

Chapter 259: My Genes Evolve Infinitely

EMERGENCY

A smile appeared on Rebecca's pretty face: 'I can beat you this time!'

While she was talking, she pointed the staff in her hand at the furry crown, and the flames surged, condensing a huge firebird.

The firebird neighed and rushed towards the fur crown.

Tuo Guan is a guardian genetic warrior. He feels the powerful breath of the Firebird. His pupils shrink slightly. Compared with the last time, Tuo Guan feels that the human combat skills are more than twice as powerful.

He roared, a green mask appeared on the surface of his body, and he rushed towards Rebecca.

Rebecca summoned the fire elemental creatures while evading the attack of the tufted. In terms of combat skills, there was a slight gap between the two sides. Compared with the tufted, Rebecca obviously did not have that much combat experience.

But Rebecca's own hard power made up for this. Her combat skills have been greatly improved compared to before, allowing her to suppress the hair crown from start to finish.

This surprised the spectators who knew about Rebecca's strength before.

As a guardian warrior, the defensive ability and recovery ability of the furry crown are quite good. Faced with Rebecca's attack, he still supported it for a long time, and even looked for opportunities to counterattack during the period. Unfortunately, in the end he still couldn't Breaking through Rebecca's offensive, was blown to black by a ball of flames.

After the death of , the ranking of Tianjiao has changed.

Rebecca's name replaced the hair crown and appeared in the 100th place.

White light flashed, and the crowned corpse and Rebecca disappeared on the ring.

Maoguan returned to his original position, and Rebecca returned to Lu Yuan and Si Tingxue.

There was a surprised and excited expression on her face: 'Ayuan, Xiaoxue, I'm really on the list~'

Si Tingxue nodded lightly, and her lips curled up slightly: 'Yeah.'

Lu Yuan smiled and rubbed Rebecca's hair: 'Congratulations, do you want to continue to challenge?'

Rebecca nodded, her eyes flashed: 'I continue to apply for the challenge, 98th.'

said, she was connected to the stele through the genetic war pattern.

Soon, the light of Rebecca's war pattern dissipated, and she was a little lost: 'It will take a few days to start fighting.'

Lu Yuan and Si Tingxue were not surprised by this. Rebecca was lucky to be able to start directly before the 100th place.

Si Tingxue said softly: 'Then I will apply.'

With three imperial genetic weapons, Si Tingxue is confident and directly applied for the 95th place.

Soon, the war patterns and the light on the stele dissipated, and Si Tingxue also frowned slightly: 'It will start in two days.'

Lu Yuan smiled: 'Since you can't challenge anymore, let me come.'

He came to the stone stele of the king's list, connecting the gene war pattern and the stone stele.

may be because of the evolution of the cube, but this time his consciousness did not fly over the land of origin.

Lu Yuan chose the qualification challenge.

Seeing Lu Yuan come to the front of the list of kings, the eyes of all the forces were stunned, and then their eyes widened in a little astonishment:

‘Lu Yuan intends to challenge the king's list?’

‘Didn't he come with these two humans?’

‘This speed is so fast, it didn't take long for him to break through, right?’

Everyone looked at the light flashing between the war pattern and the stele with some uncertainty.

It didn't take long for the illusory ring to appear again. Everyone was sure that Lu Yuan really planned to challenge the qualifications of the king's list, and they were all surprised and looking forward to it.

Lu Yuan's body appeared on the ring, and opposite him was a human genetic warrior.

The opponent for the qualification challenge of the Kings Ranking is the well-tempered King of War, and the highest-quality transcendent gene recorded is the royal gene.

This alone has eliminated more than ninety-nine percent of the genetic warriors.

A genetic warrior who can burn the royal gene at the King of War is definitely a top genius.

However, the number of genetic warriors in the Baiyun Star Territory is so large that even the King of War is also uncountable. There are still thousands of geniuses of this level.

Therefore, the competition for the King's List is also very fierce.

Of course, for Lu Yuan, it was just the King of War with the imperial gene burned, and there was no threat.

His opponent is an elemental genetic warrior. In his hand, he holds a curved wooden staff and wears a white robe with cyan patterns.

When was preparing, this genetic warrior was waving his staff for the first time, condensing layer after layer of wind shield around his body, and faint blue light flashed all over his body.

Soon the preparation time was over. With a wave of the genetic warrior's staff, a giant spear over ten meters long that was condensed with the violent wind shot towards the landing edge. The speed of the storm was already very fast. The speed of the wind gun was natural. Faster.

However, compared to Lu Yuan, this speed is very average.

Before the wind gun approached Lu Yuan, Lu Yuan's body disappeared in place.

In the next moment, a golden sword light slashed towards the genetic warrior.

All the wind shields around him shattered for the first time, and then the sword light passed through his body without any hindrance, and the genetic warrior turned into white light and dissipated.

For Lu Yuan, the King of War, who had recorded the Emperor Gene, was just a matter of one sword.

He doesn't even need to use the Dahi Spiritual Body with all his strength.

Until the white light dissipated and Lu Yuan returned to the stele, the eyes of the spectators recovered.

Everyone and their familiar friends looked at each other and looked at each other. Then there was a whisper in the square.

Everyone looked at Lu Yuan's expressions with shock. Obviously, Lu Yuan's performance far exceeded their expectations.

Feeling the eyes of the eyeliner around, Rebecca smiled slightly triumphantly:

‘Hee hee, A Yuan is really amazing! They were all scared.’

Si Tingxue beside also nodded slightly, and said softly:

‘As expected of you.’

Lu Yuan smiled disapprovingly: ‘It's too easy.’

Si Tingxue rolled his eyes.

Rebecca said in anticipation: ‘Ayuan, please apply for the challenge and have a look.’

Lu Yuan nodded.

Different from the Tianjiao Ranking, the upper limit of the rankings that can be applied for each time on the Wangzhe Ranking is ten.

Lu Yuan can challenge up to the 90th place.

Of course he didn't hesitate at all, and directly chose 90 genetic warriors.

It was a Kaman named Klulu.

Lu Yuan expertly submitted the challenge application.

It didn't take long for Lu Yuan to get a reply. He shrugged, a little helpless:

‘We have to wait five days.’

Rebecca showed disappointment, even Si Tingxue spoke softly:

‘Pity.’

They all thought they could see the battle between Lu Yuan and the strong on the list, at least they could understand the strength of the strong on the king list.

It’s not just the two of them, they have been paying attention to the eyeliners here, and they are all showing disappointment at this moment.

Their expectations are no less than Rebecca and Si Tingxue.

Lu Yuan didn’t care much: ‘If this is the case, then go back.’

‘Um.’

Under the gaze of everyone, the three of them boarded the Black Bear One again, and then the Black Bear One took off and left the central square of Baiyun City.

After the departure of Black Bear One, the eyeliners had a lively discussion.

Lu Yuan, who was originally the number one in the Tianjiao list, broke through to the King of War, but he started to apply for the Challenge King list within half a year in real time. This topic is not small, and it is also something that most of the Baiyun Star Region will pay attention to.

The stronger the performance of Lu Yuan, the more likely it is to become the top powerhouse in the Baiyun Star Territory in the future, and it will naturally receive more and more attention.

Lu Yuan also understands the thoughts of the eyeliners in the square, and also understands that he will receive more and more attention.

However, Lu Yuan, the resource of the King's List, did not intend to give up. In addition, because of what the Elf Elder said about space rifts, Lu Yuan wanted to improve faster, and his cultivation speed might surprise many people, but he didn't intend to hide it either.

As long as it is not known to let people know that he can evolve the extraordinary genes burned into the body, everything else is fine, and there is always an excuse to explain.

Back to Red Maple City, the three of Lu Yuan had a walk around Red Maple City because today's practice has ended.

Then Si Tingxue wanted to go back to open a simulation room to fight and practice combat skills, while Lu Yuan used the starry sky to roam, through the space anchor set in the Magic Dragon Mountain Range, and came to the Magic Dragon Mountain Range to continue to obtain resources.

In the Devil Dragon Mountain Range, Lu Yuan also encountered a batch of warlords and even warlords who came to hunt down powerful beasts. There were all races, and there were even people who wanted to rob Lu Yuan. Unfortunately, they didn't understand Lu Yuan's. The strength eventually became the express delivery.

Regarding the blood-bone kobolds, after Lu Yuan killed the warlords and warlords before, he originally thought that they would notify the blood-bone kobold's high-level officials, and even prepared a kobold war emperor to hunt him. Psychological preparation.

He is ready to run away at any time.

But in the end, no ** kobold war emperor came to him. Lu Yuan didn't know if they were frightened by his shadow realm before, thinking that there was someone strong to protect him?

Of course, it may also be because the Devil Dragon Mountain Range is not small, and the blood-bone kobolds came to look for Lu Yuan, but they couldn't find it in the end.

Regardless of the reason, the absence of harassment by kobolds is a good thing for Lu Yuan.

The rest of the time was spent in peace. In addition to practicing, Lu Yuan's free time either went to the Devil Dragon Mountain Range, rested with others, or challenged the King's List.

Basically, Lu Yuan would challenge the champion list every few days to several weeks. Each challenge ended in a short period of time. Even so, Lu Yuan did not use too much power.

may not be a big deal to Lu Yuan, it seems very relaxed, but it is still a big event worthy of a sensation for others.

As Lu Yuan's ranking on the king's list rises, he has received more and more attention.

Even every time Lu Yuan went to the square to apply for a challenge, he would be invited by a group of forces. When the Tianjiao ranking challenged, the forces that Lu Yuan had refused once again extended their hands to Lu Yuan.

Unfortunately, Lu Yuan's choice is still rejection.

Nearly two months after the origin time, when Lu Yuan left the place of origin, his ranking had already reached 40th.

rushed to such a high ranking, the reward is naturally very high.

Including the fifth-level cultivation spirit fruit Tianwang fruit, there are as many as six hundred. Each one contains one hundred thousand Tier 5 Spirit Crystals, which is more effective than Purple Heart Fruit.

Lu Yuan intends to evolve later, after evolving to the Emperor level, it can also be used as a supplement to some of the training resources.

In addition, there are 120 Tier 5 rough stones that are required to break the gene lock at the King of War, three Tier 5 Emperor Tier

genetic weapons, and one Emperor Tier Extraordinary Gene, and so on.

Among them, the most precious is naturally the extraordinary genes of the emperor level. They are treasures that can only be dropped by the fierce beasts with the blood of the emperor level, and the drop rate is very low. Even if Lu Yuan has the Evolution Cube, unless he completes it by himself After burning, you can evolve the supernatural genes that have been burned to a stronger point. Otherwise, it will not evolve.

If it were put to auction, it would probably be able to sell hundreds of millions of seventh-order spirit crystals, which was enough for Lu Yuan to obtain a lot of resources.

Of course, other things are also quite good, for a warlord, they are all very precious treasures.

.....

Red Maple Empire, Villa in Bailiu District.

In Lu Yuan's room, a white light flashed and Lu Yuan's body appeared.

He stretched his waist and exhaled slightly, then he thought of something and took out his phone to look at it.

There are many missed calls and messages on the phone.

Same as the last time he was on the Tianjiao list, it was all messages and phone calls from his friends and classmates he knew, but this time there were more messages and phone calls than last time.

This time, he was on the Kings Ranking, and he had just broken through to the Battle King level in less than half a year.

Lu Yuan breathed a sigh of relief. Fortunately, he had the foresight before and set up a call interception for strangers, otherwise the phone might be blown up.

Lu Yuan chose some familiar friends to reply.

Just as Lu Yuan responded to the message, the door of the room was knocked, and Li Qinghe's excited voice sounded:

‘Brother fate? Are you inside?’

Lu Yuan was taken aback, glanced at the door of the room, and smiled: ‘I'm here.’

Talking, Lu Yuan walked over and opened the door of the room. Outside the door, Li Qinghe was standing there. Seeing Lu Yuan opening the door, she stared at Lu Yuan with wide eyes and smiled and poked Lu Yuan's face:

‘Brother fate, are you too good? I heard that you were already on the King's List as soon as I came out of the land of origin, and you have already rushed to the 40th place. How did you do it? You are much better than your sister. .’

Lu Yuan shook Li Qinghe's random hand and said with a smile: ‘It's just normal practice.’

Li Qinghe smiled and said, ‘I heard that you are very relaxed when fighting. Tell my sister honestly, how strong are you now?’

Lu Yuan thought for a while, then smiled and said, ‘The average war emperor should not be my opponent.’

In fact, Lu Yuan is already modest.

He already has three perfect transcendent genes, and now I am afraid that there is basically no war emperor to be his opponent, unless the opponent has more than one emperor-level transcendent gene.

When Li Qinghe heard Lu Yuan's words, a look of wonder appeared in his eyes.

Then she smiled and said: ‘Then why don’t you come to the upper layers of Origin? We will act together at that time.’

Lu Yuan thought of the old elves’ words, thought about it, and smiled: ‘I still have a lot of resources now. I plan to use up those resources first, but it will be fast too.’

Lu Yuan consumes three times the resources of tempering resources. He has spent almost 10 million rank 7 spirit crystals on tempering three emperor-level transcendent genes. In fact, he has consumed around 30 million rank 7 spirit crystals. .

Lu Yuan still has less than 20 million Tier 7 spirit crystals.

Of course, this is because Lu Yuan has not auctioned off his previous harvest.

This is also one of the central reasons for Lu Yuanchong’s king list. The top ten are free of intermediary fees and he can auction off his previous gains.

In addition, Lu Yuan didn’t count the gains from this rush to the list.

Even so, Lu Yuan’s current consumption rate is still faster than his own harvest rate.

Hearing what Lu Yuan said~www.mtlnovel.com~ Li Qinghe nodded: ‘It turns out that this is...Shuangyue and Tingyu are still thinking about when you will come to the upper level. At that time, we will work together to clear the alienation point.’

Lu Yuan smiled: ‘I know. I will do it as soon as possible.’

‘By the way, my old man called me before and told me to take you back to Li’s house.’

Li Qinghe moved his gaze slightly, as if he had suddenly thought of it, and said something.

Lu Yuan was taken aback when he heard this, and when he saw the redness on Li Qinghe's face, the corners of his mouth twitched.

The last time Lu Yuan was on the Tianjiao list, Li Xinghai and several other old men seemed to have the idea of robbing people.

What is Li Xinghai going to do now?

Hmm... to be reasonable, Lu Yuan is actually a little looking forward to it.

He nodded: 'Okay.'

At this moment, Li Qinghe and Lu Yuan's cell phones vibrated at the same time.

The two were stunned, glanced at each other, and looked at their mobile phones.

'Is it a message from the night watchman headquarters? Is it an emergency? What happened?'

Li Qinghe frowned slightly.

Lu Yuan thought of the man in the cloak for the first time, and frowned. Did that guy act on the underground containment room?

No way?

Lu Yuan hurriedly said: 'Let's go over and take a look.'

Li Qinghe nodded: 'Yeah.'

The two left the villa and flew towards the night watchman headquarters.
