

Chapter 253: My Genes Evolve Infinitely

END

Lu Yuan thought that following these war emperors, maybe he didn't need to work too hard to get a lot of unknown aura.

is not only the warlord level and the king level, but also the unknown aura of the imperial level alienated fierce beasts.

Didn't you say that there are emperor-level fierce beasts? I don't know if it has been alienated. If it has been alienated, it might be possible to get the unknown aura of an emperor-level fierce beast.

Hmm... Maybe the Heavenly Underworld Saints are going to hunt down the alienated beasts of the emperor rank?

After , if there is a chance to encounter it, it may be a big gain.

Just as Lu Yuan was thinking, the sturdy cat-man Zhandi smiled and said:

‘Human kid, I didn't expect you to stay and deal with the alienated beasts, it's good.’

, the indifferent cat man Zhandi said:

‘If you have a chance, you can go to the upper level, where there are many alienated beasts.’

Lu Yuan smiled and nodded: ‘Thank you senior for reminding me, I will.’

He finally knows why these two cats and war emperors treat him well.

Was it because he stayed to hunt and kill alienated beasts?

As for going to the upper layer of the land of origin, Lu Yuan had already planned to go after hearing what the Heavenly Underworld Saint had said before.

Entering the upper strata of the origin, hunting alienated beasts, and carrying out evolutionary cube transformation has also become one of the plans of the land.

‘Would you like to hunt down alienated beasts with us?’

The strong cat-man war emperor invited.

Lu Yuan smiled and shook his head: ‘I can’t keep up with the two predecessors. I may be dragging my feet. I can just hunt down the alienated beasts at and below the king level by myself.’

‘That’s fine, if you encounter an alienated beast of the imperial rank and release its aura, there are others besides us. As long as the Emperor Zhan is nearby, he will definitely come over.’

‘clear.’

After , the two cats and the emperor left, and Lu Yuan also disappeared in place.

Lu Yuan certainly did not leave because he was afraid that he could not keep up with the speed of the two cats and the emperor.

He plans to go to see other places. The Catman War Emperor also said that there are other war kings here, moving to the battle area with strong breath, and he should be able to encounter other war kings hunting and killing imperial beasts. He used to absorb the unknown. The breath is just fine.

In addition, by the way, I also look for an emperor-level alienated fierce beast, maybe there will be gains.

After , Lu Yuan hunted down the king-level alienated beasts and war-sovereign-level alienated beasts, while looking for other royal-level beasts.

I have to say that there are a lot of war emperor powerhouses in cat people. It didn’t take long for Lu Yuan to meet several war emperor powerhouses who were fighting against the emperor-level alienated beasts, and he gained a lot of unknown aura.

.....

The huge hole where the space gap is.

The darkness suddenly distorted, and then, a strange green light shot out, penetrating the darkness, and a piece of meat full of scars rushed out of the darkness and flew to the distance.

The darkness converged, revealing the figure of the Heavenly Underworld Saint.

The Heavenly Underworld Saint's face was slightly pale, the black leather armor on his body was a little damaged, and his aura was weaker than before.

At this moment, the space around his body is distorted, seeming to tie him inside.

A look of sacred color appeared on the face of the Heavenly Underworld Saint, and the whole body was surging, and the twisted space around him made a clicking sound as if glass was broken.

As time passed, the click sound became more and more intense, and soon, the roar sounded, and the violent aftermath raged away.

The Heavenly Underworld Saint broke free from the shackles, his face was cold, and he gave a cold snort:

‘Do you think you can run away?!’

His body instantly disappeared in place, chasing after the weird piece of meat.

In another area, Lu Yuan killed a king-level alienated beast with a sword.

He exhaled slightly.

After a long time after the alienation, Lu Yuan found that the number of fierce beasts around was decreasing.

Lu Yuan himself killed a lot of king-level fierce beasts and war-sage-level fierce beasts. Of course, most of them were killed by the cats and war emperors who came to support them.

From time to time, he saw a lot of the dead beasts, and absorbed the unknown breath from those dead beasts.

Lu Yuan discovered that the unknown aura would continue to decrease as the alienated beast died.

If you die for too long, you won't be able to absorb the unknown breath.

There are some corpses of fierce beasts, Lu Yuan did not absorb the unknown breath when he passed by, and some corpses gave only a small amount of unknown breath.

It is estimated that it will not be long before the alienated beasts of Night Vale will be dealt with.

I don't know if the Heavenly Underworld Saint has found the source of the alienation?

Moreover, Lu Yuan hadn't encountered an emperor-level fierce beast until now, so it was very uncomfortable.

Let's go and look elsewhere.

Lu Yuan was about to leave, suddenly the Evolution Cube in his body shook frantically.

This was the most violent shaking Lu Yuan encountered.

His pupils contracted, and he looked around in a little astonishment, his eyes full of alertness.

Such a strong vibration, there must be an emperor-level alienated fierce beast nearby.

Just when Lu Yuan was vigilant, a strange and evil aura suddenly emerged from a distance. Lu Yuan's body seemed to be drenched in ice water, very cold.

He quickly turned his head and looked in the direction where the breath came. A strange piece of meat was flying towards this side.

There are a lot of wounds on this piece of meat, as if petroleum-like liquid emerges from the wound, dripping continuously, a large amount of dark aura covering the piece of meat, it seems to be corroding it.

Even so, the aura exuding from this piece of meat still made Lu Yuan feel a fatal threat.

His scalp is a little numb, and his goose bumps are all up. What the ** is this?

This weird piece of meat suddenly paused after seeing Lu Yuan, and then rushed towards Lu Yuan frantically. A weird whisper sounded in Lu Yuan's mind. Lu Yuan frowned, her spirit fluctuated, and she felt irritable.

He suppressed his discomfort forcibly, his whole body surged, and his body disappeared instantly.

The fleshy tentacles stretched out and shot towards Lu Yuan, but Lu Yuan used the space to move to avoid it.

Lu Yuan didn't dare to get close to the piece of meat, cut a golden sword light in the distance, and slashed towards the piece of meat.

However, the golden sword light disappeared strangely and automatically before it got close to the weird piece of meat.

Lu Yuan's pupils contracted slightly, before he had time to think about it, he disappeared in place again.

The place where Lu Yuan was before suddenly distorted in space, and a tentacle came out from another part of the space and grabbed Lu Yuan.

Lu Yuan felt cold behind him. Fortunately, he possessed the extraordinary genes of the space system, otherwise it would be really dangerous.

He tried his best to explode his strength, and he didn't expect to kill this weird piece of flesh at all. He only hoped that his aura could attract the attention of other war emperors, and then he would clean up the piece of flesh.

can make the Evolution Cube vibrate so violently, this thing is probably quite unusual.

seemed to be aware of Lu Yuan's thoughts, this weird piece of meat suddenly stopped and planned to turn around and leave.

Lu Yuan frowned, he was about to explode with all his strength, intending to drag it for a while.

At this moment, the thick darkness fell, and the Heavenly Underworld Saint suddenly appeared in front of Lu Yuan.

Seeing the Heavenly Underworld Saint, this piece of flesh suddenly screamed, and then wanted to escape.

The Heavenly Underworld Sage's face was cold, and a black mist appeared above his body. The body disappeared in place and appeared beside the flesh. With the appearance of the Heavenly Underworld Sage, black sword lights appeared, slicing the flesh. It became pieces of minced meat.

So strong!

Lu Yuan looked at the Heavenly Underworld Saint with some envy.

Just when Lu Yuan thought it was over, the pieces of meat quickly merged into one body and recovered again. At the same time, green rays of light shot out towards the Heavenly Underworld Saint.

Lu Yuan's pupils shrank, didn't he die like this?

Heavenly Underworld Saint had fought this weird piece of meat for a long time, and he naturally knew the characteristics of this piece of meat. He avoided the green light and continued to chop the piece of meat.

Tentacles suddenly appeared in the air around the chopped flesh, trying to attack the Heavenly Underworld Saint, but all of them were avoided by the Heavenly Underworld Saint.

And at this moment, the meat pieces gathered together again.

The aftermath of the battle between the two sides was raging, and the aftermath even made Lu Yuan feel a strong danger, and had to retreat continuously, retreating to dozens of kilometers away.

And there were still many areas of the stone wall, but at this moment, it turned into a huge hole.

In the hollow, only black and weird green light flashed continuously.

Boom!

Amid another roar, a weird scream sounded, and Lu Yuan felt that the evil aura weakened a lot.

In contrast, the aura of the Heavenly Underworld Saint is much stronger.

The flesh piece that had just been condensed and formed was about to escape again. At this moment, shadow clones appeared on the side of the flesh piece.

The shadow clone waved the sword light, and the dark sword light tore the meat into pieces again.

This time, the recovery speed of the meat pieces became extremely slow. They squirmed and wanted to get closer, but they were swept by the sword light again, and they were more thoroughly chopped.

Evil green rays flashed on the minced meat, and then slowly became dimmed.

The evil aura also slowly dissipated, and the previous pieces of meat began to slowly turn into ashes.

Seeing this, Lu Yuan approached the past vigilantly.

The Evolution Cube kept shaking, and he felt an extremely strong aura of unknown blending into Lu Yuan's body and entering the Evolution Cube.

Lu Yuan had a physical meal, a little shocked.

This is the strongest unknown breath that Lu Yuan has absorbed.

One can imagine how powerful this weird piece of meat is.

However, even the unknown aura was absorbed by Lu Yuan, and it seemed that this piece of flesh could not be resurrected at all.

The Heavenly Underworld Sage noticed that Lu Yuan was approaching, and turned his head to look at Lu Yuan.

His face was a little pale, and his aura was much weaker than when Lu Yuan first met him.

It can be seen that this piece of flesh is a little difficult even for the Heavenly Underworld Saint to deal with.

This made Lu Yuan feel a little scared. Fortunately, when Alienation first appeared, he didn't encounter this weird piece of meat. Otherwise, he felt that he and Ye Ye might not be able to run away.

'It seems that you are in good condition? You can hide even this alienated beast for a few rounds.'

The Heavenly Underworld Saint said with a smile.

Lu Yuan chuckled dryly, 'If it wasn't for Master Saint, you would come in time, and it would have run away. Is this the source of this alienation?'

The Heavenly Underworld Sage shook his head, and said: 'This is just an emperor-level fierce beast that has been deeply alienated. The source is a gap in space.'

'There are also gaps in the place of origin?'

Lu Yuan was stunned.

The Heavenly Underworld Sage glanced at Lu Yuan, and said with a smile: 'There are many in the upper level. If you go to the upper level, you can meet it.'

Then his face became serious: 'As for this...I also met for the first time.'

Lu Yuan heard the worries of the Heavenly Underworld Saint, and he could tell that the situation might be extremely bad.

Lu Yuan thought of something, and said, 'What about that gap in space? Will there be other alienated fierce beasts coming over?'

The Heavenly Underworld Sage returned to his senses and chuckled: 'Then don't worry, the origin of Origin is still strong now, and it is repairing the gap in space... Well, let's see if there is any repair in the past.'

Lu Yuan followed the Heavenly Underworld Sage and flew towards the gap in the space.

It didn't take long before Lu Yuan and Heavenly Underworld Saints came to a huge void.

This void is bigger than the void formed by the battle between the Heavenly Underworld Saint and that piece of flesh.

Lu Yuan guessed that it should be the area where the Heavenly Underworld Saint and that piece of meat first started fighting?

Soon, Lu Yuan felt the dissonance of space, and he saw a strange gap in the cavity.

In the depths of the gap, a strange aura spilled out, making Lu Yuan cold all over his body.

But at this moment, there is an invisible force surging around this space gap, and the space gap is constantly closing.

The gap in this space is only the size of a human head, and I am afraid it will not take long to fully recover.

Is this the power of the origin in the place of origin?

Lu Yuan felt the invisible power and was a little surprised.

At this moment, the Heavenly Underworld Saint flew towards the gap in space, and the power of darkness surged, covering the gap in space.

Lu Yuan can feel that the Heavenly Underworld Saints are helping the original place of origin continue to strengthen and increase the speed of recovery.

The effect is obviously good, and the speed at which the gaps in the space are closed has increased a lot.

Soon, the gap in the space was completely closed, and the strange aura disappeared. Lu Yuan breathed a sigh of relief in his heart.

The Heavenly Underworld Sage smiled and said: 'Well, this time the source of alienation is blocked, there should be nothing wrong with it.'

Lu Yuan nodded: 'That's good.'

Then Lu Yuan felt the Heavenly Underworld Sage release his perception. After a while, he opened his mouth and said:

'It seems that the alienated beasts in other areas are almost cleaned up. You go back first, I will do the finale. Ye Ye should be worried about you.'

When he said the last words, a smirk appeared on the face of the Heavenly Underworld Saint.

Lu Yuan: '...'

He twitched the corners of his mouth: 'Then trouble Lord Sage. UU Reading www.uukanshu.com'

Lu Yuan used space to move before and almost the entire Valley of Night was visited. Most of the unknown aura of the alienated beasts was absorbed by Lu Yuan, and even if there were some left, there might not be much.

Lu Yuan didn't mean to stay, so he could go back directly.

The Heavenly Underworld Sage tore open the space door and Lu Yuan walked in.

As the space door closed, the Heavenly Underworld Saint's face suddenly turned white, and he opened his mouth and coughed out a mouthful of blood, even mixed with minced meat.

The minced meat squirmed slightly.

Heavenly Underworld Saint's face was cold, and wisps of black mist surged, crushing the minced meat.

.....

On the square of the Nether Palace, Lu Yuan walked out of the space gate.

Ye Ye next to quickly walked over and looked up at Lu Yuan: 'Are you okay?'

Lu Yuan smiled and shook his head: 'Don't worry, it's okay.'

Ye Ye was obviously relieved, and nodded: 'Yeah.'

Seeing this, Lu Yuan couldn't help rubbing Ye Ye's little head.

Suddenly, Lu Yuan felt a strange look from Bian.

He turned his head and looked around, and found that Ye Heng squinted at Lu Yuan with a very strange smile, and gave Lu Yuan a thumbs up.

there are several cats who look quite small and stare at Lu Yuan, their eyes blinking and blinking constantly.

Ah... Lu Yuan's face was a little thin, and he quietly retracted his hand.
