

# Chapter 3:My Genes Evolve Infinitely

## HOVERING ON THE EDGE OF DEATH

Leaning on bus No. 11, after walking for more than an hour, Lu Yuan followed the map in his phone and found his destination.

Xili City, North Branch of the Genetic Warrior Association.

That is a very conspicuous building in a bustling area.

The tall building made of black stone occupies a width of more than two hundred meters. There are two statues of warriors about 50 meters high on both sides of the central main entrance. The warriors hold long swords, and the long swords intersect in the air. The main entrance is just below the long swords.

Those who enter and exit at the main entrance are also dressed differently from ordinary people.

Some people were wearing armors, some were wearing robes, some were carrying long swords, and some even had tails. Lu Yuan wondered if it was a human anymore. People could have long tails!

But almost everyone has a strong aura.

Luyuan is like a sheep entering a pack of wolves here.

He took a deep breath and entered the door.

After entering the gate, there is a lobby. Lu Yuan noticed the central information desk at first sight.

He carefully avoided the genetic warriors who were walking swiftly, and came to the information desk.

The young lady at the information desk looked at Lu Yuan with a cordial smile:

‘Hello, can I help you?’

‘I just woke up and want to register.’

Miss Sister pointed her finger to the right: 'The registration office is over there...Xiao Ai, show the way for this gentleman.'

When Miss Sister was speaking, a white robot with a height of about one meter six came out beside the information desk with a crisp and lively loli voice:

'This gentleman, please follow me. Xiao Ai will take you to the genetic warrior registry.'

Robot Xiao Ai turned around and left after speaking, Lu Yuan hurriedly followed.

After seeing the robot Xiao Ai, the genetic warrior would give way. Lu Yuan followed and avoided the crowd from time to time. After a while, he came to a room on the right side of the hall.

The room is about two hundred square meters. There are some chairs in the center. There is a row of windows on the side of the door, and there are staff members who are checking in.

Lu Yuan glanced at the room quickly.

There are about twenty people sitting on the chair in the center. Their faces are all green, they look about the same size as Lu Yuan, or maybe even a little smaller.

Lu Yuan knew that these people, like him, were just awakened.

After Robot Xiao Ai brought Lu Yuan to this room, Loli's voice sounded again:

'Sir, this is the registration office. You can pick up the ticket at the ticket machine and wait for the number to be called.'

Xiao Ai pointed to a ticket machine by the door.

Lu Yuan walked over and took the ticket. He glanced at B12.

glanced at window B, it's only B08 now, and I have to wait a bit.

He came to a corner and sat down and waited quietly.

After about half an hour, the radio sounded and Lu Yuan's number was called.

Lu Yuan came to the window and sat down. Inside was a thin young lady.

She smiled at Lu Yuan:

‘Hello, are you here to register the genetic warrior?’

‘Yes.’

‘Please give me the ticket, and then check the fingerprints and pupils.’

Lu Yuan handed her the ticket, and under her guidance, checked her fingerprints and pupils.

Miss glanced at the light curtain on the side, and smiled:

‘Imperial citizen, ID number XL139205253232, name Lu Yuan, please confirm, is it correct?’

A light curtain appeared in front of Lu Yuan’s eyes, with Lu Yuan’s head portrait, ID number and name on it.

Lu Yuan glanced over and clicked OK.

‘Please show your genetic war pattern.’

Lu Yuan raised his left wrist, revealing the golden lines on his wrist.

Miss Sister took out a black instrument and placed it on the golden pattern. Soon, with a beep, a green light flashed on the black instrument.

She smiled and said:

‘The genetic war pattern is confirmed. Mr. Lu Yuan, congratulations on becoming a genetic warrior. I hope you can prosper and fight for the survival of the human race.’

‘Thank you.’

Ms. manipulated it again, and then said:

‘The registration has been completed. You have just awakened. Now you are a trainee-level gene warrior. You will receive 5000 imperial allowances every month. This month allowance has been issued to your personal account. In addition, I have opened the login gene warrior for you. The authority of the website, the account number is your ID number, and the initial password is 666666. You can log in to the gene warrior website to check the information related to the gene warrior. The empire has prepared basic aura guidance techniques and military physical fist for free for the newly awakened gene

warriors. The Army Killing Sword has been sent to your Battle.net mailbox. Please go back and check it carefully.'

Ms. said a lot, then looked up at Lu Yuan and smiled:

'Do you have any questions?'

After listening carefully, Lu Yuan was taken aback.

He quickly took out his cell phone and looked at it, and then he saw the transfer information of 5,000 yuan.

His current personal savings has reached 5,035 yuan, which is simply gratifying!

As for the Reiki Guidance Techniques he presented, Lu Yuan didn't understand.

He plans to check again after he goes back.

Thinking of this, Lu Yuan returned home like an arrow.

He has a brilliant smile:

'that's all, thanks.'

'You are welcome, if you have no doubts, please rate my service.'

Lu Yuan, of course, ordered a five-star review.

After , Lu Yuan couldn't wait to leave the Gene Warrior Association.

Now that he has money, he went out, and Lu Yuan used taxi-hailing software to get a taxi.

Within a few seconds, an unmanned suspension vehicle stopped in front of Lu Yuan.

The technology in this world is much more advanced than before Lu Yuan.

Unmanned driving technology, intelligent robot technology, and suspension technology are all very mature.

According to Lu Yuan's understanding, these are all knowledge obtained by the genetic warrior from the place of origin.

You can imagine how many treasures there are in that place of origin.

Get in the car and go home.

It didn't take long for the floating car to come to a somewhat run-down area from the feasting and bustling area.

bang bang bang!

Lu Yuan sitting in the car vaguely heard the gunshots coming from a distance.

His complexion has not changed, he is used to it.

Because of the limited living expenses, Lu Yuan lives in a slum area, and the law and order is not good, and gun battles occur from time to time.

After all, there is alienation in this world. From time to time, there are even fierce beasts sneaking into the city, and ordinary people are not forbidden to equip weapons.

This has also led to rampant gangs in areas with poor public security and many crimes.

The area where Lu Yuan is located is already considered okay. He heard that some people disappear every day in some areas.

Soon, the floating car stopped at the gate of Lu Yuan's residential complex. Lu Yuan bowed his head slightly and hurriedly entered the complex.

carefully avoided a few drunks, and declined the enthusiastic young lady sister, Lu Yuan returned to his room.

It is a small room of 20 square meters separated out. There is only a room with a bed and desk and a simple bathroom. UU reading [www. uukanshu. com](http://www.uukanshu.com)

The rent is very cheap, 200 per month.

After returning to the room, Lu Yuan exhaled.

Every time I go home, I am afraid when I will be hit by a bullet coming from somewhere.

I only felt it in the memory of his predecessor before, but now that he experienced it personally, Lu Yuan was panicked.

I felt like I was always on the verge of death.

and many more...

Brother, I seem to be rich now ?

His eyes lit up and suddenly thought of this question.

Go to see the room tomorrow! Move away from this ghost place!

Otherwise, he was afraid that he would be shot to death before he became the pillar of the human race.

That is definitely the biggest loss Human Race has ever suffered!

He stopped thinking about it, opened the antique notebook on his desk, and began to log on to the Gene Warrior website, commonly known as Battle.net.

Search the website, open the webpage, and enter the account password.

'ID...666666...logged in!'

Lu Yuan logged in to the webpage, changed his password immediately, and then took out his nickname by the way.

Lu Yuan originally wanted to take the nickname 'Destined Person', but found that it had already been taken.

He tried a few other nicknames, but they all already existed.

Lu Yuan finally chose the nickname 'Youyiren' which is full of aid.

This made Lu Yuan deeply realize that no matter which world he is in, naming is always the most troublesome thing.

After changing his nickname and password, Lu Yuan found out that he had an email.

He clicked on it and found three pieces of information.

Basic Reiki Guidance.

Military physical fist.

Army body killing sword.
