time, we surrender. Fibba, come down.’

Fibba walked off the ring in a bit of despair, and the whole person seemed to have lost his soul.

Seeing Feiba’s appearance, Duanshan frowned slightly, knowing that this was a shadow of Lu Yuan.

Being almost killed by the same person twice in a row is probably unacceptable for the proud Fibba.

If this shadow is not eliminated, Fibba may not be able to achieve great results in the future.

Even if this continues, even the Emperor of War may not be able to break through in the future.

He took a deep look at Lu Yuan on the ring, and didn’t say much.

He spoke lightly:

‘Zhi Liang, come on.’

A kobold with yellow and white cross-hairs nodded and glanced at Lu Yuan, a solemn look appeared on his face:

‘good.’

Zhi Liang stepped onto the ring and stood in front of Lu Yuan.

Lu Yuan looked at Zhi Liang, who was one of the three hidden kobold geniuses before.

Wearing a purple robe and holding a staff in his hand, his breath was slightly released, a bit tyrannical and powerful.

Lu Yuan narrowed his eyes slightly, it was Zhan Zun.

Sure enough, among these three hidden guys, there is a war veteran.

Lu Yuan was not surprised, he had already guessed before.

Zhi Liang showed an icy color. Looking at Lu Yuan, there were wisps of thunder surging in his hand, and the power of violent thunder continued to spill out.

‘Human, your name is Lu Yuan, isn’t it? The talent is good, but it’s just a warrior.’

Zhi Liang’s face was cold, and he slowly spoke.

Lu Yuan smiled: ‘Look down on the warlord? Didn’t you come from the warlord too?’

A wisp of white aura emerged from his body.

White jade spirit body.

Suddenly, Lu Yuan’s breath rose to the next level.

Zhi Liang’s face changed slightly, silently forming a cloud of thunder shields outside his body.

Meng Jiang glanced at the ring, then faintly said:

‘Start.’

As soon as Meng Jiang’s words fell, Lu Yuan had disappeared in place and appeared in front of Zhi Liang.

The speed is even faster than before.

However, Zhi Liang, as a warlord who burned the king-level gene, had a much faster reaction speed than Fibba, who was only a warlord.

He saw Lu Yuan’s movements clearly and reacted.

With a wave of the staff, a bolt of thunder with a thick arm shot out and directed towards Lu Yuan.

Lu Yuan’s eyes were cold and stern, as he stubbornly resisted the thunder attack, his epee continued to slash towards Zhi Liang.

What? !

Not defensive? !

Zhi Liang’s pupils shrank, a little startled.

boom!

Thunder blasted Lu Yuan's body, and Lu Yuan's epee also slashed on the Thunder shield.

The thunder shield exploded and finally turned into thunder and dissipated, and the epee continued to slash towards Zhi Liang.

And the thunder that fell on Lu Yuan was just a piece of green smoke, and Lu Yuan looked unscathed.

Seeing this, Zhi Liang didn't even think about it, his body turned into a ball of thunder, disappeared in place, and moved a certain distance back.

He looked at Lu Yuan, his scalp was a little numb, and cold sweat came out from his back.

After confirming that Lu Yuan was not injured, his face was extremely condensed.

What is the defensive ability of this guy? !

Although Lightning Strike is only a leader-level combat technique, he is a warlord after all, with all attributes surpassing the warlord, and his power is stronger than the warlord using the lord's combat skills.

But this guy didn't even get hurt? !

Looks completely okay? !

Just when Zhi Liang was a little shocked, Lu Yuan rushed over again.

Zhi Liang's face condensed, and then a series of thunderballs appeared, and the sizzling thunderballs turned into beams of lightning and shot towards Lu Yuan.

Lu Yuan felt the terrifying power contained in the thunderball, and did not dare to continue to attack by the thunderball.

His figure flickered, avoided the thunderball, and continued to rush towards Zhi Liang.

Lu Yuan's current speed is not too slow anymore, even fast.

However, he did not use space teleportation.

Later, there will be team battles. Lu Yuan intends to use space to send a little surprise to the kobolds.

Zhi Liang avoided Lu Yuan's attack, and when Lu Yuan approached, he turned into a thunder and moved backward.

The two attacked each other and dodged each other, their bodies constantly flashing on the ring, which was covered with flashes of thunder and violent winds.

No matter whether it is a kobold or a human, they watched the battle on the arena with shocked expressions on their faces.

Rebecca had just grabbed Lu Yuan's arm, but now it has changed to grab Si Tingxue's arm.

Si Tingxue has completely recovered at this moment, his face has returned to ruddy, and his breath is also very stable.

Rebecca's eyes were shocked:

'Xiaoxue, A Yuan is so powerful! The opponent is the Battle Venerable, and he is a genius in the Battle Venerable. The genius who has recorded the King's genes, A Yuan can actually fight him back and forth.'

Si Tingxue looked at the ring and said lightly:

'I saw... he is indeed getting stronger...'

Seeing that Lu Yuan's strength continued to grow stronger, even surpassing her, her heart was full of urgency, and she couldn't help clenching her fists.

'Xiaoxue, do you think A Yuan can win?'

Si Tingxue thought for a while, then looked at Si Tingyu next to him, with some expectations:

'Sister, what do you think?'

Si Tingyu watched the battle on the ring, UU reading www.uukanshu.com's golden red eyes hide Lu Yuan's figure, she fell silent, and said seriously and firmly:

'Can win.'

Si Tingxue nodded slightly: 'I feel so too.'

Rebecca let out a sigh of relief when both Si Tingyu and Si Tingxue said that Lu Yuan could win.

Other people on the side, watching the battle at the moment, are also whispering, watching Lu Yuan's eyes are full of shock.

Stevenson clenched his fists with both hands, his eyes were full of warfare, and he kept muttering to himself:

‘So strong, Lu Yuan is really strong...‘

Bakula glanced at Stevenson, who was so excited, and shook his head. The fighting mad was hopeless.

Willie and his father Hart Kenn were also watching the fight. Hart looked at Lu Yuan on the ring, and couldn't help but hammer Willie's head. Willie held his forehead and looked at Ha blankly. special.

Hart hated iron and steel:

‘Look at people Lu Yuan, and then you! People are still your junior, why can't you fight against Zhan Zun?’

Willie: ‘???’

His mind was full of question marks, and he was very aggrieved. He couldn't help but retort in a low voice:

‘No, Lu Yuan's junior is a monster. I'm a normal person. Can a normal person compare to a monster?! Is this comparable?? You still said that I can't fight against Zhan Zun. When you were a general, Can you fight against the warlord who has burned the king's genes?’

Hart was taken aback for a moment, and then smiled:

‘It is said that my son is better than Lao Tzu. Why are you not as good as Lao Tzu? You still have the face to say here? Go back and wait for Lao Tzu!’

Willie: ‘...‘

He looked at the smile on Hart's face, his heart felt cold, and he began to consider the possibility of running away from home without being noticed.

I can't live this day!
