

Chapter 34: My Genes Evolve Infinitely

THE FUTURE BOSS IS BY MY SIDE? !

The atmosphere fell silent.

Wang Xiangxiang: Anger.jpg) (Anger.jpg) (Anger.jpg

She sent a series of emoticons before sending a message:

‘You actually take it seriously?! I’m just kidding! I’m in Stormwind! You are not the same initial city! And I’m already 98% tempered!’

Lu Yuan was taken aback, feeling a little embarrassed.

So Wang Xiangxiang is already so strong?

Then Lu Yuan thought that Wang Xiangxiang had awakened in the first year of high school after all, and the family itself is also a family of genetic warriors, and it must be of great help to her.

It has been almost two years, and it is reasonable to break through to the first order.

He said seriously:

‘Do you think I didn’t know you were joking? Actually I was joking too. You took it seriously? Didn’t you?’

Wang Xiangxiang: ‘???’

Zhuo Ming: ‘@陆缘, the big guy is worthy of being a big guy! Idol! How dare you ** with sister Xiangxiang!’

Gu Yu: ‘@陆缘, the big guy deserves to be a big guy! Idol! How dare you flirt with Sister Xiangxiang!’

Wang Xiangxiang: ‘Xiao Naruko, Xiao Yuzi, do you want to die?’

Zhuo Ming: ‘Ah, shall we say something else?’

Winnie: 'By the way, we haven't met Classmate Lu Yuan yet, when will we get together?'

Gu Yu: 'I think it's OK. Classmate Lu Yuan is already a big boss now. Don't you ask us to have a good meal?'

Wang Xiangxiang: Smirk.jpg) Yes, I'm going to eat at the Jiuhu Restaurant!'

Lu Yuan: '? Could you please sell me, I have no money at all.'

Jiuhu Restaurant is the most advanced restaurant in Xili City, even a place known to him in the slums.

Where did he go to treat?

What do you think?

He can't afford it at all.

Wang Xiangxiang: 'Just kidding, there is a lot of money for Gene Warrior. Just ask us to eat a little bit. By the way, wait for Xiaoyanzi and Lily to come out together.'

Winnie: 'I agree.'

Zhuo Ming: 'Then it's settled! From today on I will not eat anymore, I will wait for the boss to treat me!'

Lu Yuan: 'Okay, don't eat.'

Gu Yu: 'By the way, if Brother Cao can come out alive this time, he should be almost 95% tempered, right?'

Zhuo Ming: 'Envy, I am only 36% now.'

Winnie: 'You can already do it, I'm only 33%. If this goes on, it will be a bit hanged to reach 35% before the college entrance examination. How many are you Gu Yu?'

Gu Yu: 'I am 64%, and I can't compare with Sister Xiangxiang and Brother Cao.'

Zhuo Ming: 'That's not bad. With your temperament, coupled with the extraordinary genes that have been burned, you can go to a medium-level genetic warrior academy. It's hard for me and Winnie.'

Wang Xiangxiang: 'If you can come out alive in the place of origin next, Naruko, you and Winnie can still hope to reach 50% temperament.'

Zhuo Ming: Cry tears. jpg) How can it be so simple to live out of the land of origin? The fierce beasts and other warriors of the land of origin are not humans! I can't wait to kill you one by one! Am I special? It's been a year since I awakened, and I only came out of it ten times alive! This time I was going to die, thanks to Brother Yuan!

Winnie: 'If it doesn't work, then my dad plans to spend money to buy me a batch of spiritual crystals, at least it can increase the tempering degree.'

Zhuo Ming: '@温妮...rich lady, hungry, rice!'

Winnie: Smile.jpg) Get off.'

Wang Xiangxiang: '@温妮, then you have to do it as soon as possible, after all, it is almost the college entrance examination.'

Winnie: 'Well, I know.'

Wang Xiangxiang: Sigh. jpg) It is also difficult for me. It is too difficult to break the gene lock. The materials I need are difficult to obtain in a short time. If I can break through to a first-order fighter, then I might be able to Contend for the top ten genetic warrior academy.'

Gu Yu: 'Is this the boss? While we were still thinking about how to live from the land of origin, she had already begun to think about breaking the genetic lock. It's all human, why is the difference so big?! Born to be human, I'm sorry. (Crying.jpg

Winnie: 'Is this the boss? While we were still thinking about how to live from the land of origin, she was already thinking about breaking the genetic lock. It's all human, why is the difference so big?! Born to be human, I'm sorry. (Crying.jpg

Zhuo Ming: 'Is this the boss? While we were still thinking about how to live from the land of origin, she had already begun to think about breaking the genetic lock. It's all human, why is the difference so big?! Born to be human, I'm sorry. (Crying.jpg

Lu Yuan: 'Is this the boss? While we were still thinking about how to live from the land of origin, she was already thinking about breaking the genetic lock. It's all human, why is the difference so big?! Born to be human, I'm sorry. (Crying.jpg

Lu Yuan, who had been watching the screen, couldn't help but chose to repeat.

Seeing Lu Yuan's news, Zhuo Ming asked curiously:

'By the way, Brother Yuan, what is your temperament degree?'

Lu Yuan: 'I'm lower than you guys, I'm only about 10%.'

Wang Xiangxiang: ' ?'

Winnie: ' ?'

Gu Yu: ' ?'

Zhuo Ming: ' ?'

Lu Yuan was a little puzzled: 'What's the matter?'

Wang Xiangxiang: '...you only woke up for a week, right? That's 10%?!'

Gu Yu: 'Why is it so fast?'

Zhuo Ming: 'I suddenly don't know if Brother Yuan is too strong or I am too good.'

Winnie: 'This speed is too scary. If this speed goes down, there will be almost two months before the college entrance examination. You can't hit the first level?! (fear.jpg

Lu Yuan: 'Maybe I have a higher efficiency in absorbing spiritual power. I heard people say that I am a genius.'

In fact, most of the spirit crystals he consumes are used to charge the Evolution Cube.

Wang Xiangxiang: 'If this is the case, then Lu Yuan, you are really a genius, and you are not an ordinary genius! At your speed, you can catch up with the children of those big families! Really, if you can keep it in the future, you will definitely grow up. Guy! Maybe you can become a warlord or a warlord!'

Zhuo Ming: 'Zhan Zun?! Fuck! The future boss is by my side?!'

Winnie: 'Big brother! Can I hold my thigh in advance?'

Gu Yu: 'Which leg do you hold?'

Zhuo Ming: ' ? Old Gu, you are not right.'

Winnie: ‘?’

Gu Yu was banned for 24 hours.

Wang Xiangxiang: ‘Okay, it’s quiet now. I’ll go and beat Xiaoyuzi later.’

Zhuo Ming: Candles.jpg) (Prayers.jpg) I hope people will be okay.’

Lu Yuan looked at the news in the group and twitched his mouth.

He hadn’t noticed before that the awakened genetic warriors in his class were really talented.

.....

After , everyone chatted for a while and said something about the place of origin.

Wang Xiangxiang and Cao Yan are the children of a genetic warrior family. They have family support and they have a good time.

The others are a bit difficult.

Go in the Origin Land and always die out.

It’s hard to be alive more than ten times a year, and progress is relatively slow.

Of course, compared to normal cultivation, it is still much faster.

After all, the speed at which most people absorb Reiki is actually quite average.

There are not so many geniuses like Lu Yuan.

When the sky was getting brighter, Lu Yuan withdrew from the chat group, opened the website, and started looking for news about the beasts in the sandstone underground palace.

Soon, he found it in the newcomer post.

‘Sand Rock City Furious Beast Illustrated Book’

Lu Yuan’s eyes lit up and opened the post.

Then his face darkened.

turned out to be a paid post!

There is a charge of 3,000 yuan for a post!

‘Robbery?! Even if I die, I won’t pay this money!’

Lu Yuan was a little unconvinced, so he quit the post and continued searching.

After searching for a long time, Lu Yuan found a few more posts about the fierce beasts in Sandstone City. The results were all paid posts.

The first one I saw was the cheapest.

Lu Yuan had no choice but to find the first post.

‘Isn’t it 3000 yuan? Labor and capital can’t afford it!’

Fortunately, he still has more than four thousand dollars in his pocket, otherwise he can’t even pay.

‘This post is about the illustrations of the fierce beasts in the Shayan City area of the initial city. (Note: This post only includes conventional fierce beasts, and some unique fierce beasts are not generalized.)

Lu Yuan glanced at the first sentence and couldn’t help but curl his lips.

But he can understand, after all, the place of origin is too big, and there are too many kinds of beasts.

There are some fierce beasts, and no genetic warrior has even encountered them. I don’t know what fierce beast they are.

‘Greystone beetle: ordinary beast, the weakest beast in Sandstone City, mainly distributed in graystone forest, but also in other areas, weak in strength, food is rock, very slow, welfare for newcomers...’

‘Black-grained greystone beetle: Elite beasts, mainly living in the gray stone forest, are weaker among the elite beasts, genetic warriors with strength equivalent to 40%-60% of ordinary genetic tempering, with combat skills petrified skin...’

‘Iron beetle: Ordinary fierce beast, mainly living in the depths of the gray stone forest, with a small number, stronger than the gray stone beetle, strong defensive ability, slow speed...’

‘Little Stone Man:…‘

‘Black Scorpion:…‘

‘The sand ants in the underground palace:…‘

There are hundreds of beasts in the whole post~www.mtlnovel.com~ Among them, there are hundreds of beasts in the sandstone underground palace.

Including the little stone men, black scorpions that have been encountered before, as well as the sand ants of the underground palace, the black thread snake, the shakui of the underground palace and so on.

The characteristics, strength, and the precious parts of these fierce beasts are all written.

After reading it, Lu Yuan suddenly felt that the money was actually not a loss.

After knowing the type of fierce beast in the sandstone underground palace, Lu Yuan had a lot of confidence in his heart.

There are some fierce beasts, even if he encounters them now, they can only escape for their lives, otherwise they will definitely die.

If he didn't know the fierce beast before, he might rush up stupidly.

Lu Yuan thought for a while, and then wanted to buy a map of the underground palace.

Although the nests and habitats of the beasts in the underground palace will migrate to a certain extent at different times, if the passage does not undergo major changes, there will be no major changes.

After buying a map, the probability of getting lost has become much lower.

However, when he clicked on the post to buy a map, the payment of 10,000 yuan silenced him.

There are only a thousand points left in his pocket.

Fortunately, he still has a space of materials to sell.

It took two hours to finish reading the previous post on the illustration book of fierce beasts, and it was getting late.

Presumably the shop is also open.

Let's go and sell the materials first.

Lu Yuan turned off the computer and went out.

Maybe because of what happened last night, today's tenants are hiding in the room, and none of them go out.

Lu Yuan glanced at the closed room, but didn't think much.

He left the rental house and drove to the Jiuhu Commercial District.
