

Chapter 252: My Genes Evolve Infinitely

EROSION

Lu Yuan didn't think much about it.

He smiled and nodded confirming: 'I want to stay.'

Seeing Lu Yuan insisted, the Heavenly Underworld Saint didn't say much, he nodded: 'If this is the case, then stay.'

He opened a space door casually, and said: 'Yeye, you go back first.'

nodded every night and looked at Lu Yuan: 'Be careful.'

Lu Yuan smiled: 'Don't worry.'

After Ye Ye left, the Heavenly Underworld Sage looked at Lu Yuan with a serious face: 'I need to find the source of this alienation first, so that this alienation will not spread out and affect other areas. You can help to deal with it. Some alienated fierce beasts of king-level and war-sovereign level...If you encounter a beast of imperial level, you can do it if you can fight, and you can run if you can't. It depends on yourself, you have not weak space combat skills, you don't need it. Let me talk more?'

Lu Yuan's face also became serious, and nodded: 'Okay, I understand.'

'Yeah.' The Heavenly Underworld Sage nodded, then glanced at Lu Yuan: 'Be careful, don't be aggressive, you are still young.'

Lu Yuan suddenly felt that the Heavenly Underworld Sage seemed to be pretty good, and nodded and said, 'Thank you, Sage Sage for your concern, I will.'

After , the Heavenly Underworld Saint disappeared in place, leaving Lu Yuan here alone.

The fierce beasts in the distance began to approach one after another at this moment.

Lu Yuan glanced at the approaching fierce beast, grinned, and showed a slight smile: 'Come on.'

Da Ri spirit body was running at full force, Lu Yuan's body was full of golden light like the sun, golden flames burned, and the powerful aura turned into a wave of air, sweeping in all directions.

'It's a big fight.'

Holding the epee, he rushed to a black demon tiger that was extremely alienated, with several more feet and many tentacles.

.....

Nether Palace Square.

The space gate emerged, and I walked out of it every night and found that the square was very quiet.

She glanced around and saw that everyone was looking serious in the air.

Yeye glanced in midair and found that there were three light curtains, two of which were only raging by fierce beasts, and there was also Lu Yuan, who was full of golden light in the light curtain, was fighting with the fierce beasts. The terrifying destructive power raged on the surrounding stone walls. One after another collapsed, the ground was in a mess.

Ye Jing and the elf man fell into silence as they watched Lu Yuan's terrifying combat power.

And Yan Liang clenched his fists, his handsome face was icy, his eyes flashed, and after being silent, he slowly said:

'...so strong!'

Ye Heng beside nodded and sighed: 'It's too strong, how can it be so strong?'

They were in the Valley of Night and couldn't understand Lu Yuan's performance, but now through the light curtain left by the Heavenly Underworld Saint, they discovered that Lu Yuan's strength was much stronger than theirs.

are all kings of war, and they are all geniuses on the Tianjiao list. I didn't expect that the gap in strength would be so big.

For Yan Liang, who was once the number one on the Tianjiao list, he felt a little shocked, unbelievable.

But the fact is right in front of him, Yan Liang is not a person who will not accept the fact.

glanced at a few people every night, then withdrew his gaze, staring at the light curtain closely.

Xiaobai walked up and said, 'His Royal Highness, Master Lu Yuan, he?'

Ye Ye Ye did not look away from the light curtain, and said: 'He intends to stay there to help.'

Xiaobai opened his mouth when he heard the words, did not speak, but nodded quietly.

After the Ye Mu Jiren on the side emerged from the phenomenon of alienation, his face became extremely serious.

Yemu slowly said: 'Uncle San, please take someone to the area near our Nether City to see, there are other alienation phenomena appearing.'

A somewhat old cat nodded slightly, his face condensed: 'Okay.'

said, his body disappeared in place.

He continued to speak: 'Ye Yu, you stay and look at Nether City, other people, we also go to the Valley of Night to help.'

A beautiful catwoman with a hot body nodded: 'I'll take a good look at this place, you can go, Brother Huang.'

Yemu nodded, and disappeared in place with the others.

Night Valley is some distance away from Nether City. They don't have the terrifying power of their ancestors. They can forcibly tear the space and go to Night Valley, but at the speed of the war emperor, it doesn't take long.

Soon, the only powerful cat people who stayed here before were Ye Yu alone, and there were juniors like Ye Ye, and some of them hadn't even arrived at the King of War level.

Many juniors looked at the light curtain and whispered.

'Sister Ye Ye Huang's friend is so amazing, you see that he killed the alienated king-level beast so easily, the previous brother Ye Jing couldn't even evade...'

A beautiful cat girl voice is excited, her eyes flickering when she sees Lu Yuan.

The corners of Ye Jing's mouth on the other side twitched abruptly, and his face suddenly turned black.

The corners of Ye Heng's mouth raised slightly, and he glanced at Ye Jing weirdly, then looked at the light curtain again, and sighed slightly.

Another cat-man boy had sharp eyes and said:

'It would be nice if I could be so strong in the future.'

‘This eldest brother named Lu Yuan was the number one genius on the Tianjiao list, right? Ye Xiao, what do you think? You can go to the Tianjiao list and talk about it...’

Compared with Ye Mu and the others who have left, the younger generation of cat people are quite calm at the moment, without any signs of tension.

In their view, there are ancestors, and the phenomenon of alienation cannot affect them at all.

.....

At a place where the light curtain cannot be seen, there is a weird and twisted space gap in the sky, and wisps of evil green light can be seen in the gap.

However, at this moment this weird and distorted space gap is slowly closing, as if an invisible force is compressing this gap.

At this moment, the darkness surged, and the Heavenly Underworld Saint suddenly appeared.

He glanced at the gap in the space that was slowly closing, and slowly frowned.

‘Sure enough... Has it eroded to this position?’

His face was sullen, and there were wisps of black light flowing around his body, which was even more powerful and profound than the power of the dark element that Lu Yuan had mastered.

Strands of incomparable darkness envelop the gap.

The invisible force that was closing the gap seems to have been blessed, and the speed has been greatly accelerated. At this speed, the gap can be completely closed in less than ten seconds.

At this moment, a powerful green light shot towards the Heavenly Underworld Saint.

The Heavenly Underworld Saint stood in place, just hit by the green light.

His body turned into a cloud of black mist and dissipated, and the green light did not diminish, and landed on a rock wall.

Boom! !

A terrifying roar sounded, and the entire space was covered by green light.

When the green light dissipated, the narrow space before it turned into a huge void at this moment.

The void is almost a hundred kilometers in size, and there is nothing in it except for the gap in space.

A giant tiger with sharp horns suddenly appeared. The tentacles on its back were connected together, as if forming a pair of condensed flesh and blood wings. On the wings were densely covered eyes, flashing with a green light.

At the same time, the darkness surged and condensed into the Heavenly Underworld Saint.

Sky Underworld Sage looked at the weird giant tiger in front of him, narrowed his eyes, and showed a sneer:

‘It’s just a mere emperor, even if it is alienated, the gap between it and the battle saint cannot be made up.’

A wisp of black mist appeared all over his body and disappeared into the spot instantly. The next moment, the giant tiger suddenly exploded before he could make any movement.

Its flesh and blood splashed all over the space, but in the next instant, all the flesh and blood stagnated in place, and then slowly condensed towards the center, again condensed into a mass.

This time, the image of the giant tiger completely disappeared, turning into a mass of condensed flesh and blood.

There are a lot of eyes, mouth, and tentacles on the meat.

The tentacles danced, his mouth opened and he screamed and whispered, and his eyes flashed with weird green light.

Heavenly Underworld Saint slowly frowned, his face gradually becoming cold.

‘...It’s no wonder that it can erode to the lower level, it’s really not weak.’

Darkness slowly spilled out of the Heavenly Underworld Saint, covering the entire cavity.

Even if Lu Yuan, who possesses the emperor gene, enters this dark area at this moment, he will turn into a blind man, and all his senses will be stripped off in the first place.

And at this moment in this dark space, there are flashing green lights from time to time, and there is a roaring sound, it seems that a terrible battle is going on.

.....\

On the other side, Ye Mu and more than twenty cat-men war emperors appeared at the entrance of Night Valley.

That is an underground passage.

At this moment, there are teams of cat soldiers guarding outside the passage.

Headed by is a powerful war emperor-level powerhouse.

This warrior-level catman is a summoning warrior. With his wand in his hand, he swung his staff and summoned a large number of fierce

beasts, blocking the alienated fierce beasts that were constantly impacting the entrance, his face was extremely serious.

After seeing Ye Mu, he said with a serious face: 'Your Majesty, there has been an abnormal movement in the Valley of the Night, and the fierce beast inside seems to be alienated.'

'I know.'

Yemu nodded.

At this moment, a terrifying roar sounded, and Ye Mu's face changed slightly, and they looked at the entrance.

A huge ground armor savage dragon rushed towards the entrance. The ground armor savage dragon had huge claws on its body. Each blow could smash a summoned fierce beast and quickly rushed out of the fierce beast group toward the entrance. Entrance shock.

Seeing this scene, Ye Mu frowned slightly:

'Emperor-level fierce beast has also been alienated. Kill it first!'

'Yes!'

.....

Lu Yuan's epee slashed horizontally, and the golden sword light hundreds of meters long cut an alienated unihorn demon wolf into two in an instant.

An unknown aura melted into Lu Yuan's body.

'Roar!!'

With a frantic roar, Lu Yuan's body disappeared in place, and a green light shot from where Lu Yuan had been before.

Boom! !

The green light hit the rock wall, which shattered and turned into a huge space.

Lu Yuan appeared not far away, glanced at an alienated python behind him, and frowned slightly.

Imperial-level alienated fierce beast, with extremely terrifying aura.

The Emperor-class alienated giant python rushed towards him, Lu Yuan didn't think much, his body disappeared in place.

Seeing that Lu Yuan had disappeared, this imperial alienated giant python sensed the surroundings, but did not sense the aura of Lu Yuan. It suddenly roared and roared. Each eye on its body shot out a green light, destroying the surrounding area extremely thorough.

And tens of thousands of kilometers away, Lu Yuan's body reappeared.

He started looking for a new goal again.

Emperor-level alienated fierce beasts, if you really want to fight, Lu Yuan can still play with all his best, but it is too troublesome, very inefficient, and will expose too many hole cards.

Since even the Heavenly Underworld Saints have come, the Underworld Empire must have reacted that day, and he doesn't need to force his way out.

Hunt down the king-level fierce beasts, and collect the unknown breath is enough.

There are actually many fierce beasts in the Valley of the Night. There are many war-sovereign-level and king-level fierce beasts, and there are only more than 20 royal-level fierce beasts.

Lu Yuan and Ye Ye killed several imperial fierce beasts before they were alienated, and now the number is even smaller.

The probability of him encountering the royal-level beasts is actually not high, and he can easily kill batches of war-sovereign-level and king-level beasts, laying the foundation for the evolution of the cube.

Time passed. After Lu Yuan killed dozens of king-level beasts and a large number of war-sovereign-level beasts, he suddenly heard the sound of battle in the distance.

He paused slightly and flew towards the direction of the battle.

Soon, Lu Yuan saw two cats fighting against a group of beasts.

These fierce beasts have six king-level fierce beasts, two royal-level fierce beasts, and a large number of war-sage-level fierce beasts.

The auras of the two cats are extremely powerful, the king-level fierce beast is in their hands, and they are seriously injured and dying with just one blow.

Even if they were two imperial beasts, they were stabilized at this moment, and it wouldn't be long before they would be killed.

A hint of surprise flashed in Lu Yuan's eyes.

War Emperor?

deserves to have the power of the war saint, the war emperor will come over so soon.

And, I'm afraid it's not just these two, right?

Lu Yuan thought about [~www.mtlnovel.com~](http://www.mtlnovel.com) and then flew over:

'Two seniors, I will help you!'

When the two cats heard the sound, they both turned their heads and looked over.

After seeing Lu Yuan, a tall cat man with a battle axe grinned: ‘So it’s you, a human kid. Be careful, it’s not easy to alienate the beast of the Emperor.’

The other man with a cold face, a slightly thin cat-man nodded to Lu Yuan, and pulled out a smile.

Lu Yuan found out that these two cat-men war emperors seemed to have a good impression of him ?

Lu Yuan didn’t know why, he just smiled and said, ‘Thank you senior for reminding me, I will pay attention.’

Lu Yuan rushed to a king-level fierce beast that was covered with hideous wounds, the golden sword light flashed, and he directly killed it.

A trace of unknown aura melted into Lu Yuan’s body, and Lu Yuan was a little bit beautiful.

It’s pretty good. There are two big warlords who are working hard. He only needs to make a knife. It can easily reap the unknown breath, and it feels a bit like being taken away.

Lu Yuan quickly killed all six king-level fierce beasts. The other war-sage- level fierce beasts were almost dead in the aftermath of the war emperor and the imperial-level alienated fierce beasts. The unknown aura was also absorbed by Lu Yuan. .

The remaining two imperial alienated fierce beasts were also killed by the two cats and the emperor.

Lu Yuan glanced at the corpse of the royal-level alienated fierce beast, two unknown auras five or six times more than the king-level alienated fierce beast merged into Lu Yuan’s body.

Lu Yuan was overjoyed and found a good way to reap the unknown breath.
