

Chapter 44: My Genes Evolve Infinitely

THE RUINS OF THE UNDERGROUND PALACE

After the two added friends, Lu Yuan said goodbye and left.

As usual, after going to the mall to replenish the necessities for the next entry into the Land of Origin, Lu Yuan returned to his rented house.

Ma Lingling's room door was open, and there was the sound of something toppling over.

Lu Yuan raised his eyebrows and walked over.

As soon as he entered, Lu Yuan saw Ma Lingling and Li Qinghe packing their things.

Lu Yuan was taken aback: 'What's the matter?'

Li Qinghe glanced at Lu Yuan and smiled: 'Brother Yuan is back? Sister Ma is going to leave here.'

Lu Yuan looked at Ma Lingling.

Ma Lingling's eyes were red and swollen, and she smiled at Lu Yuan, bitterly indescribable: 'Awei is no longer there. It's boring for me to stay here alone. I also plan to visit Awei's hometown first.'

Lu Yuan didn't say much, he nodded: 'Then I wish you well.'

Ma Lingling smiled, put the photo taken on the desk solemnly into the corner of the suitcase, and carefully put away the plastic rose that had faded from the paint.

Lu Yuan stepped forward and said with a smile: 'I'll help too.'

Ma Lingling didn't have many things, and she quickly packed into a few boxes.

After , Lu Yuan went downstairs with a few boxes, and the three of them came to the gate of the community.

Ma Lingling stopped a floating car, turned to look at Lu Yuan and Li Qinghe, and smiled:

‘I’m leaving, I hope the two will live well in the future and leave this ** soon.’

Lu Yuan and Li Qinghe also nodded.

Watching the floating car leave, Li Qinghe sighed lightly and took a breath of smoke:

‘Huh... I always knew that people in the slums were worthless, but I didn’t expect to see someone dying next to me.’

Lu Yuan nodded, then he smiled:

‘Sister Qinghe, I made more than 400,000 yuan this time, enough for us to move.’

Li Qinghe heard Lu Yuan’s words, a flash of surprise flashed in his eyes.

‘More than four hundred thousand, how much material do you have to sell? Didn’t the brother Yuan just wake up? Can you bring so many materials out? His strength is already so strong? It seems that I still underestimated him.’

Li Qinghe’s thoughts flowed, looking at Lu Yuan’s expression, he couldn’t believe it, and said:

‘More than four hundred thousand? Is that much? So genetic warriors make money so much?!’

Lu Yuan smiled and said: ‘I am good at making money, so it is easier to make money, and this time I have good luck and got some valuable things.’

Li Qinghe nodded and said with a smile: ‘I don’t understand the genetic warrior thing, but you are promising now, brother Yuan, and you can make so much money. No wonder you dare to tell me to pay for food.’

Lu Yuan smiled and said, ‘Leave aside this, let’s leave the slum.’

Li Qinghe was silent, and then sighed: ‘Fate brother, sister’s affairs have not been finished yet, why don’t you leave first?’

Lu Yuan frowned, ‘How can you do that? What can you tell me, maybe I can help you. There is still that weird shadow, the slums are very dangerous, you are alone and I am not too rest assured.’

Li Qinghe looked at Lu Yuan and showed a smile.

Lu Yuan was seen a little embarrassed: 'What's the matter?'

'Do you know what's going on? You can't help sister, brother, brother.'

Lu Yuan saw Li Qinghe's expression, and the corner of his mouth twitched, and he didn't dare to ask more.

He said, 'If this is the case, then I will wait for you to finish it.'

Li Qinghe spit out the smoke ring, his eyes softened, and smiled:

'Really want to take my sister out of here?'

'Of course, my sister is the only person who cares about me right now. If it weren't for you, I'm afraid I wouldn't be able to survive in the slum area. Of course I can't leave you alone.'

'Well, I'll finish it as soon as possible. Go back to bed, I haven't slept when I come back, I'm exhausted.'

.....

Back to the room, Lu Yuan opened the battle.net again.

This time, he has money, and he has the confidence to look at other medicines.

The potions purchased before, the ordinary healing potions were used up during the battle.

There is one bottle of good quality left.

Lu Yuan bought another bottle of good quality.

also continued to buy a bottle of good quality speed potion.

bought two more bottles of good quality defensive potions.

Not only that, Lu Yuan also bought two bottles of high-quality power augmentation potions.

30,000 healing potions, 50,000 speed potions, and 70,000 defensive potions. The price of power potions is the same as that of defense potions, and two bottles are also 70,000.

adds up to a total of 220,000.

In addition to these, Lu Yuan also bought some other refined items that can be used in the land of origin.

may be available when.

a total of 150,000 was spent.

There are a lot of people, Lu Yuan spent 370,000 yuan, and the money in his pocket has shrunk again, leaving only more than 70,000 yuan.

However, Lu Yuan was still very satisfied.

Think about it a few days ago, his monthly living expenses were only a few hundred yuan, and Sister Qinghe had to support him even for meals.

A few days ago, I certainly couldn't think that I could still have today, and I could spend hundreds of thousands at hand.

.....

The place of origin, the small bazaar of the sandstone underground palace.

Lu Yuan walked out from the entrance of the underground palace.

As soon as he came out, someone in the market greeted Lu Yuan with a smile.

'Lu Yuan, are you out again?'

'Brother Lu, what have you gained this time?'

'Seeing that you can bring out so many fierce beast materials every time, I am also jealous. It is a pity that I don't have such a strong defensive ability as you.'

Among these people, whether they are humans, elves, cats or kobolds.

Lu Yuan smiled and nodded in response, and came to Li Luo's booth.

Li Luo saw Lu Yuan, his eyes lit up, and a bright smile appeared:

'Mr. Lu, are you here again?'

'Well, give me a price.'

Lu Yuan poured out the materials in the war pattern space and piled them into a hill.

‘The snake skin and venom sac of the black thread snake, Mr. Lu, you can already kill the black thread snake? The black thread snake is already a fierce beast near the inner circle of the underground palace?’

Li Luo couldn’t help widening his eyes when he saw Lu Yuan’s material, and exclaimed.

Lu Yuan smiled:

‘Not bad luck, I ran into a few black snakes that were alone.’

Black thread snakes usually live in groups, and their individual strength is 50% to 80% ordinary tempering degree, and their strength is very strong.

If besieged by snakes, it is no safer than falling into an ant nest.

Therefore, the number of genetic warriors who can hunt black snakes is extremely small.

Lu Yuan also encountered the black thread snake that was alone in order to kill.

In the past few days, Lu Yuan has entered the Land of Origin several times.

With his strong defensive ability, he is rampant in the underground palace and can obtain a lot of spirit crystals and materials every time.

And his genetic refinement has reached 39%.

This has surpassed Zhuo Ming and Winnie.

It hasn’t been a month since he awakened, and one can imagine how fast he has improved.

Because of the continuous improvement of his strength, coupled with the presence of good potions, Lu Yuan can even more open his hands and feet to explore the underground palace.

The underground palace area that he enters every day is getting deeper and deeper, and the fierce beasts killed are getting stronger and stronger.

The number of beasts hunted every day is also increasing.

Once a day, he would go out of the underground palace and go to Li Luo to sell materials.

As the number of visits increased, Lu Yuan gradually became familiar with the genetic warriors in the small bazaar.

The genetic warriors who often hang around in the market know that there is a very young human genetic warrior who can hunt down a large number of beasts every day and bring back a lot of materials.

In addition, Lu Yuan can also encounter genetic warriors from time to time in the underground palace.

Those genetic warriors have also seen Lu Yuan's powerful strength, and when they chatted and exchanged in the market, they naturally spread.

For a time, Lu Yuan gained a certain reputation in this market.

Because Lu Yuan used the body of black iron, his skin turned into the color of black iron. He was also a guardian, and he was also given the title of 'Black Knight'.

You must know that only those genetic warriors who truly possess not-so-weak strength can be recognized in a small circle and earn a name.

This is a symbol of strength.

The circle of this small bazaar obviously regards Lu Yuan as a powerful powerhouse.

'If you want to hunt the black thread snake, it's not just luck. You can't do it without strength.'

'A total of 3021 Lingjing, UU reading www.uukanshu.com are all here, Mr. Lu, please count them.'

Li Luo took out the Lingjing.

In the past few days, he has earned more than 30,000 spiritual crystals, but most of the spiritual crystals Luyuan have invested in the Evolution Cube.

After this evolution, I still need to use it next time, so it's better to charge it first.

left about 10,000 spiritual crystals, which Lu Yuan used to cultivate and absorb spiritual power.

Lu Yuan took the spirit crystal and put it into the war pattern space.

‘No, I have cooperated so many times, I believe you.’

Li Luo suddenly smiled upon hearing Lu Yuan’s words.

is recognized, especially recognized by the strong, anyone will be happy.

‘That’s right! Mr. Lu, I have a news here, maybe you will be interested.’

‘Huh? What news?’

Lu Yuan raised his eyebrows and looked at Li Luo curiously.

‘That’s it. Someone found a ruin in the north of the inner circle of this underground palace area, and many people are planning to visit the ruins.’

‘Remains?’

Lu Yuan’s pupils shrank, showing a look of surprise.

In the place of origin, where there are most treasures, it is not a treasure chest that appears randomly.

is a ruin that does not know where it will appear.

How did the ruins of the origin appear? No one knows.

Unlike treasure chests, the ruins seem to be leftovers from other civilizations.

There are various dangers in , but it also possesses the knowledge and treasures left over from that civilization.

The discovery of every relic will make the genetic warriors rush and be crazy about it.

Didn’t expect that there is still a ruin found in the sandstone underground palace? !

Lu Yuan’s heartbeat speeds up.

He is going to have a look.
