

# Chapter 241: My Genes Evolve Infinitely

## BEHIND THE SOUL EATER

Night's Watch Division.

The face of Sha Jian who was working on the top floor changed, and he turned his head and looked out the window.

Very far away, a beam of dark and golden light entangled up into the sky, and only then did the roar and vibrations be heard one after another.

‘what is that?!’

His eyes widened, and his eyes were full of shock. The next moment, his brow furrowed and his body instantly disappeared in place, broke the window directly, and flew out.

At the same time, someone flew out of another office with a broken window, and he glanced at the sand room. It was Mika.

The two looked at each other, their faces were solemn, they didn't speak, and they flew directly in the direction of the beam of light.

And on the 8th floor below, in Tang Fei's office, Tang Fei's face changed drastically, looking pale at the beam of light in the distance, muttering to himself:

‘How could this...how could it be discovered?!’

His face changed, then gritted his teeth, broke the window, plunged into the night, and rushed towards the beam of light.

In the office behind Tang Fei, the shadow in front of the desk suddenly shook slightly, and then calmed down.

And Bernie and Gillian, who were downstairs, came to the window at this moment, looking at the beam of light in the distance, a look of horror appeared.

A solemn expression appeared on Bernie's bookish face, and he muttered to himself: 'I hope nothing big happens...'

Gillian was in a daze: 'Elder Lu Yuan just made such a big noise when he first arrived? Has the alien body been found? How could it be so fast? What an incredible man...'

The entire city of Yali was awakened because of a collision between Lu Yuan and the weird brown-haired man.

...

In the Mingke community, the people in Fulangming saw Lu Yuan suddenly disappear in place, and then a beam of light soared into the sky from a far distance. They were all stunned and dumbfounded.

They glanced at each other and swallowed, feeling a bit dry in their mouths.

Then Framing glanced at the dark shadow and the door with a serious face, and after thinking about it, he said:

'Here is Elder Lu's black shadow watching, it should be fine! Let's go! Go over there and take a look!'

He ran in the direction of the beam of light first, without passing through the gate.

Other people naturally do the same.

Before finding out the effect of the alien material, entering rashly would be deadly, and they wouldn't do such a stupid thing.

...

Deep hole.

When Lu Yuan collided with the brown-haired man, the area where the hot sun's rays and the dense black fog intersect made a sizzle, and strands of black smoke continued to emerge.

The aftermath raged, and the two were shocked and flew out at the same time.

As soon as he flew off, Lu Yuan's body disappeared in place, appearing behind the brown-haired man.

His eyes flashed like a blazing sun, the heavy sword drew across the air, and the hot high temperature escaped.

What ? !

The brown-haired man did not expect that Lu Yuan would appear directly behind him, his face changed slightly, and then he turned into a cloud of black mist before the heavy sword struck his body.

The epee drew through the black fog, sharp roars and screams sounded, and black smoke also came up.

After that, the black mist disappeared in place, appeared not far away, condensed again, and turned into the figure of a brown-haired man.

His face was slightly pale, and the previous moment had obviously caused him harm.

However, as soon as he condensed his body, a fiery high temperature and fierce sword aura came from behind the brown-haired man again.

A hideous color appeared on the brown-haired man's face, and he roared, and strange black shadows appeared on his body. Then the screams disappeared, and then the black shadows disappeared. The brown-haired man's skin became paler, but his breath was more pale. It was much stronger before.

He squeezed the black long sword and turned and slashed towards Lu Yuan behind him. The speed was extremely fast. Even if Lu Yuan's attack was already in front of him, he still blocked him.

boom!

With the sound of the collision, Lu Yuan felt a terrifying force, his face changed slightly, and his body flew upside down.

During the inverted flight, Lu Yuan was about to use the space to move, and a tragic green appeared in the dark eyes of the brunette man.

Then a terrifying roar sounded, Lu Yuan felt that his spirit was blank for a while, his brain was severely painful, and blood was pouring out of his mouth and nose.

What a strong mental attack!

Lu Yuan gritted his teeth and couldn't concentrate on moving in space for a while.

At the same time, black afterimages appeared on the brown-haired man, and the black afterimages showed that he had formed a strange body.

Behind him, there is a solid black body, with more than a dozen dark arms, and all the dark arms carry a dark long sword.

At the next moment, the brown-haired man's face was grim, his body turned into an afterimage and disappeared in place, only a ray of dark sword light chopped towards Lu Yuan with screams that affected his mental power.

Lu Yuan's complexion changed slightly, his legs stepped on the ground, and he dodged the attack backwards. At the same time, the powerful recovery ability brought by the Dahi Spirit Body and Life Aria made him quickly recover from his injuries, and his spirit also calmed down.

After recovering from his injuries, Lu Yuan grinned, his body disappeared instantly, escaped the attack of the brown-haired man, and appeared behind him at the same time.

The epee in his hand carried an extremely dazzling golden light, his spiritual power was condensed and compressed, and his aura skyrocketed.

At the same time, a ray of blood-red light appeared on the blood-colored epee. This is the rage messenger combat skill of the fifth-order imperial epee. speed.

Lu Yuan's epee was cut down, and the originally contracted golden light burst out suddenly.

boom!

The huge golden sword light, which is thousands of meters long, flickered in the black sky, as if another sun was shining.

On the ground, in the city of Yali not far away, everyone seemed to feel the temperature rise, and the heat was unbearable.

Their eyes were full of horror, and they couldn't imagine what kind of person could cause such an impact.

Sha Jian and others who were rushing over were even more horrified at this moment.

Only with certain strength can you feel the vastness and power of this sword light.

They can't imagine what kind of battle is taking place, which is a bit scary.

The golden sword light slashed at the brown-haired man, and the brown-haired man's somewhat horrified face was reflected under the light.

He roared, the black mist surging all over his body, and his body was completely covered by the black mist.

The next moment, the golden sword light slashed heavily on the black mist.

boom!

The roar sounded, the black mist overflowed, the brown-haired man was burning with golden flames, coughed out a mouthful of blood, and flew out.

When he was in the air, the black mist surged all over him, extinguishing the golden flames on his body, his body was obviously scorched, and his expression became very hideous and terrifying.

Lu Yuan's body had appeared next to the brown-haired man again, his eyes were cold, and the heavy sword was severely cut down again.

A look of horror appeared on the brown-haired man's face, and the black mist that had just weakened all over his body appeared again.

The black long sword in his hand appeared again, colliding with the heavy sword.

boom!

The condensed black long sword shattered, and the body of the brown-haired man flew upside down.

The epee slashed on the brown-haired man, leaving a deep mark on his black robe and his body. No blood spurted out, and the wound was directly scorched by the high temperature.

That is, the body of the battle emperor level is strong enough, otherwise such a temperature is enough to turn an ordinary person into flying ash.

Lu Yuan glanced at the seriously injured brown-haired man in surprise. This guy didn't even wear genetic weapons?

Why?

Lu Yuan was a little astonished. Xue Ren was also wearing genetic weapons last time.

Is this guy looking down on him?

No, it can be said that Lu Yuan has completely suppressed him now. He has no reason to seek death, right?

Lu Yuan was a little puzzled.

However, he was only puzzled for a moment, and his movements did not stop.

For this alienated person controlled by the Soul Eater Orb, death is a good destination.

After knocking out the brown-haired man, his body disappeared in place again.

At this moment, the black mist on the surface of the brown-haired man suddenly rioted. The pale brown-haired man also noticed his abnormality, his face changed drastically, and a look of horror appeared.

‘Do not...‘

Before he finished speaking, wrinkles appeared on his skin and his body became old.

In the next moment, his whole person turned into a mummy, and the black mist on his surface surged and became more and more dense.

The black mist formed a storm, wringing the corpse into powder with a terrifying aura.

In the end, the black mist condensed a huge black shadow that was a hundred meters high.

There were a large number of unwilling and resentful faces on the dark shadows, these faces opened their mouths and kept screaming.

Lu Yuan squinted his eyes and his face became more solemn than before.

The strength of this black mist giant was stronger than that of the brown-haired man before.

The previous brown-haired man was at the Battle Emperor level, Lu Yuan had not kept his hands, Da Ri Spirit Body, Hei Gang Jin, Beng Tian Slash, and even used the combat skills on his weapons.

Because the battle armor is a Tier 4 imperial battle armor, it does not have combat skills. The only thing that Lu Yuan can use now is a Tier 3 emperor level crest, the warrior blessing effect of the emperor crest and another Tier 4 emperor level. The heraldic rainbow blessing effect can now be used.

but...

Lu Yuan glanced around, and he could feel that someone was not far from here, and was rushing here quickly.

But because he hadn't come here yet, Lu Yuan still had a little time.

Just try other combat skills.

The corners of Lu Yuan's mouth raised, and a smile appeared.

The light on his body that was originally like the sun seemed to be even more dazzling.

Sheng Yao's Radiance.

As a combat technique of the light system, the blessing effect of the Glory of the Holy Glory is naturally extremely powerful.

Even with the blessing of the Great Sun Spirit Body, using the black steel power and the \*\* furious Lu Yuan, the aura skyrocketed again, doubled directly, and a terrifying aura emerged.

Lu Yuan was very satisfied with the power of the imperial combat skills.

As if feeling the powerful threat posed by Lu Yuan, the black mist giant let out an angry roar, and a dark epee appeared in his hand, slashing towards Lu Yuan.

Ascending such a huge Lu Yuan, facing the attack of the black mist giant at this moment, his heart has become very calm.

For him now, such an attack is a bit slow.

Lu Yuan's body instantly disappeared in place, and appeared behind the black mist giant in the next moment.

The Black Mist Giant had just reacted, before he even had time to do anything, a powerful golden sword light had already passed through the Black Mist Giant's body.

The black smoke burst forth, and the strange face on the black mist giant screamed more and more intensely.

If it were before, Lu Yuan's mental power would still be affected to a certain extent, but now Lu Yuan, who is blessed by the Great Sun Spirit Body and the Holy Glory at the same time, has no fluctuations in his spirit.

Lu Yuan saw that the scars that had been torn apart on the Black Mist Giant's body had begun to recover. He narrowed his eyes, and his body once again disappeared in place, appearing on the other side of the Black Mist Giant, and another golden sword light slashed past him. The body of the black mist giant.

Afterwards, before the Black Mist Giant recovered, Lu Yuan's body appeared in all directions around the Black Mist Giant at the same time. The terrifying golden sword light wrapped the Black Mist Giant inside, and the Black Mist Giant could almost be seen outside. To the terrifying golden ball of light, it is like a golden sun the size of a hundred meters.

It was not until Lu Yuan discovered that the black mist giant's screams were getting weaker and weaker and his aura almost completely dissipated before Lu Yuan dissipated the glory of Sheng Yao.

His face was a little pale, and he kept breathing.

At the same time, using the two emperor rank combat skills with all his strength, even with Lu Yuan's current spiritual power, it was somewhat overwhelming.

In a short time, Lu Yuan's spiritual power had almost been consumed.

But this was also because Lu Yuan didn't use the spirit crystal to restore his spiritual power.

A seventh-order spiritual crystal appeared in Lu Yuan's hand, which was quickly absorbed. In a short time, the spiritual crystal shattered and turned into powder, and the spiritual power in Lu Yuan's body was full.

At this time, Lu Yuan also felt a few powerful auras approaching quickly.

He glanced at the black mist giant who was only about two meters high and only a few faces left on his body...now it shouldn't be considered a giant anymore.

The aura of this black mist person has also become very weak, almost at the rank of warlord.

Lu Yuan used the Great Sun Spirit Body and continued to wield a few sword lights, completely smashing the black mist man.

After the black mister dissipated, a pitch-black bead was left in the center.

Soul Devourer.

Lu Yuan narrowed his eyes slightly and looked at the familiar bead.

This is exactly the same as the Soul Devourer he saw in Xili City. UU reading [www.uukanshu.com](http://www.uukanshu.com)

Could it be that the soul eater that Sister Qinghe sent to the night watchman headquarters has disappeared?

Or is there another Soul Devourer ?

Regardless of the possibility, it is not very good.

If the Soul Eater in the Night Watch Headquarters disappears, it means that the underground containment room at the Night Watch Headquarters is actually not very safe, and other alien objects may also be taken out.

And if another Soul Eater appears...

Lu Yuan still remembers when Xue Ren told him that this Soul Devourer was given to him by someone.

If this Soul Eater was also given by someone else, does that mean that person might have given out more Soul Eater ?

Only the Soul Eater that had grown to the rank of the Battle Emperor was already so powerful, Lu Yuan even felt that the strength of the Battle Emperor was definitely on the upper side.

So what if other Soul Devouring Orbs appeared and reached the level of the war emperor ?

What if there is more than one ?

Lu Yuan couldn't help but frown when he thought about it, feeling extremely stressed in his heart.

Not only that... who is the guy who sent this Soul Devourer ? What is the purpose ?

Why was the Soul Devouring Orb suddenly given out ? Where did he come from this Soul Eater ? Could it be mass-produced ?

The more Lu Yuan thought about it, the more he felt that something was not so good.

Thinking about it this way, Lu Yuan hoped that the security capabilities of the underground storage room would not be so strong.

At the very least, this possibility could make up for it. If it was really the second possibility, Lu Yuan felt his head grew bigger.

At this moment, Lu Yuan's expression suddenly changed, and he felt an incomparably rich aura of unknown blending into his body.
