

Chapter 38: My Genes Evolve Infinitely

ANT NEST

咚!

The combat skills that had dissipated on Nishiba's body were restored again, and the skin appeared light red.

He stepped on the ground, his body rushed towards Lu Yuan in an instant, and the long sword slashed towards Lu Yuan's neck.

The giant sword slashed through the air, bringing up a gust of wind.

Lu Yuan's face condensed, and he lifted his sword to greet him.

锵!

Lu Yuan felt a huge force that was much stronger than before.

His face changed slightly, and he took two steps back.

In contrast, Xiye did not take a step back.

Seeing this, Xiye showed a ferocious smile.

He snorted, and the long sword slashed towards Lu Yuan again.

The attacks continued wave after wave.

Lu Yuan's face changed slightly, he kept resisting the attack, and his steps kept retreating.

锵!

It was another collision, and Lu Yuan took a step back again and approached the wall.

But at this moment, Nishiba moved a distance to the side.

Lu Yuan heard the sharp sound of breaking through the air and felt the blazing high temperature.

Oops!

His face changed, and he quickly avoided to one side.

咻!

Arrow took the black light across Lu Yuan's shoulder, and the armor on his shoulder was torn open.

Fortunately, the arrow did not hit Lu Yuan's body.

Otherwise, even with his current defense, he would still be injured.

The fire ball passed by Lu Yuan and landed on the wall behind Lu Yuan.

Boom!

The fireball exploded, and the fire wave spewed with surging heat, and fell heavily on the back of the land edge.

Lu Yuan couldn't help taking two steps forward.

Nishiye, who had avoided before, reappeared at this moment.

His cat pupil, with a cold and playful color, clenched the hilt with both hands, and the long sword slashed towards Lu Yuan's waist.

Lu Yuan's pupils shrank, his muscles tightened, and his feet moved a certain distance.

The long sword slashed across his waist, cut his skin, and a ray of blood spilled out.

Lu Yuan breathed a sigh of relief. Fortunately, he practiced the lower body technique before.

Otherwise, this is really not necessarily avoided.

Avoiding Xiye's attack, Lu Yuan stepped back again and again.

He looked at Xi Ye and Jasmine and Nan Qi in the distance, and a cold and harsh expression appeared on his face.

A bottle of pale black potion appeared in his hand, and he raised his head to pour it down.

Ordinary defensive potion.

After drinking the potion, Lu Yuan could clearly feel that the potion turned into an invisible wave of spiritual power in his body, forming a special barrier.

He can feel that this barrier has greatly improved his defensive ability.

Normal quality defensive potions can increase the defensive ability by about 20%.

How strong is Lu Yuan's defensive ability at this moment?

increased by another 20%, and became a tense spectrum.

is the price is too high, a bottle costs 10,000 yuan.

Thinking of the price, a trace of pain flashes in his eyes.

What's special, he worked hard for so long before, and the price of the materials he obtained was almost a little over ten thousand.

This time, it's all gone.

He looked at the people in Xiye with a strong killing intent in his eyes.

Blame them on a few bastards!

What kind of medicine is it okay ? !

Seeing Lu Yuan drank the defensive boosting potion, the expressions of the three Xiye's trio changed slightly.

'Damn it! This guy actually bought a potion!'

'Nishiya!'

Jasmine in the distance called out.

Xiye looked at Lu Yuan, his eyes flashed and nodded:

'Withdraw!'

He ran in the direction of Jasmine and Nan Qi.

Lu Yuan twitched as he watched them run away.

'It's special, the labor and management drank the medicine, and the blood loss was 10,000. If you were to run away, then the labor and management would not be a human being?!'

He rushed directly in the direction where the three of them were escaping.

This wave must not let them run away!

As soon as he rushed out, Lu Yuan saw that the three of them had run for more than 30 meters.

I have to say that his speed is indeed inferior to that of the three.

Especially, now that catman swordsman and catman archer both drank the speed potion.

Although the cat-man elemental warrior did not drink the potion, he was carried by the cat-man swordsman and his speed was not slow.

Lu Yuan wanted to catch up with them, he might have to drink a good speed boosting potion.

But, that thing costs 50,000 bottles!

Now he has lost 10,000. If he kills the three hunters and doesn't drop anything good, he will lose another 50,000?

He is really unacceptable.

The most important thing is that he keeps his hole card to escape when he is in danger. It is too unworthy to use it here.

But if he doesn't chase now, he is not reconciled.

He can only grit his teeth and continue to chase the three cat hunters.

At the same time, he made up his mind secretly

After he breaks through to the first level, the burned genes must be of the speed type!

As soon as the two sides chased and fled, it didn't take long for Lu Yuan to realize that the distance was getting farther and farther.

The three cat hunters were already about fifty meters away from him.

In a short time, he was thrown away by twenty meters.

'Am I a tortoise?!'

Lu Yuan couldn't help but scolded himself.

The fire light in the underground palace passage was dim, and there was darkness in the distance. If they ran a long distance, Lu Yuan might not even be able to see them.

Fortunately, there is no other side road here, otherwise, I am afraid he will be thrown away by these three cat hunters now.

But if you continue, sooner or later you will hit a fork in the road.

Then it will be a matter of time before he gets thrown off.

Just when Lu Yuan's face was ugly, a low growl suddenly came from a distance.

Lu Yuan's eyes lit up, and it was Xiao Shiren's voice.

He saw two gravel piles in the distance, and the stones of the two little pebbles were flying towards the three cat hunters.

Lu Yuan couldn't help but smile.

However, his smile just appeared, and two fireballs blasted on the gravel pile.

The two gravel piles have not been transformed into a pile of real gravel.

Neither the Catman Swordsman nor the Catman Archer is required.

The cat-man elemental warrior being carried on his back is completely free to deal with the beasts he encounters.

At this level of proficiency, these three cat hunters have been hunted down a lot.

The smile on Lu Yuan's face froze.

Xiaoshiren is too dish.

The current strength of these three cat hunters is not much different from the potion he drank.

is simply unstoppable by the little stone man.

Lu Yuanxin chilled again.

However, Lu Yuan still did not give up chasing.

He is still a little unwilling.

Maybe this road is a dead end?

Then how will these three ** run?

Lu Yuan was a little expectant.

ran for a while, and the three cat hunters were getting closer and closer to the darkness.

Nan Qi lay on Xiye's back, and a fireball shot and killed a black scorpion who wanted to attack them.

He turned his head and glanced behind him.

Lu Yuan, who was more than 70 meters away, stared at them coldly.

Nan Qi was happy, grinning provocatively:

'Human! With the speed of your tortoise, you want to catch up with us?! In the next life!'

Jasmine, carrying a long bow, gave Nan Qi a white glance:

'We haven't escaped yet.'

Xiye's face was cold: 'This human being probably hates us to death.'

'There is no way, after all, I have encountered it twice. I didn't expect his strength to increase so fast, it was obviously not easy to deal with Xiye last time.'

Jasmine's face is ugly:

'This guy is probably a genius.'

Nan Qi grinned, a little indifferent:

'What about a genius? The big deal is that we will walk around him when we meet him. He is a guardian, so slow, can he still chase us down?'

‘Well, let’s escape this time.’

‘Why haven’t we crossed the road...’

Jasmine frowned and spoke.

However, she didn’t finish her words. The ground she had just stepped on suddenly cracked and a big hole appeared, and she fell down.

It’s not just her, Xiye next to her and Nan Qi who Xiye carries on his back also fell.

fell about five meters, and they stepped on the ground again.

But this time, their faces were pale.

‘Damn it! It’s an ant nest!’

‘We are too unlucky, right?! Encountered an ant nest?!’

Jasmine and Nan Qi’s eyes are full of despair.

Nishiba also twitched the corners of his mouth.

He looked at the aisles on both sides of the surrounding area.

The passage in the ant nest has no torches, and with the vision enhanced by the genetic warrior, it can only see a distance of no more than five meters.

It was pitch black in the distance.

However, the genetic warrior’s extraordinary hearing allowed him to hear a murmur of sound approaching quickly.

Nishiba’s pupils shrank: ‘First think of a way to go up!’

‘No, it’s the human above! He can’t wait to tear us up!’

Nan Qi quickly spoke.

Nishiba's mouth twitched.

At this moment, Jasmine's face changed drastically, 'Here!'

Upon hearing this, Nan Qi and Xi Ye also changed their expressions.

They looked around, the dim passages on both sides, all yellow and about one meter high, crawled out from the depths of the passage like giant dogs.

Digong sand ants.

The strength ranges from 10% to 99%, and it is one of the most powerful groups in the sandstone underground palace.

The ant nest of the sandstone underground palace can be said to be distributed throughout the sandstone underground palace.

The deep black eyes of the sand ant of the underground palace stared at the three cat hunters, and the tentacles on their heads kept shaking.

After a while, several underground sand ants screamed and rushed towards the three cat hunters frantically.

Pheromone determination, it is an intruder!
