

## Chapter 292: My Genes Evolve Infinitely

### APOSTLE

Because some of the alienated fierce beasts that were supposed to hit the area several kilometers in front of the land edge were all diverted to both sides, some of the war emperors and war emperors on the edge of the land suddenly felt the pressure increased, and they complained endlessly.

They were speechless. It was obvious that this perverted human killed a large number of alienated beasts. Why didn't these alienated beasts seek revenge from him, but instead dealt with them?

For a time, the war emperor and war emperor in front were impacted by a crowd of alienated fierce beasts and kept retreating.

Seeing this, Lu Yuan frowned slightly, a silver-white halo appeared in his eyes, and there seemed to be spatial changes in the halo, extremely mysterious.

He raised his hands slightly and stretched them to the sides.

Suddenly, in the direction of the entire city wall, within an area almost tens to hundreds of kilometers away from the city wall, spatial vortices appeared one by one, sucking in the alienated beasts, and all the king-level and imperial-level alienated beasts died on the spot, even if they were the emperor-level alienation. The fierce beast is extremely difficult to break free.

After breaking free, the emperor-level alienated fierce beast was also seriously injured.

Some of the remaining alienated fierce beasts rushed out through the gap of the space vortex and rushed towards the city wall.

In fact, as far as Lu Yuan is concerned, if he does his best, he can fill the space of nearly a hundred kilometers near the city wall with spatial vortices.

Although in this case, the consumption will be huge, but for Lu Yuan, consumption is the last thing to care about.

However, because there are other genetic warriors here to resist the alienated beast wave, Lu Yuan can't eat alone, so people have to feel the atmosphere.

At this moment, a roar sounded, and three more powerful holy auras emerged, rushing over from a distance, Lu Yuan felt that all these three auras had locked him.

Lu Yuan raised his eyebrows, because his performance was too strong, so he attracted the attention of the holy rank alienated fierce beast?

Lu Yuan had anticipated this a long time ago, after all, he had seen the source of the alienation with his own eyes before.

It was impossible for Lu Yuan to put such a great pressure on the previous holy rank alienated fierce beast, and there must be other holy rank alienated fierce beasts that hadn't come out.

Sure enough, Lu Yuan moved a little bit, and they came out.

'Huh! Looking for death!'

Gladys felt the breath of a holy alienated fierce beast, and her body dissipated like a dark red flame, and Silas's eyes filled with stars also showed a cold color, and her body turned into starlight, disappearing. .

At the same time, in the air, there was a roar and aftermath raging in the direction from which the holy grade alienated fierce beast aura came.

That is the two battle saints resisting the alienated holy beasts. The five auras kept colliding, getting farther and farther, and gradually rushed towards the area of the two-headed demon war saint and the first alienated beast of the holy rank. .

Lu Yuan retracted his gaze after just one glance, and continued to maintain the spatial vortex.

With the emergence of the space vortex on the land margin, the animal tide was weakened by a large part in almost a short period of time.

The war emperor and the war emperor powerhouse, who were almost unable to resist, glanced at Lu Yuan gratefully, and then killed the alienated fierce beast.

As the tide of beasts weakens, the risks they need to bear are greatly reduced, and their lives will not even be in danger, and at the same time they will be able to reap merits.

This is almost equivalent to Lu Yuan feeding the meritorious service to them, and all the war emperors and war emperors are naturally grateful.

‘This human being is really a good person.’

‘Yes, not to mention the strength is so powerful, but it also took care of us.’

‘...’

The crowd communicated in a low voice.

Lu Yuan didn’t care about other people’s voices, he glanced at the direction of the beast tide.

From the dark night forest surging with evil green light, there is a steady stream of beasts. Although the land edge is almost between the dark night forest and the dark night city, it uses the space vortex

to form a solid line of defense, but it is difficult to completely destroy the beasts in a short time. The tide subsided.

For Lu Yuan, this is not only not a difficult thing, but a good thing.

Because Lu Yuan felt that all the alienated fierce beasts that died in the beast tide had an unknown aura spilling out, and then they were absorbed into the body by the Evolution Cube.

He can feel that the Evolution Cube in his body has been flashing with a blue light, constantly accumulating the power of transformation.

This is a wave of alienated beasts! And all of them are alienated fierce beasts above the king level. When the tide of beasts subsides, even if the Evolution Cube has not yet transformed, it will be enough to take a big step.

Not to mention, in Lu Yuan's mind, the Will of Origin kept recording the merits in his genetic war pattern.

In a short period of time, he has gained more than five thousand feats.

This is several times more than the feats collected by Lu Yuan and Li Qinghe after walking in the Dark Night Forest for so long.

Lu Yuan felt that after this beast tide, he should consider going to the Hall of Meritorious Service to exchange items.

Even if the extremely precious treasures cannot be exchanged, some spirit fruits cultivated at the Battle Emperor level are already considered excellent.

As long as he evolves the spirit fruit to the emperor level, even if he is now recording the seven supernatural genes of the holy level, he will refine to Consummation at the fastest speed and then break through.

Hmm... The number of spirit crystals needed to evolve spirit fruit is probably a lot, and this also requires preparation.

After Lu Yuan planned to return to Patch Sky City, he would auction off all the emperor-level transcendent genes he had accumulated that he could not use.

At the lower level, it is difficult to sell the emperor-level transcendent genes, because there are not many war-emperor-level powerhouses in the entire Baiyun City.

But Patching the Sky City is the largest and only city of origin of the human race, and with countless war emperors, naturally, there is no need to worry about buyers.

For some of the more ordinary emperor-level transcendent genes, Lu Yuan can consider lowering the price, and it is almost possible to sell tens of millions to hundreds of millions of Tier 6 spirit crystals possible.

As long as they are all sold, the spirit crystals of the evolutionary cultivation spirit fruit will be available, and it should be enough to break through, maybe there will be an extra spiritual crystal of the evolutionary supernatural gene.

Lu Yuan was thinking about the future, suddenly he seemed to feel something, and looked towards the dark night forest in the distance.

On a big branch in the dark night forest, two figures in green robes stood upright, paying attention to this area at the moment.

All the alienated fierce beasts that rushed out of the dark night forest turned a blind eye to the two of them, as if they could not be seen.

These two people, one of them is tall, has dark keratinous skin, has a single horn on his forehead, has two pairs of eyes, and the other is a human.

Lu Yuan raised his eyebrows and narrowed his eyes slightly.

Humans and a race he doesn't know?

Who are these two guys?

The aura is very strong, there should be a holy level, but the aura is reduced?

Why don't those alienated beasts attack them? This is unreasonable. Generally speaking, the alienated fierce beast has a strong desire for destruction and destruction, as if it wants to destroy all living beings. How could it not attack those two guys?

and.....

Lu Yuan glanced at the green robes worn by the two of them, frowned slightly, and remembered the corpses of the two-headed demon he had previously encountered in the dark night forest and a broken corpse of a Binxi man.

That Pennsey also seems to be wearing a green robe?

However, that green robe was a bit torn, and Lu Yuan wasn't sure if it was of the same style.

It was just that Lu Yuan instinctively felt that there seemed to be a connection between the dead Pennxi and these two strange Saint-level powerhouses.

Lu Yuan frowned slightly. At this moment, a roar sounded, a sharp roar from above the sky, and then a powerful breath quickly weakened and gradually dissipated.

Lu Yuan raised his head and glanced at the direction of the breath, and felt that a holy grade alienated fierce beast seemed to have died.

Lu Yuan quickly retracted his gaze, and found that the two figures standing on the branch had disappeared.

Lu Yuan narrowed his eyes.

The next moment, he turned his head to look at Li Qinghe, Si Tingyu and Shuangyue behind him.

At this moment, the three of them were fighting with a few alienated beasts. After Lu Yuan heard what Li Qinghe had said before, he consciously let a few alienated beasts come in and let them practice their hands.

Of course, those alienated fierce beasts were not very willing, and Lu Yuan grabbed them by himself.

After Lu Yuan retracted his gaze, the remaining shadow squirmed slightly, the space fluctuated slightly, and a shadow disappeared in place.

.....

Dark night forest.

Two figures wearing green robes flew quickly in the air, and all the alienated fierce beasts moved around them in the direction of Dark Night City.

Among them, the tall figure with \*\* skin, two pairs of eyes and a single horn glanced in the direction of the sky, his voice was piercing, and he said:

‘I still underestimate Ye Mei. I didn’t expect to invite Dunbar of the two-headed demon and Silas of the dwarf. With them two, there are only five holy-level alienated fierce beasts, it is hard to do anything.’

The human next to him has short gray and slightly curly hair, his light gray eyes have a trace of indifference, and he speaks faintly:

‘It doesn’t matter, this attack itself is just a temptation. It doesn’t matter if the alienated crystal’s function is tested, it doesn’t matter whether it succeeds or not.’

Upon hearing this, the tall man also nodded in agreement.

Then he thought of something, and narrowed his eyes, with a dignified look in his eyes:

‘That human war emperor, it’s a bit interesting, it’s just the war emperor who actually possesses power close to the holy rank. He finally looked at us, didn’t he spot us?’

The gray-haired human man was silent, and then faintly spoke:

‘Probably not, such a long distance, and although there is evil flames burning, but after all, it is a dark night here, without reaching the holy level, how can he see us?’

‘Too.....’

The tall man nodded.

The human man fell silent, and continued to speak: ‘However, that human being is only the Emperor of War with such a powerful strength. I am afraid it is one of the most powerful young generations in the entire universe. The future may have a little impact on us. We have to look for it. An opportunity to kill him.’

The tall man nodded: ‘Report it when you go back. Now there are quite a few of our followers in Star Territory, so it’s easy to find someone.’

As he said, he grinned, both eyes with a trace of hideousness:

‘Hey... the natural disasters spread, we will only get stronger and stronger, and now my \*\* is corroding the universe stronger, I didn’t expect the archbishop to open a gap...’

As he said, he looked at the Dark Night Forest, a little intoxicated, closed his eyes slightly, and raised the corners of his mouth:

‘The place of origin...he...I still want to isolate us, but in the end it won’t let us in. It’s a pity that we can’t kill a few more genetic warriors here.’

The human man on the side glanced at the tall man with a cold expression:

‘Bellock, Carey had such thoughts, that’s why he died.’

Belloc heard the words, squinted his eyes, and said faintly:

‘That trash is nothing but the Emperor of War, how could he and I be the same?’

‘Oh? How about you stay and deal with Dunbar and Silas?’

Belloc stopped and fell silent. He glanced at the human man and said coldly:

‘Mu Jing, don’t think that you are the first archbishop, you can talk to me like this, I am higher than you in the apostles ranking.’

Mu Jing’s indifferent face twitched the corners of her mouth, and then smiled faintly:

‘Going back this time, my ranking will surpass you.’

Both pairs of Belloc’s eyes flashed with a hint of coldness, and he narrowed slightly, staring at Mu Jing coldly.

Mu Jing smiled and said:

‘This is the place of origin, do you want to do it here? If you are not afraid of death, I would be happy to accompany you.’

Belloc stopped and moved back to his sight silently.

‘Assemble those wastes and prepare to go back. The purpose of the experiment has been achieved.’

Mu Jing smiled and nodded, and the two of them continued to move towards the direction of the huge spatial fissure in the dark night forest.

Behind the two of them, under the shadow of a tree in the dark night forest, the shadow was distorted, wriggling and forming a figure.

The figure watched Bellok and Mu Jing leave from the air, getting smaller and smaller.

Lu Yuan, who was outside the city of Dark Night, narrowed his eyes slightly, a sharp look flashed in his eyes.

Along the way, Lu Yuan listened to the conversation between the two. Although there was not much conversation, there was still some information.

At the very least, Lu Yuan knew that they were probably not genetic warriors.

Otherwise, it would not be said to be isolated outside the place of origin, only alienated genetic warriors would be isolated and excluded.

Moreover, listen to what they mean, this animal tide is an experiment? What is the function of alienated crystal under test?

Lu Yuan didn't know what the alienated crystal was, but it was definitely not a good thing.

After all, ~www.mtlnovel.com~ can cause the source of alienation, and there are problems no matter how you think about it.

In addition, they talked about the corrosion of the universe, when they talked about gods and the like, should they be on the side of alienation? Treat alienation as a god?

Help Alienation Corrupt the Universe?

Lu Yuan squinted his eyes, a murderous look appeared in his eyes.

Isn't this kind of special act of rape?

This is what Lu Yuan hates most.

There are also words like archbishop, apostle...

This should be used for the church, right?

Which cult do they belong to?

For cults and the like, Lu Yuan only knew one, and that was the Scourge Sect that the elven man who caused the alienation phenomenon said before.

When Lu Yuan thought of this, his expression was a little weird.

These two guys, aren't they from the Scourge Order, are they?
