

# Chapter 229: My Genes Evolve Infinitely

## THE ARIA OF LIFE AND THE KING OF MACHINES

Seeing everyone recognizing himself, Lu Yuan directly used the space to move away.

When he appeared again, it was in the alley between two tall buildings.

Lu Yuan put on the battle armor directly and at the same time put on a helmet.

In this way, most people would not recognize him.

The location agreed by Lu Yuan, Amy and Wang Lingling was in front of a very famous tavern in Tianluo City.

This tavern is called Bailian Restaurant, and the food in it is all made with the more precious flesh and blood of beasts and spirit fruits, and the taste is quite good.

Of course, the price is not average, and ordinary genetic warriors are reluctant to come here to eat.

Standing not far from the entrance of the restaurant, Lu Yuan soon saw Wang Lingling and Amy approaching, and no one was following them.

Amy glanced around, and when she saw Lu Yuan wearing armor, a suspicious look appeared on her face, while Wang Lingling smiled directly and said:

‘A Yuan, you are very eye-catching wearing a battle armor.’

After all, in the city, everyone is not fighting outside the city. Basically, they will change into regular clothes, especially outside the tavern. When encountering genetic warriors wearing battle armor and helmets there, the rate of turning back is still very high.

Not long after Lu Yuan stood at the door, the genetic warriors passing by looked at him from time to time.

Lu Yuan smiled helplessly: ‘At least the rate of turning back is lower than when I don’t wear a helmet.’

Wang Lingling smiled: ‘Yes.’

Amy’s eyes widened, and she reacted: ‘It’s you, the big liar.’

Lu Yuan smiled and said, ‘That’s right, it’s me, Amy is so smart, I found out so soon.’

Amy’s eyes lit up, revealing a smug smile, and then her smile froze, staring at Lu Yuan with wide-eyed eyes, her face puffed out:

‘Humph! You’re lying to me again! Mingling Lingling discovered it a long time ago!’

A hint of surprise flashed in Lu Yuan’s eyes, and then he sighed.

Now Amy is not as easy to cheat as before.

Wang Lingling smiled and said: ‘Go in, order a box, you can’t eat with a helmet, right?’

Lu Yuan also smiled helplessly.

The three of them entered the restaurant.

.....

Tian Luo Mansion.

Gwen came to the courtyard deep in Tianluo Mansion and knocked on the door.

Soon, two Tianluo wisteria opened the door, and handsome Adams walked out of the room and sat down in the pavilion.

‘What’s wrong? Gwen?’

Gwen smiled and said, ‘Amy sneaked out to play again.’

‘Huh? Where’s Lingling? Didn’t you look at her?’

Gwen smiled and shook his head: 'No, the two went out together. I heard that A Yuan appeared in the teleportation hall before.'

'That boy Ayuan is here? Good boy, haven't been here for many days, right?'

Adams' eyes lit up, and then he stood up.

Gwen was a little helpless: 'Master, do you want to find A Yuan again?'

'Of course, Ayuan is so talented, has a very good temperament, and has a relationship basis with our little Amy. If we can be together, wouldn't it be great? It's just that they are too young to be too restrictive. Should I treat them? Locked into a room? Get something in by the way?'

Adams was proud of his thoughts.

Gwen's face was dark, and said helplessly:

'Father, don't be nosy. People have a good relationship. If you have to join in the fun, then you will be self-defeating.'

Adams was taken aback for a moment and was a little puzzled:

'It's self-defeating? Me?'

He looked incredulous.

Gwen sighed and said, 'Lord, you see, Ayuan came to Tianluo City to look for Amy before, did he come directly to our Tianluo Mansion? Now Ayuan dare not come here to find Amy, only secretly. I'm out. Who do you think is the cause?'

Adams looked shocked: 'Is it because those old things are behind the scenes?! Those old things! Is it because I think Adams is so bullying?'

There was a strong look of anger on his face.

Gwen: '...'

The corners of her mouth twitched, and she silently looked at Adams:

‘Master, don’t you think you are a bit too enthusiastic? This will scare Ayuan and Amy.’

Adams was taken aback: ‘Will it?’

Gwen gave a dry cough and said:

‘Father, don’t worry about it, just leave it to me to deal with it.’

Adams was silent, thinking that Gwen is a woman after all, and he may indeed have different ideas in this regard, so he nodded:

‘Well, then, leave it to you to handle it.’

‘Um.’

.....

In the evening, the three of Lu Yuan played for a day, and then the three bid farewell, and Amy and Wang Lingling returned to Tianluo Mansion.

At the gate of Tianluo Mansion, Amy hummed a small tune and jumped in.

Her face is full of smiles, and it’s been a long time since she had such fun.

As soon as he entered the door, a maid stepped forward and said respectfully:

‘Miss, supervisor, Master Gwen invites you to go over.’

The smile on Amy’s face froze suddenly, and she said in a little panic:

‘Lingling! What to do? My mother didn’t find us sneaking out to play, right?’

With a gentle smile on Wang Lingling’s face:

‘Master Gwen found out when we first went out.’

‘what?!’

Amy’s eyes widened, her face couldn’t believe it, and then she smiled bitterly:

‘It’s over! It’s going to be scolded again.’

Wang Lingling smiled and said: ‘Don’t worry, Miss, Master Gwen won’t scold you. Let’s go first, don’t let the adults wait for a long time.’

With a worried expression, Amy followed Wang Lingling into the study.

Gwen was sitting at the table working with documents, and she looked up when she heard the two people coming in.

She looked at Amy, who was behind Wang Lingling like a quail, with a funny expression on her face:

‘Amy, what are you doing?’

‘Mom, we sneaked out to play.’

Amy said bitterly: ‘You won’t let me stay closed for a few more months, will you?’

Gwen smiled helplessly, and then said:

‘I knew it a long time ago. I went out to play with A Yuan, right?’

Amy was taken aback, then nodded: ‘Yeah.’

Then she looked around a little nervously, and said:

‘Mom, does grandpa know?’

Gwen smiled: ‘Mom has already told Grandpa, don’t worry, he won’t care about you and A Yuan anymore, next time you can let A Yuan come to Tianluo Mansion.’

Hearing this, Amy was taken aback, a little surprised:

‘real?’

‘Mom will lie to you?’

‘Yeah! Great! Otherwise, Grandpa will have to do something embarrassing for both me and the big liar.’

In the courtyard behind, Adams, who was eavesdropping with great power, was full of shock and self-doubt. He had no idea what he had done to embarrass his little Amy.

Has little Amy now started to dislike him, the poor lonely old man?

Adams felt sad.

Gwen smiled helplessly and shook his head:

‘Okay, you go back, um...Since you have sneaked out to play, there is still a punishment, Lingling, the supervisory lady will practice hard and stay in seclusion for a month.’

‘what?!’

Amy complained repeatedly, tears were about to come out.

A nasty smile appeared on Wang Lingling’s face:

‘Master Gwen, I know. Miss, let’s go back to the gravity room.’

She stretched out her hand to pick up Amy who wanted to run away and left, completely ignoring Amy’s struggle.

.....

Lu Yuan bid farewell to the two of them and found a room in Tianluo City to live in.

Because he is no longer the Tianjiao on the Tianjiao list, and he is no longer able to enjoy the benefits. For him now, where he lives is actually the same.

Lu Yuan wondered if he wanted to make a wave of kings list first after he had evolved his genes?

Lu Yuan thought for a while, then shook his head.

There is no need to be so fast.

As soon as he broke through to the king of war, he was on the king’s list, which is a bit too outrageous.

After waiting for a while, the first emperor-level gene tempering degree is fully tempered, and then it is the same to go to the top of the list.

Lu Yuan entered the room, entered the bathroom expertly, then sat cross-legged in the bathtub, and began to evolve the second royal gene.

Tides of life.

The faint blue light flashed, the gene chain changed, and the familiar pain came. Lu Yuan's skin appeared cracks and blood spurted out.

But this time, the cracks were slightly less than before, the blood was not as much as before, and Lu Yuan felt a little less painful.

Time passed, when Lu Yuan's pain disappeared and the blue light dissipated, the transcendent gene had completely completed the evolution, and an incomparable power emerged, the strongest being mental power, followed by strength, speed, and physique.

After evolving the tide of life, Lu Yuan's mental power has greatly increased.

He tried a little bit, and his mental power spread, spreading for tens of kilometers in an instant, and it continued to spread out.

In the end, it even spread to almost the entire Tianluo City before it came to an end.

Hundreds of kilometers!

Lu Yuan was a little surprised, as if he was a bit strong.

Not only Lu Yuan, but in Tianluo City, the powerful King of War and King of War all raised their heads and looked around with some uncertainty.

They also felt an incomparable spiritual force swept away.

Even Adams in Tianluo Mansion raised his head and glanced in surprise, muttering in his heart which war emperor was ignorant and released his mental power in Tianluo City?

However, because mental power didn't mean to explore, he didn't care too much.

After Lu Yuan in the bathroom felt the powerful increase brought by the imperial gene, he began to perceive the information of the gene.

Emperor Gene: Aria of Life

It is also an extraordinary gene of the Healing System, which is similar to Life Tide, but the healing power of Life Aria is more powerful, as long as it is not instant death, even if it is a severed limb rebirth, it is very easy.

Not only in treatment, if it is poisoned or cursed, it can also be cured.

The one-time healing range is based on the user's mental power and spiritual power. It is a powerful combat technique that can be cured in groups.

Moreover, the life chant itself will bring a powerful self-healing ability, which is a passive ability. If one is injured, it will recover at an extremely fast speed.

Lu Yuan looked a little surprised, this kind of passive and powerful recovery ability, coupled with the previous Great Sun spirit body.

Lu Yuan felt that he didn't even need to use life chants to himself, he felt like he was immortal.

You know, the defensive ability brought by the Great Sun Spirit Body is also extremely terrifying, after all, it is inherited from the Earth Spirit Body.

Lu Yuan thought for a while, took out the epee, and swiped his hand on the epee.

Hmm...not injured, Lu Yuan's physique is too strong now, and his defensive ability is already terrifying.

He kept exerting force until the epee cut a deep wound on his arm, and the blood kept gushing out.

As soon as Lu Yuan stopped and removed the heavy sword, the wound on his arm was recovering at an extremely fast speed.

In just a few breaths, the injury has completely recovered.

Lu Yuan wiped the blood from his arm, and looked at the unmarked arm, a look of wonder appeared on his face.

With this kind of defensive ability and resilience, he said that he was a guardian fighter, and there was absolutely no problem.

Of course, the life chanting gene that has evolved to the emperor level has a deeper application of life and the power of nature.

Lu Yuan's current healing effect can also have the power of Lord-level combat skills.

More than just healing, Luyuan can even use the power of nature to turn plants into combative tree guards, catalyze the growth of plants to restrain the enemy, make poisonous fog, and so on.

As long as it is a force related to life and nature, Lu Yuan can make use of it.

And the effect of utilization is not bad.

After the evolution was completed, Lu Yuan took out the takeaway that he had ordered from Bailian Restaurant from the war pattern space, and had a good meal.

Then Lu Yuan slept again, and then began to evolve again.

The third extraordinary gene, the king of machinery.

Familiar evolutionary process.

When the evolution was over, all of Lu Yuan's attributes, including spirit, strength, speed, and physique, had the same degree of improvement.

This is the trait brought about by this extraordinary gene, and like the Space Department, it is fully improved.

Although the improvement is not as big as the space system, it is still quite good for Lu Yuan.

Lu Yuan closed his eyes and felt the new genetic galaxy.

Emperor Gene: Mechanical Emperor

The emperor gene has a deeper inheritance of machinery-related scientific and technological knowledge, and Lu Yuan can now rely on his inherited knowledge to create a king-level mechanical gene weapon.

Not only genetic weapons, there is also a lot of scientific and technological knowledge in genetic inheritance, but it is about the manufacture of mechanical equipment, such as battleships and psionic gun power.

Besides.....

Lu Yuan thought for a while and took out a metal heavy sword.

This is a third-tier king-level genetic weapon.

It was also the lowest level genetic weapon in Lu Yuan's hand.

He was also a little helpless~[www.mtlnovel.com](http://www.mtlnovel.com)~ Lu Yuan's eyes flashed with emotionless indifferent waves, and then he tapped the metal heavy sword casually.

The next moment, invisible fluctuations emerged, and the metal heavy sword seemed to be activated, and it began to decompose and reorganize, and finally changed into a peculiar mechanical cannon.

For mechanical manufacturing, as long as he possesses the material, Lu Yuan can directly manufacture a machine that matches the material. Unfortunately, Lu Yuan still cannot attach a soul to the machine.

Otherwise, he can create a powerful mechanical guard and a real mechanical army.

Not only that, Lu Yuan pointed at the machine gun once again, and a ray of gray iron flashed past the machine, and the aura on it became stronger.

Mechanical increase, Lu Yuan can increase these machines to increase their strength.

Not only machines, but also machine life such as machine guards.

After the increase, all aspects of the mechanical life have been greatly improved, just like a powerful auxiliary system's increased combat skills.

It's a pity that this combat technique only works on machinery.

Lu Yuan sighed.

But overall he is still very satisfied.

He can get some King-level mechanical gene armament of the floating gun type himself, and then use the Evolution Cube to evolve to the Emperor-level, and then use the mechanical amplification.

Hmm... the fire thief is fierce.

Looks like something is going on?

Not only that, at the very least, if he has no place to make spirit crystals by then, he can also obtain a lot of spirit crystals by making king-level genetic weapons by himself.

Lu Yuan rested again, and then began the evolution of the next gene.

The fourth gene is also Lu Yuan's most precious gene, the gate of space.
