

## Chapter 223: My Genes Evolve Infinitely

### THE INVITATION FROM THE FORCES OF THE STARS, TERRIBLE

Hot recommendation:

‘Oh, by the way, I have a few blood essence fruits here, do you want them, mentor?’

Lu Yuan thought of the blood essence and fruit he had used before. He used one. He still had four, because Sister Qinghe didn’t need them. These four were not very useful to him. He planned to ask the instructor if he needed them. .

Si Tingyu raised an eyebrow and smiled: ‘Is this your reward for making the list?’

‘Yeah. It’s a pretty good thing.’

After Lu Yuan used it, he found that the improvement brought by the blood essence fruit was almost equivalent to the overall improvement effect brought by a lord-level transcendent gene. This was an additional improvement, and there was no need to burn the transcendent gene. It was a very good treasure.

Si Tingyu smiled and said, ‘It’s really good. The blood essence fruit is a very precious kind of spiritual fruit. Even if you are on the list, not everyone can get this kind of treasure. Your luck is good.’

Lu Yuan smiled. The rewards given every time he rushed to the rankings were random. Of course, the overall value of the rewards was still the same, but the items were different.

Si Tingyu continued to speak: ‘I also won one when I made the list. I don’t need it. Tingxue and Rebecca should need it, if you have extra.’

Lu Yuan smiled and said, ‘Well, I have four more.’

Si Tingyu was a little surprised: ‘Did you actually get five? Hmm... I remembered that someone had challenged you against you before and raised your ranking by more than

30 at once? It seems that this is the reason, that's why. There will be such a precious reward.'

She turned her head to look at Si Tingxue and Rebecca who were a little confused on the side, and explained the use of the blood essence. Both of them stared with a hint of excitement.

Rebecca still couldn't believe it, and then vowed: 'It turns out that there is such a good thing on the Tianjiao list. Okay! I have to work hard! I must be on the list!'

Si Tingxue also nodded silently, although she had worked very hard.

Lu Yuan smiled and took out two blood essence fruits: 'You can use them.'

Rebecca took it, and looked at Lu Yuan with a smile, holding Lu Yuan's hand on her body:

'Ayuan~ This thing is precious, right? If you want too many spirit crystals, I can't afford to pay. Or... I will sell Xiaoxue to you to repay the debt?'

Si Tingxue froze and stared at Rebecca coldly: 'Rebecca! What are you talking about?'

Rebecca has long been used to Si Tingxue's angry look, and sticks out her tongue at her.

Secretary Tingyu at the side smiled and said:

'Blood essence fruit is generally not used to sell spirit crystals, um... if it is really a spirit crystal, the value should be about the same as ordinary king-level transcendent genes, but because it is more rare than king-level transcendent genes It's precious, it's almost on the same level as the rare and powerful king-level transcendent genes. It's about two million fifth-order spirit crystals.'

'So expensive?'

Rebecca's eyes widened. As the heir of the Zhan Emperor family, although Rebecca has no shortage of training resources, two million fifth-order spirit crystals are still a large amount of spirit crystals. After all, the whole family is not the only one. Need Lingjing, she is just a junior, of course it is impossible to control most of the wealth in the family.

In total, all of her own things may not have two million fifth-order spirit crystals.

Although as a pinnacle-level combatant, being able to own more than nine hundred thousand fifth-order spirit crystals itself is something that makes many people envy and jealous.

And Si Tingxue's wealth is slightly more than that of Rebecca, but it is not too much, so naturally she is a little surprised.

Lu Yuan shook his head and said with a smile: 'Even if it was loaned to you first, if you succeed in the rankings and get the blood essence fruit, you will return it to me.'

Although two million fifth-order spirit crystals were nothing to Lu Yuan, he still had more wealth than ordinary war emperors.

He also knew that for Rebecca and Si Tingxue, two million fifth-order spirit crystals were a burden. If they really bought it, they even lacked the resources for cultivation.

Rebecca and Si Tingxue were stunned.

Just now, Rebecca, who was thinking about making Si Tingxue repay the debt, was a little embarrassed: 'Huh? A, A Yuan, isn't this okay?'

When Lu Yuan heard the words, he was silent, and then said seriously:

'It doesn't seem to be very good, or... you pay for it yourself?'

Rebecca was taken aback, then her pretty face flushed, she quickly released Lu Yuan, ran to hide behind Si Tingxue, and wrinkled her nose at him:

'You can find Xiaoxue.'

Si Tingxue glared at Rebecca, and then pursed her lips. She accepted the blood essence fruit with a blushing face, and said stubbornly:

'I will make it to the top of the ranks of the arrogance, and then I will return the blood essence and fruit to you.'

Lu Yuan thought for a while and smiled again: 'Oh, yes, I still have some cultivation resources here, called Purple Heart Fruit...'

Lu Yuan took out the purple heart fruit and introduced it. Rebecca and Si Tingxue's breathing became heavy.

They are extremely eager for this kind of high-quality training resources, which can increase their tempering speed several times!

Seeing the two of them, Lu Yuan smiled: 'I am about to collect the spirit crystals for this purple heart fruit. Mentor, how much do you think is better?'

Lu Yuan felt that if he didn't accept it, the two of them would have a little conscience.

Even though all the purple heart fruits added up, to Lu Yuan, it was still only a small amount of wealth.

He listened to Yu Wenyan, who was just smiling and watching them before, thought about it, and said:

'The spiritual power contained in the purple heart fruit is equivalent to one hundred thousand fourth-order spiritual crystals, but the spiritual power in it is more convenient to absorb and can greatly increase the speed of cultivation. If you really want to sell it, a purple heart fruit can sell for 30 or even Four hundred thousand fourth-order spirit crystals are not expensive.'

Lu Yuan raised his eyebrows, looked at Rebecca and Si Tingxue, and smiled: 'Have you heard? I'll sell you two hundred and one.'

Rebecca said with a painful look: 'I, I want twenty...no, thirty.'

Thirty purple heart fruits, equivalent to six hundred thousand fifth-order spirit crystals, are already more than half of her wealth.

Si Tingxue thought for a while, and said, 'I want fifty.'

This is equivalent to one million fifth-order spirit crystals.

Lu Yuan smiled and started a deal with the two.

Lu Yuan originally had one hundred and seventy purple heart fruits. After the eighty, Lu Yuan still had ninety in his hand.

Lu Yuan plans to sell part of it to Amy and Wang Lingling.

Hmm... The remaining two blood essence fruits are also used by them.

Lu Yuan suddenly thought that someone said before that he eats soft rice. This is absolutely slander. Does this look like eating soft rice?

Lu Yuan shook his head helplessly.

Later, Lu Yuan began to practice Bengtianzhan and Steel Body.

.....

In the next time, Lu Yuan practiced physical skills and spiritual skills in the real world, while in the place of origin, he was rushing to the list, and continued to refine the last sacred light gene.

The divine light gene tempering requires a lot of spiritual power. Lu Yuan estimated that it would cost almost 2.7 million.

It will take about four months.

As for the challenge in the Tianjiao Ranking, Lu Yuan was also proceeding step by step.

You can challenge almost twice every time you enter the land of origin.

Lu Yuan has crossed five ranking challenges every time, and his progress is very good.

During the challenge, almost no opponent could pose too much threat to Lu Yuan. After reaching the 30th place on the Tianjiao list, the opponents Lu Yuan faced were basically natural kings.

Although the strength is quite strong, for Lu Yuan, it is still easy to win.

With the end of Lu Yuan's challenge every time, coupled with the continuous improvement of the ranking, Lu Yuan's reputation is also rising.

Almost the entire information agency in Baiyun City was looking for information about Lu Yuan, and the news about Lu Yuan was considered first-hand information.

These are what Lu Yuan heard from Yeye, Amy and the others.

Hmm... Xiaobai is collecting outside news every night, and Wang Lingling is in charge of Amy.

It is worth mentioning that Amy and Wang Lingling also got a blood essence fruit from Lu Yuan, and they also took the other 90 purple heart fruit.

A total of 170 Purple Heart Fruits, Lu Yuan got 3.4 million Tier 5 Spirit Crystals, as for the five Blood Essence Fruits, he didn't get a cent.

Lu Yuan felt that if he went into business by himself, it would definitely be a loss-making business.

More than a month later, Luyuan entered the Land of Origin for the fourth time.

The ranking he challenged has reached 8th place.

The eighth place is a blood werewolf named Hong Liao.

Lu Yuan only needs to beat him to get to eighth.

According to the welfare rules of the ranking of Tianjiao, at the eighth place, Lu Yuan's auction house intermediary fee should be free.

At that time, he will be able to post and photograph many of the treasures he has accumulated.

Lu Yuan, Yeye and Xiaobai came to the central square as before.

There are a lot of people in the central square.

As Lu Yuan's reputation continues to increase, when Lu Yuan challenges him, there have never been fewer people onlookers, and more than once.

In this regard, Lu Yuan was also very helpless.

However, as long as it doesn't affect him, it's easy to say.

The three of Lu Yuan came to the stele, and a tall Kaman came forward with a gentle smile on their faces:

‘Mr. Lu Yuan, hello, I am the representative of Galaxy Transportation Group, Ge Shi. On behalf of Galaxy Transportation Group, I sincerely invite you to join our group. Regarding the treatment, we are willing to give you the treatment of the emperor class every year, 100 per year. The sixth-order spiritual crystal does not include benefits and commissions. Of course, all the gains you have explored in the place of origin are still yours. A genius like you should not be limited to only one planet.’

Lu Yuan’s face remained unchanged, and he smiled: ‘Thank you, Mr. Ge Shi, for your invitation. For the time being, I don’t want to leave Daqixing. If I plan on planetary development in the future, I will contact you first.’

Ge Shi frowned slightly, and said with disappointment: ‘Mr. Lu Yuan, I hope you can think about it again. After all, the business of our Galaxy Transportation Group not only covers the entire Baiyun Star Territory, but also involves outside the Star Territory, and the entire Terran Territory. Our sub-groups, join us and you will get the best development.’

Lu Yuan smiled: ‘I understand, I will seriously consider it.’

Seeing that Lu Yuan didn’t agree, Ge Shi was a little disappointed and exchanged the contact information of Communication Crystal with Lu Yuan, and then left.

After Ge Shi left, another elf came over and smiled:

‘Hello, Mr. Lu Yuan, I am from the Yuantian Chamber of Commerce...’

Lu Yuan had a smile on the face of the elves who came over, and he didn’t have the slightest impatience.

Lu Yuan has experienced this situation several times.

After he crushed the 28th place with absolute strength, every time he came to challenge, someone would invite him to join various forces.

These forces are not races on one planet, but large chambers of commerce and large organizations throughout the Baiyun Star Region.

Being able to spread all over the Baiyun Star Territory, it has extremely powerful strength in itself, and there may be more than one or two war-sage- level powerhouses.

Lu Yuan's previous strength is obviously not weak. He can easily crush the 28th place with absolute strength. It must be the strength of the top five in the Tianjiao list, and it is naturally valued.

Their sincerity was not low, and they just wanted to invite Lu Yuan to join them. For this, Lu Yuan would naturally not be guilty if he could not be guilty.

Offending such a big power is also a troublesome thing for Lu Yuan. At the very least, their Daqixing doesn't have such a big power that can spread across the entire star field.

To be honest, the conditions given by these big powers are quite attractive. For example, the previous Star River Transportation Group had a basic salary of 1 million Tier 6 Spirit Crystals in a year. This is only the basic salary, not including job promotion. Category.

Even for Lu Yuan, it is a worthy amount.

However, Lu Yuan does not lack this resource for the time being. Such a big power is obviously deep in the water. After Lu Yuan joins, he may be involuntarily and not at ease in Daqixing.

As for what to do after the resources in the El Mechanical Ruins are used up, Lu Yuan intends to continue to obtain resources in the land of origin.

It may be a bit slower to accumulate compared to working with such a large force at the Star Territory level, but it is better to be safe.

Seeing Lu Yuan rejecting the invitations of these big forces one by one, the genetic warriors around them all looked envious and a little puzzled.

I am envious because Lu Yuan can be so valued, but because I can't understand why Lu Yuan has refused all the invitations.

To be reasonable, if Lu Yuan's power is a war-sage-level power ~www.mtlnovel.com~, it can still be understood.

But Da Qi Xing itself only had a few war emperors, and compared with war saints, the gap was extremely huge.

What's more, there is no rule in Daqixing that you cannot join forces that cross the star field. After all, this does not conflict with Lu Yuan's own belonging. Why would Lu Yuan refuse such a good thing?

They can't understand, it can only be attributed to the arrogance of genius.

As a genius, it's normal to have a weird temper.

On top of a blood-red giant bird floating in the air, several Ye Mei are sitting on the giant bird, looking at the land edge below.

Two of them were sitting upright, letting one of them sit on their laps.

This night charm is extremely beautiful, with long dark red hair like a special flame pulsing.

The slender and raised eyebrows carry a strong aura, and her dark red eyes carry fierce majesty and domineering, but they carry a special charm in every move.

Like a queen high above, and like a banshee who charms all living beings.

She just sat there, as if she had become the center.

On the side of this night charm, there are several beautiful night charms, including Xia Zhi.

One of them, Ye Mei, looked at Lu Yuan, who was listening to a representative of the Chamber of Commerce with a smile, raised her eyebrows, and smiled softly:

'Is he the Lu Yuan? It seems ordinary, don't you think? Your Royal Highness Anastasia?'

Anastasia's dark red eyes were stern and majestic, without any fluctuations.

She leaned languidly on the lap of a Ye Mei, looked at Lu Yuan, and said lightly:

'I can feel the powerful power in this human being, it's terrifying.'

Hearing this, all Ye Mei was a little surprised.

Terrible...How long hasn't it been such a comment in Anastasia's mouth?
