

# Chapter 242: My Genes Evolve Infinitely

## METAMORPHOSIS OF ALIENATION CUBE

The breath of the unknown merges into Lu Yuan's body and enters the evolution cube.

Lu Yuan saw the blue light flashing on the Evolution Cube, and the light became brighter and brighter.

boom!

There was a roar in Lu Yuan's mind.

The Evolution Cube stopped spinning and stopped, continuously releasing extremely dazzling blue light. The dazzling light enveloped the position of the entire gene chain, and the surrounding white mist surged.

An extremely refreshing sensation emerged from the deepest part of Lu Yuan's body, his body was sublimated, and his gene chain changed.

In the faint blue light, the Evolution Cube was once again bigger, as if there were stars flashing in it, which seemed very mysterious and mysterious.

Lu Yuan felt the strength of becoming stronger again, the corners of his mouth raised, and a smile appeared.

The evolution cube has changed.

After absorbing the unknown aura from tens of thousands of alien objects, and adding the unknown aura from the Soul Devourer this time, it finally completed the transformation.

A message came from the Evolution Cube after the transformation.

The evolutionary effects of genetic weapons and spiritual creatures blessed on the genetic chain of the land boundary have been strengthened to a certain extent.

It is not certain to what extent it will reach Lu Yuan, but it must have surpassed the emperor rank.

In addition, genetic weapons, charms, and spiritual objects that are not blessed on the genetic chain of Luyuan itself can also be evolved.

However, unlike the evolution of the items blessed on Lu Yuan's genetic weapons, the items that are not blessed on Lu Yuan's body will consume several or even ten times more spiritual crystals than the former.

Even so, Lu Yuan was still pleasantly surprised.

If something evolves to a very high quality, the value is not as simple as tenfold.

The only thing that is not clear right now is what is the limit of evolution for items that are not blessed on the genetic chain of the land margin.

Lu Yuan guessed that there might be some items that were not as good as blessings on his own genetic chain.

After all, the Evolution Cube itself relies on its own gene chain, and it will be less difficult to evolve the items blessed on its own gene chain.

It can be seen from the consumption of spirit crystals.

Even so, Lu Yuan is still very satisfied, perhaps he can use the Evolution Cube to obtain a lot of resources.

As long as there are enough raw materials, items after evolution should exceed the cost of evolution.

Of course, if it is too precious, Lu Yuan feels that he should keep it for his own use first, so as not to be bought by some hostile racial forces, such as kobolds, and then turn against them humans.

Lu Yuan now has an idea, that is to evolve the genetic liquid for strengthening spiritual power, perhaps his cultivation speed will increase again.

This idea can be put into practice again at that time.

In general, the effects of evolutionary cube transformation are extremely powerful.

Lu Yuan was very satisfied.

After the evolution of the Evolution Cube, Lu Yuan felt a few breaths quickly approaching from the sky.

He glanced at it. It was Sha Jian, Maika, and several genetic warriors that Lu Yuan didn't know, all of which were of the Warlord level.

Seeing the mess in an area of several kilometers, the pupils of the few people in the sand shrank.

This is no longer the battle destructive power of the King of War. In the King of War, only the strong can do this, right?

Several people saw Luyuan floating in the air and found that the opponent was no longer there. Only in front of Luyuan was a tiny bead floating.

Sha Jian and Maika looked at each other, a look of awe appeared in their eyes, and they quickly flew towards Lu Yuan.

'Elder Lu! Are you okay? We are a bit late.'

Lu Yuan looked at Sha Jian and found that their expressions were more respectful than before.

He smiled and said, 'It's okay. There was an alienated human being here. I dealt with it, leaving behind this alien.'

Lu Yuan pointed to the Soul Devouring Orb.

Everyone was shocked, Sha Jian glanced at the ground, and asked dryly:

'Elder Lu and Lu, the strength of this alienated human being is the Emperor of War?'

Lu Yuan nodded: 'Yeah.'

Everyone took a deep breath, and there was a look of fear in their eyes.

‘Thank you Elder Lu for your action! Otherwise, we in Yali City will probably suffer heavy casualties.’

A war emperor, they can’t stop it!

Lu Yuan smiled and said, ‘The responsibility lies. This is what I should do.’

‘Elder Lu Gaoyi!’

After that, Sha Jian looked at the Soul Devouring Orb, and asked some fearful questions:

‘Elder Lu, what is this alien substance?’

Lu Yuan squinted his eyes, and a solemn color appeared in his eyes:

‘S-grade alien object, soul eater.’

‘S grade?!’

Everyone exclaimed, looking at the Soul Devouring Orb with horror, and the whole body was cold.

At the Warlord level, everyone understands the hazards of alien objects, and the hazards of s-level alien objects correspond to the war emperor!

Lu Yuan nodded and said with a smile: ‘I will bring this alien object back to the headquarters. Don’t worry.’

Lu Yuan thought for a while, then said, ‘By the way, do you know this person?’

With a click of his finger, a spiritual image appeared in front of them, it was the brown-haired man.

Seeing this brown-haired man, several people in Sha Jian looked at each other, and then they all shook their heads.

Lu Yuan squinted his eyes, and then smiled: ‘This person is the one who mastered Soul Eater before. Go and find out who he is. He should have disappeared before the alienation appeared. Check it out, and he disappeared. Have you met anyone before?’

‘Yes!’

Sha Jian nodded quickly.

Lu Yuan smiled: ‘Okay, the situation here is almost the same now. I will wait for my people to come over and take care of this Soul Devourer. Now you go to comfort the people.’

‘Then there will be Elder Lao Lu.’

Sha Jian and Maika bowed and saluted. The other warlords should be strong in the big family of Yali City. They opened their mouths and wanted to say something, but noticed the eyes of Sha Ma and Maika, they closed. He said goodbye to Lu Yuan one after another, then turned and left.

On the way, an old man looked at the sand room and asked:

‘Minister Sha Jian, this is the first son of Lu Yuan Lu that day?’

‘Yeah, Minister Shajian, your name is Elder Lu Yuanlu? Could it be that Lu Yuan has joined the night watchman? Shouldn’t he be in the imperial capital? How come to Yali City, is it to deal with the alienation phenomenon?’

A middle-aged man asked curiously.

A touch of color appeared on Sha Jian’s face, and he smiled and said:

‘This is the newly promoted honorary elder of our night watchman. This time he came to Yali City for that alienation.’

As he said that, he couldn’t help sighing: ‘Fortunately, it is Elder Lu. I didn’t expect this alienation to reach the Battle Emperor level. It’s terrible.’

Michaela on the side nodded: ‘Yes, this alienation phenomenon has not been visible before. We thought it was at the most warlord level, but we didn’t expect it to reach such a terrible point. If it weren’t for Elder Lu, then I’m afraid this time the loss is really heavy.’

The face of the old man who had spoken before showed a look of wonder: ‘However, I did not expect that I, Elder Lu, should have such a strong strength. I heard that he just

disappeared from the Tianjiao list a few days ago, and he should have broken through to the King of War level. Right? Just broke through to the Battle King level, and you have the power of the Battle King level? It's terrifying.'

'Indeed, I don't know exactly what gene this Elder Lu burned. Have you seen it before? The hot high temperature is like the sun. I'm afraid it is not an ordinary extraordinary gene.'

'...'

Everyone sighed and left.

.....

At the same time, Fleming and others also came to the location of Lu Yuan, and saw the sword marks several kilometers long that can be seen everywhere on the ground, as well as deep pits with a radius of 100 meters. They are all scalp hairs. numb.

'This... Elder Lu did this?'

Flamming was a little at a loss, and the others were also staring.

Lu Yuan in the air saw the Flemish people coming, and a group of sun rays condensed in his hands, enveloping the soul eater in the sky.

The Soul Devouring Orb shook, but unable to break free, Lu Yuan took the Soul Devouring Orb to the ground and came to the Flemings.

Fleming's people suddenly bowed slightly: 'Elder Lu.'

At the same time, they glanced at the Soul Devourer by Lu Yuan.

Lu Yuan smiled: 'How did the alien object be contained?'

'Is this the alien object this time?'

Fleming spoke, then took out a black metal box and handed it to Lu Yuan.

Lu Yuan put the Soul Devouring Orb like a black metal box, and after closing the lid, he put him into the war pattern space.

The atmosphere fell silent, Xue Wang couldn't help but said:

'Then, what, are we over? The alienation phenomenon has been dealt with? Are we leaving?'

Others are a little dazed.

They have also experienced a lot of the handling of alienation. It takes more than a month for the fast ones, and it may even take more than a year for the slow ones.

It's never been so fast like today, the day comes, and the day ends?

This efficiency is simply outrageous.

Lu Yuan smiled: 'Go back and rest first, there is still something to deal with.'

After all, we haven't found out who the brunette man is. Besides, there is Tang Fei.

Lu Yuan squinted his eyes and found that Tang Fei had met Shajian and Mika on the road, and they had taken them home.

Tang Fei's previous performance should have known information about the brunette man.

Otherwise he would not be so surprised.

I just don't know if he is the one who gave the brown-haired man the Soul Eater.

If not, is there any connection with the person who will eat the soul eater and the brown-haired man?

Lu Yuan wanted to observe Tang Fei for a while. He didn't know what Tang Fei had to do with the brown-haired man. If there were people behind him, if he was caught recklessly, he might startle him and hide him in the dark. People are more vigilant.

Lu Yuan felt a little big.

He felt that he still had to report this matter.

He is definitely not as good as the whole official organization to investigate by himself.

Let's check the situation of the brunette man first.

Hearing Lu Yuan's words, Flamming nodded their heads: 'Okay.'

'That's right.' Lu Yuan thought of something and said, 'Seal the door first and take it back. This is also an alien.'

Lu Yuan glanced at the direction of a deep hole.

He took Flamming and the others to the edge of the pit.

At the bottom of the pit, the ordinary-looking door was lying on the ground, and there was no damage under such damage.

By the way... the unknown breath of this alien substance can also be absorbed.

I haven't been able to absorb it yet, and I don't know if it's because this door is open?

Lu Yuan and Flamming descended to the deep hole, Lu Yuan's hand condensed with the hot sun-like rays of light, pressed the edge of the wooden door, and closed the door casually.

With a bang, the wooden door closed, and then it began to vibrate, trying to get out of Lu Yuan's control, but it was a pity that the strength of the wooden door was far from that of Lu Yuan.

Flamming skillfully took out some black ropes and wound up the wooden door.

At this moment, an unknown aura merged into the evolution cube inside Lu Yuan's body.

Lu Yuan's eyes lit up and a smile appeared.

Absorbed.

After the unknown aura melted into Lu Yuan's body, the vibration of the wooden door suddenly calmed down.

Lu Yuan glanced at the wooden door in surprise, and thought of the previous a39.

It seems that the unknown breath is indeed very important to the alien.

I just don't know what this unknown breath is.

Lu Yuan didn't think too much anymore, putting the sturdy wooden door tied into the war pattern space.

After that, everyone returned to the night watchman headquarters.

The night watchman headquarters was brightly lit, and many people were cheering and even holding a banquet.

After Lu Yuan listened to it, he discovered that the news that the alienation phenomenon had been cleared had been spread by several people in Shajian.

During this period of time, the Night Watch Division was under great pressure. Hearing this good news, I was naturally very happy.

Even the high-level officials of the Night Watch Division, such as Mika, Sha Jian, and Tang Fei, were among them.

Seeing Lu Yuan and several people coming back, everyone cheered suddenly.

'Elder Lu Yuan!'

'Elder Lu Yuan!'

'Elder Lu Yuan!'

A few people in the sand room greeted them, and the sand room smiled and said:

'Elder Lu, they are under too much pressure. After hearing that the alienation has been eliminated, they all couldn't hold back. Don't blame them.'

Lu Yuan smiled, 'I can understand.'

Tang Fei smiled: 'Elder Lu's strength is too strong, and the methods are really powerful! Even the alien objects we found were easily found by you. How did you do it?'

Lu Yuan smiled and said: 'It's just a little trick. I just didn't expect that the alien object is stupid. I started to do it on my subordinates when I first came.'

Tang Fei also smiled and said, 'That alien body does not have long eyes.'

Lu Yuan smiled when he felt the tremor of the Evolution Cube in his body.

This Tang Fei is quite good at acting, he did not behave like this in the office before.

Lu Yuan looked at the sand room next to him: 'The news about the brunette man~[www.mtlnovel.com](http://www.mtlnovel.com)~ have you checked it?'

'The people in the ruling agency have been asked to check, and there should be detailed information tomorrow.'

'That's good.'

Gillian smiled like water, 'Elder Lu, the alienation has been eliminated, why don't we have a drink together?'

Several others are also looking forward to seeing Lu Yuan.

Seeing this, Lu Yuan couldn't refuse, and smiled and nodded: 'Okay, then.'

.....

Early the next morning, the Sha Jian, who had experienced a night of banquet, came to Lu Yuan's face with excitement:

'Elder Lu, the person you asked us to check yesterday has already been found.'

He projected a piece of information in the air.

Lu Yuan looked at it.

The brunette man is called Hume Cize. He is an ordinary Arli City resident. He is not even a genetic warrior. At the age of 20, his parents died in a car accident. After that, he lived alone and beaten. Odd jobs are now thirty-five years old. They haven't fallen in love or started a family. Their hobby is playing games. It seems that they intend to live a lifetime by themselves.

And more than three months ago, Hume suddenly disappeared. He didn't even go to the odd job shop to ask for leave. He left straight away until he was discovered by Lu Yuan last night.

In addition to basic information, there are also records of whereabouts and positioning for a period of time before Hume disappeared, as well as some monitoring pictures.

But in all the pictures, Hume was alone, and he didn't have any special contact with people.

Whereabouts positioning is also very normal, nothing special.

Lu Yuan frowned, it was really difficult to find the person who gave him the Soul Eater.
