

Chapter 296: My Genes Evolve Infinitely

SHARE SECRETS

‘A little more?’

Li Qinghe was taken aback, looking at Lu Yuan curiously: ‘How much is that?’

Lu Yuan glanced over, seeing the curious look of the three of them, the corners of his mouth twitched:

‘...Probably more than 800,000 yuan.’

Li Qinghe: ‘???’

Secretary Tingyu: ‘???’

Shuangyue: ‘???’

When the three of them heard this, they all looked dumbfounded.

The air was silent for a while, and the atmosphere became a bit awkward.

After a while, the corners of Shuangyue’s mouth twitched suddenly, and a strange look appeared on Qiao’s face:

‘...You said it was a little bit?!’

Lu Yuan looked innocent: ‘It’s not much difference, isn’t it all tens of thousands?’

‘...’

The three of them were silent again, and Li Qinghe only then remembered, looking at Lu Yuan a little weirdly:

‘Brother Yuan, haven’t you been with us all the time? How come you have done so much more than us?!’

After hearing Li Qinghe’s words, Si Tingyu and Shuangyue also reacted, looking at Lu Yuan with some doubts.

Lu Yuan originally thought that they would not ask.

Unexpectedly, I still asked.

Lu Yuan smiled dryly and said:

‘I used some means to go to the Dark Night Forest to close the space gap, and by the way, help the three war saints deal with some problems... Don’t say that.’

Lu Yuan also intends to cultivate calmly, at least before he breaks through to the Emperor of War, he still hopes to be stable.

After all, after breaking through to the Emperor of War, Lu Yuan can evolve all his genes to the god-level. Then, even if he is facing the God of War, Lu Yuan will not be imaginary. Even if he is not an opponent, with his extraordinary genes in the space system, he wants to No one can stop him if he leaves.

But now, it’s still a little bit worse.

I still have to remind Sister Qinghe and the others, lest they go out and talk.

Based on Lu Yuan’s understanding of the three Sister Qinghe, they should be aware of this problem.

Hearing Lu Yuan’s words, Li Qinghe’s eyes widened and the eyes were full of shock.

They stayed in the upper layers of Origin Land for some time, and naturally understood how difficult it is to close the space rift.

The three of them didn't expect that Lu Yuan had been with them all the time, resisting the beast tide, but in the end he could use other means to close the gap in space.

This kind of method, in their view, even the warlord may not be able to do it, right?

Thinking of this, Li Qinghe and Si Tingyu both shrank their pupils.

Li Qinghe suddenly spoke to Lu Yuan and said, 'Brother Yuan, was it you who killed the Green Dog in the real world?'

Si Tingyu also transmitted over: 'A Yuan, were you the mysterious person who killed the holy alienated beast of Daqixing last time?'

Lu Yuan was stunned when he heard the voice transmission of the two.

They actually guessed it?

Lu Yuan glanced at the two of them, but did not deny it.

He smiled and transmitted the voice message back: 'How did you guess it?'

Hearing Lu Yuan's question, the two naturally confirmed that Lu Yuan was the mysterious powerhouse who killed the holy grade alienated fierce beast.

The pupils of the two of them contracted, and their faces were full of surprise and excitement.

'It's really you! Isn't it because you weren't there at the time? Although we guessed last time, you didn't show the ability to kill the holy alienated beasts, so it's just a guess, but this time you came to the Dark Night Forest. , Your demonstrated strength is much stronger than that of the Emperor of War, we'll guess whether you already have the strength of War Saint.'

Li Qinghe said in a voice transmission.

Si Tingyu nearby also nodded silently.

When Lu Yuan heard the words, he felt astonished. Compared with his father Li Xinghai, Qinghe and his mentor are the most familiar with him. Although Lu Yuan is usually relatively low-key, he only showed his strength when he made the list, and he also hid most of it. Strength, but relatively speaking, Sister Qinghe and her mentor's understanding of him, coupled with the previous situation, made a certain guess.

Of course, the most important reason is the issue of this meritorious service.

Otherwise, maybe they are just a little skeptical, right?

Thinking of this, Lu Yuan twitched at the corner of his mouth, who knew that this distribution would still happen.

He smiled and said, 'It's really me, but you don't want to talk about it for the time being, I have to practice hard.'

Li Qinghe and Si Tingyu looked at each other.

Li Qinghe said with some doubts: 'Of course we won't say it, but brother Yuan, how can your strength be so strong? When you were in Xili City, although you were a genius, you were not so exaggerated...'

Compared with Si Tingyu, Li Qinghe watched Lu Yuan walk up step by step, and naturally became more confused about Lu Yuan's strength.

Hearing this, Lu Yuan was silent, he was wondering if he could tell Li Qinghe about his ability to evolve extraordinary genes.

After all, this matter is still quite serious, but Lu Yuan thought for a while, and roughly speaking, based on his understanding of Sister Qinghe and his mentor, there should be no problem.

Lu Yuan believed that they would not speak out.

He smiled and said: ‘The genes I burned can evolve. You have to keep it secret.’

Upon hearing this, Li Qinghe and Si Tingyu were both stunned.

The two of them stared wide-eyed, looking at Lu Yuan in a daze, they were a little dumbfounded.

The shock caused by Lu Yuan’s words was much greater than Lu Yuan’s previous 800,000 merits and their determination that Lu Yuan was the mysterious powerhouse who killed the holy-level alienated fierce beast.

The burned genes can evolve, which is something they have never heard of.

Li Qinghe sent a shocked voice to Lu Yuan:

‘Brother Yuan, what you said is true?! Can you really evolve?? This...this is really incredible.’

Not only Li Qinghe, but Si Tingyu’s original serious pretty face also had a strange expression at the moment, and the voice transmitted to Lu Yuan was trembling:

‘If this is the case... Then, Ayuan, all your extraordinary genes now are...’

Lu Yuan had said everything before he said with a smile: ‘Yes, all my transcendent genes are holy grade.’

Li Qinghe and Si Tingyu took a deep breath, looking at Lu Yuan in shock.

Shuangyue frowned slightly when seeing Li Qinghe and Si Tingyu’s expressions constantly changing, and said with some doubts:

‘What are you talking about? How do you feel that you three are hiding something from me?’

Lu Yuan gave a dry cough. Compared with Li Qinghe and Si Tingyu, they have known each other for more than three years. Lu Yuan already knows them very well and naturally believes them. But for Shuangyue, Lu Yuan only sees them during the Chinese New Year every year. Once, there were not many opportunities to meet, and I didn't know her well, so I didn't talk to Shuangyue.

Li Qinghe and Si Tingyu came back to their senses. Seeing that Lu Yuan didn't talk to Shuangyue, they naturally wouldn't say much.

Although they and Shuangyue are friends of life and death and trust Shuangyue completely, this is Lu Yuan's secret. They believe that if Lu Yuan wants to say it, he will tell Shuangyue himself.

Li Qinghe smiled and patted Shuangyue's shoulder: 'It's nothing, we're talking about something interesting. If you want to know, Yueyue, why don't you marry my fate brother and let him tell you?'

Shuang Yue Qiao's face stiffened, she glared at Li Qinghe, a reddish color appeared on her face, and then she glanced at Lu Yuan:

'Ah... let's talk about it later.'

'Yo? Huny Yueyue, you didn't even refuse directly?'

Li Qinghe looked at Shuangyue in amazement, even Si Tingyu glanced at Shuangyue in surprise.

They know what Shuangyue's attitude is when facing other men.

Shuangyue glanced at Li Qinghe and Si Tingyu with a smile:

'What? Didn't you two refuse?'

Li Qinghe and Si Tingyu both froze, silently averted their eyes.

Lu Yuan, who was the center of the topic, let out a awkward dry cough, and said:

'Do you still have fierce beasts?'

Only then did the three of Li Qinghe come to their senses, Li Qinghe smiled and said:

‘Then let us deal with some more.’

Lu Yuan nodded and relaxed some of the spatial vortex, causing a small group of fierce beasts to rush over, and Li Qinghe and the three greeted him.

The tide of beasts continued, and it didn’t take long for three streamers to fly back from a distance.

Lu Yuan looked up and found that it was the three warlords of Gladys.

The shadow clone he had left in the Dark Night Forest had already seen them come back, which was not surprising.

After the three warlords of Gladys came back, they saw the dense spatial vortex for the first time, and then looked at Lu Yuan, whose face was slightly pale.

Silas sighed: ‘This human young man is really good. Almost on his own he can block this beast tide more than half.’

Even Dunbar, whose breath was violent, nodded slightly, and said in a heavy voice:

‘This young man has a future. I am afraid that the future will not be worse than us, maybe he will be stronger than us.’

Gladys thought of the disaster apostle that day before, with a touch of heaviness on Qiao’s face, and said faintly:

‘Just don’t know if he has time to grow up.’

Hearing this, both Dunbar and Silas had a heavy look on their faces.

After being silent for a while, the three of them stopped talking, and returned to the city. They did not take action to suppress the beast tide, but watched a group of genetic warriors kill the alienated beasts.

For them, these alienated fierce beasts are not threatening, and it is a simple matter to calm the tide of beasts, but for other genetic warriors, this is a feat for them to grow, and the three war sages will naturally not do it themselves.

However, it didn't take long for the green flames in the Dark Night Forest to slowly extinguish under the pressure of the Will of Origin. The alienated beasts that appeared in the Dark Night Forest gradually decreased, and the beast tide gradually subsided.

This made the genetic warriors who were hunting the alienated beasts to gain merits a little astonished.

‘What’s the matter? How could this beast tide end so quickly?’

Anastasia had dark red flames flowing around her body, and the flames turned into spears, piercing a warlord-level alienated fierce beast.

She frowned slightly and glanced at the fewer and fewer alienated fierce beasts with some surprise.

The geniuses of Ye Mei, such as Nina and Xia Zhi, looked forward in surprise.

‘It stands to reason that the source of the alienation is so huge that this wave of beasts will last for several days at least?’

‘No, you look at the direction of the Black Forest.’

Xia Zhi looked at the front, and said with some uncertainty.

Everyone looked up, and then their eyes widened slightly, a little surprised.

Because they found that the green fire in the dark night forest has become very dim at this moment, and the darkness has once again covered the gloomy green light, and it seems that it is about to change back to its original state.

This made the faces of all Ye Mei geniuses showed a look of surprise.

At this moment, a Ye Mei Zhan Emperor who was guarding them on the side opened his mouth and said:

‘It seems that Saint Gladys has calmed down the source of alienation. It won’t be long before the tide of alienation beasts will end.’

Hearing this, Anastasia’s people all showed a daze.

‘I see.’

Not only on Ye Mei’s side, but all the genetic warriors on the entire defense line discovered this.

There was a trace of unsatisfied expression on their faces.

‘It’s over so soon ?!’

‘Yeah, this is too fast. This time the beast tide has that brother Lu Yuan. How easy it is for us to hunt the beasts without worrying about safety issues. I also want to take advantage of this time and accumulate more merits. Well, I didn’t expect it to end so soon.’

‘Who said no ? I have only won more than a thousand feats now. How can this be enough ?’

‘I’m only more than two thousand, hey, if it lasts for a while, it will be fine.’

‘...’

When everyone discussed, Lu Yuan and Li Qinghe didn’t feel any surprise.

They all know that the source of alienation has subsided, after all, they have received meritorious rewards for this.

Although this merit award was not made by the three of Li Qinghe themselves.

Before long, there were fewer and fewer alienated fierce beasts, and Lu Yuan also removed the spatial vortex. The remaining alienated fierce beasts were not enough to share, and Lu Yuan was not interested in the last bit of merit.

Just quelling the source of alienation, Lu Yuan gained 850,000 merits, and in the beast tide, Lu Yuan also gained nearly 400,000 merits.

Adding up, Lu Yuan won a total of 1.22 million worth of feats.

This is an astronomical figure for any war emperor, even for a war emperor.

Only the saint of war can do so much meritorious deeds.

Lu Yuan was still a little surprised. With so many merits, there would be no problem with his cultivation resources in the future.

In addition to the merits, there is also the unknown aura of these alienated beasts.

Following the continuous transformation of the Evolution Cube, the range of absorbing unknown breaths is also expanding.

At the very least, within an area of several hundred kilometers, the unknown aura of all the dead alienated fierce beasts was absorbed by the land edge, including the five holy-level alienated fierce beasts.

However, even after absorbing the unknown breath of the entire beast tide, Lu Yuan's Evolution Cube still has not completed its evolution.

It can be seen that the unknown aura needed for every evolution of the Evolution Cube becomes more and more.

But... Lu Yuan also planned to go to the area where the space rift was before, to see if the area where the people of the Scourge Order died would have an unknown aura that could be absorbed.

The unknown breath will continue to dissipate with the time of death, but now only a few hours have passed. According to reason, ~www.mtlnovel.com~ the unknown breath of the holy level and the war emperor level should not disappear so quickly.

Thinking of this, Lu Yuan smiled at Li Qinghe and the three behind him: 'The animal tide is over, let's go back and rest first, I'm a little tired.'

Hearing what Lu Yuan said, the three of Li Qinghe naturally had no opinion.

They all knew that when Lu Yuan resisted the beast tide, he even went to help quell the rift in space, which must have spent a lot of effort.

Li Qinghe nodded quickly: 'Well, let's go back then.'

Si Tingyu also nodded.

Shuangyue smiled and said, 'Would you like some personal massage for you?'

Li Qinghe glared at Shuangyue: 'Smelly Yueyue, what are you talking about?'

Lu Yuan was a little moved, but when he thought that he had to go to the rift in the space, he could only reluctantly refuse.

He smiled: 'Go back and talk about it.'
