

# Chapter 235: My Genes Evolve Infinitely

## EXPLORING THE PRIME MINISTER'S MANSION AT NIGHT

The top floor, the president's office.

After Li Qinghe reported what had happened in the underground containment room, Gu An frowned. After a long silence, he nodded slowly:

‘I see.’

He solemnly said: ‘It seems that the guards of the underground asylum will need more manpower...’

Li Qinghe didn't say much.

Even the guard of the underground containment room is also the job of the night watchman elder. As an honorary elder, generally, she does not need to be guarded, which has nothing to do with her.

The same is true for Luyuan.

‘Uncle Gu, if it's okay, then we'll leave first.’

Li Qinghe said, Gu An smiled and said:

‘Thank you.’

Then Li Qinghe and Lu Yuan left the office.

In the office, the atmosphere was a little silent. Gu An lowered his head to think, and the middle-aged man next to him said:

‘President, does it really have anything to do with the recent alienation phenomenon as Elder Zhang said? The recent alienation phenomenon is indeed much stronger than before.’

Gu An rubbed his forehead and said:

‘It’s not impossible. Um... Lao Liu, you can arrange it and send two more elders to guard it. Each shift will increase to seven guards.’

‘I see.’

.....

Li Qinghe and Lu Yuan left the office and took the elevator down.

Li Qinghe looked at Lu Yuan: ‘Brother Yuan, is there any place you want to go?’

Lu Yuan shook his head: ‘Nothing. By the way, Sister Qinghe, are there any tasks we need to do next?’

Li Qinghe poked Lu Yuan’s cheek with a smirk: ‘What? I want to work so soon?’

Lu Yuan looked serious: ‘I am like this, I love work by nature.’

‘Cut~’

Li Qinghe curled his lips: ‘I don’t know how to enjoy life, obviously we are so tired from practicing.’

Then she thought for a while and smiled: ‘There has been a lot of alienation recently, maybe there will be an urgent task in two days, and then the night watchman headquarters will contact you.’

Lu Yuan thought for a while, and said, ‘Could you tell someone and arrange more tasks for me?’

Lu Yuan’s current Evolution Cube is close to the brink of transformation. He thinks that if he deals with alienation events more and gets in touch with alienation, he should be able to complete the transformation as soon as possible.

Li Qinghe glanced at Lu Yuan somewhat speechlessly: ‘Then go to the task room first and say hello to the people over there.’

After Lu Yuan and Li Qinghe returned to the task room and greeted the person in charge, the person in charge suddenly showed a warm smile and looked at Lu Yuan with some surprises.

Lu Yuan always felt that the person in charge looked at him a bit like looking at the savior.

However, Lu Yuan could also understand that, after all, the honorary elders are different from the elders who usually belong to the night watch.

Even if it is a task that wants to invite them, it is difficult to avoid trouble.

Honorary elders like Lu Yuan who want to take up more tasks are simply rare.

Now that there are more and more alienation phenomena, an honorary elder like Lu Yuan is naturally no different from the savior.

After leaving the task room, Lu Yuan and Li Qinghe returned home.

After a whole day's delay in the night watchman headquarters, it was already dark when I got home.

After dinner, Lu Yuan and Li Qinghe went back to their rooms.

Lu Yuan had just left the place of origin, and it would take six days to go in next time.

He was not in a hurry. After Li Qinghe entered the Land of Origin, it was late at night. The black mist surged all over him, and a dark figure appeared in front of Lu Yuan.

Shadow clone.

This is the shadow clone that Lu Yuan condenses through the shadow realm.

He planned to visit the Prime Minister's Mansion to see if Tong Menghan really had a problem.

Lu Yuan synchronized his senses with the shadow clone. The next moment, the shadow clone melted into the darkness, turned into a streamer, and ran towards the prime minister's mansion silently.

Before, Lu Yuan had checked the information of the Prime Minister's Mansion, and the location was easy to find. It was in Bailiu District, and it was located in the core area of Bailiu District. That area was all the family residences of dignitaries and nobles.

The shadow clone's combat power is one-third of that of Lu Yuan, and it possesses the power of the dark element, and its speed is extremely fast in the dark night.

Before long, the dark clone came to the front of a huge manor.

Inside the manor are several gorgeous villas, and around the villas are gardens, lawns, even ponds, and rockery.

The entire manor is extremely huge at full level.

Lu Yuan's senses are synchronized with the shadow clone, but it is easy to feel that there are groups of genetic warriors patrolling around the manor.

The strength of these genetic warriors was not weak, and even Lu Yuan felt the aura of the War King and War King from the manor.

To be reasonable, Lu Yuan's current strength was better than an ordinary war emperor who burned the emperor-level genes.

But one-third of the combat power is definitely not as good as a war emperor.

However, Lu Yuan didn't intend to let the shadow clone and a war emperor go to the front.

If it's just hiding, investigating the news, the degree of secrecy with the shadow clone in the dark is hard to detect even for the Emperor of War.

After all, this is an emperor gene, and the shadow clone's use of the power of darkness has been quite profound.

In the shadow, Lu Yuan controlled the shadow clone to quietly cross the high wall and came to the inside of the manor.

The two guards passed by the shadow clone, but they could not perceive the existence of the shadow clone.

Lu Yuan easily crossed the open area of the manor and entered the central villas.

Lu Yuan moved directly towards the largest and most luxurious villa.

It was a huge villa with a height of six floors and a length of almost a hundred meters wide.

The shadow clone was silent, and soon entered the villa. Although the door of the villa was closed, how could the door close the shadow ?

Entering the villa, the shadow avatar emerged in the shadow area. He looked at the villa. The decoration was magnificent, elegant and luxurious. There were many portraits on the wall, although Lu Yuan could not recognize a painting.

However, it can be seen that the prime minister of the Red Maple Empire is still rich.

After all, it's a big family.

Because he was not familiar with the Prime Minister's Mansion, Lu Yuan planned to walk around after entering the central villa.

Since there may be alienation in Tong Menghan's body, he uses alienation to corrode other people's characteristics. Who knows, besides Tong Menghan, is there any other person who may also be alienated ?

There are young servants walking around in the villa, and there are guards patrolling at intervals. As the prime minister, he is in place to manage the safety of the family.

Lu Yuan walked around and found several masters of the Prime Minister's Mansion, one of whom was a child with blond hair, was arguing with the maid, which looked normal.

The other is a black-haired girl who looks a bit similar to Tong Menghan, but she should be younger in age, probably Tong Menghan's younger sister.

The girl was painting in the room, and she looked normal.

Just seeing these words, Lu Yuan felt that the Prime Minister's Mansion seemed nothing special.

It was a pity for Lu Yuan, his shadow clone was not the main body, so he couldn't bring the Evolution Cube.

If there is an Evolution Cube, it may be possible to find some differences through the Evolution Cube's induction of alienation.

But there is no way. Lu Yuan's body will definitely not go to the Prime Minister's Mansion. If there is any accident, wouldn't it be very dangerous?

Hmm... This is not counseling, it's just being more cautious, and there is no need to take too much risk for a guess, right?

Lu Yuan went all the way from the first floor to the sixth floor. After searching the whole building, he found nothing strange.

Lu Yuan even doubted whether his previous guess was wrong.

Lu Yuan didn't meet Tong Menghan, nor did he meet the Prime Minister, but he met two glamorous women, possibly the Prime Minister's wife, who still looked pretty.

Of course this is not the point, Lu Yuan just glanced at it.

This villa was not found, and Lu Yuan planned to go to other villas to check the situation.

He quickly came to the first floor.

As soon as I arrived on the first floor, the door of the villa opened and someone walked in.

When Lu Yuan saw the visitor, his pupils shrank, it was Tong Menghan.

He squinted his eyes, hiding in the corner, looking at Tong Menghan.

Tong Menghan has a gentle smile on his face, which looks the same as at the harvest day dinner and engagement banquet.

Lu Yuan followed Tong Menghan, and soon he frowned slightly.

Tong Menghan did not go upstairs, but walked to a remote corner on the first floor.

Soon, Tong Menghan came to a black element warrior statue in the corner of the wall.

This elemental warrior statue holds a staff in its hand, and the top of the staff is inlaid with a stone orb.

Tong Menghan took a deep breath, a frantic and excited expression appeared on his face.

She stretched out the white jade and pointed to the stone orb. The next moment, the space on the orb was distorted and turned into a space door.

The main body of Lu Yuan in Li Qinghe's house widened his eyes in a little astonishment.

World stone? !

The way the space gate and the stone work is at first glance the kind of world stone the Kobold brought out during the Ice Vein Star competition.

Put a world stone in such a place? Moreover, he also made a disguise. Lu Yuan hadn't thought that there might be secret passages or secret rooms before, and he carefully searched for them on every floor.

But who can find this kind of ghost place? !

And is it still a treasure like the World Stone?

Lu Yuan felt a little big.

Before Tong Menghan entered the small world, he hid in Tong Menghan's shadow.

Along with Tong Menghan, Lu Yuan also entered the small world.

The small world in this world stone is not big, the range is only a few hundred meters, which is smaller than the previous kobold world stone.

There is a gray rocky ground in the small world, surrounded by residential objects.

There are two people in the room. One is wearing a black cloak. The figure is dark under the cloak and can't see his face or even his gender or race. The other is a

middle-aged man with a handsome appearance. , With long black hair, looks majestic in a high position.

Lu Yuan saw him in the news, the prime minister Tong Shu.

At this moment, Tong Shuzheng looked enthusiastic, standing respectfully in front of the cloaked man.

Seeing this, Lu Yuan narrowed his eyes slightly.

There really is a problem in this prime minister's house.

I just don't know if these guys are all related to alienation ?

Without the Evolution Cube, the margins of the land could not be determined.

Who is this black-robed man ?

When Lu Yuan looked at the black-robed man with some doubts, Tong Menghan also alarmed Tong Shu and the black-robed man when he came in.

With a hint of question on Tong Shu's face, he said:

‘Menghan, how ?’

Tong Menghan glanced at the black robe man enthusiastically, an excited smile appeared on his face:

‘Si Tingfeng trusts me very much now. I have almost mastered the patrol route and exchange schedule of the Red Maple Guards.’

Tong Shu's eyes lit up and he looked at the man in the black robe.

The black robe man's somewhat hoarse and weird voice sounded:

‘Very good. The next step is to figure out the deployment map of the night watchman's underground containment room and the guard lineup. When we are ready, we can give the Red Maple Empire a surprise.’

The deployment plan of the underground containment room ? !

Lu Yuan's eyes widened in Tong Menghan's shadow, feeling a little shocked.

What is this guy doing to get a layout plan for the night watchman's underground containment room?

If there is anything in the underground containment room, there are only a lot of foreign objects.

Does this black-robed man want a foreign body?

Why do you want a foreign body?

Release foreign objects? Or take away all the foreign objects?

You must know that there are tens of thousands of alien objects in the underground containment room!

Even the a-level and s-levels add up to dozens of them.

If released, it would be a devastating blow to the entire night watchman headquarters, and even the entire imperial capital!

It would be even more troublesome if all these foreign objects were to be taken away.

If these guys put alien objects in many cities, then I don't know how many cities will be destroyed.

Not to mention anything else, the only A-level alien thing that Lu Yuan saw, a39, was enough to destroy a huge city.

What the \*\* is that black-robed man?

Why are you so frantic?

Lu Yuan's heart was shaken ~www.mtlnovel.com~ At this moment, the black-robed man suddenly stopped and glanced at the shadow of Tong Menghan.

'Um?'

Under the black hood, there are a pair of indifferent blood-colored eyes.

The moment Lu Yuan saw the \*\* eyes, his brain roared and his senses directly withdrew from the shadow clone.

And the black robe man probed his hand, and a black shadow came out from Tong Menghan's shadow.

‘This is.....‘

Tong Menghan and Tong Shu both widened their eyes and were startled.

Especially Tong Menghan, his face was pale and shivering.

The black robe man's cold voice sounded:

‘waste!’

With a wave of his hand, Tong Menghan fell to the ground and made an unusually sharp scream. He trembled violently, and a trace of blood spilled out of the surface of his body.

Tong Shu's face was horrified, and he squatted on the ground, shivering.

After the black robe man tortured Tong Menghan, he stopped.

Tong Menghan kept breathing, struggling to crawl on the ground, apologizing constantly.

‘Huh... a little bug discovered here... It seems that I have to change place.‘

The black robe man's voice sounded.

.....

In Li Qinghe's house, in Lu Yuan's room.

Lu Yuan, who was sitting cross-legged on the bed, suddenly opened his eyes, his face turned pale, and he spouted a mouthful of blood.

There was a trace of blood and tears in his eyes.

But soon, under the influence of the great sun spirit body and the life chant, Lu Yuan's eyes recovered and his face turned ruddy.

Lu Yuan opened his eyes, a trace of palpitations flashed in his eyes.

The black-robed man before was definitely a war emperor, and he was also a strong one among the war emperors!
