

Chapter 210: My Genes Evolve Infinitely

LU YUAN IS PRESTIGIOUS AND UNDERSTANDS PEOPLE'S HEARTS

After , Li Xinghai went to contact the other war emperors.

And Mengjiang asked Lu Yuan, Si Tingxue, Wang Lingling, Stevenson and Bakula to get to know each other, so that they could cooperate later.

Lu Yuan, Si Tingxue and Wang Lingling have already fought, Stevenson and Bakula are naturally familiar with the three of them.

But because Stevenson and Bakura didn't get the chance to play in the end, Lu Yuan was not very familiar with the two.

But after the introduction of the two of them, Lu Yuan also had a general understanding.

Stevenson is an assault warrior, and Bakura is an assassination warrior.

There are five people, Lu Yuan is a guardian system, Si Tingxue and Wang Lingling are both elemental systems, plus a strong attack system and an assassination system.

If you look at the lineup alone, they are also good here.

But because they don't know each other, the degree of understanding between them is still open to question.

.....

One day passed in a hurry.

Early the next morning, Lu Yuan and his party had a fighter opportunity.

Lu Yuan didn't see the other war emperors that Li Xinghai said, so he was a little puzzled, but since Li Xinghai didn't say much, he naturally wouldn't ask more.

On the kobold fighter plane opposite , a group of kobolds also came over.

The two sides looked at each other, and the atmosphere was condensed.

Several of the geniuses were looking straight at Lu Yuan at this moment, and the killing intent in their eyes was not concealed.

Lu Yuan only took a look and then withdrew his gaze, not caring about the killing intent in their eyes.

Duanshan opened his mouth coldly:

‘Can you start now?’

Mengjiang smiled: ‘Then let’s start.’

Then Broshan took out a gray stone, his spiritual power poured into the stone, and then threw the stone on the ground.

Soon, the space around the stone twisted.

Lu Yuan, who has spatial genes, can clearly perceive that there is a huge space unfolding inside this stone.

As the space unfolded, a twisted space door gradually formed above the gray stone.

In the end, the space door floats in the air like a gray whirlpool.

For this gray stone, Lu Yuan had heard Li Xinghai explain it before.

The Stone of the World, as the name suggests, this stone has a small world inside and is an extremely precious treasure.

is also the battlefield of this team battle.

While the World Stone opened, Li Xinghai and Adams looked at each other. The two of them checked the World Stone and the small world inside, and confirmed that there was no problem.

The powerhouses of both sides put a seal on the war pattern space of the genius fighters participating in the group battle, making sure that they cannot take things out of the war

pattern space, and then ensuring that the other side will not bring any special items on their bodies.

After , both parties checked again to make sure there were no problems.

It's no wonder that the strong on both sides are so cautious.

Participating in this team battle are the strongest geniuses of humans and kobolds. If there is an accident, the loss will be great.

After careful inspection several times and confirming that there is no problem, the two sides stopped.

Mengjiang lightly said:

‘Is it all right?’

Duanshan sneered: ‘Go in.’

He glanced at several kobolds in the competition and motioned.

A few kobolds entered the entrance of the small world.

At the same time, Meng Jiang also looked at Lu Yuan and said:

‘Safety first, go.’

Lu Yuan nodded and walked into the small world.

Entering the small world, Lu Yuan discovered that it was a very small world with a radius of more than ten kilometers, and the gray-white rocky land inside it spread to the end of the small world.

At the end of the small world is a glass-like space that cannot be passed through.

The five kobolds who came in before are already hundreds of meters away.

These five kobolds are Blood Kuangya, Shuiji, Zhiliang, Wenlin and another hidden genius who has not been on stage before.

The other four people have already been on stage for yesterday's ring battle, and the only thing they are not familiar with is the hidden genius.

The hidden genius is a genetic warrior with pale blue skin and leather armor.

While the five people of Lu Yuan looked at each other's five geniuses, the people of Xue Kuangya also looked at the people of Lu Yuan.

Their eyes were mainly on Lu Yuan's body, with killing intent in their eyes.

Feeling their killing intent, Stevenson grinned and said:

'These people only have Lu Yuan in their eyes. We seem to have been ignored. This is really uncomfortable.'

Lu Yuan smiled:

'That's not better, I attract their attention, isn't there a greater chance of winning?'

Bakula glanced at Lu Yuan. Although his expression was still stinky, he was not as hostile to Lu Yuan as before.

'Didn't you say you want to kill them? How to do it?'

Lu Yuan narrowed his eyes, looked at the five kobolds opposite, then smiled:

'Although there is a chance, we only have a short period of time. If there is an accident, the strong outside the small world may come in as soon as possible. I have to find a suitable time. In addition, I also have to know who is best to kill. '

Lu Yuan's goal was the geniuses of the two elemental systems, Zhiliang and Shuiji. After all, if he was caught off guard to use the space teleportation, coupled with the full explosion, there was a high chance that they would be killed.

but.....

Lu Yuan glanced at the kobold hiding genius, smiled and said:

'Let's take a look at the kobold who didn't enter the ring before, so that he can avoid accidents.'

If that hidden kobold genius has a very strong protection ability, then Lu Yuan may not be able to kill the opponent.

There is a gentle smile on Wang Lingling's face:

‘Then let's hit normally.’

Everyone nodded.

Lu Yuan's whole body of white jade spirit turned around, and a ray of silver- white streamer flashing on Stevenson's body, Bakula disappeared in place, hiding himself.

Wang Lingling directly cloned into four and dispersed. Si Tingxue Qiao's face was cold, and there were wisps of ice mist spreading around her body.

When Lu Yuan and the others were still using their combat skills, the opponents were obviously ready, their spiritual power surged, and their combat skills began to operate.

Bloody flames flowed around the blood mad tooth, Shui Ji summoned the frost giant, Wenlin flashed golden light, the golden battle armor appeared on the surface of the body, and the golden light shield spread to the surroundings, enclosing him. .

And the hidden genius did not move at all at this moment.

Several people in Lu Yuan saw this scene and they all noticed in their hearts.

Then, Xue Kuangfang roared, and together with Wen Lin, rushed towards Lu Yuan and several people, while Shuiji and Zhiliang began to condense elemental combat attacks.

When the two sides approached, Wang Lingling used that flash combat technique. The blood and mad teeth all understood Wang Lingling's combat skills. The moment they saw the flash, they closed their eyes for the first time, and there was still something in a short period of time. It's dazzling, but it's much better than not seeing it for a while.

At this moment, various combat skills such as thunder ball, ice spear, and ice edge also shot at the opponent.

For a time, within the entire small world, spiritual power surged, and the roar continued to sound.

Outside the small world, humans and kobolds are standing in front of the space of the small world at this moment.

The gray stone flashed with gray light, and a light curtain was projected on the space door.

Inside the light curtain, there is a scene where the two sides are fighting.

As soon as the battle started, the battlefield was extremely fierce.

On the surface, the kobold have a slight advantage, but the advantage is not big.

At this moment, the kobold hidden genius who had not moved has suddenly flashed a faint blue light in his eyes.

He has been holding a strange blue huge stone pillar in his hand, and strange symbols are engraved on the stone pillar.

He closed his eyes and prayed, and the starlight merged into the bodies of the four kobolds.

There was a little bit of starlight flashing all over their bodies, their breaths skyrocketed, and a dark blue shield appeared all over their bodies.

was originally surrounded by golden light spots, was constantly disturbed by flashing combat skills, and was used by Lu Yuan to use ** sword shadows to continuously attack at long distances, and the blood crazily teeth that had become a little shackled saw this, showing a smirk.

‘I didn’t expect it? Our Kurum has a very strong king-level group augmentation combat skill!’

He roared, and blood-colored battle armor and blood patterns appeared all over his body. In the faint blue starlight, directly against various shields, while spinning the blood-colored storm, he rushed towards Landing Edge.

Not only him, but other kobolds, after being boosted, immediately turned their targets to Lu Yuan, Thunderball, and Frost Arrow, all attacking Lu Yuan.

Seeing this scene, Wang Lingling’s faces changed and they wanted to help Lu Yuan.

And Wenlin roared, the golden shield suddenly expanded, as if turned into a wall, separating Lu Yuan from the others, preventing them from helping Lu Yuan.

At the same time, a cold color appeared on Kurum's face.

A ray of black light emerged from the stone pillar in his hand, which fell from the sky and landed on Lu Yuan's body.

Lu Yuan felt his body sink, and all aspects of strength dropped by about 20%.

Lu Yuan glanced at the kobold hiding genius with a bit of astonishment. Is this guy so strong in combat skills?

This guy is either a natural lord like Si Tingxue, or even a natural king.

Lu Yuan's first goal has changed. He plans to kill the kobold to hide his genius.

While outside the small world, looking at the image on the light curtain, seeing that Lu Yuan was besieged and weakened again, Li Xinghai's faces changed slightly.

They some want to give up.

At this moment, the people in Duanshan sneered, and if you could not stop in front of the space door.

Duanshan opened his mouth lightly: 'We haven't decided the winner yet, don't you need to be so anxious?'

Seeing this scene, Li Xinghai frowned, and looked at the people in Duanshan somewhat coldly.

Just then, the picture on the light curtain changed.

on the light curtain.

When the Thunderball, Frostbolt, Axe and other attacks were about to approach Lu Yuan, Lu Yuan's body suddenly disappeared, and he appeared behind Kurum hundreds of meters away almost instantly.

Lu Yuan's eyes were cold.

Black steel strength, white jade spirit body, warrior coat of arms, dark harvest, ** storm.

Various combat skills, physical skills, and combat skills attached to genetic weapons can be used together.

An aura of horror escaped from Lu Yuan's body.

His epee slashed towards Kurum with the shocking white sword light containing black mist.

As Lu Yuan's heavy sword slashed towards Kurum, the twelve ** sword shadows also launched an attack.

Just a sword light flashed, and Kurum's body froze in place.

Then twelve sword shadows flashed, and at the same time they passed through Kurum's body.

Kurum's body was spouting blood, and there was still a trace of puzzled expression in his eyes. He didn't seem to understand how Lu Yuan suddenly appeared directly in front of him from a few hundred meters away.

Finally, with this question, he fell into death.

The dead body fell heavily to the ground.

The human geniuses who were originally worried were all taken aback, their eyes widened, especially Rebecca, almost jumping up:

'Wow! A Yuan still has such combat skills?! Great!'

Si listened to Yu's golden red eyes flashing a hint of surprise, staring at the light curtain, and clenched his fists.

The others also held their breath.

And the kobold genius who was looking at the light curtain changed his face drastically at this moment, and looked at the light curtain in disbelief:

Heiming exclaimed: 'What kind of combat technique is this?!'

Fibba was a little shocked: ‘Space System Combat Skills ??? Kurum! That’s awful!’

When the people in Duanshan heard this, their faces sank, and they felt a little uncomfortable in their hearts.

They stopped paying attention to Li Xinghai and several people quickly, but looked up at the light curtain.

Li Xinghai also stopped paying attention to the people in Duanshan, and also looked up at the light curtain.

Whether it was Duanshan or Li Xinghai, they just saw Lu Yuan kill Ku Lu, and Ku Lu’s body slowly fell to the ground.

Seeing this scene, the people in Duanshan stopped breathing and their eyes widened.

Duanshan roared angrily: ‘No! Kurum!’

The others also stared with eyes widened, their eyes full of anger and disbelief.

But they soon discovered that this is not the end.

Lu Yuan’s body had disappeared in place again, and he appeared behind Shuiji.

When Shui Ji saw Kulu’s death, his body’s chills stood up and his scalp became numb.

Feeling the terrifying aura behind him, a look of horror flashed in Shui Ji’s eyes. Lu Yuan’s current aura was much stronger than when he competed with him in the ring yesterday.

Such a powerful breath made Shui Ji feel a little desperate.

He was unwilling to roar, and wanted the frost giant on the side to attack Lu Yuan. At the same time, he turned around and wanted to spray a white cold current on Lu Yuan.

However, Lu Yuan, under his full strength, was much faster than Shui Ji, a sword light flashed, Shui Ji’s eyes were full of panic, and his consciousness plunged into darkness.

The frost giant who had not yet attacked Lu Yuan roared into ice mist and dissipated after Shuiji died.

Not far from the side, Zhi Liang saw that two of his companions were killed so easily, his whole mind exploded.

His eyes were full of horror, and his body turned into thunder for the first time and disappeared in place.

At the moment Zhi Liang disappeared in place, Lu Yuan appeared where Zhi Liang was before. He glanced at Lei Guang, frowned, and his body disappeared in place again.

Hundred meters away, the light of thunder condensed, and before Zhi Liang could breathe a sigh of relief, a sword light flashed by, his body froze, blood gushing out.

With fear and unwillingness in his eyes, he whispered:

‘So fast.....‘

With Lu Yuan’s ability to perceive, it’s too easy to determine where Zhi Liang moved using Thunder Light, and the space teleportation is faster than Thunder Light. As soon as Zhi Liang appeared, Lu Yuan appeared with him, and then gave him a sword, directly Just kill him, very easy.

From the killing of Kurum to the killing of Zhi Liang, all this happened in just a second or two.

Outside the small world, the moment Lu Yuan killed Shuiji, the people in Duanshan reacted.

They wanted to enter the space door, but Li Xinghai intentionally or unintentionally blocked the space door.

Mengjiang lightly said:

‘The outcome has not been determined yet, there is no need to rush in, right?’

Duanshan’s face was grim, and he gritted his teeth and said: ‘We give up! Get out of the way!’

Mengjiang smiled and entered the small world first.

And several people from Duanshan quickly followed in.

When they entered the small world, Lu Yuan had already appeared where Wenlin was at the moment. Wenlin fell into a pool of blood, leaving only the last ** teeth and the whole person tense, looking at Lu Yuan with horror. , The whole body's spiritual power surged wildly, and he was extremely vigilant.

When seeing that only Blood Kuangya survived among the five geniuses, the eyes of the people in Duanshan were red.

They looked at Lu Yuan, their eyes were full of cold killing intent, and their whole body was surging:

‘Damn human!! You are looking for death!’

Needam growled.

At this moment, Li Xinghai and Adams aura surged and stood in front of them.

A stern look appeared on Li Xinghai's face, and he smiled slightly, with deep wrinkles:

‘If you want to fight, come, let's fight.’

On the side of , there are wisps of purple vines sticking out of Adams's body, smiling at the broken mountain that is also full of murderous intent.

When the two kobolds saw Li Xinghai and Adams standing in front of them, a hideous color appeared on their faces, and their breath surged.

After being silent, Duoshan took a deep breath and looked at Li Xinghai and Adams coldly.

‘Very good! You are good! I remembered it.’

Nidamu beside also fell silent, took a deep look at Li Xinghai, and then at Lu Yuan.

Lu Yuan stopped when a few people from Duanshan appeared.

He curled his lips, a little disappointed in his heart.

knew that he didn't have much time for a long time, so he didn't even stop, killing one and hurried to the other, it was more anxious than rushing to the field.

I didn't expect them to come in in just two or three seconds.

Lu Yuan originally wanted to try if he could kill the blood mad tooth as well.

But, after all, he was a senior genius of the warlord, and he was not a weak elemental element. If Lu Yuan was given enough time and there were spirit crystals, Lu Yuan would have the confidence to slowly kill him.

But in this environment, Lu Yuan didn't have much confidence.

Thinking of this, Lu Yuan was relieved and killed four, almost.

Kobold must be very distressed, right?

Especially one of the guys may be a natural king, and the burned genes are still very rare group augmentation combat skills.

Lu Yuan couldn't help but laugh.

If you don't die, who made them think about dealing with him in the first place?

And after seeing a few people from Broken Mountain come in, Xue Kuangya's tight body finally relaxed slightly.

He breathed a sigh of relief. After Lu Yuan killed his four companions before, the strange spatial movement ability put him under great pressure.

He didn't even have too much confidence to get out of his body.

After a few people from Duanshan took a deep look at Lu Yuan and Li Xinghai, they went to collect the bodies of the four dead kobold geniuses.

And Li Xinghai beckoned to Lu Yuan with a smile:

'Go, let's go out first.'

Lu Yuan and a few people from Si Tingxue who were still in a trance walked over, and everyone went out together.

Just out of the small world, cheers came from the human camp:

‘Lu Yuan! Lu Yuan!’

‘Lu Yuan Xuedi is awesome!’

‘Hahaha, let those puppies be arrogant, I am a human genius, teach them how to be human!’

Whether it is a young genius or an emperor-level powerhouse, his face is full of smiles at this moment.

Si Tingxue, who was still a little bewildered, was infected and smiled.

Si Tingxue raised her head to look at Lu Yuan, a reddish tinge appeared on her cold pretty face, she seemed a little excited, she was a little awkward and praised:

‘You are really good this time!’

After speaking, she looked away.

On the side of , Wang Lingling’s eyes flickered, with a gentle smile on her face, the surprise in her eyes had not completely disappeared, she smiled and said:

‘A Yuan, I didn’t expect you to have such a powerful space system combat skills. It really scared me. If you let the lady know that your strength is so strong, would you say she would cry?’

Seeing the eagerness in Wang Lingling’s eyes, Lu Yuan’s face went dark, and he silently mourned Amy for a few seconds.

Stevenson looked at Lu Yuan and let out a dry cough:

‘Oh...what, Lu Yuan, our engagement, cancel it.’

Lu Yuan was taken aback, glanced at Stevenson, and smiled: ‘It would be nice to have the opportunity to learn from each other.’

‘No, no, no...I’m just going to find someone at my level to compete, don’t you think? Bakura?’

Bakura: ‘???’

His face was cold and he glared at Stevenson:

‘It’s not my business?!’

Then he looked at Lu Yuan, his face changed, then his face stiffened and said:

‘You are really good.’

Lu Yuan smiled modestly: ‘It’s okay. It’s mainly because I work hard enough. If you work hard, you can reach my level.’

The coldness on Baku’s face suddenly collapsed, rolled his eyes at Lu Yuan, and didn’t want to speak.

Compared with the joy of humans, the atmosphere in the kobold camp is deadly.

Feiba looked at Lu Yuan, a faint flash of horror in his eyes.

The other young kobold geniuses were also silent. The eyes of Lu Yuan flickered, and he dared not look at Lu Yuan.

And the kobold war emperor-level powerhouse, at this moment, his face is gloomy, watching the cheering human camp, his spiritual power fluctuates, and it seems that he may make a move at any time.

Soon, Duanshan and Needham walked out with ** teeth.

At this moment, Xue Kuangfang was very silent, glanced at the cheering human, the corners of his mouth twitched, and an angry and helpless color flashed in his eyes.

Broken Mountain and Needham looked at the human direction coldly, killing intent surging in their eyes.

Broken Mountain cast a wink at Xue Kuangfang, making him retreat, and at the same time, and Nidamm’s spiritual power surged.

The spirit pressure of the two stopped the cheering in the human camp. The young geniuses felt a little dull in their chests, their faces were a little pale, and they looked at the two kobolds in horror.

Seeing this, Li Xinghai and Adams also surged in spiritual power, blocking the pressure of Broken Mountain and Needham.

Li Xinghai looked indifferent: 'What? Broken Mountain, want a fight?'

Duanshan sneered and said:

'Do you think that only the two of us will come this time?! Are you still not coming out? Do you want to watch this human arrogant go?'

The next moment, two powerful auras flew out from the mountains not far away, and the two kobolds quickly approached and floated in the air.

The auras of the two of them are also at the war emperor rank, looking at the human camp below with indifference.

especially looked at Lu Yuan.

Although there is a distance, with the vision of the Emperor Zhan, as long as there is no interference, you can clearly see it even hundreds of kilometers away, and naturally see everything that happened in the small world before.

The two were also secretly shocked by Lu Yuan's performance, and their hearts were full of murderous intent.

Four kobold war emperors were present, and Duanshan's face showed a cold murderous intent, and said lightly:

'Li Xinghai, do you think you can keep this human?! Hand him over and I can let go of your other geniuses.'

Although there are four war emperors in the presence of kobolds, at the level of war emperors, various methods are emerging in an endless stream, even if it is four against two, they have no confidence to leave two war emperors.

However, even if the war emperor cannot be retained, other human geniuses can be retained.

Li Xinghai snorted when he heard the words, and said:

‘Duanshan, we have had a lot of dealings anyway, how could I forget the cunning of your ** kobolds? I really think I’m not prepared?’

Saying this, two powerful auras approached from far away, and instantly appeared in the air on the human side.

Lu Yuan raised his head and glanced. They were a white-haired old man and a red-haired strong man. They were both people Lu Yuan didn’t know. However, these two were obviously war emperors.

‘Siqi, Pattonyas? I didn’t expect you two to come too!’

Seeing the two newly emerged human war emperors, Duanshan and other four kobolds, their expressions changed.

Siqi has white hair floating in the air. He is the ancestor of the Si family. He established the Red Maple Empire in his early years. After reaching a certain level of strength, he no longer cares about the affairs of the empire and concentrates on his cultivation.

Now he has stayed in Zhandi for more than one hundred thousand years, and his accumulation is extremely terrifying.

Although he has not been able to break the next genetic lock yet, with his combat power and various items accumulated, his strength is definitely at the top of the battle emperor level.

He looked at the people in Duanshan coldly, with a trace of imperial aura on his face:

‘Do you want to fight?’

The complexion of several people in Duanshan changed, and then they gritted their teeth:

‘let’s go!’

The war emperor took the kobold genius to leave, and the four war emperor palace queens, to prevent the human war emperor from attacking, took their genius away by a wave.

After the Kobold genius got on the fighter plane, after leaving, they took a deep look at Li Xinghai and several people, then turned and left.

When they were about to leave, Meng Jiang suddenly said:

‘Since we won this competition, I hope you kobolds can abide by the betting contract of the competition. This ice vein star already belongs to our Red Maple Empire.’

The few people in Duanshan paused when they heard the words, then snorted coldly and turned to leave.

After Duanshan left, Li Xinghai showed a smile.

‘Let’s go, go back.’

Everyone got on the fighter plane, and the fighter plane took off and flew towards the defensive camp.

Siqi and Patton Yas also got on the fighter plane.

Si Tingxue and Si Tingyu respectfully said to Si Qi:

‘Ancestor.’

Siqi glanced over the two, a faint smile appeared on his face, and he said:

‘You two are very good, Xiao Chengye gave birth to two good daughters.’

Then he looked at Lu Yuan, with a hint of exclamation on his face, and smiled:

‘Your name is Lu Yuan?’

Lu Yuan smiled and nodded: ‘Yes, Senior Si.’

Siqi nodded and exclaimed:

‘Your strength surprised the old man. As a warrior, the old man did not have the strength of yours.’

‘Senior praised.’

Siqi shook his head: ‘The old man has always said that with your talent, it is a certain thing to become a war emperor in the future. Perhaps there is hope that you can become a war saint. This is a good thing for our Daqi. Qi Xing has not had a battle saint until now, and his status in the Baiyun Star Region is not as good as those of the top powers, and it is also an embarrassing position in the human community. If you can become a battle saint, our Da Qixing will also benefit.’

Li Xinghai sighed and nodded:

‘If our Daqixing possesses the saint of war, how can the blood-boned kobolds dare to jump in front of our Daqixing humans?’

Lu Yuan was a little stunned when he heard this. After all, it was still a matter of strength.

Lu Yuan suddenly remembered that Ye Ye’s ancestor seemed to be the saint of war?

So, the Ye Ye family should be considered the top group in the Baiyun Star Region, right?

He said seriously with a face:

‘The younger generation will try their best.’

‘Hahahaha! Yes, it’s really good.’ Siqi laughed, then paused, and pointed to Si Tingxue and Si Tingyu, ‘Would you like to join our Si family? Which one do you like? The old man promises you both. You like it. In the palace, the old man has also heard that you have a good relationship with Tingxue and Tingyu, should it be considered as a relationship basis?’

Lu Yuan: ‘???’

He looked at Siqi with a bewildered look.

Good fellow, why did it suddenly become like this?

Can’t one return two?

two.....

Lu Yuan glanced at the beautiful Si Tingyu and Si Tingxue, then looked away.

Damn, this temptation is too big!

Is this old man so understanding? !

But I, Lu, is a gentleman, and I will never be tempted by this kind of thing!

Mainly, this kind of betrothal, cough... It feels a little strange, a little disrespectful of my tutor and Tingxue.

Lu Yuan thought it was better to just let the flow go.

Si Tingxue and Si Tingyu beside were also stunned when they heard this.

Si Tingxue pursed her fuchsia lips, squeezed her fist, and stared at Lu Yuan~www.mtlnovel.com~ as if to blame Lu Yuan for the ancestor's fascination soup.

Lu Yuan said he was innocent.

Si Tingyu was even more at a loss.

Although there are many people who like her and many people pursue her, she has always been indifferent, and Lu Yuan is her student and the god-brother of her good best friend. She naturally knows that Li Qinghe seems to have different feelings for Lu Yuan.

She had never thought about Lu Yuan in that way. Now that she heard Siqu's words, Si Tingyu's mind was all of a sudden.

Wang Lingling on the side smiled and squinted at Lu Yuan, his eyes flashed, and there was a hint of light in his eyes, and he didn't know what he was thinking of writing.

Rebecca looked at Lu Yuan at the moment, then at Si Tingxue and Si Tingyu, playing with her fingers, not daring to say anything.

The eyes of other geniuses and male geniuses are green with envy. Female geniuses are also blinking at this moment, looking at Lu Yuanyuan, they are very colorful.

At this moment, Li Xinghai smiled and said:

‘Old Si, this can’t be done. The relationship between Qinghe and A Yuan in my family is much closer than the two of yours. If A Yuan wants to join, he will also join our Li family.’

‘Oh ? Old man Li, isn’t it ?’

Siqi narrowed his eyes and looked at Li Xinghai.

The two looked at each other, their breath surged, and Lu Yuan always felt a little dangerous.
