

Chapter 274: My Genes Evolve Infinitely

LURKING

After reaching a consensus, one of the middle-aged war emperors with short cyan hair took out a white charm with a serious face. After the spiritual power penetrated, the charm flashed, and the green dog in the sky suddenly stopped in place, around it, The space distortion solidified.

The green dog screamed, the green light surged, the space creaked, and cracks appeared like glass shattered.

‘Hurry up!’

The middle-aged war emperor saw this, his face changed, and he quickly roared.

Six of the other war emperors took out one by one or one-off special treasures, including Li Xinghai and Siqi. After the spiritual power penetrated, these treasures released an extremely terrifying and powerful aura.

These are holy treasures.

Others also took out their most powerful hole cards, or used the most powerful attacks. After all, the offensive treasures of the Saint level are not something that all war emperors can obtain. Some war emperors may just have escape type Saints. Level treasures may have existed before, but they have already been used.

With the surge of spiritual power, all the attacks were shot at the green dog imprisoned in the air.

The green dog’s green pupils shrank slightly, and he roared sharply, and the green mist circulated around his body, forming a green mask.

Outside the mask, there were green flames burning to resist the attack.

Soon, all the attacks fell on the green mask, the roar sounded, and the terrifying aftermath raged away. Under so many powerful attacks, the sky directly appeared space rifts, and space storms were constantly raging. .

All the emperor-level powerhouses were unable to stand firm even under such aftermath, they backed up one after another, looking at the green dog in the light with some caution.

A series of attacks fell on the green mask, and the mask appeared a series of cracks. Faced with so many Saint-level combat skills at the same time, it finally broke apart, and the remaining attacks all fell on the green dog.

The green dog's body is extremely powerful, but it is also difficult to completely resist the attack of the holy rank. A series of hideous wounds emerge, and green blood with a corrosive aura gushes out.

The huge pain caused the green dog to roar in anger, and at the same time, Li Xinghai's spiritual sword charm was also cut on the green dog's body.

The green dog trembled violently and let out a sharp growl.

The terrifying roar made the surrounding war emperors feel that their brains were blank for a moment.

In some cities far away, ordinary people fainted directly after hearing the roar, and there was a lot of confusion.

The mental attack is obviously very harmful to the green dog. Its breath suddenly becomes a lot weaker. The will that was still resisting the attack has dissipated a bit, and the wounds on the body have become more and even broken. After two minutes, the green blood was floating in the air.

Seeing that the green dog's body was broken, and his breath was extremely weak, Li Xinghai all overjoyed and smiled.

‘It works! It's dying!’

Ge's red eyes lit up, and he exclaimed in surprise.

At this moment, the green eyes of the green dog glanced resentfully at the surrounding war emperor, and then it roared, the space around its body was distorted, and its body turned into a green mist and disappeared in place.

When other people saw this, their expressions changed.

‘The space constraint has been broken! This green dog has space ability, it wants to run!’

Wells had fought with the Green Dog before, and he reacted in the first place. Although the battle-sage-level attack was extremely powerful, the space was torn apart by too powerful force, and the previous space confinement was also broken. The green dog has a chance to escape.

Adams said: ‘It still has vitality. If you let it run away, it will be troublesome. Can you determine the direction of its spatial movement?’

The complexions of the others changed slightly. One of them was a handsome young man with white hair, and took out a charm with eyes. After his spiritual power penetrated, he closed his eyes and felt it, and then his face was ugly. Shook his head:

‘No, the space abilities of Alienating Beasts are a bit strange. Unless they have a strong space power, they can't be found at all. I am afraid that even the emperor-level space genes would be difficult to find its whereabouts.’

Hearing this, everyone's expressions changed.

‘What?! What should I do? It’s finally possible to kill this monster. If you let it run away and it recovers, then it will definitely be our Daqixing disaster!’

Wells’s face was extremely cold: ‘This time it has suffered such a loss. I am afraid that it will not appear in front of many war emperors again next time. This monster is extremely cunning. Maybe it will secretly seek out our people for assassination. Can you stop the assassination of a war saint who is good at space ability?’

The other people also frowned and their faces were very ugly.

Adams took a deep breath and added in a low voice: ‘This is not the most troublesome thing. The most troublesome thing is that this monster can swallow others to improve itself. After Donwon was swallowed by it before, its aura improved. Less, if it is allowed to continuously devour lives in the dark and improve itself, perhaps it may be much stronger than it is now. At that time, even if we have any holy-level hole cards to use, it may not be able to threaten it. What’s more...’

His gaze swept across the crowd, and he said: ‘Do you have any other holy-level attack charms or the like?’

When everyone heard this, their faces became even more ugly.

After the atmosphere fell silent, Siqi slowly sighed and said:

‘According to Adams, if this monster wants to regain its strength, it will devour a lot of lives. Everyone sends people to Daqi Xing to stare at them. In which area a lot of lives are found missing, that should be the monster’s handwriting. .’

Wells glanced at Siqi and slowly said, ‘Even if we can find the trace of this monster, it has powerful spatial ability, can we catch it?’

Hearing this, the atmosphere fell silent again.

After being silent, Li Xinghai sighed and said: ‘Let’s ask for help, the holy-level alienated beasts cannot be dealt with by Daqixing. Go to Patch Sky City to find other holy-level powerhouses. This is no longer our Daqixing. It’s about the star. If that monster swallows the entire Daqi Xing, then the entire Baiyun Star Region will be in great danger. I hope that a war saint can arrive as soon as possible.’

Hearing this, everyone nodded slowly.

After , everyone discussed the follow-up matters before leaving separately.

.....

Daqixing, in a huge forest, the space fluctuates, green mist emerges, and finally condenses into the appearance of a green dog.

At this moment, the green dog is left with only the head and a small body. Even the head and a small body are covered with a large number of mouths. Corrosive green blood is dripping from the wound, dripping on the ground and corroding one. A small pit.

The green dog panted slightly, and a look of hatred appeared in the green eyes. As an alienated beast with no low intelligence, it understood that it was too careless before, and believed that the breath of those creatures was far inferior to it, and it was difficult to cause harm to it. , I didn’t expect that it would almost die in the end. As a vengeful alienated beast, it would naturally not let it go, but it had to recover its strength before that.

Just when the green dog was almost filled with hatred, a low growl sounded, two breaths quickly approached the green dog, and the surrounding forest shook.

The green dog looked up, and soon saw two iron-clad tyrannosaurus with a height of more than five meters and covered with gray scales came out slowly. Looking at the green dog with tyrannical eyes, it seemed that there was a trace of doubt. I don’t know. What is this.

Ironclad Tyrannosaurus, as a Tier 4 fierce beast, was not weak in strength. He looked at the green dog curiously, but seemed to feel some danger and did not approach it directly.

Seeing this, the green dog cracked the corners of its mouth. There was a drop of green mucus dripping from the corner of the mouth. It opened its mouth. The next moment, a huge suction appeared, pulling the two huge iron armored tyrannosaurus towards the direction of the green dog. Past.

Feeling the irresistible huge suction power, the iron armored tyrannosaurus roared, and the power surged throughout the body, but they were unable to break free no matter what.

As they approached the green dog's mouth, the two giant iron armored tyrannosaurus bodies began to melt, turning into a cloud of green slime, which was swallowed by the green dog.

Clouds of green mist appeared on the wounds of the green dog that had swallowed two Tyrannosaurus armored, and the wounds gradually began to stop bleeding and even began to recover.

The green dog floated, with a cold and tyrannical look in his green eyes, condensing his own breath, and flew towards the place where the breath of other fierce beasts was.

.....

The place of origin, inside the auction house.

Lu Yuan watched the treasures he sent and photographed sold, all replaced with spirit crystals, and a smile appeared on his face. This was the joy of harvest.

During this period of time, the sales of the various treasures that Lu Yuan sent has been good. After all, they are all precious and priceless treasures. As long as there are spirit crystals, no matter what type of genetic warrior they are, they will need them.

After more than two weeks, Lu Yuan still had two million seventh-order spiritual crystals, and he was only one hundred million seventh-order spiritual crystals.

There are so many resources, which are only a lot more than those who are strong in the war emperor. If they are those who have just broken through to the level of war saint, they may not have as many spirit crystals as Lu Yuan.

And the treasures in the auction house can almost sell more than 10 million seventh-order spirit crystals.

For Lu Yuan, it was enough for him to cultivate in a short time.

Just then, Lu Yuan's communication crystal lit up, he was taken aback, opened the communication crystal, and found that it was Amy.

Lu Yuan noticed that Amy's face seemed to have a worried look, he asked doubtfully:

‘Amy, what happened? You seem a little unhappy?’

Amy nodded slightly: ‘Well, my grandfather said, just before, we Daqixing suddenly appeared a holy alienated beast. Daqixing's war emperor passed by and failed to kill it. When it ran away, the alienated fierce beast is very cunning. When it recovers, Daqixing will be very dangerous. Grandpa asked me to remind you.’

When Amy said this, thinking of the horror that she had sensed before, a look of fear appeared in her big purple eyes.

Lu Yuan widened his eyes slightly when he heard Amy's words, a little surprised: ‘Holy rank alienated fierce beast?! In our Daqixing?’

Although there are a lot of alienation phenomena in the entire universe, Daqixing has never seen the alienation phenomenon of the emperor-level alienation or the alienated fierce beast, unexpectedly there will be a holy-level alienated fierce beast.

Is Lu Yuan's first reaction related to the elven man before? After all, not long after the elven man died, a holy-level alienated beast appeared. This is too coincidental.

It's just that Lu Yuan has no evidence, and it's just a guess.

But, Old Adams, are they so strong?

is just a war emperor, can he deal with the alienated beast of the holy rank?

When Lu Yuan was thinking, Amy nodded slightly, and said with some fear, 'Well, holy, I heard from my grandfather that the situation was very dangerous at the time. The alienated fierce beast was in our lion empire, even Two war emperors died...If it wasn't for the support to arrive in time, my grandfather said he was also in danger.'

Lu Yuan frowned slightly, and said, 'Then the alienated fierce beast ran away, can't you find it? Since Father Adams and the emperor warriors have a way to defeat the alienated fierce beast, why not pursue it by winning?'

Amy shook her head and said: 'Grandpa said that the alienated fierce beast has a very powerful space ability. It used the space ability to escape, and they couldn't find it.'

Lu Yuan was taken aback, somewhat astonished.

Space ability?

Hmm... If so, maybe he can find it?

It is a pity that he was not there at the time, otherwise there should be hope that the alienated beast would be completely killed, right?

Lu Yuan frowned slightly, he was in the place of origin, and he didn't know this.

Even if he goes out now, Daqixing is so big, it is difficult for him to find it.

Holy class?

Lu Yuan was a little worried. If he breaks through to the battle emperor level, burns a transcendent gene again, and then evolves all over again, he will have seven transcendent genes of the saint level, and the average war emperor is probably not his opponent. If he can refine a few extraordinary genes to perfection, maybe there is hope for a battle?

After all, general war saints must have at most a saint-level gene, and war saints with god-level genes must be very few.

If Lu Yuan possesses a few Saint-level genes, then facing a general war Saint, even if it is two great levels lower, it is not without the ability to fight.

is that he doesn't know when the alienated beast will appear again?

If you are seriously injured, it will take some time to recover, right?

Thinking of this ~www.mtlnovel.com~ Lu Yuan frowned slightly, planning not to wait for the treasures from the auction house to be auctioned off.

Although he would lose some intermediary fees, relatively speaking, Lu Yuan hoped to improve his strength quickly. When there were any accidents, he would not lose the ability to resist.

At this time, Lu Yuan heard Amy's voice: 'By the way, Grandpa went to Baiyun City. It seems that he is planning to invite the Battle Sage of the Baiyun Star Region to take action. I hope the Battle Sage can come over soon.'

Hearing these words, Lu Yuan suddenly thought of the old elven man he had met in Ice Vein Star.

He said that he can go to Patch Sky City in the upper layer of Origin to contact him ?

With the strength of the war saint with space genes, it should be no problem to deal with a saint-level alienated fierce beast, right?

If it is really dangerous, you can also go to the old elven man at that time. This is also a way of retreat.

Of course, Lu Yuan is not the kind of person who will hand over his fate to others, especially the old elven man who is still a restorer. He must be busy repairing the rift in space. If he was not in the place of origin at the time, it would be cold. ?

Let's talk about the breakthrough and promotion first, since Father Adams and the others have gone to find the War Saint, maybe the matter can be resolved quickly, then he doesn't need to worry about anything.
