

Chapter 233: My Genes Evolve Infinitely

SUBTERRANEAN ALIEN

Li Qinghe smiled and said:

‘However, this pen is only a Grade D alien, and it is actually not very harmful. It was first discovered in an educational institution in Nanming City. A tutor used this pen as usual, but that day the pen was in his The inscription on the stomach was a blessing in misfortune, not life-threatening. After that, the pen was kept by the local night watchman and escorted to the headquarters.’

‘D-level alien material? Are alien objects divided into many levels?’

Lu Yuan was a little curious.

‘Well, d-level is the lowest-level alien material, which can only affect ordinary people, not genetic warriors. For example, this pen, if it is taken by ordinary people, it will have an effect, but if it is a genetic warrior When you pick it up, this pen is really just an ordinary pen. The c-level alien material can threaten the warlord-level genetic warrior, the b-level alien material can hurt the warlord, the a-level alien material, Even if the battle emperor faces it, it will be extremely dangerous. The s-level is relative to the battle emperor level. So far, the most powerful alien that our Daqixing has appeared is the s-level. Legend has it that there are also ss- level aliens. , Can affect the war saint, and the sss-level alien material, even the ** of war will be life-threatening. If a civilization has an a-level alien material and it is not dealt with in time, and that civilization does not have a war king-level powerhouse, This civilization may be over, and an alien at this level can completely destroy a civilization.’

Lu Yuan heard his scalp numb.

He remembered the Soul Eater from before, and his pupils shrank:

‘Sister Qinghe, the Soul Eater that we were in Xili City last time was an S-grade alien? Isn’t it the Emperor Zhan’s ability to deal with it?’

Li Qinghe smiled and said: ‘Some alien substances need a certain growth cycle from appearance to full maturity. As long as they are not allowed to fully grow, they can be dealt with even if they are not the emperor. This is the case with the previous Soul Eater. If Ren continues to devour the soul, the Soul Devouring Orb will completely assimilate Xue Ren, and eventually even reach the terrifying power of the war emperor level, plus the ability to absorb souls. If it is a civilization without a war emperor strong, what can you resist? ? Even if you have a war emperor, you may not be able to resist it.’

Lu Yuan nodded slightly, feeling solemn.

In this case, judging from the current situation of frequent alienation events, if there are several S-level aliens, or even ss-level aliens, then Daqixing is going to be cold?

Seeing Lu Yuan’s silence, Li Qinghe smiled and said:

‘But you don’t have to worry too much. Although there are precedents of alienation destroying civilization, this kind of situation is very rare. After all, the attitude towards alienation phenomena is the same in all races in the entire universe. If there is an irresistible alien, if you ask for help in Baiyun City, there will definitely be a strong person who will come to help. What’s more, our Daqixing has also made friends with many powerful races, such as the tribe of Frost Moon, which has the rank of warlord. The strong, if they knew, they would definitely not turn a blind eye.’

Lu Yuan was a little puzzled: ‘Why are the opinions of all civilizations in the entire universe so unified? As long as it doesn’t affect their own race, wouldn’t it be unnecessary to watch the enemy race be alienated and destroyed?’

Lu Yuan knew that in the entire universe, among others, within the human race, races like humans and kobolds would have a lot of contradictions and conflicts. If there is such an alienation, those kobolds will be too. Will help?

Not only within the human race, but the machine race and the human race are also the same. There are a lot of conflicts and conflicts of interest. As long as it does not affect your race, why do you need to rescue?

Li Qinghe shook his head and said:

‘There used to be a precedent when an S-level alien body appeared in a war emperor civilization. The war emperor of that civilization was unable to resist the s-level alien body, and finally asked for help in the place of origin, but not many people took it back then. No one went to rescue it. In the end, this civilization was destroyed by the s-level alien. After destroying a civilization, for some reason, the s-level alien evolved to the ss level, destroying several surrounding civilizations in a row. , Turned a galaxy into a dead zone. Since then, no race has dared to ignore this alienation phenomenon. No one knows, if the destruction continues, this alienation will evolve to the sss level, if it is true Evolving to the sss level is a huge disaster for the entire universe.’

Lu Yuan was taken aback for a moment: ‘Can foreign objects evolve?’

Li Qinghe nodded, and said solemnly: ‘Alien matter can indeed evolve, no one can figure out the reason for the evolution. I don’t know under what circumstances the alien matter will evolve.’

Lu Yuan: ‘...’

He feels a little numb in his scalp.

It seems that I can evolve...?

He glanced at the Evolution Cube, wouldn’t this thing be an alien thing? !

But it’s not right. If it is a foreign body, it will have a huge impact on a person’s mind. The Evolution Cube has no effect on Lu Yuan at all, only helping Lu Yuan evolve its genes.

If it is really a foreign body, then he will definitely be disturbed by all kinds of weird thoughts.

If it is not an alien, then what is this evolution cube?

The transformation of the Evolution Cube requires alienation or unknown aura inside alienated creatures, which obviously has a certain relationship with alienation.

Since it is not a foreign body, what does it matter?

Is it the same clan as the alienation? Or is it completely hostile to alienation?

Moreover, how could this Evolution Cube happen to appear on him? Instead of someone else's body?

Lu Yuan's thoughts were flying, and he felt heavy.

Seeing Lu Yuan's face change, Li Qinghe thought Lu Yuan was a little shocked, she smiled and comforted:

'In fact, the general aliens are below b-level, and c-level is the most. Up to now, the S-level aliens in our Daqixing are very few. You don't have to worry about that kind of overpowering. In fact, what really needs to be worried about is the tide of alienation. The threat of alienating an area anytime and anywhere and launching a fierce attack on the entire civilization is the most terrifying.'

'...'

Listening to Lu Yuan, he always felt that this world was far more dangerous than he thought.

In the past, he only understood some general ideas about alienation.

There is no detailed description even on the Internet.

Lu Yuan think about it, this may be to prevent the general public from worrying too much and affecting their normal life, right?

After all, knowing that the world may end at any time, who will work and live well?

Moreover, this kind of thing, even if it is told to ordinary people, it will not be of any help.

Obviously the genetic warrior is the one who can really handle the alien.

Thinking about it this way, Lu Yuan felt that even the space rifts that might appear at any time became cute.

At the very least, the space rift is generally not thinking about destroying the entire civilization.

Lu Yuan couldn't help but complain.

Lu Yuan smiled bitterly: ‘It seems that I have to work hard to cultivate, or maybe someday a tide of alienation will appear. Isn’t that dangerous?’

‘Hee hee~ Let’s work hard together, when the time comes, sister, I will protect you, you can rest assured.’

Li Qinghe smugly patted Lu Yuan on the shoulder.

Lu Yuan rolled his eyes, feeling that Li Qinghe might not be his opponent now.

After all, even though Li Qinghe broke through to the battle emperor level, even if he burned the emperor level gene, there was only one emperor level gene.

But Lu Yuan has six emperor-level genes.

Coupled with powerful genetic weapons, Lu Yuan’s current strength has become extremely terrifying.

If he refines the gene chain to perfection, it will be stronger.

Even so, Lu Yuan still feels a little frustrated now.

After all, Alienation is much more powerful than he thought. If you come with a complete S-level Alien, Lu Yuan feels that he is not an opponent. If there is a tide of Alienation, it will be cool.

Still not strong enough.

Lu Yuan sighed inwardly.

Then he thought of something and walked a few steps in the direction of the door.

After approaching the door of the room, the Evolution Cube vibrated violently. The next moment, a cool breath merged into Lu Yuan’s body and entered the Evolution Cube.

Lu Yuan’s eyes lit up, revealing a hint of surprise.

Sure enough, there was an unknown aura in this alien material, which he could absorb.

Lu Yuan glanced at the densely packed rooms, and a touch of excitement appeared in his eyes.

I don't know if the unknown aura of all the foreign objects here has been absorbed, I don't know if the Evolution Cube can transform once ?

He smiled and said: 'Sister Qinghe, let's continue to look at it. You can introduce each alien substance to me. I am a little curious about these alien substances.'

Li Qinghe scratched his head when he heard the words: 'There are a lot of these alien objects, and it will take a lot of time to read them all.'

Lu Yuan smiled and said, 'Anyway, there are only two of us. Isn't that good ? Think of it as a date.'

Li Qinghe's mouth twitched, and said angrily: 'Whose date will you be watching aliens?!'

'Then let's go on a date next time. It's compensation.'

Lu Yuan smiled.

Li Qinghe was taken aback, what did she just do ? Actually admit that they are dating ? ?

Li Qinghe's face turned dark, and he was silent, and said dully: 'I feel like you have done it. Damn it!'

Lu Yuan chuckled, 'I just want to stay with Sister Qinghe for a while.'

This is the truth, Lu Yuan did not lie.

Li Qinghe rolled his eyes: '...Forget it, then look at it all.'

Afterwards, the two began to look at the alien objects one by one from the outside to the inside.

All kinds of alien objects opened Lu Yuan's eyes.

There is a D-class alien that is a full-length mirror. As long as you look in the mirror, a person like you will come out. This person will want to kill you and replace your life.

And after a year, kill all your family.

This mirror killed dozens of family members within a few years and caused a very **tragedy.

In the beginning, the night watchman rummaged through the entire city and found it difficult to find the murderer. It was not until a night watchman accidentally looked in the mirror and found that there was no figure of him in the mirror before he realized that something was wrong.

After all, it is a grade d alien, which is ineffective for genetic warriors.

There is also a c-level alien material that is a piece of pork.

That's right, it's just a piece of pork that looks ordinary.

After eating this piece of pork, the person will get fatter and fatter, and eventually, after getting fat to a certain level, he will start to eat his own meat until he cuts off his own meat and died of excessive blood loss.

The pork will reappear in another area, which is not too far away from the dead, but not too close, it is always in the same city.

Otherwise, the night watchman at that time could not find this thing at all.

Lu Yuan always felt that Li Qinghe was telling horror stories, which was outrageous.

In fact, the effects of many foreign objects are extremely terrifying.

After some foreign objects are encountered, it is even difficult for you to prevent them.

This made Lu Yuan more solemn.

However, Lu Yuan later thought that as long as he encountered a foreign body, the Evolution Cube in his body would shake.

Can be regarded as a kind of alarm.

This made Lu Yuan suddenly think of Si Tingfeng's fiancée again.

His heart became solemn again.

So far, in the real world, he really is only after encountering foreign objects, the Evolution Cube will shake.

When facing the woman named Tong Menghan, she was also shocked.

If it was before, Lu Yuan might not have a good way to deal with this matter.

But Lu Yuan could now monitor the woman's situation.

Emperor gene: Kingdom of Shadows.

The summoned Shadow Clone possesses extremely powerful invisibility capabilities, and Lu Yuan can share the senses of that Shadow Clone as long as he wants to, but it can perform a surveillance function unconsciously.

After you go back, let's find a chance to explore Tong Menghan's home.

Otherwise he always feels a little uneasy.

Lu Yuan made a decision.

The placement rule of alien objects in the underground is that the outermost alien objects are all d-level. The higher the level of aliens inside, the more dangerous they are, from d-level, to c-level, to b-level, and then to a-level. And s-level.

The core area is placed a-level and s-level.

Among them, the d-level and c-level have the most alien objects. After the b-level, the number of alien objects has begun to decrease drastically.

However, after reaching the b-level, the alienation has become stronger and stronger.

You know, the b-level aliens can be compared with the king of war.

Because of the weirdness of the alien material, even the King of War may not be the opponent of the b-level alien material.

Lu Yuan saw a Grade B alien, a pair of blood-stained scissors.

As long as the scissors are stained with the target's blood, you can cut a target's hair randomly, and you can cut the target's body into two pieces.

Unless one's own strength surpassed the King of War, there was basically no way to resist this kind of weird scissors damage.

There used to be three warlord-level powerhouses who were overshadowed by this weird pair of scissors.

The death is unclear, inexplicable ~www.mtlnovel.com~ Alienation at the level of c has a certain degree of thinking, and alienation after level b can confuse others and let others through some weird whispers. Help achieve the purpose of alienation.

This weird scissors can't move by itself, but it can confuse the family of the King of Warlords. As long as you get a little blood and a piece of hair, you can easily kill the King of War.

It's terrible.

The b-level aliens are basically such ghosts.

There are dozens of them.

Lu Yuan couldn't even imagine how much the life of a strong man had been paid in order to collect these alien objects.

Soon, Lu Yuan and Li Qinghe came to an area that looked different.

The previous area is made of black alloy, and this area is all made of white gold alloy.

The junction of black and white gold looks like the junction of two different worlds.

Li Qinghe's face became serious, and he said:

'Further ahead is the core area of Grade A and Grade S. Even if the King of War enters there, it will be dangerous if you are not careful. You must follow me and don't touch anything. No matter what you hear, treat it as if it was not Hear.'

Lu Yuan could also see that this area seemed a little weird. He nodded and said seriously:

‘I know Sister Qinghe, don’t worry.’

Li Qinghe smiled and nodded.

At this moment, there was a slight knock on the door of the core area.

Boom!

Boom!

Boom!

‘Is anyone out there?’

A soft voice came from the door of the room.
