

Chapter 291: My Genes Evolve Infinitely

THE SHOCK OF THE SAINT OF WAR

The alienated fierce beasts running at the forefront are all speed-oriented fierce beasts.

In the midair, there was still an extremely powerful aura surging, and that aura made the faces of all the emperor warriors pale and their chests stuffy.

That is a holy alienated fierce beast.

Lu Yuan raised his eyebrows, raised his head and glanced at the direction where the breath came from. In the depths of the green clouds, there were huge shadows of tentacles floating. Just by seeing the tentacles, you can tell that the holy-level alienation is fierce. The size of the beast is huge.

‘Humph!’

At this moment, the two-headed demon Zhan Sheng snorted, and his majestic voice spread throughout all the nearby areas. His body disappeared in place and instantly appeared in the clouds.

In the next moment, the double-headed demon and the alienated beast disappeared at the same time, roaring and roaring sounded at the same time, and there was green light and black gold light surging in the sky, which was the aftermath of an incomparably powerful war-sage-level attack.

After the sacred alienated beasts were blocked, the war emperors and war emperors who stood in the front row roared, all their spiritual power surged, using various powerful combat techniques and combat skills attached to genetic weapons to attack. Killed the alienated fierce beast that rushed in front of him.

Si Tingyu, Li Qinghe and Shuangyue also used their own combat skills one after another, the golden red light surged, the dark sword aura raged, and the wooden guards gathered in the air.

Just when the three of them were planning to resist the alienated fierce beast that rushed over, Lu Yuan was casual.

The space nearly a kilometer in front of him was distorted, and spatial vortices emerged one by one, swallowing all the alienated fierce beasts.

Regardless of the king-level alienated fierce beasts, all the imperial-level alienated fierce beasts have been crushed by the space vortex and turned into pieces of flesh everywhere. Even the emperor-level alienated fierce beasts are also bound by the space vortex. The incomparably hideous wounds sent out angry roars.

Lu Yuan raised his hand, the stars and sword lights flashed by, killing all the emperor-level fierce beasts that were still in the vortex of space.

Almost instantly, all the alienated fierce beasts in front of Lu Yuan's four were eliminated.

For a moment, the scene was a little quiet.

Li Qinghe, Si Tingyu and Shuangyue's expressions froze, they opened their eyes wide, and looked at the spatial vortex slowly dissipating in a little astonishment.

Not only the three of them, but even the war emperor and war emperor-level powerhouse who are resisting the alienated fierce beasts on the side have widened their eyes, looking at the blank area a little dazedly.

A tall, single-horned war emperor with black stripes on his forehead killed a war emperor-class beast with one axe, watching the slowly dissipating spatial vortex and the dead emperor-class alienated beast. , The corners of his mouth twitched suddenly.

‘What kind of monster is this human?!’

Other war emperors and war emperors also looked at Lu Yuan, their eyes full of awe.

The Anastasia group behind the line hadn’t waited for the king-level and king-level fierce beasts to come over at this moment, and they hadn’t started fighting. At this moment, they all looked at Lu Yuan, their pretty faces were full of shock.

Nina opened her small mouth, her eyes flashed with worship:

‘So strong! Lu Yuan is really strong!!’

Xia Zhi returned to her senses and glanced at Nina, who looked admired, and opened her mouth, wanting to say a nymph, but she couldn’t say it. Even she had to admit that Lu Yuan’s strength was simply fear.

Anastasia looked at Lu Yuan in silence. After a while, she slowly retracted her gaze, and looked at the War Emperor and War Emperor Yemei who guarded them nearby. Even two of them were at this moment. Looking at Lu Yuan in shock, his eyes were full of disbelief.

She breathed out slowly and couldn’t help but whispered: ‘It’s amazing.’

Behind the line of defense, they were guarding against other holy-level alienated fierce beasts that might appear, but Gladys and Silas, who hadn’t taken a shot, were also watching Landing Yuan at the moment, and were somewhat silent.

After a while, the shock in Silas’ eyes slowly subsided, and he smiled slightly:

‘If this human descendant does not possess combat skills such as space vortex, but uses the power of space to make attacks at hand, then this human being probably still possesses a holy space gene... it’s really scary.’

Gladys at the side slowly spoke in disbelief:

‘The power of the holy space... how could he be able to burn it? Even if it is the God of War, it is probably the right thing to burn the extraordinary genes of the holy space system... he should have extraordinarily genes such as space vortex, right? ... But to instantly kill the imperial-level alienated fierce beast, it must also be the imperial-level space element transcendent gene. This human being himself is the emperor, how did he burn this transcendent gene?!’

‘Hehe, there is a holy-level star power transcendent gene, it may not be hopeless? However, this human being is really powerful, why haven’t I discovered before that there is such a powerful human?’

Silas exclaimed.

Gladys smiled slightly: ‘Interesting young man, it seems you need to check him out.’

Silas glanced at Gladys, then laughed: ‘It seems that Ye Mei is more interested in him?’

‘Such potential young people are naturally interested in Ye Mei. This is the best companion.’

Graty smiled indifferently.

Silas smiled and shook his head, without saying much.

Because Lu Yuan killed a large number of alienated beasts in an instant, a blank space appeared in front of him, and the three of Li Qinghe had nothing to do.

Li Qinghe gave Lu Yuan a weird look:

‘... Brother Yuan, what’s the matter with your spatial vortex? Isn’t your combat skills spatial movement?’

Lu Yuan was taken aback, then smiled and said:

‘My little trick.’

The corner of Li Qinghe’s mouth twitched. Seeing Lu Yuan didn’t say much, she didn’t ask any more, guessing in her heart.

Not only Li Qinghe, but also Si Tingyu and Shuangyue.

Soon, after the space subsided, the alienated fierce beast behind the beast tide also appeared again, roaring and rushing towards Lu Yuan.

Li Qinghe squeezed the weapon, Shuangyue’s pretty face was slightly condensed, Si Tingyu took a deep breath, and said: ‘Be careful...’

Before she said anything, Lu Yuan pointed it out again, and the space storm vortex condensed again.

A large number of alienated fierce beasts were shattered again.

Li Qinghe, Si Tingyu and Shuangyue’s pretty faces froze at the same time, their expressions a little distorted.

They suddenly found that they didn’t seem to have to do anything, and they couldn’t do anything.

There are no fierce beasts, just ass!

Li Qinghe twitched at the corner of his mouth and glanced at Lu Yuan with a bit of resentment:

‘Brother Yuan...can you let us do it too? Otherwise, it feels so boring! It’s obviously a beast tide, we don’t have any sense of experience.’

Lu Yuan was taken aback for a moment, then glanced at the three of Li Qinghe. Seeing that their faces were weird, he felt a little embarrassed:

‘That’s it, I thought it was too simple. Hmm... I’ll catch one for you.’

After all, Sister Qinghe and the others are also genetic warriors, and they definitely want to fight. It’s no way to protect them like this.

Hearing what Lu Yuan said, the three of Li Qinghe were taken aback.

Shuangyue was a little dazed: ‘...Catch it over? How to catch it?’

Lu Yuan smiled: ‘That’s it.’

He then probed his hand and grabbed the void.

The next moment, among the crowd of alienated fierce beasts that stopped outside the vortex of space, a giant wolf with a unicorn, pitch black, and four long tentacles on its back disappeared in place and appeared in the three of Li Qinghe. In front of.

Lu Yuan used space confinement to confine this alienated fierce beast in space. Its scarlet eyes flashed with light, but he couldn’t even move his tentacles.

Lu Yuan looked at the somewhat sluggish expressions of Li Qinghe and the three of them. He didn’t know if they were not satisfied with this alienated beast. He tentatively said:

‘This beast should be an alienated fierce beast at the peak of the Emperor Rank... Do you fight first? If it is not enough, I will catch it for you?’

Li Qinghe: ‘...’

Si Tingyu: ‘...’

Shuangyue: ‘...’

The three looked at the alienated fierce beast frozen in place, and then at Lu Yuan, not knowing what to say for a while.

Not only the three of them, the surrounding war emperors and war emperors also looked at Lu Yuan with dumbfounded expressions, and then at the alienated fierce beasts frozen in place. They were all stupid.

Is this really a royal alienated beast? !

Is this really the Emperor of War? ?

Everyone has weird faces, a look that you are really teasing me.

Nina in the distance looked at the three of Li Qinghe, her eyes were green, and she said sourly:

‘Damn... I really want Lu Yuan to catch the alienated beast and fight for me...‘

Xia Zhi looked at Nina with a foolish expression. Is this the point? ! The point is not that it is clearly the land fate of the Emperor of War, how did he catch the alienated beast from a distance, and make it powerless to resist? !

Other Ye Mei also looked suspicious of life, even Anastasia had a small mouth at the moment, and the arrogance and confidence on her face disappeared a lot. She looked at the crazy surging breath a little blankly, thinking The aura to break free from the shackles of space is even comparable to the alienated fierce beast of Emperor Zhan.

In the distance, Gladys and Silas looked at Lu Yuan with solemn expressions, and at the imprisoned alienated beast, they were silent for a long time.

Gladys took a deep breath and said:

‘It seems that I guessed wrong. This young man, I am afraid, has actually burned a powerful Saint-level space system transcendent gene. It is only the spatial power contained in the imperial-level space system transcendent gene. It is absolutely impossible to do this.‘

Silas at the side also looked dazed, with a trace of consternation. The reason why he gave two guesses before was completely because there were two possibilities for normal, but he himself felt that the normal war emperor would definitely not be able to burn the holy grade. Space is a transcendent gene, because it is a transcendent gene that even the God of War can't burn it...Even an abnormal War King should not be able to burn it.

But the facts before him had shaken Silas's worldview a bit.

A war emperor actually burned the supernatural gene of the holy space system, which is many times more difficult than burning the supernatural gene with the power of the starry sky!

His voice was shocked: '...How did he do it?'

Gladys's pretty face showed a strong interest, almost her pretty face shining brightly, and she smiled and said:

'Perhaps some great opportunity was obtained from somewhere, otherwise, just a war emperor, how could it be possible to have two Saint-level transcendent genes, and one of them is the Space Element! What a powerful young man... Even I am a little tempted, haha.'

Silas returned to his senses and glanced at Gladys, and a strange look appeared in his eyes: '...you are quite a bit different in age.'

Gladys's pretty face stiffened, glanced at Silas faintly, and said:

'Silas, don't you know that it's rude to say her age to a lady?'

'Hehe... just kidding, kidding.'

Silas smiled, and didn't talk about the subject anymore. Seeing Lu Yuan, he sighed:

'Having two Saint-level transcendent genes, and one of them is the Space Element...Such a warlord can barely resist even when facing a warlord. The young people nowadays are really amazing.'

Hearing this, Gladys's eyes condensed and became a little deeper:

'What? Isn't it great?'

A gleam of light flashed in Silas's blue eyes, and he nodded slowly:

'Indeed, more powerful is better, not even powerful enough...'

He sighed slightly: 'We are running out of time.'

Both of them fell silent.

.....

At this moment, the three of Li Qinghe also came back to their senses.

The three of them all looked at Lu Yuan weirdly, Si Tingyu took a deep breath, still serious, nodded:

'Well, we can deal with it.'

Lu Yuan just smiled and said, 'Well, I let go?'

There was a ray of golden red light surging on Si Tingyu's spear, and he nodded slightly.

Li Qinghe and Shuangyue also recovered.

Lu Yuan released the spatial restraint on the alienated beast of the giant wolf.

'Roar!!'

The moment the alienated fierce beast gained freedom, its tentacles waved and its body turned into a ball of green light, trying to escape to a distance.

Even if it was alienated, the basic rationality of the fierce beast was still there. At the very least, he knew that he would seek advantages and avoid disadvantages. Knowing that Lu Yuan was far from being able to deal with it, he naturally chose to escape.

Lu Yuan raised his eyebrows~www.mtlnovel.com~ and was planning to use the power of space to distort and expand the surrounding space, forming a closed space that would not allow the alienated beast to escape.

At this moment, Li Qinghe snorted slightly, and his body disappeared in place, and waves of fierce sword light emerged before the green light, blocking its path.

At the same time, Shuangyue waved his staff, and a green halo appeared in the sky, restraining the alienated fierce beast.

Si Tingyu also rushed up, swung his spear, and stabbed the giant wolf.

The giant wolf roared, and the green flame burned, tearing the green halo into pieces, then resisted Si Tingyu's attack and began to counterattack.

Lu Yuan glanced at the three Li Qinghe who had started fighting, only to pay a little attention to them to prevent accidents, but he looked at the alienated and fierce beasts ahead.

What makes Lu Yuan a little speechless is that he had made two shots before, and his strength might be a bit strong, so all the alienated fierce beasts avoided his direction, and before they got close to where he was, they turned their heads away. The direction of the attack began.

The corners of Lu Yuan's mouth twitched. It stands to reason that the alienated beasts are more bloodthirsty. Why are these guys so persuaded?
