

Chapter 218:[My Genes Evolve Infinitely](#)

NINETY-EIGHT LEGENDS WHO HAVE NOT MOVED

Hot recommendation:

When Lu Yuan returned to the dormitory, McGonagall and Yang Ping had already returned early.

McGonagall's expression was still a bit sad. After Lu Yuan asked, McGonagall told him that his ancestor had passed away on the second day of the harvest day.

‘But his old man is dead, and he is considered fulfilled.’

McGonagall smiled, then changed the subject and asked how Lu Yuan and Yang Ping had been during this time.

After hearing that Si Tingfeng was even engaged, McGonagall yelled for Si Tingfeng to treat him, but regretted not being able to attend Si Tingfeng's engagement banquet.

In fact, Lu Yuan was a bit like reminding his subordinates to listen to the wind and to make him pay attention to his fiancée.

But Lu Yuan didn't understand the meaning of Evolution Cube's shock. If it wasn't alienation, wouldn't it be destroying the relationship between the two?

Moreover, he couldn't explain why he felt that Tong Menghan had a problem.

After thinking about it, Lu Yuan still didn't say anything.

Not long after, Si Tingfeng also returned.

There was a smile on his face, and he looked high-spirited.

Obviously getting engaged is a very happy thing for him.

After being coaxed by McGonagall to entertain the guests, the four of them went out for a meal, and when they returned to the genius camp, it was already night.

Lu Yuan returned to the dormitory, entered the place of origin, and continued his practice.

After the King of Machinery gene was tempered to completion, Lu Yuan began to temper the Space Gate gene.

As the imperial gene of the space system, it is one of the most powerful imperial-level transcendent genes. If you

want to refine it completely, you need the most spirit crystals.

Lu Yuan estimated that it would need about four million Tier 6 spirit crystals, which is a little more than ten times more than the space transmission genes that were still king-level at that time.

Because Lu Yuan had refined a part of it before, it now takes about 3.6 million Tier 6 spirit crystals to refine the gate of space to completion.

After Lu Yuan perfected the King of Machinery gene, the time that Lu Yuan could stay in the place of origin became 60 days. It had reached the limit of stay and no longer increased.

At Lu Yuan's current cultivation speed, during the 60-day origin time, Lu Yuan can absorb about 280,000 Tier 6 spirit crystals. If you want to absorb 3.6 million Tier 6 spirit crystals, you need to enter the land of origin. Three times, it takes almost four months in the real world.

This tempering difficulty is still somewhat high.

This is because Lu Yuan's own spiritual energy is absorbed fast. If it were other geniuses, maybe it could be

increased by tens or even hundreds of times, it would take many years.

Lu Yuan continued to practice with peace of mind.

After more than four months, he tempered the door of space to completion.

Up to now, Lu Yuan has four imperial genes that have been tempered to perfection, and one imperial gene that has not yet begun to temper, Sacred Light.

Lu Yuan is now a super arrogant who has burned five emperor-level genes and has just broken through to the level of war-sage.

Of course, this is not the case of Lu Yuan's imperial genetic weapon.

Lu Yuan's current weapon has been replaced by a Tier 4 imperial-level Sky Breaking Epee and has evolved to an emperor-level.

The Skybreak Epee mainly improves strength and agility, and secondly improves physical defense, without improving spirit, the increase is very large.

Even if Lu Yuan now possesses four fully tempered imperial genes and one untempered imperial gene, the

emperor-level Sky Breaking Epee still increases Lu Yuan's strength by nearly 30%, and his agility by more than 30%. The physique has improved by about 20%.

The only flaw in the beauty is that this epee has no special combat skills, and all the improvements are based on the increase in various basic strengths.

Lu Yuan tried to continue to evolve the Sky Breaking Epee, and he wanted to evolve this epee to a higher level, but unfortunately he did not succeed.

The same situation as the previous evolution of Scarlet Storm Epee.

Lu Yuan felt even more that the Evolution Cube had not yet undergone the next step of transformation.

Thinking of the next evolution of the Evolution Cube, Lu Yuan suddenly thought of the connection between him and the Evolution Cube when his consciousness was looking down at the place of origin when he had contacted the stele of Tianjiao Bang in Baiyun City.

Lu Yuan instinctively felt that those connections might have something to do with the Evolution Cube.

Perhaps, in addition to the unknown breath of alienation, this is another way to transform the evolutionary cube.

Lu Yuan remembered all those locations.

He plans to wait for his cultivation to become stronger, and then go to those places to see the situation.

Of course, he would definitely not go to the foggy forest.

Even with his current strength, it would be a dead end if he encountered a mirage dragon.

He intends to see elsewhere.

This would have to wait for Lu Yuan to digest all the treasures in the El Mechanical Ruins.

After completing the space gate to perfection, Lu Yuan stopped practicing.

He intends to start soaring the list of arrogances.

Thinking of making the list, Lu Yuan took out the communication crystal and contacted Ye Ye.

During this period of time, Ye Ye's cultivation base has reached the peak of Zun Zun, and he has begun to hit the Tianjiao list with all his strength.

Soon, Ye Ye's pretty face appeared on the communication crystal.

‘A Yuan?’

Lu Yuan grinned: ‘Are you going to the Tianjiao ranking? I plan to make it to the ranking.’

Hearing this, Ye Ye’s eyes brightened and nodded: ‘Go! Are you finally about to start the rankings? With your strength, there is hope that you will be the first.’

Ye Ye’s current ranking has reached the 22nd place. When her cultivation base reaches the consummation of the Zhan Zun, there should be hope to be in the top ten.

Just like this, based on the combat experience that she had exchanged with Lu Yuan several times, she could be sure that Lu Yuan’s combat power was at least the top three in the Tianjiao list.

There is even hope to hit the first.

Lu Yuan smiled and said, ‘Then we will meet in the teleportation hall of Baiyun City, and I will come over immediately.’

‘Um.’

.....

Baiyun City, outside the teleportation hall.

As soon as Lu Yuan walked out, he saw two beautiful cat people in black and white on the side of the road not far away.

After seeing Ye Ye, the passing genetic warriors couldn't help but look back at her, and then whispered to their companions.

Lu Yuan could barely hear a sound.

‘That... is Princess Ye Ye?’

‘It seems to be the 22nd princess on the Tianjiao list.’

‘...’

Because of Ye Ye's crazy rushing to the list during this time, he now rushes to the 22nd place, and there are many more people who know Ye Ye than before.

Almost all the genetic warriors in Baiyun City now know her.

Some of the geniuses even regarded Ye Ye as a goal.

Even Rebecca sometimes marvels at the power of Ye Ye.

After knowing that Lu Yuan and Ye Ye knew each other, Rebecca still wanted to ask Lu Yuan to give her Ye Ye's autograph.

Moreover, her cultivation has also worked harder than before. According to her, she also wants to hit the Tianjiao ranking.

Lu Yuan vaguely understood what the ancestor Ye Ye meant by the leader.

The motivating effect of a powerful genius is indeed still there.

Is this the role of an idol?

Lu Yuan wondered if he could find a chance to bring Ye Ye to meet Rebecca?

Rebecca should be very happy.

Of course, it is best to let Rebecca prepare something delicious for Ye Ye, and Ye Ye will be very happy.

As Lu Yuan thought, he walked towards Yeye and Xiaobai.

When the two saw Lu Yuan, Xiao Bai still looked rigorous and respectful:

‘Master Lu Yuan.’

Looking at Lu Yuan every night, there was a look of expectation in his black eyes.

Lu Yuan took out a few food containers:

‘Here are some of the specialties of the Red Maple Empire, you can taste them then.’

Every night nodded, put things away.

Later, she summoned Ye Tian Mandrill.

As soon as Ye Tian Mandrill appeared, he looked at Lu Yuan, a bit frowned upon.

It’s this male human again!

Ride by this male human several times!

However, with Ye Ye’s comfort, Ye Tian Mandrill was soon refreshed, and then Lu Yuan rode on it again.

The three of them soared into the sky on Ye Tian Mandrill and flew towards the central square area.

.....

In the central square, Ye Ye’s iconic Ye Tian Mandrill landed, and immediately attracted the attention of all the forces on the square.

Everyone looked at each other, a little surprised.

‘It’s Princess Ye Ye? Does she have a challenge today?’

‘No, the next challenge for Princess Yeye should be the day after tomorrow. The opponent is the little prince Meredith of the Carlo Empire. Why is she here now?’

‘Huh? Isn’t the 98th Lu Yuan next to Princess Yeye?’

At this time, Lu Yuan got down from Ye Tian Mandrill’s generous back, and someone saw him.

‘It seems that it is really him? He is here too? It has been a long time since he challenged Bai Lin last time, right? How long has it been?’

‘Yeah, now Bai Lin is ranked 34th. Does this human genius finally remember to challenge?’

After seeing Lu Yuan, the eyes of these various forces were very excited.

Because as early as when Lu Yuan challenged Bai Lin for the first time, his strength was already quite amazing.

Many of them concluded that Lu Yuan was able to enter the top 30 at that time.

But what puzzled all of them was that after that challenge, Lu Yuan seemed to lose his interest and never challenged him again.

At the beginning, there was a genius who planned to challenge Lu Yuan after completing the qualification challenge, and he would show up at that time.

But after being challenged several times by Lu Yuan's spike, everyone in the small circle of geniuses knew that the 98th human seemed a bit uncomfortable, and over time, even the challenger disappeared.

Lu Yuan's position in the 98th place is steady and unmoving.

Even so, Lu Yuan's previous stunning performance still left a profound impact on the eyeliner of these big forces, so that as soon as Lu Yuan appeared, they thought of him.

Everyone has some expectations, expecting Lu Yuan to continue to challenge.

Soon, under the gaze of a crowd of eyes, the three of Lu Yuan came to the stele of Tianjiao List.

Having had the first challenge experience, Lu Yuan is already familiar with it.

On the list of Tianjiao, each challenge can only challenge Tianjiao who is five places higher than himself.

Lu Yuan is now 98th, and he can challenge Tianjiao who is 93rd at most.

He directly chose 93.

It was an elf named Malz Lodge.

Lu Yuan used the stone stele to connect with the genetic war pattern. This time, Lu Yuan's consciousness did not appear above the land of origin, but directly contacted Marz Lodge.

Lu Yuan applied for a challenge.

.....

The place of origin, Menglin City.

In a forest tens of thousands of kilometers away from the city, Marz Lodge and his team are repairing.

They fell in front of a bonfire, handsome, Malz with long gray hair said:

‘It's about to reach the lair of the staghorn wolf. There is a war-senior grade staghorn wolf that is suspected to have the royal bloodline. If it can be killed, it may drop the royal transcendent gene!’

Hearing what Malz said, everyone looked forward to it.

‘Marz, don’t you lie to us, the bloodline of the emperor, the staghorn wolf has such a powerful bloodline?’

You know, the blood of the fierce beast is born, but unlike the gene warrior, it can burn other extraordinary genes.

The limit of the general fierce beast is the limit of the bloodline.

Staghorn wolf is a fierce beast, its own potential is not too high, it is quite outrageous to have a royal bloodline.

‘Of course it’s true! When did Marz Lodge fool you? My guard went to the staghorn wolf lair. At that time, there were more than two hundred warlords, six of which had the lord gene burned, one of them I didn’t survive the encounter and was killed directly. Even the fierce beast of the king-level blood can’t do this, right? I suspect that the blood of the staghorn wolf has returned to the ancestors.’

Hearing this, everyone’s eyes flickered and nodded.

Returning to the ancestors can be explained, just like the natural kings who inherited the genes of their ancestors among the genetic warriors.

At this moment, Malz Rocky had a sudden stop, and an ugly and somewhat fearful look appeared on his face.

These people are the arrogances of the Menglin Star Elf Clan, and this is the first time that they have seen Marz Rocky look like this.

You know, Marz Lodge is a genius on the list of Tianjiao, and here is also the strongest warlord. He actually showed a little fearful expression? How can it be?

An elf girl who admired Malz was a little worried:

‘What’s wrong with Malz~www.mtlnovel.com~? Is it okay?’

Malz returned to his senses, seeing everyone looking at him, he smiled bitterly:

‘I’m miserable. I just received the news that I was challenged by a monster on the Tianjiao ranking.’

‘Monster? Since it is the Tianjiao ranking application for the challenge, it should be ranked behind you, why is it a monster?’

Everyone was taken aback, a little dazed.

Malz felt a bit dry in his throat, and explained: ‘The human who has been in the 98th place, don’t you know if you have heard of it? That guy is a monster!’

‘98 people?’

Hearing this, someone seemed to have thought of something.

Then he widened his eyes and said:

‘It’s the 98 people who will never move in the legend? I heard that no matter who challenged him, he was easily defeated in the end. His strength seems to be more than 98, but he has not continued to challenge, and I don’t know why.’

The others looked at each other, obviously not many people knew 98.

There was a trace of fear in Malz’s eyes, and he said:

‘When I challenged for the first time, I also chose him.’

‘Huh?’ The girl who admired Malz widened her eyes:

‘Marz... I heard that you failed the first challenge.’

Others also have weird faces.

Malz nodded, pursing his mouth and said: ‘One sword, at that time he only used one sword, and I was defeated.’

Hearing this, the atmosphere of the whole team fell silent, leaving only the crackling sound of the burning branches of the campfire.

Then, a young elfen said:

‘Then, he challenges you now ? What should I do ? Can you be confident that you can beat him ?‘

Malz was full of black lines and looked at the elf boy with a speechless expression: ‘If I am confident that I will do this ?!’
