

## Chapter 239: My Genes Evolve Infinitely

### ALIEN OBJECTS FIGHTING EACH OTHER?

There is something wrong with this person!

Lu Yuan was speechless when he saw Gillian's expression.

He gave a dry cough, smiled and said, 'I have already found a place to live, so I don't need to trouble Ms. Gillian.'

Although he was telling a lie and didn't find a good place to live, it was actually enough to go to the hotel, and it was really impossible to go to Gillian's house.

He Lu is not such a casual person.

In addition, Lu Yuan didn't think it would take long for him to solve the source of alienation.

Now he has a clue, and it is estimated that it will only take a few days to complete the processing, maybe he can catch up with the next time he enters the land of origin.

Hearing Lu Yuan's words, Gillian showed a disappointed look: 'So it's like this... OK.'

Lu Yuan said goodbye to Gillian with an awkward and polite smile, and turned to leave.

Staying longer, Lu Yuan didn't know what else this woman would say.

Is this a mature woman? It's completely different from Sister Qinghe and the others. It's too straightforward to offend.

Lu Yuan murmured a few words in his heart, and took the stairs to the top floor of the Night Watchman branch.

The offices of Division Minister Sha Jian and Deputy Minister Maika are on the top floor.

After reaching the top floor, Lu Yuan first came to Shajian's office and knocked on the door.

When the door opened, Lu Yuan found that it was Mika opened the door.

After seeing Lu Yuan, Mika was stunned, and then smiled:

'It turned out to be Elder Lu, please come in quickly.'

He stepped aside and let Lu Yuan in.

In the office, Sha Jian was sitting behind his desk, and when he saw Lu Yuan, he stood up and smiled:

'Elder Lu, are there any gains from Bernie?'

Lu Yuan smiled: 'My people have already started investigating. I'm afraid it will take a while to determine the specific situation.'

Sha Jian nodded slowly, and sighed: 'Until now we have not found any clues, hope we can find the target soon.'

Sha Jian said, rubbing his forehead, feeling a little tired.

Lu Yuan felt it, and found that Evolution Cube hadn't changed, and he felt relieved.

It seems that only Tang Fei has been alienated.

Seeing that Sha Jian and Bernie looked tired, he asked:

'The two of you don't look very good, is it okay?'

Sha Jian greeted Lu Yuan and Mika and went to sit on a sofa. He smiled bitterly and said:

'The impact of this alienation event is too great. In addition to this alienation event that may reach b-level, there are other d-level alienation events that often occur. These are all handled by our night watchmen. The entire city of Ari is too. Big, we are understaffed this time...'

Micah touched his somewhat high hairline and smiled bitterly: ‘The two of us haven’t had a good rest for a month.’

Lu Yuan: ‘...’

Good guys, none of the robots can do what you guys can do...

Sha Jian and Maika are both powerful at the King of War level, but even if they are King of War, their energy is not endless. No wonder they look so tired.

Lu Yuan glanced at the two sympathetically, but admired a little.

After all, their work is also to prevent large-scale harm caused by alienation, and the objects of protection are basically ordinary people.

He smiled and said, ‘If you need help, you can tell me, although I may not be able to help.’

Sha Jian smiled and said, ‘If Elder Lu can deal with this b-level alienation as quickly as possible, it would be a great help.’

Lu Yuan smiled: ‘I will try my best.’

When Lu Yuan left the minister’s office, Sha Jian pointed Lu Yuan to the reception room on the next floor.

The inside is actually the same as a normal guest room, specially designed for guests to rest.

Lu Yuan is obviously a distinguished guest.

He sat on the sofa in the reception room and felt the next shadow avatars.

The shadow clone in Tang Fei’s office did not move. Tang Fei has been working in the office, nothing unusual.

As for Flamming and the others, they are still on their way to the Southern District, and there is nothing unusual.

Lu Yuan thought for a while, his eyes became deep and pitch black, black mist emerged, and more than two hundred shadow clones appeared.

These shadow clones possessed one-third of the battle power of Lu Yuan, and they were almost invincible among the kings of war. Even if the king of war had burned the emperor gene, facing a shadow clone would be a little tricky.

And there are more than two hundred here.

Lu Yuan's thoughts moved, and all the shadow clones disappeared in place, spreading out towards the entire city of Yali.

The shadow clone does not have its own will, unless it is that it has set simple rules of action, otherwise it can only act within the range of Luyuan's perception.

And Luyuan's perception range is hundreds of kilometers, covering the entire city of Yali, so there is no need to worry about being unable to control it.

The reason why Lu Yuan did not directly use his perception ability to monitor the entire city of Yali was because the wider the perception ability spread, the more omissions it might cause, and the fact that the movement was so large that it was easy to be discovered, and it might disturb the alienators.

For this reason, using the shadow clone is a better choice.

Not only because it is more secretive to monitor, if there is an accident, the shadow clone can also be shot at the first time.

After sending the shadow clone out, Lu Yuan sat cross-legged on the bed, quietly waiting for the alienation event to occur.

He was a little curious as to how those who disappeared disappeared.

A few hours passed, the night was dark, and the time passed twelve o'clock.

There was still no alienation incident. Lu Yuan felt Tang Fei's office. Tang Fei was still dealing with the problem and narrowed his eyes slightly.

I don't know if it's because he came here that the aliens are lurking. If this is the case, then the alienation is either Tang Fei's use of unknown abilities, or Tang Fei and the guy who caused the alienation. Connected.

I just don't know which one it is.

...

Southern District, inside a residential building.

Xue Wang stood at the door of a resident, and inside the door was a middle-aged man who looked old and solid.

The middle-aged man still had a trace of horror on his face, and he said:

'At that time, Old Perkin and I drank too much. Old Perkin said he wanted to pee, so he went to an alley. Then, after I waited for a long time, Old Perkin didn't come out. I thought he was drunk. It's in the alley. But I went in and found no one, nothing! Old Perkin was gone! The next day his family came to me and said that Old Perkin had never been home and I was very Helpless, I didn't even see him at the time!'

Xue Wang smiled and said: 'Then think about it carefully, did you see anything unusual at the time? Is there anything strange?'

'An unusually weird place?'

The middle-aged man's eyes flashed and he was lost in thought.

After a while, he smiled bitterly and said: 'My lord, I drank too much at the time. When I saw Old Perkin was not there, I thought he left me and went back. I didn't notice anything unusual... and The alley is so dark...'

At this moment, a black-haired beauty next to Xue Wang suddenly spoke softly:

'look at me.'

Hearing this, the middle-aged man instinctively looked at the black-haired beauty.

He and the black-haired beauty looked at each other, feeling that the black-haired beauty's eyes looked like two whirlpools.

His consciousness suddenly fell into a trance, and when he came back to his senses, he found himself walking a little drunk on a street.

Beside him, an old Perkin with gray and short hair also flushed, drunkly wrapped his shoulders, and sang loudly.

The middle-aged man was taken aback for a moment, always felt like he had a dream before?

But what he dreamed of, he couldn't remember at all.

Then he felt a little funny. He was still walking on the road, how could he dream? Must be drunk and hallucinated.

At this moment, Old Perkin stopped the unpleasant singing and muttered: 'I, I'm going to release the water.'

The middle-aged man glanced at Old Perkin impatiently: 'Go, go! Come back quickly! Hiccups~~'

Old Perkin didn't reply, and staggered towards the side alley.

The middle-aged man waited silently. After a while, Old Perkin hadn't come out. The middle-aged man muttered and sat down on the side of the road staggeringly. He was about to lie down.

After another while, the middle-aged man seemed impatient to wait.

He looked at the dark alley and muttered and complained:

'How long has it been...Old Perkin!'

The middle-aged man yelled, but no one responded.

The middle-aged man paused, stood up cursingly, and walked towards the alley swayingly.

When he came to the alley, he looked towards the alley. The alley was a little dim, but it looked normal and normal. There were only two bags of trash left on the side. Old Perkin didn't even have a shadow.

The middle-aged man scratched his head and cursed: 'Old Perkin, the bastard, he left secretly after putting the water in?'

He cursed and turned back.

The middle-aged man never saw the black-haired beauty who had been quietly following him.

Until the middle-aged man returned home, the environment suddenly shattered like a mirror.

The middle-aged man returned to his senses. He saw several people in front of him, especially the black-haired beauty with jet-black eyes, and a look of awe appeared in his eyes.

'Big, grown-ups, I really didn't commit a crime...'

He was about to cry.

Flamming looked at the black-haired beauty on one side.

The black-haired beauty shook her head.

Everyone sighed slightly, and Flamming smiled and said, 'Just now it was just a necessary process, you can go back.'

Hearing this, the middle-aged man quickly closed the door if he was pardoned.

Xue Wang's faces were a little heavy.

Flamming looked at the closed door and said:

'This is the eighth one, right? Amin even reproduced their scene at the time with the illusion, and there is no clue... It seems that this alienator is very cunning...'

The black-haired beauty named Lin Min asked:

'Then shall we continue next?'

Flamming frowned for a while and said:

‘It’s not going to work like this. The efficiency is too low. We will notify the night watchman team in the Southern District and ask them to gather all the people who have experienced alienation in this area. We will focus on investigating.’

‘good!’

Xue Wang went out of the communicator and began to contact the team belonging to the Night Watch Division in the Southern District.

At the same time, several people also left the residential building and walked out of the community.

It was late at night, and the whole community was very quiet.

At this point, not many ordinary people would hang out outside, not to mention the current period of frequent alienation incidents?

No one was surprised by Flammings.

At this moment, behind Lin Min, who was walking outside the community, a black door appeared silently. Several dark arms came out of the door and grabbed Lin Min.

The whole process was silent, and there was no spiritual power fluctuation.

No one noticed this.

Two arms grabbed Lin Min’s hands, and two arms reached Lin Min’s face.

Just when the dark arms grasping Lin Min’s hands were about to touch Lin Min, a dark figure appeared in Lin Min’s shadow, reaching out and grabbing the dark hands coming from deep inside the door.

The existence in the door seemed to be startled by the sudden appearance of the black shadow, and was stunned, and then the two arms that were caught by the black shadow struggled wildly, and the remaining arms hit the black shadow.

The arm brought a very powerful vigor, but all fell on the black mist, and even the black mist couldn’t break through, so naturally it couldn’t hurt the shadow.

This movement finally attracted the attention of several people in Framing.

Everyone's complexion changed drastically, and they turned their heads abruptly. After seeing the dark shadow behind Lin Min and the dark arm protruding from the door, their pupils shrank, and cold sweat broke out from behind.

Lin Min felt cold, and jumped back for the first time, away from the dark shadow and the dark arm.

'Everyone is alert!'

Flamming roared. From the very beginning, they had been wearing genetic weapons, and now their spiritual power was surging, and they watched vigilantly at the calm-looking black shadow and the dark arm.

Seeing the black shadow ignoring the attacks of the other arms, grabbing a pair of dark hands and pulling out, everyone's faces were shocked and a little confused.

'Two alienated things?!'

'what is this?!'

Seeing that two things that didn't know what they were fighting seemed to be fighting at the moment, they were a little hesitant.

Everyone looked at Flamming.

'Captain! What do we do?'

Flamming looked at the weird dark shadow and the even more weird door that appeared in the space and the dark arm protruding from the door, and his expression kept changing.

The investigation of alienation events is always very dangerous. As a senior night watchman, Flamming has encountered a lot of alienation events. He has encountered all kinds of alienation and alienation phenomena, but like these two He really hadn't encountered a situation where the aliens seemed to be fighting with each other.

Which alien should I help in this situation?

At this moment, he thought of something, a look of sorrow appeared on his face:

‘What do you do? Tell Elder Lu!’

Only then did the others come back to their senses. There is a big boss Lu Yuan at UU reading [www.uukanshu.com](http://www.uukanshu.com), where do they need to make a decision?

As for whether Lu Yuan could rush over quickly, they were not sure.

However, Xue Wang took out his mobile phone immediately and notified Lu Yuan.

...

In the guest room of the Night Watch Division, Lu Yuan didn't expect that this alienation would be so uncomfortable, so he started directly, and the target of his choice was the night watchman?

This is a little too underestimating him, right?

To be honest, Lu Yuan had actually hesitated before, whether he should let this giant hand grab Lin Min inside the door, so that his shadow would enter the strange door along with him.

But Lu Yuan ultimately failed to do so.

After all, he didn't know if the black arm caught Lin Min would kill her immediately. If the black arm were to kill Lin Min after Lin Min was caught, he might be too late to save someone. .

If it is for the mission to give up a life that can be saved, then he still can't make such a decision, let alone his current subordinate in name.

So Lu Yuan still grabbed the black arm before the black arm grabbed Lin Min.

However, Lu Yuan's face turned dark when they heard that there were two alien objects.

It's a pity that he can't explain it. He can't always say that he has an emperor-level dark element transcendent gene, right?

Alien objects should be alien objects, but fortunately, Fleming's reaction is very fast, knowing that he will be dealt with as soon as possible.

Lu Yuan showed a faint smile, and his body disappeared in place.
