

## Chapter 270: My Genes Evolve Infinitely

EGG

Lu Yuan glanced at the scattered black mist and the three elders, and after thinking about it, it is not convenient for him to go out now, so he will find an opportunity to ask about it later.

Lu Yuan disappeared in the shadows and flew towards Taichuan City. After leaving Li Xinghai's three elders, Lu Yuan used space to move and returned to Taichuan City.

Lu Yuan felt it, and quickly found Li Qinghe's breath.

He disappeared in place and appeared next to Li Qinghe in the next moment.

Li Qinghe was in the building of the Night Watch Division, and there were several other high-level members of the Night Watch Division nearby. After seeing Lu Yuan appear, Li Qinghe's eyes lit up and he asked:

‘Brother Yuan, how is it? Has something happened over there?’

Lu Yuan smiled: ‘It's just an alienation phenomenon, it has been resolved.’

Li Qinghe nodded slightly when he heard the words, ‘That's good. By the way, I have already told Minister Liu Fen about the soul-eaters here who have been killed by us.’

Minister Liu Branch is a gray-haired old man with a lot of wrinkles on his face. With a gentle smile on his face, he said:

‘I heard what Elder Li said, and I have to thank you Elder Lu.’

Lu Yuan smiled and said, ‘Minister Liu Branch is too polite. This is what I should do.’

Li Qinghe looked at Lu Yuan and said, ‘Brother Yuan, shall we go to other cities to see?’

Lu Yuan thought for a while, and felt that the black mist around the elven man was a bit similar to the soul eater. I am afraid he might be the master of the soul eater. Even the elven man is dead. I am afraid that other soul eater possessed. The person may also be dead.

But thinking so, Lu Yuan is not particularly sure, he still nodded, 'Okay.'

Then Lu Yuan and Li Qinghe left the night watchman branch of Taichuan City and went to other cities where alienation occurred.

.....

wilderness.

Li Xinghai, Siqi, and Rafael looked at the scattered black mist, and their expressions showed a condensed look.

They also didn't expect this elf man to explode directly.

After being silent, Rafael looked at Li Xinghai and Siqi beside him, and asked:

'You met this elf before, did you ask anything useful from him?'

Li Xinghai and Si Qi looked at each other, and then the wrinkles on Li Xinghai's face became deeper:

'I heard a little bit, this elf may come from the Scourge Order.'

Si Qi nodded slightly, his expression a little condensed: 'Well, the elf said before that the natural disasters have already focused on our Daqixing, I am afraid this is only the beginning.'

'Scourge Order?!'

Hearing this, Rafael's face changed slightly, and he glanced at Li Xinghai and Si Qi with a little astonishment:

'That madman who worships alienation, and even wants to help alienation erode the universe?! What kind of place does this elf come from??'

Li Xinghai nodded: 'I'm afraid it is.'

‘Then what to do? Those people are crazy. They will use various methods to increase the probability of alienation, and they may even bring some terrifying aliens. It is even said that there are even god-level powerhouses.’

Raphael frowned, his face full of worry.

Li Xinghai and Si Qi also looked worried, and their faces were not particularly good-looking.

After a moment of silence, Si Qi slowly said: ‘It’s not good to say that our Daqixing’s strength is not very strong, not even the battle saint, even if it is really targeted, I am afraid that day. We will not send combat power above the Saint level. We Daqixing does not have this qualification yet, so we don’t need to worry about it. Moreover, we can inform other planets that there are many human races in the Baiyun Star Region, even if other ethnic groups know the actions of the Scourge, they won’t just sit back and watch. That’s for alienation. If our Daqixing is corroded by alienation, then people in other places will not end well.’

Hearing this, Li Xinghai and Rafael both nodded slightly: ‘Old Man Si, what you said makes sense. After you have gone to the place of origin, inform the saints of the Baiyun Star Region and see what they think. It’s better to inform the saints of the human race first.’

Si Qi nodded slightly: ‘Look to see if there is anything left. If not, go back as soon as possible. The Imperial Capital does not have us to sit in, and the underground storage room may not be safe by then.’

Rafael nodded slightly, and then said: ‘Then I have to go back to the defense line of the penalty zone first to avoid accidents over there.’

Siqi and Li Xinghai nodded, and Rafael said goodbye to leave.

.....

In a dim cave, after the Black Abyss Demon Gate was closed, some foreign objects were scattered inside, and strands of strange fluctuations slowly escaped.

These alien objects come in various shapes, and there are hundreds of them.

These were all foreign objects captured by the elven man from the underground containment room. Originally, he planned to take away all the foreign objects in

the underground containment room. However, he didn't expect to be stopped. Only a small part of it could be brought out. His own life also stayed there.

With a bloodthirsty smile on her face in the cave, the little girl lay on the ground, wriggling slightly, trying to get up.

At this moment, a faint green light flashed in the cave suddenly, and the little girl turned to look at the source of the light.

It was a tall, faint green egg, and it was releasing ray of light intermittently at this moment, as if a heartbeat kept beating.

With the appearance of the green light, mysterious runes gradually appeared on the egg.

A series of faint green silk threads floated out of the egg, binding each piece of alien material, pulling the alien material in the direction of the egg.

Soon, pieces of foreign matter were drawn in front of the faint green egg. When they touched the eggshell, the egg shell rippled like water waves, and the foreign matter gradually merged into the faint green egg.

Then there was the sound of chewing from the egg.

The little girl was bound by the green silk thread, and there was a look of consternation on her face. When she felt the irresistible force pull her into the green egg, her face was horrified, screaming struggle.

However, no matter how she struggled, she was still firmly approaching the egg in the end.

After getting close to the egg, the little girl's mouth ripped apart and turned into a huge mouth in the blood basin, biting into the green egg, but just after her mouth touched the green egg, there was a wave of water on the green egg The ripples flowed, her whole mouth slowly melted into the green egg, and her head gradually sank, drilling into the green egg.

A touch of horror appeared on the little girl's face, and she wanted to pull her head out, but her body remained unwavering and melted into the green egg little by little.

When the little girl melted into the green egg, there was a chewing sound, which soon subsided.

.....

Lu Yuan and Li Qinghe checked in other cities and got the same news, that is, the alienation phenomenon suddenly disappeared, as if it had never appeared before.

And now, the phenomenon of alienation has not reappeared.

Lu Yuan thought of the elven man before, guessing that it might have something to do with his death.

But Lu Yuan also had no evidence.

Before long, the next day, Lu Yuan and Li Qinghe both received news from the headquarters.

After seeing the news, both of them opened their eyes slightly, revealing a hint of consternation.

‘The headquarters was attacked?! Someone actually entered the underground containment room?? It also caused the deaths of three war king-level elders, but the intruder was eventually killed by three war emperors... how did he get in?’

Li Qinghe couldn’t believe it.

When Lu Yuan saw the news, he immediately thought of the elf man.

If he was killed, he should be that guy, right?

Unexpectedly, when the soul eater from the outside was active, the elf man would even enter the underground containment room at this time.

Fortunately, it was eventually discovered.

He thought of something, and said: ‘I wonder if the alien objects in the underground containment room have been taken away?’

Li Qinghe also thought of this. She nodded and said: ‘The headquarters let us go back. Let’s go back and see the situation first.’

Lu Yuan nodded: ‘Okay.’

He took Li Qinghe and disappeared from the lounge of the Night Watchman branch in Baiming City.

The next moment, Lu Yuan and Li Qinghe came to the sky over the imperial capital. The two flew towards the night watchman headquarters building.

Soon, they arrived at the night watchman headquarters building. To Lu Yuan's surprise, there was no damage to the headquarters building.

Lu Yuan thought of the three elders of Li Xinghai before. It was probably because of what methods they used before to control the range of battle. If the elf were to escape, tearing the space would not destroy the night watchman headquarters building.

Thinking about the problem, he and Li Qinghe soon entered the night watchman headquarters building.

Lu Yuan glanced over, and found that the ordinary people in the hall had disappeared. All those who remained were genetic warriors, and their strength was not weak, and the lowest was the rank of generals.

Probably because of a problem in the underground containment room, in order to prevent ordinary people from staying here in danger, right?

Lu Yuan thought, as the night watchmen greeted him, and Li Qinghe came to the entrance of the underground storage room with Li Qinghe.

Later, Lu Yuan and Li Qinghe passed the inspection and entered the underground containment room.

There were more people in the underground storage room than usual, even Gu An and Secretary Liu were there.

After seeing Lu Yuan and Li Qinghe coming in, Gu An was stunned, somewhat astonished:

'I just sent a message, why are you so fast?'

Lu Yuan smiled: 'My spatial ability is quite strong, and I have some advantages on the road.'

While speaking, Lu Yuan turned his head and looked around.

The small rooms not far away to prevent foreign objects were destroyed, the ground was in a mess, and even the ceiling was cracked.

It could be seen that all the alien objects in the room had disappeared, and Lu Yuan guessed that it was either stolen or transferred.

Gu An didn't ask much, he nodded, his face a little serious and said:

‘Because the intruder destroyed the underground containment room, in order to prevent another accident, before the underground containment room was rebuilt, a lot of manpower was needed to look at the alien objects. In addition, now the Soul Eater seems to have been recovered by the intruder. So there is no need to continue to stare at those alienation phenomena. I will let you come back.’

When Lu Yuan heard this, he showed a faint look. Sure enough, the previous elf man recovered the Soul Devouring Orb?

At this moment, Li Qinghe frowned slightly and asked, ‘The intruder destroyed the underground containment room? How did he get in?’

Gu An heard this, glanced at Lu Yuan, and smiled bitterly: ‘The strange wooden door that Elder Lu caught before should have the function of locating coordinates. The intruder also has the same door, and he came in by locating the coordinates. I couldn't even start the alarm.’

Lu Yuan was a little surprised, that Black Abyss Demon Gate? It still has this effect?

Lu Yuan's own space system transcendent gene is not weak, he didn't even sense it at the time?

However, Lu Yuan thought that after the opening of the previous Black Abyss Demon Gate, it would not cause spatial fluctuations, so he was relieved.

Others also took a look at Lu Yuan, their expressions a little weird. If they hadn't known Lu Yuan's talents, they would have been the top young generation in the Red Maple Empire, and they would have thought that Lu Yuan was a traitor.

Li Qinghe didn't expect that there would be such an operation. She frowned slightly: ‘Is there any alien material lost?’

Hearing this, Gu An's face condensed: ‘Yes, after we counted, we lost a total of 455 alienated objects, of which 4 are S-level alienated objects, including the

previous two soul eater, A There are also 32 grade-level alienated objects, and there are 291 grade-level alien objects, and the rest are all grade C and D-level alien objects.'

Upon hearing this, both Lu Yuan and Li Qinghe's expressions changed slightly.

'Can you find the location of those alien objects?'

Lu Yuan asked.

Gu An shook his head slightly, and sighed: 'No, those alien objects were taken away by the previous intruder through the door. If the intruder is still alive, they may be able to find those alien objects, but he sees When we die, we can't find the previous coordinates from the wooden door. I am afraid it will be difficult to find them. In the next period of time, there may be more alienation in various areas.'

Hearing this, the atmosphere suddenly became a bit heavy.

Every alienation phenomenon represents someone's death, and the alienation phenomena of S-level and A-level are even more terrifying and outrageous, but they are equivalent to the emperor level and the emperor level.

For a while, everyone was a little worried.

After silence, Gu An smiled and said, 'Anyway, we also kept most of the alien objects-[www.mtlnovel.com](http://www.mtlnovel.com)~ In comparison, there are very few alien objects lost. This is worthy of joy.'

Many people showed a wry smile upon hearing this.

'Those lost alien objects, I will send someone to search for them. The final thing now is to rebuild the underground storage room. I hope everyone can do their responsibilities.'

Lu Yuan and others nodded.

Even the honorable elder of the night watchman, this kind of thing still needs help.

.....

In the next four days, the influence of the previous invaders and a large number of alienation phenomena gradually disappeared, and no new invaders appeared, allowing Lu Yuan to relax a little.

Lu Yuan and Li Qinghe both returned to their small villa in Bailiu District after the end of the duty mission.

Lu Yuan returned to the room, glanced at Guangmen, and found that he could enter the Land of Origin.

Lu Yuan's thoughts moved, white light flashed, and he entered the place of origin.
