

Chapter 35: My Genes Evolve Infinitely

GENE PHARMACY

Jiuhu business district, crazy wolf material shop.

Just as Lu Yuan opened the door and walked in, he saw the boss sitting on the chair in front of the counter, wearing flowered pants and a big shirt, and wearing sunglasses.

The boss is the same as last time, he is still playing with his mobile phone, and he makes a cursing sound:

‘Damn, a bunch of rookie chickens, your brother can’t win you by killing you, play your sister’s game, go home and do your homework! Boom! Wow~~‘

Lu Yuan twitched the corner of his mouth:

‘Boss, I’ll sell goods.‘

The boss looked up.

After seeing Lu Yuan, he put the phone away, smiled and said:

‘It’s you? Did you come out alive from the land of origin again? Okay, brother, I came out alive twice in a row. There is something.‘

Lu Yuan smiled:

‘There are a lot of goods this time, so I dropped it on the floor?’

The boss nodded: ‘Yes, you can just throw it on the ground.‘

Lu Yuan took out all the materials in the war pattern space.

Suddenly, the small shop space was filled up with the same material as a two-meter-high hill.

boss:‘...‘

He looked up at the pile of materials like a hill, opened his mouth, and was stunned.

Lu Yuan glanced at him: ‘How about? Give me a price?’

The boss recovered, he looked at Lu Yuan, his face was a little shocked:

‘Wang~~ Brother, you killed this all by yourself?!‘

Lu Yuan was speechless:

‘Is this important? Quickly count it?’

The boss glanced at Lu Yuan again, and said, ‘It really doesn’t matter, you wait.’

He started counting in front of Lu Yuan.

‘The gray stone armor...this is the heart of the little stone man? Brother, you can already hunt the little stone man?! Amazing!’

‘Hiss...black scorpion tail needle?! This thing is good, it is very poisonous, but there are so many?! You won’t go bankrupt and buy antidote, right?’

‘It’s only been one day, brother, you are as fat as two.’

The boss seemed to be unable to stop.

Lu Yuan nodded loudly.

He looked around, found a pony, sat down, and watched the boss count.

There are a lot of things, and it took more than ten minutes for the boss to count the materials.

After seeing the black-patterned carapace at the bottom, the boss exclaimed again:

‘Good fellow! This is... the black-striped carapace of the black-striped graystone beetle. Can you actually hunt the elite beasts?’

He raised his head and looked at Lu Yuan: ‘Brother, there is a saying, you are the fastest genetic warrior I have ever seen. You can hunt down elite and beasts in just one day, very strong!’

Lu Yuan smiled, did not answer his words, and said:

‘How much? Is it clear?’

‘Who am I? Of course it is clear. The gray carapace is 189 yuan, the unit price is 150; the little stone heart is 124 pieces, the unit price is 300; the poisonous scorpion tail needles 87 pieces, the unit price is 400; the poisonous scorpion giant pliers 87 pairs, the unit price is 250; One piece of carapace, the unit price is 3000; the total price is 115,100, so you can’t be bullied!’

Lu Yuan glanced at the boss who was patting his chest, then took out the phone and settled it for himself.

Then the corners of his mouth twitched, looking at the boss and smiling:

‘115100?’

The boss moved his gaze slightly and smiled awkwardly: ‘Ah... Am I wrong? I’ll do the calculation again.’

He took out the phone and counted it again, then his face was stunned:

‘Oh, I made a mistake, it’s 125,100 in total.’

Lu Yuan sneered:

‘Forget it, I’ll take it to other places.’

He stood up, planning to put his things away and leave.

Seeing this, the boss hurriedly:

‘Eh! Eh! I made a mistake just now, it was not intentional!’

Lu Yuan stopped: ‘Who knows if you did it on purpose? It almost made me lose 10,000 yuan. Give me some mental damage expenses, which counts as 130,000.’

The boss’s face changed, watching Lu Yuan: ‘How can you take advantage of the fire! I obviously treat you as a brother!’

Lu Yuan rolled his eyes, and without a word, he planned to put his things away and leave.

‘Eh! Eh! Alright! 130,000 is 130,000. Count my fault and I will compensate you.’

Lu Yuan then smiled.

‘make a deal.’

Although the boss is a bit dogged, at least he still made a profit.

In fact, Lu Yuan had estimated before he came, the market price of these materials was indeed around 125,000.

The boss can give 130,000 yuan, 4900 yuan more, enough for him to use for several months, okay?

‘The money has been transferred to you, look at it, woooo!’

Lu Yuan glanced at his mobile phone and confirmed the receipt of the payment. A hint of excitement flashed in his eyes.

I didn’t expect Gene Warrior to make money like this. You can earn 130,000 in one night, 3.9 million in a month, and more than 40 million in a year!

How many buns can you buy?

Didn’t expect that I will become a rich man one day? !

Lu Yuan was ecstatic in his heart.

He watched the boss put the materials away, then smiled:

‘Then I will come to you next time.’

The boss nodded: ‘Okay, come and take care of me if I have business!’

‘By the way, boss, I have something very curious about.’

‘what’s up?’

‘Why are you still wearing sunglasses in the store?’

The face of the smiling boss froze.

He gave a dry cough and waved to Lu Yuan: ‘Brother, come again.’

Lu Yuan shrugged his shoulders when he saw that the boss didn’t want to say it, and didn’t ask much.

Leaving the Crazy Wolf Material Store, Lu Yuan went to the store first, and spent more than 10,000 to buy all the necessities.

This time, he even has money to buy various spices and barbecue grills.

Trying to hunt down fierce beasts in the land of origin, how come you have to eat something good, right?

It’s definitely not enough to eat energy bars all the time. I heard that the meat of the fierce beast is very delicious, so I have to enjoy it.

Reward yourself for working hard to make money and working hard to become stronger.

Other necessities, Lu Yuan also chose the best quality.

There was no money before, so he thought it could be used.

I have money now, it must be the best arrangement.

After buying various necessities, Lu Yuan still has 120,000.

After purchasing the necessities, Lu Yuan returned to the slum with satisfaction.

He glanced at the gangster holding knives and buckets on the street, then looked at the garbage on the floor, and smelled the unpleasant smell as he passed by.

The mood is much easier than before.

‘Now that I have money, I finally have the confidence to move out of this chaotic area!’

Lu Yuan returned to his simple rental room. After returning to his room, he opened Battle.net.

This time, what he wants to buy is genetic medicine.

Genetic warrior network has an online mall managed by the association. Some special genetic warriors, such as pharmacists who can refine pharmaceutical agents and foundries who build genetic weapons, will sell genetic drugs and genetic weapons on the mall.

Lu Yuan clicked to open a shopping mall and chose genetic medicine based on the classification.

Lu Yuan’s choice this time is very clear.

Healing potions are definitely needed. After all, if you are injured, if you don’t have potions, you can only heal your wounds slowly. If it doesn’t work, you can’t even hunt the beasts. You can only go out until the time is over.

If you encounter any danger during the injury, you may have to die.

These two times, he was also considered lucky. He had obtained Guardian combat skills, and his defense was fairly strong, and he was not seriously injured.

But it is impossible to be so lucky every time.

So the healing potion is a must.

According to the classification, he began to look at the therapeutic agents.

The use level of the healing potion is the same as the genetic warrior level, which is divided into apprentice level, warrior level, warrior level, warrior level, warrior level, etc.

In addition to the level of use, the healing potions are also divided into ordinary potions, superior potions, and powerful potions due to different refining materials.

Lu Yuan clicked on an apprentice-level general treatment drug product page.

, there is an introduction to the therapeutic agent.

Ordinary therapeutic agents can treat most traumas. If it is a serious injury, the treatment will take more than half an hour, and it may take several hours to heal completely.

Lu Yuan frowned slightly as he watched the introduction, slightly dissatisfied.

Although a few hours of treatment for serious injuries, it is already a medical miracle for ordinary people.

But for the genetic warrior, this is a bit slow.

He thought for a while, and then clicked on the good healing potion on the side.

The moment the product page popped up, the bright price of 30,000 yuan stopped Lu Yuan's heartbeat.

'What ghost potion?! It's so expensive? Ordinary potion is obviously only 8000, is this a money grab?'

Lu Yuan frowned, somewhat dissatisfied.

He looked at the introduction to the effect of the medicine. UU reading
www.uukanshu.com

The therapeutic effect of excellent therapeutic agents is about three times that of ordinary therapeutic agents, and most serious injuries can be treated within ten minutes to one hour.

Lu Yuan's eyes lit up a little: '...this thing is really good.'

Then he glanced at the price again, and suddenly became autistic.

'I have 120,000 left, so I can only buy 4 bottles of good healing potions?! Why am I still so poor?'

Lu Yuan stared at the excellent healing medicine for a long time, and finally gritted his teeth, endured distress and put a bottle in the shopping cart.

Anyway, sometimes this thing can save lives.

Then Lu Yuan took another bottle of common healing medicine and put it in the shopping cart.

If the injury is not particularly serious, it can be treated with ordinary medicine, which can save a little money.

Lu Yuan actually wants to buy a few more bottles, but if he buys it again, he won't have the money to buy other genetic medicine.

He had no choice but to give up.

After , Lu Yuan began to look for the boosting potion again.

After encountering the three cat hunters, Lu Yuan discovered that sometimes he still had to store a little potion as his next trump card.

Amplification potions are divided into power, speed, defense and spiritual power.

The first choice of Luyuan is the speed boosting potion.

Because what he burned is after all the supernatural guardian gene, the speed is too weak.

And the speed is fast, and you run fast when you escape.

When you use the bottom card, you probably run into a strong enemy and run away if you can't beat it.

stay in the green mountains without worrying about no firewood.

Lu Yuan looked at the normal-quality speed boosting potion and clicked on the product page.

He was a little bit bottomless, a little afraid that the price would exceed his capacity.
