

## Chapter 255: My Genes Evolve Infinitely

### HUNTER

The two kobold warlords looked at each other, both with shocked and dazed expressions in their eyes.

After was silent for a while, the black prison came back to his senses, and hurriedly said:

‘Go and inform the general!’

The kobold warlord wearing a scarlet armor nodded and disappeared in place, rushing to the commanding building in the center of the fortress.

After the scarlet armor kobold left, the black prison looked around, and then shouted:

‘Search the neighborhood! See if there are any enemies!’

From the perspective of the black prison, the space gap suddenly began to close, maybe someone was doing something nearby.

Hearing the order of the black prison, the kobold soldiers patrolling the square quickly searched the neighborhood.

However, for genetic warriors who are only at the battle-sovereign level, even if Lu Yuan hidden in the dark stands in front of them, it is difficult for them to find out, and naturally there is no gain.

Soon, a powerful aura emerged, and the scarlet armor kobold followed a white-haired kobold in black leather armor and flew over quickly.

The white-haired kobold landed, glanced at the gap in the space, his expression was condensed:

‘what happened?’

Black Prison hurriedly said: ‘General, we don’t know, just a moment ago, the space gap suddenly began to close.’

‘Just now? Is there no other change?’

The white-haired kobold frowned.

‘No. I have sent someone to search nearby, but no abnormalities were found.’

The white-haired kobold took a deep breath, his eyes flashing constantly.

As a warlord-level powerhouse, he naturally knew that in order to influence such a huge space rift, the power of space required was extremely powerful, even a war emperor or even a war saint could not possibly do it.

Unless it has the Emperor-level space gene.

But what kind of a genetic warrior who possesses this extraordinary gene, how could it be possible to target them blood-bone kobolds?

Is it natural to close?

The face of the white-haired dog head changed constantly, looking at the shrinking space gap, gritted his teeth, and slowly said:

‘Prepare people to leave here!’

Hearing this, the faces of the people in the black jail beside him changed.

‘General, are we going to abandon the ice star?’

‘Otherwise you come to stabilize this gap in space?’

The white-haired kobold stared at the black prison.

The black prison fell silent.

At this moment, a figure suddenly rushed out from the other side of the space fissure.

It was a kobold warrior in a gray robe.

He saw the white-haired kobold in the square for the first time, and flew over, his face was very ugly:

‘Empty warehouse, what’s going on?! How can the space rift suddenly start to shrink?’

This is the Emperor of War from the Bloodbone Star, originally guarding the edge of the space rift, and seeing the space rift suddenly shrink, he hurried over to check the situation.

Kongku shook his head, his expression ugly: ‘I don’t know, it should be a natural contraction. If it is artificial...’

Kongku did not continue, the face of the Emperor from the Bloodbone Star changed, he looked around with some alertness, and then he took a deep breath:

‘Damn! What should I do? Do you want to notify them?’

Because the nominal ownership of the Ice Vein Star belongs to the Red Maple Empire, the Emperor of War is no longer guarded in this area, only leaving genetic warriors to prevent the strong humans from entering the Bone Star through the space rift.

Of course, if you say so, the kobolds will still send strong men to interfere with the Red Maple Empire’s genetic warriors to mine ice crystal ore.

The current situation is abnormal, even the war emperor can’t pay attention, they can only think about whether to notify the war emperor level powerhouse.

At this moment, the spatial fissure that was slowly closing suddenly closed faster, and in almost a short period of time, it shrank by about half.

Seeing this scene, Kongku and the kobold war emperor from the bloodbone star shrank their pupils, showing shock.

‘What’s the matter?! How come it suddenly closes so fast?’

A smile appeared on Lu Yuan’s face in the shadow.

After the most chaotic space line at the beginning is sorted out, the difficulty of closing the space gap becomes much lower, and the closing speed will be greatly improved.

While in the square, the empty warehouse made a decisive decision and said:

‘Notify everyone in the base, get ready to go out!’

He immediately rushed towards the fast-closing spatial fissure.

The Emperor from the Bloodbone Star didn’t say a word, but followed directly.

The other genetic warriors glanced at each other, almost no one went to inform the others, and everyone rushed towards the space rift.

At this closing speed, how can they have time to notify others?

However, the space fissure closed faster and faster, the empty library rushed out of the space fissure, the battle king from the blood bone star rushed out of the space fissure, and several faster war king powerhouses also rushed out of the space fissure. .

But there are still some warlords and almost all warlords. At this moment, before they can get close to the space rift, the space rift has completely closed.

There were two kobold warlords who wanted to take advantage of the last gap to pass through, but they were left in the ice star by their general body, and their blood was spilled on the square.

Looking at the calming space, the atmosphere fell into a dead silence.

All the kobolds have unbelievable looks in their eyes.

‘Do not!’

A kobold warlord roared.

‘Damn! We stay here, how can we go back?’

Their faces were blank.

At this moment, a kobold warlord thought of something: ‘Go to the spaceship! Leave the ice star first! If we let the humans know that the space gap on our side is closed, they will definitely not let us go!’

Although the Kobold’s spacecraft rush technology is not mature enough, it cannot make long-distance space jumps and cannot return to the bloodbone star.

But at least you can sail in the Xinghai.

If they stay here, they will be attacked if they are discovered by humans that they have lost their supplies. Then they will definitely die.

Leaving Ice Vein Star, although he can only wander in the sea of stars, and may encounter other dangers, it is better than staying here as a dead end.

Hearing this, a group of warlords and powerful warlords came to their senses and moved towards the airport.

The warlord can fly, and the speed is far faster than the warlord, leaving the warlord behind.

At the same time, kobold fighters in other areas of the base also discovered anomalies.

One by one, the warlords jumped into the sky. After seeing the space cracks in the square disappear, all the kobold warlords were stunned, a little dumbfounded.

‘...Am I dreaming? The space rift disappeared?’

‘It’s not just you dreaming alone...’

‘Damn! What’s the matter?? Where’s the general? Where did the general go??’

Several warlords Liushen Wuzhu, and then saw other companions flying towards the airport, they seemed to understand something.

They didn’t say anything, and they flew directly towards the airport.

In a shadow in the square, Lu Yuan raised his eyebrows slightly as he looked at the chaotic kobold warrior.

So they still have spaceships?

Generally speaking, if the technological level is high enough, the spacecraft is mature enough to be able to travel to distant planets even if there is no space gap.

But if the aviation technology is not very good, maybe the flight speed is not slow, but the space jump is not possible, then the difficulty of going to other planets is still quite high.

Lu Yuan is also not sure how strong the \*\* kobold spaceship is.

But, anyway, with him, it’s a bit unsuitable for these \*\* kobolds to want to run.

Lu Yuan’s body disappeared into the shadow, and he appeared in the huge airport in the next moment.

There are quite a few warplanes and three huge spaceships at the airport.

Lu Yuan narrowed his eyes, and the space was distorted. The next moment, all the fighters and the power chambers inside the spacecraft were destroyed, and the energy chamber burst open, causing the spacecraft and fighters to explode.

For Lu Yuan, who has the genes of the Emperor-class mechanical system, it is not too simple to find the energy room of this kind of spacecraft.

The few warlords who had just arrived at the airport saw the exploded fighter planes and spaceships, all froze in place.

The firelight reflected their extremely pale faces. For a moment, several warlords fell into dead silence like statues.

One of the warlords felt dry, his voice trembling a little and said:

‘This...Who is this adult who wants us to die?’

The other warlords also twitched the corners of their mouths, and there was an expression of fear on their faces.

The gap in space before is closed, maybe it can be explained by natural phenomenon.

But now they were about to board the spaceship and leave, and the spaceship exploded.

It is impossible to explain the natural explosion of the spacecraft, right?

If only a spaceship exploded, maybe it could be explained this way, but so many spaceships and fighters exploded together, no matter how you think it is a problem.

Obviously, someone is targeting them.

Moreover, this person against them is a terrorist who can close the gap in space and destroy all spaceships and fighters at the same time without a sound.

Lu Yuan looked at the few kobold warriors who were frozen in place, and left quietly.

In fact, as long as the space gap is closed, Luyuan's plan is already complete.

Destroying fighter planes and spaceships was just what he did incidentally.

As for killing these kobold warriors by himself, Lu Yuan had no such idea.

Anyway, as long as there is no way to leave Ice Vein Star, and the Kobold warrior who has lost their supplies, after being discovered by the human gene warrior, it will basically be inevitable to die.

Lu Yuan no longer pays too much attention.

His body appeared on the ice field some distance away from the base, with a smile on his face.

closed the space gap on the side of the kobold, which is naturally a good thing for humans, and he has done his best.

Let's go back.

Just when Lu Yuan was about to leave, an old man with long white hair and a kind-looking face suddenly appeared in front of him. This old man had pointed ears and was an elf.

Lu Yuan was taken aback for a moment, and then a chill appeared in his heart, and he looked at the old elf in front of him with some caution.

How did this guy show up?

He didn't notice it?

is definitely a peerless powerhouse!

How could he be targeted by such a strong man?

Lu Yuan was full of doubts, and secretly prepared to escape.

At this moment, the old elven man smiled and said, 'Young man, you closed the gap in space before, right?'

Lu Yuan was taken aback, watched the old elves vigilantly, and said with a smile:

'Senior, I don't know what you are talking about.'

'Hehe... Don't worry, young man, I have no malice. The spatial fluctuations in your body are so obvious, I can still perceive it.'

While speaking, Lu Yuan suddenly felt the surrounding space freeze, his pupils shrank slightly, and he looked at the old elf in a little astonishment.

The power of space? This old elven man also burned the space gene?

His cultivation base must be the Emperor Zhan or even higher.

Such a powerful gene warrior has even burned the extraordinary genes of the space system. I am afraid that even in the Baiyun Star Region, he is the top powerhouse, right?

didn't seem to notice Lu Yuan's surprise, the old elf smiled gently:

'Young man, I also have the extraordinary genes of the space system anyway. Naturally, I can still see the residual spatial fluctuations on your body. Unexpectedly, you are just a warlord, and you have burned the least royal-level space system genes. It is an incredible young man. people.'

When was speaking, the old elven elf had a hint of wonder in his eyes, and he looked at Lu Yuan, as if he wanted to see Lu Yuan clearly.

Lu Yuan felt cold sweat coming out of his back.

Fortunately, this strong man can't see the Evolution Cube in him, and he is not familiar with him.

Otherwise, it is really dangerous.

With a shy smile on his face, he opened his mouth and said, 'Thank you, senior, for the compliment, I'm just lucky.'

'Hehe...Everyone has their own chances. Luck can be transformed into strength, which is also a part of strength.'

The old elf smiled disapprovingly.

'I don't know what the seniors are asking for me?'

Lu Yuan was sure that this old elven man was probably aimed at him.

The old elf smiled slightly, with a mysterious smile: 'You'll know it later.'

Lu Yuan was puzzled.

Will you know later?

What can he know?

At this moment, Lu Yuan felt an extremely dangerous evil aura, which seemed to freeze his soul~[www.mtlnovel.com](http://www.mtlnovel.com)~ This evil aura reminded Lu Yuan for the first time. The smell of the meat that I encountered in the Valley of Night.

But compared with the breath of that piece of meat, this breath is a little weaker.

Alienated fierce beast?

Lu Yuan's pupils contracted, a little shocked.

How could an alienated beast suddenly appear here?

When Lu Yuan was shocked, the space above the ice sheet suddenly tore apart. The next moment, a huge black beast flew out of the crack in the space.

It is a ferocious beast with black wings and three pairs of sharp claws, which is hundreds of meters long.

This fierce beast is different from the alienated fierce beasts I have encountered before. It does not have weird tentacles or eyes on its body, but has strange green lines, like blood vessels, distributed all over its body.

As soon as this fierce beast appeared, its extremely powerful aura turned into a violent wind, spreading in all directions.

Above the ice field, there was originally a blizzard raging, but at this moment the blizzard was directly blown away by this powerful momentum.

Lu Yuan was sweating cold behind his back, and his scalp was a little numb.

What the \*\* is this fierce beast?

But the old man's face remained unchanged, and he smiled and said:

'Sure enough, it's here, but this stalker is not good at strength, it's only an emperor.'

Lu Yuan: '.....'

God's emperor-level strength is not good!

Others are a little confused.
